## Labor Party Moves For Showdown On Secrecy Issue

LONDON (AP)—The Labor party moved today to force a House of Commons showdown on the failure of the United States to notify Britain in advance of the Yalu River power plant bombings in North Korea. The party filed a formal motion, for debate next Tuesday, demanding that the Conservative government make "improved arrangements" for prior consultations on such matters in the future. The resolution also "regrets" the failure of the government to obtain such consultation prior to the Yalu River strikes.

Such a motion could be construed by Prime Minister Winston Churchill as a motion of censure of his government and—if carried—could force him to ask for the dissolution of Parliament and a new election.

**CHURCHILL HAS OPTION**

Parliamentary press veterans said, however, that the resolution was mildly-enough worded so that Churchill has the option of not accepting it as a censure motion.

The text of the resolution:

"While appreciating that the government and armed forces of the U. S. A. have borne the major share of the burden of resisting armed aggression in Korea, (the House of Commons) regrets the failure of the government to secure effective consultation on the timing of certain air operations; and considers that improved arrangements should now be made to enable such consultations to take place between the governments principally concerned on issues of United Nations policy in the Far East."

State Secretary Dean Acheson apologized to members of Parliament yesterday for U. S. failure to notify Britain of the Yalu raids in advance and explained the circumstances of the oversight.

Earlier, he had notified Foreign Secretary Anthony Eden that the U. S. would be happy to have a British officer on the staff of Gen. Mark W. Clark, the U. N. commander in the Far East, for closer liaison.

An informed source said Acheson told the Parliamentarians American officials had intended to inform Defence Minister Earl Alexander of the bombing plans while he was in Washington, but there was a snafu—there was confusion as to whether the Defence Department or the State Department was to tell him and as a result no one did.

Acheson was quoted as saying he was sorry, but that the air strike was justified on military grounds. After his speech the Parliamentarians applauded and gave him a vote of thanks, the informant said.

Labor, spurred by Acheson's apology, were confidently predicting the overthrow of the Churchill government.

"I think we shall be in power again very shortly," the former Labor prime minister, Clement Attlee told a meeting of Socialist unions last night.

The mild tone of his censure motion, however, led some political observers to speculate that Labor is not anxious for an all-out test of strength right away.

Churchill has already taken much of the sting out of the motion by gaining President Truman's approval to a high-level British link with the United Nations forces fighting in Korea.

## S. African Police Jail Two Top Non-Whites

JOHANNESBURG, South Africa (AP)—Armed security police arrested two top leaders of South Africa's non-white campaign against racial discrimination today.

The campaign started yesterday and police seized 140 persons for various violations of segregation laws. The demonstrators are purposefully violating the laws and courting arrest. The idea is to arouse South Africa's 10,000,000 non-whites to similar tactics and flood the country's jails beyond capacity.

The two leaders arrested today were Yussif A. Cachalia, secretary of the campaign, and Nelson Bandela, a Negro member of the executive of the African National Congress. Cachalia is also a leader of the South African Indian Congress. The formal charge against them was not announced.

**103 ARRESTED**

Cachalia and Bandela went along quietly with police—they have stressed the idea of non-violence—after leaving their headquarters, which served as the nerve centre for the campaign.

Yesterday 103 non-whites, mainly Negroes but including a handful of Indians, were arrested for breaking racial laws in Boksburg and Johannesburg. Thirty Negroes were jailed in Port Elizabeth and five in Durban.

The impact of the campaign on white persons may have been reflected in an election in rural Wakkerstrom, where the white voters endorsed Prime Minister Daniel Malan's tough racial and right-wing policies. They gave the Nationalist candidate for a vacated seat in Parliament a majority of nearly 1,000.

Cachalia said in an interview prior to his arrest that "give us six months and we will have 200,000 volunteers ready to go to jail." Those arrested yesterday plan to enter pleas of guilty, which will make them subject to sentences of up to 30 days in jail.

## Hi-Jacked Plane Heads For Home

FOLIGNO, Italy (AP)—A Yugoslav airliner, hi-jacked and landed here by three young mechanics "seeking freedom," took off early today for home.

The three Yugoslav refugees—who asked political asylum and said they wanted to go to the United States—remained here and were questioned by police.

The other nineteen passengers and five crew members who made the unexpected visit to Italy left with the plane. All said they wished to return to their Communist-ruled homeland.

The three mechanics seized the plane yesterday as it was on a regular flight over Zagreb to Pola, south of Trieste in Yugoslavia. They took over the plane at pistol point.

## Raid Korean Colony In Tokyo, Seize Arms

KYOTO, Japan (AP)—Kyodo news agecy reported today 1,000 police raided a Korean settlement near here at dawn, arrested seven persons suspected of attacking officers and confiscated North Korean flags, bamboo spears, hand grenades and American-made cartridges.

Police said they believe inhabitants of the 60-house settlement are connected with this week's Communist rioting in which 188 police and more than 50 demonstrators were injured.

## Chatham Fire Guts Four Stores

CHATHAM (CP)—Damage estimated at $200,000 was caused by fire which raged through a south Chatham business block early today and made 22 apartment dwellers homeless.

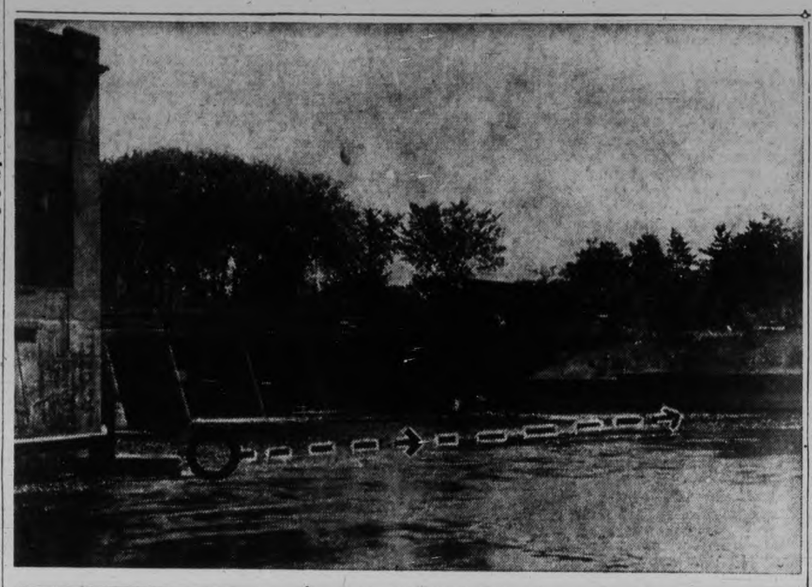
The blaze destroyed a block of three stores and six apartments and another building containing one store and two apartments.

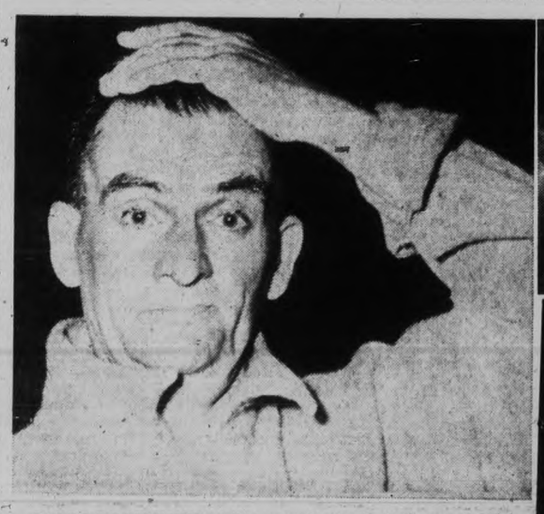
It took all the city's fire-fighting forces more than three hours to put out the blaze which brought out thousands of spectators.

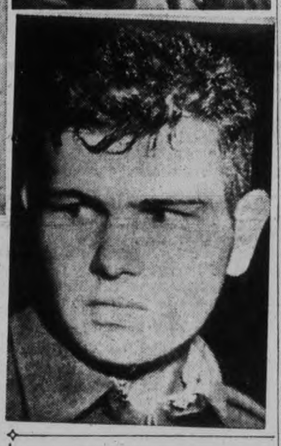
No one was seriously injured, although one unidentified woman suffered minor cuts when struck by a falling ladder. Several firemen were overcome by dense smoke but were revived.

Three stores and a real estate office were gutted. Firemen said about 10 apartments also were extensively damaged.

# Saved From Dam Raceway, Man Dies Six Hours Later







*FIRST DROWNING of the year in the Peterborough district occurred Thursday night when 31-year-old Robert Rendall of Aylmer St., just out from Scotland a year, slipped into the raceway below the waterworks dam, a quarter of a mile north of the city. Circle shows where Rendall tried to step into a moored motor boat and toppled into the river when the boat overturned. Partly carried by the current and partly swimming he got to within 20 feet of the east bank. There he disappeared in the current and he was not located until after he had been in the water about 15 minutes. His companion, 47-year-old Orville Sugden, a neighbor, is shown (above) still dripping wet after plunging into the river and swimming after him in a vain rescue attempt. Rendall and his young wife, Mary, are shown (right centre). And below is Terry Leggott, 16, who dived several times to try and locate the missing man. Rendall remained alive, though unconscious, for about six hours.—(Examiner Staff Photos)*

## Faint Pulse Stops In Hospital

### Year's First Drowning Brings Tragic End To Fishing Trip

Robert E. Rendall, 31, of 764 Aylmer St., died in St. Joseph's Hospital at 3:20 a.m. today, nearly six hours after he was pulled from the raceway of the city waterworks dam. He had been in the water about 15 minutes when his rescuers located him and began to apply artificial respiration.

Rendall was a Scotsman who had been in Canada nearly a year. He leaves a wife and a three-year-old son. He was employed at C.G.E.

It is the first drowning of the season in the Peterborough district.

**DETECT FAINT PULSE**

City firemen worked on him for just over an hour and he was then taken to hospital, still alive. A faint pulse and heart beat were detected. He died in the operating room at 3:20 a.m.

The fatal accident was the tragic end of a fishing trip that had been arranged by the wives of Rendall and Oliver Sugden, who lives across the road at 739 Aylmer St. The two men were only casual acquaintances.

They chose to fish from the cement pier that borders the south side of the waterworks building, on the west side of the Otonabee River, about a quarter of a mile north of the city.

Rendall apparently decided to cast from the stern of a boat owned by Sugden that was tied up to the pier. He attempted to step into the boat but his foot landed on the gunwale; the craft spun around upside down and he was thrown into the water.

As he was not a strong swimmer Rendall was carried out into the centre of the river by the strong current. Then, alternately swimming and allowing himself to be carried along, he tried to reach the east bank. He failed by 20 feet.

FAINT PULSE

(Continued on Page 2)

## Riding Shift Joins Part of Frontenac To Peterborough

OTTAWA (CP)—Six new federal constituencies will be established in Ontario as a result of a readjustment of representation in the Commons. An all-party committee of the Commons, studying redistribution of representation on the basis of the 1951 census, last night recommended establishment of the new constituencies. The recommendations are subject to approval by the Commons and the Senate. The redistribution will increase Ontario representation in the Commons to 85 from 83 seats.

A new seat will be established in Northern Ontario. It will be known as Nickel Belt and will obtain territory from the constituencies of Sudbury, Nipissing and Algoma East.

Another will be in the Niagara peninsula. The large Welland riding, represented by Dr. W. H. McMillan, Liberal, will be divided, with the new section known as Niagara Falls.

The committee already has approved the amalgamation of two constituencies and is expected to deal today with the amalgamation of others.

In eastern Ontario, Glengarry and Prescott, both held by Liberals, are being joined into one constituency. Frontenac - Addington, held by W. R. Aylesworth, Progressive Conservative, will be split and joined with the constituencies of Kingston City and Hastings-Peterborough.

Haldimand constituency, represented by Earl Catherwood, Progressive Conservative, and one of the Huron seats also are scheduled to be eliminated.

Three new seats will be in the heavily-populated York areas around Toronto. York East, represented by R. H. McGregor, Progressive Conservative, now has a population of 159,652; York North, held by J. E. Smith, Liberal, 122,538; York South, held by Joseph Noseworthy, C.C.F., 92,258; York West, represented by Rodney Adamson, Progressive Conservative, 126,420.

As a result of the addition of three seats the population in the York constituencies will average 67,000. The new seats will be known as York Humber, York Centre and York Scarborough.

Except for Toronto Danforth, which now has a population of 44,555, the Toronto city ridings will be left largely unchanged. A large section of Scarborough township will be added to Danforth to increase its population to 71,000. Danforth is represented by Joseph Harris, Progressive Conservative.

A new seat will be established in Hamilton and will be known as Hamilton Southeast. It will consist of parts of the existing constituencies of Wentworth and Hamilton East.

## Exports In May Hit Record $385,200,000

OTTAWA (CP)—Accompanied by an historic shift in the pattern of foreign trade, Canada's exports during May jumped to an all-time monthly high of $385,200,000, an 18-per-cent, $58,000,000 climb from $327,000,000 last year, the Bureau of Statistics reported yesterday.

The boost was accomplished mainly by an expansion in volume of shipments to the United Kingdom and overseas countries, overcoming a drop in sales to the United States.

**U.S. SHARE OFF**

As a result, the proportion of total exports going to the U.S. market dropped to 52.2 per cent during May from 64.5 per cent in the same month last year.

The change in trade pattern of placing new emphasis and importance on Canada's overseas markets, was reflected not only in the month's exports but in shipments for the first five months of the year.

Exports jumped $289,000,000 to $1,735,900,000 from $1,446,700,000, but the proportion absorbed by the U.S. dropped to 53.8 per cent from 64.5 per cent in the same period last year.

**REVERSAL OF TREND**

This was a sharp rversal of the trend in the last decade which saw Canada lean more and more on the American market as her chief export outlet. For example, the U.S. absorbed 41 per cent of Canada's exports in 1939, but took more than 64 per cent in 1950 and 1951.

A major factor in the 1952 shift undoubtedly was foot-and-mouth disease which cut Canada's meat and cattle shipments to the U.S., but there also was a decline during May in the value of shipments of such items as wood, paper, fibres, textiles and chemicals.

In a previous preliminary statement, the Bureau estimated Canada's import during May at $387,900,000, down from $405,100,000 last year, but still ahead of exports. This caused a $2,600,000 monthly deficit, the first of the year.

This was a sharp reversal of the

## Limit Imports Of Dairy Foods

WASHINGTON (AP)—The House of Representatives yesterday passed legislation providing modified import restrictions on cheese and other dairy products, thereby spurning President Truman's request for outright repeal.

The provision was included in a new defence production act. The present law expires July 1.

Canadian cheese producers have been urging that the U. S. restrictions be removed.

Voting renewal by a vote of 211 to 185, the House approved an amendment to empower the agriculture secretary to set import quotas on fats, oils, cheeses, butter, other dairy products, rice and peanuts. He could stop imports altogether or permit increases if he decided world market conditions warranted it.

The House rejected by a vote of 105 to 25 a proposal to repeal the expiring import restrictions as requested by the administration.

This provision, approved last year, limits imports of cheese and the other products to 50 per cent of the average imports during 1947-49.

## Oshawa Wood Firm Fire Loss $100,000

OSHAWA (CP)—The Courtice plant of Oshawa Wood Products Company was destroyed early today in a $100,000 fire which also burned an adjacent frame house to the ground.

William Henry, owner of the two-storey dwelling, his wife and six-months-old baby, escaped the blaze in their night attire.

Regarded as one of the most modern plants in the district, Courtice also was equipped with the latest wood-working machinery. Two carloads of plywood also were destroyed.

## Wring Hard

*LONDON (CP)—A British tourist writing to a London newspaper advised that a hotel in Switzerland dispalys this sign in its bathrooms: "For baths, please wring the chambermaid."*

## House May Meet In November

OTTAWA (CP)—Prime Minister St. Laurent said today "momentous decisions" in the international field may make it necessary for Parliament to meet again before next November.

He made the statement before obtaining approval of a motion adjourning the current session, when its work is concluded, to Nov. 20. The work is expected to be completed either tomorrow or early next week.

Mr. St. Laurent said the international situation has not worsened, but it has reached a position where momentous decisions may be reached. Such decisions might require Parliament to meet.

## Korean Hydro Plants Hit Again By 150 U.N. Aircraft

SEOUL, Korea (AP)—Allied fighter-bombers heaped new destruction on Communist hydro-electric plants in North Korea last night. Targets included two big generating stations which previously had been spared. United Nations infantry drove two Chinese battalions off two hills on the western front yesterday, at times using bayonets and flame throwers to rout the Reds from their bunkers.

A Fifth Air Force spokesman called the 150-plane raid on the Communists' North Korean power network a mopping-up operation but the number of planes involved and damage reported by returning pilots were impressive.

Two power plants at Changjin (Chosin) were hit for the first time. Other planes dumped bombs and rockets on a third Changjin generating station and one at Fusen which already had been smashed in raids Monday and Tuesday.

KOREAN HYDRO PLANTS

## Young Rabbi Found Beaten To Death

NEW YORK (AP)—A young rabbi was found beaten to death in a Brooklyn park early today.

Police probed several curious angles in the death of Rabbi Samuel B. London, 23, who left his home at about 9:30 last night to pray at a nearby synagogue.

A couple of strollers found his body on a walk in a park a mile distant about 1:30 a. m. A gold wristwatch and a wallet in a pocket had not been touched.

With robbery apparently ruled out, police hunted for any other possible motive.

London's father, Herman, and sister, Shirley, told police that the young rabbi left home with Rabbi Joseph Leviton.

## Admits Setting Fire That Took 8 Lives

NEW YORK (AP)—Police said today a man who set fires during a period of years because he liked excitement has confessed setting the fire that took seven lives in a Brooklyn tenement June 18.

He was arrested by Detective Frank Weldon, who trailed him from the scene of another incendiary fire this morning.

## Dream Comes True

*UNITY, Sask. (CP)—Mrs. H. H. Miller dreamt two years ago that a branch on a large tree in front of her home broke off and hit a passer-by. The other day a friend was cutting the limb from the tree while Mrs. Miller stood guard. Mrs. Charles Gordon approached. She was knocked down by the heavy branch.*

## Expect Atomic Electricity Within Decade In Canada

ANN ARBOR, Mich. (AP)—Atomic electricity is expected to be an accomplished fact in Canada within a decade, according to J. Lorne Gray, general manager of Atomic Energy of Canada, Ltd.

"We fully expect to produce in Canada a privately operated (atomic) reactor for the production of electric power within 10 years," he told opening sessions of the University of Michigan's summer law institute here yesterday.

About 200 lawyers and business executives were on hand for the three-day meeting on the subject, "atomic energy—industrial and legal problems."

Gray said Canada plans to develop an experimental power producing reactor "within the next four to six years with which to feed one of the electric power grids in the Dominion."

**COAL, OIL COMPETITION**

"We are convinced, even with our present incomplete knowledge of this technology, that fission of natural uranium will produce energy that can and will compete economically with coal or oil," he said. "We are thinking at this stage of quite large central power stations."

Other opening day speakers voiced similar optimism for American production of atomic electricity.

Walker L. Cisler, president of Detroit Edison Co., predicted that nuclear heat will offer the possibility of great savings in coal resources.

Edwin J. Putzell, Jr., secretary of the Monsanto Chemical Co., predicted the development was "only four or five years away."

### Herbert Morrison Complains

## Protests U.S. Intervention In British Politics

LONDON (Reuters)—Herbert Morrison, foreign secretary in the former Labor government, yesterday protested against what he called a tendency of United States "departmental officials" to intervene in British politics.

His statement followed reports from Washington that Morrison, during his visit to Washington last September, had approved a list of Korean targets for possible bombing, including the Yalu River power plants raided earlier this week.

"It is true the United States government conferred with myself and my colleagues of the Labor government as to the measures which might be taken in the Korean military operations in certain circumstances," he said, adding:

"Those circumstances were:

"1. That truce talks had broken down; and

"2. That serious large scale military operations had been resumed.

"Neither of these circumstances obtains today."

In a press statement, Morrison said:

**U. S. INTERVENTION**

"I am and always have been a warm supporter of cordial Anglo-American relations. For that reason I regret what appears to be the tendency of departmental officials of the United States administration to intervene in British politics and to use confidential communication between former British governments and the United States government in the process.

"There was the false allegation about our agreement with Mr. John Foster Dulles (former U. S. State Department adviser) and Japan's future relations with China. Now we have the Washington intervention in relation to the House of Commons proceedings about the bombing of the power stations in Korea as to which the British government was not consulted."

(The reference to Dulles concerned Morrison's allegation that the U. S. had put pressure on Japan to recognize the Chinese Nationalist government. This, said Morrison, was contrary to agreement reached between himself and Dulles on the Japanese peace treaty.

(State Secretary Dean Acheson of the U. S. denied that Dulles had put pressure on the Japanese Prime Minister, Shigeru Yoshida.)

"This practice of inspiring or making ex-parte statements about such diplomatic exchanges is not helpful to Anglo-American relations," said Morrison. "It makes frank diplomatic exchanges impossible."

## Highest UK Court Approves Custom Of Drinking Afloat

LONDON (AP)—The highest court in the United Kingdom stamped its approval today on the old custom of cruising for boozing.

Rayner Goddard, Britain's lord chief justice, ruled specifically that pub closing hours have nothing to do with fun and games on the Thames.

And the same goes for bars on the other inland waters, sea ports, airways and railroads.

News of the finding was greeted by a great sigh of relief from drinkers, boat owners and the state-owned air and rail services. All were badly shaken when a Liverpool magistrate held three months ago that pub hours of the district were binding on bars afloat, aloft or a-rail.

Average saloon hours in Britain are 11:30 a. m. to 3 p. m. and 5 p. m. to 10:30 p. m. Seasoned drinkers are prone to fill in the arid time by resorting to the pleasure boats.

The high court ruled rescuing the imperilled custom came in a case in which two boat-owning brothers sued themselves.

In order to find out where they stood, Frank and Thomas Green, who run a Thames cruiser fleet, asked for an injunction to make their own company quit selling liquor after pub hours.

Lord Goddard ruled that since saloon opening and closing time varies in the boroughs adjacent to the route of the fleet, it is not feasible to make the boats conform.

# Charge 'Cover-Up' In Hearings On Cattle Disease

OTTAWA (CP)—The Commons yesterday began study of $60,000,000 in estimates for Agriculture Department but immediately became embroiled in a debate, sometimes turbulent, on the handling of the foot-and-mouth disease outbreak in Saskatchewan. At one point the Progressive Conservatives' chief farm critic, Arthur Ross (P.C.-Souris), accused the Agriculture and Immigration Departments of "gross negligence." The Immigration Department had not properly screened immigrants from Europe, where the disease is widespread, until the outbreak in Canada and the Agriculture Department hadn't handled the diagnosis properly, he said.

At another point Agriculture Minister Gardiner said methods of diagnosis—the same as used in the United States—might have been subject to natural mistakes. But it was not right to say they were necessarily due to negligence.

A minor uproar developed after John Charlton (PC—Brant), a veterinarian, charged there had been "cover-up" attempts on the part of the government in protracted committee hearings on the handling of the disease which had engendered an American embargo on Canadian meat.

Dr. E A. McCusker, Parliamentary assistant to Health Minister Martin, referred to Mr. Charlton as a "pseudo veterinarian" and described his statements as "drivel." He eventually withdrew the remark after a protest from George Drew, Progressive Conservative leader.

The C.C.F. also joined the attack. Percy Wright (CCF—Melfort), chief farm spokesman for his party, said there certainly was "whitewash" by the Commons agriculture committee in its foot-and-mouth investigation.

**NO NEW FACTS**

Actually, however, the debate broke little new ground from that already discussed by the agriculture committee.

Mr. Gardiner himself didn't get a chance to make a general reply to the new Opposition attack. But G. M. Ferrie (L—Mackenzie) said if there was anything that had done harm to Canada's big cattle industry, it was "the long weary talk we've had" about foot-and-mouth disease.

Canada wants the U.S. embargo lifted, Mr. Ferrie said. But after reading "the stories we've heard tonight" the Americans would conclude that foot-and-mouth disease is still prevalent in Canada.

During the day the Commons' approved $107,000,000 in estimates for the Public Works Department. Works Minister Fournier outlined works proposed on bridges, dams and buildings in the coming year in various parts of the country.

**TO SELL CANNED PORK**

Mr. Gardiner made a short general statement when the House took up his estimates totalling some $74,000,000. He said that in due course Canada will dispose of all the frozen grain from the 1950 crop, that there was no difficulty in marketing Canadian cattle and hogs until the U.S. embargo and that the government now is buying a lot of pork and canning it.

He said the government probably will take a loss on the canned pork. It will be put on the market soon and as much as possible will be sold.

The Canadian meat price level had been pretty well stabilized despite the foot-and-mouth outbreak and its consequences. This had been accomplished with the help of the three-way arrangements with Britain and New Zealand to dispose of surplus Canadian beef.

Up to now, Britain had accepted about 30,000,000 pounds of Canadian beef, half of which already had been sent to her.

As a result of this, he said, the Canadian meat market was only one or two cents below what it had been when the foot-and-mouth disease outbreak hit in Saskatchewan.

**CHARGES 'COVER UP'**

During the heated discussion on foot-and-mouth disease, Mr. Charlton said there had been a "cover-up" clause in the agriculture committee's report on the disease.

That was in its reference to stomatitis, a disease with symptoms similar to those of foot-and-mouth. The infection in the west was first diagnosed as vesicular Stomatitis.

Mr. Charlton said the disease was diagnosed "more or less accidentally" at the Hull, Que., laboratories of the Agriculture Department as foot and mouth eventually.

There had been a "stubborn attitude" on the part of the officials of the Agriculture Department.

In view of serious outbreaks previously in Britain and the European continent, the Immigration and Agriculture Departments should have taken precautions against carriage of the virus by immigrants.

**IMMIGRANT BROUGHT VIRUS**

Mr. Charlton said it is his opinion that there is no doubt the disease was brought to Canada by Willi Bruentjen. He did not mention Willi by name, but said there were only 17 days from the time the "immigrant" left his farm in Europe until he landed on the Saskatchewan farm where the disease developed.

Mr. Charlton said the main criticism against the Agriculture Department was its "lag" in diagnosis. He had no criticism against the way measures for restricting the disease were taken after the original diagnosis was established.

**DEMOLITION FRAMEWORK**

Tube metal scaffolding has been erected along Simcoe and Water Streets outside the old city building that is slated for demolition. The framework has now reached the one-storey level.

## Father Whips Daughter, Friend Whips Father

LINDSAY (ENS)—"The path of young love never runs smooth," remarked Crown Atorney L. W. Gordon in court here Friday after the hearing of an assault case against 19-year-old Norman Campbell of town.

Campbell was accused of assault Harold Maunder, Elgin St. According to evidence given by Maunder, he had forbidden his daughter to go out Thursday evening but she went anyway and didn't come home until around midnight. When she came in the house, she was chastised severely by her father.

"Did you strike her?" queried Magistrate E. A. Gee. "Yes, I gave her a whipping," said Mr. Maunder, "that seems to be the only thing these young people of today understand."

When the daughter, 15 years old, screamed, Campbell, the boyfriend, rushed in from the street and started swinging at the father.

Mr. Maunder displayed a pair of black eyes testifying to the assault. Campbell, who pleaded guilty to the charge, was fined $25 plus costs of $18.50. His brother appeared to speak on his behalf and the two were given until next week to raise the money.

"You'd better find a girl a little nearer your own age," advised Magistrate Gee. "There are lots of older girls around this town that you could go out with."

—Campbell admitted that he is on parole from Guelph reformatory and the crown concurred with His Worship in stating that Campbell was lucky to get away with a fine.

"You could be sent back to Guelph for this, you know," said Mr. Jordan. "Yes sir," said the youth. "I appreciate that and I'll keep my nose clean after this."

## J. H. Vernor Registers U.S. Citizens

Citizens of the United States residing in Canada betwen the ages of 18 and 26 are required to register for military service it was announced today.

Those who were born after August 1, 1926 but not after July 31, 1934 must register during the period commencing Tuesday, July 1, and ending July 31, 1952.

Those who were born after July 31, 1934 must register within 5 days after attaining their 18th birthday.

There are penalties for failing to do so which may involve loss of U.S. citizenship.

Those who have previously served in the armed forces of the U.S. or a cobelligerent nation since Sept. 16, 1940 should be able to furnish their serial number and date of entry as well as date of separation from such armed service.

If possible some proof of citizenship should be furnished such as a passport, birth certificate, etc.

John H. Vernor, general manager, Western Clock Company, Limited, has been appointed registrar for Peterborough and district. He will be available by appointment at the office of Western Clock Company Limited or by special appointment outside of working hours.

## Army Answers Charge Of 'Terrorism'

OTTAWA (CP)—The Army today replied to a charge in Japanese newspapers that Commonwealth troops based at K[illegible]an are causing a "wave of terror" among residents.

A statement based on a release from the Commonwealth Division public relations office said Japanese and Commonwealth official figures do not bear out the charges.

The mayor of Kure, Jutsu Suzuki, was quoted in the Japanese press as saying that Commonwealth Division offences against Japanese residents totalled 210 between Jan. 1 and May 10.

The statement said there were 192 alleged offences by Commonwealth troops and investigation by Japanese police found only 92 which could be referred to Commonwealth authorities for further investigation or punitive action.

Of 162 cases referred to Commonwealth division authorities in the year ended June 20, Canadians were involved in 32.

These included six cases of serious assault, five of assault, one of rape, five of robbery, three of serious theft, six of petty theft, three of creating a disturbance, two of wilful damage and one of non-payment of debts.

There are approximately 7,500 Canadians in the 25th Canadian Brigade. Kure is a reinforcement centre for Korean troops.

Canadians make up about a third of the Commonwealth Division.

MORE ABOUT—

## Korean Hydro Plants

Continued from Page 1

**ATTACK AT SUNDOWN**

The planes struck just at sundown. Pilots said a switchyard was destroyed and the power house damaged at Changjin plant number one. The powerhouse and switchyard were damaged and an adjacent building was destroyed at Changjin plant number two.

Additional damage also was reported at the third Changjin plant and one at Fusen, two of five generating stations the Air Force said were put out of action.

Allied planes have not returned to the giant Suiho plant on the Yalu River—the world's fourth largest—since Monday.

An Air Force spokesman said Friday all of the five plants hit Monday and Tuesday are out of action now but "the time required for the enemy to restore them, if he has the capability, is not known."

The Eighth Army reported 177 Chinese killed and 107 wounded in savage day-long fighting for two strategic heights west of T-bone Hill, not far from Chorwon, where the bitterest battles since last fall were fought last week.

Allied troops knocked an armor-supported Red battalion off one hill in a 5½-hour battle, then fought all day up three slopes of a second ridge.

U.N. forces were pulled off the first hill shortly before dark, but dug in for the night on the other ridge, the Army said.

Navy planes hammered Red supply and transportation facilities south of the east coast port of Wonsan Friday.

## OBITUARIES

**MISS AMY WOOD**

A former police matron, adjutant Amy Wood, 582 Bolivar St., of the Salvation Army died in hospital today after a short illness. She was 75.

Miss Wood was appointed police matron in 1926 and served until 1935. "She was always a conscientious and hard working police matron," Police Chief John Thompson said. She was particularly interested in the work and was willing to help anyone who was in difficulty at any time of the day or night.

Miss Wood was well known in the city for her social work in connection with the Peterborough Salvation Army Corps.

A native of Lancashire, England Miss Wood came to Canada about 30 years ago and has lived here during that time. She retired as an active Salvation Army worker about 10 years ago.

She received her training as a Salvation Army worker in England and was a member of the League of Mercy.

Funeral services will be held Monday at 3:30 p.m. from the Kaye funeral home. Major Harry Everitt of the Salvation Army will officiate. Burial will be in Little Lake cemetery.

**JAMES B. BROWN**

A resident of Peterborough for the past four years, James Brookfield Brown, R.R. 10, Peterborough, died Thursday in Civic Hospital after a short illness. He was in his 67th year.

Prior to coming to Peterborough, Mr. Brown lived in Port Hope. He was a stationary engineer, formerly with the Hydro-Electric, Reynolds Construction, Port Hope Sanitary Supply, and Silverwoods Dairy in Peterborough.

Mr. Brown was born in Southport, England, the son of the late Thomas Andrew Brookfield Brown and Isobella Johnson. His wife, the former Margaret Thompson Harkness, survives him.

Others surviving are: Two daughters, Margaret and Elizabeth, both at home; a son Douglas at home; and a brother George Brookfield, of Ingersoll.

The body is resting at the Belleghem Funeral Home until Saturday, then to Washington & Johnson Funeral Home, Toronto, for service on Monday. Burial will be in the Pine Hill Cemetery.

MORE ABOUT—

## Faint Pulse

Continued from Page 1

Sugden, a 47-year-old garage operator, heard his companion cry out as he slipped and fell. Hastily shedding his outer clothing, Sugden jumped into the churning water after Rendall and followed him across the river. But when Rendall sank for the second time—only about 20 feet from the cement retaining wall on the east bank—Sugden was unable to locate him.

Alex Christie of R.R. 9, Peterborough, was walking along the east bank with a Toronto friend, Frank Wilson, when he heard Rendall's shout.

"I saw the boat turn over and Rendall go into the water and start swimming out toward the centre of the river," said Christie. "I don't know why he didn't try and make back for the pier, perhaps the current was too strong for him.

**DISAPPEARED**

"When he got to the fast water in the centre he seemed to be swimming O.K. Then he disappeared about 50 feet from the east bank and we saw him again about 20 feet away.

"I was going to jump in—I could have reached him easily—but Frank reminded me I was no swimmer and probably we both would have gone down."

By this time Sugden was approaching, swimming strongly through the current, and a boat, rowed by 20-year-old Terry Leggott of 593 Patterson St., crossed the river to be of assistance.

Christie pointed out where he had last seen Rendall—a couple of feet below the surface—and Leggott dived repeatedly to try and locate the missing man. He was unsuccessful.

Sugden then stood in the stern of the boat and probed with a pike pole. Rendall was brought to the surface with the pole and he was then pulled into the boat by Leggott and Sugden just as firemen and Provincial Police arrived.

A crew, under the direction of Acting Captain Vic Barry, began to use the resuscitator on Rendall. The semi-drowned man was placed on the flat retaining wall, 150 feet below the dam, during artificial respiration.

Altogether the firemen worked on him for 62 minutes, beginning at 9:30 p.m., using both the resiscitator and the manual artificial respiration method. When Dr. Robert E. Pow arrived he detected a slight heartbeat and Coroner Dr. H. G. Carleton, who arrived a few minutes later, found a faint pulse.

Rendall was taken to St. Joseph's Hospital in Kaye's ambulance and rushed to the operating room where he was conceded "a chance." However, he died without regaining consciousness.

Christie and Sugden estimate that Rendall was in the water for about 15 minutes altogether.

"If I'd only been able to swim I could have got him," commented Christie later. "It's too bad."

The Rendalls moved into their Aylmer St. apartment four weeks ago and they met the Sugdens socially just two weeks ago today.

**FATHER'S DAY GIFT**

As he had just been given a fishing rod for Father's Day, Rendall was keen to try his luck—the more so as his companion Sugden was an experienced fisherman. When he set out Thursday night in Sugden's outboard boat it was only the second time he had used the rod.

The two men drove upstream in Sugden's boat and tied up at the pier, just above waterlevel on the south side of the waterworks. They had been fishing about an hour and a half when Rendall made his fatal move by trying to climb into the boat.

While their husbands were fishing Mrs. Sugden and Mrs. Rendall were having a visit at the Rendall home. O.P.P. Constable James Healey told them of the accident about 11 p.m.

Rendall was born and educated in Fraserburgh, Aberdeenshire, Scotland, son of George Rendall and the former Mary Knox. Before coming to Canada a year ago he lived in Coventry, Scotland.

He was employed in the ordnance department of the Peterborough works of the C.G.E. He was a member of the Presbyterian Church and was a Mason.

Left are his wife the former Mary Pressley and his three-year-old son Robert; his parents and two sisters, Jean and Alison, at the family home in Rosehearty, Scotland; a brother George in Johannesburg, South Africa; and a brother Fred in Aberdeen.

The funeral will be 2 p.m. Monday at the Kaye Funeral Home, George St., the Rev. C. G. Boyd of St. Paul's Presbyterian Church officiating. Burial will be in Little Lake Cemetery.

## The Weather

**Peterborough Temperatures:**

Today:
Night low..57 Noon...71
Noon barometer.....29.45

Yesterday:
Highest....88 Lowest..69

One Year Ago:
Highest....71 Lowest..59

Official forecasts issued by the Dominion public weather office at 9:30 a.m. today:

Synopsis:

There is little hope for rain to relieve the drought-stricken areas within the next two days. However, numerous showers and thundershowers are occuring in the midwestern states and should spread to the Windsor area by Saturday evening.

Temperatures will be 15 to 20 degrees cooler today than Thursday in southern Ontario and much the same in northern sections. Temperatures Thursday reached the low 90s in southern Ontario and low 60s in northern regions. Saturday's temperature will be 5 to 10 degrees higher than on Friday.

Regional forecasts valid until midnight Saturday:

Lake Ontario, Haliburton, Georgian Bay regions; Toronto: Sunny today and Saturday. Slightly warmer Saturday.

## Cool, Dry Winds Chase Heat, End Muggy Spell

TORONTO (CP)—The hot, heavy blanket of air which has hung over southern Ontario for three days has been rolled back by cool, dry winds.

The cooler air sliced up from the southeast across the province late yesterday and cracked the shell of heat which sent temperatures to the highest point for a June 26 in almost a century.

The weatherman today promised at least a few days of "seasonable" weather with skies cloudy over most of the province. Only in the southern and northwestern corners of the province will there be sunshine.

Windsor residents suffered most yesterday. The mercury there was pushed to 99 degrees. In the Ford motor plant, 2,500 workers were sent home at midday. More got a holiday here as the temperature touched 94 and at Hamilton 450 Canadian Westinghouse employees quit for the day at noon. Shifts were also cancelled at the International Harvester plant.

At Kitchener, employees of the Dominion Rubber Company did not wait to be told. They stayed at home Wednesday and did not return to work yesterday. Workers at two other plants dodged the heat at home.

But city dwellers were not the only ones anxiously watching thermometers.

Agriculture Minister Kennedy warned that this week's heat wave may buoy prices for Ontario fruit and vegetables. The heat has dried crops in the field; that means a lower yield.

Cherries are reported withering on the trees in the Niagara Peninsula.

Tobacco growers in Elgin and Norfolk counties are watching for promised showers to end a 33-day drought. Dry winds swirling away the sandy soil have also torn up young plants. Tomato growers are suffering from the same hot winds which rip up the tender plants.

**STORMING EAST**

A hail storm sent giant stones rattling down on homes at Kemptville, 30 miles south of Ottawa.

The hailstones, measuring from three to four inches in diameter, smashed windows, punched holes in aluminum roofs and left fist-sized dents in metal car-bodies.

## Assign Trenton C.O. To Europe

OTTAWA (CP)—Air Vice-Marshal C. R. Slemon, air officer commanding the R.C.A.F.'s training command with headquarters at Trenton, has been assigned temporarily to the staff of Lt.-Gen. Lauris Norstad, chief of the Allied Air Forces in Central Europe.

Air Force headquarters, in making the announcement, said Air Vice-Marshal Slemon will assist A.A.F.C.E. in planning several war training manoeuvres during the coming months.

"He is expected to fill highly-important command assignments during these exercises," the announcement said.

Air Vice-Marshal Slemon has been mentioned as a possible successor to Air Marshal W. A. Curtis, chief of the air staff, who will retire shortly.

Air Vice-Marshal Slemon, 47, is one of the R.C.A.F.'s "originals," able to look back on continuous air force service since the birth of the R.C.A.F. in 1924. Born in Winnipeg in 1904 he was commissioned in the R.C.A.F. at its birth, and won his wings the following autumn, being the first pilot to win his wings in Canada after the First World War.

## Union, Westclox Confer On Wages

Union and company officials are conferring at the Western Clock Co. on union proposals for more wages and additional rates in certain job classifications.

The union, Local 570, International Union of Electrical Radio and Machine Workers (C.I.O.-C.C.L.), are taking advantage of a wage-opener clause in their one-year contract that runs to Dec. 1.

Besides an increase in wages the union want rates paid in certain jobs to be brought up into line with those in comparable Peterborough industries.

"The union predicated its wage demands on the acceptance of various inequity proposals," said Joe Wirtz, co-ordinator of Canadian I.U.E.-C.I.O.

It is estimated that about 70 per cent of the 400 employees would be affected by an adjustment on "inequities."

Ken Nisbett, president of Local 570, heads the union negotiating committee. The two parties negotiated Wednesday and Thursday.

## Truck Strikes Bridge Young Mother Killed

SIMCOE (CP)—Mrs. Thomas Lucas, 19, mother of a five-month-old son, was killed early today when a truck in which she was riding with her husband and a cousin crashed into a bridge.

The husband, AB. Thomas Lucas, on leave from the naval establishment at Halifax, suffered a broken collarbone, a dislocated hip and cuts on the forehead. The cousin, Raymond Williams, 30, was cut about his left leg and face.

The three were bound for the Lucas home at Nixon, near here. Williams lives at Forestville, also a district community.

## Produce, Livestock Markets

**CHICAGO GRAIN**

CHICAGO (AP)—Grains opened with a mixture of gains and losses today. Dealings were more active than in the slow trade of the previous session.

Wheat started ¼ cent lower to ⅛ higher, July $2.29⅛-2.29; corn was ⅛-⅝ lower, July $1.81-1.81⅛, and oats were ⅛-⅜ higher, July 78¼-⅜. Soybeans were unchanged to ½ cent higher, July $3.26¼-½.

**TORONTO FRUIT**

TORONTO (CP) — Wholesale fruit and vegetable prices here today were: Mushrooms $3-3.25; rhubarb local 40-50; cucumbers Leamington $4.50; asparagus $3-3.50; 27 quart strawberries $5-8; apricots case $4.25; lettuce doz. 65-80; cauliflower Leamington $2.50-3; cabbage case $2-2.50; radishes doz. $3.50-4.

Potato prices: New Brunswick and P.E.I. carlots to trade $4-4.50; American $7.25; to trade $8-8.50.

**TORONTO PRODUCE**

TORONTO (CP) — Churning cream and butter print prices here today were unchanged.

Receipts were light at the egg market with prices generally unchanged. The following quotations are for eggs packed in fibre cases.

Graded eggs cases free, delivered Toronto: Grade A large 48-49; A medium 46-47; A small 34-35; grade B 30; grade C 26-27.

Wholesale to retail; prices quoted for loose eggs with crated eggs selling three cents higher: Grade A large 52-53; A medium 50-51; A small 39-40; grade B 34-35; grade C 30-31.

Butter solids: First grade 58 tenderable and 56½ non-tenderable; no price established on second grade; Western 58 asked.

**WINNIPEG GRAIN**

WINNIPEG (CP)—Coarse grain futures prices moved narrowly in dull trading at the opening today on the Winnipeg grain exchange.

Further export demand was indicated in barley with domestic shipping interest in oats. Flax and rye trade was light.

11 a.m. prices:

Oats: July ¼ lower 78¾A; Oct. ⅛-¼ lower 80; Dec. ⅛ lower 80¼A.

Barley: July ⅛ lower 1.21⅛A; Oct. unchanged 1.22A; Dec. not open.

Rye: July ⅛ lower 1.99; Oct. ⅛-¼ lower 2.01¾A; Dec. ⅛ lower 2.01⅝B.

Flax: July 3½ higher 3.91A; Oct. 2½ higher 3.93½; Dec. not open.

**BUFFALO LIVESTOCK**

BUFFALO, N.Y. (AP)—Cattle 350; market steady, demand moderate for dairy type cows and bulls. Good fat dairy type cows $20.50-22; cutters $18-20; fat yellow $16-19; canners $14-17.50 and a few below. Good fat dairy type slaughter heifers $26-27; common $22-25; good sausage bulls $25.50-26.50; lightweight cutter bulls $20-24.

Calves 150; market steady. Demand and supplies moderate. Good to choice calves $34-35; common and culls $24-29.

Hogs 800; no rail hogs here. Demand active, early market stronger and 25 to 50 cents higher than Thursday's advance. Bulk of good to choice N.Y. State hogs $21.50-22; good to choice sows $15-17; boars $10-14; other weights not established.

Sheep and lambs 500: Salable receipts too few to establish prices.

## Lemery To Mevo If Buyer Found

A report that Lemery Distributors are moving to Toronto was branded as "a little premature," by manager Al Reid today.

"If we don't find a buyer for our building we are not moving," Mr. Reid said.

The company which operates a distributing agency on Lansdowne St., for McCulloch chain saws, drills and pumps erected the new building which houses the business only last year and moved in January 15, 1952.

It is the only distributing agency for the products in Eastern Canada.

In connection with the contemplated move to Toronto, Mr. Reid said: "There are certain advantages in both Toronto and Peterborough, but Toronto slightly outweighs Peterborough."

However, he added that the advantages of locating in Toronto were not enough to justify the company losing money on its new building here, and unless the company can obtain the price it is asking for the building, it will remain here indefinitely he said.

## U.S. Dollar At Discount

MONTREAL (CP). — The American dollar was at a discount of 2½ per cent in terms of Canadian funds, the Bank of Canada reported at noon today, E.D.T. Thursday's noon rate was $0.97 17-32. The pound sterling was $2.71½, against $2.71 9-16 Thursday.

**The man women will elect President**

Who will he be? In the new July Ladies' Home Journal you'll find the necessary clues. For the Journal took a poll of thousands of women, and their answers reveal the three most important qualities women want in the man who goes to the White House. What are they? Who do they point to? Save your guesses till you've read *What People Want in a President.*

# Dean Acheson Apologizes To Commons

## "Shocking Thing," Senator Says Of Reported Apology

LONDON (CP)—State Secretary Dean Acheson of the United States apologized yesterday at a private meeting of Parliament members for keeping Britain in the dark about plans to bomb Korean power plants along the Yalu, informed sources reported.

In a meeting with Foreign Secretary Anthony Eden, Acheson drafted a plan to give Britain a bigger hand in United Nations military moves in Korea in the future as a result of the uproar over the massive air attack.

An informed source said Acheson, with the approval of President Truman, said the United States would welcome a closer link with Britain in the American-directed United Nations operations.

Acheson spoke for 20 minutes to a group of about 200 Members of Parliament of all parties interested in Anglo-American relations.

An informed source said Acheson told the Parliamentarians American officials had intended to inform Defence Minister Earl Alexander of the bombing plans while he was in Washington, but there was a snafu—there was confusion as to whether the Defence Department or the State Department was to tell him and as a result no one did.

Acheson was quoted as saying he was sorry, but that the air strike was justified on military grounds. After his speech the Parliamentarians applauded and gave him a vote of thanks, the informant said.

WASHINGTON— (AP)— State Secretary Dean Acheson is going to do some explaining to Congress about his reported apology to Britain for not telling that country in advance of the United States' bombing last Monday of North Korean power stations.

Senator Styles Bridges (Rep.-N.H.) told the Senate yesterday the apology—if made—was "a shocking thing."

And Senator William Knowland (Rep.-Calif.) who brought the matter to the Senate's attention by reading a London news report about it, said if Britain wants a bigger voice in the conduct of the Korean war, Britain should assume a larger share of the burden.

The London account said Acheson is reported to have made the apology to about 200 members representing both Houses of Parliament during a 20-minute meeting yesterday.

The London report said Acheson justified the raid at length in his talk with the British legislators and was applauded at the end.

But there was no applause for him in the Congress.

In addition to the protests over his apology, Senator Wayne Morse (Rep.-Ore.) said Acheson should be removed because the State Department was denying passports to U.S. citizens without giving specific reasons, even to inquiring Senators.

## Peterborough Hogs, Grain And Produce

**FRIDAY, JUNE 27**

No hog or sow quotations offered today.

Delivered price for ungraded eggs: A large 41; medium 39c; pullets 28; B 21c; C 20c; cracks 21c.

Quaker Oats Company of Canada quotes Ontario winter wheat No. 1, $2.10; No. 2, $2.10; No. 3, $2.07; feed oats, 80c; buckwheat, $1.60; feed barley, $1.20; Ontario yellow corn basis 15.5% moisture, $1.90.

Bulk truckload shipment will now be accepted.

# Suggests Merging Hospitals For Doubled Economics

WINDSOR (CP)—M. Frank Brobst suggested yesterday that the East Windsor hospital be operated in conjunction with the city-run Metropolitan hospital.

Mr. Brobst, ousted April 28 as chairman of the board of the 340-bed East Windsor hospital for incurables, was testifying before a provincial government commission investigating the hospital's affairs. Mr. Brobst's action in placing before Attorney-General Porter 1951 statements of the institution's financial position prompted the attorney-general to investigate.

Asked by Arthur A. Macdonald, chief counsel of the investigating body, what changes he would recommend to improve the administration of the hospital, Mr. Brobst suggested it be taken over by the City of Windsor and that a single governing board operate the East Windsor and Metropolitan hospitals.

**WOULD CUT COSTS**

In that way, he said, administrative costs would be lessened and economies in buying secured.

He said also that the present East Windsor hospital board is "impotent" and follows every recommendation of hospital superintendent Dr. P. J. G. Morgan. The superintendent was in the habit of describing an action to the board and asking and getting the board's approval after the action had been completed.

"I cannot see that it is in the public interest to have funds for all practical purposes in the hands of one man."

Under Mr. Macdonald's questioning, Mr. Brobst outlined events which led up to his presentation of the 1951 statements to the attorney-general.

Last August, he said, on his appearance before Windsor city council to request $75,000 to cover part of a $150,000 building fund deficit, he had undertaken to straighten out the hospital's financial affairs.

He had formed a financial advisory committee to advise him in connection with the hospital's financial position. This committee, among the members of which were R. J. Moore, Windsor budget director, and Horace Boyles, Windsor branch manager for the Bank of Nova Scotia, had met regularly from September to January.

**STATEMENTS ORDERED**

Toward the end of January, 1952, four statements of hospital finances were ordered—inventory, Christmas Cheer and building fund audits and a statement of projected revenues and expenditures.

Mr. Brobst said he received these in March together with a letter of comment from Mr. Boyles. The letter entered earlier in the inquiry as an exhibit, charged "culpability" in the setting up of a hospital pension fund.

He went to Toronto and laid the material before the attorney-general and Health Minister Phillips. The attorney-general then ordered the investigation.

He had not consulted members of the hospital board before undertaking the Toronto trip, he said, because he believed the board would not have approved his action.

"I don't believe the board was in a position to accept the light of public opinion."

Mr. Brobst said he took particular exception to the administration of the hospital's cheer fund.

"It was set up in such a way that it could filter off the expendable assets of the hospital and sell those assets to people on the outside. Whether they did it or not I don't know but the means were there."

# CBC Reports Surplus Of $3 Million For Year

OTTAWA (CP) — Parliament's $6,250,000 grant has helped the CBC come out on the black side of the ledger for the first time in recent years.

The Broadcasting system last night reported a net operating surplus of $3,322,000 for the year ended March 31 last.

A. D. Dunton, chairman of the CBC's Board of Governors, said in his annual report tabled in the Commons that the remainder will be used to carry out "to the fullest extent" the recommendations of the Massey Commission for CBC improvements.

# Court Reduces Fee Of Executor $235,876

TORONTO (CP)—The Ontario Appeal Court yesterday ordered a $235,876 reduction in the fee charged by the National Trust Company for acting as executor of the estate of J. E. Atkinson, owner of the Toronto Daily Star.

The trust company had charged $375,000. The court reduced this to $141,124.

The appeal against the higher figure was entered by the Public Trustee because of the Atkinson Charitable Foundation, set up under the terms of Mr. Atkinson's will.

# Cottage Burned On Pigeon Lake

Lightning during Tuesday's electrical storm at Pigeon Lake around noon struck and destroyed a six-roomed fully-equipped cottage owned by Miss Esther Thornton, 583 Harvey St., Peterborough. Valued at $7,000, the main building almost ignited a single sleeping cabin nearby and another cottage building, all belonging to Miss Thornton. The loss was covered by $3,000 insurance, she said.

The fire was first noticed by a Bobcaygeon workman nearby who turned in the alarm to Mrs. J. W. Fortner, on neighboring property, who in turn notified Miss Thornton. A bucket brigade of district workmen and settlers were not able to save the main cottage but were responsible for keeping the blaze under control and from spreading to the other building. The Bobcaygeon Fire Department sent a pumper, a distance of nine miles, to the fire, but arrived just as the roof caved in.

The cottage was readied for renting to a tourist party from Warren, O., on July 1 and before notifying them by phone of the loss, Miss Thornton was able to secure another place nearby so that their holiday would not be interrupted.

## 2 Killed By Lightning

NIAGARA FALLS, N.Y. (AP)—Mrs. Ocie Mae Bryant, 31, and her six-year-old son, James, were killed by lightning yesterday as they were washing the family automobile behind their home.

## Newsprint Man Resigns

MONTREAL (CP)—The Newsprint Association of Canada yesterday announced that Charles A. McI. Vining has resigned as an officer of the association after 18 years of service.

# Big 3 Ministers Complete Reply To Russia

LONDON (AP)—The Big Three foreign ministers put the polishing touches today on the western reply to Russia's request for talks on German unity.

Foreign Secretary Anthony Eden, State Secretary Dean Acheson of the United States and Foreign Minister Robert Schuman of France checked a proposed draft line by line in a 2½-hour session this morning.

The final draft was not completed by the time the foreign ministers recessed for lunch with Prime Minister Churchill. A Foreign Office spokesman said the Big Three discussions would be resumed later in the day. The note is expected to be completed tonight.

The foreign ministers are reported seeking a way to make the Soviet show its true hand—to pin the Russians down on whether they are sincere in demanding four-power talks on a unified Germany.

Sources close to the conference said Britain and France are willing to go right ahead with a conference. Acheson is understood to be urging a preliminary meeting that could agree on an agenda before any high-level negotiations.

There is a strong feeling among western diplomats that the Russians merely want to stall for time, trying to upset the western schedule for the rearming of Germany and its inclusion in the western orbit.

# Friars' Soccer Team Wins Commie Trophy

MODENNA, Italy (Reuters)—A team of Capuchin friars yseterday unwittingly won a soccer tournament organized by the local branch of a Communist-led trade union. The friars entered the tournament without knowing the organizers were Communists.

They were surprised and slightly embarrassed to find that the winner's trophy bore th inscription: "For a strongr C.G.I.L." (The Communist-led Italian General Labor Confederation).

# Amateur Art Thieves Try Painting Theft

PARIS (Reuters)—Two amateur art thieves are under arrest today for attempting to steal three famous modern art masterpieces worth more than $200,000 at the Paris Museum of Modern Art.

The youths, both 19, cut two paintings from the frames with a razor and were working on a third when the night watchman caught them last night.

All three paintings can be repaired, experts say.

## Too Hot; 24,000 Strike

DETROIT (AP)—Heat strikes—prompted by 100-degree temperatures—made idle nearly 24,000 auto workers in Detroit plants today. It was the third day of walkouts caused by record-breaking heat. At least five Detroiters suffered heat prostrations.

# Four Coal Miners Fatally Burned

CARETTA, W. Va. (AP)—Four coal miners were fatally burned last night when gas ignited at the bottom of a partially-completed mine air shaft. The four men died in hospitals late last night and early today. A fifth, Elmer Campbell, 42, remained in serious condition.

The five were burned when an electric light bulb exploded after it was dropped and ignited a gas accumulation in the shaft. The shaft was being sunk at the Olga Coal Company's Caretta mine two miles from the operation's main opening.

Dead were Virgil Christian, Paul Thompson, 28, U. C. Dash, 48, and Fred Campbell, 30.

# Urging Extra Care
## ON THE WEEK-END!

The approaching holiday week-end will bring increased traffic hazards to the people of our municipality.

More drivers and pedestrians will be using the streets and highways; more miles will be driven and hundreds of our school children will be on vacation. All these factors greatly increase the chance of accidents.

I earnestly urge all citizens, and all leaders in our community life to support efforts being made to prevent needless accidents.

The Department of Highways is engaged in an all-out campaign to bring home to those who walk or drive, the necessity for extreme caution and care at this time.

Our local traffic accident record can be kept down if we each do our part. Let us all work together to stop accidents.

HUGH F. WADDELL,
Mayor of Peterborough

## Dressing Behind Tree Trunks

City Hall officials seem determined that however hot the weather, they will not permit summer to come until July 1st, or whatever later date they are good and ready for it. During this week's heat hundreds of bathers were using Inverlea Park. On Wednesday night, for instance, there were at least four hundred people at the Inverlea riverside, a majority of them male. Yet the men's dressing room was locked, and so was the urinal. A special effort seems to have been made to have the women's dressing room open, but the men and boys dressed in the bushes, beside tree trunks, behind a towel or in cars. The inconvenience of this need not be stressed.

* * *

The Recreation Commission had its guards on duty, but they were unrecognizable among the hundreds of bathers because they had not yet been provided sweaters or other distinguishing dress. The telephone (used to call the fire department's resuscitator in emergencies) was not connected—Inverlea is a dangerous spot for bathing because of the current—and they had no boat. The guards on duty have to put their clothes and first aid equipment in a safe place. So they were put in the men's dressing room which was thereupon locked again. Two or three lockers are needed in the room for these purposes, but apparently city departments cannot agree which should provide the lockers.

* * *

Perhaps we should not generalize on Wednesday evening's situation at Inverlea; for that afternoon and evening city hall employees were having their picnic out of town, and might therefore have overlooked less important matters like Inverlea. But we remember other summers when the biggest crowds of the year were at the public bathing beaches in June before city officials got themselves ready to admit that summer had come. Such rigid notions do not suit the warm weather we have had.

## Keeping The Monuments Up

Britain has hundreds of historic buildings and monuments to maintain, and this number is growing as private wealth decreases and socialism advances, for owners of stately homes are bequeathing them to the National Trust, partly to ensure their survival, partly because they cannot personally afford to maintain them longer. The cost of keeping historic buildings in repair is very heavy; however Britain is not likely to feel the pinch as severely as France, for a few years yet, partly because the National Trust is reluctant to accept supervision of buildings unless the donor also provides some money for their upkeep. France has twenty thousand buildings and monuments classified as having "historical interest," says M. Andre Cornu, French Secretary of State in charge of fine arts.

Many of these buildings are in imminent danger of collapse for want of repair. They were either damaged during the war or allowed to deteriorate because men and materials were not available. In the last several years the French economy has been so strained that the budget has made inadequate provision for maintenance. New economies imposed by the Pinay government have halved the funds which the Government will provide. M. Cornu has calculated that this leaves only 30,000 francs (less than a hundred dollars) apiece. Are France's cathedrals, castles and monuments going to fall down?

Most of France's historic buildings depend on voluntary financial assistance, particularly on foreigners and tourists. To attract them and their money for Versailles, the vast palace built for the proudest of French kings, Britain's prima ballerina, Margot Fonteyn, has flown over to Paris especially to perform at a gala in aid of the Castle of Versailles.

It is not the first time that the arts have come to the aid of brick. The fact which France knows is that the arts, properly presented, can make money for the promoter, whether it be a charity, a city or a nation.

## Conversion After Death

The Communists have a remarkable way of discovering that men who have long been dead were really Communists at heart while they lived, and would have been Communists if they were alive today. It is a convenient mode of thinking, for it admits of no final contradiction. But we are amused to hear that the French Communists are now laying claim to Victor Hugo as a saint in their calendar. Hugo was born 150 years ago, and cannot refute them.

We cannot lay claim to any intimate acquaintance with Hugo's work, for he wrote a vast number of novels, plays and poems, and we have read only a few of them. In what we have read we have never noticed anything which suggested that Hugo would be a Communist if he were alive today. He hated injustice, tyranny and exploitation, but these are not exclusively Communist characteristics; he dearly loved his own liberty, and through all of his 83 years he was the excitable, eloquent and violent opponent of anybody who tried to tell him what he should think or what he should say. On this score alone we think that he would have made a very poor Communist. Hugo was a literary revolutionist; the modern Communist is in no sense a revolutionist, but an arch-conformist; he does what his masters tell him, or he finds himself in the worst sort of trouble.

Another great man of the past who is being held up to Asiatic Communists as a great Communist of the past is Avicenna, who lived from 979 to 1037, and whose true name was Abu Ali al-Husain ibn Abdallah ibn Sina. He was principally a physician, but also a philosopher. We can claim to know something of him, for he has interested us for a long time. If he was a Communist, so was Sir William Osler. He was a man in advance of his time, but he was no authoritarian, no bigot,—no Communist, in fact. Incidentally, he was what would now be called an alcoholic.

We all tend to see the great figures of the past in terms of our own experience, but only the Communists appear to be able to bring about these amazing post-mortem conversions to their own party line.

## Oatmeal In The Water

The best office water-cooler does not provide the relief which a cup of water in the midst of hot haying days gave. The milk-can of water, brought out from the well at the farmhouse as the afternoon's work began and set into the shady side of the cock, was an oasis. The office water-cooler is just a tap, even though it water may be cooler.

Perhaps it was the work and the countryside which made the tepid draught in the field more satisfying. There in the country the work is physically strenuous, but the heat is direct from the sun and one's own muscle. It is not soggy second-hand air from pavement and walls. In the fields a sensuous torpor settles on the haymakers as they take ten minutes off for mid-afternoon lunch, lying beside a haycock, hat over face, eyes closed and muscles relaxing in the stillness. There is quality in field heat. In town the heat hangs, in the country it rises. Heat stupefies the town.

In the old days a handful of oatmeal was put into the bucket or can, stirred well, and allowed to flavour the water. Perhaps the oatmeal was supposed to act on the farmhands as salt does on a dirt road, soaking up the moisture, settling the dust. Most likely it was put in for nourishment; to give them extra vitamins as they made the last loads of the afternoon. But even better than the oatmealy water were the times when the farm lass came down from the house lugging a basket full of bread and jam, a pail of tea or—best of all—lemonade cool and tangy. Yes, there is joy in field heat; and only hell in the confines of town.

## Trinity's First Century

This spring when the Governor-General visited Trinity College, Toronto, upon the occasion of a centenary dinner, he praised Trinity not only for its academic status but also for the quality of life which its dignified halls and rooms, its religious focus and residential organization provide its undergraduates. This is small Trinity's distinction, the quality which sets it apart from a non-residential university or other, larger colleges in the University of Toronto.

The University of Trinity College was founded in 1852; to mark the passing of its first hundred years, a history of Trinity has been compiled. Fine photographs and text recall the distinguished ecclesiastical leaders who gave it form, the scholars and divines who gave it direction and a sound tradition of learning, the graduates and undergraduates who were and are its heart-beats. The qualities of a residential college and close-knit fellowship which mark Trinity are patently revealed in this history—and the similar characteristics of its sister-college, St. Hilda's. Trinity's first century was one of dedicated struggle, growth, gaiety and learning; through such forging Trinity is well prepared to face its second century, mindful of its past and the church allegiance which informs its spirit.

## NOTES AND COMMENT

"Could Prevent Schizophrenia, Researchers Say." By changing the name?

It is annoying to meet someone who thinks the world owes him a living but it is downright infuriating when the world acknowledges the debt.

We learn that old-fashioned liniment has been stream-lined; it's a stick now, not a bottle. Presumably the rub of it still remains.

## Notes And Queries

By ALPHA

**Questions are solicited for this column particularly those relating to local lore and tradition.**

DEAR ALPHA: I was interested in your explanation of certain compound adjectives in your last column. Don't you think, however, that you attach too much importance to the grammatical derivation of such expressions and not sufficient to their semantic significance? Certainly a good-looking person is not the same as a well-looking person, and yet both expressions denote a peculiar meaning. Incidentally, what would you say that "fortunately" modified in the following sentence—"Fortunately Tom married Jane, not June." It is certain that Tom's good fortune did not derive merely from being married.

RESPONSE: Does it matter, semantically, what "fortunately" modifies grammatically, since the meaning is quite clear? (My question gives weight to your point!) This is the sort of elliptical phraseology which confuses foreigners attempting to construe English grammatically. But even in a highly inflected language like classical Latin, there are such suspended expressions as the ablative absolute. I would say that "fortunately" modifies all that follows. It should have a comma.

As for the first part of your question: is grammar not the handmaiden of semantics? . . . For readers who may confuse semantics with ceramics, sematic and Semitics, I explain that semantics are the branch of linguistic study which deals with the development of meaning.

✧ ✧ ✧

A RARE BOOK came into my hands (or, rather, into Chief Librarian Graff's hands), and he let me see it. It is "Leisure Hour Musings" by Alexander Graham of Otonabee, "being a collection of 235 Miscellaneous Pieces written from 1840 to 1873". It is a paper-covered book, very nicely printed by "James Stratton, Printer and Publisher, George Street" at the Examiner when James Stratton was the owner.

The rhymes are adequate, the rhythms tedum, and the matter mundane, trivial or prosy. But there are some good verses scattered here and there. I know little about Graham except what I wrote in this column a couple of years ago. He was an emigre Scot, had had bouts with booze and became an ardent prohibitionist, in fact, one of the longest effusions in this book is a rhyming letter to the editor of the **Examiner**, violently against taverns, bitterly condemning the evils of liquor, and pleading with the liberal **Examiner:**

"Your principles sombre are and good,
As yet they've unimpeached stood;
Your paper columns ever open
To the truth, whatever happen.
An advocate for temperance strong
Fain to reclaim the erring throng."

So it goes on for two pages of small type until:

"I remain, Sir, yours ever true,
A friend to temperance and to you"

The 'you' was James Stratton and the **Examiner.**

✧ ✧ ✧

ALPHA: Canada is a country of two official languages. What do they call the provinces in French?

ANSWER: Ontario, Manitoba, Saskatchewan and Alberta cannot be Frenched; so they are spelt as for English. Actually, they are Indian names. Quebec, also an Indian name, has an acute accent over the 'e' in the French. The others are: Terre-Neuve, Ile de Prince-Edouard, Nouvelle-Ecosse, Nouveau-Brunswick, Colombie-Britannique.

✧ ✧ ✧

DEAR ALPHA: I appreciated the leading article in Monday's issue, on "yokelish elocution". A few weeks ago on the same pages there appeared the horrible corruption of the Queen's English: "The Mendelssohn Choir has the highest reputation of any . . ." Now, "do you have" "in back of" your fertile brain any reason why this "worst of any" grammatical error should be tolerated all over the place? When people say "The Examiner has the best Editorial page of any paper on the Continent", that's no mistake!

ANSWER: English is an explicit language in words, loose in phrases. Its many synonyms are precise in their shading; the syntax is undulating. It's a weird and wonderful language; and I suspect that its syntax is logically indefensible often, but rhythmically good. For instance: many of the best old and modern writers will say: "She only wanted to dance with the minister", meaning "She wanted only to dance with the minister" and not "she alone of all the crowd, wanted to dance with the minister".

While I do not feel it necessary to defend or condemn phrases in Examiner editorials, since Alpha is merely a casual Friday columnist, I might point out that Fowler in his **Modern English Usage** offers this ingenious defence of 'any' instead of 'all': Fowler is very English and so will be quick to defend an English-English idiom—such as 'The band are playing'; and 'the choir has the highest reputation of any'. Fowler gives this instance: "He is the most generous man of anyone I know". He explains: "This common idiom, which looks illogical ('of all I know' being the logical form) is no doubt defensible as a development or survival of the archaic type 'Caesar, the greatest traveller, of a prince, that had never been'. 'Of' there means 'in the way of' and we should now write 'for' instead of it. But that sense of 'of' being preserved in this idiom alone, the idiom itself is not likely long to resist the modern dislike of the illogical."

This is a weak defence, as Fowler must have realized when he followed it by saying: "It therefore seems desirable to avoid such things as 'Edward Prince of Wales is the eighteenth who has borne that title, the most illustrious, perhaps, of any heir apparent in the world (more illustrious than that of any)'."

Does this explanation justify your commendation of my 'fertile brain'? Incidentally, the problem arises because 'any' usually signifies one—but Professor Wilde, the lexicographer, says that "the precise force of 'any' is doubtful".

I hope, by the way, that you pronounce 'fertile' with a long 'i' as in 'isle'. The American influence is increasingly strong to get us to say 'fer-till', 'ster-ill' (sterile) etc. with a short 'i'.

✧ ✧ ✧

ALPHA OLD HOCK: I see by an advertisement in the paper that there is now the "Alpha Club" for dinner parties etc. Is that a commercial enterprise of yours, or of your admiring readers? Are you going to be there? If so, I'd like to meet you.

ANSWER: The original Peterborough Alpha disclaims all responsibility for, and even knowledge of, the Alpha Club. Why, I haven't even been invited to be patron, or to dine and wine at the opening. Perhaps I should be pleased, without an invitation . . . They say that invitation is the sincerest form of flattery. But what connection a wedding party "club" has with this column I fail to see.

Sorry that I shall be unable to meet you at the Alpha Club or elsewhere. You see, I have suddenly got word that my old comrade-in-letters, Omega, has been incarcerated in the armed forces these last eighteen months, was involved in the Yahoo River bombing raid in North Korea on Monday, and is suffering blisters of seat and tongue. I am therefore going East to see him; whether I get as Far East as Korea, or only as far as Omemee, I shall be absent from the usual Friday column until September 1st . . . May none of my readers have as hot and heavy a summer as I expect to have.

✧ ✧ ✧

FOR THE RECORD: The Summer Theatre, beginning its fourth season last Monday, has had a warm reception . . . I shall not present any record figures of temperatures because the official ones never go as high as my thermometer. Stubbornly, too, the official thermometer which Mr. James Harrison keeps never goes as low as mine in winter. It's just contrary; or perhaps the reason is that his thermometer is not in the city at all but up at the Filtration plant with the river to warm it in winter and cool it in summer.

## "Tsk, Tsk, They COULD Kill Each Other—I Hope!"

## Too Many Shillings, Too Few Shamrocks

By RAWLE KNOX

"YOU won't find the place the same, said the friendly Customs 'man at Dun Laoghaire. "They've taken the tramlines up."

Alas, it isn't only the tramlines—everything is up, even the price of the cress that's sold as shamrock to the tourists.

British visitors, rejecting a trip to the Continent on a £25 allowance, are coming in even larger numbers (say British Railways) than last year, when the figure was a record. But they find that cheap drinking and smoking, which since the war have been a greater attraction than the soft beauty of the mountains, are now vanished things.

For the Irish themselves there is worse to come. In the first week of next month subsidies on sugar, bread and tea disappear, and the prices of those necessities will leap up correspondingly.

The threepence that Mr. De Valera's budget put on a pint of stout rocked his government, and the opposition hopes that the three whole shillings which will shortly be ladled on to a lb. of tea will upset it altogether. That is why the opposition parties applied for writs for the by-elections due in East Limerick, Mayo, and Cork so that the voting would fall on June 26, some ten days before the subsidies lapse. They will appear as champions of the ordinary man's right to get an ordinary priced meal. Already they are propaganding, "Vote for us and throw out the Budget."

The Budget passed in Dail Eireann by only a bare couple of votes. Reverses in all three by-elections for de Valera's Fianna Fail party (an unlikely event, as it happens) would certainly force Ireland's third general election in four years.

✧ ✧ ✧

FIANNA FAIL now rules with a minority in Dail Eireann, getting its way with a handful of independents, who hardly get a nod of recognition for de Valera for their loyalty. He has always set his face against coalitions; what is it to him, he seems to say, if these independents want to vote on his side?

At present it is everything to him, for Fianna Fail is also not in a majority in the country, though it is the party with the largest support. Another election would be likely to produce another near-stalemate, and the Irish are by now as weary as the English of Parliamentary rule without a clear parliamentary majority.

The Fianna Fail budget was a courageous one. For Ireland, like every other country, has got to pay her own way in an inflationary world—and politicians of all the Irish parties understand this, whatever they may tell the electorate.

But there is little money to spare in he country. Even Fianna Fail's drastic taxation and removal of subsidies are only to provide an extra £10 million for the capital development the country is always crying out for.

The difference between the political parties amount to slight variations in methods of spending what money there is available. Thus we get such mildly ridiculous scenes as that in the Dail this week when Mr. Patrick McGilligan, Finance Minister in the last (Inter-Party) Government, taunted his successor with spending American dollars on dried prunes—only to be told from the Fianna Fail benches that he had bought from the United States sundry unlikely items including hair-drying equipment.

Close financial dependence on Britain—inevitable, since the British Isles are clearly a single economic unit—perpetually irritates the independent Irish. Their bank notes still carry the legend "Payable to bearer on demand in London."

There have been objections in the Dail that Britain, banker of the sterling group, has the temerity to suggest how Ireland shall spend her dollars. Certainly there are far fewer Buicks and Cadillacs in Dublin's streets than there were, but that's largely because there is so much less money around.

Ireland's leaders do in fact understand that the sterling area will sink or swim as one. They are doing their best at the moment to cash in on their surest source of dollars. Irish-Americans may be one of the biggest jokes in Ireland — in private — but a big "Come Home to Ireland" Festival is being arranged for them here next Easter, when it is hoped they will bring enough dollars to bridge at least a span of that gap.

(OFNS Copyright)

## How Time Flies

JUNE 27

**1922** Shareholders of the Red Arrow Tire Co. here will meet and ask for the winding up of the company.

The number of local pupils writing entrance examinations is a record with 231 candidates.

All Saints Church congregation bids farewell to the Rev. R. B. Grobb, who leaves on a long holiday trip to Europe.

**1932** Unemployment relief costs in Peterborough drop in June to $2,892.

Ald. Walter Stocker is in Toronto attending the annual convention of the Rose Society of Ontario.

Viola Harvey is appointed councillor of the girls' camp at Glen Barnard, near Algonquin Park.

**1942** The death occurs at the age of 88 of John Davidson, M.A., LL.D., well-known veteran teacher at Norwood, Oakwood, and Sudbury high schools.

The Nicholls Park Trust closes Jackson Park to cars this summer.

Frank Paterson of the Department of Agriculture says many more men are needed now in the district hay fields.

## Bible Message

(From the Authorized Version)

And unto the angel of the church in Sardis write; These things said he that hath the seven Spirits of God, and the seven stars; I know thy works, that thou hast a name that thou livest, and art dead. Be watchful, and strengthen the things which remain, that are ready to die: for I have not found thy works perfect before God. Remember therefore how thou hast received and heard, and hold fast, and repent. If therefore thou shalt not watch, I will come on thee as a thief, and thou shalt not know what hour I will come upon thee. Thou hast a few names even in Sardis which have not defiled their garments; and they shall walk with me in white; for they are worthy. . . .

And to the angel of the church in Philadelphia write . . . . I know thy works: behold, I have set before thee an open door, and no man can shut it: for thou hast a little strength, and hast kept my word, and hast not denied my name. Behold, I will make them of the synagogue of Satan, which say they are Jews, and are not, but do lie; behold, I will make them to come and worship before thy feet, and to know that I have loved thee. Because thou hast kept the word of my patience, I also will keep thee from the hour of temptation, which shall come upon all the world, to try them that dwell upon the earth.

Behold, I come quickly: hold that fast which thou hast, that no man take thy crown. (Rev. 3:1-4, 7, 8-11.)

## Was God On The Side of Japan?

(Calgary Herald)

During the First Great War, Germany under the Kaiser fought under the slogan "Gott Mitt Uns", which, roughly translated, meant that the Almighty was on Germany's side. The people of the Allied world, simultaneously, devoutly believed that they were fighting for the principles of Christianity, and in consequence invoked Divine assistance for their cause without the slightest suggestion of irreverence.

In the Second Great War, Hitler was not much disposed to seek Divine aid, believing in his customary paranoiac way that he was capable of discharging most of the Almighty's functions himself. On our side, the conviction that we were fighting for Christianity against the forces of Satan was stronger than ever; and, indeed, considering the character of Fascism in its German, Italian and Japanese forms, here was a war in which there could scarcely be any doubt on which side God's will lay.

But now we read that a former pilot in the Japanese Navy has been explaining to Y's Men's Club convention at Banff how God sustained him during the preparations for a Kamikaze attack on American warships. As he walked out to his aircraft, said this young man, he thought of God and his religion and was calm. As it turned out, the attack was never launched. But, he explained, his Christian beliefs upheld him when, as he thought, he had been ordered to go out and commit certain suicide for the greater glory of the Emperor of Japan.

## Retail Trade In Canada

(Woodstock Sentinel-Review)

Placing dollar sales of Canada's retail stores into one basket, there is a four per cent $125,000,000 increase in the first four months of 1952. A close look, however, discloses that increases are heaped in some types of stores and dug out of others. While grocery and women's clothing stores made sharp gains in the four-month period, radio and appliance stores, lumber yards and motor vehicle salesrooms took a slide. A Bureau of Statistics survey shows that total retail sales in the four months climbed to $3,234,000,000 from $3,108,000,000 last year.

*"Well, I bet SPONSORED television would've had Gussie Moran AND Hopalong Cassidy for the opening of Wimbledon."*

# Search Continues For Airwoman

OTTAWA (CP)—An R. C. A. F. spokesman said Thursday that search is being continued for an air-woman who went absent without leave last April from her station at Aylmer, Ont.

Defence Minister Claxton promised yesterday in the Commons to investigate the case of the girl whose parents were not immediately notified when she went absent.

Air Force headquarters identified her as AW2 Margaret Isobel Burton, 26, of Abernathy, Sask.

Maj.-Gen. G. R. Pearkes, V.C., PC-Nanaimo, said in the Commons that her parents had been advised of her absence a month later and also were told that no further action was being taken because it would be "a waste of the taxpayer's money."

The Air Force spokesman said the search has not been abandoned.

## New Deal in Sight for Blind Children

Until recently, Seattle's totally blind children had to attend school at the State School for the Blind, at Vancouver, Wash., in order to receive their education. Today, thanks to an experiment carried on by Seattle's public schools, grade school children may live at home and attend classes just as do their sighted playmates. Results of the experiment with 13 children have been termed "excellent," by school authorities, and plans are underway to extend the special courses to higher grades. At left, jig-saw relief map helps Bob Peterson learn to know his United States. At right, twins Betty and Barbara Nord familiarize themselves with the exercise bars, as Mrs. Constance Pierce, kindergarten teacher, supervises their play.

# History Made In 6th Commons Session

By D'ARCY O'DONNELL
Canadian Press Staff Writer

OTTAWA (CP)—The sixth session of Canada's 21st Parliament, called to consider a variety of national and international issues, was highlighted by several historic developments.

History was made at the outset. The session was opened Feb. 28 by Canada's first native-born Governor-General—Rt. Hon. Vincent Massey. From Confederation in 1867 Canada's Governor-General always had been chosen from among prominent residents of the United Kingdom.

Mr. Massey's predecessor was Earl Alexander, who resigned the post to become Britain's minister of defence.

**HISTORY MADE**

History was made, too, when Parliament amended the British North America Act—the basis of the Canadian constitution—for the first time without reference to the United Kingdom Parliament. From 1867 to 1949 the power to amend the constitution rested with the United Kingdom Parliament.

As a result of legislation passed in 1949, the Canadian Parliament can amend the constitution on almost any matter within jurisdiction of the federal government.

The amendment this year dealt with a readjustment of representation in the Commons. It provided that no province can lose more than 15 per cent of its seats in any redistribution of representation. It also added a seat to Canada's fast-growing Northwest Territories.

The changes will increase membership in the Commons after the next election to 265 from 262.

The present standing:

Liberals 183; Progressive Conservatives 49; C.C.F. 13; Social Credit 10; Independent four; Independent Liberal two; vacant one; total 262.

Historians may note that this was the year Canada renewed friendly relations with two of her major enemies in the Second World War—Germany and Japan.

**EXTEND GUARANTEES**

Parliament ratified a peace treaty with Japan. It authorized Canada, as a member of the North Atlantic Treaty Organization, to extend defence guarantees to western Germany.

In the event of a Communist attack, Canada now is committed to defend Germany, Belgium, Denmark, France, Iceland, Italy, Luxembourg, The Netherlands, Norway, Portugal, the United Kingdom, the United States, Greece and Turkey.

The commitments are in addition to those extended by Canada as a member of the United Nations. Canadian troops are fighting in Korea under United Nations command. Canadian soldiers and airmen are stationed in the United Kingdom and in Europe as part of the N.A.T.O. forces.

The session brought the first split since the outbreak of the Second World War in Canada's common policy on foreign affairs.

The 13-man C.C.F. party asked the 262-member Commons to vote non-confidence in the government on the grounds that it has not provided sufficient economic assistance to members of the North Atlantic Treaty Organization. The motion was defeated.

The 10-man Social Credit party said it could not support extension of defence guarantees to Germany without knowing more about what was involved.

To back up commitments at home and abroad, Parliament approved a record peacetime budget. It provided for revenues of $4,279,000,000 and expenditures of $4,270,000,000.

**JUGGLED TAX SCHEDULES**

The budget juggled personal income tax schedules. The rates were reduced from those in 1951-52. But with a two-per-cent social-security tax coming into effect July 1, the taxpayer will pay more than he did last year.

Corporation taxes, already amounting to more than 50 per cent, were left largely unchanged. Taxes were reduced on a variety of consumer goods.

The 49-member Progressive Conservative party—the official opposition—called for a vote of non-confidence in the government because of its "failure" to reduce taxes, to deal with the high cost of living and to eliminate "waste and extravagance." The motion was defeated.

Also defeated were Progressive Conservative motions demanding a judicial inquiry into administration of the Defence department and a royal commission investigation into ways to improve the organization and general efficiency of government administration.

In the legislative field, the first bill passed provided payment to farmers whose livestock or buildings were destroyed as a result of an outbreak of foot-and-mouth disease in Saskatchewan.

An all-party committee of the Commons investigated the government's handling of the outbreak. A majority report commended federal veterinarians. Progressive Conservative and C.C.F. members described the report as "whitewash."

Preliminary study was given to revision of the Criminal Code. The legislation will be reintroduced at the next session.

Members approved increases in unemployment insurance benefits and in allowances paid to needy veterans prematurely aged as a result of war service.

Taxation agreements with eight provinces—all except Ontario and Quebec—were renewed.

Private members introduced several bills but only one of them was accepted. Sponsored by J.L. MacDougall (L—Vancouver Burrard), it provides that hereafter Victoria Day be celebrated on Monday rather than on whatever day May 24 happens to fall. There will be no change next year as May 24 falls on Monday. In 1954 the holiday will be celebrated May 18.

## To Investigate Visa Issued To Yugoslav

OTTAWA (CP)—External Affairs Minister Pearson said yesterday his department is investigating the circumstances under which a Canadian visa was issued abroad to Dobrasov Jevdevic, a native of Yugoslavia.

He was replying in the Commons to M. J. Coldwell, C.C.F. leader, who said Jevdevic had been quoted as saying in Toronto he had been responsible for the deaths of "30,000 Red partisans opposing the Nazi and Fascist invaders of Yugoslavia," and that he wished to kill more of them.

Recently the Yugoslav embassy said it was considering action to extradite Jevdevic, described as a former Chetnik leader. One crime against him in Yugoslavia was "mass murder."

## Marmora News

Mr. and Mrs. B. G. McKenzie are occupying their cottage near Glen Allan Park, Crowe Lake.

Ray Osborne of Toronto is spending a week with relatives here.

Week end guests at the home of Mr. and Mrs. E. Horton were Mr. and Mrs. Lyle Treichler of Sanborn, N.Y.; Mr. and Mrs. Kenneth Cooney and family of Peterborough and Mr. William Cooney of Madoc.

The oiling of the village streets took place on Wednesday.

Mr. Vaughan Glover is having a new front made to his store.

Mr. A. Pordham returned home on Monday from a trip to England.

Mr. Clarence Gladney of Belleville is occupying his cottage at Crowe Lake.

## Every child has a gift

If you judge your child on school marks alone, you may overlook the really great gifts he has, says "unorthodox" teacher Hughes Mearns in July Reader's Digest.

He tells how, for example, a budding inventor may be so absorbed in daydreaming that he neglects studies; how a born leader, retiring nearly to the point of "dumbness" in class, may show his initiative on the baseball diamond.

Learn how to discover *your* child's hidden talents.

Get your July Reader's Digest today: 38 articles of lasting interest, condensed from leading magazines, current books.

## Downeyville News

The farmers here have started to cut their hay. It is not very heavy owing to the dry spell. Crops in general look well round here and the rain of the last two days was badly needed, especially for the strawberry crop.

The C.W.L. of St. Luke's Church held a social evening in the Paris hall, Friday and was well attended.

The tourist lodges around here are preparing for a good tourist season and are in readiness for a large crowd of fishermen.

Baseball 1846-1952

Always a Winner

Since the first game of record, in 1846, when catchers didn't wear masks and caught the ball on the first bounce, baseball has been a top favourite with sports fans. Today enthusiastic crowds at Canadian ball parks prove that baseball is . . . always a winner.

# Dadson Pitches The Petes To Neat C.O.B.L. Win Over Kingston Monarchs

KINGSTON (Special)—Earned runs were scarce in the sweltering heat last night in McGaffin Memorial Stadium when the Peterborough Petes posted a 13 to 8 triumph, their second in seven C.O.B.L. starts, and snapped Kingston Monarchs' winning string at five. Ten tainted runs racked up by the visitors made it a long drawn out evening for the small crowd in attendance.

Bill Dadson, who went all the way for the Petes, was accorded better support than were the three unfortunate moundsmen who toiled for the wavering locals.

Jack Stone, Monarchs' starter on the hilltop, allowed eight hits and nine runs in four and two third innings and was the official loser. Acting in relief, Tommy Ryder served up a better brand of hurling but was quickly relieved by Wally Stinson who had his troubles extinguishing fires that broke out in the seventh and eighth frames.

**EARLY LEAD**

The locals rushed into a 2 to 0 lead in the first inning. Jerry McCormick launched the assault by hitting safely to centre.

Eric Rank struck out but White singled and went to second while McCormick scored when Wood fumbled a throw and loafed in retrieving the ball.

In the second session, 10 batsmen faced Stone, two hit safely and four scored. With two out Bryon Young singled and the parade was on. Dadson was safe on Gilmour's error and when Joe Lowry and Fred Garvey walked in succession Young was forced in. Al Menzies singled, scoring Dadson and Lowrey and when Joe Stewart and Neil Thompson strolled, Garvey ambled home. Wood, up for the second time, fanned and was replaced by Junior Milne.

**HITTING HARD**

The Petes added another marker in the fourth before they batted around the clock in the fifth, amassed four hits and five runs and drove Stone to the showers.

With one out in the last of the sixth, Lorne Ferguson's double, a single by Cliff Aitken, another by Gilmour and Carnegie's triple produced three runs but failed to throw the Petes off stride. They added two more tallies in the seventh and had two men on the runway and one out when Arnie Dugan crashed into a double play.

An earned marker, scored by Dadson in the eighth completed Peterborough's total. Dadson, second man up, walked and made the rounds when Lowrey and Garvey singled in succession. In the last of the ninth eight batsmen faced Dadson and three of them were pinch hitters. McCormick opened the attack with a double and scored on a wild pitch. Joe Levandoski batted for White and singled. Manager Stan Scrutton and Pitcher Norman Harry eventually batted for Gilmour and Carnegie respectively and it was a strike-out against Harry that ended hostilities.

# St. James Captures Church Bantam Title

St. James defeated Trinity at King Edward Park last night to capture the bantam championship of the Church Softball League for 1952. They had edged out a close win earlier in the week and the victory Friday gave them the series in two straight games to wind up a successful season.

The Saints scored three runs each in the first and sixth innings, with two in the fourth, and single markers in the second, fifth, seventh and eighth stanzas. Trinity were limited to a run in the fourth and one more in the fifth frame. The winners proved more timely clouters as well as getting neat pitching and fielding. Teams:

Trinity: W. Hamilton, G. Vincent, W. Henry, B. Riel, M. Mann, S. Hutton, R. Ritchie, F. Jobbitt, R. Krug, R. Brown.

St. James: R. Brown, R. Rowe, J. Rose, R. Stevens, H. McIntosh, B. Heard, P. Waldie, A. Beggs, R. Brown.

# Pick Swimmers For Olympics At Toronto Tests

TORONTO (CP) — Canada's Olympic aquatic team will be chosen tonight at the end of the three-day Canadian swimming championships.

Officials of the Association say they are gratified with the 14 records set in the 19 events of the two days of the meet in the big indoor pool at the University of Toronto's Hart House. However, they say competition for Canada's 12-member team will be much stiffer at the Olympic Games next month.

**SEVEN RECORDS SET**

Seven records fell yesterday, the west taking five and the east two. This gives the British Columbians a total of 11 top times. The Ontario and Quebec entrants combined for three. Nineteen events have been run and records established in 14.

Gladys Priestley of Montreal shattered the junior women's 100-yard free-style mark yesterday in 1:02.3, shaving 1.1 seconds from her own mark set a month ago in the Quebec Olympic trials at Montreal. Wednesday the 14-year-old set a new Canadian time in the junior women's 200-yard free style.

Kay McNamee of Vancouver also topped a previous mark of her own in the women's 400-yard free-style with a time of 5:00.7, for a championship. Her former time was 5:02.2 clocked in Vancouver in December, 1949.

Kay's brother Gerry set a record in the men's 200-yard free-style in 2:00.4. The previous Canadian mark of 2:02.5 he set himself in 1950. Both Kay and Gerry have taken two championships each in the meet so far.

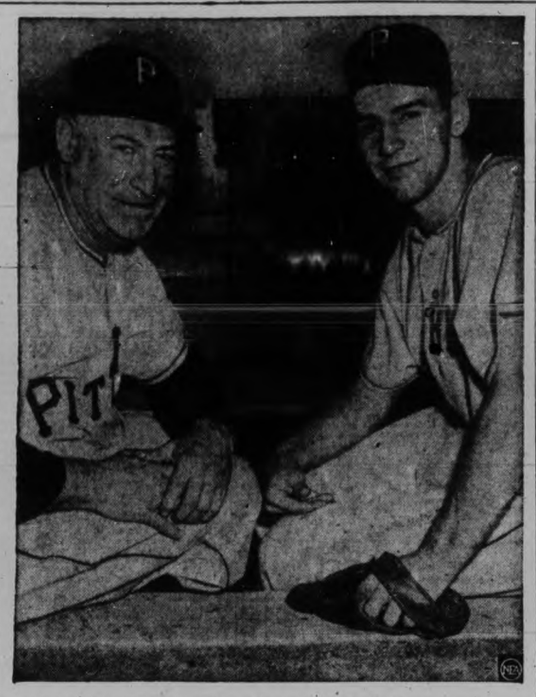
Lenora Fisher of Ocean Falls, B.C., took her second championship of the meet in 1:12 in the women's 100-yard backstroke. This broke a record of 1:12.2 set in 1934 by Noel Oxenburg of Vancouver at Winnipeg.

**EAST WINS RELAY**

The Easterners took their only relay win from the west for a record-breaker in the men's 300-yard medley. Toronto's West End YMCA team clocked 3:03.4, while Vancouver's amateur swim club was second. Toronto team members were George Stulac, Bill McIlroy and Bill Ross.

The junior women's 400-yard relay record was broken by Miss Priestly, Mary Lavell, Boeth Whittall and Beverley Knee of Montreal, with a time of 4:20.7. The west didn't compete in this one.

Seventh and final record of the day went to the Vancouver Amateur Swim Club composed of Kay McNamee, Irene Strong, Helen Stewart and Dorothy Cooke. The foursome brought in a time of 4:25.5 in the junior women's 400-yard free-style relay.



PLAYING FOR BUCKS—Shortstop Dick Groat gets acquainted with his new boss, Pittsburgh Manager Bill Meyers, after signing a Buc contract for $75,000. The Duke basketball and baseball All-America grounded out against the Giants in his first appearance as a pinch-hitter.

# SPORTS SHOW WINDOW

By CEC. PERDUE, Sports Editor

Perhaps a puck mention or two might be a cooling thought at this time. After all, the sudden humidity of the past several days sort of caught a lot of folks unawares. After such cool weather till mid-June. Anyway, Secretary Horace Guppy of the Eagles' senior "B" hockey club informs us that the officials and players will dine July 3 at 7:30 p.m. at the Peterborough Golf Club, and windbreakers will be presented to the players of the team. D. A. McGillis Sr. is sponsoring the affair. It took some time to get the order for classy windbreakers completed, so the presentation could not be held before this. The date is a week from yesterday.

* * * * * *

**Bunny Ahearne, secretary of the British Ice Hockey Association, was in Canada recently for the annual C.A.H.A. meeting. He expressed great admiration for the restraint Canuck teams show in play over in Europe. These games on that continent are supposed to be played under C.A.H.A. rules, with a few minor exceptions. Yet, Europeans thoroughly dislike bodychecking and anything that smacks of rough play. So, the Canadians try to cut down on their usual and legal rugged style of play, but they're still penalized and criticized plenty across the sea. Apparently, the effete Europeans prefer a gentle basketball type of hockey with no body contact whatsoever.**

* * * * * *

## Senior Race Gets Warm

If you want to see rugged play in the gutted-stick game, drop down to Miller Bowl this eve for the senior O.L.A. scrap betwixt Hamilton and the Petes' Timbermen. Since suffering that 12-11 reverse in Mimico the other night, the Thorpe team trails the Mounties by three games and the M's may be tough to overhaul in first place now. Hamilton is definitely not one of the weaker clubs in the senior circuit, so the Timbermen will have to show their real class to beat them here and keep on the Mounties' heels. Hamilton, Toronto, Petes and Mimico are staging a hot fight of it now and there's quite a piece to go yet ere playoffs. The tilt tonight will be a warmish one, weather permitting.

* * * * * *

**A few other lacrosse items to clean up ere we move on to something else. An O.L.A. junior "A" joust at 8:45 tomorrow night in Miller Bowl with St. Kitts here for a four-pointer with Lou's lads. The only appearance of the schedule for the cocky Saints, who figure they have only Brampton and Mimico juniors to beat for the Minto Cup trip. Monday here at nine p.m. sees Long Branchers play the Peterborough juveniles in the first of provincial "A" playdowns, return game being July 3. The P.M.L.A. peewees drill at nine a.m. Saturday with the tadpoles there at 10:30, and Coach Harry Wipper will be on full-time duty in the Bowl that day and every day during the school summer holidays.**

* * * * * *

## Keen Action In Bowl

U.E.W. male softballers clipped Revoy's 11-8 last night in the Bowl to keep close to the pace-setting Seabrooke squad. Dick West and Jim Driscoll did the twirling and were nicked pretty frequently with Reg. Leether especially potent at the plate. He blasted out two homers, a double and a single, besides turning in his usual snappy chore afield. Seabrooke's edged Lindsay 11-10 in a lively joust before a hefty gallery. Ump Smith thumbed out Red Sullivan and Spin Spencer for arguing too heatedly. Woods relieved Doris in the seventh for the local crew, while Eakins took over in the eighth for Lindsay as Kean headed for the showers. Two tidy tilts. This schedule runs one more month.

* * * * * *

**The Petes finally began to hit up to form and they pounded out a 13-8 C.O.B.L. victory right in Kingston last night. It was a sudden setback for the Monarchs, who have been rolling right along on the heels of the leading Quinte crew. Lefty Bill Dadson pitched the Peterborough win, and his buddies blasted three Kingston twirlers quite soundly. They were overdue to dump their opponents and they should keep up the good work after a slow start this semester. Gunnew Whitehill is still experimenting in several positions and trying to come up with a solid combination for senior ball competition. The K's are scheduled to come here Monday night with the Petes going to Bella Villa for a loop fray on July 4.**

* * * * * *

## Hither and Yawning

Some info on the girls' softball playoffs in tomorrow....Toronto senior lasses have an eight p.m. exhibition in the Bowl with Burtol's Saturday.....Reg. Gordon pitched Omemee Whitmores to a 6-3 win over Lindsay Combines in the town softball circuit....Woollens took Rays in fastball last gloaming; no more till July 2....B'nai B'rith edged Police in the Civic Loop; tonight at the Bowl it's S. Army vs. Timbermen, and Foresters vs. Post Office....More schedule in this e'en....Junior ballisters go to Bowmanville tomorrow and have Lindsay here Monday p.m.....Or can that be right as Kingston seniors are listed for here Monday night?....Hugh Davis drove Andy Price's horse Parsons to a second and a fourth in heats down Quebec way the other day....Cricketers play the Avro "B" club at the Oval tomorrow aft....Ladies' city and district tourney was listed for the Peterborough Golf Club this week....No tennis slated for the weekend....Soccer club doesn't play Sat'day....No senior ball or lacrosse scheduled locally for the July 1 holiday....St. James captured the bantam Church Softball League championship last eve over Trinity....That wraps it up.

**SIGN BONUS PITCHER**

New York Giants last night signed righthanded pitcher Earl Hamberger of Chevoit, O., one of the most sought-after high school prodigies. It is believed he was given a $50,000 bonus. Hamberger, 18, will be assigned to one of the Giant farm clubs.

**CARRASQUEL HURT**

Chico Carrasquel, Chicago White Sox shortstop, will be out of action for at least a month because of a compound fracture of the little finger on his right hand. Chico was struck yesterday by a throw from Nelli Fox as the Sox lost an American League game to Washington.

## Out At The Kawartha

**LADIES' SECTION**

The 18-hole players' group of the Kawartha played at the Peterborough Golf and Country Club Thursday afternoon in the city and district championship. Winners were Mrs. Howard Woodcox, Mrs. Jan McGillivray, and Mrs. Lionel Browne.

Mrs. Harry Hamley, of the 9-hole players' section, won a china cup and saucer for the lowest number of putts. Mrs. Don Meredith received a point to her credit and rMs. Don Clarke took home a golf ball for her win. Also in thiss ection Mrs. Norris Williamson won the handicap competition.

**BUSINESS GIRLS**

Tuesday evening, at the Peterborough Golf Club was thoroughly enjoyed by all. The rain tried but did not succeed in dampening anyone's spirit.

Approximately 30 B.G.'s teed off last evening competing for low net, lowest number of putts, and Spring Trophy.

As low net winner Ruth McKee received a spoon, while Mel Mortimer was credited with a point.

Corrine Coons having the lowest number of points won a spoon and Ruth McKee will be credited with a point for her win.

This year we have five girls ligible for the Spring Trophy match. Ruth McKee and Mel Mortmer tied last evening to complete the group.

On Thursday, July 3, the B.G.'s will be hosts to the male members of the Kawartha. All girls planning to play please sign the list on the bulletin board in the locker room.

**LADIES' TOURNAMENT**

The posters advertising the tournament, August 16, have been sent to 70 or more clubs.

# Woollens Triumph

Woollens walloped Raybestos 13-2 last night in their fastball fixture at Brinton Field. They pounded out 18 safe blows and had but two miscues, while Rays were held by Doris to five hits, while they were booting nine in a poor defensive display. Doris was in rare mound form for the winners, and M. McMillan shone in the field. Woollens got five runs in the first inning, three next time to bat, one in the third and two each in the fourth and seventh. Rays tallied one in the second and another in the eighth. Teams:

Woollens— Weichorek, Schell, G. Leonard, E. Leonard, Manbeck, Killingbeck, Doris, Anderson, McMillan.

Rays— Maudsley, Caccavella, Batley, Carey, Crampton, Cullen, Cowan, Fennell, Nickle.

Umpires—White and Richardson.

# Seabrooke Gets Close One From Lindsay

Red Sullivan's colorful Seabrooke Motor crew came from behind to edge Lindsay Combines 11-10, in the nightcap of Thursday's men's softball double-bill at the Bowl to extend their undefeated string to eight games, one a tie; they lead the pack.

The game was witnessed by the largest crowd by far this season, who stayed till the finish of one of the most hectic battles ever played at the Bowl.

Manager Sullivan and Spinner Spencer were banished in the sixth by umpire Smith for protesting too loudly against the changing by pitcher Kean, of a ball in play; while earlier Russ Hanson, Lindsay mentor, almost suffered a similar fate when Smith ruled Kean out for stepping across the batter's box on the third pitch of an intentional pass, with two on base. Clutch hitting, errors, disputes, comedy and sensational fielding-mix-up, kept the fans in a dither of excitement, from start to finish. The issue was settled ater Seabrooks' tied the score with a six-run blast in the seventh inning and came on for two more in the eighth. Prior to this outburst, Combines looked sure winners with a 9-3 lead and Kean hurling steady ball. The visitors scored one in the ninth off Woods, who relieved Doris in the seventh, and his team in arrears 7-3 but fell short of victory as Woods finished his great relief chore by fanning Kean; and Martin flew to Skeeter O'Heron for the final out. Seabrooks' scored three in the second and Kean homered off Doris next frame; then tied the score in the fifth on Jack Richard's hard double with Bus McDougall and Richmond on base.

Following with a four-run barrage in the sixth and two in the sevent, visitors seemed headed for victory, but with two out in the bottom half, O'Heron doubled; Scriver got by on a rap to Richards; Woods rapped a hot one at Kean; Jim McGrath hit to score O'Heron. Wyatt was safe on an error after Curry walked and Jake Jaquith cleared the sacks to tie it. In the home eighth, O'Heron doubled, Sriver drove him in, then scored on McGrath's double.

Good fielding plays were contributed by Currie, Jaquith, Richards, Spencer, Sullivan, O'Heron and Bolderstone.

# Trade Centre To Wings For Three Players

NEW WESTMINSTER, B.C. (CP) —Ken MacKenzie, co-owner of New Westminster Royals of the Western Hockey League, announced today he has traded centre Guyle Fielder to Detroit Red Wings of the National Hockey League for three players.

MacKenzie said the Royals will receive defenceman Lloyd Durham, right winger Gord Haidy and either Tim O'Grady or Don Morrison, all with Detroit's Indianapolis farm club in the American League last season.

# Civic Schedule

June 30—B'nai B'rith v. Timber Structures, Ashburnham. Post Office v. Provincial Police, Turner Park.
July 2—Timber Structures v. Kesco, Ashburnham.

July 11—Salvation Army v. Kesco, East City Bowl.
July 14—B'nai B'rith v. Post Office, Ashburnham.
July 14—Salvation Army v. Kesco, Turner Park.

Completion of first half of playing schedule.

## LAWN BOWLING

By HERB MARTIN

Tonight at 7 o'clock sharp, men's doubles, draw from the board. The entry list for the Lift Lock open doubles on July 9 is filling rapidly; if there are any local bowlers who intend to play in this tournament and have not as yet made their entry—here is a hot tip—contact Robt. Gamble at once — one day's delay may be just a little too late.

The sympathy of the club is extended to the husband and family of the late Mrs. G. Spence who passed away at her home, in Lakefield, on Thursday.

Up until the beginning of her illness, Mrs. Spence was a faithful and enthusiastic member of this club. She made many friends and will be greatly missed.

# Port Hope Rink Wins Trophy

COBOURG (ENS).—Mrs. V. Highfield and her rink of Port Hope won the cup at the lawn bowling tourney held here on Wednesday afternoon and evening at Cobourg Lawn Bowling Club. The cup winners had three wins for a total of 50 points. In second place with three wins and 42 was Mrs. B. Naylor of Cobourg. Mrs. Hepburn of Peterborough was high with two wins and a score of 43 plus 7. Mrs. R. McCutcheon of Oshawa was high with one win and 33 points. A hailstorm in the afternoon held things up for a while but the greens dried up rapidly and the players were able to continue. A total of 15 rinks participated. Following were the game scores:

First game—Mrs. Watson of Cobourg vs. Mrs. Hepburn of Peterborough, 9-7; Mrs. McLeod of Cobourg vs. Mrs. Yeoles of Peterborough, 6-16; Mrs. Smith of Cobourg vs. Mrs. Dyer of Peterborough, 14-10; Mrs. Knight of Port Hope vs. Mrs. Gibbs of Oshawa, 6-15; Mrs. Hilliard of Cobourg, vs. Mrs. Arnold of Peterborough, 18-6; Mrs. Hoskin of Cobourg vs. Mrs. McCutcheon of Oshawa, 16-4; Mrs. Highfield of Port Hope vs. Mrs. Shields of Peterborough, 17-5; Mrs. Naylor of Cobourg (bye) 15.

Second game—Watson vs. Smith 3-16; Hepburn vs. Dyer, 18-8; McLeod, (bye) 15; Knight vs. Arnold, 6-11; Gibbs vs. Naylor, 6-13; Hilliard vs. Highfield, 6-17; McCutcheon vs. Shields, 18-8; Yeoles vs. Hoskin, 7-13.

Third game—Watson, (bye) 15; Hepburn vs. McCutcheon, 18-11; McLeod vs. Arnold, 12-8; Yeoles vs. Hillard, 12-2; Smith vs. Highfield, 10-16; Dyer vs. Knight, 12-14; Gibbs vs. Shields, 18-5; Hoskin vs. Naylor, 4-14.

# Revoy's Beaten By U.E.W. In Keen Joust

Hard hitting featured Thursday night's opener of the popular men's senior softball set at the East City Bowl and U.E.W. emerged the winners over Revoy's 11-8 to keep within one point of the pace-setting Seabrooke's, who also won.

Despite the score, Dick West and Jim Driscoll toiled the route for their respective clubs and each was touched freely as the batters fattened their averages for a total of 26 hits in all. Reg. Leether led the offensive for both teams with two long homers, a double and single to drive in five of his team's runs, besides turning in a good game at first. Bob Nelson also hit a circuit clout with two aboard for Revoy's. Other patent stickers were Ross Craig, peppy U.E. catcher, with three for four, Perc Elmhirst, lanky Revoy first-sacker, with three for five, one a triple; Bernie Robson and Harold Grafstein two for five and four respectively, the former driving in a pair of tallies; Bill Wood, versatile Revoy third-sacker, also hit safely twice in three trips.

U.E.W. took the lead in the first on Leether's homer and hits by Legrow and Robson. They added a pair in the second as well when Leether homered again, this time with Driscoll aboard.

Revoy's came for one in the second as Hope scored on a wild pitch; and two in the third as Nelson hit safely, Elmhirst was safe on a fielder's choice, the former scoring on a wild throw on the play; and Ralph Clysdale hit to score Perc. It was nip-and-tuck the rest of the way with the issue somewhat in doubt and melons flying both ways; but U.E. were always in the lead and held to the finish. Fielding features were supplied by Lennie Williams, Jake Wade and Bruce Taylor and each team had a double play. Revoy's fielded better as a team, than their rivals.

Revoy's ... 012 003 002— 8 11 2
U. E. W. ... 220 040 30x—11 15 5

Revoy's: Wood 3b, Mather 2b, Nelson ss, Whalen cf, Elmhirst 1b, Clysdale rf, Hope c, Cowie lf, 3b; West p.

U. E. W.: Leether 1b, Taylor 3b, Legrow ss, Wade cf, Robson rf, Williams 2b, Grafstein lf, Craig c, Driscoll p.

Umpires: Payne and Smith.

# Leafs, Syracuse In Deadlock For Third Place

By THE ASSOCIATED PRESS

The Toronto-Syracuse "now it is my turn" battle for third place in the International League was in a virtual deadlock today with the position by one percentage point.

The Leafs personally accounted for the shift last night when they whipped the Chiefs from Syracuse 11-2 with nine runs in the fifth inning and Hal Hudson's three-hit pitching.

Johnny Blatnik's eighth home run with one on in the first inning accounted for all of Syracuse's runs. The Leafs tied it up in the third on three hits, a walk and a wild pitch and parlayed five hits, three walks and two errors into nine runs in the fifth.

In the only other games played, the cellar-dwelling Baltimore Orioles took two from the seventh-place Ottawa Athletics to narrow the margin to 2½ games. Scores were 4-1 and 7-5.

The Orioles erupted for 13 hits off two pitchers in the second game—scoring a run in every inning except the first and fifth. Jim Atkins struck out four and walked six in 8 1-3 innings for his fifth win against four losses.

Roy Weatherly's 10th homer with a man on base was the big blow in the opener.

The battle for first place between the pace-setting Montreal Royals and Rochester was postponed by rain.

## B'nai B'rith Wins

B'nai B'rith edged out Provincial Police 10-9 last night at Ashburnham Park in a keen Civic Softball League fixture. Their four-run drive in the seventh did it, after they had tallied two in the third, one next time up and three in the fifth. Police got one each in the third and sixth with seven in a big fifth frame. Play was quite even throughout. Teams:

B'nai B'rith: Evans, 2b; Pagett, ss; Downer, 1b; Smith, 1b; Brierly, c; Hewie, 3b Bloom, lf; Tully, cf; Peters, rf, p; Staves, rf; Welch, p.

Police: Rowe, c; Crough, 2b; Healey, ss; Eady, 1b; Naismith, cf; Armstrong, lf; Wainman, p; Phillips, p; Mohns, 3b; Louth, rf;

# Sal Chills Dodger Cousins With Three-Hit, 6-0 Win

*By JACK HAND, Associated Press Sports Writer*

Even on the hottest day of the year in New York, Sal Maglie is "Mr. Zero" to Brooklyn Dodgers. These have been rough days for 35-year-old Sal the Barber. Since he last fondled a Brooklyn batter with loving care, May 27, he hadn't won a game, was knocked out in five straight starts and even bounced once in relief.

With the tender solicitude of a father greeting a long-lost son, Sal last night chilled the Dodgers without a hit for six innings, and finally wound up with a three-hit 3-0 victory that boosted New York Giants within three games of Brooklyn.

Sal's deep love for his Brooklyn clients dates 'way back to the Mexican War, (baseball war) that is, when he scurried south of the border for more dough. Since his return to the majors, Maglie boasts a 12-1 record over the Dodgers.

**NOT A RUN YET**

So far this season the Dodgers haven't scored a run off Sal. Two hits the first game, four the next and three last night for a total of nine in 27 innings. The record for shutting out a team most times in one season is five.

Thus Maglie became the National League's first 10-game winner as he scored his first victory since he ran his record to 9-0 by beating Brooklyn, May 27.

That was the only game in the National League and there was only one in the American as the teams travelled.

Vic Wertz hit a tremendous first-inning home run with two men on to start Detroit on the way to a 6-0 win over St. Louis Browns.

Bill Wight, ex-Red Sox, made his first Detroit win a stylish six-hit shutout. Only one man got as far as second base as he outpitched Ned Garver.

The loss dropped the Browns into seventh place, a half-game behind the idle Philadelphia Athletics.

## Douro Takes Win

Douro defeated St. Peter's 13-5 in a Catholic Softball League encounter. They scored two runs in the first inning, one each in the next two, three in the fourth and six more in the seventh. St. Peter's notched two markers in the first, and one each in the second, third and seventh of a fair tussle. Teams:

Douro: P. Leahy, Allen, C. Leahy, F. Leahy, J. Maloney, C. Maloney, E. Leahy, Foley, T. Maloney.

St. Peter's: Quinlan, O'Rourke, Board, T. Shaughnessy, Galvin, O'Reilly, Legrow, J. Shaughnessy, Ryan.

# Trip To Helsinki Lure For Stars Of Track, Field

HAMILTON (CP)—An expenses-paid trip to Helsinki for more than 20 of Canada's crack men and women track-and-field stars is the lure today for athletes from most parts of Canada.

Officials in charge of the two-day Canadian championships and Olympic trials are laying on a program for the 175 hopefuls that will show in miniature the greatest sports festival in the world. There will be torch-carriers and releasing of pigeons, just as they have in the Big Show.

About one-sixth of the entry list will wear the Maple Leaf crest at Helsinki July 19-Aug. 3 as Canada, which hasn't shown much in the world games since the lush days of the late 20s and early 30s, tries to regain some of its lost prestige.

Representatives from all provinces except Newfoundland, New Brunswick and Prince Edward Island will toe the mark in events ranging from the classic 100-metre and 200-metre sprints to the 10-event decathlon. Standards have been established for all events and if the various winners don't hit these, the selectors likely will pass them up.

Billed as one of the most colorful spectacles since this city of nearly 300,000 was host for the British Empire Games in 1930, the first gun will boom at 6:30 p.m. EDT. External Affairs Minister Pearson is expected to open the program, the last torch-bearer will dash into Civic Stadium, the latches to the pigeon cages will be freed and the athletes will begin.

Thirteen finals are scheduled to be decided tonight before one of the biggest crowds to witness a track-and-field meet in Canada in years. The 20,000-seat stadium is practically sold out.

There's Ottawa's great Don McEwen, one of the best milers the country has turned out in years. Then there is Rich Ferguson, the youngster from Toronto, and John Ross, of Oakville, who recently have beaten McEwen.

But in this competition, McEwen, a student at the University of Michigan, is considered the man to beat. Ron Miller of Toronto, who represented Canada in the pole vault in the 1950 British Empire Games at Auckland, New Zealand, is considered the man to beat in the pole vault. Ed Bredda, an almost-unknown from Toronto, is called on to give Miller his greatest competition.

Bruce Humber of Vancouver, who will handle the team at Helsinki, is high on his west coast athletes who have been training at McMaster University here. He figures Gerry Bemister and Eleanor McKenzie of Vancouver are sure-fire candidates in the sprints and believes Al Fisher, a member of the University of Washington track team now running under the colors of the Victoria Y.M.C.A., is a cinch for the middle distances.

All the Olympic brass will be on hand. Sidney Dawes of Montreal, president of the Canadian Olympic Association, is scheduled to open Saturday's events and later the C.O.A. will select the personnel for the full Canadian team.

**RETRIEVER** — Alejo Russell dashed to his right stretching for a sizzling smash by France's Paul Remy during the European Zone Davis Cup competition at Roland Garros Stadium in Paris. The mustachioed Argentinian lost.

# Ex-Czech Star In Tennis Final

TORONTO (CP)—Hanna Sladek, a Czech who was a ranking European player for three years, qualified yesterday for two final women's matches in the Ontario tennis championships.

Mrs. Sladek, 23, who now lives in Montreal, upset second-seeded Pat Macken, also of Montreal, in a semi-final that was the closest match in the day's play. Later she combined with Miss Macken to win a doubles semi-final.

Mrs. Sladek dropped the first set of the singles match 6-8, but came back to take the last two 6-4, 6-4.

She combined with Brendan Macken of Montreal to defeat Mrs. Pat Pattison and Peter Stewart, both of Toronto, 6-1, 6-3, in a mixed doubles quarter-final.

The Czech player can win her first championship today when she and Miss Macken meet Louise Brown and Dorothy Hurst of Toronto. And if she survives the mixed doubles semi-finals this afternoon she can win that even in the evening. All other finals are tomorrow.

Don Fontana, Toronto, qualified for his first final when he teamed with veteran Lorne Main, formerly of Vancouver, to defeat Bruce Logie and Austin Macpherson, both of Toronto, 4-6, 6-2, 6-2, 6-2.

In the other men's doubles semi-final, Brendan and Jim Jacken disposed of Gerald LaFortune of Ottawa and Ken Trestrail of Toronto, 6-1, 7-5, 6-3.

## Major League Leaders

# Yelverton Girls Tie Bethany 9-9

BETHANY (ENS) — Yelverton girls tied the league leading Bethany lassies 9-9 in a seven inning game on Tuesday night. However the Bethany girls remain on top of the league with six wins and only one loss and it will not be necessary to replay the tie.

Yelverton played good steady ball with Helen Nesbitt doing the hurling and Kerr receiving.

Bethany girls with Bristow on the mound and Carr receiving were held scoreless for the first three innings.

Madg Kerr of Yelverton had the only homer of the game.

Score by innings:

Bethany ..... 000 205 2—9

Yelverton ..... 140 211 0—9

Teams:

Bethany—Bristow p, Carr c, Hudson 1b, Mulligan 2b, Neals 3b, Edwards ss, Finney lf, H. Bigelow cf, J. Bigelow rf.

Yelverton—Nesbitt p, Kerr c, R. Malcolm 1b, M. Kerr 2b, McCullough 3b, E. Malcolm ss, Stewart lf, W. Malcolm cf, Bowers cf.

Umpires—Wilson and Hudson.

**YESTERDAY'S STARS**

By THE ASSOCIATED PRESS

**Batting:** Vic Wertz, Tigers — started Tigers on way to 6-0 win with three-run homer in first inning.

**Pitching:** Sal Maglie, Giants—shut out Brooklyn with three singles, 3-0, to become National League's first 10-game winner of season.

**REMEMBER WHEN—**

Chuck Campbell of Toronto qualified 16 years ago today to represent Canada in the single sculls at the Olympic games in Berlin. Campbell, former Canadian and United States amateur champion, placed fourth in the Olympic final.

# Here and There In Sport

By The Canadian Press

Mrs. N. J. Carlson of Toronto Rosedale yesterday fired a 79 to take top honors in the annual ladies invitation tournament of the Hamilton Golf and Country Club. Marlene Stewart of Fonthill also carded a 79 over the Ancaster layout but since Mrs. Carlson had the better score on the final nine holes —a 37 compared with 40 for Miss Stewart—the Toronto golfer came in as the winner. Miss Stewart was given a handicap of plus 2 for the event.

A stroke off the pace was Marlene's clubmate, Ann Sharp. She was followed by veteran Ada Mackenzie of Toronto with an 81. Mary Gay of Kitchener Westmount, recent winner of the Ontario championship, finished in seventh place with 46.

The tournament gave Miss Stewart a commanding lead in competition for selections on the Ontario team in the ladies interprovincial matches. She has 71 points with Miss Mackenzie next with 48 and Mrs. Carlton third with 44. As provincial titleholder Miss Gay is automatically a member of the team.

**N.H.L. TO MEET**

President Clarence Campbell of the National Hockey League announced yesterday in Montreal that club owners will meet in Toronto July 2 to deal finally with Cleveland's application to enter the circuit. At the annual meeting in Montreal June 27 the owners postponed decision pending a further examination of financial and stock arrangements.

**ARRANGE FIGHT**

Jake Mintz and Tom Tannas, comanagers of Ezzard Charles, announced yesterday at New York that the former world heavyweight champion will meet Jimmy Bivins of Cleveland in a 10-round bout at Cincinnati July 22.

**BALL ATTENDANCE DIPS**

Major League baseball attendance has dipped only seven per cent from last year's figures despite the unusually large number of postponements forced by weather. An Associated Press survey in New York showed today that the two leagues have attracted a combined total of 6,162,166 paid admissions, a drop of 441,549 from the corresponding number of games in 1951.

**MOORE UPSETS HENRY**

At Baltimore Archie Moore, the old brushed-off light heavyweight contender, last night pounded out a unanimous decision over Clarence Henry, fifth-ranking heavyweight. The 35-year-old Moore, veteran of 104 pro fights, hit the 25-year-old Henry up and down and had him lying across the ropes in the last round.

**TORPORCER HONORED**

George (Specs) Torporcer, former Buffalo Bisons manager who lost his sight last year, returned to Buffalo last night and was honored by a crowd of 8,500 who attended "Torporcer Night" at an exhibition baseball game between the Bisons and Cincinnati Reds. The entire net gate was given to the 53-year-old ex-manager.

**CARINA WINS**

Carina, 46-foot-yawl owned by Richard Nye of New York, yesterday won the Newport-to-Bermuda yacht race—the first Class C boat ever to capture the 675-mile event. The Carina completed the distance in three days, 16 hours, five minutes and 47.5 seconds. The lone Canadian entry was the Wanderer IX of Halifax, 45th across the finish line at Hamilton, Bermuda.

**CARRIES OLYMPIC FLAME**

Aristides Rubanis, Greek javenlin champion, carried the Olympic flame into Athens' white marble stadium last night and was applauded by an estimated crowd of more than 30,000. He was the last of a relay team carrying the torch from Mt. Olympus. Basis Silis, Greek 400-metre champion, lit his torch and started off to carry it to Hellenicon Airport. It will be taken by air to Copenhagen and from there will be carried by a relay of runners to Helsinki.

# Canadians Lose In U.S. Fights

WASHINGTON (AP). — Three Canadian servicemen lost to American foes last night in the first international boxing tournament on the "Meet the Champ" television show.

United States army Pfc. James Bark of Philadelphia, "Meet the Champ" featherweight titleholder, won all four rounds from L.Cpl. R. D. Spears of Kingston, Ont. Bark blooded Spears' nose in the first round and it bled throughout the fight.

In the second bout Aircraftman Fred Pinky Mitchell of Ottawa lost a unanimous decision to the U.S. Air Force middleweight champion, Brant Thompson of Philadelphia.

In the final international bout seaman Vic Theoret of H.M.C.S. Stadacona, Halifax, failed to answer the bell for the third round in his fight against Cpl. Fleming Butler of Cleveland. Theoret had been undefeated in six contests before meeting Butler.

Last night marked the 26th "Meet the Champ" telecast and the last of the current series The matches resume in the fall with top U.S. armed forces boxers meeting teams representing England, France, Mexico and other countries.

# Pert U.K. Girl Comments On Men In U.S.

By BOB THOMAS

HOLLYWOOD (AP)—The U.S. male now gets a chance to see himself as others see him.

Doing the viewing is Dorothy Bromiley, a pert 21-year-old from Manchester, England. With two other English girls, she was brought to Hollywood to play a leading role in "Pleasure Island." Since her arrival, she has done a large amount of dating. Her reflections may be an eye-opener for the complacent American male.

"I break my neck trying to work up a half-way serious conversation with a date here," remarked Dorothy, who spoke with refreshing frankness. "American men seem to be afraid to talk with their dates about anything intellectual. They talk down to women, as though they didn't attribute any sense to them at all.

**BORING**

"I've been going out with an art student, and I've been able to get him to discuss art with me. But he's the only one. The others talk about trivia all the time. It makes for a damn boring evening."

She said English men are more willing to discuss intellectual matters with women. She also indicated they are more tender. "A friend from England sent me a book of sonnets," she remarked. "You'd never find an American doing that.

"American men seem nervous and tense; they're always on the g," she added. "They think nothing of driving 25 miles up the coast for dinner. The geography you cover on a date here is amazing.

**SMOKERS**

"I find the men smoke a great deal, and I think it's largely because of nervous tension. They even smoke between courses at dinner, and I've gotten so I do it, too. It's a terrible habit. Strangely enough, the men don't seem to drink as much as they do in England. The fellows here seem just as eager to have a soft drink."

I asked her if she found that American men were as romantically aggressive as the English.

"They're just about equal in that department," she remarked. "A line is a line in any country; that seems to be an international language. For instance, an English line would be 'Won't you come up and see my etchings?' In America, you'd hear 'I'd love to have you see my apartment.'"

Lest American men think all looks black for them, Dorothy added this comment: Their manners are better than the English.

## How to write a letter

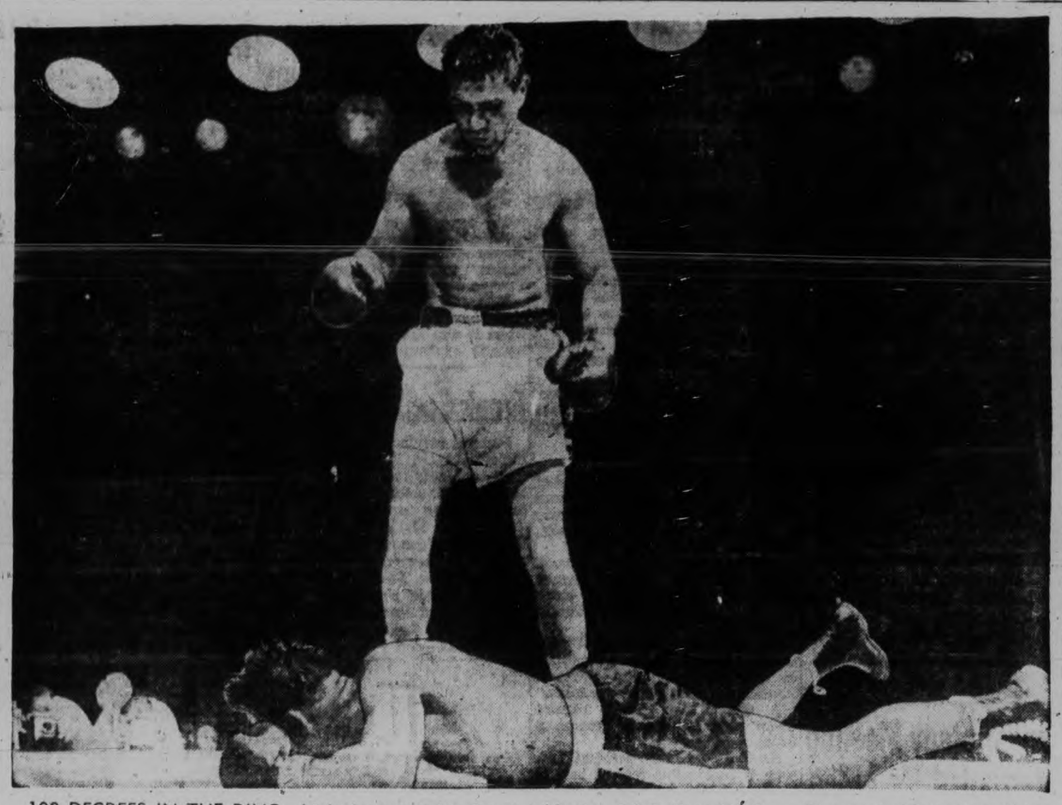
Hate to write letters? Can't find time? Can't think what to say?

"It's easy! . . . and it *can* be fun," says Cameron Shipp in July Reader's Digest.

One secret, says Shipp, is to forget the formal rules — as the best writers often do. No law requires you to use pen and ink — what's the matter with pencil? Why write a whole letter at one sitting? Why not a few lines at a time?

Here are helpful tips and seven simple rules to make letters fun to write and fun to read.

Get your July Reader's Digest today: 38 articles of lasting interest, condensed from leading magazines, current books.



100 DEGREES IN THE RING—Light-heavyweight champion Joey Maxim stands over fallen challenger Sugar Ray Robinson in Wednesday night's title fight in New York. Maxim didn't floor his foe. The heat did it after Robinson had won 12 out of 13 rounds. It was scored as a TKO for Maxim in the 14th.

## Particular Thief

VANCOUVER (CP).—The city museum had a visitor who may have a grudge to settle. The caretaker reported a case had been forced open and missing were a pair of English flint-lock duelling pistols, along with a Japanese sword.

# Find Priest Lost For Two Days

CALABOGIE (CP)—A Jesuit brother lost for two days in bush country in the St. Pierre Lake region near here was found yesterday lying exhausted in a deserted hunting cabin.

The brother, John O'Gara, 65, of Regiopolis College, Kingston, was found in a semi-conscious condition. He had eaten nothing during his 48-hour wanderings and was badly bitten by black flies and mosquitos. Brother O'Gara arrived late last week at the Jesuit camp near this town 40 miles west of Ottawa. He went for a walk Tuesday and when a storm struck the area, he lost his bearings and wandered deeper into the bush until he became completely lost.

A small party of searchers found him lying on the floor of a cabin beside the Madawaska River about 10 miles from here. A doctor was driven to the cabin to treat him for his bites and refused to permit the removal of the exhausted brother until he was fully rested. It is expected he will be taken to hospital in Renfrew until he has completely recovered.

# T.B. Death Rate Drops Since Health Grants

OTTAWA—(CP). — The death rate from tuberculosis in Quebec has fallen "markedly" since the start of the national health grants program in 1948, Health Minister Martin said today in a tabled reply to questions in the Commons.

He said the 1946 death rate of 72.4 per 100,000 had dropped to 39.3 by 1950. Since 1948, $7,000,000 had been spent under the grants for the control of tuberculosis in Quebec.

New Lifebuoy with Puralin Stops "B.O." Better than ever! And it smells so good.

FROM HEAD TO TOE...NEW LIFEBUOY STOPS "B.O."

# Ask Commission Find Ways To Lower Lakes

OTTAWA (CP)—The Canadian government today asked the International Joint Commission to find ways of reducing high water levels on Lake Ontario but said the investigation must not delay action on the development of power on the St. Lawrence River.

The External Affairs Department made public the reference to the commission to determine how Lake Ontario waters could be controlled to end protests by shoreline property owners that their homes and cottages are being continually flooded.

A similar reference was announced by the United States government yesterday. The department said the Canadian and American governments have agreed that the inquiry shall in no way delay commission action on any application made for the development of St. Lawrence River power.

Canadian and American residents on both sides of the lake have complained that one reason for the high levels was the Canadian Gut dam in the St. Lawrence River near Prescott, Ont.

The commission is being asked to investigate this complaint and also the effect of any diversion of water in or out of the Great Lakes basin.

# Eskimos Pile Collection Plate With Muskrat Skins

FORT McPHERSON, N.W.T. — (CP)—The Anglican mission at this Arctic settlement will look like a raw-fur trading post Sunday when residents hold their thanksgiving services four months ahead of time.

Along with dollar bills and coins the collection plates will be piled high with muskrat skins —the Eskimos' way of saying "thank you" to God for a bountiful harvest. The official trapping season in the Mackenzie River delta ended June 15.

At St. Matthew's mission in Fort McPherson, 1,200 miles northwest of Edmonton, the services are held both in English and in the tongue of the Loucheux Indians.

The traditional Eskimo custom is also carried out in Aklavik, where Eskimos, Loucheux Indians and white trappers take part, each in their own language.

**OLD CUSTOM**

The practice dates back to 1861-62 when Rev. W. Kirby first preached the Gospel to the Eskimos and Indians. Those were the days when cash was scarce and animal hides and furs were used as the medium of exchange, particularly the pelt of the white fox.

In each of the prayer books of the western Arctic Eskimo, the Loucheux and the white Anglicans a selection is set forth giving thanks to God for His blessings received in hunting and trapping.

A regular collection plate is passed around for the money and a larger one is used to collect the skins. The furs are later cashed in at the Hudson's Bay Company trading post and credited to the mission's account.

The collection varies from year to year, but usually one-third to one-half of the offering is in muskrat pelts. The value of the pelts, ranging from $1 to $3 each, depends on current prices. Last year 80 skins were collected in addition to the cash offering.

All of the 400 residents of Fort McPherson take part in the ceremony. In some quarters the event is referred to as "Rat Sunday," but the mission priest, Rev. F. P. A. Timmons, says the church prefers the term "Thanksgiving Sunday."

Also in May, Miss Ina Loohuizen, Hilversum, North Holland. Miss K. Benton is going back to teaching. Miss E. P. Orsatti, (nee Miss Joan E. Chown), is on reserve staff, having been with North American Life and Simpson's since leaving Peterborough.

# School Holds Annual Picnic

One of the school's most successful picnics attended by close to 200 pupils and parents was held by the Rifle Range School on Wednesday at Nicholls Oval. The sports program was very keenly contested under the direction of the teachers Mrs. H. Wilson and Alex McLead assisted by Mrs. E. Davis and Mr. W. Amos. Supper was enthusiastically received and served under the convenership of Mrs. J. Quinn. The children were treated to free ice cream.

During the supper hour a presentation was made by Mrs. Amos, president of the Rifle Range Home and School Association to the principal Mr. Alex McLeod in honor of his forthcoming marriage. A presentation was also made to Mrs. E. Davis, Past-President of the Rifle Range Home and School Association.

After supper, prizes in the form of money were distributed and silver dollars were presented to the athletes with the highest points in each class: senior, Shirley Flint and Danny Brinson; Intermediates, Jackie Quinn and Earl Neal; junior, Louella Brinson and Bryan Amos.

A booth was in charge of Mrs. N. Andrew and Mrs. W. Amos assisted by Mrs. J. Quinn, Mrs. W. Muir and Mr. W. Amos. In the evening a lively ball game was enjoyed between the parents and pupils, resulting in a win for the pupils.

Winners of the sports events:

JUNIOR

SOUTH KOREAN PRESIDENT Syngman Rhee, caught by the camera shortly after police grabbed 62-year-old Ryu Shi Tae as he attempted to shoot Rhee as the president addressed a crowd of 10,000 from a public platform in Pusan. A member of the National Assembly has also been arrested on charges of supplying the pistol.

## Clan From Kansas

DRAKE, Sask.—(CP)—In most places it's the Smith's and Jones who are in the majority, but here it's the Bartels. There were 31 Bartels among 250 names in one provincial sub-division here. It is estimated that about 150 Bartels who came originally from Kansas, now live here.

## Tory Strategy Meeting Interrupted By Attlee

LONDON (AP).—Conservative members of Parliament were holding their usual weekly secret-strategy conference in a House of Commons committee room.

Suddenly the door opened and a slight figure, head bowed in thought, walked in, stepped on the platform and made for the chairman's seat.

Shouts from the astonished Conservatives woke the intruder from his reverie. Labor party leader Clement Attlee beat a hasty retreat.

Atlee, en route to a similar meeting of his own party in a nearby room, had opened the wrong door by mistake.

## Oppose Sunday Sales

VANCOUVER (CP).—The Vancouver Real Estate Board is trying to do away with the seven-day week for realtors by having Sunday sales discontinued. A. G. Greer, manager-secretary, said that in many American cities now "there is a complete clamp-down on Sunday open houses."

# U.S. Steel Strike Costs Billion To Industry

PITTSBURGH (AP)—The country-wide steel strike, taking a bigger bite out of United States economy each day, already has cost the steel companies nearly $1,000,000,000 in lost production.

Vitally-needed steel sells at $110 a ton. Since Philip Murray ordered 650,000 of his United Steelworkers (C.I.O.) to strike June 2 nearly 10,000,000 tons of production have been lost.

It is impossible to guess how much the strike has cost in dollars and cents. It now is hitting almost all sections of the economy.

**'NO COMPROMISE'**

Clarence B. Randall, president of Inland Steel Company, feels there isn't a chance for a compromise on one big, if not most important, issue—the union shop.

In a statement at East Chicago, Ind., yesterday Randall termed the union's demand for a union shop the only issue in the present strike.

He said six major steel producers turned down a possible compromise union-shop proposal "because it involves compulsion."

A union shop would require every steel worker to become a union member.

Randall also said President Truman is responsible for the halt in steel production because the President's "assurance" gave Murray courage to call the strike.

He referred to a statement made by Murray Sunday in which the steelworker president said Truman told him last December there would not be a Taft-Hartley Labor Act injunction if the union postponed the strike it had scheduled for Jan. 1.

In addition to the strikers, about 230,320 workers in allied industries either have been laid off or will be laid off within the next few days.

Automotive circles in Detroit are preparing to lay off more workers in addition to the approximately 25,000 laid off so far.

Buick Motors at Flint, Mich., today began to halt shipments to assembly plants of Buick, Oldsmobile and Pontiac. About 6,700 workers are being put on part time.

Studebaker Corporation in Indiana is halting production of passenger autos and military and civilian trucks next Thursday.

Willys-Overland at Toledo, O., says it has enough steel to keep going next week.

## Reds Revive Charge US Brought Spud Bugs

WASHINGTON (AP)—The Communists have revived for another summer the charge that the United States is to blame for the annual appearance of potato bugs in Czechoslovakia.

"The Colorado beetle, which is being brought into our country by the western imperialist, has again appeared in the Karlovy Vary region," said a broadcast by the Prague official radio.

The charge was ridiculed by the State Department last year when it was the subject of a diplomatic exchange of notes.

## Frank Cecil Roberts

Funeral service for Frank Cecil Roberts of 190 Rubidge St., who died suddenly in hospital on Monday, was held on Thursday at the Comstock funeral home.

The Rev. M. P. Poole of All Saints' Anglican Church officiated and pallbearers were Frank Booth, Frank Dyer, Ben McMaster, Archie Hamilton, Cyril Monkman and Frank Clark. Burial was at Little Lake cemetery.

# Ike, Taft Turn Roles Around

WASHINGTON (CP)—The two big contenders for the Republican presidential nomination stand today with their roles reversed—Gen. Dwight D. Eisenhower attacking the Democratic administration and Senator Robert A. Taft of Ohio hitting away at portions of the Republican party that support Eisenhower.

Previously Taft chided Eisenhower for criticizing elements in his own party instead of directing his attack against President Truman and his government.

In Denver last night Eisenhower lashed the Democratic administration for "complacency, negligence and cynicism of a party and men too long in power."

The general charged the government had become infected with the poisons of corruption and he also blamed "misplaced trust in Godless dictatorship" for the Korean War, the loss of China to Communism, and for most of Europe's ills.

The latest Associated Press tabulation—based on delegates pledged, instructed, conceded or willing to express a first-ballot choice—shows Taft with 484, Eisenhower 407. Nomination requires 604.

## Prize Pickerel

OWEN SOUND—(CP)—Largest pickerel ever caught in the Beaver River at Thornbury was the 10-pound, 12-ounce monster landed after a long struggle by Roy Rogers of Toronto. Rogers got one of more than nine pounds in the same water several weeks ago.

# B.C. Pulp Firms Expand To Tune Of $135,000,000

By THE CANADIAN PRESS

A record $135,000,000 has been spent on pulp and paper expansion in British Columbia in the last six years. In addition, $50,000,000 is being spent this year alone.

When the $21,000,000 Elks Falls Co. plant at Duncan Bay on Vancouver Island began rolling out 2,000 feet of paper a minute June 10, it brought to nine the number of pulp or pulp and paper mills now operating in B.C.

Between 1940 and 1950, output of newsprint increased 144 per cent in B.C. Output for 1951 was 331,000 tons. By the end of 1953, it will be about 464,000 tons.

Celgar Development Co. plans a $65,000,000 integrated forest industry at Castlegar. Other pulp mills are under consideration for Prince George and Quesnel.

Elk Falls Co., a union of Pacific Mills Ltd. and Canadian Western Lumber Co., plans to spend another $20,000,000 to expand its new mill at Duncan Bay.

Other B.C. pulp and paper mills in operation are located at New Westminster, Powell River, Nanaimo, Port Alberni, Port Edward, Port Mellon, Port Alice and Woodfibre.

The new Duncan Bay newsprint mill operates exclusively on forest waste. Scavenger crews follow the regular logging crew and clean up waste left when larger logs are taken out for the sawmills, to be turned into lumber, plywood and other products.

Last year, about 3,000,000,000 feet of timber was cut in the coastal area of B.C. for sawmill use. Another 1,000,000,000 feet was knocked over in the logging operation and left to rot. Now this waste is being used. Another half-dozen newsprint mills could be supplied from the debris left behind regular logging crews.

# Commons Votes MP's Pensions By 170 to 3

OTTAWA (CP)—Three Progressive Conservatives were smothered under a landslide vote yesterday as the Commons went on record as favoring the plan to give long-term members of the House a pension for life when they quit Parliament.

Members of all four parties joined in outvoting the three opponents, 170 to 3, in giving the bill second reading. Final approval on third reading is due today.

Prime Minister St. Laurent himself called for the formal vote after E. D. Fulton (PC—Kamloops) once again expressed opposition on the grounds that the taxpayer should not be asked to foot part of the bill for the pensions.

The three men who voted against the bill on second reading were Mr. Fulton, Howard Green (PC—Vancouver-Quadra) and Gordon Churchill (PC — Winnipeg South Centre).

MRS. JEANNE D'ARC MIchaud, of Ste. Agathe, Que., leaves the court in Carson City, Nevada, after hearing millionaire La Vere Redfield testify she could have discovered his valuable safe the day she hid in his bedroom to avoid unexpected callers. She was found guilty of engineering the $1,500,000 Redfield burglary at Reno last Feb. 29.

# U.N. Truce Team Walks Out Again

MUNSAN, Korea (AP)—Allied truce negotiators today walked out on the protesting Communists for the third time in a month.

Maj.-Gen. William K. Harrison, declared a three-day recess and marched out of the armistice tent at Panmunjom while an angry Communist delegation loudly demanded another meeting tomorrow.

The Allies have declared three-day recesses on two previous occasions when there appeared to be no hope of breaking the long deadlock over how to exchange prisoners of war, the only major issue blocking a Korean armistice. The United Nations refuses to return prisoners who do not want to go home. The Reds demand all allied-held captives.

# Ice, Mink Coat Prices Decontrolled In Heat

WASHINGTON (AP)—On the hottest day of the year, the government yesterday took price controls off ice and mink coats.

"Pure coincidence that these orders were issued today," muttered a perspiring price official as the temperature climbed to 100 "We gear our decontrol actions to business barometers, not thermometers."

# 110 Children On Safety Patrol Given Picnic

A picnic arranged by constable Don Mackay for 110 members of the school safety patrols he is organizing in city schools was held Thursday afternoon at Nicholls Oval.

Starting at 2 p.m., the youngsters took part in a program of games and sporting events supervised by the Y.M.C.A.

There were plenty of refreshments for everyone, and the boys and girls enjoyed the free pop, ice cream, strawberries and hot dogs donated by local merchants.

The picnic was for patrols from Queen Mary, Sacred Heart and Prince of Wales schools which constable Mackay has trained and which are already in operation and also the special temporary safety patrols being organized at King Edward and King George schools.

**TEAM GAMES**

Emphasis was on group participation games rather than the usual type of running races so that as many as possible of the children could take part.

Constable Mackay plans on making the picnic an annual event for the safety patrols as a reward for the work they do in seeing that their classmates get safely across busy streets, going to and from school.

# 7 U.S., 5 Aussies Win At Wimbledon

WIMBLEDON, England (AP). — Seven Americans and five Australians crowded into the round of 16—the fifth—in the Wimbledon men's singles yesterday, as the two countries continued their battle for world tennis supremacy.

Vic Seixas, seeded No. 1 in the United States, whipped Alejo Russell of Argentina, 6-3, 6-2, 6-4 Dick Savitt of Orange, N.J., defending Wimbledon champion, defeated Harry Likas of San Francisco 6-1, 6-3, 3-6, 6-3.

Jaroslav Drobny, self - exiled Czech, is the man most likely to prevent an Australian-American showdown in the final. He continued his best form in years as he downed Hans Van Swol of Holland 6-0, 6-1, 6-4.

Frank Hdegman of Australia, seeded No. 1, defeated Philippe Washer of Belgium, 6-3, 4-6, 6-3, 6-3.

Fifth-seeded Ken McGregor, Australian champion and Wimbledon runner-up last year, had trouble defeating South African Nigel Cockburn 6-0, 4-6, 6-4, 6-3.

## Duke's Progress Good

LONDON — (AP) — Buckingham Palace announced today the Duke of Edinburgh, who has jaundice, is making "satisfactory progress."

# Bethany News

Miss Dianne Mantle, Toronto, is visiting with Mr. and Mrs Percy Mantle.

Mrs. Robert McClelland, Tara, is spending this week with her daughter and son-in-law, Mr. and Mrs. Mansell Wright.

Mr. L. H. Staples, Lindsay, is visiting with his brother Ed. Staples.

Mr. and Mrs. Charles Good, of Calgary, Alta., were recent guests with Mr. and Mrs. Clarke Pomeroy.

Mr. and Mrs. Victor Sisson and family, Toronto, visited with Mr. and Mrs. Alban Sisson on Wednesday.

Playing in Blackstock Wednesday evening the score was tied 2-2 between the Bethany and Blackstock baseball teams.

Guests with Mrs. Lila Kerr during the weekend were Mr. and Mrs. Bruce Foster, Mr. and Mrs. Robert Kerr and daughter Dianne of Toronto, and Miss Essie Vance of Millbrook.

Firestone DELUXE REFRIGERATORS

With Top-to-Bottom Refrigeration

Zone 1: Frozen food compartment has 1 metal, 1 plastic ice cube tray and stores 24 lbs. of frozen food including ice cubes. Here temperature is way below freezing to keep ice cream frozen firm—to store frozen foods safely—to freeze lots of ice cubes in a jiffy.

Zone 2: Tall bottle zone for beverages, milk bottles, cans of juice, and pitchers.

Zone 3: General fresh food zone provides spacious accommodation for perishable foods.

Zone 4: High humidity zone keeps vegetables and fruits crisp and fresh in porcelain enamel crisper.

Zone 5: Six lineal feet of door shelves are ideal for citrus fruits, butter, bottles, and miscellaneous items hard to store in the general refrigerating space.

Zone 6: Giant Tilt Basket provides cold storage for fruits and vegetables.

Never before has a refrigerator combined so much deep-down quality and so many special features and outstanding beauty and performance! Note them:

1. Six Zones of cold in top-to-bottom refrigeration.
2. Three convenient room-making shelves with door shelves and tilt basket, extra stainless steel trim on shelves.
3. Firestone Five-Year Warranty.
4. One-piece 18-gauge cabinet is completely sealed. Door has U-type evaporator in centre. Roller-grip door latch gives snap-seal positive locking action. Inside porcelain enamelled to resist rust and acids.
5. Quiet, trouble-free operation. Compressor has only three moving parts, these are equipped with large bearing surface.

When you choose a Firestone Deluxe Refrigerator, you're sure of getting the all-time high in quality, value and convenience.

# Cattle Prices 50c Higher, Hogs Unchanged

TORONTO (CP) — Ontario stockyards cattle prices were generally 50 cents higher on all grades this week. Calves dropped $1-2 while lambs gained $2. Hogs and sheep were unchanged.

The cattle run for the week was 5,900 head with a cleanup on all grades. Trading was active. Choice steers closed at $28-28.50 with a few prime steers upwards to$29.25. Good steers were $27-28 with mediums bringing $26-27. Good heifers sold at $26-26.75 with a few at $27. Medium to good cows were $21-23.50 with common downward to $18 and canners as low as $14. Good heavy bulls brought $20-21 with light butcher bulls upward to $24. Plain bulls sold at $16-18. Good to choice fed yearlings brought $27-28.50. Stockers were selling at $25-27.50 according to quality.

Calf receipts totalled 1,800. Prices were at $24-26 for good to choice vealers with medium quality calves selling at $17-23. Stock calves sold from $24-32.

Hog receipts were at 3,800. Grade A hogs sold at $26 with sows $16 dressed.

Sheep and lamb receipts totalled 650. Good quality lambs closed at $33-34. Common to medium sheep were from $6-15 with a few good sheep bringing $17-20.

SUMMER VISITOR—It's winter where she comes from but two-year-old Janice Heath, a vistor from New Zealand, finds no difficulty in adjusting to Canada's summer climate. She enjoys the cool waters of a wading pool in Gage Park, Hamilton.

## Obituary

**DANIEL DUFFY**

Word is received here of the death of Daniel Duffy, 89, in Dakota, U.S.A.

Mr. Duffy was born in Downeyville, received his education here and when a young man went to Dakota where he lived ever since.

He was the son of the late Patrick Duffy and his wife Catharine Begley. His wife pre-deceased him. He leaves one sister, Mrs. Parnell Blake (Florence) of Detroit, Mich., two brothers, Leonard of Peterborough and John of Downeyville.

# Senate Approves Tax Agreements

OTTAWA (CP)—The Senate yesterday approved new Dominion-provincial tax agreements after objections from government and Opposition supporters.

Senator John T. Haig, Progressive Conservative leader, said he disapproves of the agreements on principle. The government should call a conference of municipal, provincial and federal authorities to decide the basis of fields of taxation.

Under the new agreements, the provinces agree to refrain from income, corporation and succession duties taxation for a five-year period. In exchange, they receive a subsidy from the federal government based on population and gross national production.

Quebec and Ontario are the only provinces which have not agreed with the federal government on tax rentals.

Senator Thomas Reid (L—British Columbia) said it is not right for governments to spend money derived from fields of taxation in which they are not active.

79¢
They are imperfects of much higher priced lines. They are here in several popular colours. They are a bargain.

# To Erect Federal Building In Fall

THE EXAMINER
FRIDAY, JUNE 27, 1952

## MAIN STREET TOPICS

**FUNERAL ANTHEM SUNG**

At the funeral service of the late Mrs. W. Stewart Jolley of 184 Reid St., held on Wednesday at the Comstock funeral home, two granddaughters of the deceased, Barbara and Georgina Hutchinson, sang an anthem, Brother James' Air.

**RECOVERING FROM INJURY**

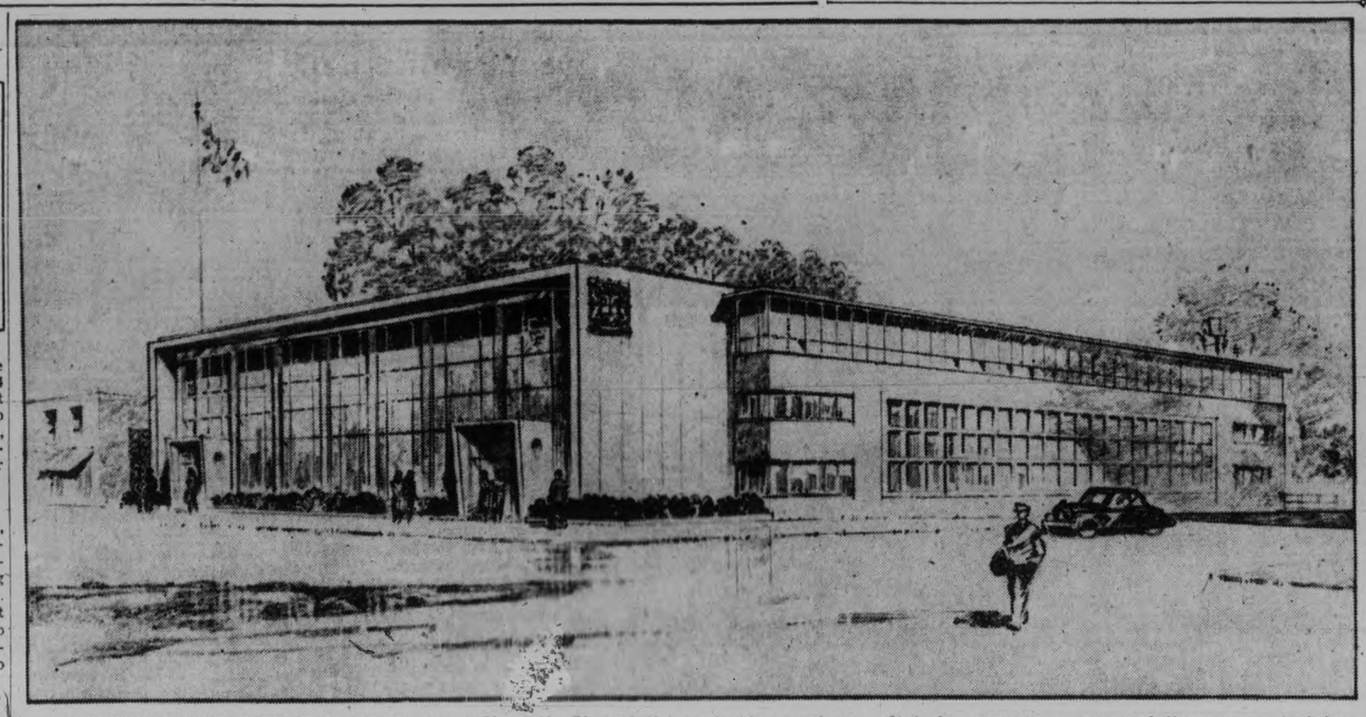
Bill Miller, 28, 496 Roger St., is recovering in St. Joseph's Hospital from a broken leg he received Monday night, while sliding into base during a softball game. After being placed in a cast, it was found necessary Tuesday to perform an operation on the injured leg and use metal pins to hold the fractured bone in place.

**MASS FISHING CLASSES**

A weekly Y.M.C.A. camp powwow commencing July 7 will take 100 boy members fishing at various popular spots. They will also learn the art of bait and fly casting techniques by bona fide demonstrators, yet to be chosen, and compete for a prize for the largest fish caught throughout the season. Fraser Wade, Y physical director, will give further particulars; phone 5584.

## Common Sense

*A striptease was performed Thursday afternon in the usually-staid office of a George St. bank. Everybody is reported to have enjoyed it and many of the customers and employees thought it was a very sensible idea. The centre of attraction was a little two-year-old girl who found that the heat was just too much for her. While mother was busily engaged at the teller's wicket the two-year-old slipped off her sunsuit and panties and began to parade about. Mother, however, vetoed this move and the sunsuit was restored. It was fun though while it lasted. Cool too.*



*PETERBOROUGH'S NEW FEDERAL BUILDING seen above in an architect's sketch will probably be started this year, as the Department of Public Works is calling for tenders. The front of the two-storey building which will front on Charlotte St. and the west side are shown. It will be built on the federal government's property on Charlotte St., now being used as a parking lot. Practically the entire front of the structure will be of glass. In addition to being the most modern post office in Canada, it will also provide acccommodation for a training school for postal employees and offices for all federal departments with branches in the city, including the Trent Canal System. Parliament Thursday passed $500,000 included in the Government estimates to get the building started.*

## Will Include Post Office, Customs, Other Branches On Charlotte Street Site

### Tenders To Be Called Monday By Ottawa
### $500,000 Passed By House, More Later
### Post Office To Be Model For All Canada

After being postponed for nearly 40 years, construction of a new federal building for Peterborough will begin this fall. Thursday the House of Commons passed $500,000 included in the government estimates for the erection of the new building, Gordon K. Fraser, M.P., Peterborough West, said today. "More money will be voted later," Mr. Fraser said. Tenders are being called for Monday.

Described as "the most modern post office in Canada, because it is a model of contemporary design," it will house all branches of federal departments now having offices in the city.

A new post office was first mentioned in 1913, when the late J. H. Burnham was Conservative member of parliament. Preliminary plans were underway when the start of the First World War put an end to the project. A site was purchased on the north-east corner of Sherbrooke and George Sts. but by 1938 when the prospect of a combined federal building was being discussed, it was evident that this site would not be large enough.

**CHANGED SITE**

Senator J. J. Duffus, then Liberal M.P. for Peterborough-West was instrumental in getting the government to purchase the present property on Charlotte St., where the new building will be erected.

Architects drawings had been completed when the outbreak of war in 1939 again prevented the building from being started.

The new plans drawn by local architects W. and W. R. L. Blackwell and Craig who also drew up plans for the post office and federal building in 1939, call for a two-storey reinforced concrete structure that is almost three times as large as the building proposed before the start of the Second World War.

In addition to providing a tremendous increase in post office space, and offices for Customs and Excise, Trade and Commerce, Revenue, Labor and Agriculture departments and the Trent Canal System, the building will also be used as a training school for post office employees.

An automatic mail sorting machine will be installed in the ground floor post office, the first of its kind in Canada.

Six operators will sit around the machine and as incoming and outgoing mail passes in front of them on a conveyor belt, they will drop individual letters in the appropriate slot and the machine will carry the letters to mail bags for the cities or routes to which they are addressed.

The machine is manufactured in Holland and it has been learned that equipment for the post office and the training school for postal employees has already been delivered and is being stored in the city.

**GLASS FRONT**

The entire front of the building facing on Charlotte St., is almost entirely glass, except for a narrow stone facing at the bottom and between floors.

There will be two entrances, jutting out slightly from the building, at either end. The eastern entrance opens into a foyer which can be closed off from the main post office when it is not open, so the public who have individual boxes can obtain their mail.

The western entrance leads into an office foyer, where a stairway and passenger elevator which runs from the basement to the second floor, provide access to the second floor offices. The passenger elevator is entirely automatic.

Between these two entrances is the main public space of the post

(Continued on Page 22)

## No Equipment Of Parks Stored In Dressingroom

Armar Butcher, superintendent of parks, denied today that the men's dressingroom at Inverlea beach was not opened yet because parks equipment was stored there.

The men's dressingroom has not been open to the public since the swimming season opened officially at the Inverlea beach two weeks ago. The men and boys have been dressing and undressing in the bushes north of the park. The women's rooms have been open; in some cases mothers have taken young boys inside the dressingroom rather than undress outside.

Mr. Butcher said today, "I didn't tell anyone that the place was to be closed."

Regarding the telephone used for emergency calls, but which has not been working, Mr. Butcher said that the phone is shut off during the winter. When a check was made recently, the department discovered the wires cut.

"They're supposed to be fixing that today," said Mr. Butcher.

The parks superintendent added that he felt the men's dressingroom should have been opened, as well as the wading pool in King Edward Park, but not unless there was supervision. Alex Sinclair, recreation director, said Mr. Butcher is in charge of the supervisors.

Mr. Butcher checked into the closed dressingroom question today at the beach and there lifeguards said no one told them officially to keep the dressingroom locked.

It is expected the men's dressingroom will be open from now on.

## Will Dig Up Serpent Mound

TORONTO (CP)—Three groups of archaeologists hope to uncover more of Ontario's early history this summer.

Starting in July, parties from the University of Toronto, Royal Ontario Museum and University of Western Ontario will be active in the Lake Simcoe, Midland and Rice Lake regions, excavating relatively untouched Indian and early colonial sites.

Led by Prof. J. R. Harper, chief cataloguer at the Royal Ontario Museum, one group will investigate the burial grounds, shell or refuse heaps and village sites clustered about Serpent Mound near Keene on Rice Lake, south of Peterborough.

Except for a preliminary excavation carried out by David Boyle for the Ontario Provincial Museum in 1896, which recovered some copper implements, no work has been done in the Rice Lake area. Much additional information is expected to be gained when a shell heap one-eighth of a mile long and seven circular burial mounds, each some 30 to 40 feet in diameter, are opened.

**ANCIENT MOUND**

Serpent Mound is the largest ancient remains in Ontario. It is more than 200 feet long, 30 feet wide and six feet high. A similar snake-shaped mound exists in southern Ohio, believed built by the Hopewell Indians about 50 A.D. Canadian archaeologists are interested in tracing a possible connection between the two Indian peoples and learning more about the tribes which inhabited Ontario a thousand years before the Hurons.

Penetanguishene, situated on a small inlet of Georgian Bay, will be headquarters for the Western Ontario group. Named by the Indians for its white rolling sands, it is the oldest historical spot in Canada west of Quebec City. Joseph le Caron, one of the first Recollet Fathers in Canada, visited the area in 1616 as did Champlain. The Jesuit martyrs, Jean de Brebeuf and Gabriel Lalemant, were killed in the same region in 1649. Later, after a survey ordered by Governor John Graves Simcoe in 1793, a military and naval station was constructed on the site during the war of 1812-14.

**DIG AT PENETANG**

Prof. W. W. Jury, curator of Indian archaeology at the University of Western Ontario, will direct the digging at Penetanguishene and the nearby village of Mont St. Louis in the vicinity of Victoria Harbor. Prof. Jury, who recently completed a four-year digging program at Fort Ste. Marie, near Midland, has already uncovered the outline of a fort at Penetanguishene which may be larger than Fort Henry at Kingston. Other buried buildings have been partially marked in preparation for the university's summer school of Indian archaeology which opens July 2.

Some 15 students and professors comprise the third group, headed by Prof. J. M. Emerson, lecturer in anthropology at the University of Toronto. Its members will examine the Indian village sites near De Grassi Point on southern Lake Simcoe. They expect to find material which will explain the migration routes and early culture of the Iroquois Indians before the white man came to America.

## Dr. D. B. Gordon Moves To Sarnia

The Rev. Dr. D. Bruce Gordon, minister of Trinity United Church since 1945 has accepted a call to Central United Church, Sarnia.

Dr. Gordon tendered his resignation at a meeting of the session of Trinity United Thursday night. He will be taking over his new duties October 1 and the session set up a committee to obtain a new minister for the church.

Before coming here seven years ago July 1, Dr. Gordon served at New Liskeard, Chalk River, Dundalk and a charge in Manitoba.

He was educated at Queen's University and did post graduate work in theology at Edinburgh University in Scotland where he received his degree of doctor of philosophy.

Dr. Gordon is a past president of the Peterborough Ministerial Association and now convener of the association's radio committee. He is also a past chairman of Peterborough Presbytery and is chairman of the home missions committee of presbytery.

For the past two terms, Dr. Gordon has been associated with the Normal School as religious education instructor.

Dr. Gordon is a director of the Peterborough Victorian Order of Nurses committee and an officer of Corinthian Lodge A.F. and A.M. and member of the Lodge of Perfection. He is also district Masonic chaplain.

DR. D. BRUCE GORDON

## Ways Proposed To Improve Dep't Relations

A series of proposals prepared by the Recreation Commission and discussed at a meeting of the Parks Committee Thursday emphasized the necessity of close co-operation between the commission and the parks department.

The committee decided to leave the booking of picnic dates with the parks department and city clerk E. A. Outram except if the matter was dealing with local recreation of a permanent nature.

The commission asked that the allotment of time for the use of parks and picnic reservations be cleared through the recreation commission and that any fees collected for cleaning the parks up afterwards be turned over to the city treasurer by the commission and credited to the parks department.

Mr. Outram said that the scheduling of picnics was being arranged very well through his office in a joint co-operation with parks superintendent Armar Butcher.

The committee agreed that it saw no reason for changing the present arrangement as it seemed to be working quite satisfactorily.

The recreation commission recommended that the parks department provide and maintain equipment needed for recreation programs but that the parks department locate the equipment at the commission's direction.

The parks committee approved a compromise proposal that the location of equipment be discussed by the director of the recreation commission and the parks superintendent and if they were unable to agree, the matter would be referred to the director of the recreation commission and the chairman of the parks department.

## Thomas Glover Retires As Chief CGE Accountant

Thomas Glover, Manager-Works Accounting at the C.G.E. is retiring today after 45 years of service at the Peterborough plant.

When he applied for a job in 1907 there were only 500 people in the whole plant; and only six of them are now actively employed. Mr. Glover was the seventh.

The remainder of the "old guard" are Albert Doris, Corrie Killingbeck, Walter Killingbeck, Fred Mowry, James Patterson and James Price. Of the 14,000 people in the Canadian C.G.E. chain only 10 have had longer service with the company than Mr. Glover.

Thursday night a farewell dinner was given for Mr. Glover at the Kawartha Club and he was presented with 4 pieces of luggage by company president H. M. Turner on behalf of his associates in the company.

Mr. Glover started at the bottom and worked his way up; his experience includes work in the shop so he knows shop as well as office routine.

**CAME FROM ENGLAND**

In 1907, freshly arrived from England, Mr. Glover applied for work at the Peterborough works. Though he had office experience it was suggested he work in the plant for a while so he would know the business from the ground floor up.

He started in the transformer department, moved to the lamp department where he spent seven years, and from there he succeeded in getting an office job. His first assignment was to work on stores ledgers at a time when the perpetual inventory system was a novelty.

Graduating from store ledgers Mr. Glover took a turn at almost every office job there was. Eventually he got to accounting which was his original goal.

He was appointed head of the accounting section and in 1934 was made Works Accountant. He maintained that position until in the recent re-organization the title was changed to Manager-Works Accounting.

A former president of the Quarter Century Club he counts every member of that club as a personal friend. His interests have remained plant-wide.

During the Second World War he was a prime organizer for Victory Loans. And he also organized collections for the Red Cross and Community Fund.

Others present from Toronto at the dinner were C. E. Hipp, vice-president of finance, secretary W. Nesbitt, credit manager B. Haddy and vice-president Ian McRae, former works manager at Peterborough.

MACHINERY MAKES HAY-MAKING easier nowadays and harvesting hay as grass silage speeds up the job even more. Fred Fife watches a good stand of red clover fall under the shuttling blades of mower knives powered by the tractor power-takeoff in the lower photo above. Upper right, shows a forager chewing up coils of freshly cut hay on Norm McConkey's farm and blowing it into the wagon drawn behind. From the field, the chopped hay is drawn to the barns, still meadow fresh, and pulled into the whirring auger of the silo filler as Jack McConkey is seen doing (Upper Left) then it is blown into the silo. — Examiner Staff Photos.

# No Work In Haying

Harvesting hay as grass silage puts haying on an assembly line basis and takes the back-breaking work out of the job.

Tons of hay were being handled on the farm of Norm McConkey this week and there was not a fork in the field. A year ago, a few county farmers tried the new method of handling hay as an experiment and this year many farmers throughout the province are harvesting part of their hay crop as silage.

Rain can ruin a good stand of hay after it has been cut, because it prevents it from curing.

However, Mr. McConkey was not worried as he looked over a large field of mixed red clover, alfalfa, timothy, ladino, brome and orchard grass which had just been cut, even though a bank of black clouds was rolling up from the west.

**RAIN HELPS**

"Let it rain," he said, "it will do the hay good. You could not save that hay in this weather if you handled it in the normal way. It would not cure in this muggy weather, but a bit of rain will increase its moisture content."

This complete contradiction of the old adage about farmers making hay while the sun shines is explained by the fact that the hay does not have to be cured. As soon as the field is cut, the hay is rolled into long coils by a siderake. Then, a tractor pulls a motor driven forager along the windrows. The forager chews the freshly cut grass until it look's like bossy's cud and the blower on the machine shoots it into a wagon drawn behind the forager.

Mr. McConkey is turning about 35 per cent of his crop into silage this year and points out that the method requires only about half the number of men necessray for baling hay, and cuts the harvesting time to hours instead of days. It would take the same field of hay at least four days to cure in ideal weather he said, but within three hours of the time the hay is cut, it is in the silo.

Tractors draw the fresh silage to the barns. There, they are backed up to the silo filling machine, the tail gate is dropped and a man rakes it into the machine which forces it up into the silo.

**SEVERAL ADVANTAGES**

In Mr. McConkeys' opinion grass silage has several advantages. First, it preserves the all important protein content of the hay, much of which is lost through curing. Secondly, it eliminates the need for growing corn as silage which is a big help to dairy farmers who are busy with haying which the corn crop needs the most attention. Then too, it is a much faster way of handling part of the crop.

It will never replace hay as a complete dairy ration outside of grain according to Mr. McConkey and is fed as silage, not as a substitute for hay, harvested in the usual cured stage,

Drought has not harmed the hay crop on the McConkey farms, which is described by Mr. McConkey as "excellent" and is running between three and four tons to the acre.

In the dairy state of Wisconsin, where Mr. McConkey observed the new method of hay harvesting about three weeks ago it is even more mechanized. On a large farm operated by a brewery company at Oconomowac, there was a cutting bar attached to the forager, and the hay was cut, chopped into silage and loaded into the wagons all in one operation, the same way as grain is cut and threshed by a combine. An auger gear along the back of the wagons is connected with a power take-off on the silo filler and the silage is automatically fed into the silo without anyone having to use any muscle energy during the entire operation.

Here, the silage is poured into the silos without any preservative, but in Wisconsin, they are using a whey powder which removes all odor from the silage. They even have plastic silos which look like a pyrex coffee pot without a spout or handle.

Wood silos are not air proof enough to prevent some spoilage and even where there are cracks in cement silos, some fermentation results. Mr. McConkey says the new type of silo in use in the U.S. has been found to be the best and may be used here in a few years.

Along with two or three other old timers retired from farming, 78-year-old Alec Gillespie was in the field watching the new haying method.

"I cradled 25 acres myself one harvest," he said as he watched the forager eating up the hay and blowing it into the wagon behind. Asked what he thought of the mechanized farming methods of today he commented, "I guess they're all right, but I'm too old to get used to them."

# Chicken King Of States Visits Kawarthas

Californians who are known to brag about having the largest enterprises of every kind in the world have to take a back seat to Georgian Jesse Jewell. He is the top single producer of fresh frozen chicken in the United States.

On his first trip to Canada with his wife and daughter, Mr. Jewell told something of his gigantic enterprise to the Examiner on Thursday on the verandah of a rented cottage on Clear Lake.

His business has made news in top American journals and as late as January, Time Magazine described his success and dubbed him "The Cackle King of U.S.A." And this is why the title was bestowed on him.

Leaving a family business 20 years ago in Gainsville, Ga., Mr. Jewell envisioned his home State as ideal for raising poultry as a cash crop to supplement that part of the country which had deteriorated from constant sapping of small cotton holdings.

He started in a small experimental way to raise chicks to the broiler age, 11 to 12 weeks, package, quick-freeze and market them. The business rolled like a snowball as the idea proved practical to such an extent that today poultry raising is the largest income industry in Georgia. Indeed, it is a four billion dollar business in the South-eastern States, equal to the combined crops of cotton and tobacco.

From his processing plant, Mr. Jewell markets 8,000,000 fresh frozen packaged chickens annually to 36 States and to Honolulu and Venezuela.

He employs 500 people the year round in his business and farms out his baby New Hampshire Red chicks together with 42,000 tons of broiler mash to 800 farmers throughout his home State to maintain a plant and marketing output of 175,000 broilers a week. His chicken-boarder farmers make a profit of about $100 per thousand pounds from his chickens they have reared from his feed, a tidy supplementary source of cash income.

**NOTHING WASTED**

Nothing is wasted in the Jewell processing plant. Chicken heads, feet and viscara are made into meal scrap and plucked feathers into fertilizer. After experimenting with different breeds of chickens, Mr. Jewell found that New Hampshire Reds were the ideal fowl for this business; they produce, grow and dress better than any other specie.

Fuel and feed man Ken Morris of Lakefield was responsible for bringing Mr. Jewell to the Kawarthas. Intending to go into a similar business, Mr. Morris visited the Jewell enterprise this winter to determine whether a similar business on smaller scale could be established in Ontario.

"Why not?" asked Mr. Jewell. "Everybody likes to eat chicken. It is cheaper than any other type of meat these days—chain store poultry sales account for 30 per cent of their total meat sales—and all that is needed is an intensive advertising and educational program."

The Jewells like what they have seen of the Kawarthas and while district people find the weather exhausting they think it adds greatly to its charm. It reminds them of home.

UNITED STATES' "CACKLE KING," Jesse Jewell of Gainsville, Ga., (right) is spending a short vacation in the Kawarthas at Clear Lake with Kenneth Morris of Lakefield. He and his family, he said, are enjoying our district immensely, especially the current heat wave. It reminds them of home.—(Examiner Staff Photo).

# COUNTY FARM NOTES

## Take Beehives To Clover, Want Seed And Honey

Thousands of bees are having an easy time making honey on the farm of Leonard Henderson, three miles west of Millbrook.

As an experiment, 32 hives were placed in an 11-acre field of alsike clover on Mr. Henderson's farm last week, just as it was breaking into blossom.

Now, the entire field is a mass of pinkish blue, as the alsike is in full bloom and the "bees are climbing on top of one another to get in and out of the hives," Mr. Henderson says. He added that the bees are so busy gathering nectar that he has difficulty in getting close to the hives and "their leg sacs are so loaded, they can hardly make it back to the hives."

It will take the field about three weeks to ripen, before the alsike will be cut for seed, and the bees, owned by his friend Charles Knox of Newcastle will be left in the field until the clover is cut,

Mr. Henderson says he and Mr. Knox are trying the experiment for two reasons. First, they want to see if it will increase the honey yield of each hive and secondly, they want to find out if the concentrated honey gathering will increase the pollinization and fertility of the alsike seed.

One deck was taken off the hives last Saturday (the hives were placed in the field on Tuesday June 17) and Mr. Henderson says the yield of honey was unusually high.

## If Rain Fails To Fall County Crops Will Suffer

Unless rain comes soon, pastures, grain and hay crops in the county will be damaged by the prolonged dry spell. Haying operations are in full swing and although there is a great variation in different fields, the crop is said to be very good on the whole.

Crops are beginning to show the effects of drought. It has been six weeks now since there has been a good rain, but the situation in Peterborough county is not as serious yet as it is reported to be in other parts of the province where the crop losses due to lack of rain are being estimated in millions of dollars.

**OLD PASTURES HIT**

Od meadows and old pastures are being hit hardest by lack of rain. The dry spell is proving the value of using a spring top dressing of manure and commercial fertilizer on pastures.

Where pastures have received this treatment, they are still green and even where the grass has been closely grazed, new grass spouts quickly and there are few bare spots in pastures where there is enough nitrogen in the soil.

Early spring rain during April and the early part of May have minimized the effects of the lack of rain in recent weeks to some extent, but strawberries and vegetables need moisture badly.

John Kitney is using irrigation regularly on his River Road truck farm and says that without the watering system, his vegetables would be suffering from the drought. It is so dry now, that late seeds are not germinating according to Mr. Kitney, and corn sown for silage is not sprouting.

**WHEAT PROSPECTS**

Prospects for the wheat crop are reported to be fair, if rain comes soon, and there is little smut damage.

Haying is becoming more mechanized every year, and several farmers are harvesting part of their crop as grass silage.

Last year, the idea was tried as an experiment but it is really catching on both in Peterborough county and throughout the province this year.

One feature of the extent to which haying has become mechanized is the fact that with so much expensive machinery being used, only men who are familiar with operating hay balers, tractors, foragers and other mechanical equipment are in demand. It is just too risky and dangerous to let a man handle a machine costing thousands of dollars, unless he is handy with machinery.

As far as there being a shortage of farm labor in the county, agricultural representative Frank Paterson said this week that although some farmers are too busy to get around to harvesting their hay as soon as they would like to, there does not appear to be any shortage of help in the district.

Elsewhere in the province, rain is needed immediately as drought is checking growth of crops in many areas. However, Prescott county grain crops are reported to be showing damage due to heavy rainfall.

**SPOTT RESULTS**

In many areas, the hay crop is expected to be below average, although the overall picture across the province appears to be spotty. The yield varies considerably from one field to another in the same district, the same as it does in this district.

Peel county reports spring grain looks promising, but in Brant and Lincoln county it is said to be poor and patchy.

Local grown cabbage, cauliflower, green peas and beets are making their first appearance in downtown stores this week and wholesalers report the quantity and quality so far compares favorably with other years in spite of the dry weather.

Grain is beginning to ripen and moisture is needed in all counties within the next few days to fill it out, or the yield will be substantially reduced.

## See High-Level Hamilton Bridge

OTTAWA (CP).—The federal and Ontario governments have agreed that a high-level bridge probably will be built across the Burlington Channel near Hamilton, Works Minister Fournier said yesterday in the Commons.

Mr. Fourier said plans for the bridge—to replace the structure knocked out in a ship collision a few weeks ago—are being prepared by the provincial government for submission to his department.

During discussion of a $100,000 appropriation for a temporary span, the minister said he does not yet know where the new bridge will be located or what split there will be between the governments on the cost of the eventual permanent structure.

He told Frank Lennard, P.C.-Wentworth, that he expects the eventual bridge will eliminate the blockage to land traffic caused by the elevation of the old bridge's spans to let through ships.

## Films And Records At Outdoor Concert

Films and recorded music will be featured at an outdoor concert sponsored by the Peterborough Public Library and Film Council Sunday evening in Nicholls Oval.

The film, Newfoundland Scene, which won the 1951 Canadian Film Board award for excellence in photography, dramatic content and high standard of production will be one of the features of the program. This film shows scenes of whaling, seal hunting and travel by dog team as well as shots of rural landscape.

A second film entitled, Newfoundland, will also be shown. However these two films do not overlap and each will show different phases of Canada's tenth province.

The Public Library will present recorded light classical music and also music by The Band of the Irish Guards.

## Marilyn Munroe Denies "Come-On" Letters

LOS ANGELES (AP)—Marilyn Monroe, calendar girl turned movie actress, took only 10 minutes yesterday to indignantly deny she penned come-on letters to promote the sale of photographs showing her "in every pose imaginable."

She testified in municipal court against Jerry Karpman, 46, and Morrie Kaplan, 32, who were later convicted on five of nine misdemeanor counts, including mail-order selling without a licence.

Another count charged the pair used Miss Monroe's name "for the purpose of selling nude and indecent pictures representde to have been posed by Marilyn Monroe."

Miss Monroe, 22, recently said she posed in the nude for a calendar picture because she was out of work and needed money.

### Fire Chiefs Meet

REGINA (CP)—J. E. Ritchie, deputy chief fire marshal of Ontario, said here yesterday that one of the biggest needs in Canada is extension of organized fire protection outside cities and towns to include rural areas. Mr. Ritchie addressed the second annual convention of the Saskatchewan Association of Fire Chiefs.

### Mayor Welcomes Youths

TORONTO (CP)—Mayor Allan Lamport, in his best English, yesterday welcomed 33 Quebec youths to Toronto, telling them that this is the greatest city in Canada. But his words were wasted. Most of the youths know little English and are here to improve their knowledge of the language.

### 2 Firemen Hurt

TORONTO (CP)—A $100,000 fire, caused by an overheated motor in a wall fan, last night gutted the Century Cleaners Limited plant in North Toronto. One fireman was overcome by smoke and another fell into a vat of cleaning fluid and suffered minor burns from the hips down.

### Receives New Post

TORONTO (CP)—Appointment of Clarence F. Nunn, supervisor of the Department of Municipal Affairs, to a post on the Ontario Municipal Board was announced yesterday. A native of Dundas, Mr. Nunn served in various municipal offices in Thorold and was for 11 years clerk-treasurer, tax collector and assessor of Dundas. In 1950 he joined the provincial department.

### Windsor Plants Close

WINDSOR (CP) — The United States steel strike which started June 2 will force Windsor's two major automobile plants to shut down today for reopening Wednesday. Officials of the Ford Motor Company and of the Chrysler Corporation said operations will be suspended for that period because of a developing steel shortage here.

### Man Drowned In Credit

COOKSTOWN (CP)—Jack Fenton, 24, of Toronto, is believed to have been drowned yesterday in the Credit River. Doris Davids told police that Fenton, a poor swimmer, suddenly appeared in deep water. She said he gasped "Save me" and disappeared. Cookstown is 40 miles northwest of Toronto.

### Hospital Gets Grant

EXETER (CP)—A. Y. McLean, Liberal Member of Parliament for Huron-Perth, yesterday announced federal approval of a $41,800 grant toward construction costs of the new South Huron district hospital here.

THREE TIMES TWO—Edgar Harvey of Montreal and his wife Fernande are the parents of three sets of twin girls born in successive years. In the front row are Christiane, left, and Diane, 2; rear row, Lise, left, and Denise, 1, and month-old Micheline, held by her mother, and Celine, held by her father.

## Ontario Lets US Trucks Use Provincial Roads

TORONTO (CP)—The government by Order-in-Council yesterday legalized the use of Ontario highways by United States trucks for the carrying of freight in bond.

Many U.S. transport lines have sought permission to use Ontario highways as a short-cut between Detroit and Buffalo. The Ontario route is 106 miles shorter.

The government will charge the truckers $7 a trip.

Highways Minister Doucett said he anticipated that about 50 American trucks a day would use the Ontario route.

## Halifax Musical Best In History

HALIFAX (CP) — The world premiere of a bouncy musical comedy, "Bonanza," wound up a five-performance stand here last night with theatre-goers literally sitting in the aisles and standing in the rear of the 2,000-seat Capital theatre.

It was the most successful musical show in the history of Halifax.

The CBC has contracted to carry the musical comedy on a Trans-Canada network broadcast.

Nearly 10,000 persons saw the sparkling musical story of the adventures of an Alberta family who strike it oil-rich, nearly get taken by Edmonton city slickers and then win out in the end.

## Road, Land Sink 40 Ft. By Saskatchewan River

NIPAWIN, Sask. (CP)—Residents near here are baffled by mother nature's latest quirk.

Land running parallel to the North Saskatchewan River, 18 miles north of Nipawin, sank between 40 and 60 feet, taking with it two miles of unimproved road.

The section of land retained its shape when it sank and the road appears smooth enough to drive on. The edge of the cliff formed is about three-quarters of a mile from the river bank.

## Defiant Prisoners Give Up On Plea From Jail Chaplain

EDDYVILLE, Ky., (AP)—Three hundred defiant prisoners, advised by a chaplain not "to die in vain," sullenly ended a one-day rebellion at the state prison last night.

The risk of dying was there: state police and prison guards were poised to attack. They had rifles, pistols, sawed-off shotguns and tear gas. The mutineers had clubs and knives.

The prisoners surrendered unconditionally and promptly at 8:15 p.m. EDT, a deadline fixed by Dr. W. E. Watson, state director of corrections, and Warden Jess Buchanan.

**EIGHT WOUNDED**

When the unruly prisoners finally capitulated, and released a guard held hostage during eight hours of rioting, eight prisoners had been wounded by gunfire, and the prison machine shop wrecked.

Two guards were taken hostage but quickly released, one of them slightly hurt by a blow on the head.

Rev. Paul B. Jaggers, Baptist chaplain, made the final appeal to the mutinous convicts. While Jaggers was pleading with the rebels to give up, the mob's ringleader tried unsuccessfully to continue the revolt.

"Stay and die like martyrs," exhorted Benny Rayborn, 34, a toughened lifer sentenced for armed robbery.

But the prisoners yielded to the clergyman's promise of safe conduct to their cells.

**LIST OF DEMANDS**

In their opening negotiations with prison authorities, the rebels submitted a list of seven demands together with a request for the dismissal of Deputy Warden Walter Stephens and Earl Henderson, a dining room steward.

The concessions they sought included elimination of "brutality," abolition of daily drills, better food and better hospital care, and an improvement in cell sanitary equipment.

Buchanan refused to yield any point.

The prisoners' temper first flared when the power was shut off for repairs Wednesday night and radios went dead while prisoners listened to a boxing match. Peace was restored four hours later.

Then, at 11 a.m., yesterday, a group of prisoners refused to turn out for drills. They became unruly, and a wall guard fired a shotgun into their midst, wounding eight convicts. Thereupon, the prisoners "ran wild," the warden related.

## 101, Dances A Square

LANARK (CP) — Mrs. Jeannie Majaury celebrated her 101st birthday at her log cabin home here Wednesday by dancing a square with the Lanark police chief. Her birthday party drew most of her 59 grandchildren, 132 great-grandchildren and 14 great-great grandchildren.

### Baby Moose

TIMMINS (CP)—A baby moose was found wandering by a worker from the Monteith Industrial Farm. The animal was released in the same area.

# Miss C. Atkinson Observes 94th Birthday

WARKWORTH — (ENS). — Miss Carrie Atkinson celebrated her 9 th birthday quietly on June 20 at her home in Warkworth, where she lives with Mr. and Mrs. Elton Morrow.

Miss Atkinson is the daughter of the late Mr. and Mrs. John Atkinson, and she was born on the 5th Concession of Percy Township. She has lived in this vicinity all her life with the exception of a short period of time spent in California where she was on an extended visit there.

Miss Atkinson is the sole survivor of her immediate family. Three brothers, Thomas, Ambrose and John of Percy Township and a sister Mrs. Thomas Macklin (Cassie) of Fenella have predeceased her.

She has five nieces and six nephews, Stewart, Warren and Hayden Atkinson of Percy Township, Howard Macklin of Fenella, and Thomas and Howard Atkinson of Western Canada, Mrs. Arthur Hardinge of Cobourg, Mrs. Harry McCleary, and the Misses Dorcas and Helen Atkinson of Toronto, Miss Edith Atkinson of Percy. She has also many great-nieces and nephews and host of friends.

Miss Atkinson is a member of St. Paul's United Church, Warkworth, and a life member of the W.M.S.. Until recently she has been able to enjoy meeting her friends and mingling with them, but at present she is confined to bed due to a weakened heart condition. Her hearing is her greatest defect.

FIRST PICTURE OF QUADS—The first photograph of New England's only quadruplets, the children of Mr. and Mrs John J. Manning, shows them in their incubators at the South Shore Hospital, Weymouth, Mass. The quads haven't been named yet and are known as A, B, C, D, indicating the order in which they were born. "A" is a girl and the other three are boys. With them are nurse Ethel Katzenberger and Dr. Robert J. Ryan.

MOTHER OF QUADS—Mrs. John J. Manning, mother of New England's only quadruplets, smiles from her bed at the South Shore Hospital, Weymouth, Mass. Beside her is a statue of the Infant of Prague, given her by Archbishop Richard J. Cushing of Boston. Mrs. Manning expects to leave the hospital this week-end.

# New Vote Counts To Decide Result Of B.C.'s Election

VANCOUVER — (CP) — New vote-counts for 40 of the 48 seats in the British Columbia Legislature will decide the result of the June 12 provincial election.

The new counts, made necessary by B.C.'s adoption of the complicated and controversial alternative voting system, start July 3 and may last several days.

In most of the 40 undecided seats, the result is wide open. In addition, further counts are needed to confirm election of two C.C.F. and two Social Credit candidates in ridings where the first count was indicative but not decisive.

Contesting these 44 seats are 194 candidates. Sixty-four of them are positively out of the running.

Certain to be dropped as counting progresses through second and third counts are 23 Progressive Conservatives, 13 Social Creditters, seven Christian Democrats, six C.C.F. and six independent candidates, four Labor-Progressive Communists, three Liberals, one Socialist and one Labor candidate.

Others will be dropped out as the count proceeds, but aside from these 64 the casualties cannot be forecast from first count results.

But the second or even third or fourth choices given to these dropped candidates by B.C. voters will decide who wins in individual seats and which party has the largest group of members in the house.

The indication is that no party will have an over-all majority. Herbert Anscomb, Progressive Conservative leader who may be defeated in Oak Bay constituency, has forecast another election soon to end the expected stalemate.

Going to the second and subsequent counts, this is the standing of parties:

| | Elected | Leading |
|---|---|---|
| Social Credit | 5 | 9 |
| C.C.F. | 3 | 18 |
| Liberal | 0 | 9 |
| P.C. | 0 | 3 |
| Labor | 0 | 1 |
| Total | 8 | 40-48 |

To be confirmed: Social Credit election in Dewdney and North Okanagan; C.C.F. election in Burnaby and one of two seats in Vancouver East.

Under alternative voting, used in B.C. for the first time June 12, electors may mark their preference for all candidates on the ballot instead of putting down a single "X" for one candidate.

A candidate must have a majority of votes to win. If he doesn't get a majority on the first count, the candidate who received the fewest votes is dropped and his ballots are distributed among the other candiates according to the second-choice markings of his supporters. This process is repeated through as many counts as necessary until one candidate comes up with a majority.

Only first-choice votes were counted election night. The second and subsequent choices are being distributed July 3 to determine winners in seats where there was no majority for any candidate.

# Claims UK Labor Caused Recall

LONDON (AP)—Emanuel Shinwell, former Labor government defence minister, claims it was pressure from Britain's late Labor government which led to the recall of Gen. Douglas MacArthur from Tokyo in 1951.

Shinwell brought up the point during a debate in the House of Commons last night over the United Nations bombing of North Korea's Yalu River power plants without consulting Britain in advance.

He declared that when the Labor government was in power "we never experienced an incident of this kind" and added:

"When there was a prospect of General MacArthur's taking action which exceeded his authority, and which was resented not only in this country but in the United States, we took effective action."

# Jail U.S. Private For Five Years

BERLIN (Reuters) — A U.S. Army court martial today sentenced Pte. Ray B. Schultz, who was detained for five months by Soviet authorities, to five years at hard labor.

Schultz was found guilty of deserting his unit, being absent without leave, robbing and assaulting a Berlin taxi driver, breaking restrictions and attempting to escape custody. He had pleaded not guilty to the charges.

He told the court here today that he and two companions were jailed and beaten by Russian guards at Soviet military headquarters in Potsdam.

Schultz said that after being held at Potsdam he was sent to a village near the Czech border where he was forced to work in a cotton mill.

Schultz gave himslf up to military officials in Berlin June 6. He said that he escaped by hitchhiking to Berlin from the village of Bautzen, where he had been put to work.

# Canada Not Consulted On Hydro Bombing

OTTAWA — (CP) — Canada was not consulted about the bombing of hydro plants on the Korean-Manchurian border, External Affairs Minister Pearson told Alistair Stewart (C.C.F.-Winnipeg North) in the Commons today.

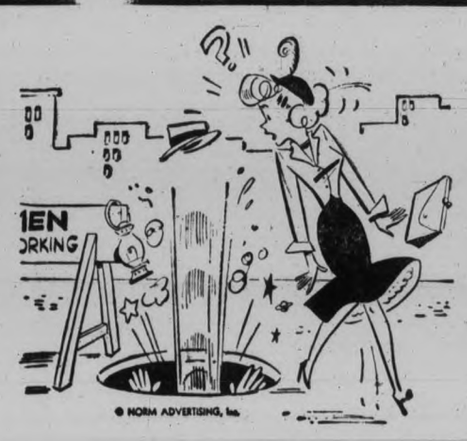
He said Canada has been assured that the United Nations command had purely military motives in mind in ordering the bombing.

Julian Ferguson (P.C.-Simcoe North) interjected in the exchange to tell the government to "quit meddling" and to stop trying to run the Korean War from Ottawa.

# Arrest Sudbury Man After 85-MPH Chase

TORONTO (CP).—After an 85-mile-per-hour chase in Toronto's east-end, police today arrested Joseph Lucien Surget, 42, of Sudbury, and charged him with dangerous and careless driving.

Fifteen minutes later an additional charge of assault was levied when police found a woman with blackened eyes and cut lips in the area.



**Accidents Can Happen Quickly**

That's certainly true about automobile accidents . . . particularly when a car hasn't had proper and regular servicing. *Survey shows...*

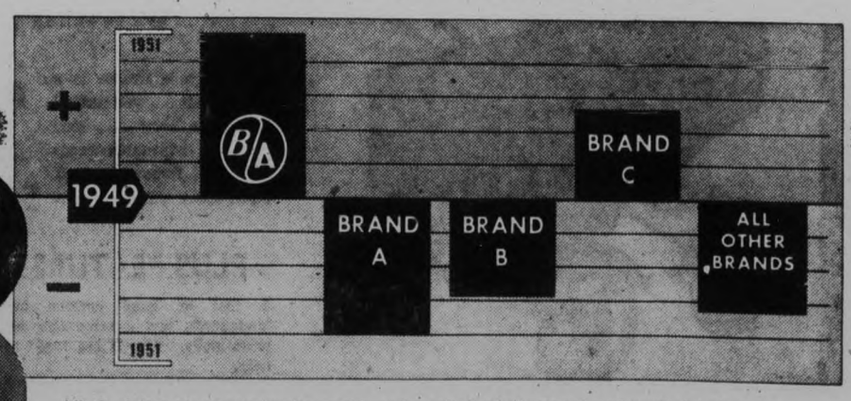
**MORE PEOPLE PREFER B-A 88&98 GASOLINE THAN EVER BEFORE**

A recent survey by an independent research panel showed that more people than ever before prefer B-A. The rise and fall in gasoline preference by Canadians, between 1949 and 1951 is shown on the chart. B-A leads all other oil companies for increased preference and popularity.



88 98 B-A

All the laboratory tests in the world, and all the claims made for a product are meaningless until the public has made the one real test—actual use of the product. And in the case of B-A 88 and 98 gasolines, the motoring public have given their approval. In 1949 and again in 1951 the simple question "Which gasoline do you prefer?" was asked of thousands of motorists by an independent panel. B-A showed a gain of nearly twice its nearest competitor in public preference. If you haven't tried B-A 88 or 98 gasoline lately, get a tankful and find out for yourself why more people than ever before prefer B-A. You'll find that economy and power are the two main reasons!

THE BRITISH AMERICAN OIL COMPANY LIMITED

*The Largest Oil Company Owned by Canadians*

N-52-21RA

B-A 88&98 GASOLINES ARE TOP-RATED BY MORE PEOPLE THAN EVER BEFORE!

# City Busier, Country Better Says Pioneer Sask. Woman

PRINCE ALBERT, Sask. (CP) —City life is busier but not nearly so strenuous as country living, says Mrs. P. G. Spencer, old-timer in the Prince Albert district.

Mrs. Spencer moved into the city last year after spending 70-odd years on a farm near Fenton on the banks of the South Saskatchewan River.

"I've brought up seven children and still own my own farm, running it by myself since my husband died in 1930," says the energetic pioneer homemaker.

Mrs. Spencer has knitted and crocheted millions of stitches in making clothing.

"I've always kept sheep, carding and spinning my own wool. One of my sons has a sweater knitted over 20 years ago—still strong and wearable."

Mrs. Spencer has never discarded a string or a rag. Every little piece was saved to make into rugs and other household articles.

Born and raised in Saskatchewan, she thinks there's nothing like the gentle roll of the prairies. On visiting the west coast, she found the mountains depressing.

THE NEW-FOUND ELEGANCE of cotton is evidenced by these designs, in which the fabric has been handled exactly as any luxury fabric would be treated. Needlepoint pique is used (left) for an evening gown that has front skirt panel filled in with nylon tulle. Applique embroidery is used to emphasize the forward skirt movement and hipline. Tweed damask cotton (center) is cut into a full-skirted summer suit that has wide, rounded collar and arched hipline. Copper-colored coin dots sprinkle the surface (right) of this dress that has arched hipline and very full front panel. Neckline is cut to deep V.

**THE EXPERTS SAY:**

## Need Good Lunch For Health, Nutritionists Say

By KAY REX
Canadian Press Staff Writer.

Next to a good breakfast, nutritionists say that a good lunch is all-important for health.

Many workers these days find home-made lunches less expensive than going to restaurants. Besides, they may be eaten out-of-doors if the weather is good and there's a park or grassy spot within walking distance of work.

Sandwiches can be made the night before and placed in the refrigerator. Peanut butter with banana, minced ham and pickle, are just two of many good sandwich fillings.

A couple of crisp pieces of celery, carrot curls, one or two radishes, complete the "main" course.

For dessert, fill a small jar with fresh strawberries. Home-made cake or cookies will provide a "party" touch.

**"TEENY" COOKIES**

Here is a recipe for old-fashioned "teeny" cookies.

Ingredients: Three - quarters cup sifted pastry flour; one-eighth teaspoon salt; one-eighth teaspoon baking soda, one teaspoon baking powder; three-eighths cup baking bran; one-quarter cup chopped nuts; three-quarter cup rolled oats; one-half cup shortening; one-half cup brown sugar; one egg slightly beaten.

Sift flour, salt, baking-soda, baking powder. Add bran, chopped nuts and rolled oats. Blend well. Add shortening. Blend with fingers until mixture is crumbly. Combine sugar and lightly beaten egg. Beat until fluffy. Blend two mixtures. Chill batter.

Roll pieces of cookie dough into small round balls and place on oiled cookie sheet. Press flat with fork. Bake in moderate oven. Yield: 48 small cookies.

**FOR THE GOURMETS**

Home economists of the federal Department of Agriculture have come up with a fine idea for building up back-fence conversation with the next-door neighbor who has just arrived from Europe.

"Why not talk to her about some of the foods that she is cooking for her family these days," says the home economists. "She'd likely be interested in some of your recipes too . . . and what a host of ideas we can get from foreign cookery!"

## Norwood News

Miss Louise Phelps of Lincoln, Nebraska, has returned home, having spent a few days with Rev. H. K. and Mrs. Wright and family.

Mr. and Mrs. Henry Thistlethwaite were Sunday guests of Mr. and Mrs. Walter Girven of South Dummer.

Mr. and Mrs. Ralph Bickle of Toronto, Miss Flora Metcalfe of Peterborough, were weekend visitors at the Metcalfe home.

# Of Interest to Women

## Baby Crosses Ocean For Christening

LONDON (Reuters). — Joan Alexandra Frost of Vancouver, aged seven months, was christened recently in the church of St. Jude-on-the-Hill, Hampstead, a London suburb, by the vicar who married her English mother and Canadian father there nine years ago.

Mrs. John Frost, wife of a Vancouver surgeon, brought Jean 6,000 miles so that the child's grandmother and grandfather could attend the christening.

Joan is Mrs. Frost's fourth child. The other three, Nicholas, 6; David, 4—who stayed with their father in Vancouver — and Lindsay, 5, who came to England with his mother and young sister, were all christened in Canada.

The Frosts met when John was serving here as a surgeon lieutenant-commander in the Royal Canadian Navy, and were married at St. Jude's in 1943.

## What's Right?

You would like to give a party honoring your sister who is to be married.

WRONG: Have a shower for her.

RIGHT: Have any other type of party, since it is not in the best taste for relatives of the bride to give showers for her.

## Fashion Flashes

Big and beautiful hats are just made to pair off with filmy sheers and soft silk prints. Black taffeta is used for a large, shallow cartwheel, the crown plain and the entire brim of narrow pleated taffeta. Rhinestone banding under the brim.

MISS MARY BLAIR, daughter of Mr. and Mrs. Hugh C. Blair of Millbrook, whose engagement to Mr. Donald McMillan, son of Mr. and Mrs. H. McMillan of Campbellford is announced. The wedding will take place in St. Andrew's United Church, Millbrook, on Saturday, July 26th.

*Beaver Club Festival*

LAKEFIELD (ENS)—Members of the Beaver Club of Smith township, and their families enjoyed a social time together on Wednesday evening when they gathered at the home of Mr. and Mrs. Stanley Higgins for a strawberry social. Mr. and Mrs. Ted Gill assisted with the arrangements. During the evening, Gordon Fitzgerald, reeve of Smith township made a draw on a quilt made by the ladies of the Club and the lucky winner was Mrs. Joseph Moore of R.R. 2, Lakefield. The quilt has been on display at the Grafton store in Peterborough.

Some of the YW Blue Triangle Players' Group enjoyed a weiner roast Thursday evening at the summer cottage of Mr. and Mrs. "Scotty" Donaldson on Lake Chemong. Those present included Miss Gwen Reed for whom it was a farewell as she is leaving the city next week, Mr. and Mrs. Ben Swartz, Mr. and Mrs. David Rymer, Mr. and Mrs. Ken Strasser, Mr. and Mrs. John Campbell, Miss Ella Down, Mr. George Booth and Mr. Don Endicott.

## H. & S. Executive Gives Tea At King Edward

The teaching staff and the grade mothers of King Edward School were entertained at a tea Wednesday afternoon by the executive of the Home and School Association.

A lace-covered tea table was arranged for the occasion with a centre bouquet of white canterbury bells and delphiniums in a crystal vase flanked by blue candles in matching crystal holders. Blue serviettes completed the decorative scheme in the school colors.

The table setting was arranged by Mrs. R. Kingdon. Tea conveners were Mrs. A. Clark and Mrs. N. Gilders.

Mrs. G. MacMillan poured the tea and assistants were Mrs. L. Webb, Mrs. V. Reynolds, Mrs. G. Young, Mrs. J. Dunkerley, Mrs. W. Stanbury, Mrs. F. Willison, Mrs. L. Ross, Mrs. H. Barnard and Mrs. R. Stewart.

Principal Mr. Jack Telford spoke highly of the work of Mrs. W. Hutchins who is leaving the staff to teach next year at King George School. Presentation of a cup and saucer from the teaching staff was made by Miss M. Mutton and Mrs. V. Reynolds presented a cup and saucer on behalf of the Home and School Association.

## Strawberry Tea Held At Havelock

HAVELOCK (ENS)—The Women's Association of Havelock United Church held a very successful strawberry tea in the Sunday school auditorium on Tuesday when about 200 persons attended and the net proceeds amounted to $82.

The tables were attractively decorated with peonies and roses. The president, Mrs. N. Blakely received the fees at the door and the guests were welcomed by Mrs. R. G. Newman and Mrs. G. W. Chiles.

## Roseneath W.A. Buys Refrigerator

ROSENEATH (ENS)—"Let us remember that God's gifts grow with use, they grow best when used to bring joy to others," said Mrs. R. C. White in an address at the June meeting of the United Church W.A. The speaker chose as her subject "The Use of our Talents." In conclusion Mrs. White said "Let us not pray for easy lives, but strength to stand up and use the talents God has given us to assist in establishing peace, good will on earth."

The meeting was held on Wednesday evening in township hall with Mrs. L. Thackeray hostess. The president Mrs. Earl Waldie presiding with Mrs. Ella Brown, pianist.

Included in the correspondence read by the secretary, Mrs. Charles Sandercoc was an invitation from Roseneath Women's Institute inviting the W.A. members to attend their cooing school to be held in the township hall, July 15.

The good cheer report prepared by the convener Mrs. Arthur Braithwaite reported eight persons having been remembered during the month.

The treasurer reported $300 paid toward a new refrigerator for the parsonage.

Mrs. Clarke Sandercock reported having purchased five dozen bread and butter plates and a quantity of silverware for the W.A. cupboard.

Mrs. Ella Brown, program convener, announced the following numbers: Piano solo by Mrs. Edgar Carew; a quiz on weights and measures by Mrs. Alvin Rosebush was won by Mrs. Earl Thackeray's group. A vocal duet "If I were a rose," by Misses Marie Robins and Helen Sandercock, with Mrs. C. W. Varcoe playing piano accompaniment.

Mrs. C. W. Varcoe on behalf of the gathering expressed their regrets to Mrs. R. C. White, who is moving to Bobcaygeon in the near future. Mrs. Varcoe also expressed appreciation on behalf of the society for the eight years of service Mrs. White had given to the W.A. Mrs. White replied briefly.

The meeting closed with the mizpah benediction.

Refreshments were served by the hostess.

PETERBOROUGH GOLF CLUB TEAM in the annual City and District meet, played on their course Thursday, were the trophy winners and captain Mrs. W. J. Vanstone is seen (at centre in top photo) accepting the Graham cup from the donor's wife, Mrs. C. G. Graham. At left is Miss Lahring Parsons of the Peterborough team who was top golfer of the day in the silver division. Peterborough Club ladies' president, Mrs. S. J. Williamson (lower photo) presents a prize to the top golfer in the bronze division, Mrs. Alf Hill (extreme right) also a member of the Peterborough team of eight. Mrs. Braithwaite of Oshawa (second from left) was another bronze division leader, and Mrs. George Hees of Cobourg (second from right) was a low scorer in the silver. —(Parks Studio Photos)

## Peterborough Club Wins City And District Meet

The Graham Cup returned home again for the '52-'53 year when it was won on Thursday by the Peterborough Golf Club team in the six club annual City and District meet on the Peterborough course. The silver trophy, which has been in competition since 1931, was presented by the donor's wife, Mrs. C. G. Graham and accepted by the team captain, Mrs W. J. Vanstone, and each player was given a "City and District" engraved silver ash tray.

Other members of the Peterborough team were the club president Mrs. S. J. Williamson, Mrs. V. A. Selkirk, Miss Lahring Parsons, Mrs. H. Baptie, Mrs. Alf. Hill, Mrs. Stan McBride and Mrs. Jack Hardill.

They competed with teams of eight ladies from Kawartha, Port Hope, Cobourg, Oshawa, and Lindsay clubs. Each team is composed of the players with lowest handicaps in the club, those with one to 18 handicap being in silver division and those with 18 to 36 in the bronze division. The meet includes playing 18 holes of golf and approaching and putting and driving competitions.

Mrs. Williamson extended the welcome of the hostess club and presented the prizes for the day.

Miss Lahring Parsons of the Peterborough Club was the top golfer in the silver division. She received the prize for first low net, a hammered silver silent butler and a set of eight shaded glass cocktail tumblers for second low net. Mrs. George Hees of Cobourg got the prize for second low net, a hot roll basket with napkin, and the first low gross prize, a hammered silver tray.

Best showing in the bronze division was made by Mrs. Alf. Hill, wife of the Peterborough Club pro. She received prizes for first low net and first low gross. Following closely was Mrs. Irwin of Oshawa who got the second low net and second low gross prizes.

Approaching and putting silver division winner was Mrs. Lionel Ross of Cobourg and second was Mrs. V. A. Selkirk of Peterborough who received a white necklace and earring set as prize. Bronze division first went to Mrs. Braithwaite of Oshawa and second to Miss Muriel Hayden of Cobourg.

Mrs. Vanstone won the first prize for aggregate drives and Mrs. Williamson the second prize and also the first for longest single drive with Miss Dobie of Oshawa getting the second on this. Mrs. Vanstone also got the first prize on sealed holes and Mrs. Baptie got the second prize.

In the bronze division Mrs. Dick Miller was winner of a set of hand towels on her aggregate drives with second prize going to Mrs. Robinson of Port Hope who got the second prize for single drive with Mrs. McGillivary of Kawartha Club having the longest drive.

A draw was made for six golf balls donated by Mr. Hill as consolations to those who did not win prizes and Mrs. Doug Anderson of Kawartha Club and Mrs. C. Smith of Port Hope were the winners.

Tea was served following the presentations with Mrs. R. H. Turner, and Mrs. C. G. Graham presiding. The players had enjoyed luncheon together after completing their games, the competitions being held after lunch.

Next large women's affair at this club will be the Marjory DeGraw tournament on July 16 which is open to any golfers with a C.L.G.U. handicap.

## Sloan-Hanes

In St. George's Anglican Church on Thursday afternoon at three o'clock the marriage was solemnized of Alice Joyce, only daughter of Mr. and Mrs. Irwin Hanes of Peterborough, to Glennard Norman Sloan, youngest son of Mr. and Mrs. Norman Sloan of Reaboro.

The Rev. H. J. Scuse, rector, performed the ceremony. The church was decorated for the occasion with peonies and music was played by the church organist.

Given in marriage by her father the bride was wearing blue nylon net over taffeta and a blue veil caught in a cap headdress with white carnations. She carried a bouquet of red roses. Bridesmaid was the groom's sister, Miss Norma Jean Sloan who was similarly dressed in pink and carried a bouquet of Bettertime roses.

Groomsman was the bride's brother Glen Hanes.

The reception was held at Club Aragon with the bride's mother receiving in a dress of navy and white crepe and wearing a white hat and corsage of white carnations.

For travelling the bride wore blue and a red shortie coat. After visiting points west the couple will live at 63 Aylmer St.

## Woodcock-O'Leary Nuptials

St. Luke's Church, Downeyville, was seene of a wedding Saturday morning at 9 o'clock when Nora O'Leary, daughter of Mr. and Mrs. Joseph A. O'Leary, was united in marriage to Anzel Woodcock, son of Mr. and Mrs. Jas. Woodcock of Peterborough. The nuptial mass was said and the ceremony performed by the Rev. Vernon Perdue, cousin of the bride. The church was decorated with pink and white peonies.

Mrs. Walter Herlihey played the wedding music and Mrs. Alvin Perdue sang "On This Day" and other hymns during the mass. Rev. Father McFadden was in the sanctuary.

The bride, given in marriage by her father, wore a ballerina gown of white Chantilly lace with moulded bodice. Her veil of silk illusion was caught to a Juliet cap of lace with seed pearls, she carried a bouquet of butterfly roses. Only attendent was her sister Miss Veronica O'Leary, attired in a gown of pale green with matching veil and carried a bouquet of roses. The groom was attended by his cousin, Edmund McGlynn of Peterboorugh and the ushers were Paul O'Leary and A. Woodcock, brothers of the bride and groom. After the ceremony a reception and dinner was served to some 55 guests at "Triplewood Lodge" on the shore sof Pigeon lake where the bride's mother received, who wore a gown of powder blue triple sheer with white hat and accessories. Mr. and Mrs. Woodcock left on a trib to Montreal and points east and on their return will reside in Peterborough.

## Handcraft Guild Executive Plans Exhibit

The newly appointed officers of the Peterborough Handcraft Guild had their first executive meeting Thursday evening at Mrs. E. R. Frost's home, Monaghan Road. Their annual meeting was held June 4th at Dixon House in the form of a pot luck supper, followed by films on pottery and leathercraft.

The officers then elected were: president, Mrs. E. R. Frost; vice-president, Mrs. M. G. Niblett; treasurer, Mrs. Charles Stanton.

Program and display chairman Miss June Fraser. A secretary is to be appointed later.

Plans were discussed with regard to the exhibit and demonstration of craft work at the coming Peterborough Exhibition, and with regard to the program of activities up until Christmas.

## Chas. E. Allen's Piano Pupils Heard In Recital

A large appreciative audience of parents and friends enjoyed a piano recital by pupils of Charles E. Allen Thursday evening in the Sunday school auditorium of George Street United Church. Baskets of peonies, canterbury bells and syringa made a lovely setting for the occasion.

The program was interspersed with duets by Kathryn Magee and Wendy Collins, Bob Millen and Charles Allen, a trio by Sandra, Sharon and Suzanne Shaw, a clarinet solo by Raymore Turnbull, the recital being brought to a close with a group of two-piano numbers played by Gwen Pomeroy with Charles Allen at the second piano.

Those heard in the solos were: Ronald Butterworth, Ronald Payson, Mary Ann Kingdon, Diane Cookman, Carolyn Loucks, Gale Porter, Nancy Chenoweth, Lynn Tucker, Betty Mitchell, Mollie Pammett, Margaret Earl, Carol McKee, Wayne Coombes, Paul Bowman, Stanley Dainard, Douglas Chenoweth, Bob Millen, Barry Black, Ralph Gatfield, Keith Parks, Ian Falkner, Jimmie Mathews, Denton Gilmour, Brian Baker, Harry Dainard, Suzanne Shaw, Mary Jane Simmers, Beverley Millen, Mary Hucks, Jane Bamforth, Wendy Collins, Kathryn Magee, Sharon Shaw, Erma Shaw, Ruth Brown, Sandra Shaw, Margaret Dainard, Walter Dainard, Susan Simmers, Norma Bond, Barbara Ephgrave, Sandra Welsh.

The pupils enjoyed a social half hour following the recital.

## Kawartha's Visit Peterborough BG's

Peterborough Golf Club Business Girls' entertained the Kawartha girls Tuesday evening. In spite of the weather, there was an exceptionally good turnout. After golf a delightful lunch was served. Captain Shirley Sackville extended a hearty welcome to the guests and presented prizes to the winners. An invitation was also extended to see a film called "Golf Par" which the Peterborough Business Girls are showing on July 8th. Prizes for the lowest score were won by Peterborough B. G.'s Marg Behan and Jean Castle. Second low score winners were Kawartha players Barbara Siddall and Ruth McKee. Total scores for the evening were Kawartha 1,598 and Peterborough 1,574. Captain of the Kawartha girls Barbar Siddall, expressed their thanks for the enjoyable evening and extended an invitation for an evening at Kawartha Club July 10th.

After lunch a sing song was enjoyed with Doris Ackford at the piano and Betty Castle as song leader.

A nice pair of match-ups is a stole of cotton-knit in wide bands of red, white and blue — with white, cotton-fringed ends and sleeveless cotton-knit sweater in navy, with narrow red and white edges.

## H. & S. News

**BANCROFT SCHOOL**

Closing the school term Bancroft Public School Home and School Association held a combined kindergarten tea and presentation of pictures to the graduation class on Wednesday afternoon in the kindergarten room and on the grounds under the shade of the grove of pines.

An overflow crowd of parents, pupils of this year's kindergarten class, and new pupils for the fall term crowded the basement, to hear Miss Virginia Davidson and her class give a brief demonstration of the highlights of the year's work. Following this lunch was served by a committee, convened by Mrs. Doreen Maxwell.

The Grade 8 pupils of Mrs. Margaret Musclow and J. W. C. Hutton were presented with class pictures by Mrs. E. Goodkey, president of the Home and School Association. Also in the official presentation party were Mrs. C. E. Stringer, Mrs. E. Bruce, Mrs. P. La Barge, Mrs. L. Moyd and Mrs. O. E. Anderson.

Pupils receiving pictures were: Noel Martin, Glenn Cardy, Shirley Battelle, Donna Munro, Betty Twa, Jim Peever, Fay Sarginson, Helen White, Eugene Murphy, Marlene La Barge, Bob Blatherwick, Cyril Cutler, Doreen Brethour, Bill Gordon, Rosemary Merritt, Betty Johnson, Keith Gaebel, Bobo Delyea, Jack Harper, Bob Bruce, Barry Munro, Norma Steele, Loraine Coghlan, Don Thomson, Edna Vardy, Gene Bierworth, Arlene Creighton, Bob Anderson, Garry Robbins, Emerson Brethour, Joe Stringer, Beth Burgess, Glen Robinson, Bette Lou Ellerbeck, Donna Sexsmith, Earl Smith, Tom Armstrong, Ken Thompson, George Vance, Madella Maxwell, Bob Leedy. Names listed are in order of merit.

## Public Health Care In City Outlined To Study Group

"Health is not a right, it is a privilege. To keep it entails responsibility, but it can be earned." This was the gist of Dr. R. A. Kelly's message to the Civic Affairs Study Group on Thursday evening.

He went on to explain the organization and duties of the Department of Health in a city such as Peterborough. Preventive medicine is the approach and guidance toward a knowledge of better health, both as to environment and pertaining to the individual.

Thus there is inspection of food supplies and sanitation; milk and water sources are carefully checked; sewage and garbage disposals are supervised and vermin are controlled within city limits.

Capable health nurses promote prenatal education and advise expectant mothers on such topics as proper diet, clothing, personal hygene and exercise, in an attempt to banish ignorance on child care and lower the infant mortality rate in this country. Since 1946, the provincial government has been providing the expense of one prenatal examination by the family physician but this is only a very small beginning of the care required.

A public health nurse also pays a routine social visit to each home in the city after a baby arrives. No bedside nursing is done, but she is there to teach, demonstrate, and advise, if this is needed. Postnatal care is urged, and "baby care" clinics are established at various points throughout the city.

At such clinics a physician is present who can examine the child for any defects, so it can be referred to the family doctor for treatment. Preschool children are also welcome, and prevention of communicable disease by immunization is undertaken.

T.B. cases are reported and arrangements made for hospital treatment. Continuous contact is kept with the families of such cases, and help is given to establish rehabilitation when cured.

In discussing school health, Dr. Kelly stated that it should cover three things. Medical service in the school should be for the purpose of assisting and guiding those responsible for teaching health to the classes. It should also ensure that children continue in good health and last but not least, it is extremely important for the school nurse and the teacher to work together continuously for the betterment of children, since the nurse is more in a position to acquaint the teacher with the home environment, thus assisting in behaviour problems.

"Dental health, nutrition, and mental health are all summed up in "Public Health Education". Knowledge without practice is useless. The homemaker must be persuaded to apply that knowledge and form the correct habits in the child during the impressionable years."

Mrs. J. A. Nornabell thanked Dr. Kelly for sparing the time to the Study Group in view of his recent resignation as M.O.H.

Observers giving reports on the Council meetings of June 2 and June 16, were Mrs. F. W. Williams and Mrs. H. T. Rehill. Miss M. Lees covered the board of education meeting in June.

The group will resume regular meetings again on Sept. 25.

DOROTHY DIX

# What Causes Unsociable Neighbors?

DEAR MISS DIX: Being of sociable disposition, it is rather hard for me to understand the people who live next door to us. At times they are talkative, but never sociable, then out of the blue they ignore us as if we had a contagious disease. If we try to be kind or show some little sign of friendship, they walk away and leave us absolutely flabbergasted. I thought hermits lived in hills or caves; not right in the middle of civilization.—RHODA A.

✧ ✧ ✧

ANSWER: One simply must realize it does take all kinds of people to make the world, and learn to live with them. Thank heaven, say I, for the sociable ones. People who turn from profererd friendship don't know what they're mising, and they deserve your pity much more than your censure. Sometimes folks are too shy, or self-conscious, to accept friendship; they feel inadequate to return favors offered, or even to return affection and understanding. If seemingly "cold" neighbors react to your overtures for this reason, it's worth the effort to continue trying to win their confidence.

If their failure to warm to your advances is simply a case of misanthropy, absolutely nothing will change them. All you can do is be pleasant when you meet, ignore their sourness and find more responsive neighbors elsewhere on your block.

✧ ✧ ✧

**DON'T RUSH "GOING STEADY"**

DEAR MISS DIX: About a month ago I met a boy and thought I was in love with him. We went steady for a week and he gave me an expensive gift. Now I realize that I don't care for him and would like to know if I should return the gift.—PATSY.

✧ ✧ ✧

ANSWER: That was certainly a whirlwind affair, Patsy. By all means return the gift, telling him it was much too lavish for so short an acquaintance. Next time you meet the "one and only," take a little more time before rushing into the "going steady" stage. I gather from your hand-writing that you are very young, and so urge you the more strongly to be careful with your affections. Bestow them more judiciously.

✧ ✧ ✧

DEAR MISS DIX: My husband and I are very happy except for one thing. We have an 8-month-old baby and I feel I am entitled to one day off a week, at which time my husband should take over the baby. I am of the opinion that he is selfish because he refuses to do this. It is the cause of many disputes between us, so please advise me.

LISA.

✧ ✧ ✧

ANSWER: While I am a strong advocate of time out for mothers, I think you are overdoing the privilege. Don't forget your husband works hard, too, in order to provide adequately for you and his child. Caring for a baby does not come as easily to a father as to a mother, so having the youngster for a full day could be quite a task for him. Couldnt you arrange for a baby-sitter occasionally so you could go out together?

If this isn't feasible, at least, settle for an evening— not a whole day. When you say you are "entitled" to a day off, you sound more like a hired nurse than the baby's mother. One is never "entitled" to neglect or ignore ones responsibilities. You should consider it a privilege to care for your baby; instead you seem to regard him as an onerous chore. A better outlook is what you need, Lisa, not time off.

✧ ✧ ✧

DEAR MISS DIX: Even though a doctor has told by mother and me that we have clashing personalities and should not continue to live together, should we do so in order to please neighbors, relatives and other busybodies?—HARASSED.

✧ ✧ ✧

ANSWER: If you and your mother agree that you'd both be happier in your own homes, you most certainly shouldn't let the advice of outsiders influence your decision. Are you sure, however, that the doctor's odd diagnosis isn't just an excuse to justify your own wilfulness? Constant quarreling is not so much a "clash of personalities" as an indication of unstable emotions and a child-like refusal to make adjustments to other people. If you can't get along with your mother, it's quite possible that you can't get along with anyone else, which is a dark outlook for your future. In your case, a little self-analysis would do much to supplement your doctor's conclusions.

✧ ✧ ✧

DEAR MISS DIX: I am 21, my brother is 19, and he chums around with a boy his age who often comes to our house for meals and frequently stays overnight. I like him very much, and he has asked me to go out with him, but I'm afraid people will say I'm robbing the cradle.—ANGIE.

✧ ✧ ✧

ANSWER: Nonsense, a two year's diference, even at your young ages, isn't enough to cause concern. You may take a little kidding from friends, but pass it off with light remarks and forget it.

FUNNY BUSINESS -- By Hershberger

"George is a self-made man, but I guess he overworked a little doing it!"

# Readers' Friday Column Conducted by Mary Moore

QUESTION: I am only eighteen but find your columns really helpful . . please print recipe for Choke Cherry Syrup (used for pancakes) and Potato Pancakes "Helen".

✧ ✧ ✧

ANSWER:

**Choke Cherry Syrup**

Wash cherries well, crush with masher (it does not matter if stones break a little) and measure 8 cups crushed cherries and stones. Add 8 cups water and bring to boiling point and boil gently 5 minutes. Let stand in cool place, covered, overnight. (This should not stand in an aluminum kettle.) In morning strain. Measure. Add an equal amount of sugar. Bring to boiling point, boil 5 minutes, add 1 teaspoon almond extract (optional). Pour into sterile bottles and seal. I have never used this syrup on pancakes—I imagine it should be diluted. It is used as a syrup for beverages, when it is diluted with water and ice.

**Potato Pancakes**

Beat 1 egg, add 1 tablespoon cream and 1 tablespoon flour and 1 teaspoon salt. Stir until perfectly smooth. Into this grate directly 3 medium-sized pared raw potatoes. Work quickly to prevent potatoes becoming brown. Cook by spoonfuls in heavy skillet in a little butter or hot fat.

✧ ✧ ✧

QUESTION: Talk about a coincidence! I have two. After reading the letter from the woman criticizing you I found the enclosed clipping "As Others See Us" . . . it fits your critic exactly and by an English woman too . . . after reading Mrs. W. S. E.'s letter requesting ingredients for a face pack I found enclosed article. Could it be what she wants?

How I wish your column had been going 30 years ago when I started cooking as a farmer's wife . . now I have more time, not so many bees or men to feed, a refrigerator and your column and have to watch my waistline . . . please comment on my method of canning rhubarb. I keep mashing the pieces in a mixing bowl to get enough juice to cover it in the jar instead of filling jar with water. I use a little wooden mallet. After getting jar full would it be any better to cold pack it, say for 15 min? It keeps the other way for me . . Also comment on my way of canning pineapple alone. Cook in water, put in jar and add syrup and seal. We like lots of juice on it and it goes farther. I think you are so enthusiastic about your work that's why everyone enjoys it.—Mrs. O. E.

✧ ✧ ✧

ANSWER: Who could help but be enthusiastic with the kind of enthusiastic cooperation I receive from such thoughtful folks as you? I'll quote from the two clippings you sent hoping the girl who wanted the face pack sees this:

(Oatmeal Face Pack) Through fine knife of food chopper put 1 cup coarse oatmeal. Mix together ½ cup glycerin and ½ cup rosewater. Moisten the oatmeal with this and let stand ½ hour. Use about one-half of it for one application. Apply the pack to your face and neck, lie down with your feet higher than your head, let it dry for one-half hour. (Read or sleep meanwhile). Rub off without wetting. If you do this once per week, and wash your face with best quality soap and hot water three times per day your skin will show noticeable improvement.

Quotation from clipping sent by Mrs. O. E.): "And what of the people of Canada? They are wonderfully kind and generous to a fault . . their frankness is born of

**SYMONS**—Mr. and Mrs. David Symons are happy to announce the birth of their daughter, Karen Elizabeth, June 19, 1952 at Peterborough Civic Hospital. A sister for Larry.

### 2—Engagements

Mr. and Mrs. S. McCartney wish to announce the engagement of their youngest daughter, Lorna Della Elizabeth to Albert William Robert, eldest son of Mr. and Mrs. R. E. Woodhouse of Peterborough. The wedding to take place on Saturday, July 19 at 10 o'clock a.m. in Sacred Heart Church, Peterborough.

The engagement is announced of Doreen, youngest daughter of Mrs. Beatrice and the late George Bassett of Madoc, to Leo, son of Mrs. Mary Ellen and the late Timothy Crowley of Hastings. The wedding to take place July 19th.

### 5—Deaths

**BROWN**, James Brookfield—At Peterborough on Thursday, June 26, 1952, James Brookfield Brown of R.R. 10, Peterborough in his 67th year, loving husband of Margaret Thompson Harkness and dear father of Margaret, Elizabeth and Douglas. Resting at the Belleghem Funeral Home, 190 Hunter St. W., until Saturday, June 28, 1952, thence via C.P.R. 5:10 p.m. standard time to Washington and Johnston's Funeral Chapel, 717 Queen St. E., Toronto, for service on Monday, June 30, 1952. Interment Pine Hill Cemetery, Toronto.

**GUERIN**, Paul—At St. Joseph's Hospital, Thursday, June 26, 1952, Paul Guerin, darling infant son of James Guerin and Nina Giardino of 146 Park St. N., age 3 weeks. Dear little brother of Joanne, Teresa, Donna, James and Peter. Funeral was held today from the Duffus Funeral Home at 3 p.m. with interment in St. Peter's Cemetery.

**HOWDEN**, Herbert David—Suddenly, at his residence, 459 Murray Street, on Thursday, June 26, 1952, Herbert David Howden, beloved husband of Pearl Guthrie. Dear father of Mrs. Charles Steadman (Laurine) and Mansell, both of Peterborough. Brother of Wilfred Howden of Peterborough, William J. Howden of Omemee, and Mrs. S. Fallis of Millbrook. Resting at the Kaye Funeral Home, 539 George Street, for service on Saturday, June 28th, at 2 p.m. Rev. E. W. Rowland officiating. Interment Emily Cemetery.

**RENDALL**, Robert Beddie—Result of drowning, on Thursday, June 26, 1952, Robert Beddie Rendall, 764 Aylmer St., in his 32nd year, beloved husband of Mary Pressley, dear father of Robert, age 3. Brother of George Rendall of Johannesburg, South Africa, and Frederick Rendall of Aberdeen, Scotland, and Jean and Alison of Rose Harty, Scotland. Resting at the Kaye Funeral Home, 539 George St. for service on Monday, June 30 at 2 p.m. Rev. C. G. Boyd of St. Paul's Presbyterian Church officiating. Interment Little Lake Cemetery.

**RODREGUE**, Cleophas—At St. Joseph's Hospital, Thursday, June 26, 1952, Cleophas Rodregue of Harcourt, Ontario, beloved husband of Grace Emery and dear father of Mrs. Leonard Linkie (Florence) of Bowmanville, Mrs. Peter Manfine (Theresa) of Galt, Mrs. M. Donaldson (Agnes) of Harcourt, Miss Gloria of Preston, Rosalie, Alice and Leza of Peterborough and Catherine of Harcourt, Turibe of Hamilton, Louis of Peterborough, Walter of Oshawa and David of Harcourt. Son of the late Louis Rodregue and Marie LaTonneau. Also surviving are five brothers and four sisters in Quebec. Funeral from the Anglesey Funeral Home, 289 Hunter Street, West (Please note new address), Saturday, June 28th, to St. Peter's Cathedral for Requiem Mass at 8 o'clock. Interment St. Peter's Cemetery.

**WOOD**, Adjt. Amy (Miss)—At Civic Hospital, on Friday, June 27, 1952, Adjt. Amy Wood, 582 Bolivar St., beloved sister of Mrs. Hart, of Bolton, England. Resting at the Kaye Funeral Home, 539 George St., for service on Monday, June 30 at 3:30 p.m. Major Harry Everett officiating. Interment Little Lake Cemetery.

### 6—In Memoriam

**LOWES**—In loving memory of a dear wife and mother, who left us so suddenly one year ago, June 29th, 1951.
It's lonesome here without you mother
And sad the weary way
For life is not the same to us
Since you were called away.
If I had all the world to give,
I'd give it, yes, and more,
To hear your voice and see your smile,
And greet you at the door.
So you who have a mother,
Cherish her with care,
You'll never know a heartache
Till you see her vacant chair.
—Ever remembered by her husband and family.

**MACE**—In loving memory of a dear wife, Hannah Victoria Mace, who departed three years ago today.
May God be as good to her
As she was to me.
—Frank Mace.

**WHETUNG**—In loving memory of Arthur Whetung, Sr., who passed away June 27, 1951.
No pen can write, no tongue can tell
Our sad and bitter loss,
But God alone has helped so well
To bear our heavy cross.
—Ever remembered by his wife and his son Joe.

**WHETUNG**—In loving memory of Arthur Whetung, who passed away June 27, 1951.
Loving and kind in all his ways,
Upright and just to the end of his days.
Sincere and kind in heart and mind
What a beautiful memory he left behind.
—Always remembered by his daughter-in-law and his grandchildren.

**WHETUNG**—In loving memory of a dear father, Arthur Whetung, who passed away June 27, 1951.
The blow was great, the shock severe,
We little thought the end was near.
It is only those who have lost can tell
The sorrow of parting without farewell.
—Sadly missed by daughter Louise.

**WHETUNG**—In loving memory of Arthur Whetung, Sr., who passed away suddenly June 27, 1951.
How little we thought when we woke that morning,
What sorrows the day would bring.
The shock was great, the blow severe,
To lose the one we loved so dear.
—Sadly missed by Arthur, Doreen and family.

## Readers' Column

(Continued from Page 19)

genuine and sincere interest in other people . . they bring tremendous zest and enthusiasm to everything they say and do."—Report by a Women's Institute member from Derbyshire in England.

If your rhubarb keeps every time keep doing it your own way without final process—but I do not recommend this for amateur cooks. As for the pineapple I always recommend processing. You must work very carefully to have success without final processing—so since you do and since you never have failures or spoilage continue that way—but amateur canners should always give pineapple final process in sealed jars.

Thanks for the face pack and moral support.

**SORO THISTLE**

The sow thistle, one of the most troublesome of Canadian farm weeds, is a leafy-temmed coarse annual.

Don't be among those who say I wish I had.

CLASSIFIED ADS BRING RESULTS

## Will Include Post Office

(Continued from Page 13)

office, 92 feet by 23 feet. A long counter with 17 wickets runs along the south part of this space which is almost as large a floor space as the dimensions of the present post office.

A continuous counter runs along the glass frontage of the building on the inside, for the convenience of the public in addressing letters and completing business.

The floor will be of terrazo tile and the ceiling 16 feet above the floor will be of plaster.

**SLIDING DOORS**

Between the foyer and the main floor of the post office, are wide glass doors, nine feet wide and 11-feet high which slide back into the wall when the post office is open and will be pulled together, locking off the interior from the section where the mail boxes are, after hours.

The main foyer will be finished in western Ontario pink granite. The post master's office suite will be in the north-west corner. Offices of the trade and commerce department will occupy the south-west corner of the ground floor and the remainder will be working space for post office employees. The floor of this area will be battleship linoleum and the ceiling acoustic tile.

A mezzanine will be across the south end of the first floor, 10 feet six inches above the floor, overlooking the working area. On the mezzanine floor, there will be a lecture room for instructing postal employees and staff training programs, a lunch room for the post office staff and other government employees in the building and also lockers and washrooms.

The second floor is horseshoe shaped. To ensure plenty of light, there are windows all along the "U" shaped interior "light court," which is 46 by 150 feet.

**CUSTOMS OFFICES**

Customs offices will occupy most of the west wing, which will also provide room for postal parcels and express storage.

Various departments, agriculture, labour, and revenue will have offices in the north wing.

The east wing of the second floor will be used for offices of the Trent Canal System.

Seventy per cent of the outside surface of the building will be of glass. The frontage of the building will be glass set in aluminum faced steel sash. All glass will be double glazed and all windows facing west wil be heat resistant. The rest of the exterior will be finished in limestone with granite trim.

A large coat of arms cut in stone will be on the north-west corner of the building and a flagpole will be on the north-east corner. At the south-west corner of the structure, a tower for the elevator will project 21 feet above the roof.

To ensure flexibility in arrangement of office furniture, the second floor will have an underfloor duct system installed for light telephone and intercommunication wiring. This will permit outlets to be located along the length of the duct every two feet, so that regardless of what the future layout of the office may be, there will be ready access to power, telephone and intercommunication facilities.

Lighting will be practically entirely fluorescent, and the latest type of fixtures will be used.

The basement will house the boiler room, the building will be coal heated by a steam convector radiation system, and will also provide storage space for equipment and the customs department.

In addition, the floor space of the basement will provide room for handling mail at Christmas when extra employees are taken on to handle the rush.

The basement will be ventilated with a fresh air supply and exhaust system and all washrooms will be ventilated with a mechanical exhaust system.

There is such a large volume of air and the ceilings are so high that the architects state there is no need for air conditioning.

There will be a paved surface at the rear 90 by 180 feet and all incoming and outgoing mail will be loaded from a concrete platform, covered by a re-inforced concrete canopy running along the rear of the building.

There will be two freight elevators, one running between the basement and the post office floor, the other to the second floor customs offices.

Louis St., running along the west of the property will be increased from its present width of 20 feet, to 44 feet and paved surface will be 35 feet wide.

## Paul Guerin

The funeral of Paul Guerin, three-weeks-old baby son of James Guerin and the former Nina Giardino, who died in St. Joseph's hospital Thursday, was held this afternoon from the Duffus funeral home.

The baby has been ill for the past three days.

Surviving besides the parents are three sisters, Joanne 9, Teresa 8, Donna 6, two brothers, James 2, and twin brother Peter, three weeks; and grandparents, Mr. and Mrs. J. Guerin and Mrs. C. Giardino, all of Peterborough.

Burial was in St. Peter's cemetery and graveside prayers were said by the Rev. Russell Conway.

## Obituary

**HERBERT DAVID HOWDEN**

Herbert David Howden 67, 459 Murray Street, died suddenly at his residence Thursday.

Mr. Howden was born in Emily Township, son of the late Gustivas Howden and Mary Gallagher and has lived in Peterborough for the past 17 years, coming here from Emily Township.

He had been retired for the past five years and for several years was a civic employee. He was a memebr of St. Paul's Presbyterian Church.

Besides has wife, the former Pearl Guthrie, he leaves one daughter Mrs. Charles Steadman (Laurine) of Peterborough, one son Mansel at home, two brothers Wilfred, Peterborough, William J., Omemee; one sister Mrs. S. Fallis, Millbrook, and three grandchildren.

The funeral will be held Saturday at 2 p.m. from the Kaye Funeral Home. The Rev. E. W. Rowland of Grace United Church will conduct the service. Burial will be in Emily Cemetery.

LOGY, LISTLESS, OUT OF LOVE WITH LIFE?

Then wake up your liver bile . . . jump out of bed rarin' to go

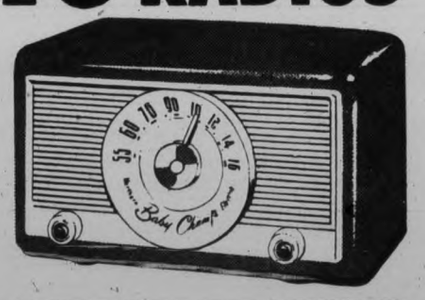
Life not worth living? It may be the liver! It's a fact! If your liver bile is not flowing freely your food may not digest . . . gas bloats up your stomach . . . you feel constipated and all the fun and sparkle go out of life. That's when you need mild, gentle Carters Little Liver Pills. You see Carters help stimulate your liver bile till once again it is pouring out at a rate of up to two pints a day into your digestive tract. This should fix you right up, make you feel that happy days are here again. So don't stay sunk, get Carters Little Liver Pills. Always have them on hand. Only 35c from any druggist.

Boys! Girls!

FREE 10 "BABY CHAMP" RADIOS

for PALMOLIVE SOAP WRAPPERS

5 RADIOS FOR BOYS!
5 RADIOS FOR GIRLS!



HOW YOU WIN! Save all the Palmolive Soap wrappers you can find at home, at your friends, neighbours, relatives. Then send them in all together, by July 31st, to:

PALMOLIVE CONTEST, THE EXAMINER, BOX 1006, PETERBOROUGH

(Be sure to mark the outside of your envelope with the number of wrappers it contains).

That's all there is to it! If you're one of the 5 boys or one of the 5 girls who send in *the most* Palmolive Soap wrappers by Thursday midnight, July 31st, 1952, you win a brand new Northern Electric "Baby Champ" Personal Radio!

So, start saving Palmolive Soap wrappers—right now! Get Mom to buy Palmolive Soap *today*. Sit down now and list all your aunts, uncles, cousins—all your relatives. Ask each of them to save Palmolive wrappers for you. Tell your friends—get them saving wrappers for you, too! Call on all your neighbours. They'll be happy to save Palmolive wrappers for you because they'll want to see you win one of these wonderful "Baby Champ" Personal Radios. To give yourself the best chance to win, start saving Palmolive Soap wrappers *right now!*

NORTHERN ELECTRIC "BABY CHAMP" RADIO

Just imagine—a personal radio *just for you!* One you can keep in your own room to hear your own favorite programs. Easily carried—take it with you when you visit friends. You'll be the envy of everyone in the gang! It even has an attachment for plugging in a record player!

YOU'LL HAVE FUN . . . collecting Palmolive Soap wrappers because almost everyone uses Palmolive. That's because Palmolive Soap, blended with gentle Beauty Oils, is pure and mild, really mild!

RULES: (1) All entries must be postmarked not later than midnight, July 31st, 1952. (2) Save your wrappers and send them in *all together*. This will save you postage. (3) Weigh your entry before mailing, since entries with insufficient postage will be disqualified. (4) Print your name and address plainly on top left-hand corner of your envelope. (5) Only complete wrappers count—half-wrappers or less cannot be accepted. (6) *Be sure to mark the outside of your envelope with the number of wrappers it contains.* (7) Contest open to all residents of Peterborough and district except employees of Colgate-Palmolive, their dealers and agents, and their families. (8) Winners announced on "The Peggy Brooks Show" and in this paper. List of winners on request.

OOF!—Bob Ranck, Cody, Wyo., heavyweight, didn't mind getting socked in the face, but the embarrassing part about it was that two of the three gloves shown here were his own. The glove supplying all the force belonged to Los Angeles' Ed Sanders. Action took place during the Olympic boxing trials at Kansas City.

## May Set Control Again On Dollar

OTTAWA (CP)—Finance Minister Abbott said yesterday in the Commons that the time may come when Canada's dollar, now finding its own level in the free market, again may be controlled and a par value established.

He told J. M. Macdonnell (PC-Toronto Greenwood), that that is the conclusion which may be drawn from a bill which among other things retains the government's right to issue gold coinage under conditions of a controlled dollar.

The measure, given final approval, consolidates legislation respecting currency, coinage and the Royal Canadian Mint. It gives the government statutory authority to change the composition of Canadian coins where necessary to save strategic minerals such as nickel. Previously the government asked Parliament to make such changes.

## Penalize Unregistered U.S. Citizens Here

OTTAWA — (CP).— The Canadian government considers United States citizens in this country will not be open to penalties if they do not answer a U.S. demand that they register for selective service, External Affairs Minister Pearson said today in the Commons.

Mr. Pearson was replying to a question asked yesterday about enforcement of a U.S. demand—announced by its embassy here Tuesday—that nationals in Canada between 18 and 25 inclusive register for the draft at consulates in this country during July. The minister said no arrangements have been made with the Canadian government for enforcing the order.

### Nature's Balance

DIDSBURY, Alta. (CP). — At a recent plowing competition here the plowmen turned up field mice by the hundreds. But as fast as the mice appeared, swarms of gulls swooped down for a feast.

## Jaycees Win National Awards

BANFF, Alta. (CP)—The Halifax and Sarnia Junior Chambers of Commerce were tops yesterday when the national chamber announced awards to winners in the 23 national contests open to all junior bodies in Canada.

Each won three awards. Halifax won for tourist promotion, leadership training and beautification in cities over 50,000 population.

Sarnia was the outstanding chamber for cities between 10,000 and 50,000 population and won the outstanding project award. It also topped the social welfare department. St. Catharines was second to Sarnia in the outstanding chamber class.

The Vancouver chamber took top honors for opportunity with Sarnia second. Winnipeg topped the traffic safety department with Niagara Falls second.

For municipal improvement the Galt-Preston-Hespeler chamber topped Niagara Falls while Hamilton led youth development and Chatham was second. Brantford topped public relations with Sarnia next.

St. Thomas headed the beautifications list for cities with population from 10,000 to 50,000 while Aurora was tops in that department for cities under 10,000.

Montreal was best in magazines for cities over 50,000 while St. Catharines topped those under 50,000. Goderich took the mimeograph award.

### Orchids For Visitors

CALGARY (CP). — Mayor James Kealoha of Hilo, Hawaii, has promised Mayor Don Mackay that there will be 150 Hawaiian orchids for women attending the annual conference of the Federation of Canadian Mayors and Municipalities opening here June 30.

### Century Mark

PICTOU, N.S. — (CP) — Mrs. Elizabeth MacTavish celebrated her 100th birthday here by having a sewing party.

## Lutheran Churchgoers Donate $1,249,283

PHILADELPHIA (CP) —Canada's 62,000 Lutherans contributed $1,249,283 to all phases of work of the United Lutheran Church in America last year, it was announced yesterday.

Rev. F. Eppling Reinartz, secretary and church statistician, said the amount represents an increase over 1950. Total contributions by all members of the church were an all-time high of $57,945,323. The church has three synods in Canada: The Canada synod headed by Rev. J. H. Reble of Kitchener, Ont.; the Western Canada synod of Rev. J. E. Bergbusch, Saskatoon, and the Nova Scotia synod of Rev. C. H. Whittaker, Bridgewater, N.S.

### After Swordfish

MIDDLE WEST PUNBICO, N.S. —(CP)—Ten vessels sailed from here for George's Banks, prolific fishing grounds for swordfish midway between Nova Scotia and New England. Each craft is about 75 tons, carrying a crew of 10.

## Leaders Survey Indo-China War

SAIGON, Indo-China—(AP).—British, United States, French and Australian military leaders today opened a three-day examination of the situation in Northern Indo-China, where French and Vietnamese troops are at war with Communist-led Vietminh rebels.

Officers attached to the French general staff have said that only massive support by U.S. air forces could save the French expeditionary forces in Tonkin from being overrun by the Chinese in case of a large-scale intervention by Chinese Communist forces on the side of the rebels.

## Senate Modifies Combines Bill

OTTAWA (CP) — A Senate committee yesterday voted to modify disputed sections of the government's proposed anti-combines legislation which provide for court injunctions against the operation of a monopoly.

The committee voted with the approval of Justice Minister Garson to insert a three-year time limit in clauses dealing with injunctions. This would set three years as the limit for obtaining an injunction against a company convicted of operating a combine and suspected of continuing the operation after conviction.

Several other amendments were made to the bill, criticized by the Canadian Chamber of Commerce, Canadian Manufacturers Association and other trade organizations. The committee voted 12 to 5 to send the bill and the committee's changes to the Senate for final Parliamentary approval. The Commons previously passed the bill.

**LARGEST SPRUCE**

The Sitka spruce of the British Columbia coast is the largest of the five species of spruce in Canada.

## Home Building Hit By Taxes

BIGWIN INN (CP) — Robert Drummond of Toronto, past president of the Canadian Construction Association, said today that two entirely opposite situations are preventing many potential home owners from building.

In an address to the annual convention of the Ontario Association of School and Business Officials, Mr. Drummond said "housing developments are being stymied in some areas."

He added that this was because municipal governments were "refusing or being reluctant" to allow permits for their construction because of difficulties in financing schools, utilities and other services."

In other areas would-be builders were faced with municipal taxes so high they placed charges of new homes out of financial reach of many families. These high taxes prevailed in places where land already had been serviced by the municipality and new schools built.

## Offer Soviet 4-Power Union Talks

### Big Three Report Agreement On Terms Of Note

LONDON (AP) — The Big Three foreign ministers today planned to complete final drafts of a note to Russia conditionally offering four power talks on uniting Germany.

Foreign Secretary Anthony Eden of Britain, State Secretary Dean Atcheson of the United States and Foreign Minister Robert Schuman of France announced last night they had agreed on the substance of a note to the Soviet Union.

They also said in a communique that they had "considered means" for ensuring close co-operation in Korea and the Far East during their two formal sessions which ended last night with a dinner given by Eden.

**MEET TODAY**

Today they meet each other separately—before Acheson leaves by air for Berlin—to hammer out further details on how best to achieve that aim.

One suggestion has been that a British deputy should be appointed to Gen. Mark Clark, U.N. commander in Korea.

The communique gave no details on the agreement to answer a qualified "yes" to repeated Soviet demands for direct four-power talks on a German settlement.

The first concern of the west, an informed source said, would be to get Russian agreement on a commission to investigate the possibility of free elections through Germany. The second step would be to settle on the status of an all-German government during the period before a final peace treaty was signed.

A series of notes between the western capitals and Moscow since the Soviet asked in March for Big-Four talks have showed wide disagreement.

The west has insisted on impartial international supervision of all-German elections. The Russians said they should be supervised only by the four occupation powers, thus giving Russia veto power.

## Rash Of Strawberry Festivals Breaks Out In County As Season For Fruits Nears Close

A rash of strawberry festivals broke out this week in rural church and community centres as astute women with an eye to making a few community dollars purchased, hulled and cleaned the tasty fruit and served it in copious quantities with coldplate suppers. Current dry weather has halted ripening of the comparatively small crop of berries and retail prices soared ten cents a box within the last week.

At Westwood's Asphodel Community Centre 250 district folk tired from haying all day came to eat, chat and dance on Friday evening. It was their third venture and committee chairman Bruce Graham hopes that the project on Friday will net the centre a tidy $100 profit.

District women under convener Mrs. Eric Pulfer and her "right-hand men" Mrs. Wilbert Graham and Mrs. Aubrey Wood, collected a contingent who spent the afternoon hulling and cleaning strawberries and preparing coldplate suppers. Guests ate in three sittings.

By 7 p.m. cars lined both sides of the hamlet, population 75, for a mile. As one shift finished eating they went back of the hall to watch an energetic ball game between the village team and Indian River. The home team won 7-5 and were treated to a free supper. The balance of the evening from 10 p.m. was spent in dancing to a local orchestra.

Early today farmer-revellers went back to the heavy task of haying, many with stiff limbs from dancing and most with indigestion.

## Report Eases Shock Of Soviet Air, Atom Estimates

*By EDWIN B. HAAKINSON*

WASHINGTON (AP)—Hints of major developments by the United States in the field of atomic energy today eased the shock of jolting new estimates of Soviet atomic and air power. Optimism stemmed from a White House visit to the country's top atomic experts. One of them, Dr. J. Robert Oppenheimer, chairman of the Atomic Energy Commission's general advisory committee, said later: "There have been such great developments in atomic energy we felt we should report on these directly to the President. We wish we could say what was in the report, but we cannot."

The grimmer side of the picture was revealed in screened testimony of Air Force and Defence Department officials before the Senate appropriations committee.

**SURPRISE ATTACK**

Urging approval of the $46,000,000,000 defence money bill, Gen. Nathan F. Twining, acting head of the air force, said Russians soon may have enough atomic bombs to launch a surprise attack "plus a reserve for succeeding tries if the first should fail."

Twining said the Russians, while boosting their atomic stockpile, also have developed a powerful long-range bomber capable of delivering atomic weapons against distant targets.

"It is of some significance that a new long-range Soviet bomber of original design was observed over Moscow last summer," he said.

The White House visit yesterday of Dr. Oppenheimer and A. E. C. chairman Gordon Dean touched off widespread speculation over what the "great developments" Dr. Oppenheimer mentioned might be.

REPORT EASES (Continued on Page 2)

## UN Troops Throw Reds Back In Three Attacks

SEOUL, Korea (AP)—United Nations infantrymen today threw back three furious assaults by Chinese Reds on the Korean western front. Allied planes for the fourth time in a week bombed and strafed hydro-electric plants serving North Korea and Manchuria.

Targets of the U.S. Fifth Air Force fighter-bombers Friday were the switchyards and power plants No. 1 and 2 at Changjin reservoir in northeastern Korea, 60 miles south of the Manchurian border.

The fighting on the western front centred on a hill called "baldy." The reinforced Chinese battalion, about 750 men, charged three times and were thrown back each time.

United Nations and Communist artillery exchanged furious barrages after the attacks.

The Eighth Army said the Reds lost 50 to 75 killed and 100 to 150 wounded in three charges Friday night and early today.

The action was another in the series of battles which began at "T-bone" Hill—a few miles to the east. Chinese casualties around T-bone were more than 3,000 during three weeks of intense fighting.

U.N. pilots reported they destroyed four Communist tanks during attacks on enemy positions. The Fifth Air Force reported it lost six planes over North Korea the last week. U.S. Sabre jet pilots shot down one Communist Mig Friday.

U.S. jet fighter-bombers Saturday pounded a Red motor pool near North Korea's eastern coast with high explosives and flaming gasoline. The Fifth Air Force reported 150 2½-ton trucks, 50 fuel drums and an automatic weapon destroyed and more than 100 Reds killed or wounded.

## Repudiate Yalta Pact: Taft

WASHINGTON (CP)—Senator Robert A. Taft of Ohio said last night the United States should repudiate the Yalta agreement to help stop the drive of Communism in the world. He also called for the end of economic aid to western Europe because he does not believe in any organized charity for other nations. Taft spoke before 5,000 persons at the University of Virginia. It was his last public appearance before he leaves Sunday for Chicago where he will carry his fight for the Republican presidential nomination at the party's national convention July 7. Taft's main opponent for the nomination, Gen. Dwight D. Eisenhower, meanwhile made ready to close his headquarters at Denver, Colo. He plans to go to Chicago July 5.

While Eisenhower packed up, the political scene shifted to the Democrats in Colorado. There, four presidential candidates for the Democratic nomination tried to woo the state's 16 national convention delegates.

State party rules prevented the state convention instructing the delegation for any candidate. But the four candidates—Senators Richard B. Russell, Robert Kerr, Estes Kefauver and Mutual Security Administrator Averell Harriman—still hoped to pick up individual delegates.

The latest Associated Press tally—based on delegates pledged, conceded, instructed or willing to state a choice—shows Kefauver of Tennessee out in front with 251½, Russell of Georgia with 135½, Harriman 99½ and Governor Adlai Stevenson of Illinois 54. Nomination requires 616 of 1,230 votes.

On the Republican side a revised AP tally shows Taft still leading Eisenhower 482 to 404. For nomination 604 out of 1,206 delegates is needed.

In his major speech on foreign policy, Taft said:

"The first step we must take is to repudiate the agreements we made at Yalta. The Russians haven't kept them. We should formulate a resolution stating that these pacts are no longer binding."

**RUSS GIVEN CONCESSIONS**

The Yalta agreement was signed in February, 1945 by the late President Franklin D. Roosevelt and Prime Ministers Churchill and Stalin. Russia was given many concessions to enter the war against Japan including the restoration of rights in Manchuria and cession of the Kurile Islands. She was awarded $10,000,000,000 reparations from Germany.

Taft also advocated a policy of "infiltration and propaganda," directed at the satellite Communist nations, should be undertaken immediately by the U.S.

As for foreign aid, he said:

"I believe we have come to the point where there is no longer any justification for economic aid to western Europe."

Earlier, Taft predicted to reporters the Democrats may draft President Truman to run again as "the only strong" figure in the party's bid for a return to the White House. Truman has said he definitely will not run again and will not accept the draft.

## Garson Tables Rebuttal To Dr. Endicott

OTTAWA (CP)—Justice Minister Garson tabled in the Commons last night a scientific report that he called a "convincing rebuttal" to charges of left-wing Dr. James Endicott that the United States has engaged in bacteriological warfare in the Korean War.

The report, by three Ontario and Quebec scientists, said Dr. Endicott—head of the Canadian Peace Congress—has shown an "almost unbelievable credulity" in accepting reports from Communist areas and has drawn conclusions contrary to those a trained biologist would reach.

It said "none of the evidence submitted" on behalf of the claim of bacteriological warfare can be accepted as scientific proof.

The report was produced voluntarily, Mr. Garson said, by Dr. W. W. Brittain, vice-principal of McGill University's Macdonald College; Dr. A. W. Baker, head of the department of entomology and zoology at the University of Western Ontario, London, and Dr. C. E. Atwood, professor of zoology at the University of Toronto.

In tabling the 2,500-word report on the scientists, Mr. Garson renewed his statement of three days ago that the charges of Dr. Endicott are "libellous and false."

At that time, Mr. Garson announced that the government does not intend to prosecute Dr. Endicott, for the present at least, because it does not want to lend him an air of martyrdom.

Looking into speeches of the Toronto clergyman and literature distributed by his Congress, the report said much of Dr. Endicott's alleged information came from "honest old farmers" and "bright-eyed children" in Communist territory.

The report said that in Korea and northeast China—where Communists allege the United Nations have used germ warfare through insects—there are more than 50,000 species of insects. Statements by farmers or children that new ones have appeared meant nothing, since even an entomologist could know only a fraction of them.

In a Peiping radio broadcast April 12, Dr. Endicott was quoted as saying he had seen "germ-laden insects" and caught some himself.

"It is obvious," the scientists said, "that he could not know the insects which he caught nor decide whether or not they were 'germ-laden.'. . ."

## Steel Workers Sign Contract With One Firm

PITTSBURGH (AP)—The United Steelworkers Union (C. I. O.) has signed an interim agreement which provides a 12½-cent hourly hike for 10,500 employees of Pittsburgh Steel Company—a basic producer.

The agreement, retroactive to April 1 was negotiated yesterday by Philip Murray, president of the Steelworkers. It provides a modified union shop and otherwise substantially follows recommendations made weeks ago by the Wage Stabilization Board in an effort to avoid a strike which now is in the 26th day.

One of Murray's associates said the agreement "is an important break in the solid front put up by the basic steel industry."

**SIGN AGREEMENTS**

Although no negotiations are planned with U. S. Steel or other companies making up the industry's "Big Six," one of Murray's associates said he expected "more companies to fall in line soon." He said approximately 48,000 of the 650,000 men who went on strike June 2 now have been covered in interim agreements which have been signed since the strike began. Most of these are in smaller companies.

Companies which have signed up include Detroit Steel Corporation and Kaiser Steel Company. A few days ago 12 companies in the Pittsburgh area, employing 9,000, signed pacts which followed the general pattern of the W. S. B. recommendations.

The W. S. B. recommended a union shop whereby all steel workers must belong to Murray's union. Pittsburgh Steel's contract calls for a modified shop. New employees must join the union but can withdraw between his 20th and 30th day of work.

A Pittsburgh Steel spokesman said 99¾ per cent of his company's eligible employees already belong to the union "and therefore it was decided no practical purpose could be achieved by continuing the strike on the union shop issue."

Steelworkers now average around $1.95 an hour.

The total of unemployment resulting from the strike continued to mount. In addition to the estimated 602,000 steelworkers remaining idle, another 208,048 workers in allied industries either are laid off or will be sent home in the next few days.

## Korean Police Free Assembly

PUSAN, Korea (AP)—National police tonight liberated 80 Korean National Assemblymen from their meeting hall where they had been imprisoned for 5¼ hours by a howling mob.

The 600 demonstrators outside the hall demanded the Assembly bow to President Syngman Rhee's demands or dissolve itself.

The police—under direct command of the home minister—formed double ranks to hold back the jeering crowd and permit the legislators to leave. One member was a woman.

Home Minister Lee Bum Suk, Rhee's toughest supporter in the Cabinet, twice urged the pro-Rhee crowd to calm down. Then he ordered his police into action.

The crowd of shouting men and women had blocked all exits from the building. Foreign observers and both foreign and Korean newsmen were permitted to enter and leave the hall during the incident.

Assemblymen who tried to leave were thrown back bodily. One's shirt was ripped. Another was kicked.

## Ottawa Orders Writer's Arrest

OTTAWA (CP) — Arrest of a prominent Canadian writer has been ordered by the Justice Department, it was learned yesterday.

High informants said the Montreal man is known to have consorted with Russians in this country but added that the charge does not involve espionage or the giving of secret information to another power.

While its nature was not disclosed, it was described authoritatively as a "technical" charge. It carries a heavy penalty.

## Vote 10-Month Extension Of US Wage, Price Controls

WASHINGTON (AP)—A 10-month extension of wage-price controls in the United States, due to expire Monday, was voted by a Senate-House of Representatives conference committee early today. Senate-House conferences met yesterday, last night and into today's pre-dawn hours. All in all, the result were seen as a victory for the Truman administration.

The committee abandoned a House provision which would have snipped controls from commodities not rationed or allocated. Nothing is rationed now. Only a few scarce metals are allocated.

An administration setback however, was the committee's decision to retain a provision which would exempt processed fruits and vegetables from price control.

The compromise bill would all but scrap credit controls and would end rental curbs Sept. 30 except where localities vote to continue them until April 30, 1953. Real estate credit checks would also end.

The conference committee adopted a senate-passed statement of policy. This favors ending wage-price checks within the controls law "as rapidly as possible." In the meantime, it says, ceilings should be lifted wherever wage and price pressures ease.

Some of the other provisions in the compromise bill would:

Relax import bans on fats and oils, including milk and dairy products. Allow loans to manufacturers of newsprint.

## U.S. Death Toll 100 From Heat, Humidity

CHICAGO (AP)—The death toll from the one-two punch of heat and humidity in the eastern half of the United States mounted to far above 100 in the last three days.

New Jersey alone today reported 53 persons had died from effects of the steady siege of 100-degree temperatures. The total through the torrid zone was 122 deaths.

More of the blistering crop-threatening weather of the last several days appeared in prospect for the southern half of the country. There was a measure of relief in some northern areas but it might not be for long.

## S. Africa Jails 106 Non-Whites

JOHANNESBURG, South Africa (Reuters)—Fifty-four non-whites appeared in court today charged with violating the Riotous Assemblies Act by conspiring to commit public violence.

No evidence was given and the men were remanded until July 11.

The hearing followed their arrest Thursday night for defying the curfew law which forbids Africans remaining in streets outside their prescribed residential areas on the outskirts of towns after 11 p. m. without a special permit.

At the same time 52 Indians, persons of mixed race and Africans appeared at Boksburg magistrate's court on an allegation of conspiring to commit public violence. They were remanded until July 11.

This followed their arrest at Stirtonville location outside Boksburg—a town about 14 miles from Johannesburg—for entering the location without the necessary permits.

The non-whites have arranged violation of the segregation laws as a protest against the government policy of white supremacy.

## Suggest House Have 265 Seats On Census Basis

OTTAWA (CP)—A special committee has concluded a reallocation of seats in the Commons on the basis of the 1951 census.

The all-party committee—it finished work yesterday—recommended that over-all membership in the chamber be increased to 265 from 262 and that changes be made in the boundaries of many federal constituencies.

The recommendations are subject to approval by the Commons and the Senate. The changes will take effect with the next election.

**DIVISION OF SEATS**

This is how the seats in the Commons will be divided in the next parliament, with the existing division in brackets:

Newfoundland seven (seven); Prince Edward Island four (four); Nova Scotia 12 (13); New Brunswick 10 (10); Quebec 75 (73); Ontario 85 (83); Manitoba 14 (16); Saskatchewan 17 (20); Alberta 17 (17); British Columbia 22 (18); Yukon-Mackenzie River two (one); total 265 (262).

SUGGEST HOUSE (Continued on Page 2)

## Truce Teams Exchange Notes On POW Issue

MUNSAN, Korea (AP)—United Nations and Communist truce negotiators today exchanged notes through liaison officers. The Reds accused the U.N. of deliberately prolonging the war and the U.N. asked the Communists to verify location of four Red prisoner camps.

The Communists protested the three-day recess in armistice talks called by Maj.-Gen. William K. Harrison yesterday to give the Reds an opportunity to reconsider their stand in the deadlocked truce negotiations.

## P.C.V.S. Results

June promotion results of Grade XI academic of the Peterborough Collegiate and Vocational School are found today on Page 14.

*Unsolved Mystery*

## Annual Sockeye Salmon Run Starts In B.C.

VANCOUVER (CP)—Man has never solved the mystery of the salmon but he began gathering by the thousands today to reap the annual fortune from the humble and heroic creature.

Seeking death at their appointed time in the streams where they were spawned four years ago, the salmon converged in their millions at the mouth of the Fraser River and began their struggle through the dark canyons of the torrent to the place of their birth.

Millions would never make it. If they evaded the nets of thousands of boats swarming at the river's mouth, they still would have to traverse Hell's Gate and the hundreds of miles of white water of the Fraser, Thompson and North Thompson rivers.

Four years ago they were hatched in tiny tributaries far inland. For two years they lived in fresh water, then descended to the sea. For another two years they roamed through countless miles of the Pacific.

Now they are back, seeking the streams where they were born. Unerringly, the salmon returns home, spawns and dies in the same month almost on the same day, as its ancestors through countless aeons.

Man has never been able to discover the salmon's secret of return. But because the salmon is more faithful than the clock, he has gained riches. Fishermen caught $60,800,000 worth of salmon in British Columbia last year, $48,700,000 the year before.

The season opens Monday on the Fraser for the prince of salmon, the sockeye. (Sockeye is an English version of the Indian word "sau-qui" but original meaning of the Indian word has been lost).

A fleet of 2,000 boats is congregating like seagulls at the river's mouth and in the Georgia Strait approaches to it. It will increase to 5,000 as the season progresses. With luck, some fishermen will clean up between $2,000 and $3,000 in six weeks, getting 25 cents a pound from the canners.

*AT ASPHODEL COMMUNITY CENTRE, Westwood, 250 people ate their fill of strawberries and coldplate suppers in three sitting shifts. The estimated $100 profit from the festival will go towards improvement of the red brick building and surrounding grounds. Cars lined either side of the hamlet street for a mile on both sides while eaters waited, ate and chatted. Due to haying season the largest numbers came late.—(Examiner Staff Photo)*

# Grave Situation Faces Nation St. Laurent Warns

OTTAWA (CP)—Prime Minister St. Laurent said yesterday the international situation has reached a point where "it is possible that momentous decisions may have to be taken at an early date." He made the statement in the Commons before announcing that the next session of Parliament will open Nov. 20. His announcement was interpreted by political observers as meaning there will be no federal election before the fall of 1953.

Mr. St. Laurent asked that the current session be adjourned rather than prorogued, because international developments might make it necessary for Parliament to meet before Nov. 20.

George Drew, Progressive Conservative leader, at first opposed the request for an adjournment rather than prorogation. Later, he withdrew his objection when Mr. St Laurent made it clear that no special fall session is planned.

The session starting in November will be the regular one for 1953. An effort will be made to conclude the work by late April or early May so members can attend the coronation of Queen Elizabeth June 2.

Mr. St. Laurent said:

"I should not like the public to get the impression from the fact that there is to be an adjournment, that Members of Parliament consider the situation to be graver than it really is.

"I think the public will understand that there have been some important developments in quite recent days and that there might be other important developments of such a character as to warrant early consideration by Parliament.

". . .The Korean War has been going on for two years, and negotiations for an armistice have been going on for one year. Recently there have been quite substantial changes in the attitude of those who are engaged in the negotiations. If they are brought to a successful conclusion and result in an armistice, then I think all of us will be very happy at that result.

"But if they do not—and they do not look as though they were going on much longer with tangible results—that might bring about an activation in other forms, and might require to be dealt with by Parliament."

## Municipal Board Hearing Date Set

Three matters will come before the Municipal Board hearing scheduled for Thursday, July 10, at the city hall.

First, the board will deal with the city hall debentures, covering the amount by which the costs of erecting the building exceeded the amount set aside by the Morrow estate for the purpose.

Then, opposition to the paving of Romaine Street and Monaghan Road South will be heard.

In the afternoon, the board will decide on the assessment appeal of Strikes Ltd., a George Street bowling alley.

This matter first came before the Court of Revision, then was heard by Judge J. A. McGibbon of Lindsay, and now will be settled by the Municipal Board.

## Mystery Star To Appear In Play

Mystery is hanging over the Peterborough Summer Theatre.

A mysterious personage has arrived in the city to play the title role of Ben Levy's, Clutterbuck, next week at the theatre. Manager Michael Sadlier will issue no description of his new star and there is no clue except that the new star arrived at Malton airport Wednesday from New York.

The mystery star will be supporting next week's play by [illegible], Peter News, Bea[illegible]ington, and Barbara Hamilton with Kate Reid as Melissa Clutterbuck.

## Cheese, Produce And Livestock

WINNIPEG GRAIN

WINNIPEG (CP) — Closing prices of coarse grain futures moved narrowly Friday on the Winnipeg Grain Exchange with offerings in line with demand.

Trading was dull except in barley where buying was more aggressive. Prices of Class 2 wheat were down 1⅛ cent. Prices for I.W.A. wheat were down one-eighth cent.

## Will Start Changing Heating At Library

After hearing E. M. Turner, manager of W. R. Turner Co., outline some proposed adjustments for the Public Library heating system, the property committee of Council authorized Mr. Turner to complete the heating alterations in accordance with his original contract.

The committee also authorized the company to make some necessary alterations in the Fire Hall heating system.

## Right Up To Date

KENILWORTH, England (CP)—Britain's first motel on the North American style has been opened in this historic Warwickshire region. Built at a cost of 120,000 pounds to capture overseas tourist trade, it has everything from iced water on tap to breakfast in bed.

## Suggest House

Continued from Page 1

Saskatchewan originally was scheduled to lose five seats, but provision was made to limit the loss to three.

The present Commons standing: Liberals 183; Progressive Conservative 49; C.C.F. 13; Social Credit 10; Independent four; Independent Liberal two; vacant one; total 262.

The large Liberal majority is expected to back the recommendations of the committee.

Starting with the east, the committee recommended only minor adjustments in the boundaries of some Newfoundland constituencies and no changes in New Brunswick or Prince Edward Island.

In Ontario, six new seats will be added. Two of them result from increase in population and four from the amalgamation of small constituencies. Three of the new seats will be in the heavily-populated York area around Toronto. They will be known as York Centre, York Humber and York Scarborough.

Manitoba will lose two seats—Souris, represented by J. A. Ross, a Progressive Conservative, and Selkirk, represented by William Bryce, C.C.F.

OTHER CHANGES

Saskatchewan will lose three seats—Moose Jaw, Swift Current and Melfort.

Although Alberta neither gains nor loses in the redistribution, several changes will be made.

British Columbia will gain four seats. One will be in Vancouver, another on Vancouver Island north of Victoria, a third on the outskirts of New Westminster where the constituency of Burnaby-Richmond will be split in two. The fourth will be in the Okanagan Valley.

At present the vast area of the Yukon and Northwest Territories is represented by one member—J.A. Simmons, a Liberal. In the next Parliament the area will have two members, one representing the Yukon and the other the Northwest Territories.

**Your Kin-Keno Number for Today**

REDS RIOT IN JAPAN — A Communist demonstrator holds a Japanese policeman's leg as he resists efforts to take him to jail during a mob attack on the U.S. Security Forces housing area in Osaka, Japan. The attack was part of Red riots marking the second anniversary of the Korean war. Early rioting, in which the Communists used fire and acid bombs, saw 30 police injured in a battle with more than 1,000 demonstrators.

## New Zealand Celebrates Century Of Self-Government

WELLINGTON, N.Z. (Reuters)—New Zealand, whose 2,000,000 inhabitants are famous for living longer than any other people in the world, reaches the respectable age of 100 Monday as a self-governing nation of the British Commonwealth.

The 1,000-mile long, boot-shaped country has in a century achieved important rank as an outpost of western civilization in the south-west Pacific.

It was on June 30, 1852, just a couple of decades after Britain had set up a sort of sovereignty over lawless whaling settlements, that the British Parliament passed an act giving New Zealand representative government.

GUIDED BY BRITAIN

"In much the same way as a parent brings up a child," Prime Minister Sidney Holland said today, "our country has been assisted throughout its development by the guidance of Britain until we have reached full stature as an independent nation."

Britons poured into the country in the mid-19th century, at first to raise food for whalers and later to establish a substantial agricultural economy in their own right.

Wars broke out in the 1850s between the white settlers and the Maoris, whose chieftains saw their land and power slipping away from them. The Maoris now number about 120,000 of the population.

New Zealand became a Dominion in the Commonwealth in 1907. In both world wars it has joined with the other Dominions on the side of the mother country. And now this country shares economic problems with Britain.

One important New Zealand policy is to encourage immigration from Britain, both to relieve population pressure there and to build up this country's manpower.

This is a primarily agricultural country, despite the fact that about half its workers are employed in industry.

The world championship for life expectancy—latest available figures give more than 65 years for men and over 68 for women—is credited by some to the sunny climate and the placid agricultural pace.

## District School Reports

ROSENEATH JUNIOR ROOM

(In order of standing.)

To Grade V—Sharron Noonan (hon.), Martin Carew (hon.), Carman Down, Kenneth Webb, Marie Robins, Delores Smith, Bill Roberts.

To Grade IV—Eva Gallagher (hon.), Eddie Coyle, Larry Robins, Roberta Brown.

To Grade III—June Gallagher (hon.), Gordon Derry (hon.), Sandra Smith.

To Grade II—Ronald Timlin (hon.), Maurice Foreman, Bonnie Duff, Lanny Murphy, Elaine Smith.

Mrs. Louis King, teacher.

Kindergarten—Primary to Grade I —Peter Byer A, Georgina Cleveland A, Danny Drummond C, Carol Jennigs A.

(Mrs.) Mary M. Small, teacher.

## C.C.F.-er Says Legion Chain Of Beer Parlors

TORONTO (CP)—W. H. Temple, former C.C.F. member of the Ontario legislature for Toronto High Park, said yesterday the Canadian Legion is becoming "a chain of beer parlors."

Mr. Temple was one of 25 persons who appeared before the Ontario Liquor Licence Board to oppose a Legion application for a beer licence for its branch in suburban Swansea. The application was dismissed because the branch had not given sufficient notice.

T. A. H. Hulse, provincial president of the Legion, said later that of 537 branches in Ontario, only 150 have beer licences.

FALLS FROM HORSE

Harold Smith, 17, of R. R. 8 Peterborough, received a cut on the head and a severe shaking up when he fell from his horse while riding along the River Road on Friday evening. A cinch strap (that holds the saddle in place) slipped and Smith fell heavily to the ground. The accident occurred half a mile north of the Peterborough golf course. Smith was taken downtown by a passing motorist to have his cut stitched up by a doctor.

## Quebec Textile Workers To Vote

MONTREAL (CP)—Some 6,000 employees of the Dominion Textile company will vote early next week on a plan to settle a wage strike which has affected company plants here and in Valleyfield, Que., since April 2.

Roger Provost, Quebec director of the United Textile Workers of America (T.L.C.-A.F.L.) announced last night that company officers and the union's negotiation committee had arrived at a basis of settlement which would be put to the membership for approval in a secret ballot.

Early in the strike, some violence broke out, and damage was caused to company plants, particularly in Valleyfield, where windows were broken.

Some 10 weeks after the strike started, the entire Canadian executive of the union was dismissed by international officers "for irresponsible handling of the strike."

Ranking leaders among those fired were R. Kent Rowley, Canadian director, and Madeleine Parent, secretary treasurer. Sam Baron former Canadian director of the rival Textile Workers Union of America, was made Canadian director of the rival Textile Workers union of America, was made Canadian director to replace Rowley, and Roger Provost, president of the Quebec Federation of Labor, became Quebec director and took over the direction of the strike.

## Alderville School Holds Picnic

ROSENEATH (ENS) —The annual school picnic for the pupils of Alderville school and their parents, was arranged by their teacher, John D. Loukes and held on Friday at Sandercock's picnic ground, Sandercock's Point, on the south shore of Rice lake.

Dinner was served at 12:30 o'clock and a program of sports followed. The prize winners were as follows:

5 yard dash, 8 and under—1 Sandra Martin, 2 Dianne Simpson, 3 Joan Loukes.

50 yard dash, girls 12 and under—1 Marlene Beaver, 2 Reta Marsden, 3 Dolores Crowe.

50 yard dash, boys 12 and under—1 Francis Beaver, 2 Glen Marsden, 3 Merrill Crowe.

Open foot race—1 Larry Crowe, 2 Jim Marsden, 3 Glen Marsden.

Sack race for Sr. pupils—1 Muriel Beaver, 2 Marlene Beaver, 3 Glen Marsden.

Sack race for Jr. pupils— 1 Sandra Martin, 2 Karen Simpson, 3 Dolores Crowe.

Wheelbarrow race for grades 6, 7 and 8—1 Terry Bigwin and Larry Crowe, 2 Billie Smoke and Jim Marsden.

Wheelbarrow race for juniors —1 Karen Simpson, 2 Dolores Crowe, 3 Irvine Smoke.

Three-legged race for Sr. pupils—1 Jim Marsden and Francis Beaver.

Three-legged race for Jr. pupils—1 Irvine Smoke and Merrill Crowe, 2 Karen Simpson and Marlene Beaver.

Boot and shoe race, Sr. pupils —1 Marlene Beaver, 2 Terry Bigwin, 3 Reta Marsden.

Boot and shoe race, Jr. pupils—1 Karen Simpson, 2 Sandra Martin, 3 Dolores Crowe.

Shoe kicking, Sr. pupils— 1 Terry Bigwin.

Shoe kicking, Jr. pupils— 1 Karen Simpson, 2 Joan Loukes, 3 Dianne Simpson.

MORE ABOUT—

## Report Eases

Continued from Page 1

Some believed they could mean success in the search for the hydrogen "hell bomb," under way since Jan. 31, 1950. Others said it might be good news about work on the new atomic submarine and atomic plane, or on progress in the field of atomic artillery.

Some said it might have something to do with harnessing atomic energy for peacetime purposes.

H-BOMB TEXT

Major speculation centred around the H-bomb. There has been unofficial talk the first one might be tried out this fall in Eniwetok tests.

Senator Brien McMahon (Dem.-Conn.), a congressional authority in the atomic field, hinted strongly June 14 that the H-bomb may have been perfected.

Despite the report by air force and defence leaders that a third world war may be brief but terrible, due to Russian atomic and air progress, the House of Representatives refused to go along with President Truman's request for $3,191,000,000 in new atomic funds.

It voted instead $1,485,000,000 to begin a large-scale expansion of atomic energy facilities.

PREDICT SHORT WAR

The grim report by Twining and Air Force Secretary Finletter to senators included these highlights:

Expert opinion is that another all-out war, with atomic weapons, would be decided in a few short weeks or months—not years.

Intelligence reports indicate Russia now has at least twice as many first-rate combat aircraft organized in units as the United States. The figures: about 20,000 Russian aircraft in 250 wings; Russia has a 20,000-plane reserve, compared with almost none for the U.S.

BOYS ENTERED

Jack Boorman, Wilton Tranter, Scott Pearton and Terry Nortnrop, members of the Y.M.C.A. swimming team competed in the junior Canadian swimming championships in Toronto Friday. The boys trailed Vancouver, Montreal, London in the 400-yard free style relay. In the back stroke event for juniors the swimmers were eliminated in the trials as championship records were broken.

PRALINE, one of Paris' most famous fashion mannequins, died Wednesday in a hospital near the French capital from injuries received in an automobile accident. A tall, slender, 29-year-old blonde, she was Mme. Janine Maynier in private life.

## Forage Day Held Near Ingersoll

INGERSOLL (CP)—The first "Forage Day" in Ontario—termed "a hay day for farmers" was held Friday on farm of P. M. Dewan, former Ontario minister of agriculture, two miles south of here.

The event, sponsored by the Oxford Crop Improvement Association centred around demonstrations of barn drying of hay. Other features were demonstrations of hay harvesting machinery at work, cutting, baling and raking hay, and harvesting and stacking of grass silage.

A panel discussion on "Why mow curing?" was led by F. E. Ellis, Woodstock, president of the Oxford Federation of Agriculture. Members of the panel included Prof. C. E. Downing, Dr. R. Weir and Prof. O. Kennedy, all of the Ontario Agricultural College, Guelph; Bruce Mehlenbacher, Cayuga, and Douglas Hart, Woodstock, past presidents of the Oxford Crop Improvement Association.

More than 6,000 farmers from Oxford county and elsewhere in western Ontario attended.

## Morganston W.A. Holds Meeting

WARKWORTH — (ENS The regular monthly meeting of the Morganston Women's Association of the United Church was held on Thursday afternoon at the home of Mrs. Borden Carr.

Mrs. H. George, the President was in charge of the meeting, Mrs. Claude Puffer gave the Scripture Reading and the Lesson Thoughts was taken by Mrs. Carman Bray; Mrs. H. George led in prayer and the address was given by Mrs. Ewart Huycke.

Plans were arranged for the Strawberry Festival. Mrs. C. Herrington and Mrs. Robert Robson were appointed as the committee to look after getting the berries.

It was decided to ask Miss Myrtle Hardy A.T.C.M. to furnish music during the supper hour.

It was moved by Mrs. B. Fitchett that the W.A. apply to cater for the Hoard's Station Community Auction Sale for some Monday night.

Mrs. Gerald Philip offered to entertain the W.A. for the July veners will be Mrs. Claude Puffer and Mrs. Charles Puffer and the lunch committee will be Mrs. C Bray. Mrs. Beggs, Mrs. C. Bradley and Miss Beatrice Bird.

Mrs. Don Massey and Mrs. Percy Moore were in charge of the following program

Hymn No. 181; Reading by Mrs. Claude Puffer; vocal solo by Miss Eunice Turney and readings by Mrs. Jack Carr and Miss Beatrice Bird; A sing-song and readings by Mrs. C. Bray, and Mrs. Gerald Philp and a contest was presented by Mrs. Harold Carr.

SUMMER LOOK — Wearing dark glasses, President Truman addressed at National Y.M.C.A. assembly beneath a brilliant sun in the White House garden. Earlier, he cancelled his afternoon press conference when the Weather Bureau predicted record 98 degree temperatures.

## W.I. President 6 Years Honored By Friends

WARKWORTH. — (ENS). — The monthly meeting of the White School Branch of the W.I. was held on Wednesday at the home of Mrs. Don Cooke. Mrs. Edward Huycke, first vice-president, opened the meeting.

It was decided to continue with the Sunshine Sister Club, one gift to be sent during the year the price limit to be $1.

Mrs. M. Skinkle gave a report of the district annual meeting.

All the members reported an enjoyable event when they visited the Seymour East W.I. at Menie on June 12.

Mrs. O. Finlay, who had presided for six years as president of the W.I. Branch, was presented with a pair of crystal salt and pepper shakers in appreciation of her work.

Mrs. Edward Huycke was the winner of the lucky draw ticket for the quilt "Grandmother's Fan" drawn by Mrs. Lorne Evans.

Mrs. Glenn Peterson was convener for the following program: eRading, "The Snoring Husband" by Mrs. George Grills; reading, "Twelve Easy Ways to Worry and Be Happy" by Mrs. Martin Peterson. A contest was presented by Mrs. Blair Hucke, with Mrs. M. Skinkle being the winner.

Lunch was served b the hostess and the lunch conveners, Mrs. J. Thomas, Mrs. John Pelletier, and Mrs. Edward Huycke.

vote of thanks to the hostess was moved by Mrs. Clifford Skinkle.

The July meeting will be in the form of a picnic at Mrs. John Pelletier's home, when each one brings lunch.

Official forecasts issued by the Dominion public weather office at 9:30 a.m. today:

Synopsis:

An area of showers and thundershowers over the Mississippi river valley is moving northeastward and will reach the Lake Superior and northern Lake Huron areas by early Sunday. Behind the rain area hot humid air is flowing in but only the Windsor area is expected to swelter in 90-degree heat Sunday.

Temperatures during the night reached the low 60s in southern Ontario and the mid 40s in northern sections and should be five to 10 degrees higher tonight.

Regional forecasts valid until midnight Sunday:

Lake Huron, Niagara, Lake Ontario and Haliburton regions: London, Toronto and Hamilton: Sunny with a few cloudy intervals today and Sunday. Very warm and humid Sunday. Winds southeast 15. Low tonight and high Sunday at London 65 and 90, Wingham, Toronto, St. Catharines and Hamilton 65 and 85, Trenton 65 and 80, Killaloe 55 and 80.

STRAWBERRY FESTIVAL

Eleven members of Moore Preceptory, Knights Templar visited Palestine Preceptory in Port Hope on Friday night and enjoyed the annual strawberry festival. Representatives from preceptories in Belleville, Oshawa, Barrie, Owen Sound and Toronto were also present. Peterborough's delegation was headed by F. G. Mann, deputy grand master, Dr. H. M. Yelland, provincial grand prior and Percy Windrim, preceptor of Moore Preceptory.

**12th JULY CELEBRATION**

**A monster Orange celebration will be held in Kingston, July 12th. Programme, Horse Races, Speeches, Sports and Prizes. Parade starts at 1.00 p.m. from Cricket Field to Community Centre.**

## St. Paul's WMS Holds Birthday Meeting

WARWORTH (ENS) — The regular monthly meeting of the Women's Missionary Society of St. Paul's United Church was held at the parsonage, the home of the president, Mrs. H. G. Lester. While the ladies were gathering; Mrs. C. W. Massey entertained with quiet music.

Mrs. Martin Peterson was convener for the devotional period. Mrs. Lorne Evans read the scripture and explained the passage taken from The Acts of the Apostles, Chapter 3. Mrs. Bert West sang the solo "Pass It On" and she was accompanied by Mrs. M. Peterson on the piano.

This was a special birthday meeting and the guest speaker was Mrs. Ireland the Presbytery president.

Mrs. Lester, the president, conducted the business meeting.

Mrs. J. A. Greenly read a letter of thanks for the special bale sent to the Indian Residental School and Mrs. Lester reported that six other bales were packed and sent.

A card of thanks from Mrs. F. Bowen was read by Mrs. Harry Kelly.

Notice was given of the annual sectional rally to be held at Carmen Church and a cordial invitation was given by Mrs. Ireland, the visiting representative.

Mrs. Grant Allen proposed a lawn party and tea, July 3, and Mrs. C. W. Massey offered her lawn for the occasion. The tea to be served from 3 to 5 p.m. and Mrs. Lester and Mrs. Massey to be hostesses and Mrs. G. Allen to be convener.

Mrs. Allan Buchanan gave the treasurer's report.

Mrs. Lester moved a vote of thanks to the guest speaker and also to Mrs. Oscar Laver for the birthday cake and to all who helped to make the evening a success.

## BC Town Raises $6000 To Enter Band Festival

WATERLOO (CP)—Kamloops, a British Columbia town of 8,400, raised $6,000 to send its high school band to today's Waterloo band festival.

The 47 boys and girls and bandmaster A. Nelson McMurdo arrived yesterday. They cooked their own meals and cleaned their two railway coaches during the cross-country journey.

Some 300 entries have been received for the brass and reed contests and more than 550 entrants in accordion competitions. Approximately 40 bands are entered.

POETIC NAME

The Cocagne River in New Brunswick was so named before 1672 from the French word Cocagne equivalent of "Utopia."

# U.S. Purchased $185,800,000 In Defence Goods

OTTAWA (CP) — A "master agreement" with the United States resulted in the purchase by American fighting forces of $185,800,000 worth of Canadian defence supplies in the last fiscal year, the Canadian Commercial Corporation disclosed yesterday.

The government purchasing and sales agency, in its annual report tabled in the Commons, said these shipments were largely due to a drive "toward integration of the common defence efforts of the two countries."

"Included in this effort was the negotiation of a master agreement with those (U.S.) departments covering policies and procedures designed to increase their use of Canadian manufacturing facilities and providing for the utilization by the U.S. military departments of the audit facilities of the Canadian government. . ."

These sales of $185,800,000 worth of military goods to the U.S. formed part of $206,500,000 worth of exports the corporation made to some 25 countries and United Nations relief agencies.

Imports made by the corporation on behalf of Canadian government totalled $33,500,000 during the fiscal year ended March 31 last. Included was 8,700,000 pounds of wool, costing $26,500,000, to provide clothing and equipment for Canada's armed forces.

TO JAPAN — These five Canadian women sail shortly for Japan as reinforcements for the Canadian Red Cross Welfare team already serving with Canada's armed forces in the Far East. They will work in the Canadian leave centre in Tokyo, in the hospital at Kure and in the recreational and handicraft centre at Hiro. Left to right: Louise Guerin, Hull, Que.; Annie Black, Vancouver; Flora Baptist, Three Rivers, Que.; Betty Wamsley, Windsor, and Mildred Herman, Swan River, Man.

## Weatherman Says Summers Are Hotter

TORONTO (CP)—W. E. Turnbull chief forecaster at the weather office at Malton near Toronto, said today summers in the northern hemisphere are becoming hotter every year.

"It's most likely atmospheric changes at a high level are responsible," he said. "But there are other theories. One is that the earth has changed its direction slightly and another is that there is more carbon dioxide in the air due to the industrial development over the last 50 years. As carbon dioxide absorbs more of the sun's heat, it could raise the temperature."

**CO-OP FARMS**

More than half the agricultural land in Communist-governed Bulgaria is in 2,672 co-operative farms.

## Farouk's New Title Proves Him Prophet's Descendant

BY HAIG NICHOLSON

CAIRO, Egypt, — (Reuters) — King Farouk is a man of many titles but his latest one: El Sayed, makes him a member of his country's elite. It means he is a proven descendant of Mohammed.

Right to use the title folows a study of his genealogy by the Union of Ashrafs descendants of the prophet Mohammed which established that he is a descendant of the prophet through his mother, ex-Queen Nazli.

Farouk was informed of the Ashraf's decision by El Sayed Mohammed El Biblawy, Nakib head el Ashraf, who was received in audience at the Koubbeh palace, the royal home in Cairo.

**RESULTS OF RESEARCH**

The Ashraf's decision is that result of research which began in Istanbul in 1929 when the late King Faud, Farouk's father, sent El Sayed Mohammerd el Biblawy there to fetch some rare books for his library.

While in Istanbul, El Sayed Mohammed el Biblawy made researches into the ancestry of prominent Egyption families, among them that of El Sayed Mohammed Sherif Pasha.

He discovered a decree by the Sultan nominating El Sayed Abmed Said, father of Sherif Pasha, to the post of judge in Mecca with a salary of 16,000 ardebs (an ardeb is 5½ bushels of wheat).

During one of his visits to Cairo about 150 years ago, Ahmed Said met Mohammed Aly Pasha, later Khedive and founder of modern Egypt. Ahmed Said was accompanied by his son Sherif. Mahammed Aly was impressed by the boy's intelligence and asked Ahmed Said to allow his son to live in Egypt. Ahmed Said agreed.

Mohammed Aly sent the boy to study in France where he made many friends.

When he returned to Egypt, Sherif married the daughter of Soliman Pasha, a Frenchman who settled in Egypt. A daughter of this marriage, Tawfika, married Abdul Rehim Sabri Pasha, father of El Sayeda Nazli, mother of King Farouk.

**RECENTLY RECOGNIZED**

Ex-Queen Nazli's family had for long used the title of "El Sayed," but this was only recently recognized by the Union of Ashrafs.

Those who wish to become members of the Union of Ashrafs must submit their claims that they are direct descendants of the prophet in January of each year. Each claim is carefully investigated and irrefutable proof must be found that the applicant is a direct descendant of Mohammed.

It was after such investigation that the union decided that King Farouk should be recognized as one of the estimated 13,000 descendants of the prophet living in Egypt.

## Imported Breezes Cool Areas In Eastern U.S.

CHICAGO (AP)—Refreshing breezes from Canada cooled off some areas in the sun-baked eastern half of the United States today.

The death toll from the record-breaking hot spell during the last two days mounted to 44. Thousands of persons suffered heat prostrations. The prolonged hot weather in the south increased the threat of severe damage to crops.

Temperatures were generally around the 100-degree mark again yesterday in most of the vast area hit by June's oppressive weather.

New Jersey reported 10 deaths from the effects of the heat during the last two days. It was 102 in Newark yesterday.

## Union Services In City Churches

Union services for the summer months for the congregations of St. Paul's Presbyterian, George Street United, and Murray Street Baptist congregations will commence on Sunday with services in George Street Church. Rev. C. G. Boyd of St. Paul's is the minister in charge for the first three Sundays. Last Sunday union services for the congregations of St. Andrew's and Trinity United commenced with the Rev. Henry Cotton of St. Andrew's in charge and the services being held in Trinity Church.

## Commons Boos MP's Argument

OTTAWA (CP)—The Commons was thrown into an uproar today in a side battle stemming from its continuing debate on foot-and-mouth disease.

Liberals, Progressive Conservatives and the C.C.F. entered the 15-minute scrap touched off by a Liberal's charge last night that John Diefenbaker (PC—Lake Centre) had "reneged" on an agreement for quick passage of a bill to compensate south Saskatchewan farmers who lost cattle through the disease.

When the shouting, booing members had been calmed eventually by Speaker Ross Macdonald, this was the upshot:

1. Dr. E. A. McCusker (L—Regina), who made the charge, accepted Mr. Diefenbaker's statement that he knew of no such agreement.

2. Dr. McCusker apologized to M. J. Coldwell, C.C.F. leader, for including him in the "reneging" accusation.

3. Mr. Diefenbaker, at the speaker's direction, withdrew a statement that Dr. McCusker has "a vested interest in his own insignificance."

## Provinces Should Lead With Advice On Crops

OTTAWA (CP)—Agriculture Minister Gardiner doesn't feel he can tell Canada's farmers they should plant more sugar beets at one place and tobacco here and corn somewhere else.

"I think that lead should be given in the provinces and then we can come along and help not only in the further production but in finding markets for the products," he said yesterday in the Commons.

The Minister made the statement in reply to H. A. MacKenzie (L—Lambton-Kent) who suggested sugar-beet growing should be developed in Canada.

## Convert Ore Freighters To Haul Grain Crop

PORT ARTHUR (CP)—Transfer of about 50 iron ore carriers to the grain trade because of the United States steel strike may mean a record peacetime movement of grain out of Lakehead Ports.

Shipments in the last two weeks have totalled 33,500,000 bushels of all grains, more than twice the 1951 total for the same period.

Since shipments are running at the rate of 12,000,000 bushels a week, total flow of grain out of the Lakehead for the crop year should reach close to the 400,000,000-bushel mark.

This was exceeded only twice before, in 1943-44, 405,000,000, and 1944-45 490,000 bushels.

## Power Jumps Gap

TORONTO (CP)—An electrical charge leaped four feet from a 26,400-volt hydro line to a 60-foot crane yesterday and severely burned Vaino Taivainen, 28, who was holding a wire cable attached to the crane. Taivainen, a construction worker, was standing on a sheet of steel when the current surged through him as the crane swung close to the hydro line.

## Cow Kicks Girl

DRUMBO (CP)—While Anne Gibson was milking a cow, a pet big ran under bossy. The cow kicked at the pig, but missed and struck Anne in the face. The girl was taken to Woodstock hospital by her mother, Mrs. Norman Gibson, where stitches were required to close gashes below her right eye and in her lip.

## Three Toronto Men Named For Arts Prizes

EDMONTON (CP)—Three Toronto men, recognized for their contributions in the fields of music, painting and related arts and letters, today were named winners of the University of Alberta's 1952 national awards in arts.

Sir Ernest MacMillan will receive the award in music, Frederic Haines, R. C. A., will get the award in painting and Dr. Edwin John Pratt, letters.

This is the second time the awards have been granted. Last year similar recognition was bestowed on Dr. Healey Willan, Dr. Alexander Y. Jackson and Mazo de la Roche.

Instituted to foster greater appreciation of the arts in Canada, the awards are for meritorious contribution over a period of years to the advancement of music, the graphic arts and letters.

Sir Ernest is conductor of the Toronto symphony orchestra. Born in Mimico, he began a career as a concert organist at the age of 10.

Mr. Haines, principal of the Ontario College of Art since 1932, is an accomplished figure painter.

Dr. Pratt, a native of Newfoundland but long-time resident of Ontario, has been professor of English at Victoria College, University of Toronto, since 1933.

Editor of the Canadian Poetry Magazine, Dr. Pratt is also a prolific writer of fine verse and prose. He is the author of "The Witches' Brew," "Verses of the Sea," "Dunkirk" and other books.

## Sask. Farmers Fewer, Richer

MOOSE JAW, Sask. (CP)—Saskatchewan farmers are decreasing in number but increasing in wealth.

Dominion Bureau of Statistics figures show that Saskatchewan has fewer farms than it had 10 years ago, but those that remain are larger. The number of farms dropped by 11.7 per cent between 1941 and 1951.

By definition, a farm now must be at least three acres in size, or from one to three acres, provided it produced at least $250 worth of produce in 1950.

In the all-over total farm area, increases in the prairies and British Columbia outweighed decreases in all the eastern provinces. The number of farms fell in every province except British Columbia.

The Bureau said that as the result of the decline in the number of farms and the slight increase in area, the average farm increased about 25 acres over the 10-year period.

## Combines Act 'Hasty', Goes Too Far—Senator

OTTAWA (CP)—Senator G. P. Burchill (L—New Brunswick) yesterday said in the Senate that the government's anti-combines legislation is a hasty measure that goes farther than is necessary.

He spoke as the Senate gave third reading to the bill.

Senator Burchill said the committee on whose recommendations the legislation was based had no representatives of business on it. The bill incorporates features never included before in Canadian criminal law.

## School Report

**S.S. 11 SMITH**

Grade 7 to 8—Ken Boyce, 79; Ken Wheeler, 76.
Grade 6 to 7—Ethel Langley, 73; Verna Graham, 66.
Grade 4 to 5—Bettie Black, 79.
Grade 3 to 4—Jean Lewis, 82, Gordon Heard, 76; Ruth Olver, 75.
Grade 2 to 3—Gwen Graham, 86; Lewis Black, 83, Philip Olver, 73; Gordon Graham and Marilyn Heard, tied, 71.
Grade one to two—Bernard Moore, 87.
Beginner—Bobbie Anderson.
Marilyn A. Hamilton, teacher.

**S.S. 3 ALNWICK**

To Grade 9—Terry Hogg.
To Grade 8 — Dale Braithwaite, George McCleary, Jim Varcoe.
To Grade 7—Shirley Brown.
To Grade 6—Lorna Greacen, Patricia Hogg.
To Grade 5—Murray McCleary, Lorraine Parker, Wayne Parker.
To Grade 4—Mae Brown, Paul Winkworth.
To Grade 3—Ray McCracken.
To Grade 2—Valda McCleary, Ronald McCracken.
Doris Robins, teacher.

**ALDERVILLE SCHOOL**

To Grade 9—Terry Bigwin, James Marsden.
To Grade 8—Virginia Smoke, Morley Marsden, Reta Marsden, Muriel Beaver, Larry Crowe.
To Grade 7—Glen Marsden, Marlene Beaver, Francis Beaver, Billie Smoke.
To Grade 6—Winston Marsden, Merrill Crowe.
To Grade 4—Karen Simpson.
To Grade 3—Bonnie Simpson, Sandra Martin, Dianne Simpson, Merlin Gray, Joan Loukes, Dolores Crowe, Sharon Gray, Irvine Smoke, Leo Sawyer.
John D. Loukes, teacher.

NO BRAKES—Constable Paul Hudyma let Mickey off with a caution when the chimpanzee circus star crossed on a red light at Selkirk and Main in Winnipeg. The chimp was doing some city driving on his bicycle, a converted bedstead, when the changing traffic lights got him confused.

## Hint Spy Case About To Break In Montreal

TORONTO (CP) — A Toronto newspaper says today a "sensational" espionage case may be broken in Montreal during the next few days with the arrest of a Canadian journalist born in Montreal of Russian parents.

The paper's newspage story, a dispatch from Montreal, says the R. C. M. P. have had the man under surveillance for months and are believed ready now to take him into custody.

"Police information tends to substantiate the suspicion that the suspect provided a link with worldwide activities of the Cominform. It is doubtful, however, whether the charge when it is laid will be literally a 'spy' charge.

"The man is definitely suspected of having maintained close contacts with persons known to be Russian agents.

"He is believed to have communicated information to them, both orally on visits abroad and by letters routed through the United States."

## Judge's Ruling Favors Cottagers

TORONTO (CP) — Mr. Justice John Wilson yesterday ruled that seven summer residents and three descendants of the Chippawa Indians were "not wrongfully in possession of Indian lands."

His judgment quashed a federal government move to dispossess the 10 from property on Bergie Point near Victoria Harbor on Georgian Bay. The government had argued that the land in dispute was an island before 1856 when it was surrendered, along with other islands, to the Crown in a treaty with the Indians.

Mr. Justice Wilson held that Bergie Point is a spit and therefore part of the mainland. The government claimed that the 25 acres had been an island and that the channel had been filled in about 1897.

## Hits Milk Substitute

TORONTO (CP)—Norman Myrick, editor of the American Milk Review, yesterday told delegates to the Mid-States, East Coast Dairy Conference here that a new milk substitute presents a serious challenge to the dairy industry. He said butterfat is replaced in "filled milk" by a much cheaper vegetable fat. The substitute "is a wolf, skulking on the fringe, waiting for a chance to strike."

## BBC Bans TV Nudity

LONDON (AP)—Ten nude show girls from the London Casino must wear clothes when they appear on television, the BBC ruled last night. Robert Nesbitt, producer of the Casino's show, "Excitement," slated to be televised July 7, said sadly "special garments" will have to be made for the girls. British law permits naked girls in stage shows—if they stand still.

## All In Day's Work

FORT ERIE (CP) — Caroline Smart 7, crossing the Peace Bridge with her brother, toppled 20 feet into the Niagara River yesterday. She was rescued by Roy Renshaw, 37, a foreman of the Fort Erie Water Department, who jumped in fully clothed. "It's all in a day's work," he said.

## Committed For Trial

TORONTO (CP)—Dr. Earl B. Clouse yesterday was committed for trial on a charge of manslaughter and abortion. His $5,000 bail has been renewed. The 59-year-old general practitioner from Markham was charged in connection with the death of a 21-year-old Toronto woman after what police said was an illegal operation.

## Girl Swallows Bullet

TEL AVIV (AP)—A stray bullet penetrated a house wall and dropped into the mouth of eight-year-old Dalia Yehoshuah just as she was swallowing a mouthful of beans. Down went the bullet into Dalia's tummy along with the beans. In hospital, her condition is satisfactory.

## Television Program Viewed By Institute

COLDSPRINGS —(ENS)— The Coldsprings W.I. met on Tuesday night in the hall with Mrs. Keith Harper presiding.

Mrs. Fred Ford reported on the district W.I. convention held at Grafton.

During the business period it was voted to give a present to each of the girls in the "Cotton Pinkers" club.

The next meeting will be held on July 30, when Mr. Ramsay of Cobourg, will be the guest speaker.

After the business, Mr. Howard Maynard, Cobourg, presented a two hour television program. During intermission candy and drinks were sold.

## Fine New Federal Building

Peterborough is gratified that an oft-repeated promise forty years old is actually to be fulfilled: the city is to have a new Federal Building. It is gratified, too, that the structure will be handsomely modern. The south side of Charlotte street down town has been the hag of Peterborough from the time the street was called Hell street. The combined new post office and customs house will be so elegant with its high two-storey glass front that it will give style to that side of the street, and may cause even the north side to lift its face. We hope that the west side of Louis street across from the building's flank will undergo a transformation.

* * *

In its business section Peterborough has no buildings of sufficient stature and proportion to impose architectural quality on the surroundings. The new Federal Building seems big enough and fine enough to give prestige and good countenance to the centre of the city; and as if by emanation its influence may spread to other buildings. They will be able to take tone from it; and gradually through renovations, razing and rebuilding, Peterborough's business section should become an ornament rather than a clutter.

* * *

The new building has been designed by a Peterborough architectural firm. It is satisfying not only to have Ottawa recognition that a building of its importance is within the competence of a Peterborough firm, but also to know that it is a model of contemporary design and will undoubtedly attract the attention of the architectural profession as well as the praise of amateurs who like good buildings. Another pleasing indication is that uniformity in public buildings all across the country is being avoided. Gone, we hope, are the days when there was one, and only one, pattern each for a post office, a collegiate, a Normal School or a railway station.

* * *

Citizens, as well as the people who work behind the counters, will puff with astonished relief to learn that the Post Office wing will have seventeen wickets. This sounds incredible to a public used to queuing in front of three or four, or even one—when the signs are up in the others: 'Use Next Wicket'. When we get inside the new building our first turn will be to run up and down that long new front office, all 92 feet of it, and count every one of the seventeen wickets, backwards and forwards, just to verify their number. What a disappointment it will be if sixteen of the seventeen are closed and placarded: 'Use Next Wicket'.

* * *

The building will house many federal offices including postal and customs; and it is to serve as a model and training school for Post Office employees from a wide east-central region. Tenders are being called Monday. A month later the contract will be let. After forty years in the frowsy wilderness of Victorian cubby-holes, Peterborough's public and the Federal civil servants here will emerge into twentieth century airiness.

## The Success Of The Summer Theatres

Unless our memory is at fault, there were no summer theatres in Ontario in 1945. We cannot pretend to know of all the groups in existence at present, but there is an Ottawa Summer Theatre under the direction of George L. Palmer; Kingston and Gananoque are served by the group which is led by Arthur Sutherland and Drew Thompson; Peterborough has an excellent summer theatre, now in its fourth year, managed by Michael Sadlier; at Gravenhurst and Port Carling are the Straw Hat Players, under the management of Don Davis; at Oakville the Carousel Theatre, directed by Hugh Webster; in Niagara Falls there is an ambitious venture managed by Mrs. Maude Franchot; and one of the latest additions to the list is a summer theatre at Scarborough, managed by Donald Glen, formerly known as one of our best actors. There are probably other groups which we have missed. But the plain fact is that the summer theatres have established themselves as a welcome and successful part of our summer entertainment.

The summer theatres deal in what is called "light entertainment" but what they offer is by no means trivial. In summer heat few people want to see Ibsen (though we think they would not find Tchekov too hot for them) but the general standard of the plays to be presented is good; they are the successes of New York and London in recent years, and now and then the name of Christopher Fry (in Ottawa) and Bernard Shaw (in Peterborough) gives particular distinction to a season's work. And these summer theatres are the first native Canadian theatres to thrive; they are the forerunners of what may be, in twenty-five years, a well-established Canadian theatre.

Enthusiasts on behalf of the Canadian theatre are sometimes asked if any large number of people in the country really care whether a native theatre arises here, or not. The question does not appear to us to need an answer. Drama, like music, is something which all civilized nations have, because it arises from a need within themselves. Jungle tribes have drama of a kind—often a very exciting kind—and no nation of any consequence has ever existed without a theatre. For a theatre is a place where people see a representation either of what they are, or what they wish they were. The plays which show them what they are (like *Hamlet)* are no less popular than the plays which show them what they wish to be (like *Cyrano de Bergerac);* realism and romance are both grist to the theatrical mill. The theatre deals in self-examination and in dreams, and both are perennially popular commodities.

For anyone interested in the future of the arts in this country it is heartening to visit the summer theatres and to become acquainted with the people who work in them. They are young, and well-educated, pleasant and honest; anyone who has had any close acquaintance with the theatre life of another nation will know that these are not invariable characteristics of actors and theatre workers generally. Their work has a high quality of *ensemble,* though they have not yet developed any unmistakeable stars; a surprising number of clever designers have made their appearance. The future looks bright for them. A country which is growing in wealth and population has need of them, and of the theatre which they can create.

## Dr. Worton Goes To Queen's Park

His fellow-citizens, while congratulating Dr. Harold Worton on his appointment to the post of Provincial Veterinarian, will be sorry that he is leaving Peterborough. He was the most familiar figure at the annual fall exhibition; he has a knack of making people do things which they did not particularly want to do, in the interest of public health, and making them like it; he is certainly one of the best public relations men this city has had in recent years, spreading the name of Peterborough far and wide; and he is, of course, a first-rate veterinarian, which makes him the friend of everybody who has a pet or a farm animal.

His job at Queen's Park will be to cope with problems concerning the health of Ontario livestock; it is a big job and an important one, and we are sure that he will handle it ably. But we suspect that in his leisure hours he will still find time to take a look at a dog which shows signs of neurasthenia, or to persuade a cat to take a pill which it does not want. Big men are known by the fact that big jobs do not cause them to lose interest in small things. We hope that he will be a frequent visitor to Peterborough, intent on pleasure, rather than business.

## No Gurgle In Victoria Park

Gentlemen of the City Hall: we regret the necessity of again bringing up the subject of the fishing boy fountain after all these years of bringing up the subject of the Victoria Park fountain. But may we remind you in the heat of these days that a fountain is not a fountain unless it gives forth water? Was not the whole and entire reason for having a new fountain so that it could play water? Was not the old one torn down simply because it could not be made to play? After more than three years of pleading by the late Mr. de la Fosse and others, the fountain was designed and erected. It has been in its place since last autumn. Why isn't the tap turned on? We whisper the question: Won't it work either?

## NOTES AND COMMENT

Butter pats in Los Angeles are stamped "I Like Ike." In deference to the farm voter, pats of margarine are served without added political colour.

---

A boob making a speech has suggested that laughter is the cure for the world's ills. Russia laughs at us: we laugh at Russia. Then we are both madder than before.

---

At the International Trade Fair in Toronto a German firm showed an instrument which could bore a square hole. Next development: fitting it with a round peg.

---

A rumour says that Mr. Churchill may retire during the Coronation celebrations next year. But if he is the man we think he is, he will not retire unless he can add the Crown to his famous collection of hats.

---

Gaelic was the only language used during the formal inauguration of Eire's President Sean T. O'Kelly, beginning his second term of seven years. Well, Latin is used in presenting candidates for university degrees, and nobody understands it either.

BIBLIOMANIA

## A Master Of Epigram

THE CARVED STONE by G. Rostrevor Hamilton (William Heinemann Ltd.)

SIR MAX BEERBOHM once referred to himself with satisfaction as a **petit-maitre** of literature; Sir George Rostrevor Hamilton can be called the **petit-maitre** of modern English letters—literally as well as figuratively. The volume of his poetry and criticism is not large but his work is masterly. And in comparison with Beerbohm, the beau, the dandy of literature, is proper, for like the inimitable Max, Rostrevor Hamilton is a finical phrase-maker, a sensitive wit, a gourmet of style, a pricker of pomposity, and in every fibre of his being and every scratch of his pen, he is intolerant of grossness.

The book is subtitled "Small Poems and Epigrams". This is Sir George's special metier, in which he is, among present-day writers in English, almost a lone practitioner. The epigrammatist grows out of a compost which the atomic age does not provide, and progressive eduction (contrasted with classical) does not enrich. There are stray aphorists about; there are poets who turn out an occasional felicitous quatrain, and there are funny-men in rhythms and crackling syllables (like Ogden Nash) who perform on tightropes, but the epigrammatist is a very rare bird indeed; so rare, that like the North American whooping crane, he is almost extinct. So perhaps Rostrevor Hamilton ought to be in a zoo instead of in judicial office in a Whitehall ministry, where, like numerous eminent predecessors, he performs a civil service while professing the arts—as did our own poet Archibald Lampman in the Canadian Indian office.

✧ ✧ ✧

THE CARVED STONE, (an apt title for his lapidary art) published this year, is the second collection of poems which Rostrevor Hamilton has issued in the last seven years. The first, "Selected Poems and Epigrams" (1945) was a selection from twelve preceding books dating from 1918, and including epigrams which have made their way into almost every anthology of twentieth century poetry. In the present small book are poems and epigrams previously printed in newspapers and magazines, and others now published for the first time.

This book's 103 pages are a connoisseur's delight and a publican's pleasure (they cling to the tongue.) For example: an echo of Dryden for the connoisseur:

"How guess from Harmony the world began,
This dire Discord closing full in Man"?

For the publican:

"Ah! golden Doris, was it wise
Thus to embellish every feature?
By Art, poor girl, you but disguise
That once you were fair by Nature".

Then, in Everyman's verse is this Dilemma:

"Since you are too almighty proud
To mix, good Sir, with any crowd,
What at the Last Day will you do?
The choices then seem only two,
A blessed flock, a damned herd,
With, perhaps, Limbo for a third."

The verses recall the Greek anthologists, the penultimate twists of Horace's odes, and the invective of Pope's couplets; yet there is in them modernity of image, phrase and thought, and a kindness belying pure satire. This diptych for instance:

"John has no mind to answer me. I find
That natural enough, John has no mind.

No heart has lovely Julia to impart
The truth unwelcome. Julia has a heart."

✧ ✧ ✧

WE FIND, too, in this book the lyric artist, the man of humanity:

"Suddenly darkness fell
As we were on the road,
And in my friend's white face
Nothing friendly showed.
He paused. I felt my anger swell
And in that hellish place
Lest one the other should kill, I strode
On at a nightmarish pace".

And we get the believer, not the iconoclast:

"Open with dazzle of infinity
Eyes that grow dark within a ten-foot span;
Restore to us, O Lord, belief in Thee,
Lest we should lose belief even in man."

There is reflective lyricism in "The Wild Rose"—suggestive of Walter de la Mare to whom, incidentally, his friend Rostrevor Hamilton had dedicated the book:

"A wild rose in the evening
Alone on a waste of air afloat
And seeming of no substance born,
Made me conceive I know not what
Of thought like music wandering
Escaped from the need of string or horn,
Of passion self-subsisting, not,
From quivering flesh torn."

Rostrevor Hamilton is so renowned for his epigrams that his lyric verse suffers unwarranted neglect. The "small poems" as well as the epigrams in this inexpensive volume delight heart and mind. His knighthood, one of the last accolades personally bestowed by King George, was a mark of his service as a distinguished civil servant, and a tribute to a man of letters and disciplined taste. I hope he will never feel compelled to follow his own "Advice":

"When Pan will no more sigh romance
Through your slow verse for the Nymphs to dance,
Write FINIS, and your volume close
Against the flatfoot march of prose."

T. J. A.

✧ ✧ ✧

GALAXY READER OF SCIENCE FICTION. Edited with an introduction by H. L. Gold (Ambassador)

BLAST OFF! We've done it; we've arrived! We are in the 30th, 50th, 100th—it doesn't matter what-century, but we are well away from this one, thank heaven! Travelling through the outer spaces to a clean, clinical scientifically controlled New World. A flip of a dial and we land on Mars or Jupiter, the Moon or Saturn or what-you-will, and facing incredible monsters of other times and other climes we proceed to blast 'em with our superior knowledge; reorganize their laws and their way of life and so through aeons. Having satisfactorily dispensed our celestial salvation we zip to the next place. We view the creatures with disgust and curiosity but always return to ourselves with relief and narcissistic admiration. Yes sir, in spite of our faults we are the goods. To quote (in futuristic terms, of course) one of our old 'Earthling' ancestors: "Man's In His Heaven, All's Right With The Universe".

✧ ✧ ✧

THE ABOVE BRIEF description is principally the theme of almost all the stories that are collected in this volume. Man's imaginary travels through space and time, his adventures among greater or lesser creatures than himself; for the most part they are, of course, the latter. In some few stories where the form of life discovered is found to have finer faculties and greater knowledge than humanity, it invariably reveals, sooner or later, its one weakness, its 'Humanoid' failing: using the knowledge it has as a prop for its conceit or to destroy forms of life which it deems inferior to its own.

The general standard and quality of the writing is very good and the stories have been chosen with care as the best of their kind. There is no doubt that there will be many readers who will find this interesting reading. It is particularly recommended to those readers who find themselves bored with the present world and desire to see progress even more posteriorized; a flip of the pages and you can find yourself anywhere—except here. But for one reader at least, as an 'Earthling' of the most earthy, the present, unattractive though it might be, is infinitely to be preferred.

D. A. L.

✧ ✧ ✧

DIANA WAKEFIELD, by Michael Figgis (MacMillan Books)

THIS IS MICHAEL FIGGIS' first novel and it is a very promising one. The setting is England immediately after World War II, and the plot though simple has been admirably used by the author. The story tells of the conflict of loyalties that troubles Diana Wakefield, the central figure of the story; her desire to remain loyal to her husband who is a squire of the old school, and her doubts about family, whose resentment of her marriage, which they consider disloyal to them, constantly reproach her. Her brother is a Communist which makes matters even more difficult for her whenever he arrives on the scene.

The ideological conflict represented by her Communist brother and Conservative husband forms the background of the whole novel, but it is never allowed to swamp the central story, which is the further conflict caused by the arrival of Nigel Farnworth, an artist, with whom she falls in love. However, the complications and difficulties are all smoothed over; the story closes with the time-honoured happy ending. It is well-written and worth reading.

D. A. L.

✧ ✧ ✧

NOTE: Our book reviews will be discontinued during the months of July and August.

"Looking down on other men will not get you anywhere," states an efficiency expert.

Pugilists are said to have other views on this subject.

OPERATION DIABOLICAL

## Letters To The Editor

**AIRPORT FOR PETERBOROUGH**

Sir: I and my friend whom also is a former R.C.A.F. airman, would congratulate those whom advocated a Peterborough Airport.

In regard to Peterborough's size and possibilities I would suggest, that both Mr. Black and D. Miller do a little more thorough investigation by reading on aircraft accomplishments in other cities and there not too distant possibilities. Their seemingly limited aircraft facts seem to extend about to the city limits,or Little Lake.

As far as Malton is concerned I wonder if they know that not only commercial aircraft but Lancaster, Vampire and C.F.-100 use this airport for test flights etc.

Do these defeatists consider the protection of Peterborough from possible aggression and what extra possible non profit costs arise from civilian, military and research aviation consists of when operating on one field.

We, as well as several other R.C.A.F. airmen would appreciate an answer from these semingly Lets Die, city fathers.

Yours truly,
TWO AIRMEN

**TOWNSHIP TAXES**

Sir: Your timely editorial on High City Taxes doe not cover the true facts about "Rural Taxes".

You mention a specific case about a service station 10 miles out increased considerably to meet suburban services. I wonder do you mean I have a service station five miles from the city limits and my taxes have increased 300 per cent over last year. In the nine years I have lived here we have not received one service from the Otonabee township. On the contrary our school is falling apart. Our weeds are never cut on the roads. The steel culverts are sticking up in the road and the holes will break your car springs. The snow is never removed until the milk truck or the township truck gets stuck.

If you want to get hooked for taxes which you receive absolutely nothing for, move to Otonabee township. The farmer council did not raise their own taxes. The small business owner and cottage owners are told this 300 per cent increase (in my case) is not all. Next year your taxes will be higher again. We are really going to soak you in 1953.

I noticed your figures recently in farm income for the first three months of 1952 was millions of dollars higher than 1951.

We never sell one gallon of gas to a farmer. I wonder why?

Yours truly,
GEORGE W. HERON.
"The Pines", Highway No. 7.

## How Time Flies

**1922** The Rotary Camp at Clear Lake is completed and ready for its first quota of boy campers.

W. R. Morris is named official assignee as shareholders of the Red Arrow Tire Co. decide to go into bankruptcy.

Bailieboro and Centreville residents protest against clouds of dust from the new highway.

**1932** J. J. Duffus is elected president of the Central Ontario Liberal Association.

A glider club is organized here with a dozen members practising at Milburn's Field.

Knotty Lee's Canadian all-stars defeat the House of David ball team here 5-4 in a night's game.

**1942** Since 1909—its second year—the Normal School here has graduated 5,037 teachers.

Sgt. E. L. Biddle, Peterborough girl, is in charge of No. 3 detachment of the C.W.A.C. at the local Training Centre.

More than 50 applications are on file for wartime houses not yet started to be built.

## Bible Message

(From the Authorized Version)

Small mortal man be more just than God? shall a man be more pure than his maker?

Behold, he put no trust in his servants; and his angels he charged with folly: how much less in them that dwell in houses of clay, whose foundation is in the dust, which are crushed before the moth? They are destroyed from morning to evening: they perish for ever without any regarding it. (Job 4:17-20.)

✧ ✧ ✧

Lo, this only have I found, that God hath made man upright; but they have sought out many inventions. (Eccl. 7:29.)

✧ ✧ ✧

For ye see your calling, brethren, how that not many wise men after the flesh, not many mighty, not many noble, are called: but God hath chosen the foolish things of the world to confound the wise; and God hath chosen the weak things of the world to confound the things which are mighty; and base things of the world, and things which are despised, hath God chosen, yea, and things which are not, to bring to nought things that are:

That no flesh should glory in his presence. (I Cor. 1:26-29.)

## Permanent Evacuation

(Saskatoon Star-Phoenix)

The provincial government has proposed that farmers in the low-lying Pike Lake, Moon Lake and Valley Park areas should move their homes and buildings to higher ground. And it has put forward a plan. Crown land, where it is available, will be offered to the farmers at a reasonable fee. The province has agreed to pay 80 per cent. of the cost of moving buildings if the rural municipalities concerned will put up the remaining 20 per cent and if the farmers will provide the necessary labour.

This division of costs is, we think, a reasonable one. Certainly it promises to be less burdensome to all parties concerned, in the long run, than the cumulative cost of evacuating farm families and stock from the path of flood waters each spring and repairing buildings after the waters have receded. Nor is it logical, as the government's spokesmen intimated, to expect the province to come forward with temporary help each years when a permanent solution is available.

## Come! Come! Why This Modesty?

(Kingston Whig-Standard)

The Ottawa Journal in a crisp editorial comment says the by-elections, the election in Saskatchewan and the election in British Columbia were all "bad news for the Liberals." And, as the paper says, the election in Quebec is still to come.

But why this modesty on the part of that excellent Conservative newspaper? Why does it not thrill and cheer the Conservative Party by reminding them of the joyful news that in Saskatchewan the Conservative popular vote climbed (downwards) from eight per cent to two per cent, and no members elected? And then there was also British Columbia.

After all, nothing succeeds like success.

## Speed Speculators

(Cornwall Standrad-Freeholder)

Potato prices have now risen to the ridiculous price of 69 cents for 10 pounds. Yet this shortage was predicted many, many months ago by those who knew. Why wasn't something done to protect the public from this abuse? It is the speculator and not the farmer, who benefits from this outrageous price.

*"Take it easy, Major, we've got them interested in the game—that's the thing."*

# A-F-I-E-L-D with NICK NICKELS

Affairs were booming in Peterborough when the Fathers of Confederation scratched quill pens on documents in Charlottetown 85 years ago come Tuesday, Canada's first birthday.

Though the [illegible] point at the corner of George and Hunter Sts., and huckleberries grew profusely in Victoria Park below the Court House (built 1841) this thriving community in Upper Canada had already put up a £30,000 contribution towards and was served by the Port Hope-Lindsay-Beaverton Railway nine years before Confederation and the Cobourg-Peterborough Railway (which didn't cost the community a cent) was already a flop.

Hot young bloods were home from the wars on the Niagara Frontier (Fenian Raids) a full year before Dominion Day to man the district's basic industries, to export yearly 37,000 barrels of flour, 31,000 bushels of wheat and 31 million sawn board feet of lumber. They also manned the two breweries (200 barrels of beer a month to say nothing of spirits), the tanneries, flaxmill, two each of pump and axe factories, cooperage shops and woollen mills. And they worked at least 12 hours a day.

The Fathers of Confederation could never have foreseen a workers' weekend like the current one when the large factories closed their doors for a four-day holiday. Starting on Friday night Peterborough will have its greatest exodus this year and become a dead city.

Friday night and today each highway and byway that leads to water was jammed with car travellers, each summer place, cottage and tar paper shack started filling to overflowing. Resorts are bursting with American visitors. And everyone is waiting anxiously to get their first crack at 'lunge and bass fishing which opens on July 1.

It has been noted in many of the popular fishing districts fishermen have long ago disregarded the anchored-boat fishing laws and have been casting merrily wherever they please with any sort of bait.

♠ ♠ ♠ ♠

**From Behind the 97⅝ Curtain, Squawks**

John Mitchell of Holiday Haven, Harwood, sent Jim Fraser of the C. of C. a clipping from outdoor writer Ken Hartwick of a Massilon, O., newspaper in which he burned the hide off Canadians who are demanding, and collecting, the American money exchange rate. The article caused a lot of belly laughs among John's current American guests who have found fair treatment on this point and who do not object to paying the premium when asked to do so.

Scribe Hardwick goes off at half-cock for two columns of absolute rubbish, the smelliest of the lot that our liquor stores refused to accept American funds at par. He is so wrong, so misinformed.

Since the Canadian dollar firmed earlier this year and started to climb, the Liquor Control Board of Ontario have issued constant directives to their outlet stores to accept American funds at par. At no time have stores or employees tried to snaffle the exchange rate.

To correct American editorial dispensers of misinformation (outdoor class) the Peterborough Chamber of Commerce is writing each individual columnist in Ohio giving the true gen. We hope said gentlemen will peddle it to their readers as quickly as possible.

We know where we stand on the exchange question in Peterborough. A questionnaire mailed out to city merchants by C. of C. showed that 65 per cent will accept U.S. money at par. The balance—small profit-taking shopkeepers—cannot do so nor can you blame them.

♠ ♠ ♠ ♠

**Goin' Bullfroggin'?**

The season opens July 1 and closes Oct. 15. Possession limit ten per day applies to catches for both personal or commercial gain. You can't take any frogs from a fish hatchery and a special license must be obtained for using an artificial light in taking them at night.

♠ ♠ ♠ ♠

**Outa The Minny Bucket**

For those who enjoy organized events on July 1 there is a regatta at Jack's Lake which will be featuring Miss Carol Anne Duthie, Canadian girl water ski champ. . . Up at Bancroft a big field day of fun and games highlighted by Turk Broda and his N.H.L. baseball team. . . . The Kiwanian-sponsored regatta at Peterborough's Little Lake which shaped up into an important affair two years running will NOT be held on Dominion Day. Too much risk, says prexy Howell. . . . Mr. Stony Lake (Capt. Pat Young) has not been well for several weeks. He may enter hospital for check-up soon. All water travellers and old Stony Lakers hope to see him back on his Young's Point verandah soon and enjoy a short cheery visit. . . . Brother Fred Red Cedar Lodge) Young has been in and out hospital but is again summer resorting as energetically as ever. . . . Due to the American steel strike some resort operators have been receiving temporary cancellations until things become more settled. . . . A Chinese restaurant manager who tried to extricate a swallowed hook from the meat chopper jaws of a before-season 'lunge got both hands badly bitten. Now he knows that he should have cut the line in the water. . . . Hope to receive a stack of fishing contest entries following the holiday. All sizes have a chance, so, let's hear from you. Lots of luck.

# For Century This One Firm Has Made Bricks Of Local Clay To Build City

By COLLETTE FERGUSON

Peterborough has the only brick manufacturing plant in an area extending from Toronto to Napanee—the Curtis Bros. Brick Co., siuated on Parkhill Rd. E., just east of the canal.

This company, which celebrated its 100th anniversary in May, has been operating on this same site for the past 98 years. At present it is operating under a partnership of two brothers, Floyd and Stanley Curtis. The industry was started by their grandfather, Mark Curtis, in Millbrook in 1852. Two years later he moved it to its present site.

The brickyard was later taken over by his three sons, George, Albert and Charles Curtis and operated by them until 1938 when they were bought out by the present operators.

**SEASONAL INDUSTRY**

This Peterborough company is a seasonal industry which starts operation about May 1 and closes in mid-September. The 28 employees are able to produce approximately 80,000 bricks a week, which are immediately picked up by buyers.

*LIKE A CHILD*

*When all is done, human life is, at the greatest and best, like a forward child, that must be played with and humoured a little to keep it quiet, till it falls asleep, and then the care is over.*

—Sir William Temple.

The manufacture of bricks is a comparatively slow process. It is usually three weeks from the time the clay is brought to the yard until a finished brick can be turned out. The actual brickmaking is divided into three steps. Water is mixed with the clay until it is pliable and the clay is then pressed into moulds by a special brick machine.

The next step is drying the clay. The clay is taken out of the moulds and left on drying racks in the open air for six days.

Finally the bricks are placed in kilns—huge baking ovens—and left for six to eight days. At the end of this period, the bricks are taken out and are ready for the builder.

**RED AND WHITE**

The Curtis Bros. manufacture two types of bricks—red and white. The difference is determined by the type of clay used. The clay used for the red bricks is called surface clay and is trucked from a clay pit in Otonabee township about three and one-half miles from the city. The clay for the white bricks is called Erie blue clay and is obtained near the yard.

Both types of clay are in limited deposits in this district.

The plant which consists of an office building, three kilns, and twenty 200-foot drying racks, is situated on 30 acres of land. Also on the site is a quarry fed by springs—the result of on-the-spot excavation for clay.

**KILNS**

The most interesting feature on the location are the kilns. The kilns look like a series of open air fireplaces built together in the form of a rectangle. Each of these ovens has a chimney and an opening from the outside, through which the coal is shovelled.

*LOVE*

*Men and women call one another inconstant, and accuse one another of having changed their minds, when, God knows, they have but changed the object of their eye, and seen a better white or red.*

—Donne.

The bricks are piled in and the kiln is sealed over with clay for the baking process.

Horses and small wagons are used to transport the bricks around the yard.

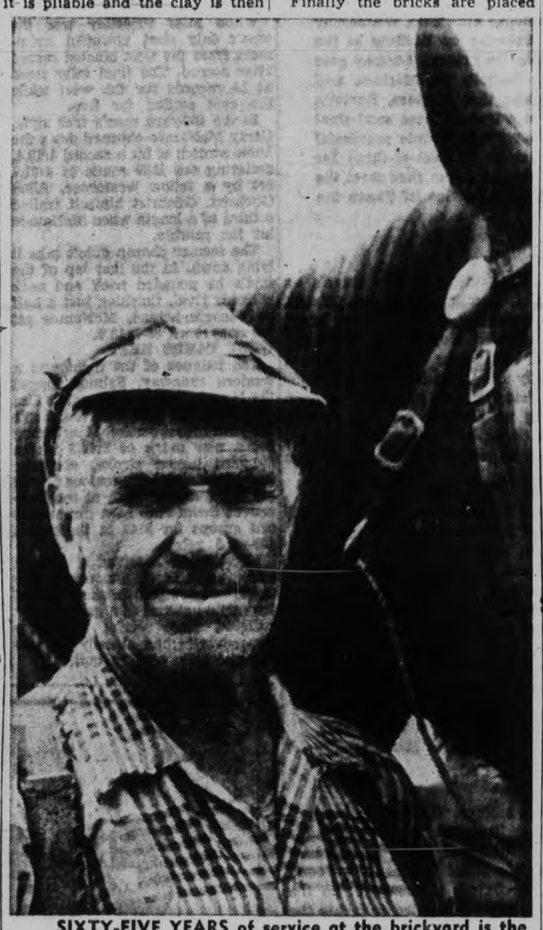
**IN LOCAL BUILDINGS**

Many of the houses in Peterborough have been built with bricks manufactured in this yard and each summer truckloads of the Curtis Bros. bricks are taken to be used in building in all the communities in the surrounding area.

A thriving industry since it was begun 100 years ago. the Curtis Bros. expect to be in the brickmaking business as long as clay lasts in the district.

BRICK-DRYING SHEDS line the property of the Curtis Brickyard between the moulding wheel shed and the kilns.

BRICKS ARE CAST on a multi-sided wheel from special clays.



SIXTY-FIVE YEARS of service at the brickyard is the record of veteran Lance Kemp. He knows all operations backwards.

. . . FROM CART DELIVERY of raw bricks to curing racks to . . .

. . . STACKING AND FIRING KILNS to hauling the cooled finished product away.

# "Stand In Your Own Light"

*(Alexander Graham of Otonabee wrote these verses, flattering to The Examiner about 1870, titling them "Otonabee".)*

Ye farmers of Otonabee,
Who now do occupy
The farms which the old folks cleared
In days that are gone by.

The treasure cleared away,
The old folks' labour done,
Who chopped through winter's frost,
Logg'd under summer's sun.

The necessaries of life, then,
Were often mean and scant,
'Twas hard work to get them,
Hence, often much in want.

Fashion's fineries they did not need
To occupy their thoughts,
Women were dress't in flannel gowns,
Then men in full'd-cloth coats.

And along with other hardships
The ague plagued them sore,
It was a yearly visitor
To them in days of yore.

With doctors few and far apart,
And medicine hard to get,
Many a one had months to sit
Under many an ague fit.

But pure air now sweeps o'er the fields,
And clears away the damp
Malarious contagion, once
So common near our swamps.

A market now for everything,
With cash, once seldom seen,
'Twas only trade for farm stock then,
And prices small for grain.

In fine cloth now ye all can dress,
And get what food you need,
And have, too, now, at resting time,
The local news to read.

Which every farmer ought to have,
The leading local paper,
See where to go for what he wants,
From grocer and from draper.

Ye who have not subscribed for one,
Go do it right away,
'Twill profit you more through the year
Than double what you pay.

All you who true reforms seek,
And plead for truth and right,
If the **Examiner** you don't take
You stand in your own light.

*Your Garden:*

# How To Grow Gladiolus And To Control Their Pests

By HENRY PREE (NEA)

Gladiolus bulb planting should be well under way and the old gardener recommends treating bulbs before planting. While healthy bulbs should be the rule in garden shops there are apt to be a few which might be diseased.

Soak bulbs for 15 minutes in a solution of ceresan—one ounce to three gallons of water—with one tablespoonful of a detergent as a spreader.

Plant bulbs while they are wet and see that they are set in the furrows crown up, about five to six inches apart.

Cover to the depth of five to six inches for larger sizes.

**This solution recommended for the dip is very poisonous and you should wear rubber gloves when using it. Also avoid inhaling the dust used to prepare the solution.**

In most areas tiny suckling insects called thrips are common gladiolus pests and must be kept under control to insure satisfactory bloom. Spraying or dusting for the control of thrips begins when the plants are about six inches high and is repeated at intervals of every ten days to two weeks until blooms appear. If you do find thrips, dust three times in ten days—their life cycle.

If dusting, use a 5 per cent D.D.T. garden dust and apply when the plants are moist with dew. I much prefer the wet spray, using a 50 per cent D.D.T. wettable; use one ounce to three gallons of water with one tablespoon of detergent as spreader.

Another important thing in growing good gladiolus is the use of plenty of water. A good soaking every 10 days or two weeks helps to grow good spikes and long flower heads.

This is needed especially during the three weeks before blooming begins—different variety blooming dates vary from 65 to 115 days.

All too frequently novice gardeners who have spent considerable time and money are disappointed because they failed to consider the various destructive insects. In most cases the novice waits until after the pest arrives.

The wisest thing for any gardener is to begin dusting before pests attack—and keep it up at weekly intervals all season long.

At first this may sound like quite a bit of work, but actually it isn't. Today you can get all-purpose garden dusts that control most of the chewing insects, sucking insects and fungus diseases with which home gardeners are troubled.

Because an all-purpose dust affords protection against the major types of pests, you no longer have to wait until the pest attacks, determine what it is, and then buy the specific type for that certain pest. You can begin dusting as soon as plants leaf out and know that you are providing all the protection your garden needs from most pests.

## *Gardening Questions*

**Q—Should rhubarb clumps which have been growing for many years in our garden, and showing signs of deterioration, be replanted?**

A—Rhubarb plants need moving every five years.

**Q—Our daughter wants to plant flowers of the various countries in her small garden. Please tell me some which she might try?**

A—The national flower of England is the rose; of Scotland, the thistle; of Ireland, the shamrock; of Wales, the leek; of France, the bearded iris; of Germany, the cornflower; of Japan, the chrysanthemum; of Egypt, the lily, or lotus.

**Q—I wonder if you could give me some advice on how to kill a tree stump, that is, roots and stump?**

A—Copper sulfate, one pound to each gallon of water, will prevent regrowth of tree roots. Chop into the roots close to the stump and pour the chemical over the wounds. However, there is no chemical which will get rid of the stump or roots—you will have to grub them out.

# His Wife Hangs The Washing Between Old Trams

By HENRI SCHOUP in Rotterdam

"I collect trams," said Bernard Kuhne, drawing on his pipe. He made a sweeping gesture. "This one is a fifty-year-old motor carriage of Amsterdam. It has travelled a distance equal to three times around the world." He paused and we waited respectfully. "You can imagine what a bother it was to get it into my garden", he went on. "It weighs ten tons."

He looked mournful. "When the last tram is thrown on the scrap heap it will mean the total loss of a way of life, a method of transport." He pointed to three other trams sitting peacefully among the flowers of his garden.

"There's the answer to it," he said. "The first tram museum in Holland—in all Europe, in fact! And in March I am re-opening it, complete with all my new finds."

**TRAMS IN BACK YARD**

We had travelled from Rotterdam to the market town of Weert in Limburg to see this postman who collects trams, and has four real tram carriages in his back garden. In our honour he had donned a cap of the Rotterdam Tramways—one from his collection of more than fifty different types. Topping his long amiable face, faded pullover and postman's trousers, it was most appealing.

Dwarfing the house completely was a horse-drawn tram of the nineties, a steam tram, and a blue Amsterdammer with its following carriage. Mr. Kuhne swung himself with professional ease on to the Amsterdammer, struck his starting bell (which works) and presented us with printed tickets, date-stamped. He has white ones for the Press, yellow for railwaymen, blue for children, green for the military and pink for V.I.P.s. (The last V.I.P. was the manager of the Montreal Tramways Company). The tickets, exact replicas of tram tickets, cost him little, the printing firm advertises on the back.

We sat down, this being the office, and asked him how it had all started. He settled himself before his desk—"I'm thirty-five now, and I've always been fascinated by trams. As a child in Utrecht I knew all the drivers, and when work was done they let me drive the trams to the garage. I began collection data and ended with a huge collection of photographs, drawings and the like. I kept it in the attic. Then Utrecht abolished trams and, as I wanted to start collecting trams themselves, I asked the post office to transfer me here, where I had the chance of a house with a large garden."

We asked Mr. Kuhne if he had never thought of working on trams himself. "Then I wouldn't have a hobby would I?" he added sensibly.

"I paid $7.50 for my first tram, four years ago," he continued. "It had been requisitioned by the Germans and during the war was used in Vienna, but I never lost track of it. As soon as it was back in Holland I wrote to the company and asked for it. It was no good for more service", He looked reminiscent. "But I had some trouble with transport".

Photographs showed that the first acquisition of the "crazy postman from Utrecht" had provided the inhabitants of Weert with an unexpected diversion. The tram had been too wide for the street, which is lined by very young trees. So a child was stationed by each tree to bend it back as the tram approached.

**12,000 PHOTOGRAPHS**

"Would you like some facts and figures?" he enquired. "I have 12,000 photographs, from fifteen different countries, including Egypt and Russia, Scandinavia and Canada". Upon request he produced photographs of the familiar Glasgow trams, and an unbelievable Blackpool tram, shaped like a bath-tub, circa 1903. With no more backing than circulars written in French and headed "Netherlands Tram Museum", Mr. Kuhne has built up this vast collection gratis, but London Transport stated (in flawless French) that their usual fee for such a request was 2s. 6d. Mr. Kuhne is thinking the matter over.

Two years ago, although his collection was much smaller, he turned it into a museum. Opening Day was celebrated with an official lunch, at which Dutch Railways were represented—and for which he baked special Limburg buns himself.

"I now have forty tons in railway track and trams in this garden", he said, "and between 600 and 700 people visited it last year".

He has an eye for detail. "Look at the artistry here", he said, showing us a small sign reading Verboden Te Rooken in block letters on enamel, "as against this", looking disparagingly at Defense De Cracher from Belgium, in curly letters on tin.

Carfully avoiding the cabbages growing between the tracks, we proceeded to a small shed. "Works and Repairs", announced Mr. Kuhne.

We waylaid Mrs. Kuhne as she hung the washing between two of the trams. She seemed singularly unimpressed by her marriage to the Curator of the First Netherlands Tram Museum, but perhaps her five children accounted for that.

# Timbermen Triumph, 13-6 Over Hamilton Club In Rugged Lacrosse Game

Staging a smart second-half drive here last night before 2,000 fans, the Petes' Timbermen trimmed Hamilton 13-6 to take a tighter grip on second slot in the O.L.A. race. They still trail Mimico, while Hamilton remains in fourth position. The game was 55 minutes late in starting when the Hamilton team left too late to cope with the heavy holiday traffic. Play was fairly fast and quite rugged most of the way with both sides laying on the gad in stiff checking and not too many penalties called. The Petes drew seven of the 13, a misconduct late in the tilt going to Elmer Lee of Hamilton for pushing Referee Lou Vipond. Manager Bob Thorpe left the game in the first frame with a pulled muscle in the side which may keep him sidelined for a time. Tommy Love limped off with a game leg in the fourth chukker.

HELPS PLENTY—Curly Mason helped the Petes plenty in their 13-6 O.L.A. senior win over Hamilton here last night, as he threw in three goals and aided on two more in a nifty showing. Harry Wipper was the only other local player to get as many points in the game.

**EARLY LEAD**

The Timbermen led 4-1 in the first inning, 6-4 at the half and they outscored Hamilton 4-0 in the third and 3-2 in the last chapter. Some good lacrosse was seen and both sides bumped hard, with fights threatening several times. The goaltending was nifty on both sides, with Moon Wootton in particular being hard to beat. The Petes looked a bit disorganized in the second quarter but settled down to a driving-in game the last half to earn the win handily.

Curly Mason and Harry Wipper had three goals each, two apiece going to Lou Nickle, Jerry Fitzgerald and Dootch Vitarelli as Don Ashbee got the other. Ike Hildebrand had three assists, with Ashbee, Wipper, Mason and Vitarelli in on a pair apiece, and Bob Thorpe and Russ Slater one each. For Hamilton, Jack Dorner scored a brace, singles going to Barney Welsh, Jack Gair, Al Doyle and Elmer Lee, as Tommy Love helped on one. Teams:

Hamilton: Goal, Favelle; defence, McKenzie and Brown; centre, Lee; wings, Love and Masters; rover, Gair; alternates, Doyle, McDonald, Guthro, Rankine, Dorney, Welsh and Grainer.

Petes: Goal, Wootton; defence, Fitzgerald and Killingbeck; centre, Thorpe; wings, Vitarelli and Wipper; rover, Ashbee; alternates, Mason, Hildebrand, Slater, Powless, O'Hearn, Nickle and Burns.

Referees, L. Vipond and J. Murphy.

Summary:

**First Period**

| | |
|---|---|
| Petes—Wipper (Vitarelli) | :40 |
| Petes—Vitarelli (Thorpe) | 1:34 |
| Petes—Fitzgerald (Vitarelli) | 10:21 |
| Hamilton—Welsh | 11:16 |
| Petes—Mason (Slater) | 12:42 |

Penalties—Doyle, O'Hearn, Hildebrand.

**Second Quarter**

| | |
|---|---|
| Hamilton—Dorney | 1:19 |
| Petes—Wipper | 3:28 |
| Petes—Nickle (Mason) | 7:03 |
| Hamilton—Lee (Love) | 11:30 |
| Hamilton—Doyle | 12:10 |

No penalties.

**Third Quarter**

| | |
|---|---|
| Petes—Fitzgerald (Wipper) | 2:00 |
| Petes—Mason (Ashbee) | 2:41 |
| Petes—Mason (Ashbee, Hildebrand) | 10:16 |
| Petes—Nickle (Mason, Hildebrand) | 12:04 |

Penalties—Nickle, Vitarelli, Love, Powless, Dorney.

**Fourth Quarter**

| | |
|---|---|
| Petes—Ashbee (Wipper) | 1.39 |
| Hamilton—Gair | 2:58 |
| Petes—Wipper (Hildebrand) | 7:24 |
| Petes—Vitarelli | 8:34 |
| Hamilton—Dorney | 11:07 |

Penalties—Lee (2), Mason, O'Hearn, Dorney.

ALLIED PRISONERS-OF-WAR clear obstacles during 100-metre hurdle event at athletic meet in Camp Number 1 somewhere in North Korea. Left to right are: Sgt. James Alt, Petersburgh, W. Va.; Pvt. James A. Lord, Manchester, England; Pfc. Charles B. Boyd, Preston, Ky.; and Pvt. Anthony Paul Eagles, Gloucester, England, who won the race. This picture was taken by Associated Press photographer Frank Noel, a POW himself, and was released by U.S. Army censors after Red censors had released the negative. Allied authorities have often noted that Communist censors pass such copy because of its evident propaganda value.

# C.A.S.A. Officials Choose Olympic Swimming Team

TORONTO (CP)—Officials of the Canadian Amateur Swimming Association went into a huddle today to select Canada's 12-member aquatic team for the Olympics at Helsinki next month. Their decision probably will be announced tomorrow at Hamilton.

They had expected to announce the team last night, but the large number of record times delayed their decision. Nineteen Canadian records were broken in a three-day meet which ended last night.

Officials said the toughest decision they face is whether to send a male diving representative to Helsinki. The men had refused to compete in 10-metre diving because they claimed the Toronto pool was too shallow.

**YOUNGSTER STARS**

Stars of the meet were 14-year-old Gladys Priestley of Montreal and Gerry McNamee, 21, of Vancouver, who each set three records. Two records each were achieved by Gerry's sister, Kay, of Vancouver; Lenora Fisher of Ocean Falls, B.C., and Irene Strong, breast-stroke expert from Vancouver. Peter Salmon of Victoria and Leo Portelance of Ocean Falls, set one record each.

Vancouver Amateur Swim Club relay teams took three titles and teams from Toronto West End and Montreal Y.M.C.A. captured one each.

Though she just turned 14 last week, Miss Priestley swam like a veteran. In heats of the junior women's 400-yard free style, she was content to save her strength. She finished a full 10 seconds behind Doreen Howatt of Fergus, who set a record of 5:07.5.

But Gladys put on the pressure for the all-important finals. She pounded down the last lap neck and neck with the Fergus girl, nosing her out at the end to set a new mark of 5:02 for the event.

While Miss Priestley was the east's only star, powerful swimmers from the west blasted record after record. The final tally stood at 14 records for the west while the east settled for five.

In the 400-yard men's free style, Gerry McNamee churned down the home stretch to hit a record 4:19.4, bettering the 1950 mark of 4:21.1 set by a fellow westerner, Allen Gilchrist. Gilchrist himself trailed a third of a length when McNamee hit the marble.

The former champ didn't take it lying down. In the last lap of the finals he pounded neck and neck with his rival, finishing just a half body-length behind. McNamee set the new mark of 4:18.9.

**WEST TAKES REST**

The balance of the night was a western runaway. Salmon topped the 14-year record of Toronto's Jim Prentice with 1:03.5 in the men's 100-yard breast stroke. Miss Strong set a new mark of 2:44.3 in the 300-yard breast stroke, chopping five seconds off her previous record set this year. A team of the Vancouver Swim club beat three eastern groups for 3:43 in the men's 400-yard relay.

Miss Strong received a setback when an official announced she would not compete in the 100-yard free style because of a groin injury suffered three weeks ago. The Vancouverite had already set two records when told to quit.

# British Marathon Runner Cracks Unofficial Record

By EDWIN S. JOHNSON

LONDON (CP). — Britain's hopes of a triumph in the Olympic marathon at Helsinki next month have been sent soaring by the amazing performance of the English champion, Jim Peters, 33-year-old optician's assistant.

In a pre-Olympic tune-up over a regulation marathon course of 26 miles, 385 yards, which has been officially surveyed and re-checked several times, he shattered the unofficial world's record by the incredible margin of five minutes, 24.8 seconds.

Less than a minute behind him was his London colleague, Stan Cox, which gave added fillip to his country's chances. Both are trained by Bert Johnston, a former Olympic runner.

**GRUELLING TRAINING**

On the verge of retiring from active competition three years ago, Peters changed his mind after watching the Welshman Tom Richards finish in second place, 16 seconds behind the Olympic marathon winner at Wembley in 1948.

Since then he has adhered to a scientific training program, with emphasis on speed. During the last 12 months he has been on the road early each morning, during the lunch hour and after work at night, covering a total of nearly 3,000 miles. More recently he has averaged around 100 miles a week.

In the Amateur Athletic Association's championship tests Peters covered the undulating course from Windsor Castle to Chiswick Stadium in two hours, 20 minutes, 42.2 seconds.

**BEAT KOREAN'S MARK**

Until Peters checked in, the unofficial world's record established earlier this year the Korean Choi Yoon Chil, stood at two hours, 26 minutes, seven seconds. The Englishman's performance also put into eclipse the Olympic record of two hours, 29 minutes, 19.2 seconds, set by Kitel Son of Japan, at Berlin in 1936.

Although near a state of collapse from the effects of his final spurt, Peters recovered quickly. "I was making my Helsinki target two hours, 25 minutes," he said. "Naturally I am delighted that I beat that time, but it still isn't fast enough. I slowed up badly in the last mile or two."

ENGLISH RUNNER — Jim Peters, 33, is England's main hope for victory in the Olympic marathon at Helsinki next month. Peters won the British Amateur Athletic Association's marathon championship this year in record time. The 132-pound runner covered the regulation distance of 25 miles, 385 yards in two hours, 20 minutes, 42.2 seconds. This was five minutes, 24.8 seconds better than the unofficial marathon record set earlier this year by Choi Yoon Chil of southern Korea.

**BACK IN AUGUST**

Doctors in Ottawa yesterday announced that Don Thompson, Montreal Royals outfielder who suffered a fractured skull there June 17, will be back in action by Aug. 1. Thompson was struck on the head by a pitched ball in an International League game with the Athletics.

# Give Scots Fan Trip To Brooklyn

ABERDEEN (AP) — Brooklyn Dodgers wooed and won Scotland's hottest baseball fan yesterday with a free trip to Brooklyn and a date with a lady Dodger Fan.

He is 23-year-old Alistair Forbes of Aberdeen. He's leaving by plane for Brooklyn Sunday wearing, naturally, kilts.

Forbes, a grain plant operator, has never seen a baseball game. But he picked up a re-broadcast of a U.S. game from the American Forces Radio in Germany two years ago and he's been a red hot fan by radio ever since.

Not understanding some of the technical terms of the game—baseball being virtually unknown in Scotland—he wrote to the Brooklyn Dodgers and promptly was sent a set of rules and baseball year book.

Today, Forbes got a cable from the Dodgers inviting him to spend a week as their guest in Brooklyn, all expenses paid. And just to be sure he wouldn't wander over to see New York Giants play, a date with Dodger fan Ellen Carmen Bey was arranged.

## Elgin Gets Win

NORWOOD—(ENS)—The Norwood fastball team and Elgin played an exhibition game here Wednesday evening with the latter defeating Nor[illegible] 12 to 5.

Elgin counted fo[illegible]e eighth innings, three in the sixth, two in each of the first and fifth and one in the third. B. Scott and E. Preston both got home runs for the winners. Wilford got a homer for the losers. They counted four of their runs in the ninth and one in the second innings. Teams:

Norwood—Althouse, c; Cuthbertson, p; Wilford, cf; Bill Garden, 1b; Bill Payne, 3b; C. Ferguson, ss; J. Rae, rf; Evans, lf; Martin, 2b.

Elgin—Thistlewaite, ss; Wilson, 3b; B. Scott, p; Metcalfe, lf; J. Scott, 2b; D. Ferguson, rf.

Umpires—Archie Aldred and Gord Rothwell.

# Royals Continue In I.L. Lead, Split With Wings

By THE ASSOCIATED PRESS

For a brief period last night Rochester Red Wings and Montreal Royals were in a virtual tie for first place in the International League but today the standings looked much the same with the Royals again setting the pace by a full game.

It all happened when the Wings scored four times in the seventh and last inning of a suspended May 24 game for a 5-3 victory. But the Royals bounced back to take the regularly scheduled game 3-1 and regain the lead.

Jim Hughes took the mound for the remaining inning of the suspended game but was touched for two scratch hits and walked two to force in a run. Mal Mallette took over and yielded a two-run single to manager Harry Walker and a run-scoring double to Don Richmond.

In the regular game the Royals belted relief pitcher Dick Bokelman for four runs on as many hits, a walk and an error in the eighth.

**LEAFS SLIP**

Syracuse pulled a full game in front of Toronto in the battle for third place, beating the Maple Leafs 2-0 on Bob Kegan's one-hit pitching and Johnny Welaj's hitting.

Billy Demars' third-inning single was the only hit off Keegan, who chalked up his 12th victory against five losses. It was Keegan's fifth shutout of the season. Welaj's third-inning double scored both of Syracuse's runs.

Baltimore Orioles used four Ottawa errors to advantage in downing the Athletics 5-3. Airtight pitching by Dewey Adkins and timely hitting by Chris Kitsos gave Springfield Cubs a 4-1 decision over Buffalo Bisons.

## Minor Lacrosse

Harry Wipper it at Millar Bowl full time now. All lads are urged to contact Harry at the Bowl and play lacrosse this summer. The week's schedule:

Monday—9.00 a.m.—Peewee practice; 10.30 a.m.—Tadpole practice; 2.00 p.m.—Bantam practice; 3.30 p.m.—Open; 9.00 p.m.—Juvenile game, Long Branch vs. Peterborough Juveniles. This is an Ontario Lacrosse Association Juvenile "A" playoff game.

Wednesday—9.00 a.m.—Peewee practice; 10.30 a.m.—Tadpole practice; 2.00 p.m.—Open; 3.30 p.m.—Open; 6.30 p.m.—Midget practice. All midget players are urged to attend this practice. Harry Wipper will be on hand to coach.

Thursday—9.00 a.m.—Peewee practice; 10.30 a.m.—Tadpole practice; 2.00 p.m.—Open; 3.30 p.m.—Open; 6.30 p.m.—Bantam game, Neill Shoe vs. American Hotel; 7.30 p.m.—Bantam game, Legion vs. Quaker Oats.

The Peterborough Juvenile team are to meet at Miller Bowl at 5.00 p.m. for the trip to Long Branch.

Friday—9.00 a.m.—Peewee practice; 10.30 a.m.—Tadpole practice; 2.00 p.m.—Bantam practice; 3.30 p.m.—Open.

## LAWN BOWLING

By HERB MARTIN

The secretary of the Provincial Lawn Bowling Association in his report to the annual meeting of the association, referring to the provincial championship games played on local greens last August had this to say: "We are greatly indebted to the Peterborough Examiner for their full coverage of games and for their assistance in entertaining the bowlers."

Tonight it's the family hour mixed rink tournament at 7:30 o'clock.

Six ladies' trebles for the club took in the tournament at Campbellford on Friday. Mrs. H. Wilson, Mrs. F. Dawe and Mrs. H. Beatty won first honors with three wins.

**LADIES' SCORES**

Mrs. H. Beatty 10, Mrs. L. Deyman 13

Mrs. F. Dawe 16, Mrs. L. Yeotes 6

Mrs. S. Scott 15, Mrs. C. Renaud 3

Mrs. A. Leach 15, Mrs. F. Staunton 7

Mrs. J. Kingsbury 9, Mrs. S. Shields 8

Mrs. S. Zakos 15, Mrs. W. Welbourn 7

Mrs. H. Northrop 28, Mrs. C. Willison 5.

# Brendan Ousts Brother In Toronto Tennis Play

TORONTO (CP)—One of the Macken brothers of Montreal had to go in the Ontario tennis championships yesterday as they found themselves on opposite sides of the net for the men's singles semi-final.

Brendan Macken eliminated his brother, Jim, 7-5, 5-7, 6-2, 4-6 and 7-5.

Brendan is matched today against Vancouver's Lorne Main who took two hours to dispose of Don Fontana of Toronto, 6-3, 6-4, 6-4.

In ladies doubles, Mrs. Louise Brown and Dorothy Hurst of Toronto defeated Mrs. H. Sladek and Pat Macken, Montreal, 6-4, 6-2.

Miss Macken and brother Jim lined up together in the mixed doubles to knock over Mr. and Mrs. Ken Trestrail, Toronto, 6-0, 6-0 while Mrs. Sladek and Brendan Macken defeated Miss Macken and Jim, 6-2, 4-6, 7-5.

# SPORTS SHOW WINDOW

By CEC. PERDUE, Sports Editor

Purses for harness horse racing at Thorncliffe this summer have been boosted to more than $3,500 daily. That means that more than $150,000 goes to winning horsemen, an increase of $15,000 in a year. Comes about because the provincial government reduced its share of the pari-mutual betting taxes, and the tax relief is being passed on to owners of the pacers and trotters in the form of larger purses for winning. Overnight events will be graded from $600 for a single dash down to $250 for a heat in the slow classes. There will also be 16 stake races with the $7,500 Canadian cup pace on Aug. 9 and the $3,000 Maple Leaf cup for trotters Aug. 16.

* * * * * *

**Girls' softball playoffs commence here next Wednesday with Marines vs. Burtol's and Cobourg vs. Lindsay at the Bowl, as Ashby's trek to Belleville. On Fridays, Lindsay goes to Cobourg, and Monday sees Burtol's vs. Marines, and Belleville vs. Ashby's here. Seems that Marines, Burtol's, Ashby's and Belleville are all in a best-of-three semi-final series for the senior cup and the right to go into provincial playdowns. Lindsay and Cobourg go in best-of-three for the intermediate cup. Losers of the top group then meet the winner of the Lindsay-Cobourg sawoffs. Got it? That's the setup as we get it.**

* * * * * *

## Those Gutted-stick Guys

Hopping over to the gutted-stick game, we note there's an O.L.A. junior "A" joust here tonight, weather being oke. It's St. Catharines versus the local Filter Queens at 8:45 in Miller Bowl. This is the only appearance here in the schedule for St. Kitts and it's a four-point fray, the same as two games. Highly important for that reason and Lou's crew really need this big one. On Monday here, Long Branch plays he Peterborough juveniles to open O.L.A. playdowns, return tilt being up Toronto way on July 3. Games and goals both count in this series, and Curly Mason's local lads will be giving it all they have to grab the opener and by a fairly hefty score, if possible.

* * * * * *

**After a real late start at Miller Bowl last e'en, the Petes' Timbermen trimmed Hamilton 13-6 in a rugged senior lacrosse tussle. The visitors forgot about the holiday traffic and left a bit late—so the joust wasn't started till 20 minutes to 10. Just 55 minutes late. Time the O. L. A. executive clamped down on these extra late starts. A big crowd stayed for the game and saw a hard-hitting affair with the refs not overworking their thumbs any. Stars on the attack for the locals were Curly Mason, Harry Wipper, Dootch Vitarelli and Ike Hildebrand, but several more were pretty potent, too. Lou Nickle is coming along fine. Bob Thorpe may be out a spell with a pulled side muscle. The Petes have a toughie Monday in Hamilton.**

* * * * * *

## Two Listed For Monday

Nothing stirring tonight or on the holiday, Tuesday, in baseball at Riverside. However, two games are listed for there on Monday evening, and we haven't heard so far of either being shifted to a different date. Lindsay intermediates are billed to meet the Young Petes in a Lakeshore Baseball League fixture at 6:30 p.m. on the local diamond, while Kingston Monarchs are scheduled to tackle the senior Petes in a C.O.B.L. encounter here at 8:30 that night. Petes proceed to Belleville on July 4. Meantime, the juniors (still feeling good over beating Cobourg here last start) have a joust today in Bowmanville.

* * * * * *

**Weaker Sex? Hah. In the Canadian amateur diving championships and Olympic aqua trials the other day in Toronto, the four male contestants flatly refused to dive off the 10-metre board, which is some 35 feet above the water. They said 'twas too dangerous diving that height into a nine-foot pool, and one guy had a scar on the head to back his statement. However, four girls entered the competition quite calmly and made their dives without mishap. The C.A.-S.A. secretary said the men would probably not be penalized for refusing, and their past performances in lower events will be taken into consideration in the Olympic trials. But no doubt their faces were a bit red.**

* * * * * *

## Down Sports' Rialto

Cricketers go this aft in the Oval 'gainst the Avro "B" club.... No soccer here today but U.E. is at Kingston July 5 for the first round of the Dominion Cup....Quakers go to Lindsay next Thursday for tennis; Kawartha beat Lindsay 5-2....P.M.L.A. weekly schedule is in....Bob Thorpe has been after Arn Dugan to return to the lacrosse wars but Arn says he's sticking to baseball this year ....Toronto Browns' senior girls' softball squad has an exhibition at eight tonight in the Bowl with Burtol's....Lasses' games Monday: Burtol's vs. Ashby's, and Cobourg vs. Lindsay....Men's melees Tuesday: Lakefield vs. Revoy's, and Seabrooke vs. U.E.W. the latter game being a schedule switch....In the Civic Loop on Monday, B'nai B'rith meets Timbermen at Ashburnham, as Post Office plays Police at Turner....Port Hope downed Cobourg ballsters 9-7....Baz Phelan is happy now that Steve O'Neill has succeeded Sawyer as Phillies' pilot....Take it easy on the curves this holiday weekend, folks.

# Snead, Ferrier Romp In Front At Toledo

TOLEDO, O. (AP)—Sam Snead and Jim Ferrier yesterday romped out front in quest of the $5,000 first prize in the Inverness Four-Ball Matches as they tacked a four-up defeat on Byron Nelson and Skee Riegel.

The one-sided victory, in which the winners ripped nine strokes off par with a best-ball 31-31—62 against par 35-36—71, gave the West Virginia clouter and the former Australian a plus-five rating for two rounds and a two-point edge over Lloyd Mangrum and Cary Middlecoff.

With two of five rounds played in the $18,000 invitational in which six pairs of hot-shot professionals are appearing, Snead and Ferrier are the only duo to win both matches.

## Breakfast Bagpipes

WINDSOR, England (CP)—The call of the castle's piper marked the morning's start for guests at Windsor Castle during the recent Royal Ascot race meeting. By using bagpipe music instead of alarm clocks, the Queen followed a tradition set by three kings.

# Lots Of Rest Gives Marrero 5-3 Win Over Boston Sox

*By RALPH RODEN, Associated Press Sports Writer*

When Con Marrero of Washington Senators delivers his "manana" pitch, it appears that the ball will get to home plate manana or even the day after tomorrow. But when it arrives it does funny things, shooting down, up or away from the astonished batter. Marrero's age is a question. The Cuban star is listed as 45 but many think he's at least 50. He has a simple formula for his amazing success—plenty of rest.

The chunky righthander gets from seven to 12 days off after pitching. Last night he worked with eight days' rest and came through with a 5-3 victory over Boston Red Sox in Fenway Park.

**GIVES SIX HITS**

Marrero, who gets by with a slider, curve and knuckleball, limited the Red Sox to six hits while his mates collected nine. Ed Yost, with a home run, and Pete Runnels, with a pair of triples led the Washington attack. The victory was Marrero's seventh against two defeats.

The defeat dropped the Red Sox 3½ games behind the American league-leading New York Yankees and also enabled Washington to advance from fourth to third place.

Ed Lopat, another "junk ball" pitcher, pitched the Yanks to a 10-0 victory over Philadelphia Athletics. Lopat blanked the A's on four singles in eight innings. He was forced to retire after the eighth when his shoulder stiffened and Tom Morgan finished up. The Yanks pounded three Philadelphia pitchers for 12 hits including a two-run homer by Mickey Mantle.

Cleveland Indians dropped from third into a fourth-place tie with Chicago White Sox as Chicago turned back the Indians 5-1 behind the four-hit pitching of Billy Pierce. Four Cleveland errors led to three unearned runs. Loser Bob Feller also forced in two runs by walking Ed Robinson and hitting Sherm LLollar with the bases loaded in the first inning.

**ERRORS BEAT HAL**

Lefty Hal Newhouser, making his first start since May 11, allowed St. Louis only three hits but the Browns beat the former Detroit ace 2-1, on two errors. An error by Newhouser set up the first run and Gerry Priddy's miscue admitted the winning marker in the fourth.

Brooklyn Dodgers pulled four games in front of New York Giants in the National League race, trouncing Boston Braves 8-3 while the Giants dropped a 6-0 decision to Curt Simmons of Philadelphia Phils.

Simmons blanked the Giants on three hits while the Phils combed Larry Jansen and Monte Kennedy for 11. The Phils tagged Jansen, who had beaten them eight straight times, for five runs in the first two innings.

Lanky Paul Minner also turned in a 6-0 shutout for Chicago, stopping Cincinnati Reds on six singles.

**PULL TRIPLE PLAY**

The Reds pulled the season's second triple play in the sixth inning. Bruce Edwards lined to shortstop Roy McMillan with runners on first and second. McMillan stepped on second to double Bill Serena and threw to first to nail Hank Sauer.

Enos Slaughter batted in five runs on four singles to lead St. Louis Cardinals to a 6-4 decision over Pittsburgh Pirates. San Musial of the Cards doubled and singled to extend his hitting streak to 23 games.

## Reds Protest Frisking Of Embassay Member

LONDON (Reuters)—Russia has protested to Britain against detectives frisking a Russian Embassy man, caught with a British Foreign Service radio operator now awaiting trial on charges of giving the Russian British secrets.

Detectives went through the Russian's pockets but released him when he produced diplomatic immunity credentials.

The Russian involved is second secretary Pavel Kuznetsov.

Diplomatic experts believe Britain will make no reply to the note until after the trial of the radio operator, William Marshall. He is charged on four counts of giving information to Kuznetsov. He was remanded for trial at a preliminary hearing yesterday. The trial is expected to open July 8.

Dura-Hide Outside White
Amazing New Paint Discovery!
ADVANTAGES OF FLO-GLAZE DURA-HIDE OUTSIDE WHITE

- One coat does a better job than is usually achieved with two coats of "ordinary" paint because Flo-glaze Dura-Hide contains 50 to 100% greater hiding power.
- Material and labour costs are reduced 25 to 40% permitting greater economy for the home-owner.
- Flo-glaze Dura-Hide produces a surface with a brilliant new "whiter white" high-lustre finish.
- When applied as directed one coat covers solid over any background colour — even black.
- Flows freely from the brush as it is applied and does not run or sag. Tiresome rebrushing back and forth is not necessary. Covers difficult sharp edges and corners perfectly with one coat, e.g., verandah railings, mouldings.
- Extraordinary levelling virtually eliminates all brush marks. Specially adaptable to rough surfaces. Hides small checks and cracks.
- Self-cleansing. Normal yearly rainfall will keep surface clean.
- Possesses outstanding durability and non-yellowing properties.

Do Not Accept Substitutes. Be Sure to Ask for the New
FLO-GLAZE DURA-HIDE OUTSIDE WHITE

Flo-glaze Dura-hide is specially formulated for use only as a finishing white. When this same high quality is desired in a tinted outside paint your Flo-glaze Dealer will be pleased to show you the wide range of colours available in Flo-glaze Colorizer Exterior Paint.

## Garden Party Marks Centennial Year

BETHANY (ENS)—Continuing with their 100th anniversary celebrations, the ladies of St. Mary's Church held a garden party Wednesday with an exceptionally large crowd present. The supper tables were very attractive with flowers and centred with a huge anniversary cake topped with candles. This cake was baked by the ladies of the community.

Lewis McGill and Laverne McKinley were in charge of the booth which did a rushing business in ice cream, soft drinks, etc. Mrs. W. Hannah and Mrs. Claire Sisson had the sale table of potted plants, aprons, fancy work, etc., which sold readily.

A softball game between Yelverton and Bethany girls was won by Yelverton with Clarence Page and Wilson Carron the umpires.

A play "The Charming Intruder," was presented by members of St. Mary's Young People's Union.

Rev. T. S. Gault and Lawrence Staples, warden of the church, expressed the appreciation of the members to all who assisted in making the celebrations such a decided success and to those who had journeyed long distances to attend the event. It was like an "Old Home Week" as many were in attendance from outside points, having come from as far as Toronto to attend the Sunday ceremonies and remaining over with relatives for the garden party.

The oldest lady in attendance was Mrs. Stephen Sisson who recently celebrated her 92nd birthday. She is the mother of Dr. Elmo Sisson, Bowmanville, Karl Sisson, Peterborough, and Mrs. Wm. Hannah, Bethany. The oldest member of the church present was Miss Annie Sisson, now 85 years of age. She is a daughter of Mr. and Mrs. Michael Sisson who helped in the building of the church. Miss Sisson, who lives in Bethany was baptized in St. Mary's Church and has always retained her membership there, working actively with the Ladies Guild. The youngest baby present was Dianne Kerr, daughter of Mr. and Mrs. Robert Kerr of Toronto, who would be the fifth generation of the Vance family, who also helped with the building of the church.

## 117,800 Ladies' Shoes Ordered For Services

OTTAWA (CP) — The armed forces, with 5,241 women enlisted, ordered 117,800 pairs of women's shoes in the 13 months up to April 30.

The figures were given in a return tabled in the Commons which showed that at April 30 there were 4,732 women in the Active and Reserve forces. The shoes were for both groups and for stockpiling.

Defence contracts shown in other returns included:

1. A total of 161,500 haversacks between Jan. 1, 1950, and last May 1.

2. In the same period, 930 carving knives.

### Monument To Eva

BUENOS AIRES, Argentina (Reuters)—The Chamber of Deputis last night approved a bill to erect a monument in Buenos Aires to Eva Peron, ailing wife of the President. Twenty-four replicas will be built in the capitals of all provinces and territories.

### Heads Accountants

TORONTO (CP)—B. A. Armstrong of Ottawa was elected president of the Institute of Chartered Accountants at a meeting here yesterday. W. L. L. McDonald and D. A. Ampleford, both of Toronto, were named vice-presidents.

J. G. Brown of Kitchener, and W. T. Millard of Brantford were elected councillors.

### Liver Powder Helps

ONDON (Reuters)—Children fed on a specially-prepared liver powder, previously tried only on rats, have made startling gains in height and weight, the Medical Journal said today. The experiments show that when the preparation was given to normal children two years old, supposedly living on a satisfactory diet, they gained after 13 weeks an average of one-quarter of an inch in height and 10 pounds in weight more than children not given the liver powder.

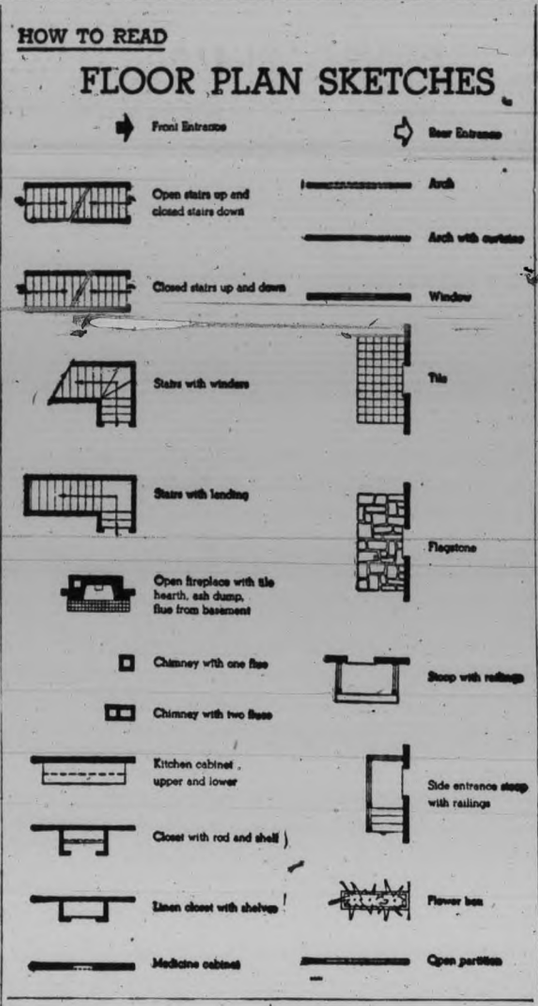
## FLOOR PLAN SKETCHES



## Ruest Suffers Liver Condition

QUEBEC (CP)—Genereux Ruest, sentenced to be hanged July 25 for his part in the time-bombing of an airliner, has been taken from Quebec jail to hospital suffering from a liver condition, it was announced yesterday.

The 54-year-old cripple is reported undergoing X-ray examination. He is kept under 24-hour guard.

Crippled with tuberculosis of the bones for 15 years, Ruest was moved from the jail hospital last Tuesday on the advice of doctors.

Ruest's lawyer, Irenee Simard, said he will ask Justice Minister Garson to commute the death sentence to life imprisonment.

Ruest is one of three persons sentenced to death in the plot to kill Mrs. Rita Guay, one of 23 persons who died when an airplane exploded in the air at nearby Sault au Cochon, Sept. 9, 1949.

J. Albert Guay, Quebec jeweller, was hanged Jan. 12, 1951, for engineering the plot. Ruest was found guilty of making the bomb.

Mrs. Arthur Pitre, 42, Ruest's sister, was found guilty of putting the bomb aboard the plane the day it crashed. Her appeal was rejected by Quebec Court of Appeals this week.

## Youth Shot In Back When Girl Ducked

NEW YORK (AP)—A heat-beating frolic under the spray of an open fire hydrant late last night ended in the shooting of a 16-year-old youth. Police said David Rodriguez was shot by a boy friend of a girl dragged under the water shower against her will by a group of boys.

After the "ducking" of the girl, police said, an unidentified youth appeared and fired a shot into the group. The bullet struck Rodriguez in the left side of the back, pierced his lung and lodged an inch from his heart.

His condition was described as critical early today.

## Havelock News

Mrs. John Thompson is spending a few days with her sister, Mrs. John Atchison in Seymour Township.

Mr. George Keating has returned from the Civic Hospital, Peterborough, where he underwent an operation.

Mr. George Newton spent a week with relativs at Navan.

Mr. and Mrs. Rginald Dooly and son Ronnie, and Mr. and Mrs. Glenn Fairman and son Freddie were the recent guests of Mr. and Mrs. William Peters of Perth on the occasion of the latter's birthday.

### Falls Worker Killed

NIAGARA FALLS, Ont. (CP)—Giusepi Dirisio, 43, an employee of a contractor working on the hydro tunnel job here, was fatally injured yesterday when struck by one of the contractor's trucks while walking on a street.

### Train Hits House

THONON LES BAINS, France (Reuters)—The locomotive of a train derailed in Thonon les Bains station crashed into a level crossing keeper's house and stopped in the kitchen. The only casualty was a child bruised by a falling suitcase.

### Flees In Police Car

TORONTO (CP)—A hit-and-run motorist involved in two highway accidents in nearby King township last night escaped in a Provincial Police cruiser. The cruiser was found 20 minutes later. When the policeman left his car to examine an overturned car in the ditch, the motorist ran to the cruiser and drove away.

## Labor Protests Denial Of Leave

TORONTO (CP)—Several Canadian labor leaders, in a telegram to Prime Minister Louis St. Laurent, protested the Defence Department's decision to deny compassionate leave to Pte. Harold Ward, it was announced today.

Claiming that the approach of Army spokesmen in the matter showed "a shocking disregard for elementary decency," they requested the intervention of the Prime Minister.

Among those who signed the telegram were: C. H. Millard, national director of the United Steel Workers of America (C. I. O.-C.C.L.); F. W. Dowling, Canadian director of the United Packinghouse Workers of America (C.I.O.-C.C.L.) and W. F. C. Kidd, secretary of the Ontario Federation of Labor.

Pte. Ward's mother is expected to live only a few more weeks.

## Halifax Construction Workers Back On Jobs

HALIFAX (CP)—Striking construction workers made peace with the companies yesterday and decided to return to work for a 15-cent hourly wage increase, ending the strike called May 26 for a 50-cent raise.

A labor official said today, however, no workers will be on the job until next week "probably Wednesday."

### Girl, 3, Electrocuted

WEYMOUTH, Mass. (AP)—Three-year-old Linda Pekkanen was electrocuted yesterday when her perspiration-soaked body became wedged between a short-circuited floor lamp and a metal radiator as she chased her pet kitten in the living room of her home.

*The Movie Column*

## Granger Suffers Foot-in-Mouth Disease In Suit

By BOB THOMAS

HOLLYWOOD (AP)—Stewart Granger is a prime example of how easily an actor can open his mouth and put his foot in it. His testimony this week in the Jean Simmons-R.K.O. suit and counter-claims by R.K.O. have prompted the United States Treasury Department to seek more information about movie deals. This is not expected to increase his popularity among his fellow actors.

Now it's reported that Granger's agents have hired a high-powered press agent to improve his public relations. Meanwhile M.G.M. is stewing, since it has pinned several million dollars on the hopes of Granger's being a second Douglas Fairbanks Sr.

Two examples of how human acts can disrupt industry came to light this week. Lucille Ball and Elizabeth Taylor announced they are expecting babies in January.

PUSH FILMS AHEAD

Lucille is star of the most popular and one of the most expensive television shows. She and Desi Arnaz are contracted to film 39 half-hour shows for next season. They announced this week they will go ahead with their plans, starting a month earlier.

That gal Marilyn Monroe is a woman of her word. Many months ago, 20th-Fox bought the rights to "Gentlemen Prefer Blondes." Miss Monroe said she was going to play the leading role. Listeners scoffed, since she was still playing bit roles at the time. But now she has been announced for the lead in "Gents," surprising everyone, except herself.

Two films—a Gene Kelly musical and a Ray Milland drama—are being filmed without any dialogue. If this is a trend, I'm in favor of it. There's too much talk in movies.

## Omemee Scholars Hold School Picnic

OMEMEE (ENS). — Trinity United Church Sunday school held their picnic Wednesday afternoon at Mr. J. M. Wallace's summer home.

Swimming, baseball and races were the chief sports, but for the boys and girls, nothing surpassed the joy of the truck ride provided by Mr. Harland McCarroll, for conveyance to and from the grounds.

John F. Brown and John Pogue were in charge of the booth, and the sports committee were A. N. Weir, G. Pogue, E. Raffan, B. Pogue and S. D. Vaughan.

Winners of the races for first, second and third places were:

Girls under six years—Patsy Nelson, Helen Fee, Bonnie Whetung. Boys under six—David Finney, Donnie Weir, Arthur Carruthers. Girls six to eight—Faye Morrison, Hazel McGill, Barbara Johnson; Boys six to eight—Barrie Lang, Stanley Nelson, Pat Stevens. Girls nine to 11—Yvonne Parker, Susan Roose, Darlene Nelson. Boys nine to 11—Bob Young, Barrie Fisher, David Roose. Girls 12-14—Eva Morrison, Jeanette Rich, Nancy Robinson. Boys 12-14—Bob Byers, Roger Collins, Frank Morrison. Girls 15 and over—Eva Morrison, Jean Hyland, Nancy Robinson. Boys 15 and over—Don Blakey, Art Weir, Roger Collins. Married women's race—Mrs. A. N. Weir, Mrs. G. Pogue, Mrs. William Fisher. Married men's race—A. N. Weir, G. Pogue, H. Lang. Ladies' 50 yard dash—Eva Morrison, Nancy Robinson, Jeanette Rich. Men's 75 yard dash—Don Blakey, A. N. Weir, G. Pogue.

*Ordinarily Prevent Leakage*

# Two Types Of Construction In Waterproofing Basement

The term "water-proofing" implies that not even a drop of water will pass through a basement wall or floor so treated. In actual practice, the degree of water-proofing is found to vary considerably, some methods being only equivalent to good water-resistant construction.

Waterproof constructions are roughly divided into two classes consisting of the bituminous coating method and the bituminous membrane method. The membrane method is superior and will completely prevent leakage, penetration by capillarity and penetration of water vapor. When installed during construction, it is generally placed on the outside of the wall, and in the floor slab. It is made as continuous as possible, using a hot asphalt or coal-tar pitch and several layers of bituminous-saturated cotton or felt similar in method to built-up roofing.

For the floor slab, the membrane is placed over a thin concrete slab, or over tile or concrete units, to which a mortar coating has been applied to form a smooth even surface. In installing the membrane, good practice should be adhered to in the use of a bonding coat, thoroughly coating the surface with the hot bitumen, using a sufficient amount of lap, and pressing the fabric down to eliminate all voids and obtain 100 per cent adhesion of the surfaces. Afterwards, the floor surface is covered with a structural slab.

Where the membrane is exposed above the ground on the outside of the wall, a protective covering should be applied. A covering is necessary in some cases below ground level also in order to prevent damage to the membrane that would destroy its effectiveness.

All of these coatings should be applied to the face at which water pressure occurs. In a basement or cellar the application would be made on the ground-side of the wall; in a water tank, to the inside face. Otherwise, the pressure of the water against the coating would tend to force it from the wall, resulting in blisters full of water which would eventually burst and leak. In normal usage, the pressure forces the bitumen against the wall and into any cracks or interstices, thereby further sealing the wall.

Quite often, the texture of the wall may be too rough to obtain utmost efficiency from this coating. In this case a cement-grout coating or pargeting should first be applied to seal large voids and cracks and provide a smooth surface. If a manufacturer recommends use of a bitumous priming coat before a bitumous coat is applied, the recommendation should be caried out.

During the construction of a basement, there are several items worthy of consideration which have not been included in the foregoing. A damp-proofing course should always be installed in a masonry wall for the express purpose of preventing dampness by capillarity from rising in a wall around the basement level.

A damp-proof course may be installed directly above the footing in order to reduce dampness in basement by capillarity through footings. This is usually effective where the outside of the wall has been waterproofed with a bituminous coating and where a gravel fill has been installed under the floor. Thus, the only spot vulnerable to capillary moisture would be the contact with the footing.

FRENCH CANADA HONORS PATRON SAINT—A section of the more than 700,000 people who lined Montreal streets recently in the sweltering heat to watch the annual St. Jean Baptist parade. At right, Gerard Latulipps, seven, represents French Canada's saint, St. Jean Baptiste, as he rides a float in the colorful display.

## Trade Balance Shifts North Editor Declares

LONDON (CP) — Arthur Ford, Chancellor of the University of Western Ontario and Editor-in-Chief of the London Free Press, said last night the balance of trade between Canada and the United States is "rapidly shifting in our favor."

Ford, a graduate of the University of Toronto, was proposing a toast to Canada at the annual dinner of the U. of T. Alumni Association of the United Kingdom.

He said the most important changes in Canadian life now are economic.

"The iron resources of the United States are rapidly running out and the new and vast Canadian iron deposits will save the situation for the continent," Ford told his audience, composed largely of expatriate Canadians whose work has kept them in Britain for varying periods.

"Instead of Canada obtaining her iron from the republic, the United States will be purchasing from Canada. The balance of trade is rapidly shifting in our favor. Is it any wonder that the Canadian dollar is worth more than the American—which naturally gives us a smile?"

Ford is here on a visit. Among the guests at the dinner was Norman Robertson, new Canadian High Commissioner in London.

## Cavan Pot Luck Club Completes Two Quilts

CAVAN (ENS)—Mrs. Marshall Larmer invited the Pot Luck Quilting Club to hold their meeting at her home on Thursday afternoon.

Two quilts were made under the huge maple trees shading the lawn.

The hostess, assisted by Mrs. W. Elson, served afternoon tea. The proceeds for the tea and the sale of one quilt to Mrs. Donald Fallis, Peterborough, amounted to $13.25.

## Ford Shuts Most Plants Due To Steel Shortage

DETROIT—(AP)—Ford Motor Company announced today it is shutting down all its Ford assembly plants and three out of four of its Lincoln-Mercury plants after Monday because of a steel shortage.

## Campbellford News

Mr. and Mrs. E. C. McKeel and son Neil are leaving this week for a motor trip to California to visit Mr. McKeel's brother, Clarence.

Miss Joan Toombs and Miss Mary Ellen Thompson, student nurses in Toronto General Hospital, were week-end visitors with the Rev. and Mrs. A. E. Toombs at the Presbyterian Church manse. The former remained for a few days holiday with her parents.

Mr. V. T. B. Rout, physical education instructor at the Campbellford High School has left for Brampton where he has accepted a position on the high school staff there. His wife and two small children are leaving this week to join him.

Mrs. Eva Thring of Tillsonburg is the guest of Mr and Mrs. Walter Lowe, and Mr. and Mrs. William Oliphant have returned to Toronto after spending a few days at the Lowe home.

## St. John's Guild

WARKWORTH (ENS) — The Guild of St. John's Anglican Church met on Wednesday at the home of Mrs. Roy Shea.

Mrs. Arthur Menelly opened the meeting and the Guild welcomed Mrs. Meneilly Sr. who has been in Orono for the past winter months.

Several business items were discussed. Mrs. Marvin Bailey offered to entertain for the next meeting.

Lunch was served by the hostess and Mrs. Thomas tendered her a vote of thanks.

**SUPPLY OF CLOVES**

Most of the world's supply of cloves comes from the islands of Zanzibar and Pemba off the east coast of Africa.

## Ask Supervisor For Parking Lot

The property committee of city council has asked the police commission to provide the necessary authority for market clerk Harry Gabbutt to act as supervisor of the city parking lot on the old Market Square.

If the commission approves the move, Mr. Gabbutt will be checking meters on the lot, turning them back after motorists leave with some time still on the meters and also tagging cars which are left on the lot after the paid for time has expired.

The city weigh scales are being removed now that the old city hall is being demolished and Mr. Gabbutt will be looking after the parking lot from Monday through Friday and will continue as market clerk on Saturdays.

The committee decided to ask the police commission for authority to use Mr. Gabbutt as parking supervisor who said "the police department do not seem to be giving the lot sufficient supervision."

Mayor Hugh Waddell commented that a survey during the first month the meters were in operation, revealed that it was unprofitable to have a policeman spend time watching the meters and turning them back when motorists left.

**FIRST USAGE**

First application of the closure rule in the Canadian parliament was in May, 1913, during debate on a naval bill.

## St. Andrew's W.A. Holds Meeting

CAVAN (ENS) — The North Group of the W.A. of St. Andrew's United Church, Millbrook, held their June meeting at the home of Mrs. Clarence Ball on Wednesday evening.

After a discussion of business the devotional period was opened by the singing of the hymn "Take My Life and Let It Be". Mrs. T. Douglas gave the topic "In the Use of Talents," and Mrs. A. Fallis led in prayer. The hostess assited by Mrs. E. Armstrong and Mrs. H. C. Argue, served refreshments.

## Rosewater Custom Observed By The Queen

EDINBURGH (Reuters) — The Queen dipped her fingers into a bowl of rosewater yesterday to commemorate a Scotsman's rescue of one of her ancestors—James II.

mony dates from the 15th century when the king was beaten up by highway robbers while walking in the country about five miles from Edinburgh.

He was rescued by Jock Howison, who drove the bandits away, then bathed his sovereign's wounds. James rewarded his rescuer with an estate on the condition that each time he or his successors passed that way a member of the Howison family would offer the rosewater to symbolize the tending of his wounds.

Yesterday, in Holyroodhouse where the Queen is visiting, J. D. Houison-Craufurd, a descendant of Howison's, sank on one knee before the Queen. Rosewater was poured into [illegible]. Then Elizabeth symbolically bathed her wounds in the water.

# Montreal Department Store Carries On Despite Strike

By W. R. WHEATLEY

MONTREAL (CP)—Dupuis Freres, big east-end department store which caters particularly to Montreal's French-speaking population, can truly advertise that it is different.

The differences are obvious: self-service on a price-discount basis; comparatively few sales clerks and counter-attendants; uniformed and plainclothes police, all privately hired, stationed about the store.

There are diversions too; a 170-pound woman, in full view, struggling to try on a summer dress—over the dress she already wears; a woman, seated defiantly in a lawn chair, arguing volubly with another over who spotted it first.

The store management says a strike, which began May 2, speeded up long-considered plans for general self-service. It was already in effect in the hardware, kitchenware and paint departments.

**WAGE DISPUTE**

The strike arose over a wage dispute with members of the Catholic Syndicate, an affiliate of the Canadian Catholic Federation of Labor. Sales clerks and other employees—such as those in delivery and mail order services—walked out.

The store kept open. Managerial and department officials, from the top down, worked feverishly to get self-service rolling. Police were hired to protect the store and its customers against incidents.

The management says that compared with a pre-strike staff of 1,300, the store now is operating with 700. Store officials also say that if the strike is settled by negotiation there would be no question that all strikers will be able to return.

Immediately after the walk-out the store splashed advertisements: Serve yourself, get 20-per-cent discount of all marked prices.

As a move toward permanent self-service, that system now is undergoing revision, almost completed. In most cases the marked price now is the actual price to the customer. It includes discount, which the management says varies from 15 to 25 per cent.

There are extra charges for delivery and, on purchases of clothing, for alterations. Except for heavy goods, the store urges shoppers to carry parcels themselves.

**SHOPLIFTERS WARY**

The management says there is no more shoplifting than before the strike. The knowledge that plainclothesmen are present undoubtedly acts as a deterrent.

Blouses, sweaters, underwear, jackets, gloves and handkerchiefs apparently offer no problem to the woman shopper. It's a different story in the girdles-and-corsets department. Lots of clerk-aid there.

N.Z. STRONG MAN—Harold Cleghorn, at 38 a veteran of the New Zealand Olympic team, has been dubbed "strongest man in the Empire." A department store manager, he won the heavyweight title in the Auckland British Empire Games and holds the Empire title for a 936-pound lift.

OLYMPIC HURDLER—John Holland of Hamilton, N.Z., 25-year-old school teacher, will represent his country in the 400-metre hurdles in the Olympics at Helsinki. New Zealanders expect him to place in the first six on the basis of his record which includes reaching the semi-finals in the 1948 Olympics at London and a second in the 1950 British Empire Games.

NEW ZEALAND SWIMMER—Jean Stewart of Dunedin, N.Z., is the lone swimming representative on New Zealand's Olympic team. The 20-year-old school teacher was second in the 110-yard backstroke event in the 1950 British Empire Games and has shown considerable improvement since then.

# Five New Zealand Entrants Strong Olympic Contenders

AUCKLAND, N.Z. (CP)—If confidence paid off, New Zealand would be among the leading countries on an unofficial point basis in the Helsinki summer Olympic games next month.

New Zealanders are entered in only five Olympic events but sport officials are looking for a placing anywhere up to sixth position—in at least three.

Probably the outstanding performer is Yvette Williams, 22, from Dunedin who won the British Empire games broad jump title in Auckland two years ago. She jumped 20 feet 7¾ inches this year—1¾ inches better than the world record—with slight wind assistance and this mark alone entitles her to a contending spot.

Another is John Holland of Hamilton who advanced to the semi-finals in the 400-metre hurdles in the 1948 games at London and who placed second in the event in the B.E. games. The 25-year-old school teacher is considered a certainty to place in the first six.

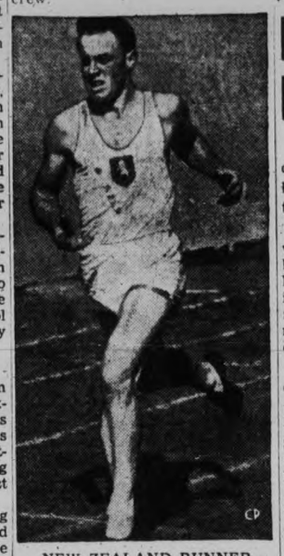
**A DARK HORSE**

The "dark horse" of the team is George Hoskins, 23, of Auckland, who has competed this season in events from 880 yards to six miles. He has made a creditable showing against the leading two-mile men of the world the last two years.

The country's lone swimming representative is brown-haired Jean Stewart, 20, of Dunedin. She was second in the 110-yard backstroke event in the 1950 B.E. games and has shown considerable improvement since then.

Harold Cleghorn, Auckland, at 38 the veteran of the team and dubbed "strongest man in the Empire," is considered a cinch for at least a second or third place in the weight-lifting division. He won the heavyweight title in the Auckland B.E. games and holds the Empire record of a 936-pound lift.

Also going to Helsinki are cyclists Colin Dickinson of Wanganui and Malcolm Simpson of Auckland and a four-oared rowing crew.



NEW ZEALAND RUNNER—The "dark horse" of the New Zealand Olympic team is George Hoskins, 23-year-old Auckland clerk who has competed this season in events from 880 yards to six miles. He has made a creditable showing against the leading two-mile runners from other countries in the last two years.

# Plan Mass Tests Of Polio Shots

HOUSTON, Tex. (AP)—An estimated 35,000 Houston children will participate in a giant experiment with a blood medicine researchers think may prevent paralysis due to polio.

The mass experiment was announced here today by researchers from the University of Pittsburgh. It will be financed at an estimated cost of $500,000—by the National Foundation for Infantile Paralysis.

The inoculations of the children—aged one to six—will begin on Wednesday at eight clinics still to be determined.

The age bracket of one to six is the one in which researchers said 50 per cent of all polio probably will occur.

The medicine to be used—gamma globulin—is made from human blood. Foundation officials today emphasized it can do no harm to children.

The researchers said experiments have shown the medicine has completely whipped paralysis due to polio when given to monkeys and they said they are certain it will do the same to humans in a controlled experiment.

# Exchange Approves Two New Oil Firms

TORONTO (CP)—The Toronto Stock Exchange today approved the following companies for listing in its western oil section:

Bailey Selburn Oil and Gas Ltd. with authorized capitalization of 4,000,000 no par value shares of which 349,000 were issued. The stock was posted for trading today.

Peak Oils Ltd. with authorized capitalization of 5,000,000 $1 par value shares of which 3,750,000 shares are issued. The stock traded at about 52 cents.

The following company was approved for listing in the industrial section: Canadian Chemical and Cellulose Co. Ltd. With authorized capitalization of $10,000,000, no par value shares of which 4,166,667 shares are issued. The stock will be posted for trading July 2.

# Presentation Made Coldsprings Teacher

COLDSPRINGS — (ENS) — A surprise party was held at Coldsprings school Wednesday afternoon in honor of William Little, teacher, who is leaving at the end of the term.

Fifteen mothers and several pre-school children were present.

An impromptu program was presented with Mrs. K. Harper in the chair. Mrs. Leslie McIntosh read an address to Mr. Little and Mrs. Keith Harper made the presentation of a lovely piano lamp.

Sandwiches, cookies and drinks were served by the ladies. At the close, Mr. Little, who is an accomplished pianist, played a piano solo.

# Set Bail For Stabbing In Jail At $10,000

HAMILTON (CP)—Bail for Maurice O'Dell, 25, charged with stabbing John Brown, 37, at the Barton street jail on June 6, was set at $10,000 in magistrate's court this morning.

John Bowlby appeared for accused and informed Magistrate John Robinson that the term which O'Dell was serving at the time of the alleged stabbing had been completed.

# Arsenals Expand To Meet Needs

OTTAWA (CP)—The government's ammunition-producing organization, Canadian Arsenals Limited, is undergoing rapid expansion to help gird Canada against the possibility of a "national crisis," the Commons was told today.

The company's annual report, tabled in the House, showed also that the six-plant armament group is playing a dual role, producing arms itself and assisting private industry in maintaining armament-producing capacity.

The three-page report gave no indication of the magnitude of the ammunition orders handled by Canadian Arsenals; but it was learned that in 1952 they will run to about $150,000,000, with $90,000,000 worth of ammunition contracts farmed out to private arms plants and the remainder handled directly in the Canadian Arsenals organization.

The ammunition plants are located in Ontario and Quebec, employing about 5,000 workers.

After providing sufficient funds to meet operating costs, the Crown ammunition group, headed by Maj.-Gen. J. H. MacQueen, had an operating surplus of $1,224,000 for the 1951-52 fiscal year, the report showed. This was turned over to the federal treasury.

# Mount Pleasant News

Mr. and Mrs. George Geisel of Selwyn visited with Mr. and Mrs. G. Ruth Sunday evening.

Mr. and Mrs. Melville Handley spent the weekend in Toronto with Mr. and Mrs. Murray McCullough.

Mr. and Mrs. Melville Hoar of Lorneville were guests of Mr. and Mrs. Gordon Ruth on Sunday.

Mr. and Mrs. John Thompson and Mr. and Mrs. Wm. Brady of Campbellford were Sunday visitors with Mr. and Mrs. Ira Althouse.

Mr. and Mrs. E. McLean, Mr. and Mrs. H. Tully and Mr. and Mrs. H. Jamieson attended anniversary service at Fairmount Sunday evening.

Mr. Ernest Lowes of Toronto visited at the home of Robert Ruth on Sunday.

Mr. and Mrs. Harry Sisson of Omemee called on Mr. and Mrs. Ira Lowes Tuesday evening.

Mr. and Mrs. Robert Melville of Havelock called on Mr. and Mrs. Ira Althouse Sunday evening.

Miss Marjorie Lowes has accepted a position in Orillia for the summer months.

Mrs. John Gibson and son Peter were guests of Mrs. T. M. Morden recently.

Mount Pleasant United Church is celebrating its anniversary on Sunday, June 29 at 7.30 p.m.

# M.P.'s Pension Plan Passes Final Vote

OTTAWA (CP)—The Commons voted 172 to 3 today to finally approve legislation to provide annual pensions for long-service members up to a maximum of $3,000 a year.

It was the second formal division in two days on the measure, sponsored by Prime Minister St. Laurent after agreement among all party leaders. Yesterday the House gave second reading to the bill by a vote of 170 to 3.

The three opponents were Howard Green (PC—Vancouver-Quadra), E. D. Fulton (PC—Kamloops) and Gordon Churchill (PC—Winnipeg South Centre).

# Steelworkers Out As Representatives

PORT WELLER (CP)—Employees of Port Weller Dry Docks Limited yesterday voted against acceptance of the United Steelworkers of America C.I.O.-C.C.L. as their bargaining agent.

The vote, climax to an eight-month organization campaign, was 277 against and 100 for the union.

# Lifeguards Busy At Park

Crowds of men, women and children flocking to Inverlea beach during the recent hot weather kept lifeguards hopping.

The lifeguards, Barry Hollingsworth and Gerry Armstrong, have been busy helping people who have walked out over the heads in water, people getting too many mouthfuls of water, and the odd not-too-good swimmer in difficulty.

Hollingsworth's work started early Thursday when at 1 p.m. he pulled out a three-year-old boy who fell face down in the water. Shortly after, when the large crowd was just going home, Hollingsworth had to jump down off the tower to help a 12-year-old who was just starting to go under the water.

In the evening a father went to the assistance of a baby girl who fell in a foot of water near the shore.

# Ready To Raid Manchuria If Bars Lifted—Air Boss

SEOUL (AP)—The boss of the Far East United States Superforts said today on this second anniversary of the first B-29 strike in Korea that his command is ready to hit Manchuria if restrictions are lifted.

Brig.-Gen. Wiley G. Ganey, head of the bombing command, predicted his Superforts would "do a good job" but added:

"If it comes to that decision, we would probably like something that flies a little higher and a little faster."

**LIKES SUPERFORT**

Ganey assured this correspondent that, like his men, he is sold on the Superfort even though most of those flying now in the Far East date back to 1943 and 1944 and have been rebuilt several times.

Some of the men who fly the Superfort say "it's the best plane, pound for pound, ever built."

That first strike two years ago was a hurry-up job. Only three days before, the North Korean Communists had invaded South Korea. Four Superfortresses had arrived on Okinawa from Guam. Ground crews were following by slower craft. Okinawa base officials hastily recruited cooks, clerks, infantrymen and U.S. civilian women secretaries to load the 500-pound bombs.

Since that first hasty blow at Red tanks, trucks and soldiers streaming south toward Seoul, Superforts from Okinawa and a base near Tokyo have pounded the Reds from the Manchurian border to southeast Korea with about 150,000 tons of bombs.

The B-29s bombed the Red front lines, wiped out ports, refineries and factories, slashed railway lines, destroyed bridges and knocked out North Korean airfields.

**EIGHT PLANES LOST**

In two years of war, five Superforts have been shot down by Red planes and three by anti-aircraft fire. Superfort gunners have destroyed 11 MIGs and probably four more.

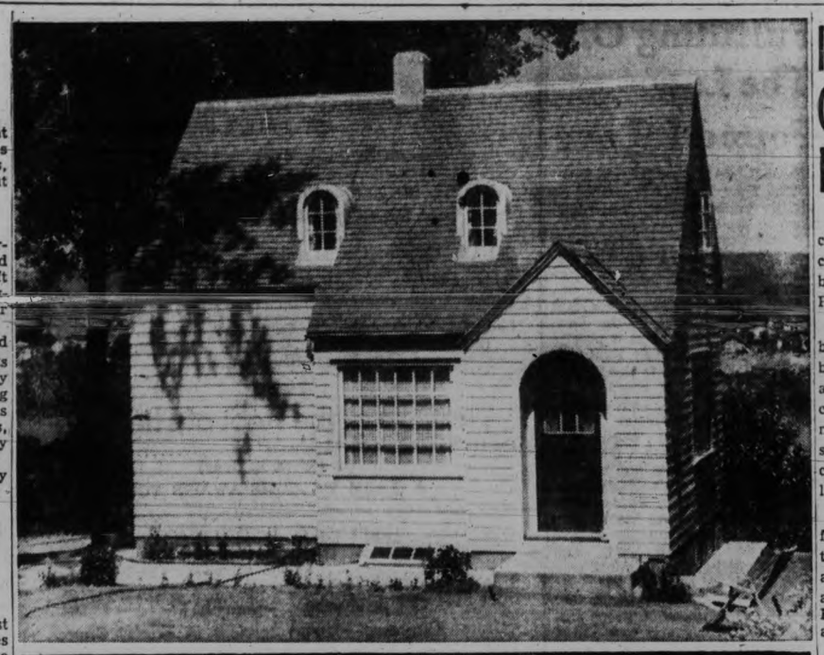
Because of the hot opposition and the larger number of escort jets required, the Superforts ended day strikes and began night bombing Oct. 29 last year. With bomb sights that aim through the darkness, they pound airfields and supply bases.

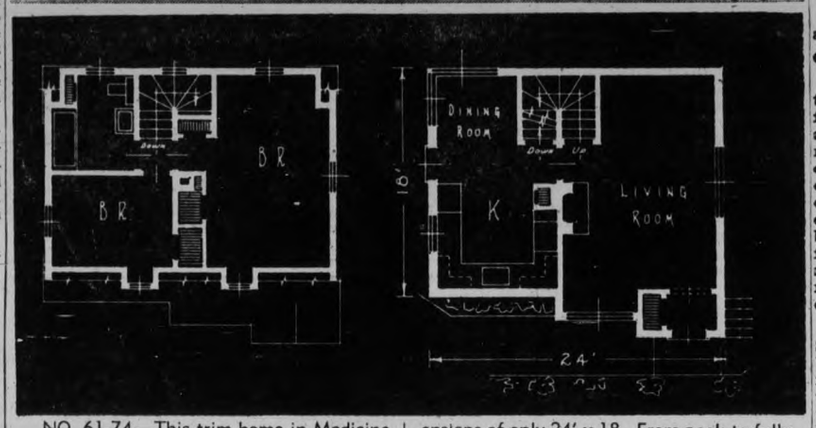
The planes operate singly by night.

# Locusts Measure Six By Three Miles

KARACHI (Reuters)—Anti-locust teams helped by four United States planes are in action against two large locust swarms which have entered Pakistan during the last few days. Two planes are attacking the swarms in flight while the others are spraying the cotton fields in Sind province.

One swarm, measuring six by three miles, passed over Panjgur in Mekran state in the Baluchistan coast, and a smaller one passed over Turbat in the same state. More swarms are expected from the Middle East.





NO. 61-74—This trim home in Medicine Hat, Alberta, commands an enviable view of the South Saskatchewan river. While somewhat diminutive in appearance, it packs a lot of convenience in overall dimensions of only 24' x 18. From peak to fully completed basement, not one inch of space is wasted! Rooms are all good size, with plenty of closet space provided the bedrooms.—For working drawings write Home Building in Canada, 372 Bay St., Toronto.

# Reading Club Organized For Children

A summer vacation reading club to take the form of a fishing club will begin Saturday at the boys' and girls' department of the Peterborough Public Library.

Vacation reading clubs have been a popular feature at the library for the past six years. They are organized primarily to keep children reading during the summer. The project receives the full support of school teachers in the city, who recommend the book lists which will be used.

Registration day, Saturday, will feature two films to be shown at the main library, in the morning and at the branch library in the afternoon. The films are, Jolly Fish—story of a boy fisherman, and Here Comes the Circus.

The motto of the club is Read a Book and Catch a Fish.

**GET LICENCE**

When a child takes out his first three books he will be given a fishing licence, a registration fish and a little fisherman with his name on it which will be placed on a mural at the library. For each book he reads he will receive a fish to be placed at the end of his line on the mural. The book lists have been divided into five classifications. And books read from each classification are represented by a different colored fish.

At the end of the season, in September, a fish fry picnic will be held for all members who have read 10 or more books. Two prizes will be given; one to the member who has caught the greatest number of fish and one to the member who has caught the most varied colors of fish.

# Claims Pressure Groups Try To Block Thread Standard

REGINA (CP)—J. Arnott of Toronto, director of the Dominion Association of Fire Chiefs, said yesterday pressure groups are trying to destroy efforts to standardize firefighting equipment.

Speaking at the annual Saskatchewan fire chiefs' convention here, Mr. Arnott said a five-thread record was chosen by the standardization committee in an attempt to [illegible] standard thread across Canada.

He said this followed a survey that found more than 25 per cent of the fittings were on the five-thread record, while only 10 per cent were on the United States national standard thread.

The five-thread record is in the hose couplings and connections with equipment and machines.

Mr. Arnott said that after an approach to the federal authorities and when the five-thread standard was almost achieved, someone or some organization told the government that the wrong thread has been selected. The U.S. standard was said to be the right one.

**HITS 'NEFARIOUS WORK'**

"A further example of the nefarious work is shown in a resolution forthcoming from the recent convention of the Dominion Fire Prevention Association, which urged the federal government not to pay the presently offered one-third of the cost unless the so-called U.S. national standard thread is adopted."

In Ottawa, Maj.-Gen. F. F. Worthing, Co-ordinator of Civil Defence, said he would favor the five-thread standard because it was decided on as preferable by experts of the government-sponsored Canadian Standards Association. The U.S. standard is 7½-thread.

Gen. Worthington said that, after some attempts to achieve a Canada-wide standard, civil-defence authorities compromised by agreeing to pay one-third the cost of converting to a single standard within each province. At present, Ontario is standardizing on a five-thread basis.

Alberta so far was the only other province that had informed the civil-defence organization it was entering the plan. Its standard has not yet been made known.

# Cobourg Union Signs Contract

Cobourg Matting and Carpet Co. Ltd. of Cobourg have signed a contract with Local 1032, Textile Workers Union of America (C.I.O.-C.C.L.) giving men a 14-cents-an-hour increase and other improvements.

It is the first contract signed between the union and the company and it affects 54 production workers.

Men get 14 cents an hour extra; women 12 cents an hour.

Other contract provisions:

A modified Rand formula stipulating that everybody in the bargaining unit must pay dues whether or not they belong to the union.

**ESCALATOR CLAUSE**

A cost-of-living escalator clause granting a cent an hour for each 1.3 rise in the official index. The bonus cannot be decreased except through negotiations.

If employees report for work and there is no work that day they are guaranteed four hours wages.

Average hourly earnings when they report for work and the machines become idle.

Eight paid statutory holidays; a week's holidays after 45 days employment, two weeks' after a year; and 10 minute rest periods morning and afternoon.

Employees will reach their top rate within 90 days.

Albert E. Johnston, director of T.W.U.A. in the Trent Valley area, said it was one of the best contracts signed this year in this district.

Grade 8 to 9—Donna Doughty, Lorne Hale, Alice McKay, Sylvia Nicholls, Beryl Nichols, Bob Whitehill.

Grade 7 to 8—Brian Edwards, Phyllis Heard, David Parish, Noel Pearson, Don Phillips, Michael Smith.

Grade 6 to 7—Gene Blewett, Faye Harding, Carol Hewitt, Don Higgins, Rachael Hodgson, Florence Mills, Winona McKay, Charles Murray, Gordon Murray, Gary Payne, Kenneth Rea.

Principal—Rae Brownsell.

Grade 5 to 6—Don Dalton, Bruce Forsythe, Leslie Fowler, Jeanne Hewitt, Richard Jopling, Ronald McCann, Wilma Nicholls, Lorraine Parish, Dianne Wood.

Grade 4 to 5—Pepeita Arnott, Zoe Barnes, Douglas Blewett, Barbara Bryans, Victor Cole, Raymond Conners, Dale Doughty, Gail Fry, Arlene Harding, Frank Howard, Janet McKay, Carol Thompson, Marilyn Thomson, Gloria Wannamaker, George Whitehill.

Grade 3 to 4—Terry Anne Findlay, Larry Heard, Danny Lillow, Lynda McClennan, Ronnie Murray, Leslie Nichols, Nancy Nicholls, Peter Pearson, Murray Payne, Susan Whitehill, Rodger Wood.

Teacher—Ellen Murphy.

Grade 2 to 3—George Beaumont, Philip Blewett, Linda Bryans, Barry Doughty, Dean Edwards, Susan Fowler, Martyn Hodgson, Bain Jopling, Donald McKay, Linda Pearson, Jimmy Smith, Kees Stolk, Thomson Beverly, Allan White, Donald White.

Grade 1 to 2—Howard Barnes, Gayle Bernard, Conners Karen, Conners Linda, Barry Dalton, Lynn Edwards, Barry Harrison, Marry Hartman, Danny Jopling, Jimmy Jopling, Donna LiHaco, Stephen McConkey, Tanya McLennan, Marilyn Murray, Johnny Phillips, Alewyn Stolk.

Grade 1 to Sr. 1—Archie Barnes, Paul Blewett, Roger Fowler.

Teacher—Norma Patterson.

# Court Declares House Public Place

BANCROFT (ENS)—A lengthy legal encounter between S. G. Robinson, Q.C., assistant county crown attorney for Hastings and Malcolm Robb of Belleville, defending John Smith of Boulter, ended when Magistrate R. C. Jackson of Napanee fined Smith $10 and $62.30 costs in Bancroft and district police court on Wednesday afternoon.

Besides paying the fine for permitting drunkennes on his premises, Mr. Smith had his premises declared a public place. The case was a result of a raid by Bancroft detachment O.P.P. on Feb. 17. As a by-product of the police raid several people who were at a party in the house at the time were charged and convicted under sections of the Liquor Control Act. Smith's case had been enlarged a number of times at previous courts because of disagreements between the legal counsel.

Other fines levied during the afternoon were $10 and costs for Charles Marois of Bancroft for being drunk in a public place; $20 and costs for Rocky Post of Coe Hill for careless driving; $10 and costs for Emerson Reed of L'Amable for inadequate brakes and another $5 and costs for failing to produce a driver's licence.

# 150 Farm Workers Arrive From Germany

TORONTO (CP)—Some 150 German farm workers arrived at Union station today. All are single men.

With the newcomers are Fritz Vogl, 32, who spent six years as a prisoner-of-war in Sudbury, Alex Bittner, 24, who left East Germany to avoid conscription by the new East German Army and Hans Eisbrenner, 20, who formerly mined uranium for the Soviets.

Vogel plans to work on a Barrie farm. Bittner will be employed in Brampton and Eisbrenner has a job waiting for him in Stratford.

# Swede Pleads Guilty To Spying For Soviet

STOCKHOLM (AP)—A former Swedish artilleryman pleaded guilty today to spying for the Soviet Union and said Swedish Communists planned to sabotage defences if Russia marched on Sweden through Finland.

Hugo Gjerswold was the third man to plead guilty in the trial of seven persons accused of revealing secrets of Sweden's northern defences to Russian contact men. He is a reporter on the Communist newspaper Norrskefsflamman, and was formerly a non-commissioned officer in the Swedish artillery.

KINGAN'S Introduce

LOXAR SOIL CONDITIONER

To Peterborough

LOXAR is a genuine Soil Conditioner — and is tested for use in holding clay soil particles, in easy-to-work stable aggregates— Improves soil aeration—overcomes pudding—prevents caking—converves soil—encourages bacterial activity—controls erosion—promotes drainage—consumes moisture. Converts hard-to-work soil into a crumb-like loamy condition.

What Is Loxar?

A dry dust formulation of a synthetic resin soil condition in ready-to-use form for direct application to soil. No mixing with water required.

What Does Loxar Do?

LOXAR converts hard-to-work soil into a crumb-like loamy condition

Here Now—For Gardens, Lawns

Use LOXAR wherever you want things to grow around the house — gardens, flowers, lawns, shrubs, window boxes, potted plants . . . and you can apply LOXAR ANY time the soil is workable —it knows no season!

DIRECTIONS

Prepare the soil to a state of tilth normally required for seeding. Dust or spread LOXAR evenly, using the rate of application determined by the depth of soil to be conditioned. Work into the soil immediately after spreading. Do not disturb the soil 24 hours after the Loxar treatment.

CHURCH HIT BY WINDSTORM — Heavy wind storms caused heavy damages to St. Jeanne's Catholic Church in Corcoran, Minn. The roof and steeple were ripped off (right) and debris covered the inside of the church (left), but the Madonna and Child statue was left untouched. Minnesota was hard hit by two bad storms in as many days.

# Historic Millstone Communion Table

OMEMEE (ENS) —An historic millstone, in use more than 80 years ago at Bests' mill, Mount Pleasant, is to become the communion table in the open air chapel of Quin-Mo-Lac Camp, near Madoc. The stone has been donated by Hiram Best third-generation operator of the mill. Mr. Best says that it is one of the four stones used by his grandfather, the late Samuel Best, when he operated the flour mill near the present site in Mount Pleasant.

Just as the use of millstones was becoming obsolete, in 1911, one of the greatest rainstorms of all time fell upon Mount Pleasant, a fall of about 5 inches. High waters swept away the old dam. The saw logs, stored in the reservoir above, battered down the mill and left it a shambles. The story goes that Mr. Best's father, the late Thomas Best was almost caught in the building. He had gone to the mill for a saw. He found the door jammed so that he could not get in. Five minutes later the building and all was gone.

The present saw and grist mill is located up-stream from the old site, thus it was possible to rescue the stone from the rubble pile where it has lain for the past 40 years.

Millstones were made from a flint-like rock called French burr. This particular stone, which was the top or revolving part of the grinder, is made of 15 separate pieces carefully fitted to make one round whole which is bound together with an iron band. In the centre is found the iron fitting which connected the stone to the revolving spindle forcing its locomtion. Around this fitting is the hole into which the grain poured as it found its way out between the two grinding stones. Veterans say that if for any reason there ceased to be a cushion of grain between the stones, one soon noticed an odor resembling bluestone. And not much wonder, for the present stone weighs between five and six hundred pounds, and at that it is lacking all the plaster of paris with which the top stones were backed and reinforced. On the flat, or grinding surface, one can still see the many rayed laminations which made for more effective grinding.

**ANCIENT TIME**

As they break Bread at the Lord's Table, the young people of this United Church Camp will be close to something very vital and traditional in connection with the bread their fathers broke. Even in Hebrew times the ancients spoke of their "Re Ha Yim" or "Mills"—a plural word signifying the two stones. Hastings' Bible Dictionary describes them thus: "They were in shape like the 'bradh' or querm in use until comparatively recent times in the Hebrides and the west of Iceland, and consisted of a nether millstone or 'sekeb' which was fixed, and convex on its upper surface, up which the upper millstone or 'rekeb' (rider) rotated. In this was a central hole through which the grain was poured while the stone was being rotated by means of a handle.

"The upper millstone was made of porous unpolished lava . . . In later days mills became larger and were moved by animal power, or wind, or water."

The same source says that the "great millstone" (mulos onikos) referred to by our Lord in Matt. 18: 6, was either one rotated by an ass or it was the nether millstone. At any rate those members of the Omemee Y.P.U. who helped the Rev. Z. E. R. Zufelt carry out the millstone from Best's, were fully aware of what their chances would be if they were cast into the sea with that one around their neck.

Those responsible for this work are young men who have long shown an active interest in Quin-Mo-Lac Camp. It will be recalled that when the Bay of Quinte Conference Y.P. secured the new site at Moira Lake (near Madoc) the Omemee and Bethel Young People paid for and constructed the first campers' cabin on the property.

Last weekend, two truck loads of camping and building equipment, along with the millstone were taken to Quin-Mo-Lac by Bill Mahood and Roger Northey, assisted by their minister, Mr. Zufelt, Don Raffan, Ernest Raffan and Glen Corneil.

# Fulfilling Of The Law Found InLove

By WILLIAM E. GILROY, D.D.

The New Testament cannot be rightly understood without reference to the Old.

Christianity began with Jews, and it was a Jew, Paul, who was its great second-generation interpreter.

Deep and dominant in Judaism was the conceptoni of the Law. One can see how large a part it has in the Epistles of St. Paul, and in his efforts to relate the Law to "the faith that is counted for righteousness" and to his conception of freedom in Christ

In His recorded words and teachings Jesus gave no such elaborate discussions and expositions as are in Paul's Epistles. In plain, unmistakable words, however, He summed up the Law in two great commandments to love God with all the heart, and strength, and soul, and mind: love one's neighbor as one's self.

But all was not contained in that simple pronouncement. Jesus amplified it with much concerning humility and service, and the essence of true greatness. Also, He brought to it an unmistakable illustration.

This was the Parable of the Good Samaritan, recorded in Luke 10. That a Samaritan, one of those with whom, racially and religiously, the Jews had no dealings, should actually be a better exponent of the commandment to love one's neighbor than a Jewish priest, or a Levite, was to put the matter in the most challenging way possible, and to assert in the strongest way that love in action meant far more than religious pretentiousness or any professed superiority.

Jesus did not mean to imply for a moment that a Samaritan was better than a priest or a Levite. As a matter of fact there was much warrant historically for the attitude of the Jews toward the Samaritans.

These colonists had brought their various pagan religions with them, but when trouble came upon them, as recorded in II Kings 17: 24-41, they had a Jewish priest come among them to instruct them in "the religion of the land."

The result was a corruption of Jewish religious elements with paganism. But this was not all.

They refused to let Jews pass through Samaria on their way to their religious feasts, and they tried in every way to hamper and oppose the Jews who at a later time returned from Babylon to rebuild Jerusalem (See the Books of Ezra and Nehemiah).

Yet a man of that background, despised by the priest and Levite, who with their background and profession ought to have been the foremost in neighborliness, was the real man of love and compassion. It is character and action that count; not profession, or pride of heritage.

It is a parable for Priests and Levites, and for all "good Christians," who are not Good Samaritans in heart and action. Love is the fulfilling of the law.

# UK Students Make Replica Of Royal Tour

LONDON (CP)—If there is a sudden boom in emigration to Canada from southern England much of the credit will be due to the initiative and industry of pupils attending primary school in the Kentish village of Wrotham.

The students, 135-strong, have just completed a unique and successful job of "selling" Canada to prospective settlers or visitors. In the process, the youngsters learned a great deal themselves about the senior overseas member of the Commonwealth.

About seven months ago senior pupils decided to put together an illustrated map depicting the highlights of the tour last fall of the Queen, then Prince Elizabeth, and the Duke of Edinburgh.

**WROTE TO NEWSPAPERS**

Letters were sent to some 40 editors of representative Canadian newspapers, Chambers of Commerce and other organizations, asking for photographs of the Royal Couple visiting their areas.

Accumulation of an assorted variety of exhibits was so great that the full complement of the school embarked on a new venture which blossomed into an exhibition showing a cross-section of Canadian life and its resources.

There were scenes from Hiawatha, a model of a typical farmstead, a glimpse of industrial developments, a lumber camp and even replicas of an Eskimo village and an Indian encampment. The display also portrayed models of Red-coated Mounted Police in a Rocky Mountain setting, a scene showing a colony of beavers erecting a dam, a frieze of maple leaves, as well as the coat-of-arms of every province.

Under the map of the Royal Tour, centrepiece of the exhibition, were scrapbooks recounting in detail the tour itself as well as pictures and clippings depicting almost every phase of Canadian life.

# College Offers Gaelic Course

HALIFAX (CP) — Elementary and advanced Gaelic courses will again be offered at Dalhousie University during the Nova Scotia teachers' summer school.

The elementary course, designed for students with no knowledge of Gaelic, will include lectures on the literary and historical background of the language and basic grammar and phonetics.

In the advanced course, Gaelic-speaking teachers will improve their reading and writing ability. Special attention will be given to translation, a study of Gaelic place names in Nova Scotia and teaching methods.

Full credits for licence purposes will be awarded to successful candidates.

# PETERBOROUGH EXAMINER

VOL. CIV. No. 152 — SATURDAY, JUNE 28, 1952 — PRICE FIVE CENTS

## MAIN STREET TOPICS

**FINE RAISED**

Magistrate E. A. Gee of the Lindsay police court believes there have been too many charges of driving an automobile while ability is impaired by the use of alcohol and as a result raised a fine imposed against a South River man to $75 from the minimum of $50, in court this week.

**ATTEND LABOR SCHOOL**

Two members of Local 293, United Packinghouse Workers of America (C.I.O.-C.C.L.) will attend a C.C.L. summer school at Port Huron, Mich., next week. They are Walter James and E. Lorne Bebee. The C.C.L. has been given the use of the F.D.R. Labor Centre at Port Huron to instruct key members of unions on trade union matters.

**RE-ELECTED TO COUNCIL**

The Rev. Charles Muxworthy of the Peterborough Church of the Nazarene was re-elected to the General Young People's Council of the Church of the Nazarene at sessions held in Kansas City, Missouri, recently. Mr. Muxworthy will serve four years on the council which is composed of 10 members from all sections of Canada and the United States.

**ELECTED PRESIDENT**

Les Calladine was elected president of Quarter Century Club of the C.G.E. at a meeting of the trustees. Ab Doris was renamed honorary president. Stan Shields was elected vice-president; Ray Derrick, treasurer; Max Metheral, secretary; Alex Kirkcaldy, historian.

**SUGGESTION MONEY**

C. W. Parks, carpenter shop of the C.G.E. was awarded $87 for the suggestion that stakes received with carload shipments of lumber could be converted into one-inch boards for use in the box factory. Awards given out in the latest report of the suggestion committee of the C.G.E. totalled $325. The highest award went to Mr. Parks.

**SAVES LIFE**

The inhalator of the Lindsay Fire Department saved the life of Thomas Turnbull, King St., Lindsay, Thursday after he suffered a heart attack. Dr. H. G. Metcalfe put in a rush call to the fire department when he found Mr. Turnbull unconscious as a result of the attack. The inhalator was used for 20 minutes before he could be taken to the hospital and placed in an oxygen tent.

LAWRENCE OUTRAM, son of Mr. and Mrs. Howard W. Outram, 560 Chamberlain St., recently graduated with his Bachelor of Arts degree from McMaster University, Hamilton.

## Waltz In Water Could Save Your Life

Waltzing in the water—it sounds ridiculous, but it may save your life.

It is a new method to avoid drowning which has achieved such miraculous results that it is being publicized in newspapers and periodicals throughout the United States and Canada.

Peterborough had its first water tragedy of the season Thursday night when a 31-year-old man drowned in the Otonabee river. Death by drowning takes approximately 10 lives in the city and district every year. With such a comparatively high annual rate of water fatalities, Peterburians are becoming increasingly conscious of the need for new water safety methods.

Water safety programs and courses of instruction conducted by city organizations and the stationing of lifeguards at various swimming sights have done much to lessen the number of drownings. But this new method, by which weak or even non-swimmers can survive most of the common accidents which can happen, surpasses the best of former water safety methods.

This new method, called waltzing in water was devised by a swimming coach at one of the southern state colleges.

**WRONG IDEA**

Coach Fred Lanoue believed that the idea, emphasized by most teachers, that swimming strokes such as the dog paddle and the crawl should be mastered for security in the water was wrong. And he proved his point.

Lanoue claimed that swimming strokes were designed for people who wanted to go somewhere in the water. What was needed was a method to enable people to stay in one place indefinitely until a rescue party arrives.

Working on this idea he came

(Continued from Page 19)

*FOR BETTER PLAYGROUND SUPERVISORS for Peterborough's city parks this summer, boys and girls attended this week a training course for supervisors at Quin Mo Lac camp near Madoc. There with supervisors from other Central Ontario cities Peterborough's supervisors were taught handicrafts, games of all sorts and the proper way to conduct a playground program. The 78 boys and girls attending the course did craft work under the guidance of Doug Butler, community programs branch, department of education. Mr. Butler (left, top photo) examines work by Don Russell of Cornwall, Evelyn Wallace and Ann Howell of Peterborough. Lorraine Whitley and Maureen Colterjohn (left to right, lower photo) pause while repairing a table.—(Examiner Staff Photos).*

## Playground Supervisors Learn To Fill Empty Days

Gone are the Tom Sawyer and Huckleberry Finn days when boys and girls spent summer holidays swimming and fishing. Now the younger generation have a well-organized summer program of swimming, sports and craftwork to fill in their leisure hours in the city's parks.

To conduct a proper program on a playground requires qualified instructors or supervisors. During the past week Peterborough's playground supervisors attended a special one-week camp at Quin Mo Lac camp on Moira Lake, near Madoc, learning various playground procedures.

For the week the camp became one large playground with the playground supervisors portraying the children and municipal recreation directors the playground supervisors.

Five years ago the community programs branch of the Department of Education introduced the one - week pre-summer playground courses to develop qualified supervisors. The camp is a co-operative effort featuring the community programs branch and the various municipalities.

**TWO COURSES**

This year in Ontario only two such courses are being held. The Peterborough group attended the East Central zone course while the other course was held for playground supervisors in Western Ontario near Brantford.

In previous years most of the municipalities in the East Central zone held three-day training courses on their own. But this year at a zone meeting chose to follow the pattern of other Ontario groups in holding one large camp course.

Playground supervisors from Bowmanville, Cornwall, Arnprior, Trenton, Belleville, Port Hope, Frenchman's Bay, Norwood, Lindday, Haliburton and Peterborough started that course on Monday, closing it on Friday. More than 75 boys and girls, some teachers, others university students, but mostly high school students, attended.

The work, requiring a full day which usually began at 7 a.m., ending late at night, groups from pre-school age to high school students for both boys and girls.

**PRACTICAL AND THEORY**

Each class included both practical work and lectures. The supervisors worked with paper mache, sand, plasticine, wood soap in the arts and crafts, took part in dramatics, played group, circle, quiet and relay games.

In lectures the boys and girls learned the "why" of such a program, principals of good leadership, how to tell children stories, and how to keep the playground a safe place to play in.

All in all the camp course provided the supervisors with an abundance of information on how to make an all-round day program.

Apart from the day to day work the supervisors were taught how to provide special events, generally one for each week. These included doll and pet shows, tabloid events, parent's days, penny fairs, and town-wide demonstration (held especially on closing day).

The best possible instructors were provided by the community programs branch. Organizing the camp was district representative and instructor in organization and administration, C. A. Weir. Others from the department of education were: Miss Orphie Orr, teaching games and music, Douglas Butler, department of education crafts administrator, assisted by Mrs. B. Martin of Leaside.

Mr. Weir in arranging the camp course added the services of Miss Muriel Whitely of Port Hope for crafts and Miss Joyce Watson of Belleville for story telling lectures and dramatics.

**DIRECTORS**

Recreation directors from the municipalities also acted as instructors: Don Shay, Bowmanville, special events; William Workman, Trenton, active games; sportsmanship, field games, Alex Sinclair, Peterborough, sportsmanship and field gabes; William Mitchell, Lindsay, playground safety; Lloyd Doran, Belleville, and Herbert Baker, Haliburton, other groups.

With new ideas on playground activities, Peterborough's supervisors will open the playgrounds in the city on Wednesday. Working at the parks will be: Riverside, Lyn Faircloth, Malcolm McMartin; Inverlea, Nan Pitchford, Charles Stoddard; Fleming Place, Mary Craw, Harry Carleton, Hamilton, Phyllis Peryer; King Edward, Grace Sampson, Jack Laundry; Turner, Verna Rose, Pat Doherty; Confederation, Evelyn Wallace, Bob Allen; All Saints' totlot, Ann Howell.

## 5 Grocery Stores Disappear Off George St. In 25 Yrs.

This is hardly news to the average housewife, but the fact is that small grocery stores are becoming fewer and fewer. And the trend toward a very few, well-stocked chain stores is continuing. Take a section of Peterborough's main street for example. Twenty-five years ago there were six grocery stores between Charlotte and Brock Sts. Now that D. H. Hunter has sold out at 439 George St. (two doors south of Brock St. on the west side) there is only one. It is one of the seven Braund stores in the city.

According to the city directory the population in Peterborough and outskirts has climbed from 28,150 in 1927 to 43,803 in 1952. Yet despite this 15,000 increase in population the number of grocery stores has decreased. As cited before the number of grocery stores between Charlotte and Brock Sts. —the heaviest business section of the city—has dropped from six to one.

How did this come about?

Not even all business men in the city are agreed as to the cause. Or at least not for publication.

**SCARCITY OF HELP**

Donald H. Hunter said a principal reason was the difficulty in getting good employees.

"How can you compete with the high wages paid in factories, the five-day week, and the various 'plans' that they now have?" he asked.

At the same time he cited statistics that indicated that 62 per cent of merchandising is still done through ordinary stores, not the chain stores.

Another grocery man who had been in business on George St. for many years had a blunt answer:

"Rents are too high these days for the food business. There's no question about it. The rents just can't be paid by an ordinary retailer in the food business. You need a super-market."

Two expense items he mentioned were the high cost of hired help and the cost of maintaining trucks for a delivery service.

He gave an example of where a retailer in another line was prepared to pay several hundred dollars more a month than the grocery man in order to get a store on George St.

He conceded that there were economies in chain store operations.

"The public wait on themselves," he said.

**TURNOVER**

Another grocery man who wished to remain anonymous said the "secret" was "turnover." "If you've got the stuff the people will come."

He said the people with so much money to invest find that they can get better returns in another line of business. Consequently the grocery field is becoming more and more the preserve of the chain stores.

Many people fail to realize, he said, that the extra nickel added to the price of a couple of cans of tomatoes in a small store includes extra service and attention. And there is the cost of maintaining credit as well.

This was a sore point with several small grocers.

Said one: "You hear people raise a big fuss about keeping the little corner store in business; yet you find these same people give 75 per cent of their trade to the chain stores downtown. They only come to the corner store for convenience sake: when they need an extra quart of milk or they've suddenly run out of bread."

No matter how they felt about it, none would deny the trend: More and more super-markets.

## Benefit Movie Shown Sunday, Operator Fined

COBOURG (ENS)—Whether or not the Lord's Day Act was out of step with the times was not for the court to decide; the court's duty was to carry out the law, ruled Magistrate R. B. Baxter Friday in fining Stan Williams, Cobourg pavilion proprietor for running a benefit movie on a Sunday night. He fined him the minimum amount prescribed by law, ten and costs.

On the night of Easter Sunday, Williams, who is a member of the Japper, Wilcox Benefit Fund Committee, which has raised more than $3,000 for the paralyzed Cobourg hockey player, held a benefit movie in his pavilion and the gross receipts, $45, went to the Wilcox fund. As a result of a protest from the Lord's Day Alliance, a charge was laid against Willians, which was heard last week, the magistrate reserving his decision.

**GIVEN JUDGMENT**

"I have satisfied myself as to the law on this case and I have noted the judgment of Mr. Justice Gale in Rex vs. Icelandia. I can come to no other conclusion than that the defendant is guilty as charged. He is the operator of the pavilion, was responsible for the benefit movie being held and there was a charge made to attend it. I am aware that this was a benefit for a very, very worthy cause and that it was done with the best of intentions. Some may feel that prosecution under the circumstances was not fair and that the law in this regard is out of step with modern society. To them I would suggest that they read Mr. Justice Gale's judgment for he said that whether or not the law was out of step with modern times, any change in the law would have to be made by the legislature and that the court's obligation was to carry out the law as laid down. Whether I agree with the Lord's Day Act in this instance matter not. The court has to carry out the law as it stands," said the magistrate.

## Tha-a-a-a-t Long

*The Hon. Harold Scott, M.P.P., just arrived back home after a ten-day fishing trip in Northern Quebec and Labrador, springs the season's tallest fishing tale. It appears while guest of Noah Timmins, Jr., at his Trinity Bay salmon club the Trinity River was filled with pulp being driven to the boat-loading docks. As the St. Lawrence River tide rose to high each 12 hours and slacked the Trinity River water and pulpwood flow, tugboats had to go upstream and haul the logs down. BUT, the river was so filled with salmon that the Honorable Minister and his fishing friends had to fish out enough salmon to make room so the pulp logs could be towed. That's his story and he's stuck with it.*

## Thief Frightened From Mill At Norwood

Provincial police are co-operating with Chief Constable Herbert Bradley of Norwood village in hunting for a man who is suspected of breaking into Blatchford's Feeds Ltd., late Friday night.

The man got inside the office of the feed mill but he was apparently frightened away by a farmer who came to the mill about 11:30 p.m. to pick up a bag of feed that had been left for him.

The farmer noticed that the office door, always locked at that time of night, was open. He suspected a breakin and went downtown to get Chief Constable Bradley.

**MAN FLEEING**

When the constable and the farmer returned they saw a man run from the building and get in a car, parked by the cemetery a couple of hundred feet away. They got to within six feet of the car when the unidentified driver started up and drove away in the direction of Highway 7.

The would-be thief got in by taking the screen off a west window of the mill which is located behind the C.P.R. station. He smashed a pane of glass, put his hand inside the window to undo the catch, and then pried it up with a bar.

The office safe was only a few feet away. It was not touched and a brief check revealed nothing missing from the inventory.

Police believe that the farmer, who came to pick up his bag of feed that was let on the platform, frightened the man away.

O.P.P. Constable Russell Pollard is assisting Chief Bradley in the investigation.

## Holiday Trek Starts To Kawarthas

### Trains, Buses, Cars Bring Hundreds As Vacations Begin

Packed to capacity, buses, cars and trains started to pour into Peterborough early Friday night bringing in hundreds of holiday-bound families to lakes and rivers in the Kawartha district for Dominion Day holiday.

The holiday rush began on the highways No. 7 and 28 early Friday afternoon and the steady lines increased until midnight. Early today the traffic picked up the same tempo, all heading north to cottages for a swimming and fishing weekend.

Most of the cars were Canadian-owned by families in Toronto, Hamilton and Southern Ontario cities. A few United States cars were noticed along the main street today, but more are expected late next week when Americans celebrate July 4.

Colonial buses were jammed along the lakeshore runs Friday night and in the Peterborough district traffic via bus grew heavier after factories closed.

Bus routes, heading into the northern districts, were expected to be jammed today carrying workers home and holidayers to summer homes. The rush is expected to ease up Sunday, but will strengthen again Monday night.

Trains, C.N.R. and C.P.R., reported increased passenger loads Friday but as the buses expected today's load to be heavier.

Both bus and train officials pointed out that a large number of workers, even though they were through work Friday night, would be unable to leave immediately for camps. They are expected to join store workers today on the northern movement.

A number of Peterborough families opened summer cottages several weeks ago but only for weekends, because children still were attending school. Public and separate school terms closed for Peterborough's 5,000 children Friday. Families today started to pack and move north into summer homes for the next two months.

Peterborough factory workers today began a four-day holiday weekend. These people in some cases left Friday night for homes in the district crowding highways and buses, and others today in cars packed with clothes and food left for cottages.

Two weeks ago city factories worked on Saturday to make up for Monday which was included in the holiday weekend. In most cases Peterborough plants will be closed Monday.

Ontario Provincial Police will be on highways in full strength as every member of the 1,200-man force will work during the weekend across the province. As usual police issued their holiday warnings to motorists to drive carefully and courteously.

PATTERN FOR OIL—This is a worm's-eye view of a 160-foot derrick on the light oil discovery well of Socony-Vacuum Exploration Co. in the Ratcliffe area of south-central Saskatchewan. The Ratcliffe well is the second light oil discovery in Saskatchewan this yer. There have also been medium-gravity oil discoveries at Fosterton, Gull Lake and Eastend, heavy-gravity finds at Hoosier and Govenlock, and natural gas finds at Elrose, D'Arcy and Newburg during the first half of the year. In the Saskatchewan section of the Lloydminster heavy oil field, present indications are production this year will surpass the 1951 total of 1,250,000 barrels.

## Two Men Hurt As Blast Cuts Ft. William Power

FORT WILLIAM (CP) — Two Hydro linemen were burned, one criticially, in a power blast that resulted in the shutdown of Fort William electric power yesterday.

Albert E. Watts and John Marshall, both of Port Arthur, were taken to hospital.

Witnesses said Watts was blown from a repair platform and sent hurtling above the height of a 40-foot pole. The ball was partially broken by wires below.

## School Report

RIFLE RANGE SCHOOL
(S.S. NO. 17, OTONABEE)

Grading: A 75-100 B 60-74, C 50-59, D failure. (Listed in alphabetical order.)

Grade 8 to 9—Shirley Flint A.

Grade 7 to 8—Daniel Brinson C, Allan Wood B.

Grade 6 to 7—Allan Amos B John Armstrong B, Florence Brinson C, Dorothy Chapman C, Charles Hopkinson C, Sandra Metcalf B, Garry Sutherland B Robert Wood C.

Grade 5 to 6—Geraldine Chapman C, Jim Cinese B Judith Evans C, Gwenyeth Hope A, Brenda Metcalf B, Linda Reynolds C, Ellen Tyndall B.

Grade 4 to 5—Arthur Hopkinson B, Terrance McCall B Donald Muir A, Jacqueline Quinn A Joan Rodgers A.

Grade 3 to 4—Sandra Davis B, Robert Hodson C, James McCall C, Earl Neil C, Aubrey Nicholls C, Sandra Northey B, Arthur Coles C.

Alex. McLeod, Principal.

Grade 2 to 3—Bryan Amos A Violet Hopkinson B, Ricky Metcalfe A, Dwight Neely A, Llewella Brinson B, John Reynolds C, Doris Wood C.

Grade 1 to 2—Ricky Andrew A, Jacqueline Cooney B Carol Flint A, David Kiff B, Brenda McConkey C (on trial), Peter Meldrum B, Roy Neil B, Murray Pearson C (on trial), Clarence Riley A, Sharon Rogers A, Sharon Stover A.

Kindergarten to Grade 1—Joe Hopkinson Donald MacFarland, William MacFarland, George MacKenzie, Brenda Mann, David Trennum.

H. G. Wilson, Teacher.

## Eye Gifts Legal

LONDON (Reuters)—A new law came into force in Britain yesterday making it legal for Britons to bequeath their eyes after death to help restore sight to the blind. Laws designed to prevent "body-snatching" had made it illegal. These laws required that 48 hours had to elapse before the eyes could be removed from a corpse by which time they were useless for eye operations.

## Think Church Service Cured U.K. Dog With Injured Leg

LONDON (AP)—One of London's gayest dogs—a six-year-old Pekingese named Black Knight—had a leg injury that his owners believe was cured after the dog attended a church service.

Black Knight's owners—painter Sir Alfred Munnings and Lady Munnings—donated a painting to the Church of the Good Shepherd in gratitude for the dog's 'being cured.

The non-denominational Church of the Good Shepherd in London's Chelsea district holds services at which animals join the human congregation and are blessed. The rector announced yesterday that the Munnings had given it a religious painting "in recognition of the benefits received by them and for help afforded Lady Munnings' dog, Black Knight."

Her ladyship told this story of the animal's cure:

He developed trouble with one of his hind legs three months ago.

"I took him to a service . . . at which every dog and cat in Chelsea, as well as a horse, seemed to be present. Each in turn was led to the altar and blessed. Black Knight walked down the aisle after the blessing and has walked perfectly normally ever since."

Lady Munnings said another of her dogs had recovered completely from an eczema attack three years ago after attending the church's animal service.

Black Knight is London's best canine gate-crasher. He goes every where with Lady Munnings and even attended the wedding of the then Princess Elizabeth at Westminster Abbey in 1947.

THE CHAMP COOLS OFF — Light heavyweight champ Joey Maxim relaxes with ice cubes on his head and a pitcher of ice water nearby as his wife stands by with a fan in their New York hotel room. But Maxim doesn't really dislike the heat as much as it may seem. It was heat prostration that wore down middleweight champ Ray Robinson in the 14th round of their title bout, giving Maxim a technical kayo and retaining him his title.

# 8 Top Netters Scrape To Finals

WIMBLEDON, England (AP)—The eight men who were supposed to reach the quarter-finals of the men's singles in the All-England Lawn Tennis Championships finally made it yesterday.

At least half of them had real fights in 90-degree weather before they got through.

While more than 100 persons fainted from the heat, top-seeded Frank Sedgman of Australia disposed of fellow countryman Don Candy without working up a good sweat. Candy wilted away in awe of the tournament favorite, 6-1, 6-1 6-0.

Eric Sturgess of South Africa, who mets Sedgman in the next round, found Grant Golden of the United States playing tennis as hot as the weather and had to go five sets to win, 4-6, 6-3, 6-1, 7-9, 6-4.

The winners were the seeded players from one to eight—sedgman, Jaroslav Drobny of Egypt; Vic Seixas of Philadelphia; Dick Savitt, defending champion from Orange, N.J.; Ken McGregor of Australia, Herbie Flam of Beverly Hills, Calif., Sturgess and Mervyn Rose of Australia.

The Americans almost lost their national champion in the women's singles, 17-year-old Maureen Connolly. She squeezed past Susan Partridge of England 6-3, 5-7, 7-5 to move into the quarter-finals, but rarely looked like a champion.

Defending champion Doris Hart of Coral Gables, Fla., disposed of Mrs. Julia Wipplinger of South Africa, 6-4, 4-6, 6-3.

Ernie Durando outslugged Norm Hayes last night to win the main 10-round bout at Madison Square Garden in New York City. Durando outboxed the 20-year-old Boston fighter all the way in the season's final ring night at the Garden. Hayes weighed 160 and Durando 158¾.

# Here And There In Sports

By THE CANADIAN PRESS

The Swiss Ice Hockey Federation yesterday decided that no more games will be played between Swiss teams and visiting United States clubs.

The action was taken because of incidents during the Olympic Hockey Tournament in Oslo, Norway, when Swiss officials accused the American team of unnecessary roughness and poor sportsmanship.

During the American team's tour of Switzerland before the Oslo tournament, the fans threw snowballs at the U.S. players, charging them with playing roughly.

The Federation specifically noted that its action would not bar the American team from participating in the world championships in Switzerland next March.

**TENNIS TEAM SAILS**

A six-man combined Oxford-Cambridge tennis team sailed for New York yesterday to meet Yale and Harvard in the Prentice Cup Tournament at Sea Bright, N.J., July 25-27. The English universities are the holders of the trophy. They are also scheduled to play at the National doubles at Longwood, Mass., Aug. 18-24 and the American National championships at Forest Hills, N.Y., starting Aug. 29.

**HIS OWN VIEWS**

Sir Alfred Munnings, former president of the Royal Academy of Art and famed painter of horses, yesterday turned down a request to paint Tulyar, the Aga Khan's Derby winner. He said the way to make money with horses "is to bet on them, not paint them." Sir Alfred says he does not bet, though. Lady Munnings is the one. She claims she gets her tips from her dog which barks at potential winners.

**SIGN FOR BOUT**

Marv Jenson, manager of heavyweight boxer Rex Layne, yesterday announced an agreement with Ezzard Charles for an Aug. 6 bout at Ogden, Utah. However, it remains to be decided whether the fight will be a 10- or 15-round affair. Charles has been guaranteed $50,000 or 35 per cent of the gate. Layne would get 25 per cent.

**BIGGER PURSES**

Toronto's Thorncliffe Raceway yesterday announced its purses for the 1952 harness racing season have been raised to an average of $3,500 daily. More than $150,000 will be distributed to winners at the meet which opens next Saturday. The Canadian Cup Pace, the top money race of the meet—$7,500 to the winner—is scheduled for Aug. 9.

# Foresters Lead

Civic Softball League standing:

| | Won | Lost | Tied | Pts. |
|---|---|---|---|---|
| Foresters | 9 | 1 | 1 | 19 |
| Kesco | 6 | 2 | 1 | 13 |
| Bell | 5 | 3 | 1 | 11 |

Post Office: Maher, 1b; Willshaw, p; Moore, 3b; Reid, ss; Smith, cf; Harrison, lf; Loucks, 2b; Thirnbeck, c; Gosselin, rf.

# Toronto Market Wobbly, Traders Cautious

By DICK BAIDEN
Canadian Press Staff Writer

Traders picked their way gingerly this week through a wobbly stock market as Toronto prices drifted in sluggish dealings. Activity followed developments in individual issues rather than a broad pattern. Two one-half cent-a-pound price increases for lead caused a brief base metal flurry. But reimposition by the United States of its three-quarter-of-a-cent tariff coupled with the current premium on the Canadian dollar soon dimmed investors' interest.

**BUYING SPORADIC**

Pacific Petroleum's strike in British Columbia pushed the stock for a moderate gain but buying enthusiasm was sporadic. Albermont and Britalta also caught speculative interest. Gains, however, were subject to later profit-taking.

Mackeno, a base metal issue, was the week's most active stock as it climbed irregularly following reports of substantial silver values.

Industrial activity continued uneventful within a narrow range of selected issues.

Professional observers, however predicted a change. Canadian markets, they said, appear to have fallen behind New York. Both industrials and railroads have climbed sharply on the New York market, they pointed out, and Canadian issues generally follow this lead.

Toronto opened the week with a slow early advance. By the close however, only base metals posted a gain against intermittent profit-taking. Papers and industrials strengthened in Montreal.

Industrials joined western oils in Toronto Tuesday to lead a ragged decline. In Montreal, papers and industrials eased from Monday's gain. Oils and industrials reversed direction in Toronto on Wednesday while Montreal papers and industrials edged upward in slow dealings.

**BASE METALS LEAD**

Base metals led a general advance in Toronto Thursday. Papers slipped in Montreal but industrials drew firm support. Metals drove slowly higher in Toronto yesterday but other sections made little headway. Papers eased in Montreal.

From Friday to Friday, the Toronto Stock Exchange indices showed industrials up .44 at 318.07 golds up .82 at 89.67, base metals up 4.17 at 185.58 and western oils down .70 at 138.61.

In the Montreal averages, banks were up .52 at 30.65, utilities up .4 at 85.6, industrials up 2.2 at 204.2, combined up 1.7 at 164.7, papers up .84 at 719.14 and golds up .35 at 65.56.

New York opened Monday with a mild rally but support faded and mild selling erased most gains. Prices were mixed in narrow trading Tuesday. Steels and rails advanced Wednesday and carried the list higher Thursday. Rails yesterday led the market to its third consecutive high.

In New York, the Associated Press average of 60 stocks climbed $1.30 to $106.80, the highest level of the year.

# Four Canadian Records Fall In Hamilton Olympic Test

By W. R. WHEATLEY
Canadian Press Staff Writer

HAMILTON (CP)—A blonde little bullet from Toronto set the fashion last night in what is fast becoming the accepted mode in Canada's Olympic track and field trials.

Little Shirley Eckel ripped the 80-metre hurdles Canadian record to pieces in establishing the priority of women's rights for plane seats on Canada's Olympic-bound contingent.

She was joined in a gala opening night of the Dominion track and field championships by husky Mary Lawrence, another Torontonian, in an assault on Canadian records.

Mary shattered a shot put mark that has stood for 20 years.

**170 COMPETE**

More than 170 men and women athletes competed last night in the first half of the championships, which also mark the Olympic trials. Arbitrary Olympic standards were set by the Amateur Athletic Association of Canada track and field committee. The athletes who equal or beat these marks—and some of the aspirants have another crack at them today—can look forward to a trip to Helsinki, Finland, for the summer Olympic Games.

Don McFarlane, Hamilton Olympic Club sprinter, and Jim Lavery, Calgarian who performs for Drake University in the United States, were the only men athletes who could clip the Olympic standards.

In addition to the work of little Miss Eckel and big Miss Lawrence, there were Dawn Josephs of Victoria, Alice Folz of Vancouver and Eleanor McKenzie, Vancouver sprinter.

Shirley went to work before the sun had set in the twilight-arc light meet. She whipped over the 80-metre hurdles in her heat to win as she pleased in 11.6 seconds. That not only bettered the Olympic standard of 12.2 but cut three tenths of a second from the 11.9 Canadian mark set in 1934 by Betty Taylor of Hamilton and Roxy Atkins of Toronto. Her brilliant performance was only four-tenths of a second off the sensational 11.2 set at Olympic in 1948 by Fanny Blankers-Koen of The Netherlands.

**WINS FINAL IN 11.9**

Shirley went on to win the final in 11.9. She also made a bid for the 100-metres sprint but was shuffled off in the semi-final heats.

Miss Lawrence right-handed the eight-pound shot for 40 feet, 3¼ inches, cracking the old Canadian mark of 37 feet, 3 inches, set in 1932 by Mamie Shrumm of Orillia. Mary also wrecked the Olympic standard of 37 feet.

Miss Josephs leaped 18 feet, 1¼ inches in the broad jump, against the standard of 18 feet.

The disappointment to the crowd of 3,000 at Hamilton's Civic Stadium was the late-night bid of little Alice Whitty of Vancouver to beat the standard of five feet, one inch. Alice, a persistent performer at practice throughout the winter, made it at five feet even. She already had the championship, but trying to reach the Olympic standard, an inch higher, she fell on her final jump.

Miss Folz bettered the Olympic standard in winning her heat at 12.2 in the 80-metre hurdles, but she had to settle for third in the final behind Miss Eckel and Luella Law of Vancouver.

**MCFARLANE A WINNER**

McFarlane won his heat in the men's 100-metre sprint in 10.5, bettering the standard of 10.7, and won the final in 10.8.

Lavery's win in the 400-metre final in 47.7 cut a full second off the standard.

Miss Mckenzie turned out to be Vancouver's best performer of the night. She won the 100 metres in 12.3, one-tenth of a second above the Olympic standard, but equalled it twice in winning her heats to reach the final. M. Riggs of Fort William was third in the fifth heat of this event.

Pete Galasso of Toronto track club won the men's broad jump with 21 feet, 5¾ inches, but the mark fell short of the standard of 23 feet, 6 inches.

The 10,000-metre race produced a close fight. Valdu Lillakas of Montreal appeared to have command for most of the way, but in the last two laps Lyle Garbe of Hamilton, who runs for Michigan State, moved up and held the lead to the finish. Lillakas dropped back to third place behind George Lynch, Toronto.

**ROSS WINS**

Michigan's Jack Ross, from Oakville, Ont., won the 1,500-metre race, more than three seconds above the Olympic standard. Allan Patterson of Montreal, British jumper who can't compete for Canada this year, won the men's running high jump with six feet, one-quarter inch, nearly three inches under the standard.

Fred Ruish of Niagara Falls' Stamford Collegiate won the 16-pound shot put with a 47-foot, 4⅝-inch toss. L. Roininen of Atherley, Ont., was second.

# Yesterday's Stars

By THE ASSOCIATED PRESS

**Pitching:** Ralph Branca, Dodgers—pitched two-hit shutout ball in an eight-inning relief stint to gain credit for Brooklyn's 8-3 victory over Boston.

**Batting:** Enos Slaughter, Cards—batted in five runs on four singles to lead St. Louis to 6-4 victory over Pittsburgh.

# O'Neill Replaces Sawyer As Phils' Coach

PHILADELPHIA (AP) — Philadelphia Phillies, floundering in the National League's second division, changed managers in mid-season today with veteran Steve O'Neill replacing Eddie Sawyer "for the good of the club."

Owner Bob Carpenter announced the shift last night at a press conference following the Phillies' 6-0 win over New York Giants.

O'Neill, former pilot of Detroit Tigers, Cleveland Indians and Boston Red Sox, will be running the club when the Phillies meet New York tonight.

**WHIZ KIDS AGAIN?**

Carpenter didn't say it in so many words, but it was apparent he was trying to put some whiz back into the "Whiz Kidds"—the collection of youngsters who slid into the National League pennant on the final day of the 1950 season and had to be content to rest on these laurels ever since, despite some fretful goading by the usually quiet-spoken- easy-going Sawyer.

In replacing Sawyer with O'Neill, Carpenter was giving his ballplayers a little more of the same calm atmosphere they experienced in the early days of the Sawyer regime.

O'Neill, who led the Tigers to the 1945 American League pennant and world championship, is the epitome of calmness—even when plagued by an occasional attack of the gout.

He has said "I don't believe in bawling out my ballplayers."

Sawyer, science professor at Ithaca (N.Y.) College before he made professional baseball his career, is normally of the same school, but in recent weeks he is said to have given the Phillies a few outspoken lectures.

There have been rumors that the Phils were not too willing to take such advice from a manager who never played in the major leagues.

**TO BE SCOUT**

Carpenter said he will keep Sawyer in the Phillies organization as a special scout.

The sports writers asked how Sawyer took the news and Carpenter called Eddie in from another room to answer for himself.

"I resigned for the good of the club," Sawyer said. "Perhaps I can do more for the Phillies in this new job."

**BACK IN LINEUP**

Left-handed Cliff Chambers, on the sidelines since he suffered a cracked bone in his pitching wrist when struck by a line drive May 25, was restored to the active player list yesterday by St. Louis Cardinals. He has won four and lost two this season, winning his last three before being injured.

# Waterloo Interests Buy Part Of 'Shirts

KITCHENER (CP)—The Greenshirts, this city's entry in the Ontario Hockey Association junior A circuit, will become Kitchener-Waterloo Greenshirts for the 1952-53 season.

Waterloo sportsmen have purchased a large block of shares in the club.

The team, a Montreal Canadiens farm club, has received considerable financial support from the National Hockey League club. It operated with an $11,000 deficit last season.

✧ ✧ ✧

Miss Diane Sawyer of Saanich, Victoria, winner of the Governor General's award for the highest degree in Arts and Sciences at the University of British Columbia this June, will be among the guests of Miss Ruth Lewis and Miss Jean Howson of Toronto for the holiday weekend at the Howson's summer home at Stony Lake. Miss Sawyer is at present enrolled in the Canadian Officers Training Corps at Crumlin Airport, London. She is the daughter of Mr. and Mrs. T. J. Sawyer, formerly of Peterborough.

✧ ✧ ✧

The weekly field day competitions at the Peterborough Golf Club were completed Friday having been held up this week because of some members playing at Cobourg on Tuesday. The competition was "low for even holes" and was won by Mrs. W. J. Vanstone who also got low gross. The low net was tied by Mrs. Vanstone, Mrs. H. Baptie and Mrs. D. Clapper. The nine hole competition was won by Mrs. Blake Bell and Mrs. C. L. Upper had the low net. Next week's field day has been scheduled for Friday, July 4th, owing to the holiday on Tuesday.

✧ ✧ ✧

Entertainments in honor of Miss Marjorie Benson previous to her marriage on Friday evening have included a kitchen shower given by Mrs. G. Huff, a miscellaneous shower given by Miss Eleanor Cameron and a pantry shower for which Miss Jean Hamley was the hostess. Her bridge club presented two pairs of crystal salts and peppers and her I.O.D.E. Chapter presented a Royal Doulton figurine. The girls in the Westclox office gave Miss Benson silver flatware and the staff presented a tri-lamp and a silver bread tray. A table radio and an iron were presented to her fiance Mr. William Durant by his friends of the Wire and Cable department, C.G.E.

**MORE WOMEN**

For the first time the United States now has more women than men—about 100 women to 96 men.

Prior to her marriage Friday evening, Miss Shirley Ball was honored at a number of showers. She was entertained by the St. James' Mission Circle at a miscellaneous shower. She was again honored at a miscellaneous shower when Mrs. Frank Turner and Mrs. Louis Bird were join hostesses at the latter's home. Aunts of the bride, Mrs. Gordon Pearson and Mrs. Albert Pearcy entertained at a miscellaneous shower. The bride was fested by Miss Mary Ferran and Miss Mavis Hegadoren at a supper where she was presented with a pair of sheets and pillow cases. The employees of the Colonial Weaving presented her with a table lamp and the Peterborough Elastic Company gave her an electric kitchen clock and a lace cloth. Fellow workers at the Canadian Sealright presented the groom, Mr. Hugh Newham, with a purse of money.

✧ ✧ ✧

*Plan Checking Service*

Dr. K. W. Milne outlined the uses and the value of X-ray in the promotion of medical science at the recent meeting of the Ladies' Auxiliary of St. Joseph's Hospital. Plans were made for the summer project of the members, the preparation of articles for a booth at the Peterborough Exhibition. The parishes of the district will assist. This year the ladies will also operate a checking service for patrons of the Exhibition. A handsome quilt made by the ladies of Douro parish which will be drawn for in September, was displayed.

## Honor Principal Roseneath School

ROSENEATH— (ENS)—Previous to the closing exercises at the senior room of Roseneath school on Friday, an address was read and a presentation was made to Mrs. Ira Merriam, who for the past two years has been principal of the school. Mrs. Merriam had previously resigned and does not intend to teach next year.

The address was read by Nelda Brown and Mary Halstead presented a gift of chinaware, in recognition of her two years as teacher in the school.

Mrs. Merriam thanked her pupils and wished them success in the years to come.

## Fete Graduates At Central School

A graduation tea was held for the graduating class of Central School by the executive members of the Home and School Association on Wednesday afternoon. The teachers were also guests and during the team hour Mr. C. Crown who is leaving to go to Confederation school was presented with a gift.

Leone Smedmor received the Board of Education prize for the student standing highest in the class and Barbara Kerr received the $5 prize of the Home and School Association for the second highest standing.

The other graduates are Bernetta Barton, Dora Bolton, Janice Berry, James Brook, Ronald Brown, Doreen Buller, Rosemary Deyell, Donna Dore, Eric Downer, Carl Dunford, Bob Ellis, Bob Findlay, Ray Fuler, Muriel Givens, Lynn Harrington, Max Horning, Tom Kelly, Gordon Leonard, Carol Longhurst, Jim Lustic, Marilyn McKim, Marjorie Murrie, Bob Naish, Jack Parsons, Lorna Raper, Patricia Scully, Mary Sutton, Barbara Tiffin, Shirley Todd, Wilton Tranter, Eunice Weaver and Marilyn Wright.

## Friends Honor Bride And Groom

NORWOOD— (ENS)— A large number of friends and neighbors of Mr and Mrs. Johnston McKay (nee Bernice Scott) a recent bride and groom, gathered at the Norwood town hall Thursday evening.

During the evening an address was read by Allan Baker and a gift of money was made to Mr. and Mrs. McKay by Everett Watters. Mr. and Mrs. McKay both expressed their thanks.

Music was supplied by Potters ofchestra from Warkworth, for dancing. Friends were present from Peterborough, Harwood, Campbellford, Hastings and surrounding districts.

MR. WILLIAM DURANT and his bride, the former Miss Marjorie Benson, whose marriage took place Friday evening in Mark St. United Church.—(Choate Studio Photo)

## Honeymoon In Laurentians After Durant-Benson Vows

Pink peonies and blue delphiniums made a charming setting for the wedding of Miss Marjorie Agnes Benson to Mr. William C Durant, BSc., which was solemnized in the Marck St. United Church at seven o'clock Friday evening. The Rev. B. S. Morwood officiated in the ceremony.

The bride is the daughter of Mr. and Mrs. Herman C. Benson of Peterborough. The groom is son of Mrs. N. D. Durant of Summerside, P.E.I., and the late Mr. Durant.

Given in marriage by her father, Miss Benson was a beautiful bride in a gown of white marquisette over ice blue brocaded satin. The bodice was fashioned with a stand-up collar in Elizabethan style and had a full, graceful skirt to floor length. She wore her mother's wedding veil of fingertip white illusion caught to a Juliet cap of the ice blue satin and white marquisette and she carried a bouquet of little red rosebuds and gardenias.

Miss Jean Hamley and Miss Eleanor Cameron were bridal attendants in frocks of white organa over Alice blue taffeta and matching Dutch caps. They carried nosegays of pink rosebuds, sweet peas and white 'mums.

Mr. G R. Carruthers attended the groom and the ushers were Ian Clark and E. J. McLelland.

Mrs. Hugh Redmond played the wedding music and Mrs. R. L. Hale was the soloist. During the ceremony Mrs. Hale sang "The Lord's Prayer' and during the signing of the register she sang "O Perfect Love".

The reception following was at the Peterborough Golf and Country Club. Mrs. Benson was wearing for the occasion, a gown of deep lilac crepe and pale gold accessories and her corsage was of yellow roses. Receiving with her was the groom's mother who had chosen powder blue crepe and black accessories and she wore a corsage of Talisman roses.

Guests were present from Summerside, P.E.I., Moncton, N.B., Montreal, Toronto, Belleville and Peterborough.

Mr. and Mrs. Durant have now left for a honeymoon in the Laurentians. For travelling the bride wore a powder blue suit and a white petal hat and white accessories and she carried a wine velvet coat.

They will live at 275 Charlotte St. on return.

## Combines Napped Fabrics With Smooth Ones For Fall

By DOROTHY ROE

NEW YORK (AP)—Adele Simpson, a tiny dynamo of fashion know-how, demonstrated to the press today how American women are going to look next fall.

The consensus of the editors was that they're going to look good, in supple suits made of fabulous fabrics, in deep, muted colors, in costumes which will see them through a busy day and on into the evening by the addition or subtraction of jackets.

Mrs. Simpson uses the cream of U.S. and imported fabrics to put together a distinguished collection planned to suit the activities of busy American Women. She revives the real winter suit, made of rich napped or curled-surface fabrics that look like fur. And combines new feather-weight poodle fabrics with smooth flannels, uses deep-napped zybeline in whole suits which nevertheless manage to look slim.

Her credo for the 1952-53 silhouette is "simple but shaped."

Suits are never severely tailored, but curved and soft, accentuating the better feminine curves, concealing those which should be concealed. Suit skirts are almost uniformly slim, but skirt fullness appears in afternoon and evening gowns.

Mrs. Simpson shows costume dresses which consist usually of a wool sheath and cover-up stole or jacket. She combines blacks and browns in endless variety, shows a series of smooth and sophisticated dinner and theatre suits in lush fabrics such as rich brocades and velvets.

## Sunday Wedding

BONARLAW (ENS)—The wedding of Ada Boulogne and Peter Roeper will take place on Sunday June 29th in the Ebenezer Christian Reform Church, Trenton at 10 a.m. A reception was held on Thursday in the Kiwanis Centre, Belleville. Mr. and Mrs. Roeper will live in Bonarlaw.

**EIGHT-FOOT GRASS**

The pampas grass of the treeless plains of Argentina grows to a height of eight or nine feet.

## Shirley Ball Is Bride Of Harold Newnham

St. James' United Church was the scene of a wedding Friday evening at seven o'clock when Shirley Ruth Ball became the bride of Harold Hugh Newnham in a ceremony performed by the Rev. Hueston D. McCormack.

The bride is the daughter of Mrs. Loretta Ball of Peterborough, and the late Harold Ball, and was given in marriage by her mother. She wore a short dress of pale blue nylon with white and navy accessories and carried a bouquet of red roses.

Miss Marie Hegadoren was her only attendant and she wore navy crepe with navy and white accessories and carried a bouquet of pink gladioli.

The groom, son of Mr. and Mrs. Hugh Newnham of R.R. 4, Bridgenorth, was attended by his brother Jack Newnham.

Baskets of peonies, delphiniums and sweet william decorated the church, and the junior Sunday school room where the reception took place. The bride's mother was wearing corded pink nylon with a white straw hat and a corsage of sweetheart roses. She was assisted in the receiving line by the groom's mother who was wearing printed nylon with white accessories and a pink rose corsage.

The bridal couple are on a wedding trip to the United States, the bride wearing a navy suit and white accessories for travelling, and her going-away corsage was of pink roses.

They will live at Bridgenorth on return.

## Choir Presents Gift To Member

COLDSPRINGS — (ENS) — At choir practise on Thursday night at St. Paul's Church, William Little, a member who is leaving shortly for Merritton, was presented with a gift.

Miss Edith Hoskin, organist, on behalf of the choir, expressed regrets at losing such a valued member. Mrs. Paul Harris presented Mr. Little with a desk set.

Mr. Little ably thanked the choir for the gift and kindnesses shown him during the past year.

At the conclusion ice cream and cake was enjoyed.

## Alton-Henry

A uiet wedding too place in St. John the Baptist Anglican Church, Lakefield, on Tuesday, uniting Olive Pearl Henry, daughter of Mrs. Mabel Henry, Lakefield, and Floyd H. Alton, son of Mrs. Alleda Alton and the late Mr. H. Alton of Peterborough. The Rev. L. J. Delaney performed the ceremony.

The church was decorated with peonies and other spring flowers. Mrs. Mary Lee played the wedding music.

The bride was in a short gown of heavenly blue nylon over marquisette with Peter Pan collar, fitted bodice and waist, and very full skirt. She wore a white tulle hat and white mittens and carried a bouquet of red roses and white carnations. Mrs. Helen Wrightly, the bride's sister, was in pink nylon over marquisette similarly styled. She wore white halo hat and mittens and carried yellow roses and pink carnations.

Mr. Arthur Mallard of Peterborough was groomsman.

A small reception was held at the home of the bride's aunt, Mrs. Chas. Clark of Peterborough, who received, wearing a black dress with white accessories. The groom's mother, who also received, was in navy with white accessories. Both wore corsages of red roses.

Later the bride and groom visited the bride's mother, Mrs. Henry, who has been a patient in Peterborough Civic Hospital for over a year, and then left for a brief honeymoon. Travelling the bride wore a mauve dress with white accessories.

Mr. and Mrs. Alton will live at 448 Mark St., Peterborough.

MR. AND MRS. W. H. LITTLE are shown cutting the cake at their golden wedding anniversary on Wednesday. Couple have lived near Burnbrae, a few miles east of Campbellford for past 50 years.—(W. W. Reid Photo.)

## Mr. And Mrs. W. H. Little Observe 50th Anniversary

TRENT RIVER —(ENS)—Wednesday was a red letter day in the lives of a Seymour East couple, Mr. and Mrs. W. H. Little, who celebrated their golden wedding anniversary on that day.

Their daughter, Emily, and her husband, A. Edwards of Cobourg celebrated their twelfth anniversary the same day. Mr. and Mrs. Edwards were married on Mr. and Mrs. W. H. Little's thirty-eighth anniversary.

The elderly couple have lived for the past 50 years on a farm near Burnbrae.

Mrs. Little was the former Alice Gertrude Stephen and the couple were married at the home of the bride's parents, Mr. and Mrs. Charles Stephen on June 25, 1902. The Rev. John Moore, formerly of Burnbrae Presbyterian Church, now deceased, performed the ceremony.

Groomsman at the wedding 50 years ago was a cousin of the groom, Frank Little, who was also on hand Wednesday to help celebrate the half century of wedded life. The bridesmaid, Mrs. Bertha Henderson of Rouleau, Sask., was unable to attend the celebrations, but sent her best wishes via telegram, instead. Mrs. Henderson is a sister of Mrs. Little.

**GOLD ROSES**

Fifty gold roses, a gift of the grandchildren, decorated the table, and many guests were on hand with other gifts throughout the afternoon and evening. Scores of cards and congratulatory messages were received throughout the day.

The couple have seven children: Charles at home, Mrs. R. Stephens (Kathleen) of English Line, Macintosh Little of English Line, Mrs. Alan Woods (Emily) of Cobourg, Edwin of Campbellford, Eric of Havelock and Mrs. George Hardy (Gladys) of Campbellford. There are 13 grandchildren and one great grandchild.

On Wednesday, the bride wore a corsage of gold roses and carnations, and the groom sported a bow tie bought specially for the wedding 50 years ago.

The dining table was covered with an Irish linen cloth, centered by the traditional wedding cake, with tall candles in crystal holders on either side. The living room, where the many guests were received, was decorated with white bells and streamers and large baskets of summer flowers.

Mr. and Mrs. Little, who are in fairly good health believe in the old adage, early to bed and early to rise, with lots of good hard work thrown in.

Guests were present from Port Hope, Cobourg, Stirling, Havelock and many other points in the surrounding district.

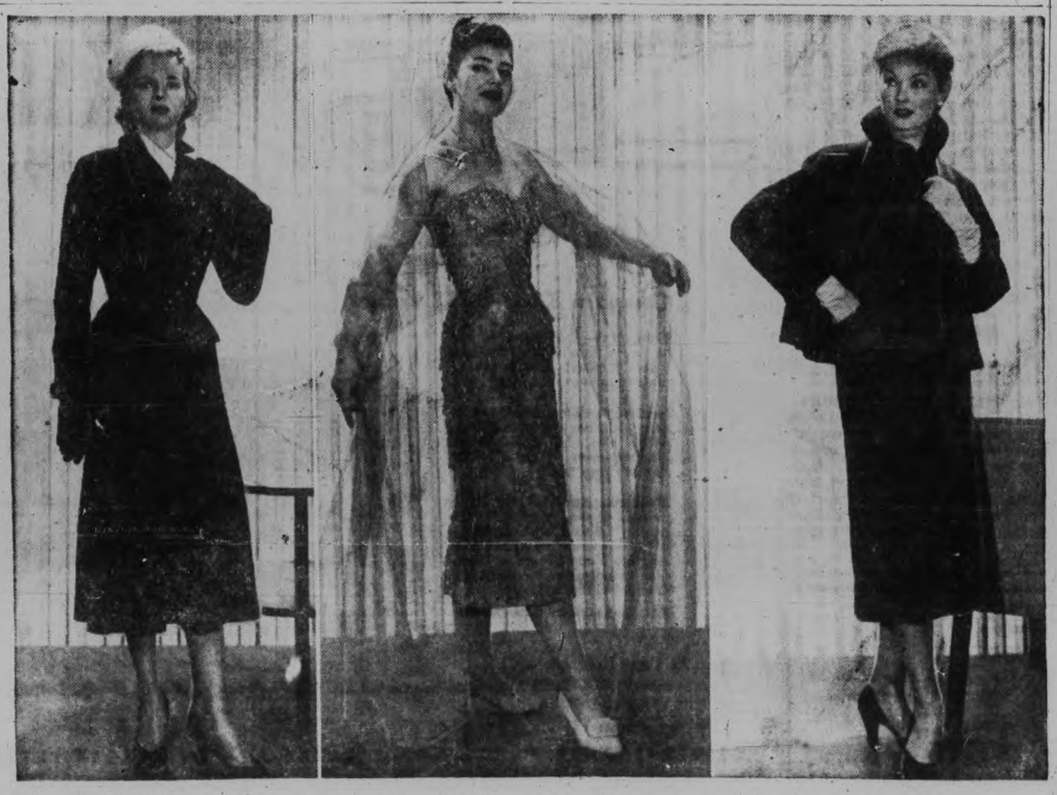
AROUND THE HOME
A KNIFE BOX that offers both convenience and protection against sharp edges may be quite easily fashioned from a block of white pine — with strips along the sides — and end and bottom of the same material.
First make cuts in the main block with a saw; then add sides, base and front end. Just as a guide to dimensions: a box to hold three paring knives and one kitchen or table knife should be about 4 ins. wide; 2 ins. deep, and 10 ins. long.
Very attractive BOOK MARKS for many years of useful service may be cut from discarded felt hats, or scraps of leather and pieces of silk... either lettered as desired or left plain.
You'll find many other interesting ideas like these in the booklet "Around the Home Again". Write for your copy to MOLSON'S (ONTARIO) LIMITED, P.O. Box 490, Adelaide St. Station, Toronto.
Molson's



THE SOFT, ROUNDED LOOK is highlighted in the suit at left, its jacket featuring small jewelled buttons. Reviving the spirit of the 1920's is the centre creation, a beaded sheath evening gown complemented by a long, flowing veil. The costume (right) in brown imported wool with bow jacket and taupe jersey middy.

# Of Interest to Women

DOROTHY DIX

## Makes Loveless Marriage To Escape Prison Term

DEAR MISS DIX: Two years ago I met a man, and it was love at first sight! Our wedding plans were well under way when a woman he had known previous to our meeting reentered the scene. She had evidence from his past that would have caused him to serve a prison term, and her price for concealing it was that he marry her. I felt there was nothing else to do, and convinced him accordingly, so they were married.

Of course they weren't happy. I stopped seeing him, but lately I have run into him twice and he told me that he has been miserable with his wife, still loves me, and hopes someday to marry me. He insists that he cannot continue living with her as life is so miserable. I am miserable, too, and would like to know how we can both be happy. I know the old saying that "all's fair in love and war," but I don't want to do any thing wrong. LOTTIE

✧ ✧ ✧

ANSWER: Compounding a wrong will never make a right, and your ex-fiance seems to have a special penchant for doing exactly that. Having committed a wrong that deserved a prison term in the first place, he should have taken his punishment and wiped the slate clean.

**A Hopeless Mess**

I know that advice is more easily given than taken, but consider the mess he's made of his life—and yours—by trying to evade the law. He has served two years of a miserable marriage which is probably much worse than a jail sentence would have been, and, more important, he is now in a position where he can't possibly get out of the marriage. He speaks of getting things settled, but how can he? His wife holds the same threat over him now as she did at the time of the wedding. So you see there is no possible escape for him.

You quote a proverb to prove that any action you take now is legitimate. But did you think she was right when she exercised the authority of the same adage two years ago? Not only is it untrue that "all's fair in love," etc., but actually there are few things that are completely fair; and a breach with the basic principles of love and marriage is almost certain to end in unhappiness.

Your friend does not have very high principles and, while I can understand your own panic at the thought of him going to prison, you, too, should have thought the matter over more carefully. In which case you would have reached the conclusion that the mode of escape was far worse than the punishment.

Your trouble is a matter for discussion with someone thorough ly experienced in the complexities of humanity; it is too long and complicated for me to treat here, and you failed to give me your name and address. Your friend should consult with both a minister and lawyer, who will present the two sides of this question — moral and legal. His own conscience will then have to be the judge of future conduct.

✧ ✧ ✧

DEAR MISS DIX: As a young man who has only been in this country three years, I would like to know how to win a wife. When I arrived here I was practically penniless and, knowing what poverty was, I applied myself to making and saving as much as possible. When I did meet girls I liked, I was more inclined to give my bank deposit the advantage, and so lost the girls. I now have a comfortable bank balance and am earning a good salary. My work doesn't put me in contact with girls, there are no social clubs or organizations available, and I certainly am not interested in the girls who frequent bars. So what is left for me? F. F.

✧ ✧ ✧

ANSWER: I must congratulate you on your fine letter, which is certainly a credit to one who has only been here three years and spoke another language before that. (I had to shorten the epistle somewhat.) While it is certainly a most worthy thing to be thrifty, like many virtues, it can be overdone. Money is important and necessary, but it can never take the place of friendship. These girls you passed by in favor of making a bank deposit would undoubtedly have been satisfied with very reasonable entertainment. Are you sure you won't continue to make the same mistake?

If you have no contact with girls at your place of business, why not cultivate some of the young men, who doubtless have sisters, relatives or friends to whom they could introduce you. There must be some form of entertainment or creation available to both sexes in your locality. With summer coming on, you could try a tennis or swimming club. The local Y.M.C.A. or Y.W.C.A. offers recreational facilities to both men and women, and so do many other community organizations.

✧ ✧ ✧

DEAR DOROTHY DIX: The boy with whom I have been going for the past year presents a problem. I love him very much and don't go out with other boys; neither does he go with other girls. However, he insists that we shouldnt go steady, yet gets mad if I even mention another boy. He says he likes' me, but doesn't love me. R.A.

✧ ✧ ✧

ANSWER: Your young friend can't sit on a fence and watch the world go by. Either he likes you enough to monopolize all your time—or he doesn't. In the latter case you should be free to go and come as you please, and with whom you please. Make this clear to him. It's unfair to tie you down and keep you from other relationships when his own feelings are so uncertain.

## Queen Elizabeth Holds Picnic At Nicholls Oval

The annual school picnic of the Queen Elizabeth School was held Thursday afternoon at Nicholls Oval. As soon as everyone had arrived the following events and races were held:

Pre-school children — Annie Sage, Bruce Hancock, Gladys Hughey. Grade 1 girls—Donna Hughey, Judy Kingdon, Linda Harrison. Grade 1 boys—Timmy Martin Jimmy Sage, Floyd Thorn. Grade 2 girls—Elda Hicks, Cheryl Harrison, Frances Grubb. Grade 2 boys—David Green, Mark McMillan, Bertie Sage.

Girls 9 and under — Ruth Astell, June Tucker and Elda Hicks tied, Carol Race. Boys 9 and under—Peter Worton, Terry McAnerin, Bobby Hamblin and Bobby Fry tied.

Girls 11 and under — Carol Lymburner, Donna Mason Gail Astell. Boys 11 and under—Terry Armstrong, Bob Hancock, Keith McConkey. Girls 13 and under—Carol Lymburner Evelyn Lloyd, Carol Hopkinson. Boys 13 and under—Elmo Lymburner, Terry Armstrong, Frank Perry and Jimmy Jamieson tied.

Backwards race—Elmo Lymburner, Bob Sage and Frank Perry tied, Jimmy Jamieson.

Wheelbarrow race— Marvin Tighe and Ray Willis Jack Tighe and Bobby Hancock Terry Armstrong and Jimmy Jamieson. Three-legged race, girls—Carol Lymburner and Shirley Whitnell, Gail Astell and Dorothy Young, Ruth Astell and Elda Hicks.

Girls' shoe scramble—Brigita Ruktaukas, Karen Burrowr, Linda Harrison. Boys' shoe scramble—Bobby Fry, Terry Martin Archie Sutherland. Slow bicycle race—Elmo Lymburner Keith McConkey, Terry Haig. Slow bicycle race in gear — Donny Gilders. Decorated bicycles — Gail Astell, Jack Baldwin.

Ladies' shoe kicking—Mrs. Carter, Mrs. Martin, Mrs. Bell. Balloon race —Bobby McLean.

After the sports events a supper was served by members of the Home and School Association, consisting of sandwiches, cup cakes and ice-cream.

Books were awarded to the following pupils for perfect attendance during the school term: Sandra Harison, Norma Hughey, June Tucker, Murray Taylor, Bob Whitnell, Elmo Lymburner, and Jack Lyons.

After supper Mr. Loveday presented the boys of the ball team with the Sportsmanship Cup, which had been awarded to them this year.

Mrs. Robert Bell, who is leaving the city, was given a parting gift by Mrs. Roy Hancock, president of the Home and School Association.

## Fashion Flashes

An easy winner because it is comfortable to wear, easy to get into and easy to look at, is the silk coat-dress. White, red and gray paper-thin silk taffeta makes a coat dress with belled skirt that buttons all the way up to a cardigan neckline. Batwing sleeves are bracelet-length.

A find for the country club dance is a strapless, boned bodice dress of white silk organdie over taffeta, with a deep red organdie cummerbund and a spencer jacket of navy blue linen.

Keeping cool on warm nights is helped along by cool cotton sleepwear, especially cotton plisse that requires no ironing. Cotton plisse is used for the skirt, and cotton batiste for the bodice of a new dress-length gown. Skirt is full, and bodice is of eyelet embroidered batiste edged with narrow rufflings of cotton lace.

HERE ARE TWO MOTHERS and their children who are visiting the National Park at Point Pelee, Ontario. Travel in Canada is just one of a number of practical ways by which parents can help their boys and girls appreciate Canada and be proud to belong to our Dominion.—(Courtesy National Film Board.)

FOR PARENTS ONLY:

## Children Should Have Pride In Canada

By NANCY CLEAVER.

Did you ever wonder whether you would be willing to leave Canada for good and make your home in another land? In 1940 over 15,000 of our fellow-countrymen emigrated across the border. Ten years later this number had more than doubled to 31,000. During the last decade a much smaller group from U.S. have moved here. It is true that many thousands have come from Europe to make their home in Canada. But this steady leak of Canadians to the United States is serious. It provokes the question, "Do we Canadians appreciate our own land?"

There are no statistics on the number of Canadians who have had the chance of a job at a higher salary across the border, but have turned it down. Most of us know a few such people. Just last week an outstanding professional man explained his decision in this matter:

"It would mean I'd make more money. But if we moved now we would doubtless remain in the States. Our children would grow up, be educated, and likely settle down and marry there. That's not what we want."

**WE ARE CANADIANS!**

This man's children will catch from their father his deep love for his own country. Patriotism, like religion, is often "caught," not "taught." When parents are willing to sacrifice material advancement in order to remain in Canada their youngsters will conclude that here is a country which is worth while.

Canadians are often criticized for their lack of pride of nationhood. Edward McCourt, English professor, University of Saskatchewan, in his comments on Canadian Letters in the Royal Commission Study points out:

"The Canadian suffers, without realizing that he does so, from an ingrained sense of inferiority which is the inevitable consequence of history and geographical relationship. The typical Canadian is a thoroughly nice fellow who makes a virtue of moderation. He is reticent, a little Puritanical perhaps, and decidedly unsure of himself. He takes no pride in being Canadian; he accepts the fact without regret, but is seldom disposed to shout it to the world."

Is this a fair appraisal of us as Canadians? If it is, we cannot feel very complacent about it! If our children are growing up with no pride in being Canadians, we as parents are certainly falling down on our job!

J. B. Priestly, that brilliant British writer, recently pointed out that world civilization forms a sort of tartan, with the rich and varied strands of the colors of the cultures of all the different countries woven together. He urged Canadians not to be carbon copies of the life of their Southern neighbor, nor did he want us to substitute what is British for what is American. He wrote "I do not ask you to be less American and more British. I ask you to be more Canadian, to show me a way of living I cannot find anywhere else."

How do those of us who are parents help our children to feel that they are Canadians? Not a boastful, shouting from the house-top emotion! Nor a vague inarticulate, not-sure-of-itself attitude! But a quiet, steady, growing love of our own country. The sort of feeling which inspired Sir Walter Scott to exclaim,

"Breathes there a man with
soul so dead,
Who never to himself has said,
"This is my own, my native
land!"

There are various ways to do this, but the surest is for mothers and fathers to take a long look at themselves as citizens. What does Canada mean to them?

When they have clarified their own thinking, then they should talk with their children about Canada's past, about Canada today and what Winston Churchill, in his last visit to Ottawa, called "our magnificent future".

What happens in your family on a national holiday, such as July 1st? Is it just a vacation day, or do you give it meaning for your children as Canadians? Do you hang out a flag?—Perhaps in choosing between the Union Jack, the Red Ensign, and wondering about a new Candaian flag used throughout our whole Dominion, you might even write to your federal member and the prime minister and tell them that we are losing out in having no one national symbol!

If anyone glanced at the pile of magazines in your living room would they conclude by the predominance of Canadian magazines that your home was here? What about your books of Canadian poetry, fiction or drama, the record of Canada's writers? Is there a map of Canada on your wall or a globe in your home where your children can see for themselves that the land area of Canada is the third largest in the world, with only the U.S.S.R. and China greater than our Dominion? Have you and your family visited one of our beautiful national parks?

Whether or not your child thrills to the exclamation, "We are Canadions!" depends very much on mother and dad. What is your child's re-action? What are you doing to help him grow into a good Canadian citizen?

(Copyright)

## Readers' Saturday Column by Mary Moore

QUESTION—I enjoy hearing about your family...we have one daughter and three sons so can understand your Pete and the cookie scarcity...we have acquired a deep freeze and I am interested in preserving vegetables and fruit by freezing, also pastry. What filling keeps best in pies, and can the pastry be made with or without lard or shortening?... also sandwiches—what filling is best and how long can they be kept? How should the food be wrapped and as to pie plates, can the sort the bakers use be used in freezer.—Mrs. Irving L.

ANSWER—This is a good question and I'm glad you asked for I am sure as you say there will be plenty of other freezer owners who will be interested. I will answer your questions but you can send to Canadian Westinghouse Co. Ltd., address Mrs. Mary L. Bertois, Hamilton, Ont. and ask her for their Home Freezing Guide. Tell her I directed you to her.

**FRUITS SUITABLE FOR FREEZING**

Excellent: Blueberries, sour cherries, cranberries, gooseberries, white and yellow peaches, pineapple, red raspberries, rhubarb, strawberries.

Very Good: Plums and prunes.

Good: Applesauce and apples for pie, apricots, red and black currants, pears.

Blueberries: Carefully pick over and wash and drain. Measure into bowl. Add 1 cup sugar for every four cups berries. Package. Seal. Freeze at once.

SOUR CHERRIES: Wash well and quickly. Drain at once and remove stems. Dry between layers of absorbent paper towelling and chill to plump. Remove pits. When you have 5 cups, mix in bowl with 1¼ cups sugar. Package seal and freeze at once.

YELLOW PEACHES: Hale Haven and J. H. Hall recommended varities. Use only tree-ripened peaches, and never freeze peaches picked longer than 12 hours. Blanch in boiling water 12 peaches 1 minute. Drain. Peel quickly. Slice when all are peeled. Measure. To each 4 cups add ¾ cup sugar. Stir gently, once or twice. As soon as sugar is dissolved pack, seal, freeze.

RASPBERRIES: Wash in ice water gently for 30 seconds—handle with great care in colander, lifting it up and down in large kettle of ice water. Drain. Chill on absorbent paper in refrigerator. One-quarter fill carton, add ¼ of the sugar (using 1 or ¾ cup to each 4 cups berries); continue until box is filled. Seal. Freeze.

STRAWBERRIES: With hulls on wash berries in colander in large kettle of ice water. Drain, remove hulls without squeezing or cutting fruit. Chill on absorbent towelling. Sugar or syrup may be used but dry sugar is recommended. Stir 1 cup sugar into every 4 cups berries in bowl. Pack, seal and freeze.

VEGETABLES SUITABLE FOR FREEZING (Scalding and cooling essential).

Excellent: Asparagus, snap and Lima beans, broccoli, Brussels sprouts, carrots, whole grain corn, corn on cob, green peas, piemientos, pumpkin, squash, sweet potatoes.

Very Good: Green peppers.

Good: Beets, cauliflower, eggplant, King of Denmark spinach.

ASPARAGUS: (Do not use iron kettle). Use thick short spears. Wash, trim off woody portion at base, cut to size to fit carton. Blanch (parboil) with stalks standing up for 4 minutes. (Vegetables should be in wire basket or cheesecloth bag). Plunge in ice water for 2 minutes. Drain. Pack. Freeze.

BEANS, SNAP: Pick early. Wash thoroughly. Remove stem but not blossom end. Sort for size, and if desired cut into 1-inch pieces. Small beans are good left whole. Blanch in boiling water in wire basket or cheesecloth bag 5 minutes. Chill 2 minutes, drain, pack freeze.

BEANS, LIMA: Pick early, wash pods, shell out beans. Medium size beans are best. Scald (in container as above) 3 minutes in boiling water. Chill. Drain. Freeze.

(This list of instructions for freezing vegetables will be continued next week, plus answer to Mrs. Irvin L.'s other questions on freezing.

## ANNOUNCEMENTS

### 1—Births

ACKERMAN—Lieutenant (R.C.N.) and Mrs. B. F. Ackerman wish to announce the birth of a daughter at Civic Hospital, Friday, June 27, 1952.

BAIRD—Born to Mr. and Mrs. Garfield R. Baird (nee Lorraine Murduff) on Friday, June 27, 1952, at St. Joseph's Hospital, a son, Douglas Raymond.

HOPCROFT—Mr. and Mrs. Gordon Hopcroft (nee Margaret Seamon) wish to announce the birth of their daughter, Martha Elizabeth, at St. Joseph's Hospital, Friday, June 27, 1952.

### 2—Engagements

Mr. and Mrs. W. F. Russell wish to announce the engagement of their elder daughter, Joyce Myrtle, to John Henry Palmer, son of Mr. and Mrs. Reginald Palmer, Bethany. The wedding will take place July 19 at 1:00 p.m., All Saints' Anglican Church, Peterborough.

Mr. and Mrs. Bruce Leslie, Queensborough, Ont., wish to announce the engagement of their daughter, Dorothy Helm, to Lloyd Mather Starke, son of Mr. and Mrs. David Starke, Norwood, Ont. The marriage will take place July 19, 1952 at 12 o'clock noon in Queensborough United Church.

### 5—Deaths

BROWN, James Brookfield—At Peterborough on Thursday, June 26, 1952, James Brookfield Brown of R.R. 10, Peterborough in his 67th year, loving husband of Margaret Thompson Harkness and dear father of Margaret, Elizabeth and Douglas. Resting at the Belleghem Funeral Home, 190 Hunter St. W., until Saturday, June 28, 1952, thence via C.P.R., 5:10 p.m. standard time to Washington and Johnston's Funeral Chapel, 717 Queen St. E., Toronto, for service on Monday, June 30, 1952. Interment Pine Hill Cemetery, Toronto.

HOWDEN, Herbert David—Suddenly, at his residence, 459 Murray Street, on Thursday, June 26, 1952, Herbert David Howden, beloved husband of Pearl Guthrie. Dear father of Mrs. Charles Steadman (Laurine) and Mansell, both of Peterborough. Brother of Wilfred Howden of Peterborough, William J. Howden of Omemee, and Mrs. S. Fallis of Millbrook. Resting at the Kaye Funeral Home, 539 George Street, for service on Saturday, June 28th, at 2 p.m. Rev. E. W. Rowland officiating. Interment Emily Cemetery.

LANGLEY, Annie Elizabeth—At the Ross Memorial Hospital, Lindsay, on Friday, June 27, 1952, Annie Elizabeth Langley, beloved wife of William Langley and dear mother of Fred, Thomas, Annie (Mrs. Blackbourn), Rose (Mrs. Edward Joyce), Elizabeth (Mrs. A. Jackson) and Violet (Mrs. A. Parrish). Resting at the Mackey Funeral Home, Lindsay, for service in the chapel on Monday, June 30 at 2 p.m. Interment at Riverside Cemetery, Lindsay.

RENDALL, Robert Beddie—Result of drowning, on Thursday, June 26, 1952, Robert Beddie Rendall, 764 Aylmer St., in his 32nd year, beloved husband of Mary Pressley, dear father of Robert, age 3, Brother of George Rendall of Johannesburg, South Africa, and Frederick Rendall of Aberdeen, Scotland, and Jean and Alison of Rose Harty, Scotland. Resting at the Kaye Funeral Home, 539 George St. for service on Monday, June 30 at 2 p.m. Rev. C. G. Boyd of St. Paul's Presbyterian Church officiating. Interment Little Lake Cemetery.

A Masonic service will be held this evening at 7:30 p.m. at the Kaye Funeral Home.

WOOD, Adjt. Amy (Miss)—At Civic Hospital, on Friday, June 27, 1952, Adjt. Amy Wood, 582 Bolivar St., beloved sister of Mrs. Hart, of Bolton, England. Resting at the Kaye Funeral Home, 539 George St., for service on Monday, June 30 at 3:30 p.m. Major Harry Everett officiating. Interment Little Lake Cemetery.

### 6—In Memoriam

COLLINSON—In loving memory of Joseph Collinson, who passed away June 29, 1945.
Somewhere back of the sunset,
Where loveliness never dies,
He lives in a land of beauty,
Mid the blue and gold of the skies,
And we who loved him dearly,
Whose passing brought swift tears
Shall cherish his memory always,
To brighten the drifting years.
—Ever remembered by his wife and family.

KILLINGBECK—In loving memory of Edith Killingbeck, who passed away July 2, 1950.
The depths of sorrow we cannot tell
Of the loss of one we loved so well,
And while she sleeps a peaceful sleep,
Her memory we shall always keep.
—Ever remembered by her husband, Jack.

SMITH—In loving memory of Mrs. Herbert Smith, who passed away June 30, 1940.
So many things have happened,
Since you were called away,
Things you would have enjoyed
If you were left to stay.
So many things to share with you,
In just the usual way,
Things that could be so much nicer
If you were here today.
We cannot buy the old days back,
Your hand we cannot touch,
But God has given wonderful memories
Of one we loved so much.
—Ever remembered by her husband and family.

WHETUNG—In loving memory of my husband, Howard, who passed away June 29, 1945.
Nothing can ever take away
The love a heart holds dear,
Fond memories linger every day,
Remembrance keeps him near.
—Remembered by wife and children, Isabel, Stewart and Howard.

WHETUNG—In loving memory of Howard Whetung, who died seven years ago, on June 29th.
Time takes away the edge of grief,
But memory turns back every leaf.
—Always remembered by his mother.

WOOD—In loving memory of Melville (Jerry) Wood, who passed away June 29, 1950.
Not dead, but passed beyond
The mist that binds us here,
Into the newer, larger life
Of that unclouded sphere.
—Ever remembered by sister and brother-in-law Winnie and Bill Aggas.

WOOD—In loving memory of Melville (Jerry) Wood, who passed away 29th June, 1950.
Until the day break, and the shadows flee away.
—Always remembered by Mother and Dad.

YOUNG—In loving memory of a dear father, George Young, who passed away June 28, 1946.
A faithful father, one of the best,
May God grant him eternal rest.
—Ever remembered by daughter Margaret, son-in-law John, granddaughter Marlene.

YOUNG—In loving memory of a dear husband, George Young, who passed away June 28, 1946.
At night the silent stars look down
On a grave not far from here
Where sleeps the one we can't forget,
The one we loved so dear.
The dearest husband this world could hold,
A beautiful smile and a heart of gold,
And those who knew him, all will know
How much I lost six years ago.
The happy hours we once enjoyed,
How sweet their memory still,
But death has left a loneliness
This world can never fill.
—Lovingly remembered by his wife Margaret. Eternal rest grant unto him O Lord and may perpetual light shine upon him—may he rest in peace.

# Cheap Pasture Spells Success

Good, cheap pasture is the basis of livestock farming in Ontario, R. H. Graham, assistant livestock commissioner for the province, told 150 farmers from Middlesex and Lambton at a joint pasture day near Adelaide village.

It was held at the farm of Fred Brant, one of three or four that are being used to demonstrate in Ontario how to achieve maximum beef production per acre of pasture during a five-year period. A similar display was provided this week at the farm of Ray Weldon in Victoria county.

The Brent fields have been divided into three sections each of 33 1-3 acres. One has been left "as is" with no special treatment.

The entire farm had been left in grass for 40 years before the project was begun in the fall of 1950.

On the second area, fertilizer only had been applied. The third has been plowed and reseeded with a "made to measure" pasture mixture. A weigh scale has been set up and careful records are kept of the beef cattle before and after they are turned out to pasture on each of the three sections.

So far, the best results appear to have been achieved on the plot where the fertilizer has been used; next best, on the plot with the special mixture; and finally the untouched pasture.

Opinion of experts is that the best results will finally be obtained from the planned pasture mixture.

A. H. Martin, director of the crops, seeds and weeds branch, of the Ontario Department advised farmers, if they had a reasonably good pasture, to build it up rather than to go into a costly reseeding program. He said proper use of fertilizer could put a lot of life into an old pasture.

# Waltz In Water

(Continued from Page 13)

up with the following advice:

"Whenever possible save your energy. Use it only when necessary to take a breath."

Out goes the old idea of treading water. It is a waste of strength.

With this general idea in mind, Lanoue gives the following instructions for anyone who finds himself in trouble in the water:

1. Inhale a full breath when your head is above the surface.
2. Float face downward.
3. Exhale through your nose while rising to the surface.
4. Force yourself to the surface by thrusting downward with arms and legs, then take a deep breath.
5. Drop your head forward, and take one stroke underwater.
6. Relax underwater and rest until you need more air, then repeat the process.

To an observer watching this routine it resembles a rhythm like the step, step, slide method of waltzing.

Beginners using this technique have been known to remain afloat for eight hours.

But will it work in an emergency?

During the Second World War, when his ship was sunk by a torpedo, a seaman was thrown into the water. When he regained consciousness he had a broken arm and a badly burned hand.

He was all alone and his first feeling was despair. But he suddenly remembered this technique of Lanoue's which he had learned before the war.

He remained afloat for hours until he was pulled aboard by astonished crewmen of the rescue ship.

This is one of the amazing number of lives saved by this method.

Learn the technique and waltzing in the water may save your life this summer.

# Mine Stay-Down Strike Ends After 27 Days

SYDNEY, Australia (Reuters)—A stay-down strike by 52 workers at the Glen Davis shale mine ended today after they had spent 27 days underground.

The end of the strike followed a decision by the Federal Council of Trade Unions not to back the fight against closing the Glen Davis shale oil enterprise. The strike was organized as a protest against the government's earlier decision to close the mine as unprofitable.

WOMEN FALL to the ground as baton-wielding police charge a protest meeting in Johannesburg, South Africa. The melee, part of the campaign of defiance against the Nationalist Government's race-segregation laws, flared into violence after police arrested E. S. Sachs, veteran labor organizer, who was addressing the meeting called to demonstrate against a Ministry of Justice order that he quit his post as general secretary of a garment workers union.

# Factory Whistles In Detroit To Be Silent

DETROIT (AP)—Factory whistles won't blow Monday morning for 75,000 Michigan workers. That's the unemployment toll taken already by the United States steel strike and by July 4 that figure is expected to be doubled.

Continuation of the strike for another week or two would force the vast auto industry, on which the state leans heavily, into a virtually complete shutdown.

These dire prospects were brought out by an Associated Press Michigan survey today in the wake of a Ford Motor Company announcement of impending plant closings and mass lay-offs.

**THOUSANDS LAID OFF**

Ford said it will have to shut down all its 14 Ford assembly plants across the country and three of its four Lincoln-Mercury plants by Monday night. This will make idle some 27,200 employees.

Ford also will taper off manufacturing operations at the Dearborn Rouge plant, starting Tuesday. This end of the business employs 69,000.

The company said it does not know if any assembly or manufacturing operations can be resumed after the holiday July 4.

General Motors already has laid off 38,500 employees—32,000 of them in 14 Michigan plants—and plans to lay off 8,000 more Monday.

Chrysler Corporation, another of the auto industry's big three—has announced no lay-offs as yet. But it says only that it hopes to keep its assembly lines moving through the week of July 7.

Only a third of the 75,000 total made idle by the strike are actually on strike. The only direct Michigan participants in the walkout are 16,500 steel workers in the Detroit area and some 8,500 iron miners in the upper peninsula.

# Allies Protest Red Restrictions

BERLIN (AP)—The western Allies today protested to the Russians that "inhumane" shackles have been put on the people of Berlin by east-zone Communists.

In identical notes, the three western commandants demanded the Russians either tell their puppet east-zone authorities to stop restricting the free movement of Berliners or arrange compensation for the thousands of innocent people suffering "untold distress."

West Berlin authorities said 16,000 West Berliners with property in the east zone have registered in a city council survey of those affected by the restrictions.

The notes were delivered as East German Communists stepped up their assault on the nerves of West Berliners to mark the visit of State Secretary Dean Acheson of the United States to the Soviet-surrounded city.

The Allies said the restrictions violated the 1949 Paris agreement that ended the Soviet blockade of Berlin. These restrictions have been clamped on Berliners one by one since the Bonn government, over frantic Communist protests, last month signed pacts to put 500,000 West German soldiers in the western defence system.

# Four Miners Killed, Seven Hurt In Blast

LANSFORD, Pa. (AP)—Four miners were killed and seven others were injured in a blast at the Lehigh Navigation Coal Company workings here last night.

The explosion caught workers beginning the night shift—the last shift before the start of the United Mine Workers' country-wide 10-day paid holiday. It ripped through the lowest level of shaft No. 6 some 1,200 feet below the earth's surface. The mine is situated in the centre of eastern Pennsylvania's hard-coal region.

The cause of the explosion was not determined immediately.

# Campbellford High School June Promotion Results

CAMPBELLFORD (ENS). — The following are the results of the June examinations at Campbellford High School:

GRADE 9A

First-class Hon.—James Baker, Jack Collette, Doris Covert Robert Cowell, Mary E. Emmons, Harriet Houlihan, Donald Young, Jeff White.

# J. Feeley Represents Key Club In Chicago

Among the 2,000 Key Club delegates from 45 states and five provinces attending the ninth annual convention of Key Club International in Chicago this week is James Feeley, 359 Aylmer St. He is representing the St. Peter's High School Club.

There will be election of officers and planning of administrative policies for the 1,000 clubs in the international high school youth organization. The convention is being held in the Conrad Hilton Hotel.

Highlights of the three-day convention, June 24-26, included addresses by Robert F. Hurleigh, WGN-Chicago news commentator, Dr. Lawrence A. Kimpton, chancellor of the University of Chicago, Larue F. Smith, Niagara Falls, N.Y., vice-president of Kiwanis International, Arch Ward, sports editor of the Chicago Tribune.

# Smith School Holds Picnic In Lakefield

S.S. No. 6 Smith held its annual picnic on Thursday afternoon at Lakefield park under the supervision of principal G. Knox and his staff, Mrs. Hazel Hill and Miss Fern Chesney. With about 150 present the sports events began with races followed by senior and intermediate ball games.

During the ball games the smaller children had their swim fun and later made way for the ball teams and their supporters to enjoy a cooling plunge before supper.

Supper arrangements were taken care of by the Elm Corners Home and School Association. Mr. Knox expressed to J. McConkey, president of the association, his hearty thanks for assistance given him by the association in the planning and preparation for the picnic and for providing the prizes for the sports events.

Winers were: Running race—Girls up to 6 yrs.—Jacqueline Bladstock, Cheryl Graham; boys up to 6 yrs.—Albert Sheward, Keneth Heard. Girls 7-8—Dianne Monteith, Beverley Blackstock; boys 7-8—Murray Redpath, Larry Olver. Girls 9-10—JoAnne Monteith, Carolyn Rodney, boys 9-10—Stan Coons, George Mitchell. Girls 11-12—Marg Woodworth, Irene Edwards; boys 11-12—Stan Coons, Cliff Monteith. Girls 13 and over—Winnifred Monteith, Irene Edwards; boys 13 and over—Allen Slater, Ted Milligan.

Paper Scatter—Fred Gariepy, Bonnie Nichols.

ESack Race—Boys up to 10 years—Stan Coons, Murray Redpath, girls

STRAWBERRY TIME—Summer means heat but also red, juicy strawberries. Eleven-year-old Patsy White, of Kitchener, while picking them at her uncle's farm, found four strawberries on a single stem.

# Norwood Legion Holds Picnic

NORWOOD — (ENS). — The Norwood Legion No. 100 held its annual picnic for public schools on the Norwood Fair Ground on Wednesday afternoon. A large number of children, teachers and parents were present from Norwood Public School, North School 9th Line Brick School, South Dummer School, Central Dummer School, Donegal School, Daisy D School, Cottesloe School, No. 7 Highway Separate School.

During the afternoon races, merry-go-round rides, and pony rides, also ice-cream and drinks were given the children.

Winners of the races were:

Girls 6 years and under—Jo Edmunds, Jane Mullins, Rosemary Rothwell.

Boys 5 years and under—Ronald Andrews, Alex Watts, John Logan.

Girls 6 years—Karen Pakenham, Gail Warner, Valerie Stanley-Jones. Boys 6 years—Gordon McKee, Terry Armitage, Gregory Scott.

Girls 7 years—Elaine Heffernan, Ruth Watson, Helen Hie. Boys 7 years—Roy Richardson, Michael Redwood, Allen Redwood.

Girls 8 years—Rosemary Walsh, Carol Hopkins, Cicelia Terpstra. Boys 8 years—Keith Woodcock, Roderick Rork, Philip Coleman.

Girls 9 years—Marlene Golloher, Bronwlin Stanley-Jones, Katherine Hudson. Boys 9 years—John Stewart, Wayne Rowland, Billy Hannivan.

Girls 10 years—Colleen Welsh, Bernadene Logan, Nancy Flett. Boys 10 years—Ronald Scott, Richard Hamblin, Gordon Mackey.

Girls 11 years—Muriel Rusaw, Arlene Stackhouse, Esther Edmunds. Boys 11 years—John Terpstra, Carl Heffernan, Donald Hannivan.

Girls 12 years—Elaine Haacke, Shirley Bongard, Gertrude Terpstra. Boys 12 years — Walter Bland, Ronald Dooley, Bruce Mullins.

Girls 13—Barbara Brown, Margaret Allman, Dolores Mullins. Boys 13—Murriel Hannon, Johnny Anderson, Wilbert Saltern.

Girls 14 or over—Rhoda Coleman, Ivy Bendall, Pauline Byer. Boys 14 or over—Willard Ranson, Eddie Heffernan, Bob Hannivan.

Brazil, largest country in South America, has an Atlantic coastline of 4,889 miles.

# Approval Given For Paving Connecting Link

CAMPBELLFORD (ENS)—The Campbellford town council met in special session on Thursday evening to pass a resolution authorizing the paving of the connecting link through the town, joining Highway 30 entering from the south with the same highway to the point where it enters the corporation on the north.

This highway was once a gravel road joining Brighton with Haveloc through Campbellford. The section south from Campbellford to Brighton was paved a number of years ago, and department of highways are at present engaged in putting a new surface on the section immediately south of Campbellford. The section from Campbellford to Havelock was paved a few weeks ago, and until that time was a comparatively rough road.

The resolution passed calls for the town to pay 50 per cent of an estimated $11,000 to pave an 8,200 foot section of the highway. In a couple of spots where the highway in the town is wider than the usual 33 feet, the town will pay the extra charges for paving up to 36 feet.

# Percy W.I. To Give Food To Guides

WARKWORTH — (ENS). — The Percy Branch of the Women's Institute met on Tuesday at the home of Mrs. Percy Windover, with 21 members and 4 visitors present. Five of the conveners of standing committees gave two-minute papers. A donation will be sent to the Agricultural Society to be used in the same manner as last year.

A gift of jams, jellies and pickles will be sent to the Girl Guides in the near future.

Mrs. Ezra Cornelius, program convener, presented the following program: Community singing by the members. Motto, "Never pick a quarrel even if you are right" was taken by Mrs. D. H. Evans. A report of the Guelph conference was given by Mrs. George Arkils, the president, and Mrs. Oscar Laver gave a report of the district annual meeting.

Lunch was served by the hostess and the lunch committee.

HOLD EVERYTHING!

WHERE'S MY MONEY?

It's a good question — but hard to answer at the last moment. Maybe hard to answer later on, too. Cash that's lost or stolen is not very often regained. That's why the ultimate answer is the B of M Travellers Cheque, when it comes to peace of mind while travelling.

Should you lose your B of M Travellers Cheques, or have them stolen, they are without value to anyone else. And you can claim a refund if they are not recovered.

You see — a Travellers Cheque becomes valid only when you sign it a second time in front of the person who cashes it for you.

So why take a chance? Why spoil your trip with worry? Changing cash into B of M Travellers Cheques before you start costs you so little, and there's no better protection.

# Redistribution Delays House Adjournment

OTTAWA (CP)—Parliament is nearing the end of current business but one controversial topic—redistribution of representation in the Commons—may delay adjournment.

Prime Minister St. Laurent announced yesterday that after business is finished Parliament will be adjourned until Thursday, Nov. 20. He said members could be recalled at any time to deal with any "momentous decisions" which might come as result of the international situation.

It had been hoped that Parliament's business could be cleaned up today. However, a two-day debate on agriculture estimates, highlighted by a discussion of government handling of the outbreak of foot-and-mouth disease in south Saskatchewan, has set back the timetable.

**MUCH WORK REMAINS**

These estimates may be finished today but still to come are several other departments, including Immigration, and the controversial Redistribution Bill which increases Commons' representation to 265 members from 262.

Redistribution has been occupying a committee for months. Prolonged discussion is expected to come when the legislation reaches the Commons. It now is felt that there is little chance of members heading for home until after July 1.

Yesterday the Commons voted 172 to 3 final approval of legislation to provide annual pension for long-service members up to a maximum of $3,000 a year. The bill later was approved by the Senate. The three Commons opponents were E. D. Fulton (PC—Kamloops), Howard Green (PC—Vancouver-Quadra) and Gordon Churchill (PC—Winnipeg South Centre).

Most of the day was spent on estimates of the Agriculture Department.

During the debate these points were made:

1. Agriculture Minister Gardiner said he favors national application of the principles of the Prairie Farm Rehabilitation Act under which the government sponsors irrigation projects in drought areas of the prairie provinces.

**WOULD AID U.K.**

2. M. J. Coldwell, C.C.F. leader, suggested Canada might suspend repayment of her loan to Britain to allow that country to use the dollars to buy Canadian farm products.

3. Mr. Gardiner mentioned reports that Quebec may lift its embargo on western beef to take advantage of a meat deal among Canada, Britain and New Zealand by which Canada is sending beef to the United Kingdom. But he said the federal government forced no province to lift such controls—ESTABLISHED AFTER THE F established after the foot-and-mouth disease outbreak—though it believed it had the power.

# 2 Schools Enjoy PicnicAtCobourg

COLDSPRINGS (ENS) — An enjoyable time was had on Thursda afternoon when the pupils and teachers of Stone and Coldsprings schools, held a joint picnic at Victoria Park, Cobourg.

The teachers, Miss Grace Wilton and Mr. William Little, conducted games and some enjoyed a dip in Lake Ontario.

After the games a picnic lunch was served.

## Billy Wasn't There

BRANTFORD (CP)—While Billy Lewis, 7, slept peacefully at home, 10 divers and firemen spent three hours probing the depths of the civic swimming pool for his body. Billy had left his clothing in the pool checkroom when a companion had left with his checking tag. He walked home in his bathing suit.

## RMC Courses Full

KINGSTON (CP)—The army's first academic course for subalterns is under way at Royal Military College. It is the longest and largest attended course of a series scheduled for the summer. A total of 244 lieutenants and second lieutenants from corps across Canada are on the 10-week course which ends Aug. 30.

# Coldsprings News

Mr. T. F. McBride spent a couple of days with Mr and Mrs. Glen Hogg and family, Harwood, during the week.

Mr. and Mrs. W. J. Cowper motored to Collingwood this week to visit their daughter, Mrs. Archie Wanless, Mr. Wanless and family. Another daughter, Miss Myra Cooper, teacher at Elmvale, is returning home with them.

Mrs. W. Minifie has returned to Cobourg after visiting Mr. and Mrs. E. Turk and family.

# Millbrook School Holds First Picnic

MILLBROOK — (ENS)—Millbrook Home and School Association held its first picnic for the Public School on the school grounds Thursday afternoon. One of the features of the event was the presentation of promotion certificates for all the grades made by David Fowler, chairman of the Public School Board.

The afternoon's program of races was conducted by the new Home and School president, Alex Gilbert, and the principal Percy Hamilton. It opened with a candy scramble, and closed with one for pennies.

Winners in the various races were:

Boys, aged 5 and 6—Larry Thompson, Johnny Bredin, Gordon Hamilton. No girls in this age group raced.

Boys 7 and 8—Brad Medd, Larry Gibbs, Johnny Snelgrove. Girls 7 and 8—Sharon Ball, Judy Gilbert, Yvonne Scott.

Boys 9 and 10—Wayne Raper, Bobby Hamilton, Peter Stewart. Girls 9 and 10—Jane Ouellette, Gayle Gibbs, Nancy Powell.

Boys 11 and 12—Donald Earle, Glen Forsyth, Earl Pinnington. Girls 11 and 12—Laureen Guthrie, Helen Wright, Donna Murney.

Boys 13 and 14—Ray Lowery, Eldon Hunter, Ross Thompson. Girls 13 and 14—Dorothea Chapman, Joan Gilbert, Ada Olan.

Boys' Scrambled Shoe Race, 12 and over—Ray Lowery, Glen Forsyth, Ross Thompson.

Boys' Scrambled Shoe Race, under 12—Alan Fowler, Bobby Hamilton, Barry Wood.

Girls' Scrambled Shoe Race, 12 and over—Dorothea Chapman, Ada Olan, Marilyn Sanders. Girls' Scrambled Shoe Race, under 12—Helen Wright, Nancy Powell, Sharon Bremner.

Boys' Cracker and Whistle Race—Ray Lowery, Earl Pinnington, Ross Thompson. Girls' Cracker and Whistling Race—Dorothy Dawson, Laureen Guthrie, Carol Ridge.

Marble and Spon Race, boys 7 and under—Reggie Sloan, Teddy Buck, Paul Ouellette. Marble and Spon Race, girls 7 and under—Vickie Medd, Barbara Reid, Margaret Fowler.

Boys' Wheelbarrow Race—Ray Lowery and Glen Forsyth, George Dawson and Donald Earle, Bobby Hamilton and Wayne Raper. Girls' Wheelbarrow Race—Dorothy Dawson and Helen Wright, Ada Olan and Judy Hobbs, Dorothy Ball and Laureen Guthrie.

Boys' 3-legged race, 12 and over—Ray Lowery and Eldon Hunter, Donald Earle and George Dawson, Ross Thompson and Teddy Armstrong. Boys' 3-legged race, under 12—Bobby Bredin and Wayne Raper, Bobby Hamilton and Barry Woods.

Girls' 3-legged race, 12 and over—Laureen Guthrie and Dorothea Chapman, Ada Olan and Dorothy Ball. Girls' 3-legged race, under 12—Helen Wright and Dorothy Dawson, Nancy Powell and Jane Ouellette, Gloria Raper and Gayle Gibbs.

Girls' Marble and Spoon Race, 11 and under— Jane Ouellette, Helen Wright, Dorothy Dawson.

Needle-threading Race — Helen Wright, Dorothea Chapman, Marilyn Sanders.

Skipping Race—Helen Wright, June Greer, Dorothy Dawson.

Relay Race between girls and boys of grades 6, 7, and 8. Boys had to run one way backwards. Girls won by close margin.

Married Women's Race—Mrs. Homer Ouellette, Mrs. G. A. Woods, Mrs. Ray Powell. Married Men's Race—Stewart Snelgrove, Rev. A. A. Chote, Rev. A. M. Butler.

In presenting the certificates Mr. Fowler congratualted both pupils and teachers and wished them continued success in their work. Mr. Gilbert, Home and School president, thanked all who had contributed to the success of this, their first picnic, and stated that the association hoped to make it an annual affair.

# Woman 106 Last May Dies In Cornwall

CORNWALL (CP).—Lucy Pemberton, 106 last May 7, died yesterday in her sleep.

Born in Williamsburg, Ont., she had lived in a home for the aged here for 20 years.

## Drowns While Swimming

BARRIE (CP)—Paul Burridge, 13, was drowned yesterday while swimming with a group of children from Camp Borden army camp in the Nottawasaga River. The children were taken to the farm of E. Bush for a picnic by Martin Lemeoux, 28, civilian employee at the camp.

## Howe Sails For Arctic

MONTREAL (CP)—The C. D. Howe sailed yesterday on her annual 100-day, 12,000-mile tour of Arctic waters with a cargo ranging from fuel and oil to heat northern outposts to tractors and reindeer hides. Dentist aboard is Dr. R. S. Robertson of Cobourg, Ont.

# New Choir Room Inspected At Film Show

MILLBROOK — (ENS).— The new choir room built in the Sunday School hall of St. Andrew's Church by the choir from the proceeds of the operetta, "The Sunbonnet Girl," was on display Thursday evening. The choir presented an entertainment of slides and musical numbers, served tea and cookies, and invited the public to see their new room. It is lined inside and out with plywood in natural finish and there are built-in cupboards to hold gowns and hats.

The slides were ones taken and shown by Homer Ouellette, a member of the choir, who specializes in color photography as a hobby. He showed scenes of trips through the zoological gardens in Detroit, of New York City, the Canadian National Exhibition, a trip through Vermont and a number of others. There were pictures of beauty spots in and around Millbrook, in spring, autumn, winter and summer all in full color.

While a water scene was shown on the screen the male quartette, comprising Gordon Might, Donald McKnight, Homer Ouellette and Melville McDowell, with Fraser Carr taking the solo part, sang "Cool Water."

During the showing of a summer scene Mrs. G. A. Spicer, the choir leader, sang "Trees." For the autumn scene which showed a road lined with multi-colored trees, Mrs. Bruce Ingham gave two readings, "Indian Summer" by Wilfred Campbell, and "Tewkesbury Road" by John Masefield.

Mrs. Lawrence Winslow sang "Winter Wonderland" while snow scenes were shown. Mr. Ouellette, who gave a humorous running comment, also showed slides of the operetta "Sunbonnet Girl." While the one of the full cast was on the screen the choir sang two selections from the operetta.

After the showing of slides of the interior of the church, which included the chancel decorated for Christmas, the choir sang two anthems, "Praise Ye the Father" and "All in the April Evening."

Beverley Patton gave a piano solo at the beginning of the program. The Rev. A. M. Butler welcomed the audience, and Miss Estella Hetherington at the close of the evening thanked all who had contributed to the success of the choir's project of building the new choir room. It is believed the proceeds of the evening will finish paying for the room.

Members of the choir served refreshments with the help of Mrs. David Lunn.

# Massey Sees Revolt In World Of Letters

LONDON, Ont. (CP)—Rt. Hon. Vincent Massey, Governor-General, last night said the world of books and letters may be experiencing the same sort of revolution brought about in the musical habits of people by radio.

In an address to a meeting of the Canadian Authors' Association, he said he believes also that more worthwhile and distinguished books are [illegible] today than educated men [illegible] me to discover or read.

Mr. Massey was guest speaker at presentation of the Governor-General's literary awards to Canadian authors.

They went to Morley Callaghan, Toronto, for fiction; Frank MacKinnon, Charlottetown, for academic non-fiction; Charles Bruce, Toronto, for poetry; John F. Hayes, Montreal, for juvenile fiction and Josephine Phelan, Toronto, for creative non-fiction.

## Slight Error

KIDDERMINSTER, Eng. (CP)—Gordon Hooper, 27, was startled to see his name on the war memorial in this Worcestershire town. The town clerk apologized and offered to have the name effaced, but Hooper said he did not want to spoil the look of the memorial.

## EATON'S Top of the Page Feature Value! Nylon

*"Sportime" Pantie*

### Girdles!

Repeat on an earlier special! Sports girdle that fits tight for wear swimming, dancing, tennis or golf. Lightweight natural rubber in flesh colour only. See these for yourself at EATON'S Monday. Sizes Small, Medium and Large. EATON Opportunity Day, each . . . . . **1.29**

### Hose!

EATON Opportunity Day. Pair . . **1.29**

Sheer, Sheer hose . . . 51 gauge, 15 or 30 denier . . . all first quality, all low priced. With reinforced heel and toe, choose from Romany, Spangle or Penny. Hose is full fashioned in sizes 8½ to 11.

*Save on Women's*

### Blouses!

An opportunity Day special that wise shoppers will eye with approval. Nylon Blouses . . . with Peter Pan collar, short sleeves and pearl buttons skipping up the front. In White, Pink, Blue, Turquoise or Yellow. Sizes 12 to 20, EATON Opportunity Day, each . . . . . **3.19**

### Women's . . . Misses' Halters!

Snugly fitted in front for good fit . . . halters have tie around neck and feature colourful floral designs. Get plenty of sun this summer with a halter from EATONS. And look at the low price. In Pink and Blue. Small, medium and large. EATON Opportunity Day, Each . . . . . **.79**

## EATON'S Offers Three Smart Saving Ideas

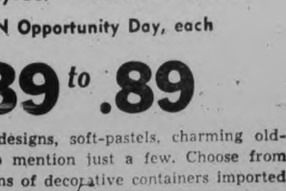
### Umbrellas!

Rayon umbrellas . . . ten rib . . . with attractive plastic handles. Bright plaids or subdued plain shades in Red, Green, Brown, Navy or Blue. Don't miss them. EATON Opportunity Day, each . . . . . **2.69**

### "T" Shirts!

Women's or Misses' . . . interlock cotton "T" Shirts . . . straight cut bottom with short sleeves, crew neck in smart stripes. Small, Medium and Large, EATON Opportunity Day, Each . . . . . **.95**

### Cushions!



Porch Cushions for the home or cottage! Covered in gay cotton chintz . . . colours of red, wine, green and filled compactly with a sanitary cotton filling. About 18" square, EATON Opportunity Day, Each . . . . . **.79**

**Kiddies' Novelty Sun**

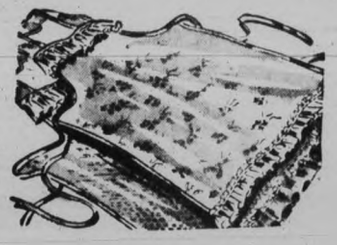
### Glasses!

With unbreakable lenses . . glasses come in bunny style colours of Pink, Blue or White. Also in the group cowboy style in Red, Blue or White. See them early. EATON Opportunity Day, each . . . . . **.19**

**EATON'S Saving Price on Bib-Style**

### Aprons!

Good quality aprons for around the home . . . protecting your clothes. In popular bib style . . aprons are of sturdy plastic and come in White, Nile, Yellow or Pink. Buy several at this price. EATON Opportunity Day, each . . . . . **.77**



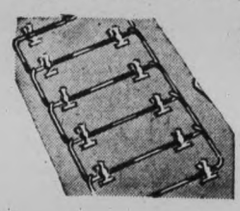
### Jewellery!

EATON Opportunity Day, each or pair **.49**

You should be amazed at the wide selection of both seed bead or china jewellery . . . necklaces, ear rings, clips . . too numerous to mention. In white or pastel shades. Shop early.

*Opportunity Day Savings in Sturdy*

### Skirt Racks!



Wire skirt racks for easy, compact hanging behind doors, in closets, etc. Racks hold up to six skirts with rust-resistant, nickel-plated steel clips. Buy several for all your skirts! EATON Opportunity Day, each . . . . . **.89**

## Save! Handy Metal Tins!

*Dozens of Styles! Dozens of Uses!*

EATON Opportunity Day, each

**.39 to .89**

Delicate floral designs, soft-pastels, charming old-world scenes, to mention just a few. Choose from dozens and dozens of decorative containers imported from England for this special offer. Sketched are just two of the many sizes and shapes available. Some have snug-fitting hinged lids, some have take-off lids with or without handles. Shop at EATON'S Monday for this fine value, but shop early for best selection.

## Used Appliances!

Here it is! The chance you've been waiting for! Buy now for the home or cottage . . . Ranges, Rangettes, Washers, Radios . . . all used merchandise in good condition. Don't miss this chance to add a second radio to your home . . . a range to the cottage . . . any number of needs finds these Appliances in demand.

### Console or Mantel Radios

| | |
|---|---|
| "Rogers" Console, each | 29.95 |
| "De Forest Crosley" 5 tube, each | 29.95 |
| "Sky Ranger", each 5 Tube | 29.95 |
| "General Electric", each | 29.95 |
| 6-tube "Crosley", each | 29.95 |
| "Addison" Mantel, each | 14.95 |
| "RCA Victor" Combination, each | 14.95 |
| "Arvin" Mantel, each | 14.95 |

### Rebuilt Automatic Washers

| | |
|---|---|
| "Connor Laundrall", each | 219.50 |
| "Bendix" De Luxe, each | 219.50 |

### Heavy Duty Electric Ranges

| | |
|---|---|
| "Westinghouse", Range (timer, oven control, etc.) each | 129.50 |
| "Hotpoint" Range (lamp, warming drawer, oven control etc.), each | 119.50 |
| "Hotpoint" Range, each | 79.50 |
| "Moffat" Range, each | 39.50 |
| "Tudhope", Range, each | 49.50 |
| Also Rangettes from | 24.50 to 39.50 |

## Reject Plea For More Housing Aid

### Ottawa To Consider Removal of Tax For Municipalities

CALGARY (CP) —The federal government has turned down requests by the Canadian Federation of Mayors and Municipalities for more aid to housing, civil defence, education and highway construction.

But it promised careful consideration to the removal of sales tax from goods purchased by municipalities, and the addition of some groups of municipal employees to those eligible for unemployment insurance.

The government's decisions were contained in a report read at the federation's annual convention, which opened here today.

Almost 300 delegates from across Canada and the United States registered for the four-day meeting.

**REPLY TO BRIEF**

The government report was prepared in reply to a brief submitted by the federation. It was in lieu of a speech by Prime Minister St. Laurent, who cancelled plans to attend the meeting. The Prime Minister was kept in Ottawa by a heavy run of government legislation.

A foreword to the report said the contents were not "definitive" statements of government policy, but were detailed indications of the government's reaction to the federation's proposals.

In its brief, the federation asked for "more direct measures" to stimulate house construction. But the government said existing credit and mortgage loans available under the National Housing Act is "the most practical way in which the government can assist."

A suggestion for a federal-provincial-municipal conference on housing also was rejected. The report said municipalities should discuss their problems with provincial governments.

REJECT PLAN

## Blistering Heat Wave Still Gripping U.S. Some Centres Sizzle In 108 Degrees

CHICAGO—(AP)—A blistering heat wave, of more than a week's duration in some areas, showed little let-up over southern and central parts of the United States today.

Some rain and wind storms hit parts of the sun-baked sections in the eastern half of the country, bringing temporary relief. Rain fell in sections of the parched southern states where crops are threatened by the prolonged hot-dry spell.

It was a week of stifling heat in many areas. Temperatures in the 90s to as high as 108—in Malden, Mo.—were reported in central and southern states east of the Rockies. Refreshing breezes and rain storms brought relief to the hot spots in sections of the east and south Atlantic states.

The death toll from the summer season's longest stretch of hot weather mounted toward the 200 mark.

Northeastern Ohio cleaned up debris today from a violent storm which whipped across the state and caused nearly $750,000 damage.

Hardest hit was Norwalk in north central Ohio. Damage there was expected to reach $500,000. Most was caused by 250 fallen trees, many of which landed on porches and autos.

Sunday's brief electrical storm in western New York battered towns from Falconer to Buffalo, hitting extra hard at Angola, Collins and other Lake Ontario shore points.

## Charge Montreal Writer With Passport Fraud, Order Bail Set At $1,000

OTTAWA (CP)—Raymond Arthur Davies, Montreal writer charged with passport fraud, today was remanded for one week for preliminary hearing in magistrate's court. Bail was set at $1,000. Bail was posted by his wife, Mrs. Davies, who waited in private courtroom offices while her husband, born Rudolph Shohan of Polish parents, was arraigned in court. She said she came prepared to post bond "of any amount." Davies, long associated with the Communist party in Canada, was charged with making "false or misleading" statements when he applied to obtain a Canadian passport July 1936.

The court clerk, reading out the charge, said that Davies made a statement saying that he had no other name but Raymond Arthur Davies, that he was born in Montreal March 15, 1908, and that he had no other nationality but British.

He was arrested at Whitby, last Saturday.

**ASK $1,000 BAIL**

Defence counsel C. A. Seguin of Ottawa and Roger L. Beaulieau of Montreal asked that bail be set at $500 cash, but Crown Prosecutor Raoul Mercier demanded that it be $1,000.

CHARGE MONTREAL

(Continued on Page 2)

WRITER CHARGED—Raymond Arthur Davies, 44, prominent Canadian writer, has been charged with passport fraud. The arrest at Whitby of the Montreal writer, a known sympathizer with Communism, came after a long investigation by the R.C.M.P.'s special branch. Justice Minister Garson said Davies—whose original name was Rudolph Shohan—is accused of having made "an untrue or misleading statement in writing for the purpose of obtaining a Canadian passport."

## Two Changes Made In Pacts

### Settle Final Details At Meeting Held In Washington

OTTAWA (CP) —The Canadian and United States governments today applied to the International Joint Commission for authority to develop the power works of the proposed St. Lawrence seaway-power project.

Prime Minister St. Laurent, in the Canadian application, asked the commission to give all possible priority to the project so that construction "may be undertaken at the earliest possible date."

With the filing of the complementary Canadian and U.S. documents before the commission—announced here by Prime Minister St. Laurent—the two governments also exchanged notes in Washington setting out their understanding on the seaway construction.

The announcement said agreement was reached on final details at a meeting in Washington between Canada's Transport Minister Chevrier and David K. E. Bruce, acting U.S. Secretary of State.

**TWO MODIFICATIONS**

The notes set out two modifications of previous agreements concerning the project.

These were:

1. Because of the proposed construction by Canada of a 27-foot waterway, the Canadian government will forego an unspecified amount which the power-developing entities were to have paid the Canadian government for continuing the existing 14-foot facilities.

2. Canada's newly-created "St. Lawrence Seaway Authority," which will build and operate the

## Rule Union To Pay CGE $9,200 For '49 Work Loss

TORONTO, — A board of arbitration under chairmanship of Prof. Bora Laskin has awarded Canadian General Electric Co. Ltd. $9,208 damages against the United Electrical Workers for loss incurred by the company during a work stoppage. The decision is believed the first in which the arbitration tribunal in Canada has been called upon to hear a claim for damages by a company against a union for breach of a collective agreement.

The decision noted that the damages were not a penalty but represent compensation to the company for its loss during the work stoppage.

Damages were awarded on the basis of breach of a no-strike clause in the collective agreement. The union was given 90 days to pay.

The no-strike clause represents an undertaking by the union that there "shall be no slowdown, strike or other stoppage of or interference with work."

**DID NOT DISCOURAGE IT**

The majority award found that if the union did not actively inspire the work stoppage it did nothing to disown it, and encouraged its continuance by failing to take immediate and firm steps to end the walkout.

The decision is regarded by labor observers as being of major significance in the field of industrial relations.

The award pins squarely on the union the responsibility for maintaining discipline in the plant and ensuring continued production under the terms of the agreement.

In this case, said the judgment, the union was content to look on while production in the plant was disorganized and the company apparently helpless to cope with alleged spontaneous stoppages.

The work stoppages took place over a 2½-day period at CGE's Davenport Works in Toronto in September, 1949 over the suspension by the company of a union steward. The decision is in two

## 33 Fatalities Mar Early Part Of Holiday

By THE CANADIAN PRESS

Thirty-three fatalities—20 of them on the highways—marred the first 48 hours of Canada's four-day holiday week-end.

Eight persons were drowned as citizens streamed out to holiday retreats to celebrate Dominion Day.

Warning pleas were issued in all provinces. But a Canadian Press survey showed today that 15 died in Ontario, 9 in Quebec, 6 in New Brunswick and one each in Manitoba, Alberta and British Columbia.

The mounting toll on the highways compared with the 28 killed in the 72-hour Dominion Day holiday last year. In that period a total of 84 died violently across the country.

**ONTARIO FATALITIES:**

Bill Green, 14, and Anne Van Der Heul, 16, were killed near Toronto when struck by a motor car. The driver, William Fleming, 30, was charged with manslaughter.

Aksel Lauton, 25, of London, was killed when the car in which he was riding hit a hydro pole.

A construction worker, Charles Lyons, 25, was fatally injured when he fell 65 feet from a steel girder at the Steel Company of Canada, Hamilton.

The body of Sam Missodie, believed drowned in a creek at Sud-

## Will Dissolve Assembly If Laws Not Passed—Rhee

PUSAN, Korea (AP)—South Korea's political crisis neared a climax today as President Syngman Rhee handed the Assembly an ultimatum—adopt his proposed constitutional amendments quickly or he will dissolve the Legislature "I will wait only a few more days," Rhee declared, then "I will take decisive action in compliance with the will of the people."

Rhee did not indicate how he would go about dissolving the Assembly. Korea's constitution makes no provision for such action.

The 77-year-old President and the National Assembly have been feuding bitterly since January. Rhee demands constitutional amendments providing for popular election of a president and a two-house legislature.

**FORCED POSTPONEMENT**

The one-house Assembly elects the president. It was scheduled to do so last week, but Rhee supporters forced postponement of the election.

A few hours before Rhee's message was read to the Assembly, the President received an ultimatum from representatives of town and city councils and provincial assemblies, who strongly support him.

The provincial representatives warned Rhee that unless he dissolves the Legislature immediately they will occupy the republic's assembly hall.

A third ultimatum was reported given a member of the United Nations mission to Korea. Baron Gerald van Ittersum of The Netherlands said he had been warned by right wing political elements to "get out of Korea or else."

Van Ittersum is a member of the U. N. Commission for the unification and rehabilitation of Korea and is scheduled to serve as chairman next month.

## Car Crashes, Burns, Occupants Break Way Out

TRENT RIVER (ENS)— Keith Hornsby, 21, of R.R. 3, Havelock ended up in Civic hospital early Sunday morning after his old-vintage coupe blew a tire a mile north of Trent River, Highway 30.

The car plunged into the soft shoulder of the highway, jumped a culvert, grazed a roadside tree, turned upside down and burned.

His two passengers, nephew Jim Hornsby and Lorne King, broke the car windows and all three got out. District people gathered and Bert Greenhalgh drove Hornsby to Dr. D. J. Holdcroft of Havelock who applied first aid.

Mr. Greenhalgh later drove Hornsby to hospital where he was treated for shock, lacerations to his right arm by Dr. J. T. Stewart; skin grafting was required. The car was a total wreck and not believed to be insured.

The accident was investigated by O.P.P. Constable A. T. Eady of Campbellford. Mr. Hornsby's condition is satisfactory today.

## Chauffeur Charged With 2 Traffic Deaths

TORONTO (CP)—William D. Fleming, 30-year-old chauffeur and handy man, is in jail at nearby Brampton, charged with manslaughter in the traffic deaths of a boy and a girl.

The smashed bodies of Anne Van Der Heul, 16, and Billy Green, 13, were left lying on the suburban Mississauga road late Saturday night by the driver of a late-model automobile who police said did not stop.

Police said the two young persons were hurled 100 feet by a speeding car on the wrong side of the road. They said it missed another boy, Donald Fogg, 15, by inches.

Fleming, father of two children, went to suburban Toronto township police 12 hours after the accident. Officers said he refused to give any information except his name and address.

Fleming is chauffeur for Roy H. Thomson, president of the Thomson Co. Limited which publishes a group of Canadian newspapers.

Margaret Alderson of Galt, social editor of the Galt Reporter, was questioned last night and police said she gave them a written statement.

## 2 Canadians, DP's Have Weekend Scrap

BONN, Germany (Reuters)—Canadian military police today investigated a weekend scrap between two Canadian soldiers of the 27th Infantry Brigade and a group of displaced persons.

An Army spokesman said both soldiers were slightly injured in the fight, which occurred as they escorted two girls home to a D.P. camp at Hamelin, northern Germany. One man was bruised about the head and face, the other received a cut on the head which required three stitches. Both men are under arrest pending completion of the investigation.

The spokesman declined to release the soldiers' names.

He said the Canadians were involved in a scuffle with men from the D.P. Camp for an undisclosed reason.

Germans in the Hamelin area reported that later more Canadian troops went to the scene of the fight and fought with camp inmates. They claimed the Canadians smashed windows, doors and furniture in the camp.

## Third Crisis For Egyptians

ALEXANDRIA, Egypt (AP)—Turbulent Egypt today struggled with her third Cabinet crisis in five months following the resignation of Prime Minister Ahmed Naguib Hilalay Pasha and the naming of another veteran independent politician, Hussein Sirry Pasha, to form a new government.

The 60-year-old Sirry Pasha, who has been premier three times before, received King Farouk's mandate to form a Cabinet last night and at once began discussions with political leaders.

No official reason was given for Hilalay Pasha's resignation Saturday, but there was speculation that he had not moved fast enough with his announced program of cleaning up graft in the Egyptian government and winning Egypt's chief aims—to oust the British from the Suez Canal Zone and to unify Egypt and the neighboring Anglo-Egyptian Sudan.

(Dispatches on the Cabinet crisis were subjected to considerable delay. The Cable and wireless office in London said an Associated Press dispatch Saturday, reporting Hilalay's resignation, was held by Egyptian censors for 36 hours).

## C.C.L. Official Saves Swede

BERLIN (Reuters) — Donald MacDonald of Sydney, N.S., secretary-treasurer of the Canadian Congress of Labor, rescued a Swedish trade union executive being hauled off into the Communist zone yesterday.

Olaf Englund, president of the Swedish Salaried Employees Association, like MacDonald was with a party of about 100 trade unionists in Berlin for a special conference.

On a tour of Western Berlin the party reached the Potsdam bridge on the road to Russian military headquarters, about 20 miles outside the city.

Englund walked to the middle of the bridge, a no man's land between West Berlin and the surrounding East German territory.

At once an East German policeman tried to haul him to the Communist side for questioning. MacDonald ran to the Swede, wrenched him free and hauled him back to the rest of the party while two Russian soldiers looked on.

## Jet Crashes Save Records

BOSCOMBE DOWN, England (Reuters)—Sqdn. Ldr. William A. Waterton, a native of Edmonton, crash-landed a secret twin-jet night fighter here yesterday and escaped from the plane with valuable records seconds before it burst into flames.

The plane—the new Gloster G.A. five Delta—has "super priority" for the R.A.F.

Waterton, the Gloster Aircraft Company's chief test pilot, had trouble with the plane's elevators while coming in for a landing.

As the plane came down the main runway the undercarriage crumpled. The plane skidded along its belly before turning around and bursting into flames.

Waterton, a graduate of the Royal Military College at Kingston, who joined the R.A.F. in 1939, just had time to grab movie films of instrument readings and leap clear of the plane before it caught fire. Ground crews saved it from being a complete loss.

## Mountaineer Says Death Mistake

MIDDLESBORO, Ky. (AP)—James P. Longworth arose from his bed yesterday, after awaiting 24 hours for death, and remarked:

"Well, I guess God changed His mind."

The mountaineer, 69, who said God twice told him he would die at 8 a.m. Saturday, was still in apparent good health.

"I am greatly disappointed, however," he said. "I was ready to go."

## No Paper Tuesday

Tuesday being July 1, Canada's Dominion Day, there will be no editions of the Examiner published. There will be found in today's issue all the features and comics scheduled for July 1.

## Evacuate 700 From Lodge

TORONTO (CP)—About 700 old persons, some in wheelchairs, were evacuated from Lambert Lodge early today as firemen fought flames in the basement.

Officials of the old folks lodge said damage was light. It was confined to the basement with slight smoke damage upstairs.

There was no panic. Officials said some patients seemed to enjoy the excitement.

Cause of the outbreak was not determined immediately.

Thick choking smoke filled the entire building. Officials later said they feared some cases of shock might be found among delicate heart patients.

One fireman was overcome by smoke but revived. No one else was injured.

## Treasure Hunter Finds Doubloons On Fundy Isle

ADVOCATE, N.S. (CP)—Eight Spanish doubloons and parts of a skeleton have been found by a treasure hunter on tiny Isle Haute, 13 miles from here in the Bay of Fundy.

Edward Rowe Snow of Marshfield Mass., a historian whose hobby is treasure hunting, made the find in a brief visit to the island Thursday night. He found the gold with the aid of a metal detector and old charts.

The charts belonged to the late Dougal Carmichael of Vancouver, who recovered some $20,000 in buried treasure from the island from 1923 to 1936.

Snow found parts of a skeleton near the gold. It appeared that some of the coins had been clutched in the bones of the hand.

One of the doubloons was dated 1710 and all bore the cross of the Holy Roman Empire. Snow said it is unlikely there is any sizeable cache left on the island.

Legend has it that the money was buried by the notorious pirate Edward Lowe, who cut out the tongues of his captives and served them, fried, to his crew.

Legend and charts also indicate that the Isle Haute treasure came from the Spanish galleon Senora de Victoria, captured in 1725.

In Marshfield, Snow said the treasure is in a Canadian bank, impounded by the Canadian government.

"Under the Canadian export laws," he explained, "American citizens cannot take gold out of Canada. The only way I can get it home is through an American bank, that is, by having the bank apply for me."

When Snow finally gets the treasure it will be only 90 per cent intact. Canada can claim the remainder under the law of treasure trove.

## Anthony Eden III, Jaundice Victim

LONDON (AP)—Foreign Secretary Anthony Eden is ill with jaundice and will not be able to carry out full duties of his office for a number of weeks, the Foreign Office announced last night.

Eden, 55, first complained of illness last Friday.

It had been expected that Eden would take a leading part in a Commons debate tomorrow when the Labor Party opposition plans a censure motion regretting failure of the government to have effective consultation with the United States before the recent air raids on Yalu River power stations in North Korea.

The Duke of Edinburgh, also suffering from jaundice, remained in Buckingham Palace yesterday. In palace quarters it was said his illness is taking its normal course.

## British Seeking Greater Voice

LONDON (Reuters)—Prime Minister Churchill's Cabinet is today working on a reported new system to keep Britain in the command picture in Korea, on the eve of a parliamentary debate in which Labor will attempt to pass a censure motion against the government over Korea.

New methods of consultation in Tokyo were discussed during the recent London visit of the U. S. secretary of state, Dean Acheson.

Observers consider that a high British military officer will be appointed deputy chief of staff to Gen. Mark Clark in Tokyo. Some say there will also be a British "political representative."

*High Costs Hit Royalty*

## Recommned £65,000 Increase For Queen

LONDON (Reuters)—A government committee today reflected the high cost of living by urging a raise for the Queen, recommending that she should be paid 475,000 pounds a year.

The committee's report, presented after complicated work on the details of royal expenses, now goes to Parliament for approval. If the proposal goes through—it probably will, though there are usually some economy-minded anti-monarchists—the young Queen will receive 65,000 pounds more than her father.

The recommended figure is well over the 385,000 pounds "expense account" given Queen Victoria, but due to rising prices and inflation it won't be worth anywhere near as much.

While a good portion of the Queen's income goes into her privy purse to be spent more or less as she likes, most of it is eaten up by royal household salaries, pensions and other endless expenses.

The government report emphasized that the rising cost of living has hit Buckingham Palace as well as the Queen's subjects.

The committee report said that, with increasing facilities for air travel, it was to be expected the Queen would pay more frequent visits to the other countries of the Commonwealth and Empire.

**QUEEN OVERWORKED**

The report also showed concern over the Queen's being overworked, echoing recent pleas by medical journals, churchmen and women's organizations that for the sake of her health she should not be overburdened with work as was her father.

Every effort had been made to reduce her work, remembering that in addition to being Queen she had the duties of wife and mother. Nevertheless, the report said, "the burden of Her Majesty's duties is still formidable and is likely to remain so."

The report also disclosed disagreement among politicians over court ceremonial. Labor members of the committee had urged less court formality to lighten the burden of monarchy and proposed elimination of outdated ceremonies.

The proposals were defeated, the report said, though "some reduction of expenditure may flow from a further simplification of the sovereign's official functions."

The 475,000 pounds figure is for the Queen alone. The report urged that the Duke of Edinburgh should be granted an annuity of 40,000 pounds for life.

The committee also made financial recommendations for the Queen's children.

**PRINCE CHARLES**

If Parliament accepts the report, Prince Charles, the 3½-year-old heir to the throne, will get one-ninth of the revenues from the Duchy of Cornwall, which amount at present to 90,000 pounds a year.

This means that 150,000 pounds will be available for his maintenance and education until he is 18 and for the accumulation of a capital sum for him.

From 18 to 21 he will have an extra 30,000 pounds a year. If he marries and dies before his wife she will get an annuity of 30,000 pounds.

Princess Anne, the Queen's two-year-old daughter, will get 6,000 pounds a year when she is 21, increased to 15,000 pounds on marriage. So will any other daughters Elizabeth may have.

If more sons are born to her they will get 10,000 pounds a year, going up to 25,000 pounds a year when they marry.

The committee recommended that the same provision for increase should extend to Princess Margaret, in the event of her marriage. At present she gets 6,000 pounds a year.

# Say Planes Fired On From China

## 13 Plants Destroyed In Week's Raids Air Head Reports

SEOUL, Korea (CP) — Lt.-Gen. Glenn O. Barcus, United States Fifth Air Force commander, disclosed yesterday that Communist anti-aircraft guns in Manchuria fired across the Yalu River at U.S. planes bombing the Suiho power plant last Monday.

He added that no planes were lost over Suiho but that no attempt was made to knock out the Communist guns across the boundary between Manchuria and Korea. Red guns on the south bank were hit, however.

United Nations policy forbids Allied planes to attack across the river.

In an interview, Barcus also disclosed the full extent of the smashing raids against the vast hydro-electric power complex in North Korea which feeds Communist industries there and in Manchuria.

He said 13 plants—all there are in North Korea—were destroyed.

"I don't think there is a chance in the world that the Suiho plant (on the south bank of the Yalu) will be operational again in this war, no matter how long the war lasts," Barcus said.

He added that best information was that the Suiho powerhouses were the primary source of power for the big Mukden industrial area in central Manchuria.

**500 PLANES ATTACK**

More than 500 planes blasted the Suiho plant—the world's fourth largest—and four other plants in the mass raid Monday, the biggest raid of the war. By Wednesday the jet fighter-bombers also had destroyed eight other plants, he reported.

He observed that Suiho wasn't hit again after Monday's strike "because there was nothing left there to bomb. We never went back to Suiho and we don't intend to."

Barcus declined to say who ordered the bombing of the plants —a blow which caused international repercussions. Britain said it had not been advised in advance of the raids.

Barcus said only:

"It was a co-ordinated raid with the navy. Therefore the orders had to come from higher up. It was carefully planned and beautifully executed."

# Peterborough Hogs, Grain And Produce

**MONDAY, JUNE 30**

## The link that had to come

The two main roads to the solution of life's problems, divergent though they may have seemed to be, are the way of Science and the way of Religion.

These two paths converge in Christian Science. Today the rational thinker finds logic, supported by proof, in the religious thinker's deep conviction of a primal cause, or intelligence, called God.

Science and religion can now agree, for through the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, the actual Science of Christianity has been revealed.

This great book shows, through reason and revelation, the solution to problems of health, supply, or of any other kind. It may be read or obtained at all Christian Science Reading Rooms. The coupon is also for your use.

**CHRISTIAN SCIENCE READING ROOM**
**305 Water Street**
**Hours 2:30 - 4:30**
**Tuesday and Friday**
**7 to 9 p.m. Thurs. Evening**

☐ Enclosed is $3 for a copy of "Science and Health with Key to the Scriptures" by Mary Baker Eddy.

# Drew Charges Committee Gerrymandering Over Seats

OTTAWA (CP)— George Drew Progressive Conservative leader, said today the Commons committee on redistribution was guilty of "acts of bare-faced gerrymandering." The committee, the majority of whose members support the government, was appointed to redraw the boundaries of federal constituencies in line with population shifts recorded in the last census. Mr. Drew, launching what is expected to be a lengthy debate on the committee's recommendations, said it is significant that changes in boundaries of constituencies have so conspicuously affected ridings represented by Progressive Conservatives.

Stanley Knowles (CCF—Winnipeg North Centre) and Donald Fleming (PC—Toronto Eglinton) also criticized the committee's recommendations. Leslie Mutch (L—Winnipeg South) said that in Manitoba the committee did bring about some equality between the populations of rural seats and between the populations of urban seats.

**MOTION DEFEATED**

At the outset of the discussion, Mr. Drew moved that the debate on redistribution be adjourned because consideration still is being given to the boundaries of some constituencies. His motion was defeated 62 to 35 in standing vote.

Mr. Drew said the committee had proposed sweeping changes for the Saskatchewan constituency of Lake Centre, represented by John Diefenbaker, an "outstanding" member of the Progressive Conservative party.

In Manitoba, there was gerrymandering to join Souris and Brandon constituencies. It was hard to believe that the only adjustment that could be made there was by joining two constituencies represented by Progressive Conservatives.

In Nova Scotia, Annapolis-Kings constituency, held by George Nowlan, president of the Progressive Conservative Association of Canada, would have 50 per cent more voters than the two adjoining ridings.

**PETERBOROUGH-HASTINGS**

In Ontario, serious instances of gerrymandering could be found. They affected the Progressive Conservative seats of Huron North, Haldimand, Frontenac - Addington and Hastings-Peterborough.

Mr. Fleming said the general principle had been to draw constituencies with about 58,000 population. In Ontario the lowest had 28,000 and the highest 92,000. This showed there had been no attempt to base representation on population.

The Commons Saturday voted 88 to 37 against a Progressive Conservative motion asking for an independent commission to do the redistribution work now done by a parliamentary committee.

Drew said the commission would take politics out of changes in electoral constituencies.

His motion was supported by P. C. and C. C. F. members, together with J. L. Gibson, Ind.-Comox-Alberni. Liberal and Social Credit members voted against the motion.

The Commons then gave the bill second reading and sent it to the committee on redistribution, which added a schedule outlining the boundaries of the 265 ridings —an increase over the present 262.

**STEMS FROM CENSUS**

The redistribution stems from the 1951 census. Once approved, the changes will take effect with the next federal election.

Mr. Drew said that under the present system a Parliamentary committee, with a majority of government members, decides on constituency boundaries after each decennial census.

Neither the Conservatives nor Liberals could claim "any particular virtue" in the way in which redistribution had been handled in the past. The present committee could and did use its powers to liquidate political opponents by gerrymandering boundary lines.

He suggested an impartial commission be established to report to Parliament when it meets Nov. 20 for a new session.

No Cabinet Minister spoke on Mr. Drew's proposal although several Liberal members spoke against it.

Jean Francois Pouliot, L.-Temiscouata said he has been a "politician for 25 years" and has no complaints against the present system. George Murray, L.-Cariboo, said the committee has been fair.

**PERSONAL INTERESTS**

Stanley Knowles, C.C.F.-Winnipeg North Centre said a Parliamentary committee had personal interests in the job, and altered representation "according to whims and compromises."

Robert Fair, S.C.-Battle River said the committee could do a good job if politics were left out.

J. W. Murphy, P.C.-Lambton West said his party would probably be doing the same thing as Liberals on redistribution if it was in power. The only way to get away from that situation would be through an impartial commission.

John Diefenbaker, P.C.-Lake Centre, whose Saskatchewan riding would be altered considerably under the bill, said the present system is archaic and dangerous. An independent commission would do away with bickering, prejudice and other things that "undermine our democracy."

This is how the seats will be divided in the next Parliament, with the existing division in brackets.

Newfoundland 7 (7); Prince Edward Island 4 (4), Nova Scotia 12 (13); New Brunswick 10 (10); Quebec 75 (73); Ontario 85 (83); Manitoba 14 (16); Saskatchewan 17 (20); Alberta 17 (17); British Columbia 22 (18); Yukon-Mackenzie River 2 (1); total 265 (263).

## Cheese, Produce And Livestock

**TORONTO FRUIT**

TORONTO (CP)—Wholesale fruit and vegetable prices [illegible] were: Onions green 60-75; rhubarb local $5; cucumbers Leamington $4; asparagus $3-3.50; 27 quart Leamington strawberries $5-8; green beans $1.75-2; apricots case $4; lettuce $2.50-3; cauliflower Leamington $2.50-3; cabbage case $2.50-2.75; radishes doz. 35-40.

Potato prices: P. E. I. and New Brunswick carlots to trade $4-5; American new $7.30; to trade $7-7.50.

**TORONTO PRODUCE**

TORONTO (CP)—Churning cream and butter print prices here today were: Churning cream 58-61; butter prints 58½-59½.

The egg market opened firm with receipts light and prices unchanged. The following quotations are for eggs packed in fibre cases.

Graded eggs cases free, delivered Toronto: Grade A large 48-49; A medium 46-47; A small 34-35; grade B 30; grade C 26-27.

Wholesale to retail; prices quoted for loose eggs with crated eggs selling three cents higher: Grade A large 52-53; A medium 50-51; A small 39-40; Grade B 34-35; grade C 30-31.

F88 seryrryr toronto add produce

Butter solids: First grade 58 tenderable and 56½ non-tenderable; no price established on second grade; Western 58 (asked).

**WINNIPEG GRAIN**

WINNIPEG (CP)—Further heavy rains over the Canadian grain belt during the week-end were reflected in coarse grain prices in early trading today on the Winnipeg Grain Exchange.

Prices showed an easier tone in inactive trade.

Commercial demand was light in oats and barley and industrial interests took small amounts of flax.

11 a. m. grain prices:

Oats—July ¼ lower 78⅛B; Oct. ⅛ lower 80⅛B; Dec. unchanged 79⅞B.

Barley—July ½ lower 1.19⅛B; Oct. ¼ lower 1.20⅝; Dec. ¼ lower 1.19.

Rye—July ⅝ lower 1.95½B; Oct. ⅛ lower 1.98⅞A; Dec. ¼ lower 1.98¾B.

Flax—July ¾ lower 3.86; Oct. 1 lower 3.90¾; Dec. 1 lower 3.88.

**TORONTO LIVESTOCK**

TORONTO (CP)—Cattle sales up to noon today at the Ontario Stockyards were generally too few to establish a market trend. Bids on all cattle were 50 cents to $1 lower. Receipts: cattle 3,410; calves 320; hogs 470; sheep and lambs 120. The leftover from last week was 100 cattle.

Choice steers sold at $27.25-$28.50 while good heifers were selling at $26-$26.50. Fed Yearlings were $25.50-$27.50 while medium weight stockers sold from $24-$26.50.

Calves sold steady at $24-$26 for good to choice vealers with a few tops at $26.50 and common to medium calves from $16-$23. Stock calves sold at $25-$30.

No hog prices established.

Lambs sold firm at $34-$35 for good quality with culls bringing $25-$30. Good sheep were $18-$20 with common downward to $7.

## The Weather

**Peterborough Temperatures:**

Today:
Night low..56 Noon...73
Noon barometer.....29.5

Yesterday:
Highest....67 Lowest..58

One Year Ago:
Highest....74 Lowest..42

Official forecasts issued by the Dominion public weather office at 9:30 a.m. today:

Synopsis:

Ontario can expect pleasant summer weather today and Tuesday with temperatures ranging from the low 80s in southern sections to about 70 in the far north. Skies were clear over all but the southwestern regions of the province during the night and temperatures fell as low as 35 at White River.

A new disturbance moving into the Dakotas is giving thundershowers as far north as the Canadian border, and south of it is a further supply of air which in the daytime reaches a high near the 100 mark. Cloud in advance of this disturbance will move into the White River region late Tuesday.

Regional forecasts valid until midnight Tuesday:

Northern Lake Huron, Niagara, Lake Ontario, Haliburton, Georgian Bay, Kirkland Lake regions; Toronto, Hamilton, North Bay, Sudbury cities:

Sunny and warm today and Tuesday. Winds east 15 becoming light at night. Low tonight and high Tuesday at Wingham, Toronto, St. Catharines and Hamilton 60 and 80, Trenton, Muskoka, North Bay and Sudbury 55 and 75, Killaloe 50 and 75, Earlton 45 and 70.

Summary for Tuesday—Sunny and warm.

# 25 Penmen At Conference

Approximately 25 members from Canada, United States and Cuba are attending the Third Annual Convention of the International Association of Master Penmen and Teachers of Handwriting being held at Gel-Mar Lodge, Dunsford, this week.

The convention opened Saturday, but business sessions will start Tuesday.

Those attending are teachers of handwriting, handwriting experts and engrossers. Engrossers do lettering and illuminated work on parchment and vellum.

The business sessions will take the form of discussions and collectors' specimens of penmanship will be exhibited.

## Charge Montreal

Continued from Page 1

At one point, Davies jumped up to ask Magistrate Glenn Strike whether he would permit a question.

Magistrate Strike, who presided at the preliminary court hearings in the famed Canadian spy trials, replied sharply: "No!" and motioned Davies to sit down.

Born in Montreal, Davies has been associated for 15 years or more with the Communist party. He was a former leader in the Young Communist League at Toronto and later became an executive of the Labor Progressive party, the present political form of the Communist party in Canada.

He is also author of several books—some of them on Russia—and contributor to several magazines.

A Toronto paper, in a news story from Montreal that did not identify Davies by name, said "the man is definitely suspected of having maintained close contacts with persons known to be Russian agents."

Informants said the R. C. M. P. had investigated the possibility of Davies turning over information to Russian agents, but were unable to get evidence for a charge to that effect.

**PENALTY OF 2 YEARS**

The passport charge, in itself, is not a serious one. Conviction under it carries a maximum penalty of two years. It was described as a "technical" charge.

The importance placed on the case, however, was shown by the fact that Justice Minister Garson personally announced the news of Davies' arrest.

The R. C. M. P., whose anti-subversives branch has been investigating Davies for several months, imposed a curtain of silence around the case following the arrest.

Davies was driven here by automobile from Whitby and was first taken to the Justice building where he was questioned for several hours. He was booked in a police station on the passport charge and was placed in Carleton county jail for the weekend.

## Two Changes

Continued from Page 1

navigation works, will contribute $15,000,000 towards the cost of enlarging the navigation channel above the power development to reduce the river's velocity in the channel.

The remaining cost of the channel enlargement will be borne by the power-developing agencies. The Canadian government said its "authority" will contribute the amount because the enlargement will provide benefits to navigation.

Subject to that modification, the Canadian government said in its note, Canada will ask the international commission to allocate equally to the power agencies the full cost of the power works.

These are expected to run to $400,000,000 and include, besides the actual hydro-production facilities:

**FLOOD COMMUNITIES**

1. The acquisition or rehabilitation of flooded lands and buildings in New York State and Ontario. About nine communities bordering the river in Ontario above the power-dam site will be flooded.

2. Railways and highways in New York and Ontario fringing the development will be relocated and kept up to at least the existing standard.

The application to the commission also specifies that, in dealing with the hydro-navigation projects, the commission will give consideration to their effects on the water levels in Lake Ontario and the St. Lawrence River.

**DEVELOPMENT SITE**

The proposed power development will be in the International Rapids section of the river, a fast-flowing 48-mile stretch just upriver from Cornwall. The main power dam will be at the foot of Barnhart Island harnessing the rushing Long Sault rapids for 2,200,000 horsepower of energy. Two other dams will help control the flow.

The Canadian government's system of canals and channels will provide a 27-foot channel through the rapids area and as far inland as Lake Erie, and it will also extend downriver as far as Montreal. Ocean-going ships will be enabled to enter the lakes.

## U.S. Dollar At Discount

MONTREAL (CP)—The American dollar was at a discount of 2⅝ per cent in terms of Canadian funds, the Bank of Canada reported at noon today, EDT. Friday's noon rate was $0.97½. The pound sterling was $2.71, against $2.71½ Friday.

**GRADE XI RESULTS**

In the P.C.V.S. Grade XI results published on Saturday, Lee Barns should have been credited with 1st class honors in physical education and health; Phillipa Gray, a credit in physical education and health and Darrell Lipsett a credit in geometry.

# Ask Assistance For Agriculture

OTTAWA (CP)—Assistance for various branches of Canadian agriculture was requested Saturday in the Commons.

Members, at their first Saturday night sitting of the session, made their appeals to Agriculture Minister Gardiner during study of his 1952-53 estimates.

J. N. Corry (L—Perth) urged that steps be taken to help the Canadian cheese industry. If something could be done to make every Canadian eat one half-pound more of cheese every year, the problems of the cheese industry would disappear.

George Fulford (L—Leeds) suggested the Health Department advertise the food value of Canadian cheese.

## Rule Union

Continued from Page 1

parts: the first establishes the union's liability for the walkouts; the second asseses damages.

**ON MAJORITY SIDE**

Joining with Mr. Laskin in the majority award was J. C. Adams, C.G.E.'s nominee on the board. A dissenting judgment was written by Idele Wilson, U.E.'s research director, who sat as the union's representative.

Mr. Laskin, appointed chairman by Labor Minister Daley, is professor of law at the University of Toronto.

C.G.E. vice-president, I. F. McRae, commenting on the award, said the company felt it contributed an important principle in the field of industrials relations.

"It simply means that in any agreement, each party—union as well as management—is answerable for any breach for which it is responsible. We feel this award will serve the public interest by further encouraging responsibility among all parties to labor-management agreements."

U.E.'s Canadian director, C. S. Jackson, held the board had exceeded its power in deciding damages could be awarded; secondly, he said, the union took the position there was no proof of loss to the company as a result of the stoppages.

"We're going to fight the issue right through, along whatever course is open for us," Mr. Jackson said.

Arbitration awards dealing with disputes arising out of collective bargaining agreements are final and binding.

The dissenting decision by Miss Wilson held there was no evidence of union responsibility for the stoppages, and that the union officials had dissociated U.E. from the walkouts.

She opposed the decision that the union was liable for damages, and held it outside the board's jurisdiction under the terms of the collective agreement to make such a finding. The no-strike section, she maintained, could not be applied to hold the union liable for unauthorized action of its members.

The $9,208 award represented $1,826 for loss of profits—half the sum claimed by the company—and $7,382 as the continuing expenses entailed in maintaining the plant regardless of whether there was production or not.

The decision held that damages were an appropriate remedy for a breach of a no-strike clause resulting in interruption of production.

Evolution of collective bargaining under legislative encouragement and sanction, said the judgment, demanded sobering responsibility by employers and trade unions.

"Part of the responsibility lies in the duty to redress established breaches of their collective agreements. The very prospect of having to answer for a breach is, or should be, a factor in securing adherence to obligations voluntarily assumed," the decision declared.

The allegation by the union of an improper suspension of the union steward does not afford an excuse for a breach of the collective agreement by the union, since the suspension of the steward could have been taken up under the grievance procedure, the board stated.

Analyzing the position of the union in relation to the members, the board stated that a union seeking to negotiate on behalf of the employees puts itself forward as a responsible party able to represent the workers.

**NEED DISCIPLINE**

"This responsibility, in the board's view, involves in the first place exertion of discipline or control over members; otherwise there can be no substance in collective bargaining relations and no stability in agreements."

The union, the board says, surely undertakes that its members at least will carry out the obligations involving action or inaction by employees.

The union also owes a duty to employers to take such measures as are reasonable to forestall or bring to an end conduct of employees, whether members or not, which the agreement prohibits, it adds.

A union cannot escape its responsibility under the terms of a no-strike clause merely because no evidence was shown that its officers sanctioned or directed a work stoppage, the board declared, or because the evidence showed a formal dissociation from complicity in a work stoppage.

The union's obligation under the no-strike clause, the judgment continued, required prompt action to get the employees back to work.

"It may well be necessary for the union, if unco-ordinated efforts by its stewards and officers to terminate the stoppage are unsuccessful, to make concerted efforts and obtain the permission of management to call a meeting on the premises for that purpose.

"It may be necessary to threaten, and even take disciplinary measures against, particular members of the union....It may, of course, be finally necessary for the union to report to management that it cannot control its members or other employees, thus leaving it to management to take such action as it sees fit."

**CONSISTENT PROCEDURE**

Such a procedure, the board held, is consistent both with union responsibility under its contract and with employer responsibility for directing the working force.

"It brings home, too, to the employees that in putting forward a union to represent them in collective bargaining, they recognize their subjection to its discipline in the discharge of obligations the union assumes under a collective agreement."

In the case before the board, the judgment continued, the union business agent appeared very casual about the whole matter.

It was clear to the board, said the award, that the union was prepared to make no serious effort to get the men back to work unless the steward's suspension were lifted, or until there was some assurance it would be reconsidered.

The union, the board held, did not consider it had an obligation to try terminating a stoppage even if it had begun spontaneously.

# Report Five Missing In Waterfront Fire

NEW YORK (AP)—Five persons were believed missing in a spectacular Brooklyn waterfront fire that blazed out in an old trolley-barn today and spread to four business structures and three homes.

Estimates of the damage ran as high as $1,000,000 but fire marshal Martin Scott placed the figure at more than $500,000.

A 59-year-old watchman, Walter Roble, was feared to have burned to death in the old carbarn used as a warehouse by paper-box manufacturers.

Roble's daughter, Mrs. Florence Radziki, who lives across the street, told firemen she heard her father scream from inside the building, "Help me, please help me."

## 33 Fatalities

Continued from Page 1

bury Saturday, was recovered Sunday. Another man, Mattie Kolari, 34, was drowned when his boat overturned in the Spanish River near Sudbury.

**CRUSHED BY TRUCK**

Vincent Cerreto, 24, of Hamilton was crushed beneath his delivery truck when it rolled over on him. Phillip Poitras, 22, also was crushed beneath his car when it overturned at Bonfield near North Bay.

Two unidentified men were killed in a car collision at Malton.

Seven-year-old Vickie Ann Stroud was fatally injured in a car accident near St. Thomas. Willard Baptist, 17, was killed near Teeswater when his car crashed into a bridge railing and Denis Paul, 3, of Hamilton died when struck by a car.

Earl Brissette, 17, of Windsor, was drowned in the Puce River, 15 miles east of Windsor.

**CHICAGO GRAIN**

CHICAGO (AP)—Most wheat contracts opened lower in active dealings today. A strike of grain-elevator operators at Kansas City caused considerable uncertainty in the market.

Wheat started ⅜ cent lower to ½ higher, July $2.26-2.25¾; corn was ⅛ lower to ⅞ higher, July $1.80¼-¾, and oats were ¼ lower to ⅛ higher, July 77⅛-¼. Soybeans were ¾ cent lower to ⅜ higher, July $3.27.

## Reject Plan

Continued from Page 1

**NOT BEST MEASURE**

On civil defence, for which more financial aid had been asked, the government report commented that "expenditure of money is not the best measure of a civil defence program."

It said certain large Canadian communities have already developed excellent civil defence programs without any considerable expenditure of money.

Another request for financial aid toward provincial highways construction was rejected. The government said federal commitments on highways already total $25,000,000 annually.

The government promised "careful consideration" of sales tax removal on goods purchased by municipalities, which are not intended for re-sale.

Two chief factors affecting any decision were mentioned. They were the great number of claims for tax rebates on the wide variety of goods involved, and a drop in government revenue resulting from tax exemption.

The report said study also will be given to the removal of a regulation excluding some municipal employees from unemployment insurance.

At present, municipal employees paid on a monthly basis and who have been employed more than one year are not eligible for unemployment insurance.

**SHOULD BE REMOVED**

"The Unemployment Insurance Commission feels the exception should be removed in the interest of employees and with a view to bringing all the employed population within the scope of the act, who can be insured without undue administrative difficulty," the report said.

Additional federal aid requested for education costs was refused. The report said education is a field in which the provinces and municipalities have exclusive competence. It added the government has made substantial contributions to education through the years.

A request for federal regulation of national charitable appeals was refused on constitutional grounds.

# Officer Makes Arrest Without Leaving Home

PENETANGUISHENE (CP) — Cpl. Blake R. Ball of the Ontario Provincial Police early today made an arrest without leaving his home.

Clad in pyjamas, Cpl. Ball crept downstairs to investigate after his wife said she heard voices.

He said later he found a neighbor, Stanley Martin 22, passing tools out the window to another man. Martin was captured without a struggle but the other man escaped.

Penetanguishene, on Georgian Bay, is about 25 miles northwest of Barrie.

# Smaller Firms Seek Agreement

YOUNGSTOWN, O. (CP)—Philip Murray says the heads of many smaller steel companies have been seeking him out, trying to bargain to end the shutdown of their plants in the country-wide strike of 650,000 steelworkers which began 29 days ago.

The president of the United Steelworkers of America (C.I.O.) made the statement yesterday in a speech at a union rally here. He said meetings are planned for today with some of the smaller producers.

Murray didn't name the firms but said managers of some of them had told him they were afraid of being blacklisted by the "Big Six"—the six major steel companies—from whom they buy ore or to whom they sell materials.

The "Big Six" to which he referred are U.S. Steel, Bethlehem, Republic, Jones and Laughlin, Youngstown Sheet and Tube and Inland, and they have nearly 70 per cent of U.S. steel-making capacity.

Murray read a full list of smaller steel plants that have made agreements with the steelworkers since the strike started. The settlements cover about 25,000 of the strikers, and together with firms not hit by the walkout, give the U.S. about 15 per cent of normal steel output.

# Prices Climb Slowly On Toronto Exchange

TORONTO (CP)—Prices turned slowly upward today in steady early afternoon stock market dealings.

Industrials, golds, base metals and western oils opened slightly higher but first-hour profit-taking checked the advance. Prices drifted in noon trading but firm support later bolstered key issues.

Activity maintained the slow-cautious pattern of recent sessions. Industrial trading remained within a narrow range of selected leading issues while only a scattered list of lower-priced metals, oils and golds attracted speculative interest. Volume for the first three hours was 1,014,000 shares.

Foods posted a few fractional advances to form industrials' strongest section. Steels, agricultures, banks and retail stores drew firm support but papers and miscellaneous issues slipped.

Base metals climbed strongly as Anacon Lead, Hudson Bay, International Nickel, Labrador, Normetal, Ontario Pyrites and Yukeno traded higher.

Western oils showed a majority of moderate gains. Britalta, Del Rio, Fargo, New Concord, Pan Western, Selburn and Trans Empire pushed upward.

Senior golds made little headway. Junior producers and prospects strengthened as East Malartic, Madsen, MacLeod, Sullivan, Bevcourt and Hoyle added pennies.

The exchange's 1 p. m. indices showed industrials up .70 at 318.77, golds up .69 at 90.36, base metals up 1.18 at 187.06 and western oils down .24 at 138.37.

# Present Evidence Of Red Slave Labor

UNITED NATIONS, N.Y. (AP)—The United States has turned over to the United Nations a three-foot-high stack of documents it says provide evidence that Russia is spreading her slave labor system under the Red flag.

The U.S. was the first government to present such evidence to the U.N. special committee on forced labor.

More than 18,000 statements from Polish soldiers who were Russian prisoners of war are included in the documents.

Walter Kotschnig, deputy U.S. representative in the U.N. Economic and Social Council, said that wherever the Communist flag goes, slave labor practices follow.

# $75,000 Fire Rages In Feed Plant

EXETER (CP)—An estimated $75,000 fire raced through the Exeter district co-operative feed plant early this morning, destroying in less than two hours the mill and 5,000 bushels of grain and feed.

A single fire door which cracked and chipped under the intense heat held the fire from adjoining warehouses which held several hundred bushels of feed and several drums of oil.

Insurance covered less than $5,000 of the loss, Manager Donald Charlton said.

**WEEDY SPOT**

The southern extremity of Georgian Bay in Ontario is called Matchedash Bay after an Indian word meaning "bad or swampy place."

**DR. WARREN GAMBLE**

Announces that he is no longer associated with the General Medical Clinic (Dr. Bob J. Young, Prop.)

**ANNOUNCEMENT**

DR. WARREN GAMBLE announces to the general public that he may be reached at 6408 and 20479.

Further details will be announced later.

# June Promotion Results At Marmora High School

Note: Subjects enclosed in brackets must be repeated.

**GRADE IX TO GRADE X**

Barbara Auger, Bernice Bedore, Molly Bird, Ruth Bird, Barbara Bonter, James Brooks, Thomas Byrnes (French), Joyce Clemens (Science and Mathematics), Troy Corrigan, Dorothy Deline, Doris Derry, Robert Drummond, Margaret Empey, Edward Flynn (French) Lulubelle Fraser, Eugene Harvie, Bernard Hughes (Social Studies and Science), Pauline Leonard, Josephine Logan, Daniel Maloney (Science), Barry Marven (French), Beverley McCoy (Geography and Science), Patrick McCrodan, Keneth McInroy (French and Science), Mary Moffatt, Rose Marie O'Neill, William Price (French and Mathematics), Allan Reid, Clayton Tupper, Earl Tupper, Barbara Weber, Marjorie Wells, George Wiggins (Science and Mathematics), Keith Wiggins, Beverley Young, Douglas Young (French).

# Strathcona Unit Returning From Korea

TOKYO (AP)—Canadian Army sources said today "Charlie" Squadron of the Lord Strathcona Horse—165 men—sailed for home from Japan last week after providing armored support for the 25th Canadian Infantry Brigade in Korea for more than a year.

The tank squadron is one of the last Canadian Army special force units, originally formed for service in the Far East, to return home on rotation.

The squadron, commanded by Maj. M. W. Quinn of Saskatoon, landed in Pusan, Korea May 4, 1951, and went into action May 24, relieving the Turkish Brigade on the central front east of Chorwon. It remained in action until June 8, 1952.

On one occasion, in October of last year, the Squadron supported three infantry companies in a raid and during a 10-hour period fired more than 2,800 rounds of ammunition.

The squadron stayed in constant action from the end of August, 1951, to the end of January without any special maintenance for the 20 tanks in the outfit.

The squadron now is commanded by Maj. V. W. Jewkes, M.C., of St. Johns, Que.

# Court Upholds Marketing Law

OTTAWA (CP)—The Supreme Court of Canada today upheld the validity of 1949 federal marketing legislation authorizing provinces to direct the marketing of their farm products beyond provincial borders.

Canada's top court reversed a judgment of the Supreme Court of Prince Edward Island that held the Agricultural Products Marketing Act was unconstitutional and that interprovincial and international marketing schemes based on it were invalid.

Several such schemes set up by provinces under the 1949 statute were suspended after the ruling of the P. E. I. court early this year. The P. E. I., New Brunswick, Saskatchewan and British Columbia governments joined the federal government in fighting that decision.

The far-reaching judgment of the Supreme Court now enables the revival of those marketing operations. There is no further appeal, since the case was started after Parliament abolished appeals to the Privy Council.

While the Supreme Court here unanimously decided the 1949 legislation and extra-provincial schemes based on it are valid, it gave majority decisions against two features of the P. E. I. Potato Marketing Board's scheme that was the subject of the case at issue.

The majority found that:

1. The Board could not, as it purported to do, name representatives to act jointly with boards in the other Atlantic provinces to regulate and co-ordinate the marketing of potatoes.

2. A proposed levy on P. E. I. producers of one cent per 100 pounds on potatoes they marketed was invalid.

# Two Churches Join Services

HAVELOCK (ENS) —The congregations of Havelock United Church and Knox Presbyterian Church will hold joint services for July and August with one service each Sunday.

For the month of July the services will be held in the United Church at 11:15 a.m. and for August in Knox Church at 7:30 p.m.

The Rev. R. D. Duncanson of Knox Church will be in charge of the service for the first three Sundays in July. The Rev. R. G. Newman will take the next three Sundays and the Rev. H. K. Wright of Norwood United Church will be in charge for the last three Sundays in August.

FIRST YOUNG AMERICAN MEDAL AWARDS—Two boys and a girl, selected by the Department of Justice for bravery and outstanding service during 1951, receive from President Truman the first Young America Medal Awards. From left: Stuart William Oberg, 17, of Millinocket, Me., receives the Service Medal for outstanding activity in Civil Defence; Parker Edward Stratt, 10, of Coral Gables, Fla., the Bravery Medal for saving a 9-year-old girl from an alligator; and Margaret Galassi, 16, of Springfield, Ill., the Bravery Medal for saving seven children for whom she was baby-sitting, from a blazing home.

# Crash Landed Fighter Plane

CAMPBELLFORD — (ENS) — Flying Officer Howie Rowe, son of Mr. and Mrs. Harold Rowe of Campbellford, attached to No. 1 Fighter Operational Training Unit at the R.C.A.F. base near Chatham, N.B., crash landed his Mustang fighter last week after fire broke out in the motor of the plane.

Rowe was flying on a routine flight when the engine caught fire. He managed to extinguish the fire, but with a dead engine, had to find a field in which he could sit down in a hurry. The best looking spot was a level stretch of beach two and a half miles south of the town of Tracadie, near Chatham, and Rowe managed to bring the plane into a safe landing practically undamaged. He climbed outunhurt.

**BOAT SENT TO RESCUE**

He radioed his base and told them of his experience and gave his position to other aircraft in the area. R.C.A.F. officials at Chatham immediately contacted a R.C.N. search and rescue launch stationed in the Miramichi River for marine rescue work, and the launch proceeded to the crash scene to take the stranded airman off the beach.

Everything was fine until Rowe tried to climb into the boat that was to rescue him. He slipped and skinned his leg badly on the side of the boat. Said Rowe: "I never did like boats anyway, they are too dangerous, but I was sure glad to see this one." The Navy dressed his leg, and Rowe is again back in the air, ferrying jet aircraft to Toronto.

Howie's buddies at the Chatham base have nicknamed him "Old Deadeye" after Air Force Day celebrations at the eastern base. He was the only pilot during Air Force Day celebrations to score a direct hit on a target, firing rockets from his aircraft.

# Pennsylvania Man Speaker At Kitchener

HARRISBURG, Pa. (AP)—Miles Horst, Pennsylvania secretary of agriculture, will be a principal speaker Thursday at Kitchener, Ont., at ceremonies marking the 100th anniversary of the founding of Waterloo county.

Horst was invited to participate in the ceremonies because they coincide with the 155th anniversary of the migration of 1797 of a group of Lancaster county Mennonite farm workers from Pennsylvania to Waterloo county.

A group of fourth generation descendants of the original Mennonite migrants travelled over the same route in a horse-drawn Conestoga wagon in the last two weeks. They left Lancaster on June 18 and were due to arrive today at Kitchener.

# Korean Battlefront Becomes Big Swamp

SEOUL, Korea (AP)—Three days of drenching rain have turned the Korean battlefront into a soggy swamp where croaking frogs have taken over from the booming artillery.

Allied planes were grounded again today.

The heavy rains have turned the fighting front into a quagmire. Gen. James A. Van Fleet, U.S. Eighth Army commander, has said Korea's summer rainy season will make a new Communist offensive improbable.

Only a few light patrols were out Monday morning.

# Coldsprings News

Mr. and Mrs. Wilbert Brooks, Port Hope, attended church service on Sunday morning and were dinner guests with Mrs. Wm. Teney, and Mr. and Mrs. Nixon Timlin.

Mr. and Mrs. Paul Harris, Patricia, Diane and Donald, were Sunday guests with Mr. and Mrs. A. Jones and family, Toronto.

Mr. and Mrs. Hilton Graham, Harwood, were Sunday guests with Mrs. W. Gibson, Mr. and Mrs. F. Shier.

Bob Davidson, Queen's University, Kingston, is with his parents, Mr. and Mrs. R. D. P. Davidson.

Mr. and Mrs. Allan Thompson and son, Port Credit, were Sunday guests with Mr. and Mrs. Melville Dines.

# Dismiss Charge Bogus Currency

COBOURG — (ENS) — Charge against Bertram Hoskin, Toronto, of passing bogus currency was dismissed by Judge C. Anderson in county court last week. Hoskin was sentenced to three years and six months early this year in county court here and in the appeal launched by defence counsel, J. C. M. German, Q.C., a new trial was granted. Also tried early this year with Hawkins were John Morgan, who pleaded guilty and Gerald Sullivan, who with Hawkins pleaded not guilty. Morgan received two years less a day and Sullivan, three years. In the appeal the conviction against Sullivan was dismissed.

The offences in question were alleged to have occured at Greenbank, Front Road West Cobourg, Grafton and Wicklow. Evidence at the new trial was that Hawkins was not at Greenbank, Front Road W. Cobourg or at Grafton but that he was at Wicklow.

# Marmora Minister Concludes Pastorate

MARMORA (ENS) — Farewell sermons were preached on the Marmora United Church charge on Sunday by the Rev. G. D. Young, B.A., B.D., who concluded a pastorate here of four years and is returning to Alberta to become pastor of the United Church at Taber. St. Andrew's was well filled for the morning service and was prettily decorated with peonies, delphiniums and other summer flowers. The choir sang an anthem "I Will Extol Thee" and following presentation of awards to girls of the Explorers and C.G.I.T., by Rev. Young, Mrs. R. Long sang, "Beside the Still Waters".

H. W. Sabine spoke words of appreciation to Rev. and Mrs. Young and A. L. Drew presented a gift of money on behalf of the congregation. In his reply, the pastor paid tribute to the assistance he had received from Mrs. Young and the fellowship of the church's organizations and congregation which had made his pastorate a pleasant one to remember.

# School Report

**WESTWOOD SCHOOL**

Teacher, Miss Marjorie Huffman.

The following were promoted to Grade 9, Jackie Breckenridge, Paul Humphries, Frances Lynch, Roy McMillan, Albert Walsh, Barbara Whitred.

Grade 8, Jackie Dunlop, Malcolm Pacey, Bobbie Shelton, Rose Simpson, Isobel Wilson.

Grade 7, Buddy Cardwell, Anne Whitred.

Grade 6, Sharon Cardwell, Eileen Dunlop, Grayce Lake.

Grade 5, Carl Breckenridge, Richard Lake, Bobbie Middlebrook, Peter Needham, Melvyn Russell, Marion Shaw.

Grade 4, Gladys Hie, Norman Hie, Billie Whitred.

Grade 3, Vivian McGee, Freddie Pulfer, Larry Simpson, Jimmy Stinson, Lyle Tarleton, Walter Wilson.

Grade 2, Gary Cardwell, Vaughn Fife, Christie Lake, Yvonne McGee, Wayne Pacey, Barbara Russell, Margaret Stinson.

# Obituary

**FREDERIC LORN DOUPE**

Frederic Lorn Doupe, Fairborn, Ohio, and formerly of Peterborough, died Saturday in Miami Valley hospital, Dayton, Ohio, following an illness of six months.

Mr. Doupe was born and educated in Peterborough, the son of the late Bruce Doupe and Mary Brooks and has lived in Fairborn, Ohio, for the past 28 years.

He attended both public school and Collegiate in Peterborough. He was an accountant with the South Western Portland Co., in Ohio.

He leaves his wife, the former Frances Brawley, and two sisters, Mrs. Floyd Curtis and Mrs. Gertrude Kavanaugh, both of Peterborough.

The funeral will be held from the Morris Son's funeral home, Fairborn, Ohio, to the Frank Lynett funeral home, Toronto, and burial will be in Mount Hope ceretery, Toronto.

# 11-Cent Raise Accepted By Union Heads

MONTREAL (CP)—Striking employees of the Dominion Textile Company, members of the United Textile Workers of America (T. L. C.-A. F. L.), last night learned that their negotiating committee had agreed to an 11-cent an hour increase as one proposal in a basis of settlement reached last week.

A union announcement said the workers themselves, some 6,000 of them in five plants in Montreal and Valleyfield, Que., will vote on the proposals in a secret, government supervised ballot, Thursday, July 3. A favorable vote would end the three-month strike.

Besides the 11-cent boost, which becomes effective on signature of a contract, proposals call for a 10 per cent boost retroactive to September last, when the contract expired, two cents additional for maintenance and skilled workers and an additional statutory holiday.

The contract would run for two years, with wage negotiations opened again at the end of the first year. Either side could break it at that time if disagreement arose.

Employees originally asked 25 cents an hour and later lowered their demands to a 13-cent an hour increase.

# Elect Hamilton Man Association President

BELLEVILLE (CP)—Fred Sirman of Hamilton was elected president of the Ontario Association of Managers of Homes for the Aged Saturday at the close of a three-day convention. He succeeds Roger Comfort of St. Catharines.

Also elected were Mrs. J. Read, Whitby, first vice-president; Dr. S. R. McKelvey, Beeton, second vice-president. Directors are Ken Yorke, Belleville; D. J. McConnel, Athens; W. Spary, Fort William; Secretary, R. J. Forges, Woodstock and treasurer, M. C. Roung, Dundas.

# Two Toronto Men Killed In Crash

TORONTO (CP)—Ralph Comerford and Nathan Greenspan, both of Toronto, were killed last night in an automobile collision a few miles west of here.

They were not identified until today.

Adrien Beaudoin, 52, of Hamilton told police an oncoming car carrying the two men clipped his radiator and overturned. Beaudoin's wife, daughter Lizette and sister-in-law, Becky Fillion, were injured.

## Somehow, We Have Managed It

Well, here we are on the eve of our 85th Dominion Day. Some people want to call it Canada Day, but we are contented with the old term. And, taking things by and large, it is amazing that our country has reached its present age, and its present modest eminence among the nations of the world. Voltaire mocked both French and English for wanting Canada, which he called "a few acres of snow". Pitt was quite ready to give up the better part of Canada to the French. Lord Ashburton told the U.S. Ambassador (who was John Quincy Adams) that he wished Britain would give Canada to the U.S. in 1816. The U.S. made a clause which would admit Canada to its Union in 1777. In Trollope's political novels we are given to understand that, in the political life of the mid-Victorian era, concern for Canada was the mark of a political eccentric. Nobody seems to have wanted us very much, or thought well of our country, until we began to make a success of it. And now that we are on the threshold of what looks like a very real success, we are objects of admiration and attention from nations which have fared poorly in the struggles of the past half-century.

* * *

France might have had us; the U.S. nearly got us. But fate ordained that we should become an independent country of the British Commonwealth and that we should reach the middle of the twentieth century with fine prospects and high hopes. These prospects and these hopes have brought with them an aggressive nationalism which is a pleasant change from our earlier attitude of self-depreciation and self-doubt, but which often tempts us to shout too loud, and to claim more for ourselves than sober judgement can award to us. It would be a fine thing if we could, as a young nation on the upward path, adopt a somewhat more relaxed attitude toward our own good fortune. Life is, after all, to be enjoyed—not slaved away, or wasted in noisy outbursts which advance nothing, and destroy much that is of tender growth. We are a very lucky country, and it may honestly be said that we have deserved our luck, and earned a great part of it. One of our principal jobs now is to learn to enjoy it.

## Forgotten Man In U.S.

Political headlines about the Presidential nomination races dominate the news in the United States, and will continue to do so until the Republican and Democratic conventions have been held. There has been little mention, however, of another exceedingly important nomination to be made by each party—that of a candidate for Vice-President. This lack of publicity is undoubtedly due to the fact that there is little public interest in the Vice-Presidential nomination, although politicians are keenly interested in it for a variety of reasons.

Almost anything may account for the selection of a Vice-Presidential candidate. Theodore Roosevelt was nominated in 1900 chiefly because Boss Thomas Platt of New York and Boss Matthew Quay of Philadelphia were anxious to get rid of him as Governor of New York, in which post he behaved too independently to suit these Republican leaders. Their wishes won over the strong opposition of Mark Hanna, great financier who was dubbed "the Cleveland Warwick" because he had put William McKinley in the White House in 1896. And Theodore Roosevelt, of course, became President in 1901.

Calvin Coolidge was nominated as Vice-President largely on the strength of his denunciation of the Boston police for going out on strike, and became President in 1923. That same summer, the Democratic convention at San Francisco named Franklin D. Roosevelt to run on the ticket with James M. Cox of Ohio, and the nomination was assured by the courtesy of Mr. Cox. Boss Charles Murphy of New York's Tammany Hall controlled sufficient votes to assure the second place nomination, but Boss Murphy disliked the attractive, patrician young Roosevelt. Mr. Cox, however, took the unprecedented step of consulting the Tammany leader about the nomination, and Boss Murphy was so pleased he swung all his influence behind Mr. Roosevelt.

The third Vice-President to succeed to the higher office, Mr. Truman, was a compromise candidate. The Democratic labour group wanted to name a candidate, and the agricultural group wanted to name a candidate. The late President Roosevelt wanted a candidate acceptable to both and attractive to the South as well. The then Senator Truman had those qualifications, and in addition was favourably known throughout the nation for the excellent leadership he had given the Senate committee investigating war expenditures.

The Presidential nominations will continue to hold the spotlight and dominate the conventions, and the second-place nomination will be almost ignored. In the traditional "smoke-filled rooms", however, full consideration will be given to the latter by practical politicians.

## A Modest Proposal

In 1729 the great Dean Swift shocked the people of England by publishing a pamphlet called *A Modest Proposal for Preventing the Children of Poor People from Being a Burden to their Parents or the Country;* his plan was simply that the offending children should be killed and eaten. A Mr. Roderic Henderson, of Chester, Vermont, U.S.A., in the June 14 issue of *The New Statesman & Nation,* makes a proposal which many people will find quite as shocking. It is simply that at the approaching Coronation "members of the peerage be permitted to sell their places in the Abbey complete with their Coronation robes, to hard-currency customers."

Mr. Henderson's kindly suggestion continues:

Naturally there would have to be some grading of prices, varying with the rank and precedence of the place-seller, but this should not be difficult to arrange. In this way Americans would not only be able to take part in the Coronation ceremony itself, but they would also be lifting the burden of hire, or purchase, of Coronation robes from the financially straitened peerage. Naturally the sale of such placenames would be limited to peers belonging to the Conservative party. No American would wish the F.B.I. to examine his impersonation of a Liberal or a Socialist peer; for, in America, Liberals are considered the unwilling dupes of the extremists, the worst form of fellow travellers, while everyone knows that Socialists are synonymous with Communists.

It is obvious that there might be criticism of this scheme from those who still consider the Coronation to be a significant and solemn act of dedication by the Sovereign to the service of God and the British people. To meet the objections of this group, I would suggest that the actual Coronation be carried out at an unpublicised date in a simple religious ceremony attended only by those most closely connected by tradition with the ceremony. Furthermore, it is quite obvious that the Queen could not be expected to take part in the dollar-earning ceremony. I suggest someone under contract to interested film companies could assume the role of the Sovereign for the occasion.

It would be sad indeed if simply through lack of initiative the British people allowed this delightfully painless way of earning dollars to escape them.

The logic of Mr. Henderson's proposal is admirable, and his care for the sensibilities of his own government and that of Great Britain is deserving of the highest praise. If only the British can recover from the initial shock of his plan, something mutually satisfactory to both nations might be arranged, and as a starter, we suggest that Miss Truman might appear in the role of the Queen in the dollar-earning ceremony.

## Tinkering With 'O Canada'

The Vancouver *Province* recently held a contest for a new set of words for Calixa Lavallee's tune for 'O Canada'. The newspaper was apparently moved by a belief that many Canadians are dissatisfied with the present words. Here is the first verse of the winner, the work of a Mrs. Isa Grindlay Jackson:

O Canada, dear country of our birth!
Mighty among the nations of the earth!
Our loyalty shall be thy strength
And down the years to be,
With boundless faith, O Canada,
We pledge our all to thee.
Chorus
O Canada; glorious and free!
We pledge our all to serve and honor thee
O Canada, to serve and honor thee.

This is not bad, but we question whether it is so much better than the present words that it will be widely adopted.

People who fuss about the words of 'O Canada' do not, in our opinion, take sufficient account of the magical effect of time, which makes almost any set of words for a national song dear and hallowed. The words of 'God Save The Queen'—still our national anthem, by the way—are doggerel; if they were offered by a modern writer as the words of a national anthem they would be laughed at for their bad rhymes, savage ideas (in the famous second verse) and general ineptitude. But time has ennobled them. Given time, the same magic of ennoblement will transform the words of 'O Canada'.

While on this theme, we should like to confute the musicians who often write that Lavallee's tune parrots a march from Mozart's *The Magic Flute*. We know this march well, and while it is true that the opening phrase of Lavallee's composition bears some resemblance to Mozart's the similarity is a far-fetched one. The tune, as we have frequently pointed out, breaks down badly in the middle section, but as national airs go it is by no means bad.

Give the words and tune of 'O Canada' time to gather moss. Time will do all that is necessary for them.

# Musical Notes

by PETER PIPER

AS I write these notes I can hear intermittently the sound of distant thunder; which reminds me of a curious fact. In the storm music in Beethoven's Pastoral symphony the normal course of Nature appears to be reversed: the rolls of thunder come before the flashes of lightning. This should not worry us in these days of mechanical reproduction of sound: a record of a thunderstorm would be rather dull to listen to, whereas Beethoven's music is a good deal more exciting than the real thing. He said himself that this symphony was "mehr Empfindung als Malerei" (feeling rather than scene-painting), forestalling any possible criticism that his music was not realistic enough. Yet there are many touches of earthy realism in this symphony. Beethoven's peasants are Breughel-like figures, far removed from the shepherds and shepherdesses of the rococo; in the finale their thanksgiving takes on an universal significance, and the "local colour", so evident in the scherzo, disappears after the first few bars. In this sympathy Beethoven sees with uncanny clarity the possibilities and the bounds of "programme music". It is worth noting that throughout the whole work the constructive musical genius of Beethoven is at the helm. A listener knowing nothing of the "story" is able to enjoy this music because the development of the symphony is on musical lines. One feels nowhere that there is an arbitrary programme foisted on the music which it must follow. The "thread" (a term invented by Leopold Mozart and exemplified magnificently in the works of his illustrous son) is intact throughout.

✧ ✧ ✧

BEETHOVEN is one of the comparatively small band of major composers whose work has a moral bent. General Booth of the Salvation Army is supposed to have said that the Devil gets all the best tunes. As if to prove his thesis the body that he created specialized in music reminiscent of the London music-halls, which in spite of their name are renowned for other things than music pure and simple. I hear the spirit of Oscar declaiming, "Music is rarely pure and never simple".

✧ ✧ ✧

IN SPITE of this Beethoven has proved that great music can also be associated with moral values. Donald Tovey, whose great little book on Beethoven is a constant source of inspiration, says, "Joachim once remarked of a clever French musical critic that 'this Parisian shows no sense of the great penitent that there was in Beethoven'. Beethoven was far too busy to torment himself, but Joachim was profoundly right about his penitence. It was a quality that was, if possible, more out of fashion in Beethoven's time than it is now. But it will always be inseparable from responsibility so long as human beings have ideals and fail to reach them . . . To put the matter in unfashionable terms, Beethoven's music is edifying. There is nothing inartistic in that".

✧ ✧ ✧

WHEREAS Mozart, Puccini, Verdi and other writers of opera often treated the subject of marital infidelity with some levity Beethoven's one and only opera, Fidelio, glorifies married love. Beethoven remained a bachelor, but he had a lofty idea of conjugal fidelity and was (possibly rather prudishly) repelled by the tragi-comic interplay of the sexes in Cosi fan Tutte, Don Giovanni and Figaro, to name three of Mozart's masterpieces.

✧ ✧ ✧

YET Fidelio, in spite of magnificent music and some effective dramatic movements, does not grip the listener from beginning to end. The characters do not really love—they are types rather than individuals. Leonore is impossibly high-minded, while Pizarro is a triple-dyed villian reminiscent of the Murder in the Red Barn. One half expects him to exclaim "Foiled again," at the denouement. But even if Beethoven had had the services of a more competent librettist than poor Sonnleithner it is unlikely that it would have resulted in a better opera. Beethoven had not the uncanny gift of the portrayal of character that was second nature to Mozart, nor had he much practical experience of the stage. His most dramatic music is to be found in his sonatas and symphonies.

✧ ✧ ✧

SO Stratford is to hold a summer festival? Will this include music? There is certainly some scope in this direction in Canada, where so much has been done to attract tourists by means of sporting attractions. It is not necessary for a festival to take place in a centre with musical associations such as Salzburg. The Edinburgh Festival has within a few years gained a great reputation for itself, and yet Edinburgh's musical associations are, to put it charitably, not remarkable. In order to succeed there must be proper facilities, hotels, auditoriums capable of seating a large number of spectators and performers; but more important than this it is necessary to have at the helm a driving force like Rudolf Bing. Such men are none too plentiful. With a capable and energetic director who is prepared to make himself unpopular in order to get things done the financial and material support can be trusted to look after itself.

✧ ✧ ✧

IT IS A strange fact that everything is right in music—in its place. The scooping that mars so much singing is perfectly legitimate at times; it is then called portamento. Even a husky and breathy tone is effective in conveying an impression of mystery or horror, while a harsh fortissimo is occasionally called for from pianists. Although the musicianly player always moulds his phrases, giving them a rise and fall, there are occasions when the composer demands a wooden, expressionless type of execution, without nuances. These variations from the norm are usually indicated by the composer, but sometimes they can be inferred by reference to stylistic peculiarities of the composer or to the context of the music. They are overdone by insensitive artists, whose one idea is to plaster the music with "effects" regardless of their appropriateness. This is a matter of taste in an age whose palate has been vitiated by overindulgence in artistic cocktails.

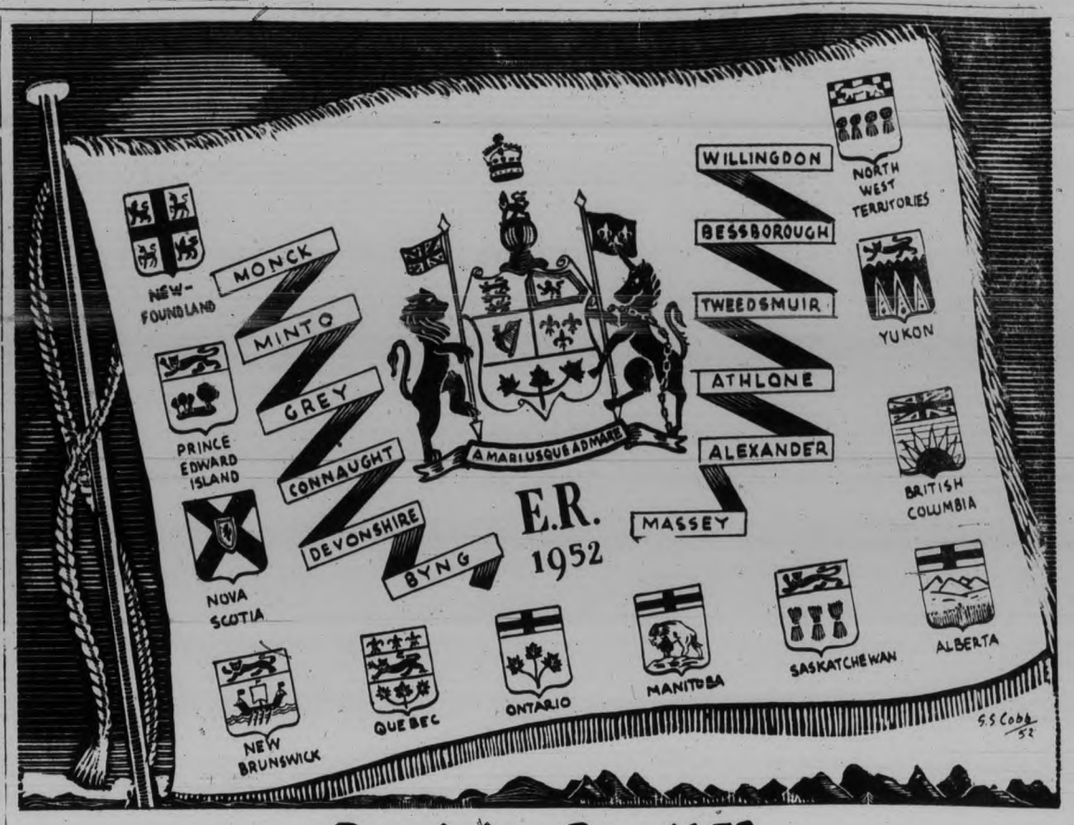
### DEVALUED

Fond mother (to sitter): "Did you have any trouble with Junior? He's usually as good as gold."

Sitter: "Well, about an hour ago he went off the gold standard."



# Dominion Day 1952

## THE BRITISH NORTH AMERICA ACT, 1867

### An Act for the Union of Canada, Nova Scotia, and New Brunswick, and the Government thereof: and for purposes connected therewith.

(Passed by the British Parliament, 29th March, 1867; proclaimed in Canada, July 1st, 1867)

*WHEREAS the Provinces of Canada, Nova Scotia, and New Brunswick have expressed their desire to be federally united into one Dominion under the Crown of the United Kingdom of Great Britain and Ireland, with a Constitution similar in principle to that of the United Kingdom:*

*AND WHEREAS such a Union would conduce to the welfare of the Provinces and promote the interests of the British Empire:*

*AND WHEREAS on the establishment of the Union by authority of Parliament, it is expedient, not only that the Constitution of the Legislative Authority in the Dominion be provided for, but also that the nature of the Executive Government therein be declared:*

*AND WHEREAS it is expedient that provision be made for the eventual admission into the Union of other parts of British North America:*

*BE IT THEREFORE ENACTED and declared by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons in this present Parliament assembled, and by the authority of the same as follows:*

I. PRELIMINARY

1. This Act may be cited as The British North America Act, 1867.

2. The Provisions of this Act referring to Her Majesty the Queen extend also to the heirs and successors of Her Majesty, Kings and Queens of the United Kingdom of Great Britain and Ireland.

II. UNION

3. It shall be lawful for the Queen, by and with the advice of Her Majesty's Most Honourable Privy Council, to declare by Proclamation that, on and after a day therein appointed, not being more than six months after the passing of this Act, the Provinces of Canada, Nova Scotia and New Brunswick shall form and be one Dominion under the name of Canada; and on and after that day those three Provinces shall form and be one Dominion under that name accordingly.

4. The subsequent Provisions of this Act shall, unless it is otherwise expressed or implied, commence and have effect on and after the Union, that is to say, on and after the day appointed for the Union taking effect in the Queen's Proclamation; and in the same provisions, unless it is otherwise expressed or implied, the name Canada shall be taken to mean Canada as constituted under this Act.

5. Canada shall be divided into four Provinces, named Ontario, Québec, Nova Scotia and New Brunswick.

(These are the first five of 147 clauses of the Act which created the Dominion of Canada.)

# Canada And The World

(Extract from an article in the N.Y. 'Saturday Review' by B. K. Sandwell, LL.D., Editor Emeritus of Toronto Saturday Night.)

WHEN A Canadian looks at the world he does so through, past, or over the United States. The people south of the Great Lakes and the Forty-ninth Parallel get in the way of his vision. He cannot help it. They always did. They did when he was Frenchman and a Roman Catholic and they were thirteen British colonies, and even before that when they were also Dutch and Spanish and other things. He was caught between them and the North Pole. France and England were a long way off, and the Americans were next door, and on the sunny side.

Even the few years during which both Canada and the Thirteen Colonies were under the same British flag made no difference, for what the British Government did in Canada in those years was determined almost wholly by the fact that the Thirteen Colonies were already straining at the leash. Canada, as a recently conquered country with an alien population, could reasonably be occupied with a substantial British military force, and was governed as a military outpost on a continent where British supremacy might at any moment be questioned. After the American Revolution the Canadian problem for several generations was that of maintaining Canada's independence against the absorptive powers of the United States. At no time down to the present (though the absorptive effort has long ceased to be a military one) has Canada's destiny ever ceased to be dominated by the United States and its policies.

This does not imply any hostility on the part of the United States. Even the military efforts at absorption, such as the War of 1812, were conducted in the purest spirit of liberation. The people of the United States had freed themselves from rule by a European nation, and liked their liberty; the Canadians must want to be similarly freed even if they did not realize it, and would like it when liberty was conferred upon them. During the generation which followed the American Civil War the idea of political absorption by military force lost its attraction for the American people, for with the rise of tariffs as an instrument of policy it became more profitable to leave Canada politically independent and to insure, by insisting that importation should be in the rawest possible state, that it would serve as a source of raw materials for, and market for the finished products of, the rapidly growing industries of the United States. Again there was no question of hostility. It was merely that the American tariff did not have to concern itself about its effect upon a politically distinct but closely neighboring nation, most of whose productive and consuming areas were three to four thousand miles nearer to the United States than to any other market or source of supply. But the net result was that Canada has tended strongly to be the sort of nation that American policy has made it, and this in spite of its political relation with Great Britain.

✧ ✧ ✧

THE RISE OF Russia has merely intensified this overwhelming predominance of the United States in the Canadian field of international vision. Canadians prior to 1814 were deeply conscious of needing somebody to protect them from the United States. They have never, since the United States abandoned all idea of taking them over by force, been particularly conscious of needing protection against anybody, until Russia began to loom upon their polar horizon. A generation ago they were no more conscious than the United States was of needing protection against Germany in 1914, or against the Axis in 1939—in the sense in which they are conscious today of needing protection against Russia. Russia is their neighbor; the North Pole has ceased to be a bastion and become a road. And the only protection they can look for is from the United States. Geographically they are in front of the United States, between it and Russia. Militarily they are behind the United States, for the defense of their polar frontier can be maintained only with enormous American aid. If the frontier of the free world was on the Rhine when Germany was the aggressor, it is now on the Arctic Circle in North America, and Alaska is no more integral a part of it than Aklavik and Hudson Bay. A Canadian cannot think of Russia without simultaneously thinking of the United States.

This would be a rather uncomfortable situation—this situation of being so overwhelmingly dominated by a single outside nation—if it were not for certain mitigating circumstances. The average Canadian is very fond of Americans. (This does not mean that he is necessarily fond of the United States.) Being an average Canadian, he quite inevitably has a large flock of relatives who are actually American citizens, possibly of several generations of American ancestry. He is himself a North American; the geography, climate, and natural characteristics of the continent which the two peoples jointly inhabit have exercised the same effect on both of them. He reads a vast amount of American writing, both periodical and permanent, and he does not regard it as "foreign". He knows a great deal about American politics, and probably does not think them any crazier than the average American voter does. He usually knows at least one American city better than he knows any Canadian city except the one in which, or near which, he lives; and he regards New York, or Chicago, or Minneapolis, or San Francisco, as his metropolis, in the sense of the place to which he resorts for his metropolitan delights. Nobody resorts to Toronto for metropolitan delights, and Montreal, while it purveys them better, is still a trifle short of being New York.

The Canadian, therefore, feels rather less distress than the citizen of any other nation of the free world at the fact that the destinies of his country and of the rest of that world are now pretty much in the hands of the United States. It is a situation that he is more used to than anybody else, and he understands (or thinks he does) better than anybody else the workings of the United States mind, which if they are not always identical with the workings of the Canadian mind are at least based on a very similar **Weltanschauung.**

The Canadian coal administrator, in a talk here, advises citizens to buy their winter coal now.

# Bible Message

(From the Authorized Version)

Thus saith the Lord the King of Israel, and his redeemer the Lord of hosts: I am the first, and I am the last; and beside me there is no God. And who, as I, shall call, and shall declare it, and set it in order for me, since I appointed the ancient people? and the things that are coming, and shall come, let them shew unto them. (Isa. 44:6, 7.)

✧ ✧ ✧

I am the Lord, and there is none else, there is no God beside me: I girded thee, though thou hast not known me: that they may know from the rising of the sun, and from the west, that there is none beside me. I am the Lord, and there is none else. (Isa. 45:5, 6.)

✧ ✧ ✧

God that made the world and all things therein, seeing that he is Lord of heaven and earth, dwelleth not in temples made with hands:: neither is worshipped with men's hands, as though he needed any thing, seeing he giveth to all life, and breath, and all things; and hath made of one blood all nations of men for to dwell on all the face of the earth, and hath determined the times before appointed, and the bounds of their habitation: that they should seek the Lord, if haply they might feel after him, and find him, though he be not far from every one of us. (Acts 17:24-27.)

### BRIGHT PUPIL

Teacher: "What is a privateer?"

Pupil: "Please sir, it's what you lend to anybody when they're going to tell you a secret."

BIG THREE DISAGREE—U.S. Secretary of State Dean Acheson (left), British Foreign Secretary Anthony Eden, and French Foreign Minister Robert Schuman (right) meet at the British Foreign Office in London. It was reported that Eden and Schuman insisted on a four-power meeting with Russia, a move Acheson opposed. As a result of the disagreement, the foreign ministers failed to draft an expected note to Russia on the question of German unification.

# Trent River W.A. Hold Pie Social

TRENT RIVER (ENS) — The Women's Association of Trent River United Church held a pie social and social evening in the dining hall of the church on Wednesday night.

There was abundance of pie for everyone, with some of the lads boasting they had eaten ten to twelve pieces.

Mrs. Walter Lewis president, was in charge and after the social sold the many pieces that were left over.

The Rev. R. G. Newman was chairman for the evening and through the efforts of the committee Mrs. Douglas Dart and Mrs. Melville Lean, the following program was presented:

Solos were sung by Mrs. R. G. Newman, Ruth Brooks, Mrs. John Beatty, Havelock; Beverly Dunford; Recitation, Doris Newman; Men's quartet from Campbellford sang a number of selections. Piano instrumental, Donald and Barbara Pollock. Duet, Mr. and Mrs. Bert Robson; piano duet, Mr. and Mrs. Nichols, Campbellford; piano solos, Wallace Brown and Sharon Brown.

Addresses were given by the Rev. R. G. Newman and John A. Ruttan.

The Pollock Orchestra, Rush Point gave selections throughout the evening.

THE WATER'S FINE — When the official temperature in Washington zoomed to a torrid 101 degrees, "Miss Washington" contestant Iris Ann Fitch sat down in the cooling waters of a hotel fountain—clothes and all. Looks like a pretty good heat-beating method at that.

# Unknown Substance Said Sole Clue To Radiation Cure

By ROBERT E. GEIGER.

WASHINGTON — (AP). —After spending five years and millions of dollars, doctors still have only a clue to a possible cure for radiation sickness.

Civilian defence experts say there would be thousands of radiation victims in any major A-bomb attack, people who were far enough away to survive the explosion but close enough to get a severe dose of rays.

Hundreds died within a few weeks after the Hiroshima and Hagasaki attacks.

**BLOOD AFFECTED**

Little is known about radiation sickness. The blood is affected. Haemorrhages occur. Harmful bacteria, nearly always present in the body, are turned loose to cause death by infection.

Painstaking medical care will save some victims who otherwise might die, but doctors have nothing to administer after exposure that seems to help radiation sickness specifically.

But researchers in one branch of the work now have discovered a substance in the spleens and some other parts of mice that seems to prevent many deaths, among mice at least.

If the spleens of young mice are removed, mixed with liquid and injected into other mice that have been exposed to heavy radiation, some of the treated mice will survive. Without this injection all die.

This is the first time that any injectible substance has reduced deaths among animals in radiation experiments.

Doctors don't know the identity of the substance that helps the victims. They have discovered that some other animal materials, such as bone marrow, seem to contain the same mysterious substance, if used in the same way.

**WOULD SAVE THOUSANDS**

Research experts now are trying to produce a substance to help human victims of an A-bomb attack or of overdoses of X-ray or other radiation that are hazards in many laboratories today.

If such an injectible substance can be found it not only would save the lives of thousands of people, but would simplify treatmen.

Dr. Charles L. Dunham, chief of the Medical Branch of the Atomic Energy Commission, says sufficient quantities of the unknown substance may be available at livestock slaughter houses or be produced synthetically from chemicals once it is isolated and analyzed.

Doctors also say the substance may be something the human body itself could manufacture if stimulated to do so.

# Boeing Grooms Gas Turbine As Engine For Transports

By JAMES HUTCHESON

SEATTLE (AP)—A lightweight gas turbine engine is being groomed by the Boeing Aircraft Company as a future jack-of-all trades in transport and industry.

It went on display in a big truck and trailer unit at the national truck and trailer show at Los Angeles in June after thousands of miles of highway testing and a border-to-border run.

Weighing only 200 pounds — an easy load for two men to carry —it is rated at 175 horsepower, can be removed and installed with tools carried in a coat pocket. One man can take it apart and put it together again in six hours.

It will run on diesel fuel, kerosene or gasoline.

**EXPECT BETTER MILEAGE**

Miles per gallon? Not so good by comparison but Boeing engineers say they are expecting better mileage with further research.

Tests in a helicopter have been reported successful. Boeing officials plan to try it in an airplane.

Present production is for the navy, for use as electric generators in minesweepers. The navy is testing it as a power plant for landing craft.

It is an adaptation of the jet airplane engine principle. In a jet plane, the power comes from the thrust of the escaping gas itself. In the new-type engine, the gas spins a turbine and the resulting power turns a shaft.

Boeing lists the following as some of the engine's features:

It occupies only about 13 per cent of the space of a standard diesel truck engine; it needs no radiator or cooling system; it has only one-tenth as many parts as comparable gasoline and diesel engines of the piston-driven type; it is at least 3,000 pounds lighter than diesel truck engines of equal power.

Henry C. Hill, assistant chief engineer of the Boeing gas turbine division, reports the test truck averaged only a little better than one mile a gallon on diesel fuel, compared with three to five miles a gallon for conventional truck engines. That was with total test lead weight of 34 tons.

He added, however, that if a truck were designed to make use of the lighter, smaller engine—with a resulting increase in pay load—the net return to an operator would be about the same as with standard diesel trucks.

He also predicted a reduction of 30 to 35 per cent in the future in fuel consumption.

## Expensive Vanity

LONDON (CP)—Women with foot trouble probably have only themselves to blame, says Patricia Hornsby-Smith, Parliamentary secretary to the Health Ministry. She said at a foot health exhibition: "The vanity which makes a woman knock half-an-inch off the length of her feet will add 10 years to her face."

## Deep Drillers

STOCKHOLM (CP)—A team of Swedish drillers, prospecting for new coal deposits on Spitsbergen, expect to go down as far as 1,300 feet where the coal is permanently frozen. The area is north of the main coal-mining field at Longyearbyen.

# Alberta Trapper Gets Nursing Job

HEINSBERG, Alta. (CP)—Even wild animals nowadays are hitting the bottle. Sid Avery of Heinsberg has the daily chore of bottle-feeding 13 baby beaver.

Trapping beaver in Telegraph Lake this spring Avery discovered that two animals trapped were young mothers still suckling young. He rounded up the young "kits" and brought them home.

Avery will "wet-nurse" the young shavers until they are big enough to fend for themselves, when game guardians will move them to their natural habitat.

**TB DEATHS DOWN**

Deaths from tuberculosis in Canada in 1949 numbered 4,010 compared with 6,669 in 1938.

## To Amend Bond Bill

ST. JOHN'S (CP)—The Newfoundland Legislature opens today for a special session to amend a bill passed at the spring session guaranteeing a $9,000,000 bond issue by the Newfoundland and Labrador Corporation. Premier Smallwood said business is likely to be completed in about a week.

## Tame Posters

JOHANNESBURG (CP)—Road safety posters should be "more gruesome," a delegate told the Transvaal Road Safety Conference. But K. A. Heinze, director of road safety, rejected the suggestion because the association "is generally against the use of horror or shock tactics."

# All Types Of Planes Used By R.C.A.F. Search Group

By STEWART MACLEOD

HALIFAX (CP)—All types of aircraft, from four-engined Lancasters to helicopters, are used by the R.C.A.F. Search and Rescue organization in the Maritimes, where sea rescue has always been a big task.

But they cover thousands of square miles of land as well, many times a year—every time there's a call to locate some missing craft.

A typical case recently came when the loud-speaker at headquarters announced that a Vampire jet fighter was overdue at Moncton, N.B. FO. Ernest Lund was at his desk and he and his assistant notified the R.C.A.F. station at Greenwood, N.S., to put para-rescue units and search planes on the alert.

A Search Master was named and details of the alert went out to the air force amateur radio network, radio stations and police. All planes in the area were notified to join the hunt and within minutes every communications system in the region hummed.

**SCIENTIFIC SEARCH**

On a large wall map Lund marked the area where the plane was last reported. As clues came in he was able to narrow the circle. On the small remaining area the Search Master concentrated his forces.

Until the missing plane was found four days later, 56 search aircraft spent 257 hours in the air. The plane was located in a bank of snow, its pilot dead, and another case was closed.

Behind the scenes, FO. Lund had played a game of chess with aircraft, ships and men. Lund and others like him at the search headquarters are the sleuths of the air. Their job has only one aim—to save lives.

The centre is under supervision of FO. J. E. Moore of Ottawa, senior flying control officer. Along with Lund, providing a 24-hour staff, are FO. Paul Flemming of Stanley Bridge, P.E.I.; FO. J. P. Lynn of Pembroke, Ont., and WO1 C. H. Nauffts of Montreal.

On distress calls from a ship or plane at sea, a Canso amphibian aircraft is first sent to investigate. If it finds the sea calm after locating the distressed craft, it can land and often complete a rescue without the victims getting their feet wet.

If the sea is rough, a helicopter is called in, providing it can cover the necessary distance. The Halifax Search and Rescue unit covers more than 15,000 square miles of the North Atlantic and the trouble may be beyond a helicopter's range.

When the distressed craft is far away, the Canso will hail the nearest ship, or else radio to shore for a high-speed launch.

# Bicyclist Hit By Car When Brakes Fail

Lloyd Mongraw, 17-year-old C.N.R. telegram boy, received bruises and scratches Friday when his bicycle was struck by a car at Aylmer and McDonnel Sts.

He was struck by the left fender of the car and the impact tossed him over the hood of the engine against the windshield. He then fell to the right side of the car, landing on the road.

Failure of his handbrakes were blamed by Mongraw for the accident. He told Constable W. A. Scott that he was riding south on Aylmer St. when he noticed a caution light for east-west traffic at the intersection he applied his handbrake.

The brake failed to hold and he sailed out into the intersection where was struck by an eastbound car, driven by Marie Flynn of 142 Hunter St. Miss Flynn saw the bicyce 'shoot out in front of her' but she was unable to stop in time and a collision resulted.

## To Stay In Rome

ROME (AP)—Ingrid Bergman Saturday denied a report from her Hollywood lawyer that she is going to the United States this summer to visit her first-born daughter, Pia. The actress, who lost a court fight to have Pia visit her in Rome, said she is "determined" to continue her fight to get legal permission for her daughter to spend six weeks with her in Italy.

What boosts a man's stock with people like these?

HIS BOSS

Invariably, employers like the kind of man who readily accepts responsibility. And they know that this attitude is suggested by a man's ownership of life insurance. So life insurance can be a "plus" to a man in any line of work.

HIS BANKER

Because bankers and others who lend money render such useful service, their opinion of a man is important. To them, ownership of adequate life insurance is often an important factor in establishing satisfactory credit.

HIS WIFE

Many a man is rated "the best husband in the world" by his wife. But if he owns life insurance—which provides his family with financial security—he enjoys extra laurels because of his concern for their future.

HIS FRIENDS AND NEIGHBOURS

When they know that a man owns life insurance, they know he's trying to achieve financial independence for his family and, perhaps, for his own later years. And because he's doing his share in this way, they regard him with respect.

*Today, millions of Canadians are providing security for themselves and their families—and enjoying greater prestige—through owning life insurance!*

AT YOUR SERVICE! More than 50 Canadian, British and United States life insurance companies compete actively to offer Canadians the best possible plans for providing financial protection for their families and retirement income for themselves. A trained life underwriter from any of these companies will gladly help you choose the kind and amount of life insurance that will best fit your individual needs.

# Junior Lacrossers Edged By St. Kitts, 15-12 In Four-Point O.L.A. Game

On even terms throughout the game with St. Catharines Juniors, Lou Vitarelli's Filter Queens suffered four costly penalties in the fourth quarter Saturday enabling St. Kitts to edge out a 15-12 win in Miller Bow' The fray was worth four points. The game was the best ju[illegible] in Miller Bowl in three yea.s; both teams matched evenly from goalies to defence to forwards. But when the going became rough in the fourth, the Queens were penalized, throwing them off enough to allow St. Kitts to tie the score and go ahead.

Twice the Queens came from behind in the first quarter to tie the score, finally St. Kitts took a 4-3 score. Vitarelli's boys came from behind in the second to go ahead 5-4, fell behind minutes later 6-5, climbed ahead 7-6 and then settled for a seven-all score at the half.

**SHONE IN THIRD**

The Queens shone their brightest of the season in the third quarter, jumping up to 11-7 only to cave in during the last few minutes; St. Kitts again tying the score 11-all. The Queens went up one in the fourth and the penalties flew, St. Catharines salting away the victory.

Both goalies, Howe for St. Kitts and Hickson for Queens, stood out; both several times outwitted players on breakaways. Hickson was tested more in the second half, coming through with a stellar performance.

Bob Batley hit his season's peak with a four-goal performance. After the first two goals, St. Kitts seemed to concentrate on the slender scorer. Several times they worked him over thoroughly with sticks, and trips.

For the first time this year the Queens worked as a team with the result the goals were better distributed. Carl Brioux performed the hat trick, Roger Smith and Gerry O'Reilly each scored two and Mullins a single.

But St. Kitts had smoother passes, often catching the Queen's defence napping along the crease. Les Howard and Martin each scored three, while Bradshaw, Allen and Baldwin got two each.

Bev Groves and Daniels tangled late in the fourth quarter after a slashing duel. They were quickly separated but referees and players let go too soon, and they rapped each other several more times. Both were sent from the game. Just as they left the field, Groves got in the last bump.

Lineups:

St. Catharines—Howe, Martin, Daniels, Bradshaw, Baldwin, Roy, L. Howard, J. Howard, May, J. Howard, Allan, Cox, Labatte, Conradi.

Filter Queens — Hickson, Brioux, Batley, Gray, Groves, O'Reilly, Farley, Morrissey, Mullins, Fitzgerald, McIlmoyle, Daniels.

**First Period**

St. Kitts—Martin (Cox) ..... 2:49
Queens—O'Reilly ..... 4:57

St. Kitts—Allen (Cox) ..... 10:06
Queens—Brioux ..... 10:40
Queens—Mullins ..... 13:03
St. Kitts—Allen ..... 14:47
Penalties—Mullins, L. Howard, Farley.

**Second Period**

Queens—Batley ..... 4:07
Queens—Smith (O'Reilly) ..... 6:08
St. Kitts—Martin ..... 8:14
St. Kitts—Labatte ..... 9:53
Queens—O'Reilly (Batley) ..... 10:42
Queens—Batley ..... 10:50
St. Kitts —L. Howard ..... 14:40
Penalty—Allan.

**Third Period**

Queens—Batley ..... 2:51
Queens—Batley ..... 5:19
Queens—Brioux (Groves) ..... 9:31
Queens—Smith (Farley) ..... 10:40
St. Kitts—Bradshaw ..... 10:59
St. Kitts—Bradshaw (Martin) .. 11:24
St. Kitts—L. Howard ..... 13:25
St. Kitts—Baldwin ..... 14:00
Penalties—Daniels (St.K.), Farley.

**Fourth Period**

Queens—Brioux ..... 3:58
St. Kitts—Cox (L. Howard) .... 4:15
St. Kitts—Winterbottom ..... 4:58
St. Kitts—L. Howard (Bradshaw) 5:02
St. Kitts—Martin (Bradshaw) .. 12:11
Penalties—Batley, O'Reilly, Groves, Daniels.

# W. Yorks Trip Fergus 15-13

By THE CANADIAN PRESS

Toronto West Yorks won their second victory in as many nights by defeating Fergus Thistles 15-13 Saturday in a senior Ontario Lacrosse Association game. In the other contest played St. Catharines Athletics defeated Owen Sound Crescents 14-9.

Toronto, in third place behind Mimico and Peterborough in the league standings, came from behind a 9-4 half-time deficit to score six goals. Jim McNulty notched five goals, while Donny McPhail, Frankie Factor and Les Digby each counted two. Toronto singletons went to Wimp Timpson, Nick Ferri, Bob Hilson and Leo Teatro.

Fergus goal-getters were J. J. Hill, with four, Al Garbutt, Bob Dobbie and Donny Gear with two each and Gordy Steele, Stan Abbott and Marlowe Woods with one apiece.

Junior star Johnny Dewar counted three goals for St. Catharines in the other game

# Bowmanville Takes Lakeshore Loop Win

Bowmanville Roses defeated the Young Petes 16-4 Saturday in Bowmanville in a Lakeshore Baseball League encounter. The loop leading intermediate "A" club scored three runs in the first frame, four next time to bat, adding one more in the fifth, and then eight in an outburst in the seventh stanza. The visiting juniors counted three in the sixth and one more in the eighth.

The winners totalled 13 hits to eight and booted two to the losers' five in a fair fray. They gained eight hits and eight runs off Lefty Foley in five innings, Jerry Frizzelle taking over then and allowing five hits and the rest of the runs. Buttonshaw went the route in good style for the home squad.

Foley had two safe hits for the Young Petes, Bigford banged out a double, as singles went to Langhorne, Pammett, Kearns and Frizzelle. Hamilton topped the victors at bat with four safe blows, Yourth belted a four-bagger, and Buttonshaw hit a double.

**ONTARIO GOLFERS LOSE**

Julius Boros, United States open golf champion, and Marjorie Row of Detroit defeated two of Ontario's top golfers Saturday in the international mixed foursome match at Niagara Falls, Ont. Boros came up with a birdie four on the 18th hole at the Niagara Parks Golf Course to give the U.S. team a one-up victory over Marlene Stewart of Fonthill and Bob Gray of Toronto Scarboro. Boros shot a medal score of 69 over the par-72, 6,300-yard course. Miss Row had an 85, Miss Stewart an 80 and Gray a 74.

# Leafs, Orioles Trade 2-1 Decisions

By THE CANADIAN PRESS

Montreal Royals and Rochester Red Wings, currently the two leading teams in the International League, hooked up in an important weekend series and the Royals came out on top. They took two of three games and as a result now lead the second-place Red Wings by two games.

After dropping Saturday's contest 9-7, Rochester moved to within a game of the Royals by taking yesterday's opener 11-6. But Montreal pulled ahead again with a 2-1 victory in the seven-inning nightcap.

In other games Toronto Maple Leafs and Baltimore Orioles traded 2-1 decisions and Syracuse Chiefs defeated Ottawa Athletics 9-2.

There were some fireworks in the Montreal-Rochester first game. Harry Walker, playing manager of the Red Wings, and Al Ronning, Montreal catcher, were ejected for fist-fighting after a close play at home plate in the fifth inning.

Walker and, three other Rochester players had three safeties each as the Wings pounded four Montreal pitchers for 18 hits. Jackie Collum (3-5) was the winner and Mal Mallette (7-2) the loser.

Veteran Bob Alexander (4-2) limited Rochester to three hits in the second game and also squeezed home the winning run in the fourth inning. Bob Tiefenauer (5-3) was the loser.

**WINS OWN GAME**

At Toronto winning pitcher Russ Bauers (6-4) clinched the first game for the Leafs with a fifth-inning single that scored Neil Sheridan. Sheridan had previously doubled home Marv Rickert.

The Orioles rebounded in the seven-inning afterpiece with Danny Schell's two-run homer making Blix Donnelly (3-7) the winner and Fred Fahr (2-7) the loser.

Syracuse pounded out 14 hits behind Jack Griffore (6-6) to tighten their grip on third place with the third straight win. Lorne Babe drove in four Syracuse runs with a two-run homer and a bases-loaded double as Joe Murray (3-2) took the loss.

The loss to Syracuse completed a sad weekend for Ottawa. The Athletics took a double set-back, 5-3 and 2-1, from Baltimore Saturday. In other Saturday action Syracuse beat Toronto 3-2 and Springfield defeated Buffalo 3-2.

**SETS WORLD RECORD**

At Philadelphia, little Louise Sugs, the cool, calculating shotmaker from Carrollton, Ga., won the seventh annual women's United States open golf championship yesterday by seven strokes with a world's 72-hole women's golf record at 284 at the Bala Golf Club. Miss Suggs, 27, added a final-round 75 to her first three rounds of 70-69-70 to win $1,570 first-place money and break the record of 288 established last year by Mrs. George Zaharias.

EMPEROR SATCH — With Bill Veeck in full command, Satchel Paige has all the comforts of home when the Browns play at Sportsman's Park. Veeck bought the venerable fireman a contour chair. Seated on a bench more appropriate for men in the bull pen are Catcher Les Moss and Southpaw Bob Cain, left to right.

# SPORTS SHOW WINDOW

By CEC. PERDUE, Sports Editor

Summer Olympics go in Helsinki, Finland, from July 19 to Aug. 3. The winter games were held last February in Oslo, Norway. Canadian trials have been held in swimming, track, basketball, etc., and the athletes are all preparing to leave for Europe to do their best for Canada. Not too much is expected of this country in the world-wide competitions, though we took it all in hockey and might surprise in a few other events this coming month. Since the Soviet refuse to permit screening of their athletes—saying firmly that they're all amateurs—the Russians may make a good showing. It is generally believed that their top athletes are subsidized as definite pros.

* * * * * *

**This is unfair, though the strict amateur definition observed and enforced by Olympic committees in many countries is circumvented at times by places like Canada, England and the States. Sure it is. Not all our so-called amateur puckists (nor those in England and the U. S.) could bear too close a scrutiny under a magnifying glass with a genuine amateur lens. Bunny Ahearne of the British Hockey Association speaks quite frankly of financial arrangements for Canadian teams when they go to Europe. They're not all playing for just victuals. But nevertheless the athletes of western nations in Olympics are mostly amateurs, carefully screened, and the International Olympic Committee should check closer into the Soviet entries.**

* * * * * *

## Diamond Action On Tap

Baseball aplenty listed for Riverside Park tonight, weather permitting. Local juniors tackle the intermediate Lindsay crew at 6:30 in a Lakeshore League encounter, and Al Menzies' squad might well upset Doug Loucks, Junior West & Co. in this one. They almost did it before, and later beat Colborne. A floodlight attraction at 8:30 has Kingston Monarchs meeting the Petes in a C.O.B.L. fixture. First time in more than a month the K's have shown here, and they'll be trying to avenge that loss they suffered at the hands of Ed Whitehill's club last week in the Limestone City. Bill Edger or Phil Clancy will pitch for the Petes and it ought to be a fine scrap.

* * * * * *

**Not too many homebrews on the senior lacrosse club here, Dootch Vitarelli being the veteran of the strictly Peterborough talent. He is not a veteran in years though, as he should have a lot of good seasons yet at the rugged gutted-stick sport. We mention Dootch now because he rates a word of praise. He's having another fine season with the Petes' Timbermen after helping 'em to the Mann Cup title last year. A real scrapper and an effective forward, he would stand out on any club in the O.L.A. or the country, for that matter. Dootch keeps quite streamlined by being a first-rate golfer when not playing or practising lacrosse — and then the guy is a nifty senior "B" puckist in the winter months! A busy fellow.**

* * * * * *

## Those Penalties Hurt

St. Catharines juniors finished strong here Saturday night to yank out a 15-12 O.L.A. win over the Filter Queens in Miller Bowl. A real toughie to drop, and a nice one to win—depending on which town you call home. Penalties proved the downfall of Lou's crew in the fourth frame; those sin bin sentences cost 'em the game. A fine fixture all the way betwixt the well-matched and classy young clubs. The Saints turned in a strong effort, and so did the home squad. Rock Batley banged in four markers for Peterborough, Carl Brioux notched three, while Rog Smith and Jerry O'Reilly each lit the lamp twice. It was a four-point tilt. Locals go to Brampton Saturday.

* * * * * *

**Girls' Softball schedule winds up here tonight with a twin bill at the Bowl, Burtol's vs. Ashby's, and Cobourg vs. Lindsay. In an interesting exhibition over east Saturday p.m. Toronto's senior Browns went on a hitting spree in the ninth inning to take a 17-10 decision o'er Burtol's, the game lasting but 1.25 despite the high score. Lasses commence playoffs on Wednesday with Marines vs. Burtol's, and Cobourg vs. Lindsay here, as Ashby's go to Belleville. These are two-of-three league semi-final series, so the damsels will really dig in and give it the old college try from now on. Some swell scraps should result.**

* * * * * *

## Dese, Dem and Dose

Men's Bowl jousts tomorrow eve: Lakefield vs. Revoy's and Seabrooke's vs. U.E.W.....Civic tilts tonight: B'nai B'rith vs. Timbermen in Ashburnham, and Post Office vs. Police at Turner....Wednesday in fastball, Woollens are at Quakers, with Norwood vs. Marines at Brinton....Bowmanville downed the local juniors Saturday....East City Braves beat the Cobourg peewees away, and they have a return ball exhibition at three tomorrow aft at the Bowl or Riverside....Belleville seniors have affiliated with the O.B.A.....A good spot for a holiday outing tomorrow aft might be Jack's Lake where a big regatta is being held....Oshawa grid Raiders are after Frank Stukus of Fenelon Falls for coach....Eagles' hockey dinner is Thursday at 7:30 p.m. at the Peterborough Golf Club....Long Branch plays the Peterborough juveniles at nine in Miller Bowl tonight to open their O.L.A. series....P.M.L.A. peewees and tadpoles drill Wednesday a.m., the aft being open, and the midgets practising at 6:30 p.m.....O.B.A. players' certificates must be sent to the secretary by July 15....Don't look now, but your taxes go up a little tomorrow.

# Ottawa Club Wins Rowing Competition

OTTAWA (CP)—Ottawa Rowing Club won the Comstock Trophy Saturday in a three-club competition for the Eastern Rowing Association championship.

The home club ran up 59 points for a big lead over Lachine, Que., with 36 and Brockville with 28.

The cup competition consisted of 16 races. Three visiting clubs—Toronto Dons, Hamilton Leanders and St Catharines—were eligible to enter only five of them.

St. Catharines won the 155-pound fours and followed up with a win in the senior eights. Platt of Toronto won the senior singles in 5.09 ahead of Ottawa's Ron Brand. Hamilton took the 155-pound eights.

**ARCARO HONORED**

Eddie Arcaro brought a climax to a celebration in his honor Saturday by piloting Woodchuck to a nose victory in the $34,650 Equipoise mile at Chicago's Arlington Park.

# Toronto Lasses Get Win From Burtol's

Toronto Brown's senior girls' softball squad turned back Burtol's 17-10 in an exhibition game at the Bowl here Saturday evening. The local lasses had the jitters in the first few innings but later settled away to make it a good game, apart[illegible] spree by Toronto in the ninth. Humphries and Jackson shone for the visitors, with Hawthorne and Morrow best for the Peterborough crew.

Burtol's got five hits and five walks off Yates, and 10 hits and eight walks off Barrer, the latter fanning four and Yates one Toronto obtained seven hits and two free tickets off Selkirk, with five hits and four walked off McFadden, who fanned two, as did Selkirk. Dunk hit a homer for the losers, as Humphries got two and Jackson one for Toronto. Two safe blows each were hit by Jackson, Flint (a double included), Humphrey and Walker. For Burtol's, Anderson led with three for four, Batley hitting a double and two singles in five, Dunk three for six and Hawthorne a double and single in six. G. Dracup had one in one try. Teams:

Toronto: R. Allen, 3b; J. Jackson, ss; M. Flint, 2b; E. Humphries, 1b; L. Barrer, p, rf; A. Walker, c; L. Birtch, cf; D. Dew, lf; P. Stark, rf; B. Yates, p.

Burtol's: M. Batley, lf; J. Dunk, 1b; B. Morrow, ss; M. Hawthorne, 3b; M. Gillen, c; A. Anderson, cf; B. Rumble, rf; G. Dracup, rf; D. Jackson, 2b; E. Dracup, 2b; M. Selkirk, p; D. McFadden, p.

Toronto ..... 250 100 009 17 12 3
Burtol's ..... 030 020 041 10 15 7

Umpires: Calladine and Hempstead.

# Reds Intend To Win Honors

By MILTON MARMOR

LONDON (AP)—Germany and Soviet Russia served notice during the week-end that they intend to win their quota of honors in Olympic track and field competition at Helsinki in July.

While the United States, which usually dominates track and field competition, and Canada were selecting their 1952 squads, Germany was doing likewise in Berlin and the Soviet Union was telling proudly of the accomplishments of its athletes at Kiev.

Germany, which has not competed in summer Olympics since 1936, is an unknown quantity. The Soviet Union, which never has taken part in Olympic Games, is a strong threat in many events—on paper, at least.

**LUEG OUTSTANDING**

Germany produced a sensational record-equalling 3:43 performance yesterday in the 1,500 metres (metric mile) by the youngster, Werner Lueg, an 8:50 clocking by Helmut Gude in the 3,000-meter steeplechase and a 195-foot 1-5-inch heave of the hammer by 39-year-old Karl Storch.

The Soviet results included an 8:48.6 clocking in the 3,000-metre steeplechase by Vladimir Kasanzev.

But what was much more startling was Kasanzev's victory over the Czech wonder runner, Emil Zatopek, in the 5,000-metre race at Kiev in the excellent time of 14:13.2. Zatopek ran third, trailing Nikifor Popov. However, reports are that Zatopek intends to run the 10,000 and the marathon, and he may miss the 5,000 for which he has the second best time in the world, 13:03.

Zatopek won the 10,000 at Kiev in 29:26 which compares with his world mark of 29:02.6. A Russian, A. Anufriyev, trailed Zatopek in 29:31.4.

# LAWN BOWLING

By HERB MARTIN

This week's lawn bowling program:

Monday night and Thursday night—Regular schedule games.

Tuesday, July 1, at 1:30 o'clock—Ovaltine Trophy, mixed doubles, open. $5.00 a pair.

Wednesday, July 2 — Mixed rinks. Draw from the board, at 7:30 o'clock.

Friday, July 4, 10 a.m.—Lincoln Trophy. Ladies' doubles, open. $2.50 a pair.

For those who would care to stay for lunch, a cold plate will be provided for 75 cents.

Friday, July 4—Men's invitation night at 7:30 o'clock.

The winning skips on Friday night were: C. Renaud, C. Lawrence and J. Adams and on Saturday night: A. Jackson, R. Dyer and G. Snowden.

Tonight's thought: If you want a thing well done, don't do it yourself unless you know how.

# Here and There In Sport

By The Canadian Press

Chuck Thompson gunned Detroit's Miss Pepsi to a three-heat victory Saturday in the Windsor Yacht Club's Maple Leaf unlimited powerboat race at speeds that were never under 89 miles an hour through 45 miles of running.

One Canadian entry, Miss Supertest, formerly Miss Canada IV, owned by Gordon and James Thompson of London and recently refitted in Sarnia, suffered a burned-out clutch in the second 15-mile heat and failed to enter the third.

Another Ontario boat, Little Miss Judy, owned by Wilbert Marshall of Riverside, failed to qualify for the race.

Miss Pepsi's most persistent challenger was Al Fallon's Miss Great Lakes. Skippered by Joe Taggart of Canton, O., she was the winner's only challenger in the third heat. Taggart held her bow to bow with Miss Pepsi through most of the first lap but Thompson gunned his boat into the lead in the second.

At the finish of the five laps of the heat, Miss Pepsi was winner by a half-mile.

Such Crust IV, owned by Jack Schafer of Detroit, dropped out of the race in the second heat when her supercharger exploded.

Miss Pepsi is owned by Walter and Roy Dossin of Detroit.

**MONTREALERS CLEAN UP**

Montreal players took all the main titles at the Ontario tennis championships in Toronto Saturday Brendan Macken won the men's singles, defeating Lorne Main of Vancouver, 6-4, 6-4, 5-7, 6-4, and then teamed up with Brother Jim to take the men's doubles against Main and Don Fontana, Toronto, 6-4, 6-4, 6-3. Mrs. Hanna Sladek of Montreal defeated Mrs. L. Brown, Toronto, 2-6, 6-4, 6-2 in the ladies singles. On Friday Mrs. Sladek and Brendan Macken won the mixed doubles title.

**YACHT TRIALS START**

A pair of Montreal sailors moved into a substantial lead in the Canadian Olympic Star class trials at the Royal Canadian Yacht Club in Toronto yesterday. Doug Woodward and Andy Huggen of the Montreal Royal St. Lawrence Yacht Club scored two first and two seconds in the first four of eight races to decide Canada's Olympic representative in the Star boats. The series continues today.

**WINS HORSE SHOW**

Shirley Thomas of Ottawa outrode some of the best of Canadian jumping riders Saturday to win both the knock-down-and-out stakes and Ballard hunter stakes in the St. Catharines horse show.

In her first victory she rode Revions Princess Midas, owned by the Twin Gate Farm, Ottawa. In the hunter stakes she rode Revions Twentieth Wave, owned by the same farm.

**LIFTS 700 POUNDS**

Cecil Moore, 22-year-old weightlifter, will be British Guiana's only Olympic representative. He lifted 700 pounds at recent trials in Georgetown.

**DUROCHER SUSPENDED**

Manager Leo Durocher of New York Giants received word from league President Warren Giles that he was suspended for four days following an outburst in Saturday night's game which the Phillies won, 7-2. In the seventh inning after Del Ennis made a sensational running, shoestring catch on Don Mueller which resulted in double play, Durocher remonstrated with umpire Bill Stewart and threw dirt on him in an effort to show that Ennis had made a "trap" catch.

**SCOTS BALL FAN HERE**

Alistair Forbes, 23, a Scotsman wearing borrowed kilts and Tam O'Shanter bonnet, flew into New York yesterday to cheer for Brooklyn Dodgers at close range. Forbes, most fervent and probably the only Dodger rooter in Scotland, arrived too late to see the Dodgers play but he's expected to see his first game today when they meet Philadelphia.

**SNEAD, FERRIER WIN**

Sammy Snead and Jim Ferrier blistered the par 36 back nine with a best-ball score of 28, eight under par, to route Lloyd Mangrum and Cary Middlecoff, five up, in the final round and win the first annual $18,000 Inverness all-star golf tournament at Toledo, Ohio, yesterday.

# Phil Farley Wins Lambton Tourney

TORONTO (CP)—Phil Farley of Toronto won the Lambton Golf Club's 50th anniversary invitation tournament Saturday, scoring a 2-and-1 victory over 18-year-old Jerry Magee of the home club in the final round.

Magee scored the upset of the tournament when he moved past Nick Weslock of Windsor, Ont., in one semi-final match. In the other Farley, runner-up for the 1951 Canadian amateur crown, gained a 3-and-2 verdict over Johnny Pcupore of Sudbury.

USE SUPERTEST for LONGER MILEAGE

THE Calvert SPORTS COLUMN

by Elmer Ferguson

This is the second of three Calvert columns designed to give you an idea, possibly sketchy, of sport as it existed in Canada prior to, and at Confederation 85 years ago.

**Lacrosse, curling and snowshoeing are rated as the first organized sports to be played in Canada, and in that order, but of this we have some doubt.**

**For the most primitive sport in the world is foot-running. Some claim that wrestling is the oldest. But we harbor the thought that primeval, pre-historic man, was more likely to have instinctively taken to his heels at top speed, when one of the horrifying beasts of the era came into view. Wrestling such a monster would be a last and probably fatal resort.**

So Canada had foot-racing back in pre-Confederation days, among other sports. This can be proved by the records. Though faulty, doubtless in the matters of time, these indicate that foot-racing was a major sport in 1867, and doubtless before.

At Barrie, Ont., still an extremely sporting city, there was held on October 14, 1867, what was termed a Canadian Pedestrian Tournament. It was featured by a 3-mile race for $200, cash and a gold medal, and the winner was one DeKelso, whose time for the distance was registered at 13 m. 11 s. Probably the track was short or the watches fast, for this time was considerably faster than Gundar Haegg's modern record for the distance.

**On Toronto's Parliament grounds of the time, on June 24, 1867 (we quote a long-defunct sports publication known as "Spirit of the Times" for these facts) there was a championship race to decide the best professional or amateur runner on the continent. Sergeant Harley and Private Wood, both of the 17th regiment, met in this test, the private won, and the time was announced as 4 minutes, 2 seconds.**

We should be very remiss, to the point of lacking in patriotism, if we failed to mention Canada's national game, lacrosse, which undoubtedly was in full swing throughout Canada in and long before 1867, but unfortunately authentic records of this are lost, if they ever existed. It is said that the first recorded match, under some sort of rules, was played in 1834 between teams of Iroquois and Algonquin Indians at a Montreal race-course. There is some record, too, that the Olympic Club of Montreal, organized in 1842, held annual athletic meets, the highlight of which was a game of lacrosse between Indian teams, or whites against an Indian team. Apparently the supremacy of the Indians was admitted, for the whites were allowed 7 men to the Indians' 5 in these contests. It is said, though not proven, that the first organization to be devoted to lacrosse was the Montreal Lacrosse Club, formed in 1856. Undoubtedly the game was played then throughout Ontario, for in 1867, when the separate provinces of Canada were welded into the Dominion, lacrosse was adopted as Canada's national game by act of Parliament.

**We spoke of curling and snowshoeing as following lacrosse in the matter of age in the Canadian sports picture. The Montreal Curling Club, founded in 1807, played its first inter-city game at Three Rivers in 1835 against Quebec. The curlers of both cities drove by sleigh, a mere matter of 200 miles, there and back. Those were the days of real sport.**

The third of three Calvert columns, sketching sport at the time of Confederation and before, appears next week.

# Revenge Sweet To Players, Brooklyn Edges Braves 6-5

*By JOE REICHLER, Associated Press Sports Writer*

Sunday was a day of sweet revenge for a flock of peddled players and marooned managers who came back to haunt their old stamping grounds. Tommy Holmes, fired a month ago as manager of Boston Braves, faced his former hirelings for the first time in the role of a pinch hitter—and cracked out a hit that drove in the run that gave Brooklyn Dodgers a 6-5 victory. Freddie Fitzsimmons, fired as manager of Philadelphia Phillies six years ago to the day, took over the reins of New York Giants due to Leo Durocher's four-day suspension and directed his charges to a 12-3 victory over the Phils.

Dick Kryhoski, traded off by Detroit last February, cracked a home run with two out and two on in the last of the ninth to give St. Louis Browns a 3-2 victory over his former Tiger mates.

Howie Pollet and Joe Garagiola, batterymates sent by St. Louis Cardinals to Pittsburgh last year, combined to lead the Pirates to a 2-1 win over the Redbirds. Pollet pitched a two-hitter. Garagiola scored one run and drove in the other.

**ROBINSON CLICKS**

Eddie Robinson, a former Cleveland first baseman, doubled in a run and scored another in the Chicago White Sox first-game 4-2 decision over the Indians and smashed a two-run homer in the second game that ended in a 10-inning 7-7 tie.

Joe Pramesa slammed a pinch hit bases-loaded single to drive in the last two of Chicago's seven runs in the ninth inning that enabled the Cubs to overcome an 8-2 deficit and defeat his former Cincinnati mates, 9-8, in the first game of a doubleheader.

Hank Sauer, another former Red, kept the big ninth-inning rally going with a run-scoring single after two were out.

**BORKOWSKI STARS**

Bob Borkowski, who went to Cincinnati in the Pramesa deal last winter, smacked a pair of doubles, drove in two runs and handled seven putouts in centrefield to help the Reds down the Cubs 9-1 in the second game.

Irv Noren got only one hit but it was a first-inning single that ignited a three-run rally against his former Washington mates as New York Yankees went on to sweep both ends of a doubleheader from the Senators, 5-0 and 3-1.

Veteran Allie Reynolds and rookie Bill Miller pitched the Yankee victories that widened New York's first-place lead in the American League to 4½ games over Boston Red Sox. Boston moved up two notches past Cleveland and Washington although idle.

Washington fell from second into fifth place as the Nats saw their five-game winning streak go up in smoke.

A thunderstorm not only ended Pittsburgh's seven-game losing streak but halted Stan Musial's 24-game hitting streak as the Pirates took the abbreviated five-inning game from the Cardinals. Musial walked and line out to the shortstop in his two appearances at the plate.

## Yesterday's Stars

**By THE ASSOCIATED PRESS**

**Batting:** Dick Kryhowski, Browns—blasted a home run with two out and two on in the last half of the ninth to give his team a 3-2 victory over Detroit Tigers.

**Pitching:** Allie Reynolds, Yankees—pitching his third two-hitter of the season, his 10th win and his 14th complete game as the Yankees shut out Washington Senators 5-0, in the first game of a doubleheader. The Yankees also won the second game, 3-1.

## Kitchener Golfers Monopolize Prizes

GUELPH (CP).—Kitchener golfers monopolized top prizes in the Guelph Lions Club annual golf tournament Saturday.

Ron Kilbey, Kitchener, clipped two strokes off par to win the Brading trophy for low gross. His card of 69 was best in a field of 100. Kilbey shared honors with Lloyd Tucker of Kitchener Rockaway, who won a $50 prize in a competition open to professionals.

The team award went to Kitchener Westmount club, the four prize winners, Ron Kilbey, J. Howden, D. Heller and G. Bilbracht, combining for a low gross of 296.

# Former Superior Sister Perpetua Golden Jubilee

Sister Perpetua is today celebrating at Mount St. Joseph the 50th anniversary of her entrance into the religious life. This golden mile-stone is looked forward to by every member of the community. On this occasion, which few attain, the community makes it possible to have fifty Masses offered for each jubilarian. Sister Perpetua only is celebrating a golden jubilee.

Sister came to "The Mount" fifty years ago from Lindsay. She is descended from two of the oldest families in Ops—the family of which her father, the late James Greenan was a member, and that of Patrick Murphy, her mother's father. No two names were better known nor more highly respected among the thriving early settlers of the township of Ops.

The greater part of Sister's life in the Convent has been spent with the suffering and the needy. She was twice superior of St. Joseph's Hospital, Peterborough.

When the Canadian residence of Madam N. Sartoris (the daughter of General Grant) came into possession of the Sisters of St. Joseph, Sister Perpetua was assigned the task of transforming this summer home into suitable quarters for the little orphan girls of the diocese, and a vacation lodge for the Sisters. Beautiful spacious grounds are connected with this property on the shore of Lake Ontario near Cobourg. Sister Perpetua was eminently successful in this undertaking. Among other alterations, she transformed the ballroom of the home of Nellie Grant Sartoris into a Chapel.

Since retiring from active work, Sister Perpetua has made her home at the House of Providence in Ashburnham. Sister Helen of St. Joseph's Academy, Lindsay, is her sister and the Reverend Jas. A. Greenan of Immaculate Conception Church is a nephew.

High Mass was sung at 8 o'clock by the Reverend Greenan. Many relatives and friends from Lindsay were present at this Mass and remained to enjoy the day with Sister Perpetua. The lawns and gardens at "The Mount" are at their loveliest and contributed much to the enjoyment of the visitors.

# Jockey Club Buys Erie, Stamford Tracks

TORONTO (CP)—Purchase of two race tracks and the proposed sale of another as part of a plan to improve and centralize thoroughbred racing in Ontario was announced last night by the Ontario Jockey Club.

The club disclosed:

1. It has bought Fort Erie and Stamford race tracks in the Niagara peninsula. The total price paid was not given but was reported more than $1,000,000.

2. The proposed sale of Woodbine Park in eastern Toronto may make way for a new traffic artery and housing developments.

3. Should the sale of Woodbine go through at a satisfactory price, the building of a modern plant outside Toronto with at least 56 continuous days' racing is planned. The park would seat 60,000 and 70,000 spectators.

4. Negotiators are under way to include the Hamilton Jockey Club in the centralization plan.

**400 ACRES NEEDED**

If the H.L.J. comes into the O.J.C. orbit it is believed the logical location for the new racing plant would be somewhere between Toronto and Hamilton. However, no property yet has been purchased. Some 300 to 400 acres would be required.

**HAS FOUR CHARTERS**

O.J.C. directors said there will be no changes in racing plans or personnel in the Niagara district this season. Fort Erie's meet will operate under O.J.C. control but vendor John Dimitri will operate the Aug. 16-to-Sept. 1 meet at Stamford.

The O.J.C. said it hopes to encourage holders of Ontario racing charters to lease Stamford and Fort Erie when the present charters there are transferred to Woodbine or the new track.

The extra weeks of racing planned could be worked in by opening the Ontario season April 23 and closing Nov. 10. The 1952 season began May 1 and closes Nov. 3.

The O.J.C. now owns four charters, Fred Orpen of Toronto, five, and Toronto's Thorncliffe track and Hamilton one each. Horsemen are allowed a maximum 14 days' racing for each charter each season.

E. P. Taylor, Toronto industrialist and O.J.C. director, told reporters that the present nine directors will be increased to 12.

A meeting of club shareholders has been called for July 10. Then it is proposed to confirm a bylaw seeking a change in the capitalization of the company by subdividing shares 1,500 for 1 and increasing authorized capital.

Two reasons were outlined in a letter to shareholders. They were creation of the Ontario Racing Commission in 1950 and enactment of legislation by the federal government this year permitting race tracks to retain nine per cent of all money wagered.

# Canada's Bid For Olympic Honors Will Be Centred On Her Runners

By W.R. WHEATLEY
Canadian Press Staff Writer

HAMILTON (CP)—Canada's bid for track and field honors at the Olympic Games in Finland will be centred on the runners.

Canadian Olympic Association executives came up yesterday with a list of 16 men and seven women, selected on the basis of performance at the Dominion championships.

Fourteen of the men and five of the women are runners. Before the Olympic executives reached their decision they indulged in an unprecedented show — an affair early Sunday morning without benefit of newspapermen — to decide who would make the girls' relay team.

The selection fell upon Rosella Thorne, well-muscled Negro speedster from Montreal, who will also compete in the women's broad jump and possibly in the 80-metre hurdles.

**ROUSED FROM BEDS**

Tiny O'Halloran and Donna Wilson, both of Toronto, were hustled over from Toronto, 40 miles away. Miss Thorne and Joan Wood of Montreal were roused from their beds in a Hamilton hotel.

When the sunrise show was over, Miss Thorne was the winner in a special 100-metre race. Her time was 12.5 seconds, 3-10 seconds slower than the Olympic standard set for the meet.

The Olympic officials said Miss Thorne, a member of Canada's British Empire Games team two years ago, will fit in with the girls' relay team, and her ability in the broad jump and hurdles will also bear watching.

The executives stuck largely to actual Friday-Saturday performances in the championships and trials in making their Olympic selections.

**SOME EXCEPTIONS**

There were a few exceptions. Miss Thorne was one. Another was Doug Clement of Vancouver, who placed third in the 400-metre race.

Breakers of the Olympic standards, set by the Olympic Association as a yardstick for those aspiring to make the team, didn't necessarily get the nod.

The girl competitors particularly were the sufferers. Mary Lawrence of Toronto broke the Canadian record for the women's shot put and Joyce Brennan of Toronto cracked the mark for the discus throw. Neither was selected for the team. Officials said the competition in Europe would be too tough for the Canadian girls to beat.

The surprise of the meet—and a failure to make the selections—was Don McEwen of Ottawa. McEwen, a husky youngster who stars for the University of Michigan at a mile and two miles, was a disappointment in the 5,000-metre race. Well up with the leader from the start, he collapsed from stomach pains.

The burning sun Saturday appeared to take its toll on the Ottawa youngster. With less than two laps to go, he finally had to give up after struggling valiantly through the earlier laps. Rich Ferguson, Toronto runner from Iowa University, rallied to win over an earlier lapse from the heat. Al Fisher of Victoria, leader most of the way in what became a three-man race, faltered under Ferguson's last-lap sprint.

**NO ARGUMENT**

In the debate over team selections there was no argument over little Shirley Eckel of Toronto, a blonde youngster of 20 who is a package of spring dynamite wrapped up in her 97 pounds. She wrecked the Canadian record in the 80-metre hurdles and will be used in Helsinki also in the 100- or 200-metre sprints and possibly be called on the 400-metre relay team.

Rich Ferguson's time of 15:18.8 in the 5,000-metres broke the old mark of 15:23.6 set by Cliff Sal-

# Name Members Of Track Team

HAMILTON (CP)—The Canadian Olympic Association yesterday named 16 men and seven women to Canada's track team going to the Helsinki games next month.

The following are those picked after the track and field trials here Friday and Saturday:

**Men:**

Jim Lavery, Calgary; John Ross, Oakville; Jack Carroll, Montreal; Jack Hutchins, Vancouver; Bill Parnell, North Vancouver; Roy Pella, Sudbury; Gordon Crosby, Toronto; Don McFarlane, Hamilton; Ron Miller, Toronto; Bob Adams, Saskatoon; Bob Hutchison, Victoria; Pete Sutton, Toronto; Rich Ferguson, Toronto; Doug Clement, Vancouver; Paul Collins (marathoner), Wolfville, N.S.; Ferd Hayward, St. John's, Nfld.

**Women:**

Luella Law, Vancouver; Eleanor McKenzie, Vancouver; Shirley Eckel, Toronto; Rosella Thorne, Montreal; Tiny O'Halloran, Toronto; Dawn Josephs, Victoria; Alice Whitty, Vancouver.

The C.O.A. also approved nine swimmers—five men and four women.

They are: Kay McNamee, Victoria; Irene Strong, Vancouver; Lenora Fisher, Ocean Falls, B.C.; Gladys Priestley, Montreal; Peter Salmond, Vancouver; Gerry McNamee, Victoria; Leo Portelance, Ocean Falls; Lucien Beaumont, Lachine, Que., and Allen Gilchrist, Vancouver.

## Kesselring Wins Prize

BRANTFORD (CP)—Gerry Kesselring, Kitchener Westmount, won the low gross prize at an invitation golf tournament at the Brantford Golf and Country Club Saturday. The two-day affair had 116 entries. Kesselring took 69, three under par for the first day but went two over Saturday for 141.

**TUESDAY, JULY 1**

A touring Australian cricket team which included such stars as Don Bradman and Stanley McCabe defeated an Eastern Canada team by nine wickets at Toronto, 20 years ago. The Canadians scored 176 for eight wickets, declared, and 103. The Aussies had 225 for eight, declared, and got the needed 55 runs with loss of only one wicket.

# Five Sisters Celebrate Silver Jubilee

Five Sisters are celebrating their Silver Jubilee to-day at Mount St. Joseph These are Sisters St. Clare, Maris Stella, Marina, Hilda and Germaine.

Sister St. Clare is in charge of the Kindergarten class at Honey Harbour. Before going to Honey Harbour Sister was in charge of the orphans at Villa St. Joseph, Cobourg, and taught in the High School at Old Chelsea Quebec.

Sister Maris Stella is a graduate nurse at St. Joseph's hospital Ashburnham. She has spent her entire religious life in the work of caring for the suffering. After having completed her training at St. Joseph's hospital, she spent several years in the hospitals of Parry Sound, North Bay, Port Arthur, and Estevan Sask.

Sister Marina for the past four years has been engaged at St. Peter's High School. She is a graduate of that school and since finishing her training in the religious life, she has taught at St. Michael's Convent Cobourg and at St. Patrick's High School, Fort William. She is a skilful pianist and in vocal music holds a Specialist's Certificate. Sister Marina's sister, Sister Agnes Teresa A.T. C.M., teaches music in St. Joseph's Academy, Lindsay.

Sister Hilda is at present living at St. Mary's Convent, Ottawa. Her life as a religious has been spent chiefly in the convents at Cobourg and Sudbury. For six years she was in charge of the House of Providence Ashburnham. Her sister, Sister Stella Marie is a music teacher in the convent at St. Andrew's West, Glengarry.

Sister Germaine, a sister of the Rev. Dr. F. M. Grant, pastor of St. John's Church, Peterborough, has devoted her religious life to the work of teaching. She has taught in Sault Ste. Marie, and St. Mary's Convent Peterborough.

The late Rev. Earl Grant who died at St. Joseph's Hospital on December 18, 1943 was Sister Germaine's brother.

Dr. Grant offered the Community Mass at 6.30 in the chapel; at the same time Rev. J. V. Corkery Chaplain, offered mass at the altar of Our Lady. All the Sisters were present at these masses, as well as relatives of the jubilarians. The house was beautifully decorated with flowers and scrolls and a happy holiday was enjoyed by all.

# $30,000 Fire Destroys Rink

NORANDA, Que. (CP)—A three-hour blaze gutted the old Noranda Mines curling rink yesterday. Damage was estimated at about $30,000.

The flames spread throughout the entire building causing the roof framework to collapse at the front of the structure. Built in 1934, the building was the centre of curling activities in Noranda until the war, when it was taken over by the army and was used for storing military equipment.

The old rink was replaced last year by Noranda Recreation Centre.

# Party Ends With Slashing

TORONTO (CP)—Police said today a three-day drinking party on Jarvis street in central Toronto ended yesterday with the razor-slashing of the face of Eddie Bruneau, 22, of Montreal.

They said Bruneau got into an argument and that his face was slashed near the eyes with a safety razor. Forty stitches were required to close his wounds.

Keith Monroe, 34, of Kirkland Lake, and Sally Green, 33, and James West, 30, of Toronto, were arrested on a joint charge of wounding.

## Remember When—

By THE CANADIAN PRESS

Bobby Jones won his third United States Open golf championship 23 years ago today after a lopsided play-off with Abe Espinosa. They posted identical scores of 294 in the tournament proper, but Jones did the 36-hole playoff in 141 strokes, 23 less than Espinosa.

FINSHES FIRST—The U. S. Naval Academy's 71-foot yawl, Royono, crosses the finish line off St. David's Head, Bermua, to become the first finisher in the 675-mile Newport to Bermuda yacht race. The biennial race attracted a record of 59 yachts.

# Bethany Ball Teams Win Weekend Frays

BETHANY (ENS) — Bethany girls won at home 11-10 over Millbrook in a North Durham Softball League game. They scored three in the first inning, one each in the third and seventh, four in the fourth and two in the sixth. The visitors got one in the third and nine in a big fifth frame. Teams:

Millbrook: Todd, p; McDowell c; Guthrie, 1b; N. Richards, 2b; R. Richards, 3b; Hutchinson, ss; Lowery, lf M. Richards, cf; Dawson, rf.

Bethany: Mulligan, p; Carr, c; Hudson, 1b; Bristow, 2b; Neals, 3b; Edwards, ss; Finney, lf, H. Bigelow, cf; G. Bigelow, rf.

Umpires—R. Edmunds and D. Kent.

**MEN'S GAME**

A men's baseball game here saw Bethany beat Janetville 17-6 in league play. Cam Rowan hit three doubels and a single, Will Rowan got a triple, and Ginn a double, the losers using three hurlers.

The losers got a run each in the first, third, fifth and sixth, with two in the second. Bethany scored five in the first; seven next time up, two in the third and fifth, and another in the sixth. Rowan hurled steady ball for the victors. Two juniors, Bob Ryley and Maurice Driver went well for Bethany. Bert Ginn took over as catcher and played a neat game. He was replacing Wilf Reynolds, who had his hand injured earlier in the day while repairing a hay fork track in the barn. The left hand was crushed and one finger taken off in the accident.

# Three London Buses Will Visit Cobourg

COBOURG (ENS) —Three buses of the London Transport system, all double-deckers, will visit Cobourg on July 29 during the course of their three week tour in Canada. The buses will stop over at Cobourg where arrangements have been made to extend the accompanying personnel a civic welcome. The London buses will have completed a tour of 8,005 miles by the time they have made their Canadian and U.S. trip, which will begin at Montreal on July 10.

## Rescued From Ledge

HAMILTON (CP)—William Hill, 47, of Hamilton, was seriously injured last night when he fell 65 feet down Hamilton Mountain. A team of Hamilton police chained up to rescue him from a four-foot ledge which saved him from plunging another 100 feet.

## Lay Secretary Dies

TORONTO (CP)—James Nicholson, 91, Anglican layman who served Toronto synod of his church as lay secretary for 30 years, died last night. He was born in England. He founded the seed house of Nicholson and Brock.

# Oldest Couple Of Lindsay Wed 60 Years

LINDSAY—The oldest married couple of Lindsay, Mr. and Mrs. Harry Rich, 86 and 84 years respectively, celebrated their diamond wedding anniversary last week.

Their anniversary, Friday, June 27, was celebrated Thursday night by relatives and friends of the Oakwood district in the Oakwood community hall. Celebrations were held Friday in Lindsay also at the home of their daughter, Mrs. J. Goard.

Married in Lindsay 60 years ago, Mr. and Mrs. Rich farmed for a time near Oakwood, later moving into the village where for 20 years he was caretaker at the school and bank.

Upon Mr. Rich's retirement, the couple moved to Cannington, living there for 14 years and moving to Lindsay last fall.

The elderly couple were guests of honor Thursday when 150 Oakwood and district friends gathered at a community party.

Mr. and Mrs. Rich have one son, Carl, of Ajax, four daughter, Mrs. Noble Jewell, of Sutton, Mrs. Angus Ferguson, of Peterborough, Mrs. Fred Jenkins, of Orillia, and Mrs. Goard, of Lindsay; 11 grandchildren and five great-grandchildren.

# Reds Take Blame For Ack-Ack Shell

MUNSAN, Korea (AP)—The tightly deadlocked Korean armistice talks resume tomorrow after a three-day recess called by the Allies and protested by the Communists.

The Communists today admitted responsibility for an anti-aircraft shell which landed 20 feet from the Panmunjom conference tent a few hours before negotiators met Friday. It caused no damage.

The Reds expressed regret for the "inadvertent incident."

In advance of tomorrow's session there was little hope of any crack in the war prisoner deadlock, now nearly two months old.

**After-Meal Distress?**

Don't let flatulence, heartburn or sour stomach spoil the pleasure of a good meal. Take a *Digestif Rennie Tablet* after eating —see how quickly you get relief. RENNIES contain antacid ingredients which help relieve indigestion fast. Carry a few RENNIES with you. 25c at Druggists. 1

# Dorothy Cook Top Pupil Of North School

HAVELOCK (ENS) — Dorothy Cook, a pupil of North School, Belmont township, was presented with a special prize at a closing concert held in the school, for the outstanding pupil of the year, based on progress and conduct, etc. Ruth Watson and Shirley Baptie, grade I pupils were also recipients of prizes for good work. Prizes were given to the following for perfect health record: Dorothy Cook, Roberta Cook, Bernadette Logan, Bernadine Logan, Leona Baptie, Shirley Baptie, Evelyn Lewis.

Graduation certificates from Grade 8 to Grade 9 were presented to Dorothy Cook, Glenn Simpson, Ronnie Dooley. The prizes and certificates were presented by the teacher, Miss Grace Woodcock.

Miss Woodcock was honored by being presented with a purse of money from the residents of the community in appreciation for work as teacher which resulted in such a splendid record. The address was read by Fred Taylor with Russell Buchanan making the presentation.

The pupils also honored Miss Woodcock by presenting her with a lovely pair of bookends in deer design. The address was read and the presentation made by Bernadette and Bernadine Logan.

Another feature of the evening was the presentation to the school of a picture of Queen Elizabeth by Mrs. W. Messervey of a Peterborough branch of the I.O.D.E. The gift was received by Dorothy Cook, the class president, who extended appreciation and thanks to Mrs. Messervey on behalf of the school.

Reginald Dooley officiated as chairman for the program, which included the following items: Recitations by Leona Baptie, Bernadette Logan; a skit "The Singing School Teacher" presented by Dorothy and Roberta Cook and Margaret Watson; vocal solo by Evelyn Lewis; piano solo by Shirley Taylor; a skit "The Census Taker" by Fred Watson and Evelyn Lewis; a vocal duet by Bernadette and Bernadine Logan; a bit of poetry "The Poet's Cornered" by Leona Baptie, Evelyn Lewis, Bernadette and Bernadine Logan; choruses were sung by the senior pupils and the junior pupils under the direction of their music teacher Donald Pollock. Mr. Pollock and Miss Barbara Pollock played two piano duets, and the latter played a piano accordion solo.

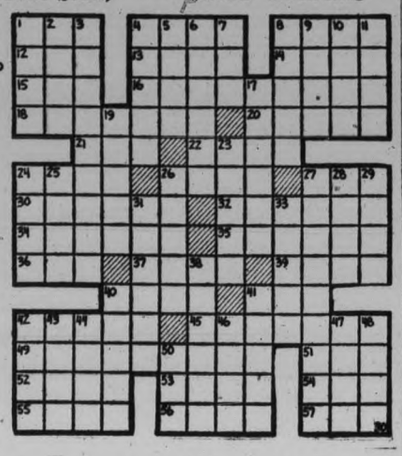
Answer to Previous Puzzle



# Report Heartening Victories Of Free Press Against Censorship

By THE ASSOCIATED PRESS

Pressures against the free flow of world news increased in the first six months of this year but there were some heartening victories over the foes of a free press.

This is disclosed in a survey of censorship and other conditions hampering the flow of news. Every six months the Associated Press asks its correspondents in all parts of the world to report on conditions. The latest survey covers the period since Jan. 1.

The Soviet Union and Communist China, and the countries that follow Moscow, choke off as tight as ever the flow of news from great areas of the world. In lieu of news comes a constant barrage of propaganda.

**FIND CLUES**

But this is a challenge to alert newspaper men, who patiently sift through thousands of words to find clues as to what is really going on.

In general, the survey shows no relaxation of censorship in countries where it is customarily employed. In some instances this censorship has tightened. Colombia and Venezuela in South America are examples.

A revolution in Bolivia April 9 brought about the death of the biggest newspaper in that country, La Rozon. The new regime of Victor Paz Estenssoro padlocked the newspaper, owned by a representative of one of the country's tin-mining company owners. The President said he feared the newspaper plant might be attacked. He promised to re-open the plant but June 4 the paper's management gave up and discharged its 300 employees.

In Hamilton, Bermuda, the editor of the Royal Morning Gazette, Edward Thomas Sayer, defied an order of the speaker of the House against publishing an account of a public debate on foreign exchange control.

**SUCCESSFUL CAMPAIGN**

In Chile, a successful campaign was waged by the press against the arrest of four newspaper men for criticizing a Cabinet minister. The men were released and the Cabinet minister resigned.

The Trinidad Guardian at Port of Spain launched a vigorous protest and succeeded in getting the government of Trinidad to withdraw an offending clause from a bill and substitute one which absolved newspapers from any liability if they printed fair and accurate reports of any proceedings of the legislative council.

In Manila, an amendment tacked on to an immigration bill would have made it possible for the government to deport an alien who might say or write anything which might discredit the President, members of the Cabinet or Congress. Senator Claro M. Recto discovered the "sleeper" and delivered such a stirring defence of the free press that the amendment was killed.

Italy June 20 ordered expulsion of a Soviet foreign correspondent in a decision that had more bearing on the question of Red propaganda than on censorship itself. The ejected correspondent, a 50-year-old woman writer for Pravda of Moscow, was being kicked out of Italy, the government said, as the result of cumulative evidence of distortion in Pravda articles, speechmaking for Communism during her year in Italy, and, finally, her unwarranted Pravda attack on Gen. Matthew B. Ridgway when he visited Italy as North Atlantic Treaty Organization commander.

**LET-UP IN CENSORSHIP**

There has been some let-up in censorship of interpretative writing. Some criticism of the Soviet regime may be reported.

As for the satellite countries most of the news comes from official radio broadcasts or copies of the rigidly-controlled press which reach the outside world. This is true of Romania, Czechoslovakia, Bulgaria and Albania. The AP correspondent in Hungary, a national, is subject to "control" censorship—the practice of calling a correspondent on the carpet after his stories are in print.

In France the press is free and there is no censorship of outgoing dispatches. Four times in May Communist or pro-Communist newspapers had whole editions seized on charges of inciting to public disorders. Newspapers were not closed.

Foreign correspondents and the German press are not censored in western Germany.

In eastern Germany the Communist-led government and the Soviet Control Commission enforce strict control of newspaper content along Communist lines.

**CLOSE CHECK**

Premier Tito's Communist regime in Yugoslavia employs no direct censorship of outgoing dispatches but it keeps a close check on what is printed abroad. Frequently foreign newspaper men who criticize government policy find themselves attacked in the official press for "non-objective" reporting. The domestic press remains under tight government control.

In Spain there is no censorship of outgoing dispatches but newspaper men are held responsible for what they send. The domestic press cannot criticize fundamental laws of the Franco regime or Franco himself, or the Roman Catholic Church. Provincial officials and Cabinet members are not beyond criticism, however.

The United Kingdom, and the Commonwealth countries of Canada, New Zealand and Australia maintain their tradition of no censorship.

For the first time in the history of the 42-year-old Union of South Africa, a newspaper was shut down in May because of its political opinions. The Nationalist government of Prime Minister Daniel F. Malan, in a political crisis stemming from its racial policies, banned the Guardian, a pro-Communist weekly. This was done under a 1950 act for suppression of Communism. Editor Brian P. Bunting denied his paper was a party organ and five days later came out with a new weekly, the Clarion, which looked and read just like the Guardian. The government took no further action. There is no censorship of dispatches by foreign correspondents.

In India there is no censorship of outgoing or incoming dispatches and no attempt to control news at the source.

Dispatches of foreign correspondents in Egypt were subject to heavy censorship during the terror riots of last January, when the Anglo-Egyptian dispute reached its worst point.

In Argentina there is no direct censorship of outgoing or incoming dispatches.

## Youths Attack Woman

MONTREAL (CP) — Police reported a 30-year-old woman was criminally attacked by eight youths Saturday night atop Mount Royal, a park in the centre of the city. The victim was reported in fair condition in hospital. Police said her male companion was tied to a bench by the youths and gagged.

# Acheson Assures Austria U.S. To Aid Independence

VIENNA (AP)—State Secretary Dean Acheson of the United States paid an official visit to this Communist-ringed capital today and told the Austrians "the constant aim of United States policy is to hasten the day when independence will be given to Austria."

Coming here from Berlin—also surrounded by the Soviet military—Acheson was scheduled today to call on Austrian President Dr. Theodor Koerner, Chancellor Leopold Figl and Vice-Chancellor Adolf Schaerf.

Acheson's "symbolic visits" to Vienna and Berlin aim to bolster courage in the beleaguered cities and demonstrate to their free people that they are fully backed by the West.

**TO VISIT BRAZIL**

Acheson will take off tomorrow for Brazil, where he makes an official visit before returning to Washington.

He said on his arrival here yesterday that Americans "admire and honor the patience and courage with which the people of Austria have borne the disappointments in not having had the liberty and independence promised them" during the war.

Cheering crowds thronged the square at Franz Josef station in the American sector of Vienna to greet him. On his 20-mile train route through the Russian zone from Tulln air base thousands of other Austrians cheered him despite Soviet soldiers and sailors along the way.

Austrian police were placed every 200 yards along the route of the special U.S. train. A police cordon was thrown up in the city along the Danube canal which borders the Soviet sector.

**NO DEMONSTRATIONS**

The threat of Red demonstrations failed to materialize, however, after 39 Communists were jailed earlier in the week for smearing streets and walls with "Acheson, go home" signs.

Before leaving Berlin, the U.S. Secretary had assured the Germans that "we shall remain in Berlin until we are satisfied the city is secure." He reminded them: "We shall regard any attack on Berlin from whatever quarte as an attack against our forces and ourselves."

He said he saw no immediate threat of Russian aggression although he did not underestimate recent pressure put on isolated West Berlin by the Communists.

## Farewell Service Of Rev. P. C. Browne

Coldsprings (ENS) —At St Paul's Church, Coldsprings, on Sunday morning, a large congregation was present to hear the Rev. P. C. Brown's farewell sermon. He chose for his text, "Farewell Brethren". During the service, James Douglas Alexander, infant son of Mr. and Mrs. Duncan Ferguson, was baptized.

The choir under the direction of Miss Edith Hoskin, organist, sang the anthem, "A Dream of Paradise".

**INDUCTION SERVICE**

On Friday night at Camborne Church the induction service will be held for the Rev. V. M. Gilbert, who will preach on the Camborne circuit, commencing on July 6.

## Hubert D. Howden

The funeral for Herbert D. Howden, 459 Murray St., who died Thursday, was held Saturday from the Kaye funeral home.

The Rev. E. W. Rowland of Grace United Church conducted the service.

Pallbearers were Roy Howden, Eugene Switzer, Herbert Parker, Elmer Henry, William Richadson, Lockhart Wright. Burial will be in Emily cemetery.

FUNNY BUSINESS —By Hershberger

"He insists on speeding up the game—his draft number is coming up!"

## Crash In Fog, Three Killed

JAMESTOWN, N.Y. (AP)—Three men were killed shortly before midnight last night when their private plane crashed in a fog-bound wooded area about four miles north west of here.

The single-engine, four-seater Bellanca craft was found about 3 a. m. EDT today in the nearby hamlet of Ellicott. The dead were identified as:

Edward C. Coyle, 43, of Buffalo N. Y., believed to be the pilot.

Arthur M. Michalski, 26, and Conrad R. Ratajczak, 32, both of Cheektowaga, a community adjacent to Buffalo.

The plane was en route to Buffalo from Detroit. Jamestown is about 40 miles south of Buffalo.

Airport authorities said the tiny craft circled the airport about a dozen times before limping off to the west, apparently in trouble.

## Easy For Police

TORONTO (CP)—The purebred Guernsey registry was used yesterday to identify the victim of an accident on No. 2 Highway east of here. Scarborough police found a yearling heifer killed by a passing car belonged to Don Annan of Scarborough township.

# Kamloops Band Winner At Festival

WATERLOO (CP)—A high school brass band from Kamloops, B.C., was one of the winning groups Saturday at the 20th annual Waterloo band festival.

The 8,400 residents of the B.C. town raised $6,000 to send the 47 boys and girls of the band to the festival.

An estimated 20,000 persons attended the festival. There were 60 band entries and a total of 882 entries for various instrumental contests.

Ontario winners in the band competition were Orillia, London, Hanover, Acton and Chatham.

Richard Szymczyk, Hamilton, won the Canadian championship in the accordion competition.

Ted Denver, Guelph, was given the bandmaster's award when his pupils amassed the highest total of points in instrumental competition.

**Woman Escapes from laxative habit**

"After trying many kinds of remedies to relieve constipation, I finally turned to a daily helping of ALL-BRAN. No constipation now!" confides happy Montreal woman. And delicious Kellogg's ALL-BRAN may bring back your youthful regularity if your suffering has been due to lack of bulk in your diet. It's the only type ready-to-eat cereal that supplies *all* the bulk you may need. ALL-BRAN is high in iron and protein—not habit-forming. Eat ½ cupful of Kellogg's ALL-BRAN daily; drink plenty of liquids. Kellogg's is so sure you'll like ALL-BRAN that if you're not *completely satisfied* after 10 days, send empty carton to Kellogg's London, Ont., and get DOUBLE YOUR MONEY BACK!

## Mrs. George H. Spence Is Widely Mourned

LAKEFIELD— (ENS)— Lakefield United Church was filled on Friday afternoon when friends and relatives gathered to pay their final tribute to Mrs. George Harold Spence who passed away on Wednesday morning in hospital.

The former Eva May Little, she has resided in the village for the past 44 years, and had been ill about a year.

Mrs. Spence will be greatly missed in the village and community where she was actively engaged in many organizations. She was a lover of flowers and an authority on horticulture, and was one of the people who seemed to get as much enjoyment out of sharing her flowers with others as she did in growing them.

The funeral service was in charge of the minister, the Rev. W. H. Tonge and the address was given by the Rev. George Kelly of Newtonbrook, a former minister of the church. The choir assisted and Mrs. Raymond Jackman sang the solo, "The Old Rugged Cross."

Pall bearers were Samuel Spence of Toronto, Rufus Payne of Peterborough, Warren Payne and Harry Dunford of Lakefield, Lorne Webster of Peterborough and Ray Robinson of Northern Ontario.

Flower bearers were members of the Golden Dawn Rebecca Lodge of which Mrs. Spence was a member and were Mrs. Ray Welbourn, Mrs. Harold Kidd, Mrs. Hilliard McCracken, Mrs. Ted Gill, Mrs. William Fairbairn and Mrs. Stanley Millage.

Interment was in Lakefield cemetery.

## Woman Fractured Hip In Fall From Steps

MARMORA—(ENS)—Mrs. Annie Grant, an aged resident, had the misfortune to fall off the steps of the home of her son, Grant on Thursday afternoon and fracture her hip, as a result of which she is a patient in Belleville General Hospital.

# PRUDENTIAL ANNOUNCES SICKNESS & ACCIDENT INSURANCE Great New Plan for Canadians

Once again, Prudential . . . the company with the strength of Gibraltar . . . is a pioneer. It is offering a new sickness and accident plan, broad in coverage with a wide range of benefits. It provides liberal regular payments to take the place of income lost from *any* sickness, almost *any* conceivable accident, on or off the job. It cannot be cancelled at the company's pleasure. It's renewable to age 65. And the plan is designed to fit your needs and your pocketbook.

Look at the pictures on this page. Are you protected in each case shown?

**1.** *What if you were laid up for a long period?* Would you have the funds to keep your family going while you were away from work? Prudential's new plan gives you a regular monthly check for family living expenses when you're laid up . . . protects your hard-won savings in case of a long sickness.

**2.** *What if you had a serious illness and apparently recovered?* Many policies can be cancelled if your health becomes impaired. Prudential Sickness and Accident loss-of-time policies are non-cancellable and guaranteed renewable to the age of 65.

**3.** *What if you should get a recurring illness?* Could you be paid for future attacks? Would your costs go up? Prudential will not add a restricting rider to your policy to prevent you from collecting for a recurring illness. For example, heart disease, stomach ulcers, arthritis. And your rates would not be increased.

**4.** *What if you were injured off the job in a recreational sport?* Would you be covered? Under Prudential's policy, yes. You're covered 24 hours a day . . . at home or on the job . . . for all "bodily injuries" . . . the broadest accident coverage you can get. You even receive additional benefits for specified travel accidents.

**5.** *What if you should change to a more hazardous job?* Under Prudential's new plan your benefits would not be reduced. Your rates for Sickness and Accident loss-of-time insurance will always remain the same once you buy your policy.

**6.** *What if you should get heart trouble, cancer, arthritis?* Would you be protected for all diseases? The Prudential plan makes no exceptions. It covers all known diseases, of which there are over 1800 recognized by medical science.

**7.** *What if you were unable to work because of illness but not confined to the house?* Would you be covered for full benefits? Yes, under Prudential's plan you need not be confined to the house to receive your monthly income check. And you can visit your doctor at his office.

**8.** *What about hospital and surgical bills?* Prudential also has family and individual Hospital and Surgical policies that provide cash for hospital bills, surgical bills and additional expenses, such as operating room, medicines, laboratory fees, x-rays, anesthetics. Also covered are maternity expenses, emergency accident expenses and polio expenses.

THE PRUDENTIAL
INSURANCE COMPANY OF AMERICA
*Serving More Than One Million Canadian Policyholders*
CANADIAN HEAD OFFICE — TORONTO

LITERARY AWARD—Governor-General Vincent Massey, right, hands the Governor-General's award for fiction to Morley Callaghan of Toronto at the annual dinner of the Canadian Author's Association in London, Ont. The award is one of five top annual literary awards to distinguished Canadian authors. Mr. Callaghan's award was for his novel "The Loved and The Lost."

# Drug Building Search Pays With Control For Petit Mal

By ALTON BLAKESLEE
Associated Press Science Reporter

NEW YORK (AP)—A long and careful drug-building search has paid off with a new drug for epilepsy.

This drug, PM334, works well and safely to control one form of epilepsy—petit mal or little attacks. In petit mal, people nod or black out for two to ten seconds. They don't usually fall and don't suffer from the convulsions of grand mal or severe epileptic attacks.

PM334 came from a search started five years ago by Drs. Frederic T. Zimmerman, Lauren Long, and Ghaham Chen of the Neurological Institute, College of Physicians and Surgeons of Columbia University.

The team created and tested thousands of drugs, each slightly different from the others. But each had a basic structure or molecule, a part which is common to most anti-convulsant drugs and sedatives.

SCIENTIFIC COOKS

As scientific cooks, the team shuffled atoms and used different chemical ingredients to make several series of new drugs with this basic structure.

PM334, one drug of the succinimide series, and the best yet found for petit mal, will be marketed soon under the trade name Milontin.

In human tests over a year's time, it completely controlled petit mal in one-fourth of nearly 100 patients. It almost completely controlled the disease and in another fourth, reducing their attacks by 80 to 99 per cent. In the others, it brought partial control, reducing attacks from five to 80 per cent.

An advantage is that the drug is safe, Zimmerman said. It does not affect blood count, and caused only minor side effects such as nausea or loss of appetite in a very few patients.

PM334 does not affect the grand mal seizures, but the same drug search also has produced another drug which looks good so far against both grand mal and petit mal. It now is being tested on patients. It still is experimental—that is, not yet available for physicians and their patients.

# PRIZES: EVERY WEEK Five Merchandise Orders—10 Odeon Tickets

# JUMBLED NAME CONTEST

## RULES OF THE CONTEST

Each week in the centre space of this heading, the name of some advertiser on this page will be shown with the letters jumbled. Contestants' task is to unscramble them, and show correct name on entry form at right. To qualify for the contest, a receipt must be attached to each entry as proof of purchase made this week from any firm co-operating in this feature. Contestants can make as many entries as desired so long as a purchase receipt is attached to each one. Awarding of prizes from all correct and eligible solutions received during the week fifteen will be drawn and prizes awarded accordingly. Send entries to Jumble Letter Contest Editor, c/o this paper, to be received not later than Friday.

## 15 Valuable Prizes Every Week 15

$5.00 Merchandise order, $3.00 Merchandise order,
$3.00 Merchandise order, $1.00 Merchandise order,
$1.00 Merchandise order, 10 Odeon Theatre Tickets.

This Week's Jumbled Name. Find It Among Advertisers

**TNASMYR**

RADIO — Every Monday the Jumbled Name Contest winners will be announced over CHEX and attention directed to the contest prize in that day's Peterborough Examiner.

# PETERBOROUGH EXAMINER

VOL. CIV. No. 152 — SATURDAY, JUNE 28, 1952

## MAIN STREET TOPICS

**CAMP OPENS**

It was in school one day and in summer camp the next for 60 boys Saturday; they are attending the Y's Men's Club Boys' Camp on Clear Lake. Camp Kawartha, this year under Bill McFarlane, Y.M.C.A. boys' work secretary, is booked up for six weeks' camp.

**ONE BACK, ANOTHER GOING**

As the 50th H.A.A. Regiment arrives home from summer camp, the 28th Technical Squadron is preparing to leave. The engineers leave July 12 for Barriefield for a week's camp. The 33 men will be under commanding officer Captain R. R. Asselstine.

**RESULTS GOOD**

The record of 118 passed out of a possible 126 students attending the Normal School last term was described as "as good as other years" today by Principal L. W. Copp. Most of the students are attending summer schools, finishing off Upper Schools subjects, or starting work on university degrees.

**WAX BOILS**

Mrs. W. R. Godson received a slightly burned hand Saturday when some wax boiled over on her kitchen stove. She was preserving fruit and left the wax on the stove to melt. While away from the stove, the wax boiled over, starting a small fire. Her hand was burned taking the wax away.

**CUT BY TIN**

One wrist cut by a jagged piece of tin, George M. Sage, 53, of 646 Cameron St. was taken to St. Joseph's Hospital, Saturday and was treated by Dr. Robert Young. Mr. Sage was working in the Outboard Marine Co. factory when the accident occurred. He was taken to hospital by ambulance and was released Sunday.

**HURT BY CAR**

Mrs. V. J. McCarthy, of 136 Robinson St., was knocked down and slightly injured Saturday when struck by a car on George St., between Simcoe and Charlotte Sts. Mrs. McCarthy started to cross from the east to the west side of the street and was struck by a southbound car, driven by Terry Shaer of 931 Ford St. Her legs and arms were bruised and her glasses were broken.

## Playgrounds In Eight Parks In City Open For Summer Of Fun For Children

Playgrounds will open in eight city parks and lots for school children Wednesday, beginning the summer season of organized games, crafts and play for Peterborough children.

This year two playgrounds have been relocated to service playground needs for children. The playground, conducted in previous years at Confederation school has been shifted to Braidwood Ave., beside the Canadian Nashua company. The second is a totlot, behind All Saints' Anglican Church, serving children up to 10 years.

Other playgrounds will remain the same as last year, at Riverside, Inverlea, Hamilton, Turner and King Edward parks and at Fleming Place.

**TOOK COURSE**

Last week the playground supervisors took a course in playground management at Moira lake near Madoc. They will open the playgrounds this week with organization and getting-acquainted classes. Next week teams and craft classes will be organized and work started.

This year swimming instruction at Inverlea beach and the Hamilton park pool will be conducted by Miss Shirley Green. Miss Green has had experience teaching swimming at the Detroit Y.W.C.A. and the Windsor playgrounds.

At Hamilton park Miss Mary Rutherford will be teaching swimming to the children up to 12 years while Miss Lorraine Derry will be handling children at Inverlea.

Lessons in swimming at both parks will be free. Children are asked to register at the playgrounds on Wednesday at 10 a.m. and later they will be placed in classes. If adults wish instruction, they should contact Miss Green.

## Tourists Mostly Canadians Start To Fill Resorts

The great tourist inflow to the Kawarthas which started Friday afternoon from three points of the compass rolled into high gear by Saturday. Many information booth operators found that there were not as many Americans coming through as anticipated due to the national Fourth of July holiday being next Friday.

There were more Canadian tourists en route to resorts and private cottages and everyone this year seemed to know exactly where they were going. This situation, it is believed, is the result of individual resort advertising.

Sunday and today restaurants were jammed with tourists and the shopping district today saw many visitors starting their holidays buying and looking.

The American-Canadian money question made minor news everywhere. A party from West Virginia were pleasantly relieved to find that their dollar was NOT worth 70 cents Canadian, but 98, and another group from Ohio had anticipated getting back 80 cents on the dollar.

**BASS, MUSKIE FISHING**

As far as fishing went many were champing at the bit to get at the bass and 'lunge which can be taken legally on Tuesday. Many others, and most of the Canadian fishermen, threw caution to the wind and went about trolling and casting as if no Four-County restriction existed. It kept conservation officers hopping but to date no offenders have been listed.

Opportunities for taking both bass and 'lunge seem to be excellent. Bass have spawned and are off their beds and 'lunge are hungry for artificial baits, according to the way they have been snapping at lures for the past few weeks.

The Bobcaygeon Tourist Information booth was extremely busy, manager Albert Kelly said. He has about 100 beds in private homes and in cottages to fill to bring the summer population up to saturation point. Mrs. Buddy O'Brien of the Lakefield booth was also kept hopping with which - is - the - way - to inquiries and many fishermen walked down a few doors to watch a pair of year-old 'lunge in a tank in the window of Archie Stewart's hardware store.

Roadside picnic tables were filled with people all weekend especially at Burleigh Falls, Haultain Park on Eel's Creek and on the east side of Paudash Lake.

## Veterans Honor War Dead At Bridgenorth

BRIDGENORTH — (ENS) — Several hundred attended the first Decoration Day service to be held at Bridgenorth cemetery Sunday to honor those killed in two world wars.

The service was conducted by the Rev. D. P. Morris, of Bridgenorth United Church. Special music was provided by the Bridgenorth Church choir and the junior Salvation Army band of Peterborough.

Veterans of the First and Second World Wars paraded from the church to the cemetery, led by Gordon Nicholls, standard bearer, and veteran of the First World War. The Boy Scouts, Cubs, C.G.I.T. and Explorers also paraded, led by the Junior Salvation Army Band.

The cemetery was beautifully decorated with flowers and small Union Jacks were placed on the graves of the following veterans: Wesley Nicholls, Vallen Young, Bruce Cullen, and Clarence (Peter) Homer, by Veterans Fred King, Al Crowe, Charles Forsythe and R. McConkey.

During the service, Mr. Morris paid tribute to Mrs. William Nicholls, one of Bridgenorth's oldest citizens, who has done so much for the cemetery through the years and who also donated the fence and large gates.

Captain Gordon Ray read the lesson for the veterans' service and the Last Post and Reveille were played by Mr. Cumming.

LIVE FIRING ACCURATE—The 50th H.A.A. Regiment was complimented by Royal Canadian School of Artillery instructors Friday for their accuracy during live firing practice at summer camp at Point Petre. The Peterborough crews shot down two targets in Fridays' firing, which is considered excellent work. One of the two crews is shown above ready to swing into action from the firing position. Targets were flying behind Dakota-type R.C.A.F. aircraft.
—National Defence Photo

## Teachers Start Summer Grind For Next Year

When the Normal School term ended early this month, work didn't stop for most of the school masters. In fact it won't stop for another month yet.

Immediately after the students finished writing final examinations late in May, the teachers went to Toronto to mark the papers. Since then they have been preparing for next year.

A number of the teachers will be instructing this summer, during July, in summer school courses in Ontario. These schools will close early in August and only then will they be able to have several weeks holidays.

Normal School principal, L. W. Copp, will be principal of an education course in Toronto where 700 teachers are enrolled. They are seeking their permanent teaching certificate.

Others teaching this summer are: Quirt McKinney, recreation, education course, Northern Vocational School, Toronto; Mrs. Olga Turner, home economics, short course for teachers, Toronto Normal School; C. E. Potts, English, at the newly-established pre-teachers college course at Bloor Collegiate, Toronto; John Londerville, stage craft, arts and craft course at Danforth Collegiate, Toronto; Miss Norma Timlin, librarian, education course, Northern Vocational.

## Reserve Unit Wins Pennant At Summer Training Camp

Peterborough's reserve unit, the 50th H.A.A. Regiment climaxed its year of training last week when they won the pennant for best line at the summer camp at Point Petre, near Picton. The 50th Regiment competed with reserve units, the 59th Light A.A. Regiment, Lanark-Renfrew, the 60th Light A.A. Regiment, Brockville, and the 54th Light A.A. Regiment, Kitchener. The pennant was awarded the 50th for cleanliness and tidiness along its line.

The 50th Regiment also won sports championship for the efforts in a track and field meet. Besides that group honor the individual championship went to the 50th Regiment to track and field star, Gnr. D. R. Sisson, who entered most of the events.

Other sports honors went to the 54th Regiment in volleyball and to the 59th in softball.

But the regiment in training received recognition on its last day in camp for its firing ability. On Friday the gun crews dropped two targets, flying behind R.C.A.F. Dakota aircraft.

**TOP ACCURACY**

The purpose of anti-aircraft is to scare enemy planes away with close-firing and if possible to shoot planes down. The 50th Regiment's crew's accuracy was described as "excellent" on Friday.

Firing the big 3.7-inch guns was the camp highlight. The gun crews, trained by Lt. R. W. Hamlin, Cadet R. A. Reid, B.S.M. D. T. Jones, and Sgt. Watson, fired on Tuesday, Thursday and Friday afternoons.

Apart from the firing the 50th Regiment included various courses on anti-aircraft work. This year these courses were planned and conducted by the regiment and not by the Royal Canadian School of Artillery (Anti-Aircraft) at Picton.

For officers and non-commissioned officers, the school conducted a course on control room procedures.

The unit returned to Peterborough on Saturday afternoon with their convoy of trucks and jeeps. The original plan was to hold a parade up George Street from the C.P.R. station, but it was abandoned due to the heat after the long drive.

The summer camp this year was considered by officers and men as the most successful since the war, both from the training and recreational standpoints.

**LIGHT WEEKEND**

Despite the heavy traffic on district highway lanes Saturday and Sunday there were only a few minor accidents and no serious crashes. The provincial police reported seven minor accidents involving only a smal amount of property damage.

## Canada Observes Beginning As Nation 85 Years Ago

By THE CANADIAN PRESS

Dominion Day is the 85th anniversary of Canada's Confederation and public celebrations all over the land tomorrow will be preceded by traditional religious observances.

Canada's birthday as a nation is one of the few holidays that have not been switched to a Monday observance. Last year the date fell on Sunday, and the holiday was observed on Monday. But coming on Tuesday this year, the holiday may not see so large a toll of accidents as usually accompany weekend summer holiday celebrations.

While Canada's 14,000,000 people mark the day with outdoor celebrations and city observances from Newfoundland to British Columbia, their relatives and well-wishers will join them in many distant capitals where tribute will be paid to Canada's nationhood.

In Peterborough no official recognition of the day will be held, but citizens throughout the district will be out on picnics, fishing and generally enjoying themselves for the first holiday of the summer which the weatherman says will be sunny and warm.

**FAR FROM HOME**

Servicemen far from home will observe the day — soldiers and sailors in Korea and Japan; soldiers in Germany and airmen in England. Besides the 25th Infantry Brigade in Korea, there's a reinforcement group in Japan and three Canadian destroyers in Korean waters. The 27th Infantry Brigade is in the British zone of Germany under the North Atlantic Pact defence system, and fighter squadrons of the Royal Canadian Air Force have been at North Luffenham, England, for some time preparatory to moving to the continent.

Their loved ones at home will mark the holiday in a variety of ways. The first Canadian-born Governor-General, Rt. Hon. Vincent Massey, will be host at the traditional Dominion Day garden party at Government House, Ottawa, where 2,000 persons are expected to attend.

The Governor-General will also participate in the national network program being arranged by the Canadian Broadcasting Corporation. Canadian radio stations, both CBC and privately-owned, will feature Canadian music and Canadian programs including the reading of verse about Canada or by Canadians.

The changes since the historic year of 1867 will be the theme of many a speech and sermon. The first Confederation united only Nova Scotia, New Brunswick, Quebec and Ontario. Manitoba entered in 1870, British Columbia in 1871, Prince Edward Island in 1873. Alberta and Saskatchewan were constituted provinces in 1905. Newfoundland became the 10th province in 1949.

**TO INCREASE NUMBER**

In some future year the Yukon and the Northwest Territories are expected to increase the number of provinces.

But while Canada steadily grows in size and strength, Dominion Day affords a pause for tribute to the "Fathers of Confederation" who conceived the idea of the first self-governing member of the British Empire, now the British Commonwealth of Nations.

Those Canadian statesmen of an earlier age brought their dream to reality in the historic series of conferences at Quebec, Charlottetown and finally at London, where the name "Dominion" was found from the biblical quotation "He shall have dominion from sea to sea."

## Blessed Event

*Keepers at the filtration plant zoo this spring have had their hands full: the population there has grown by leaps and bounds. For the past three weeks the men have been busy nursing along young peacocks and partridge. Peter and Dolly, the pet deer, became Sunday proud parents of a little fawn.*

## False Rumors Say U.S. Dollar Worth 70 Cents

More reports of false rumors circulating in the United States regarding discounts on the American dollar in Canada were passed on to tourist operators in the Kawartha district.

Mrs. Bus Mitchell, a resort operator in the district, said today that one of her guests, who is from West Virginia, reported that he was very surprised to have the American dollar accepted at par or receiving only a three cent discount in Canada.

Before he left home he had been told by various people that his dollar would be worth only 70 cents in Canada.

**NOT COMING**

He explained that he owned a small factory and that quite a number of his employees spent their vacation in Canada, but were not coming this year because of the 30 cent discount rumor.

Another tourist at this resort, who comes from Ohio, reported that all rumors he had heard before crossing into Canada were that the American dollar was only worth 80 cents in Canada.

The Peterborough Chamber of Commerce as well as tourist operators in the district are making all efforts to get these rumors stopped across the border and to furnish potential American tourists with correct information.

James Fraser, manager of the Chamber is sending notices to a number of outdoor editors of American newspapers and some of the tourist operators are sending letters to former guests.

## Four Injured On Highway 2

A Campbellford girl, Miss Shirley Petherick, is in Kingston General Hospital suffering from undetermined back injuries following an accident on Highway No. 2 near Kingston early today.

Daughter of Mr. and Mrs. Harold Petherick, 49 Doxsee Avenue North, Campbellford, Miss Petherick is a nurse-in-training at Kingston General Hospital.

Miss Petherick was in a light convertible car with three others returning to the hospital from a midnight dance when the car collided with an autimobile driven by a Pennsylvania doctor, Dr. F. E. Halstead. The accident was at Eastview, six miles east of Kingston.

**FIRST-AID**

Dr. Halstead gave first-aid to the four occupants of the car in which Miss Petherick was driving and then they were rushed to Kingston General Hospital.

The injured were: J. Burleigh 23, of Bath, a possible fractured skull; Gladys Workman 22, of Toronto, a broken hip; Shirley Petherick of Campbellford, injured back; M. Bernhardt 23, of Toronto, face and knee cuts.

Dr. Halstead and his wife, of Stroundsville, Pa., were shaken up by the collision.

## Thieves Take Tires, Oil Worth $300

### Service Station At Yelverton Opened, Robbed

Thieves early today broke into the service station of George Heaslip in Yelverton and escaped with cash and merchandise, valued at $300 in all. Yelverton is 20 miles southwest of Peterborough.

A window at the rear of the building was forced and the thieves looted the storeroom of 10 new tires, a number of cans of oil, and a quantity of cigarettes.

Fifteen dollars in silver was taken from the till.

The breakin was discovered early today by Mr. Heaslip when he went to open up. O.P.P. Constable A. S. Watson of Bowmanville is investigating.

## Five Injured In Minor Mishaps

Several people with minor injuries were given outpatient treatment at Civic Hospital over the weekend.

Arthur Turner, 25, of 604 George St., had a length of pipe fall on the large toe of his left foot.

Jack Sargent, 17, of R.R. 1, Ida, cut one of his fingers with a meat slicer.

Mrs. Shirley Varty, 23, of 158 Dublin St., burnt her left shoulder and scalp Sunday noon when she let a coffee pot fall.

Harry Friedman, 61, of Rochester received treatment Sunday afternoon for a cut on his left foot. He slipped while walking on a rock.

Robert Montgomery, 70, of 244 Lansdowne St. suffered a torn fingernail and a cut on the right hand as the result of a fall Sunday afternoon.

**CARS COLLIDE**

Nobody was injured but there was $185 property damage Saturday when two northbound cars collided on Highway 28 at the Millbrook turn. A 1928 model car, driven by Raymond Challice, 27, of Cavan township, slowed down to make the turn and another car, driven by Mrs. Anne Murphy of New Toronto, crashed into the rear. Damage to the old-model car was $10 and to the 1947-model, $175. O.P.P. Constable George Louth investigated.

WESTERN OILS UP—Toronto stock prices, as reflected by the exchange's indices, traded within a narrow range for the first half of the year. Industrials and base metals fell slightly from early levels while western oils gained, largely on the strength of spring speculation. Golds were generally inactive.

PAPERS DECLINED — Montreal paper and utility stocks showed relatively little change on the exchange's averages. Papers declined irregularly in the early part of the year until bolstered by a $10-a-ton price increase for export newsprint.

# Canadian Stock Markets Show Decided 2-Way Split

By DICK BAIDEN
Canadian Press Staff Writer

Major Canadian stock markets showed a decided two-way split during the first half of 1952.

Exchanges in Toronto and Montreal recorded a ragged but moderate decline for investment groups such as industrials and papers, and an equally irregular advance for more speculative groups such as base metals and western oils.

Toronto exchange indices showed industrials down 23 points, golds up five points, base metals up nine points and western oils up 13 points for the six months. Montreal averages recorded a half-point gain for banks while utilities lost one point, industrials 24 points, combined issues 16 points, papers 71

Cautious, selective trading characterized most market activity. Western oil issues dominated Toronto dealings as spring drilling reports and pipeline developments attracted national interest. Oil finds in British Columbia opened new fields for speculative enterprise.

**CLIMB STEADILY**

Base metals climbed steadily for the first part of the year but a slowdown in United States stockpiling and generally easier market conditions, notably in lead and zinc, caused a slight retreat from January highs. Prices, however, recovered slightly in later trading. The somewhat clouded rearmament and Korean pictures, observers said, kept many investors out of the market.

Golds received little relief from the pressure of high operating costs and fixed bullion prices. The rise in value of the Canadian dollar to a premium on United States currency aggravated the situation, particularly for marginal producers. The government's policy, under agreement with the International Monetary Fund, of paying a cost-aid bonus in addition to the regular price of $35 an ounce in U.S. funds was not sufficient for several smaller companies to maintain profits.

A combination of poorer first-quarter reports and an apparent reversal of the country's inflationary trend caused some investors to decrease common stock industrial holdings. Although possibility of a serious deflation was largely discounted, the drop in Canada's wholesale price index, followed by two consecutive declines in the cost-of-living index, were, traders said, factors to consider.

Paper stocks fell early in the year under the pressure of mounting production costs and decreased revenue, due again, in part, to the premium on Canadian money. A $10-a-ton price increase for export newsprint, effective July 1, however, buoyed prices for a firm June advance.

Looking ahead, professional observers saw the market's generally narrow movements continuing throughout the year. A gradual advance, barring radical international developments, was seen by some as a result of recent strength on the New York market. Toronto brokers said the coming November Presidential election complicated the picture but they were encouraged by the steady relaxing of U.S. controls.

# Marilyn Monroe Upholds French Bathing Suit

By BOB THOMAS

HOLLYWOOD (CP) — The French bathing suit, which has been denounced by many glamor girls, today was upheld by Marilyn Monroe.

If there's anyone I'd like to see uphold a Bikini, it's Marilyn Monroe, but that's another matter. The point is that this is the season when women are shopping for bathing suits. Ever since they made an appearance on these shores, the French briefies have been lashed by beauty experts and film stars.

For instance, I once sampled opinions in Hollywood and got answers like these:

Esther Williams—"Bikinis are not flattering and they're impractical; you can't swim in them."

Janet Leigh—"I like low-cut evening gowns, but the nudity of French bathing suits isn't attractive."

Betty Grable—"If the French girls want to show their navels, it's all right with me. I'll stick to American swim suits."

**VERY PRACTICAL**

But now the Bikini acquires a champion in Marilyn. Of course, it's possible that she is merely anti-clothes. She's the girl who posed for those calendars in nothing more than a smile.

"I like my Bikini," she insisted. "They're very comfortable. And they're very practical for sunbathing. I think you should expose as much area to the sun as possible. As a matter of fact, I think nude sunbathing is the best of all. But, of course, that's usually pretty hard to arrange.

"The doctor advised me to get a lot of rest and nude sun baths after the operation for my appendix. Luckily, I have an eclosed porch at the Bel-Air Hotel so I can do that."

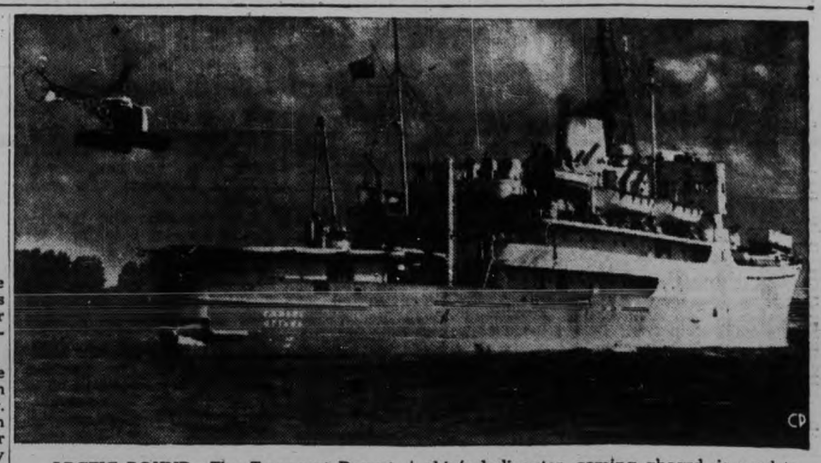
I asked her if she had any trouble from helicopters while sunbathing.

"No, not from helicopters," she remarked cryptically.

"I don't know why you can't swim in Bikini," she commented in reply to Esther Williams. "If the suit is fastened properly before you go into the water, nothing should go wrong. At least I've never had any trouble with mine."

What advice would she give a woman going out to buy a suit?

"I'd advise to stay clear of those suits with stays and bones built into them. I think those artificial devices give a woman worse lines which are worse than she has. I'm in favor of giving the body its natural lines."



ARCTIC BOUND—The Transport Department's C.D. Howe sails from Montreal on her 110-day, 12,000-mile tour of Arctic waters carrying supplies for northern outposts. The ship's helicopter, coming aboard, is used to locate paths through the ice fields and carry administrative officials to and from northern communities.

## West Sportsman Dies

PRINCE ALBERT, Sask. (CP)—William Fabius (Bill) Lea, 63, well-known sportsman and commercial traveller of Lethbridge, died here Saturday. Mr. Lea played for Regina Roughriders, and helped organize the original junior Regina Pats hockey club. He was a hockey scout for the original Seattle "Mets" and later for Boston Bruins and Chicago Black Hawks.

# Father Of Triplets Has Fame Ruined By Legal Wife

NEW YORK (AP)—An abashed father of new triplets told police Sunday that he isn't married to their mother at all—and is still legally married to another woman.

Police said the admission came from Salvatore Scarnati, 27, after a Brooklyn woman said that he was her husband and the father of her 4-year-old daughter.

Scarnati, a garage attendant, had won the usual acclaim after the triplet girls were born on Friday to Helen Scarnati, 28.

As he left hospital after a visit with the babies and their mother, a detective stopped him and took him to the police station.

There he met Mrs. Mary Cosaluzzi Scarnati and daughter.

Mrs. Scarnati told officers that she and Scarnati were married in 1947 and separated in 1950.

Police said the district attorney's office told Mrs. Scarnati it will not act against the new father.

She was told she could apply for a summons charging him with adultery as a msidemeanor.

## ChristianBusinessmen Elect New Officers

PORT CARLING (CP)—Some 400 delegates from 27 Eastern Canadian cities attended the 10th annual conference of Christian business men's committees in this Muskoka resort town Saturday.

Officers elected included: Edward L. Clemm, Toronto, chairman; Carl B. Murray, Stratford, secretary; Roy Carnegie, Kingston, treasurer.

Elected to the executive board: Sidney Heley, Pembroke; Richard Farnsworth, Guelph and Leslie G. Teakle, Woodstock.

**LONG MOVING JOB**

It has been estimated that 25,000 years were required for Niagara Falls to move to its present precipice 14 miles from the Niagara River mouth.

# Health Keynote Of W.I. Meeting

TRENT RIVER (ENS). — The June meeting of the Trent River Branch of the Women's Institute was held in the Community Hall on Thursday afternoon. Health was the topic and Mrs. Ernest Vaness was acting hostess. There were 19 members present.

Mrs. Harry Mann, president, was in the chair.

The members decided not to make a quilt for exhibit at Norwood Fair.

An electric rangette and a number of card tables are to be purchased for the hall.

Cards of thanks were received from Mrs. Harold Thompson and Mrs. Ella Hay for fruit and cards received during illness.

Mrs. Steve Deline, district director, gave a detailed report of district annual which was held in Norwood recently.

Members decided to purchase 30 Associated Country Women of the World hostess pins to be worn by members until the A.C.W.W. rally to be held in Toronto next summer.

Mrs. Frank Openshaw gave a splendid paper on "Are Your Feet Killing You?" Two facts she emphasized were first: Have your shoes well fitted and then stick to that make of shoe. Second: To ease tired feet, especially in the heat of summer. change your shoes four or five times a day.

Mrs. Howard McKeown, convener presented the following program: readings were given by Mrs. Robert Morrison, Mrs. Walter Lewis, Mrs. Thomas Brown, Mrs. George Alley.

The birthday prize was won by Mrs. Francis Ruttan. Mrs. George Alley won the wedding anniversary prize and Mrs. Ernest Vaness was winner of the spelling bee.

A salad plate lunch was served by the hostess, assisted by Mrs. Rhoda Campney, Mrs. Jack Henry and Mrs. W. C. Inkster.

SUN LIFE OF CANADA

FREAK HAILSTORM—Two Ontario Agriculture department employees join hands through shattered frames in a greenhouse damaged when a freak hailstorm pounded the town of Kemptille, 32 miles south of Ottawa. Estimates of damages to the town and surrounding area ranged from $100,000 to $500,000. Some of the hailstones were as large as baseballs. The greenhouse at the Kemptville Agricultural college lost 1,700 panes of glass.

# The Most Powerful Gasoline Your Car Can Use!

Get Activated!

Today's more powerful engines require a highly complex gasoline to deliver their full power. There can be as many as 1500 different chemical compounds in a gallon of gasoline.

To select the best of these chemicals, and to arrange them properly to fulfill the needs of *your car* calls for the last word in refinery equipment and scientific skill.

It is Shell's manufacturing policy to make "The most powerful gasoline your car can use." Shell activates gasoline by splitting and rearranging petroleum molecules.

The result—Shell Premium—the most powerful gasoline your car can use. See the Shell Dealer in your neighborhood.

## Peacock-Pulice Nuptials

HAVELOCK (ENS) — A wedding of local interest was solemnized recently at the Calvary Lutheran Church at Mack and Gatehead Avenues, Detroit, Michigan, when Miss Mary J. Pulice, of Detroit, and formerly of West Virginia, became the bride of Jack Peacock, of Detroit, formerly of Cordova Mines and Toronto, and son of Mr. and Mrs. C. W. Peacock, of Cordova Mines.

The soloist was Mrs. Joyce Fulkerson, who sang "The Lord's Prayer" and "Because."

The bride wore a pink nylon ballerina dress and an orchid corsage. The couple were attended by Mr. and Mrs. Merle Miller, of St. Clair. Mrs. Miller wore a slate blue lace dress and a corsage of roses. A reception was held at the home of Mrs. William E. Miller, sister of the groom.

The bride and groom will live at 9115 Kercheval, Detroit. Mr. Peacock is employed as a salesman by the "Jersey Farm Bakeries" and Mrs. Peacock is employed by the Employers' Liability Assurance Corporation in the accounting department. Mr. and Mrs. C. W. Peacock, of Cordova Mines, Mr. and Mrs. Charles Jones, of Havelock, and Mr. and Mrs. Norman Peacock, of St. Clair, were among the out of town guests who attended the wedding.

## Elizabeth Slattery Wed At Sacred Heart

Sacred Heart Church was the scene of the pretty wedding Saturday morning at nine o'clock when Elizabeth Marie, daughter of Mr. and Mrs. Thomas Slattery, became the bride of William Joseph Ambrose Heffernan, son of Mrs. Marie Heffernan and the late William Heffernan of Douro. The Rt Rev. Monsignor P. P. Butler performed the ceremony before a floral setting of sweet peas and roses with ferns.

Mr. Herbert Michel played the wedding music and Mr. Anthony De Noble sang "On This Day", "Ave Maria" and other hymns during the mass.

Given in marriage by her father, the bride chose a gown of Chantilly lace with bouffant skirt of tulle over white satin. The lace jacket had long sleeves and the collar was finished with tiny seed pearls. A floor length veil of imported net with floral embroidery fell from a tiny tiara of forget-me-nots. She carried a cascade bouquet of red roses.

Maid of honor, Miss Teresa Sullivan, was gowned in mauve taffeta, mauve mittens and a cap of mauve lace over taffeta. The bridesmaid, Miss Margaret Hayes, wore a similar shade of mauve, long matching mittens and a headdress of mauve net. Both attendants carried large nosegays of roses, sweet peas and white carnations. Two tiny flower girls, Teresa and Bernadette Maloney, nieces of the groom, looked sweet in floor-length frocks of pink satin and pink mittens and they wore crowns of pink roses. Each carried a nosegay of roses and sweet peas

Groomsman was Mr. Fred Heffernan, brother of the groom and the ushers were Vincent Angelessy and Leo Heffernan.

Dinner was served at the Empress Hotel where the bride's mother received wearing a navy dress with pale blue accessories. She wore a corsage of yellow roses. The groom's mother also received wearing a dress of navy sheer, navy and white picture hat and white accessories and her corsage was of red roses.

After a reception at the bride's home, the couple left on a trip to the southern states. The bride was travelling in a powder blue suit, a navy and white hat and white accessories. She wore a corsage of pink rosebuds. Mr. and Mrs. Heffernan will live in Douro.

## Evening Wedding Held At St. James

The marriage of Margaret Eva Doreen, daughter of Mr. and Mrs. Cyril H. McMillan, to John Edgar Barry Nahrgang, son of Mr. and Mrs. Joseph Dubord-Clairmont, took place at six o'clock last Friday evening in St. James United Church with the Rev. Heuston D. McCormack officiating.

Given in marriage by her father the bride was gowned in white lace with skirt of satin with inserted lace panels down the front and extending to the tip of the train. A full length veil of net illusion fell from her tiara of seed pearls and rhinestones and she carried a bouquet of red roses.

Mrs. Donald Bell was the matron of honor, gowned in lilac lace and net over taffeta, and Miss Joan McMillan, sister of the bride, was junior bridesmaid, wearing a pale yellow taffeta, frock trimmed with net. Each wore matching mittens and matching bandeaux of flowers and they carried bouquets of mauve sweet peas and yellow roses.

The groom's attendant was Donald Bell and the ushers were Fred Ash and Wayne Johnson.

Wedding music was played by Mrs. Charles Renaud, organist, and Mrs. Leslie McLaren sang "Because" during the signing of the register..

The reception following was in the Empress Kawartha Room. The bride's mother was wearing mauve lace with a white straw hat and her corsage was soft pink roses and mauve sweet peas. The groom's mother wore navy and white and had a red rose corsage with white sweet peas.

Leaving on a wedding trip to Niagara Falls and United States the bride wore a white summer suit and navy accessories and had a corsage of red and white roses. On return the couple will live on Reid St.

MR. AND MRS. WM. J. A. HEFFERNAN, the bride formerly Elizabeth Marie Slattery. —Duke Studio Photo

SEEN AT THE RECEPTION following their marriage Saturday morning are Mr. and Mrs. Harold Killen, the bride formerly Miss Margaret McIlmoyle.—(W. H. Staffen photo.)

## Killen-McIlmoyle Wedding

St. Peter's Cathedral was the scene of a double-ring wedding ceremony Saturday morning at nine o'clock when Margaret Anne, daughter of Mr. and Mrs. John McI lmoyle, was united in marriage to Harold Killen, son of Mr. and Mrs. John J. Killen, all of Peterborough.

The ceremony and nuptial mass was performed by the Rev. R. Garvey. The church was decorated with blue snapdragons. Mr. Robert Baldwin sang and Mrs. R. G. Aman was the organist.

The bride, given in marriage by her brother, Mr. Russell McIlmoyle, was wearing a white gown with strapless bodice and bouffant skirt and a matching jacket of Chantilly lace with a Queen Anne collar and finger-tip sleeves. A pearl-encrusted coronet held her fingertip veil and she carried a cascade of red roses.

Maid-of-honor was the groom's sister, Miss Regina Killen, who was in a strapless, ankle-length gown of yellow taffeta with tiers of lige-green nylon marquisette and wore a matching stole. The Bridesmaids were Miss Joan Graham and Miss Betty Godfrey, similarly attired in pink gowns with tiers of mauve nylon marquisette and matching stoles. They carried nosegays or carnations and yellow roses.

Groomsman was Jerry McGillis. Ushers were Eugene Killen and Shell McIlmoyle.

The reception was held at Club Aragon with the bride's mother receiving in a dress of mauve with mauve and white accessories and wearing a corsage of pink roses. She was assisted by the groom's mother, who was attired in turquoise blue with pink and white accessories, and wearing a corsage of pink roses.

For travelling the bride wore a lime-green dress with white accessories. After a trip west and to the States, the couple will live at 71 Aylmer St.

**TEPEE MAKING**

Old Indian teepees were made of buffalo skins, while wigwams were covered with the bark of trees.

## Helen Weatherup Bride Of F. Wannamaker

CAMPBELLFORD (ENS)—The United Church Parsonage in Warkworth was scene of a pretty wedding Saturday afternoon, when Helen Weatherup, daughter of Mrs. Weatherup and the late William Weatherup, of Norham, became the bride of Frank Wannamaker, son of Mr. and Mrs. A. H. Wannamaker, of Carrying place. The Rev. H. G. Lester performed the ceremony.

The bride wore a street length white gown with a net shoulder veil and flowered headdress. She carried a bouquet of red roses. Bridesmaid was her sister, Miss Margaret Weatherup, who was frocked in pink and carried a nosegay of sweet peas and pink roses. Groomsman was Russell Wannamaker, brother of the groom.

A reception was held at the bride's home, where her mother received in a navy sheer dress and wore a corsage.

The couple left for a wedding trip to various points, and for travelling the bride wore a blue nylon dress with white accessories. They will live at Carrying Place.

## Millbridge Girl Married In Marmora Church

MARMORA (ENS)—St. Paul's Anglican Church was the scene of a pretty wedding at 2 p.m. on Saturday when Rev. T. Harvey Good, rector of Madoc united in marriage Velma Ethel Armstrong, daughter of Mr. Cecil J. Armstrong and the late Mrs. Armstrong of Millbridge to Laveryne Leonard Carman son of Mr. and Mrs. Charles Carman of Belleville.

The church was decorated with peonies, baby's breath and ferns.

Wedding music was played by the organist Mrs. L. R. Rundle who also sang "Through the Years" during the signing of the register.

Given in marriage by her father the bride was attired in white lace over satin with nylon net skirt, long sleeves, and fitted bodice, finger-tip veil of nylon net trimmed with chantilly lace. She carried a bouquet of pink roses tied with white ribbon.

Her headdress of lace net was in crown shape caught with orange blossoms.

Mrs. W. D. Lavender of Marmora, aunt of the bride, was matron of honor, wearing rose colored taffeta, headdress in sweetheart style and carrying a bouquet of blue carnations tied with rose ribbon.

Miss Velma Carman of Belleville, sister of the groom and Miss Anne Lavender of Marmora, cousin of the bride were the bridesmaids who were similarly dressed in blue and mauve brocaded satin with nylon net capes and overskirts with matching sweetheart hats. They carried pink and yellow carnations with matching ribbons.

Miss Darlene Armstrong of Toronto, cousin of the bride, as flower girl wore yellow organdy and sweetheart hat to match and a nosegay of mixed flowers. All dresses of the attendants were of floor length.

Charles Thompson of Eldorado was best man. The ushers were Gordon Armstrong, brother of the bride, and Elwood Carman, brother of the groom.

Following the ceremony, a reception was held in St. Paul's Parish Hall with catering by a group of St. Paul's Ladies' Guild.

The bride's aunt, Mrs. Manley Lavender of Marmora, who received, wore a gown of blue organdy with white accessories and hat of natural straw. She wore a corsage of American Beauty roses. Assisting her was the groom's mother, who wore a gown of mauve nylon with white straw hat and corsage of yellow roses.

The bride and groom later left on a trip to the Thousand Islands and Niagara Falls. On their return they will live at Eldorado.

## Russell-Jackson

The marriage of Lois Lorraine, daughter of Mr. and Mrs. W.C. Jackson, to Frederick G. Russel, son of Mr. and Mrs. Frederick R. Russell, all of Peterborough, took place in St. Andrew's United Church at seven o'clock last Thursday evening. The Rev. Henry Cotton officiated.

Given in marriage by her father the bride was wearing ice blue nylon sheer over blue taffeta and a hat of blue net. She carried a bouquet of white gardenias. Miss Marilyn Jackson attended her sister, similarly gowned in mauve with a hat of white net trimmed with flowers. Her bouquet was of yellow roses and white and mauve sweet peas.

Groomsman was John Burns and Gordon Henderson and Jack Chapman ushered.

A reception was held afterwards at the Club Aragon with the bride's mother receiving, dressed in pale green and wearing a pink straw hat and corsage of pink carnations. Also the groom's mother, who wore grey crepe and grey accessories, and had a corsage of pink sweetheart roses.

For going away afterward, the bride donned a teal blue suit and white accessories and she had a corsage of pink Sweetheart roses. After honeymooning at Lake Chemong, the young couple will live at 278 Brock St.

## Honor Teachers

MARMORA (ENS) — Mrs. W. M. Regan was hostess at her home or Wednesday evening at a party honoring the two teachers who are leaving the Marmora Public School staff this year—Mrs. Frank Hannah and Miss Georgina Cole. The latter expects to go to South Africa. In addition to the local teachers present Mrs. J. M. Brownlie and Miss M. Savage were guests.

Tea was poured by Mrs. E. Manchester of the Marmora public school staff.

MR. AND MRS. FRANK WANNMAKER are shown signing the register, following their wedding Saturday afternoon in Warkworth. The bride is the former Helen Weatherup.—(W. W. Reid photo.)

MR. DONALD ARMSTRONG looks on as his bride, the former Miss Helen Warner, signs the marriage register of St. Paul's Church. —Choate Studio Photo

# Camellia White Lace Gown Chosen By Helen Warner

Lovely in a gown of camellia white Chantilly lace over satin, Helen Margaret Warner exchanged wedding vows with Donald Maxwell Armstrong on Saturday afternoon in St. Paul's Presbyterian Church.

The Rev. C. G. Boyd officiated in the ceremony, uniting in marriage the youngest daughter of Mr. and Mrs. William G. Warner of Hastings, and the son of Mr. and Mrs. Edward H. Armstrong, of Peterborough.

The wedding took place in a setting of gladioli, snapdragons and white roses trimmed with tulle. Music was played by Mr. Christopher Gledhill and Mrs. J. M. Ritchie, of Warkworth, sang "The Lord's Prayer" before the bride entered the church and "Because" during the signing of the register.

The bride was given in marriage by her father. Her gown was designed with a Queen Anne collar and the bodice was fastened at the back, fitting tightly to the waist with skirt falling softly over a padded hipline into a short train. The sleeves were long with petal points over her hands. Her fingertip veil was of French illusion and caught to a pearl-beaded tiara and she carried a cascade of gardenia and stephanotis.

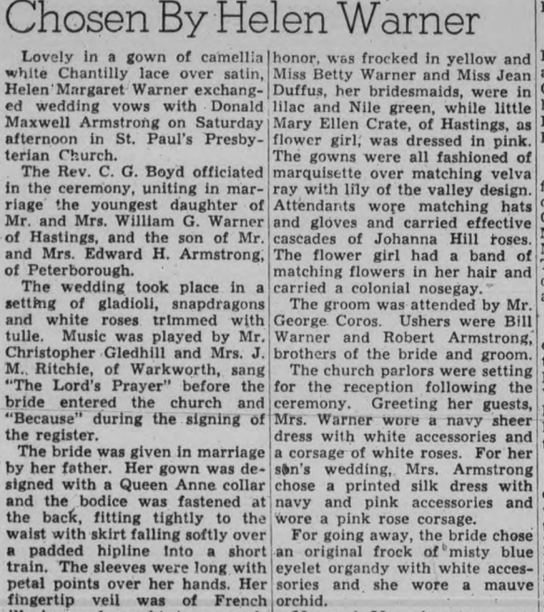
Miss Doris Lee, her maid of honor, was frocked in yellow and Miss Betty Warner and Miss Jean Duffus, her bridesmaids, were in lilac and Nile green, while little Mary Ellen Crate, of Hastings, as flower girl, was dressed in pink. The gowns were all fashioned of marquisette over matching velvaray with lily of the valley design. Attendants wore matching hats and gloves and carried effective cascades of Johanna Hill roses. The flower girl had a band of matching flowers in her hair and carried a colonial nosegay.

The groom was attended by Mr. George Coros. Ushers were Bill Warner and Robert Armstrong, brothers of the bride and groom.

The church parlors were setting for the reception following the ceremony. Greeting her guests, Mrs. Warner wore a navy sheer dress with white accessories and a corsage of white roses. For her son's wedding, Mrs. Armstrong chose a printed silk dress with navy and pink accessories and wore a pink rose corsage.

For going away, the bride chose an original frock of misty blue eyelet organdy with white accessories and she wore a mauve orchid.

Mr. and Mrs. Armstrong are spending their honeymoon in the Haliburton Highlands and on their return will live at 60 McDonnel St.



DR. THOMAS J. KANE and the former Miss Isabel Carey were principals in a lovely wedding Saturday at St. Peter's Cathedral. —Roy Studio Photo

# Isabel Carey Weds Doctor Will Live In Fort William

At the altar of St. Peter's Cathedral at ten o'clock Saturday morning, the nuptial vows of Isabel Mary Carey and Dr. Thomas Joseph Kane were pledged before the Rev. John J. Hickey who also said the nuptial mass.

The bride is daughter of Mrs. Helen Carey, of Peterborough, and the late Mr. J. Harry Carey, and she was given in marriage by her brother, A.B.A.C.I. James W. Carey, of the R.C.N.

She wore a bouffant gown of frost white Alencon lace and foaming net. The moulded strapless lace topped a very full skirt of the net. Tiny cut-out flowers of lace were appliqued in shower effect over the skirt, a waist-length fitted jacket of lace with long, moulded sleeves and a pointed stand-up collar completed her ensemble. Her fingertip veil of French tulle fell from a Juliet cap of Alencon lace and she carried a cascade bouquet of white gardenias and stephanotis.

Maid of honor was Miss Catherine Arbour and bridesmaid was Miss Ann Hart, both of Toronto. They were frocked in delphinium blue stiffened, embroidered Swiss organdie over white taffeta. The dresses were ankle length with bouffant skirts and had strapless, moulded bodices topped by waist-length capes of matching material. Taffeta belts were of deeper delphinium blue and they had matching linen slippers. Each wore a wide-brimmed, crownless hat of transparent delphinium blue trimmed with a spray of violets on the brim and they carried cascades of Linda Lou 'mums.

The groom, who is son of Mrs. Adeline Kane, of Stratford, and the late Thomas J. Kane, was attended by Dr. Joseph Meehan, of Toronto. Ushers were his cousins, John Duggan and Jack Prout, of Stratford.

The church was decorated with blue delphiniums and sweet peas. The organ was played by Mrs. R. G. Aman and Miss Helen Hajnik was soloist, singing Schubert's "Ave Maria" during the signing of the register and also "Panis Angelicus" and "On This Day."

The reception was held in the Kawartha Room at the Empress Hotel. The bride's mother was wearing a gown of June sky blue huck-a-back linen and a white sailor hat of French straw as she received her guests. She also wore a corsage of sweet peas. The groom's mother was gowned in navy sheer and wore a navy straw hat and a corsage of garnet roses. She assisted Mrs. Carey.

Dr. and Mrs. Kane left afterward to spend their honeymoon in Northern Ontario. The bride wore a white surah silk dress with flock dots of navy blue over a crinoline petticoat and a full-length, princess style coat of navy taffeta. Her accessories were white and she had a corsage of white gardenias.

They will make their home in Fort William.

Mr. and Mrs. J. A. McKone, 377 Downie St., attended the Business Educators' Association convention held at Fern Cottage Resort, Lake Couchiching, Thursday, Friday and Saturday last.

Friends of Mrs. Aaron Mann of Bridgenorth will be sorry to hear she is seriously ill at her home.

✧ ✧ ✧

Mr. and Mrs. Harrison Christopher and son Jack of Toronto arrived over the weekend to spend the summer months at their cottage, "Bridgeview", on Chemong Lake.

✧ ✧ ✧

FO. Ralph Heard, stationed at Ht. Hubert's, Quebec, is home spending the weekend with his parents, Mr. and Mrs. George Heard of Bridgenorth. Also visiting with the Heard family is Ron Warnock of Guelph.

✧ ✧ ✧

Mrs. J. S. Curtis of 13 Benson Ave., has returned home after being in Toronto to attend the funeral of her father, Mr. Walter Dean, which took place on Friday.

✧ ✧ ✧

Mr. and Mrs. Alf Miller and Miss Marion Macfarlane of Belleville were Sunday visitors with Mr. and Mrs. H. T. Mather, at "Elm Lodge Cottage," Bridgenorth.

✧ ✧ ✧

Mr. and Mrs. Wm. B. Ball and sons Richie and Robbie of Iroquois Falls have been holidaying for a few days with his parents, Lt.-Col. and Mrs. W. Gordon Hall, 88 London St.

✧ ✧ ✧

Friends of Mrs. Max Hutchinsons of Bridgenorth will be sorry to hear that she was called home on Saturday due to the critical illness of her mother, Mrs. Harriet Gent of Harrietsville, near London.

✧ ✧ ✧

Guests of Mr. and Mrs. Fred Elcombe, R.R. 3, Peterborough are Miss Carol Quirk, and Mr. Greer Elcombe of Toronto, for the holiday weekend, and Miss Laurie Fisher and Master James Fisher of Rockcliffe for the summer months.

✧ ✧ ✧

Those entertaining pre-nuptially for Miss Alma Stewart at a miscellaneous shower were: Mrs. C. Crouter, Mrs. K. Stewart and Mrs. M. J. Murray Sr., Miss Beverley Martyn, Mrs. G. Silvester and Mrs. T. Buckley. The manager and staff of Stedman's presented Miss Stewart with a beautiful lamp.

✧ ✧ ✧

Showers in honor of Miss Dorothy Gould were held pre-nuptially by Miss Adel Rostocky and Miss Lorraine Crawford, Mrs. William Boyce, Mrs. Howard Frise, Mrs. J. Stevenson and Miss Margaret Stevenson, the latter entertaining at their summer home.

✧ ✧ ✧

About 30 relatives were gathered together Sunday afternoon when Mr. and Mrs. Harry T. Mather entertained for their nephew Mr. Lloyd Stark and his fiancee, Miss Dorothy Leslie, at a shore supper by their cottage on Lake Chemong. The guests were all members of the Mather family.

✧ ✧ ✧

Before leaving Toronto to be married Miss Isabel Crary was given a shower of gifts when Misses Catherine Arbour and Ann Hart were hostesses to friends. In Peterborough she was entertained at a shower by Mrs. J. A. McBride, King St., and at a dinner by Mrs. Dennis Sullivan, Downie St., and Mrs. Cookson Munro, George St. entertained at afternoon team in her honor.

✧ ✧ ✧

During the weekend many of the members of the junior ornamental swimmers and their parents enjoyed an afternoon's picnic at the summer cottage of Mrs. Roy Crary at Bridgenorth. Mrs. Pansy Forbes, coach of the senior and junior ornamental swimmers was present. Games, swimming and boat rides were enjoyed and refreshments were served in the form of a weiner roast.

✧ ✧ ✧

Ann Marie Knox, infant daughter of Mr. and Mrs. Kenneth Knox was christened Sunday morning at Grace United Church by the Rev. E. W. Rowland. A number of friends were entertained at tea later in the day at the parent's home, Monaghan Road. The babies paternal grandmother, Mrs. R. H. Knox presided over the tea table which was centred with a bouquet of pink roses and tall pink tapers.

✧ ✧ ✧

Those from out of the city attending the McLeod-Gould wedding on Saturday were Mr. and Mrs. L. A. Gould of Stayner, Mr. and Mrs. Clifford Wagg of Uxbridge, Mr. and Mrs. James Scott of Oshawa, Miss Dorcas Edwards, Mr. and Mrs. George Post, Miss Ann Post, Mr. and Mrs. Douglas MacQueen, Mr. and Mrs. Victor Scott, all of Toronto, Mr. and Mrs. James Size of Windsor, Mrs. Howard Shackleton of Chatham, Mr. James Collins of Conniston.

✧ ✧ ✧

Prout, Miss Helen Prout, Miss Jean and Mr. John Duggan, all of Stratford; Miss Ina and Mr. Horace Commission, Miss Margaret Hughes, Miss Janet Graham, Mrs. A. Lawrence, Miss Anna Marie Hogan, Miss Patricia Robertson, Miss Patricia Shea, Dr. Joseph Meehan, Dr. E. O'Brien, all of Toronto; Dr. and Mrs. A. N. Down, and Miss Catherine McGinnis of London; Mrs. Hart and Mr. Jack Hart of Colborne; Dr. and Mrs. D. Steppe of Sudbury; Misses Catherine and Helen Luke of Oshawa; and ABACI James W. Carey, R.C.N. of Shearwater, Dartmouth, N.S.

MR. AND MRS. ALEXANDER McLEOD, the bride formerly Miss Dorothy Gould, were married Saturday afternoon at Murray Street Baptist Church. —Choate Studio Photo

# McLeod-Gould Nuptials In Lovely Church Setting

Tall standards of pink and white peonies and palms made a charming setting for the wedding of Dorothy Alice Gould to Mr. Alexander David McLeod as it was performed by the Rev. Ivan C. Morgan on Saturday afternoon in the Murray St. Baptist Church. The bride is the daughter of Mr. and Mrs. Lawrence H. Gould of Peterborough and the groom is son of Mrs. James Scott of Oshawa.

Wedding music was played by the church organist, Mr. Stanley Northrop, and during the signing of the register Mr. Melvin Curtis sang "Through the Years".

The bride's gown was of white brocaded satin and it had lily pointed sleeves and a slight train. Embroidered net veiling fell to fingertip length from her cap of the satin trimmed with seed pearls and she carried a bouquet of red Bettertime roses. She was given in marriage by her father.

Miss Adele Rostocky was her maid of honor and she wore a gown of champagne taffeta with matching net overskirt. Bridesmaids were Miss Marilynn Wagg of Uxbridge and the bride's cousins, Margaret and Elizabeth Lowry. They were frocked alike in pale green taffeta with net overskirts in the same shade. Hats of taffeta and net gloves to match each of the frocks were worn and the attendants' bouquets were of pale cream Lester Hibbard roses.

Groomsman was Mr. Alastair Fettes and the ushers were George Phillips, Bill Carruthers and Leon Patton.

Guests were received following the ceremony in the church parlors. The bride's mother wore for this occasion a gown of navy triple sheer and a matching straw hat with white flower trim and she had a corsage of pink carnations. The groom's mother chose grey nylon and black accessories and she also wore pink carnations.

Mrs. McLeod changed to a navy gabardine suit with which she wore a white straw hat and white accessories for travelling to the United States on their wedding trip. Her corsage when going away was a white orchid.

The couple will live at 209 London St. on return.

CUTTING THEIR WEDDING CAKE are Mr. and Mrs. Harold M. Collins, the bride the former Miss June Freeman. They were married Saturday at Elim Tabernacle. —Parks Studio Photo

# Four Attend June Freeman Bride Of Harold M. Collins

The marriage took place in Elim Tabernacle on Saturday of Gloria June, only daughter of Mr. and Mrs. Harold G. Freeman to Harold Milton Collins, son of Mr. and Mrs. Charles W. Collins, all of Peterborough.

The Rev. B. G. Evans officiated and was assisted by the Rev. F. C. Poole of Philadelphia, Pennsylvania. The church was beautifully decorated with palms and ferns and standards of orange blossoms and canterbury bells.

Miss Barbara Johns presided at the organ. Before the ceremony Miss Barbara Poole, of Montreal, sang "Today O Lord." During the signing of the register she sang "A Wedding Prayer."

The bride, who was given in marriage by her father, was lovely in a gown of her own design. The blush satin bodice was fashioned with a shirred panel of imported lace over satin, and edged with tiny scallops which continued from the waist to the floor. The side skirt panels, which were scalloped and edged with seed pearls, fell gracefully into a sweeping train. Tiny covered buttons fastened the bodice in the back and the long fitted sleeves came to points over her hands. She wore a sapphire and pearl pendant and her long veil of blush silk tulle was shirred to a little cap of matching lace over satin, edged with satin petals and seed pearls. She carried a crescent bouquet of Johanna Hill roses and trailing ivy.

As maid of honor Miss Marion Parks was gowned in orchid embossed nylon marquisette over taffeta. The fitted bodice was fashioned with a wide neckline and the drop shoulders were accented by small draped sleeves, and a side sash of taffeta formed a large bow at the back of the full skirt. Her small hat was of matching material. Miss Faith Collins, sister of the groom, and Miss Clare Tyler of Toronto, wore identical gowns in yellow, and pastel blue. The three attendants carried natural straw baskets filled with multicolored daisies and ivy.

Sharron Bush, cousin of the bride, was a charming flower girl in her gown of pastel green nylon marquisette over taffeta. The gown was similar to the bridesmaids with its fitted bodice, puff sleeves and gathered skirt. A sash of taffeta tied in a bow at the back. She carried a small basket of multicolored daisies and fern.

Mr. Gordon Parks, cousin of the groom, was groomsman and the Rev. Willard Day and Mr. Glen Reynolds were ushers.

The reception was held at the Peterborough Lawn Bowling Club where the bride's mother received, wearing a redingote of champagne imported lace over satin with navy accessories. She wore a corsage of pink Pinnocchio roses and blue forget-me-nots. The groom's mother who also received, wore a gown of pastel blue crepe, fashioned with a bodice of matching lace and she had matching accessories and a similar corsage.

Later the bride and groom left for a trip to Northern Ontario. For travelling the bride wore a white linen suit with navy accessories and a corsage of deep pink roses.

Mr. and Mrs. Collins will live at 592 Charlotte Street.

## Personals and Social

Mr. and Mrs. Joe O'Donnell, Parkhill Rd., have left for a short visit with Mr. O'Donnell's sister in Highland, Indiana.

✧ ✧ ✧

Mr. J. Harlyn Coons, son of Mr. and Mrs. Nelson Coons, of R.R. No. 1, Lakefield, has successfully completed his course for Class A mechanic at the Provincial Institute of Trades in Toronto.

✧ ✧ ✧

Guests from a distance attending the Armstrong-Warner wedding on Saturday were the Rev. and Mrs. J. M. Ritchie of Warkworth; Mr. and Mrs. Herbert Weese of Bath; Mr. and Mrs. Donald Warner of Warkworth; Mr. and Mrs. F. Crate of Hastings; Mr. Robert Murdock of Lindsay; Mr. and Mrs. Cliff Armstrong of Kitchener; Mr. and Mrs. Emile Armstrong of Ajax and Mr. and Mrs. Reese Powell of Victoria, B.C.

✧ ✧ ✧

All Saints' Women's Church Year meeting was held on Thursday with president Mrs. J. Morley presiding. Scripture was read by Mrs. A. Lacey. It was decided to hold the August meeting on Mrs. G. Millen's lawn. Brian Dunford sang "Bless This House" and "O Perfect Love," and Mrs. Percy Hooper played a violin solo. Mrs. H. Hartle accompanied both at the piano. A special missionary meeting is being planned for the fall. Refreshments were served by Mrs. R. Viscoff and her group.

✧ ✧ ✧

Mrs. Donald Armstrong, formerly Helen Margaret Warner, was entertained before her marriage by her office associates of A. Wander Ltd. with a miscellaneous shower at the Y.W.C.A. Miss Doris Lee, who was her maid of honor, was hostess at her home on Wilson Ave. for a miscellaneous shower. Asociates of the Wander Social Club presented her with a combination sandwich toaster and waffle iron. The office staff also made a presentation of a charteuse chenille bed spread and a piece of crystal. Mr. Donald Armstrong was presented with a tri-light lamp by the office employees of Canadian Sealright Co. Ltd.

✧ ✧ ✧

Guests from out-of-town at the Collins-Freeman wedding on Saturday were: the Rev. and Mrs. F. C. Poole, John and Peter Poole of Philadelphia, Penn.; Mr. and Mrs. William Mason, Mr. A. Chapman, Miss Evelyn Chapman, Mr. and Mrs. E. Bush of Colborne; Mr. and Mrs. Glen Howell of Oshawa; Miss Niva Bust of Beaverton; Mr. and Mrs. H. Gough of Belleville; Mr. and Mrs. G. Glover, Miss Clare Tyler, Mr. G. Evans, Miss Wilda Burndt, Miss Muriel Nicholson, Mr. and Mrs. W. Collins, Mr. and Mrs. R. Smith, all of Toronto; Mr. and Mrs. A. Fallis of Millbrook; Miss Barbara Poole of Montreal; Mr. and Mrs. R. Redden of Norwood.

✧ ✧ ✧

On the afternoon and evening of last Wednesday Mrs. F. T. Stewart of 584 Gilchrist St. entertained on the lawn of her home at a trousseau tea for her daughter, Miss Alma May Stewart. Wedding gifts were shown by Miss Jean Stewart, the bride's trousseau by Mrs. Leo Collins and shower gifts by Miss Marlene O'Brien. During the afternoon the bride's aunt, Mrs. K. Stewart, poured tea and servers were Misses June Collins, Phyllis Edwards and Doris Sayer. In the evening Mrs. M. J. Murray Sr., poured tea and the servers were Misses Shirley Crouter and Evelyn Brooks, Mrs. G. Silvester and Mrs. Gerald Crouter. The door attendant was Miss Margaret Stewart, cousin of the bride. Overseeing kitchen arrangements in the afternoon was Mrs. C. Crouter and in the evening, Mrs. K. Stewart.

✧ ✧ ✧

*Entertain Trophy Winners*

May's Home and School executive members entertained the boys' ball team who this year won the trophy, last Thursday afternoon. Tables in the kindergarten room were centred with bouquets of sweet william and the silver cup was on the head table. The boys and the teachers were served strawberry shortcake and cold drinks. Mr. G. Ball, principal, and coach of the team, spoke briefly to the boys, saying "the important thing is not to win the trophy but to learn to play the game and that is what counts all through life." Jerry Parks ably expressed appreciation to the hostesses. President Mrs. A. Downer convened the refreshments, assisted by Mrs. O. Weese, Mrs. J. Vogelsang and Mrs. R. Armour.

✧ ✧ ✧

*S.S. Teacher Picnic Hostess*

On Saturday Miss Ida Whimsett was hostess to a delightful picnic held at Cobourg for her Sunday school class and All Saints junior choir. Lunch was served when the girls arrived at the park after an exciting bus trip. A gift was presented then to Miss Whimsett. During the afternoon most of the girls went shopping, although some stayed at the beach. At four o'clock races were held and a lively baseball game was followed by a delicious supper. Those attending were: Barbara Mouck, Faye Blackwell, Lenore Gray, Marion Everett, Jean Hughey, Patsy Hughey, Marion Bertok, Eileen Wilson, Donna Goodson, Annabelle Morley, Eileen Hall, Norma Harvey, Pat Wagar, Pat Weaver, Irene Williams, Catherine Reid, Eleanor Storey, Doris Rose, Judy McBane, Dorothy Dyer, Marlene Dyer.

✧ ✧ ✧

*4 Generations Each Side Attend*

BRIDGENORTH—(ENS)—Sunday afternoon, Susan Mary, four months old daughter of Mr. and Mrs. Ken Underhill of Bridgenorth was christened in St. John's Anglican Church at Lakefield with the Rev. L. J. Delaney officiating. Susan wore a christening dress worn by her mother 27 years ago in England and purchased in France at that time.

Four generations were present of both Mr. and Mrs. Underhill's families. Of Mrs. Underhill's family, Mrs. Amy Sheldon, great grandmother was present, also grandmother Mrs. Clarence (Peter) Homer, both of Bridgenorth. Of Mr. Underhill's family were great grandfather, Mr. George Bear, grandparents, Mr. and Mrs. W. C. Underhill, all of Toronto. Other relatives and friends present were Mr. and Mrs. William Bear and daughter, Beverley of Oshawa, Mr. and Mrs. D. Devry, Mr. and Mrs. Harry Harby and Mr. and Mrs. E. W. Greenslade and daughters, Venera and Donna, all of Toronto.

Following the christening service a buffet luncheon was served at the home in Bridgenorth by Mrs. Underhill. A special cake for the occasion was decorated by Mrs. Harby with a small cradle and baby adorning the top, all made in pink icing and pink rosebuds circling the cradle.

LEAVING ST. JOHN'S CHURCH after their wedding Saturday noon are LAC Alexander Tosh, R.C.A.F., and his wife the former Miss Alma May Stewart. —Roy Studio Photo

# A. Stewart Weds LAC Tosh Take Trip To New England

A lovely double ring wedding ceremony took place in St. John's Anglican Church at 12 o'clock noon on Saturday as Alma May, daughter of Mr. and Mrs. F. T. Stewart of Peterborough, was united in marriage to LAC Alexander Fraser Tosh, of RCAF Station at Trenton, the son of Mr. J. C. Tosh of Hamilton and the late Mrs. Tosh. Ven. Archdeacon W. P. Robertson performed the ceremony.

Candles were at the altar and a lovely background was formed with white gladioli and bridal wreath. Baskets of blue delphiniums and pink Canterbury bells decorated the chancel steps, banked with ferns and palms.

Music was played by Mrs. F. G. Mann. During the signing of the register Mr. Victor Coleman sang "O Perfect Love."

The bride was beautifully gowned in neige white shadow lace and net. The lace basque featured a deep portrait neckline accented with circles of soutache braid and pearls and a sheer yoke also trimmed with pearls. A net edge lace peplum extended about the hipline, ending in a fish-tail back, and the gathered skirt fell in stiff bouffant folds and extended into a long train. Her full, train-length veil was of French silk illusion enhanced at the edges with very fine embroidery. Adorning her head was a sheer, Juliet cap covered with tiny hand-sewn seed pearls and she carried a shower bouquet of garnet rosettes, stephanotis and baby's breath, centred with white heather sent from Scotland by the groom's grandmother.

She was given in marriage by her father and attended by her sister Miss Jeanne Stewart as maid of honor. Mrs. Leo Collins and Miss Beverley Martyn were bridesmaids and Miss Margaret Stewart was the flower girl.

The attendants' frocks of nylon brocade and net with matching capes were in yellow, mauve and green and they wore matching bonnet shaped headdresses of silk tulle and carried fans of mauve sweet peas and pink carnations. The flower girl, who is a cousin of the bride, wore white brocaded satin with a yellow sash and headdress of yellow mohair and she carried a wicker basket filled with sweet peas.

The groomsman was Mr. Carl Taylor of Hamilton and the ushers were Robert Brooks of Peterborough and LAC J. W. Moore of RCAF, Trenton.

The reception was at the Club Aragon where the bride's mother received her guests, gowned in navy crepe and lace with pink accessories and wearing a corsage of pink roses. The groom's aunt, Mrs. W. Milne of Hamilton, also received, wearing mauve marquisette with white accessories and a corsage of white roses.

Later the bride and groom left on their wedding trip to Ottawa, Montreal and the New England States. For travelling Mrs. Tosh wore a chartreuse dress with matching hat and shoes and white purse and gloves and she had on a corsage of pink carnations.

The couple will live in Belleville.

Mrs. George Bowine, Mrs. Gordon Stackhouse, Mrs. Russell Thompson, Mrs. Rork Ferguson, Mrs. David Hall, Mrs. Jack Cronin, Mrs. Roy Brown, Mrs. Donald Paxton, Mrs. Larry Obee, Mrs. Arthur Bitten Mrs. Mark Bailey, Mrs. Robert Girven, Mrs. William Baker, Mrs. S. S. Breckon, Mrs. Joe Clements, Mrs. William Roberts, Mrs. Jack Stewart, Mrs. A. R. Atkinson, Mrs. Kenneth Pakenham, Mrs. William Garden Jr., Mrs. R. H. Gardiner, Misses Winnifrde Turnbull, Pauline Weir, Lila Kirk, Clara Jenkins, Gloria Gardner.

Those who sent gifts but were unable to attend: Mrs. Melville Andrews, Mrs. Kenneth Thompson, Mrs. Thomas Haddlesey, Mrs. Bernard Jackson, Mrs. J. H. Caskey, Mrs. A. Czempinskie, Miss Florence Brockies and Miss Chum Lane.

# Lorna Breckon Given Shower

NORWOOD (ENS) —Mrs. Russel Gardner was hostess at her home for a surprise shower in honor of Miss Lorna Breckon whose marriage to Ian MacFee Rogers takes place Saturday July 5, in the Morgan Memorial Chapel, Queen's University, Kingston.

During the evening musical contests were held after which the bride-to-be opened her gifts.

Lunch was served by the hostess. Those present were. Mrs. James Dallman, Mrs. W. J Donevan, Mrs. Bruce Davidson, Mrs. Arthur Townsend, Mrs. William Shearer, Mrs. Harold K. Wright,

**Every child has a gift**

If you judge your child on school marks alone, you may overlook the really great gifts he has, says "unorthodox" teacher Hughes Mearns in July Reader's Digest.

He tells how, for example, a budding inventor may be so absorbed in daydreaming that he neglects studies; how a born leader, retiring nearly to the point of "dumbness" in class, may show his initiative on the baseball diamond.

Learn how to discover *your* child's hidden talents.

Get your July Reader's Digest today: 38 articles of lasting interest, condensed from leading magazines, current books.

ANYONE FOR TENNIS?—If so, what kind of figure do you cut on the courts? Well-covered but dowdy? There's no need to look that way. The newest fashions for the tennis court provide the right cover-up coupled with adequate cut for freedom of action. Our model (left) demonstrates this actively in a blouse of linen-weave rayon. This is cut sleeveless and has extra-long shirttails that will stay tucked in no matter how you twist, bend or stretch. The collar is neatly convertible. Worn with it are shorts that are smoothly tailored and cuffed, terminating at exactly the right length. The whole affair is cinched at the waist by a wide, elasticized belt equipped with a coin purse. If fishing's your dish, there's a rainbow-striped blouse (right) to wear while you angle. In white cotton broadcloth, it has oversized patch pockets that will hold flies or bent pins. Both blouses are in the budget class.

## Of Interest to Women

DOROTHY DIX

# Should Girl Leave Mother For Better Job Far Away?

DEAR MISS DIX: A very good position has been offered me, several hundred miles from home. Although I have a good job here, conditions are changing and the outlook is not too promising. I have until the fall to make up my mind about this other job, which would give me time to work things out at home.

I would have no hesitancy in making up my mind to leave here if it were not for my mother. Although she is 72, she is apparently in good health and does not need any care. She is very self-sufficient and active mentally. She is independent, clever, a fine conversationalist.

Her only fault is that she wants to direct my every move. She makes my plans, waits on me hand and foot, in short, lives her own life over through me. She seems completely unaware of the fact that she leaves me practically no privacy, and little opportunity to think for myself. I know she would be very lonely with no one to fuss over, yet I feel I would be much freer away.

There are five other members of the family, but I don't know if mother would enjoy visiting from one to another. Of course, she would always keep her own home; I can see to that. It is even possible, with her deep sense of independence, that she would enjoy being by herself for a while. I am so puzzled that any help you can give on solving my problem for the future will be greatly appreciated. A.R.

✧ ✧ ✧

ANSWER: Instead of mulling all these possibilities over in your own mind, why not just take them to mother and give her a fair chance of setting you straight? Of course, this is again putting you in the position of letting mother make, or help you make, a decision, but since she is a woman of such fine intelligence, her help is not to be disregarded. Besides, I really think you don't mind her fussing as much as you think. Almost everyone likes attention, especially from those we love. Your present dissatisfaction seems to stem more from difficulties in your job than from troubles at home.

**EXPLAIN IT TO HER**

Explain it to your mother that business problems make your job precarious at the moment, that you have this splendid opportunity away from home, and would like to try it for six months or a year. Your practical mother will undoubtedly realize the problem and agree that the change is worth trying. Since she has friends, and her own interests, she will probably be able to fill her time quite adequately while you are trying out the new work. If you like the new surroundings, she might be interested in moving with you—after you have had your trial period alone. You'll be very happy to have her, mark my words.

You are fortunate, indeed, to have a mother in good health, and with the ability to creat a pleasant life for herself outside your own activities. If she seems to invade your privacy more than is to your liking, perhaps a hint to the effect that you'd like to be a little more to yourself would correct this particular situation.

You are both very dependent on each other—and, while in general this creates a bad situation, your particular case sems to lack the emotional disturbances that make many mother-daughter relationships actually unhealthy. You are in the rare group that manages a fairly sensible compromise. A year's separation is all either one of you would enjoy; after that you'll be glad to set up housekeeping together again.

✧ ✧ ✧

DEAR MISS DIX: When a boy calls to take me out on a date, is it proper for me to invite him in to meet my parents, or should I wait until he has taken me out five or six times?

Also, if I ask a boy to a dance at school, do I pay for the tickets? STELLA.

✧ ✧ ✧

ANSWER: By all means invite your date in to meet the folks. They are anxious to see what sort of boy you are going out with, and he is curious to see what your parents are like. When he gets home, his own mother and father will make inquiries regarding both you and your family. Which is as it should be.

When you ask a boy to a dance at your school, you are supposed to buy the tickets. All other expenses of the evening are his.

THE 'STRINGBEAN LOOK'— Out with the crinolines and in with the 'stringbeans' seems to be the first declaration of fall fashions. (left) a carbon green flannel suit. Jacket has back looseness gathered by a strap-back belt. (right) A true stringbean is in bold wood plaid. High V-neck skirt has burst of back fullness, while slim skirt has deep centre back pleat for ease in walking.

## 18 Canadians Join Troupe For Summer Show

TORONTO (CP)—Eighteen Canadians have become Melody Fair troupers for the summer.

For the next three months these singers and dancers will perform in musical comedies beneath the big blue tent now standing in the centre of Dufferin racetrack. Executive producer Leighton Brill of Hollywood and New York says the Canadians are as good as any he has seen. At least two, Kathryn Albertson of Winnipeg and Doris Swan of Toronto, will star with ranking United States singers imported principally from New York.

This is the second season for the Toronto outdoor theatre which last year kept the west-end racetrack alive with people during off-track months. It is known as "theatre-in-the-round" because the audience sits beneath the tent on tiered seats—1,640 of them—surrounding a circular stage.

Nobody connected with Melody Fair can talk in anything but superlatives. Its promoters modestly describe it as the biggest theatre of its kind in North America. Advance ticket sales total $30,000.

Alexander Gray, Montreal, and Sydney Melville, Galt., are expected to have leading roles in some of the productions.

Canadian dancers include: Joy Dunning, Judy Kuhns, both of Ottawa, and Anette DesBrisay, Kingston.

Canadian singers include: Marjorie Glazie, Windsor, Ont., and Glenn Gardiner, Merlin, Ont.

Melody Fair will open the week of June 23 with a production of "The Merry Widow" with Irra Petina, Robert Shafer and Lois Hunt of the Metropolitan Opera in the leading roles.

**HEALTHY GROWTH**

Campaigns against famine and plague have tripled the population of French Morocco to about 9,000,000 persons in recent years.

MARY MOORE SAYS:

# Chocolate Velvet Parfait Tops Ice Cream Menu

Last Tuesday I gave you the recipe for making Fresh Strawberry Ice Cream, and mentioned that I thought it was second only to Chocolate Parfait.

This Chocolate Parfait is one that your friend Mary worked on for days and days for a cookbook that was in the making. Now while I blush to boast I will repeat the comment of the manufacturer for whom this work was done: "Mary, I never liked ice cream until I tasted your Chocolate Parfait. I've even learned to make it myself in our new refrigerator." And my sister, who is so critical of fine food that even Rector doesn't impress her much, said "Em, no combination of flavors could be finer."

Here it is then, kids—for free. It made some shekels for me. But who cares about money?

**CHOCOLATE VELVET PARFAIT**

Two squares unsweetened chocolate; 1 tablespoon butter, 2/3 cup light corn syrup, 2 well-beaten egg yolks, ½ pint whipping cream, shake of salt, 1½ teaspoons en vanilla. Heat together in top of double boiler the chocolate, butter and corn syrup and stir to blend. Pour these slowly over the beaten egg yolks, and stir over hot water for 2 minutes. Cool. Beat the cream until stiff. Add to the cooled chocolatte mixture with a folding motion. Stir in salt and vanilla. Freeze in freezing tray without stirring.

NOTE: If chocolate and egg mixture hardens—which they will if left over hot water too long—add 2 tablespoons boiling water and stir before folding in cream.

The next little offering on the agenda today is quickly and easily made.

**CITRUS SHERBET**

One and ½ cups sugar, 2 cups of top or rich milk, and 2 cups blended canned orange and grapefruit juice. Mix together sugar and juices until sugar is dissolved. Slowly add rich milk and stir until mixed. Pour into freezing trays and fast freeze until quite firm. Remove from tray into cold bowl and break up the chunks with a spoon, then beat with rotary or electric beater until perfectly smooth. Return to trays to freeze again, without further beating. This is a specialty of a managing editor I know and highly recommended by him for Sunday night's supper.

Some of you old-timers and regulars will remember my friend, Mrs. Bigger. Ginger Ice Cream is a specialty of their charming household.

**GINGER ICE CREAM**

One-third cup of Canton preserved ginger plus a little juice, one-third cup water, ½ teaspoon gelatin, one-third cup sugar, yolks 3 eggs, 1 tablespoon cold water, 1 pint heavy cream. Cook together the ginger, water and sugar to 230 deg. Fahr. (You must have a thermometer for this.) Pour this mixture slowly over the beaten egg yolks and cook in double boiler until thick—about 3 minutes. Soak the gelatin in the cold water 5 minutes, then stir it into the hot mixture, after removing it from the heat. Cool. Whip the cream unti stiff and fold the cooked and cooled mixture into it. Pour into tray of refrigerator and freeze without stirring.

If you would like to see more frozen desserts in this column write to me in care of this paper. If you would like return mail please enclose self-addressed envelope.

## Warkworth News

Mrs. Chas. Walker and Mrs. O. Pubbs have returned to Toronto after visiting with their sister, Mrs. Lewis Denike.

The Rev. H. J. Fitzgerald of St. Jerome's Roman Catholic Church here arrived home from a tour of Europe on Wednesday.

Miss Maribeth Miller has returned to her home in Belleville after visiting Mr. and Mrs. Rowland Edwards.

Mr. and Mrs. Robt. Edgar and son visited her parents, Mr. and Mrs. Kory Zuefelt in Beeton for a few days.

Mrs. D. Merrill has returned home from Civic Hospital in Peterborough where she underwent an operation.

Miss Marie Foster of Demorestville is visiting her grandmother, Mrs. L. Denike, for a few weeks.

Mr. and Mrs. Cecil Gumner and Janis and Mr. and Mrs. Elton Hutchinson visited with Mr. and Mrs. Fred Smith in Queensville.

W.O.2 Austin Huycke and Mrs. Huycke and son of Weston are visiting their parents, Mr. and Mrs. Fred Huycke and Mrs. P. Edwards.

Mrs. Lloyd Prince and two children and her sister Miss Donna Timmins of Oshawa last week visted their uncle and aunt, Mr. and Mrs. H. E. Pratt.

Mr. and Mrs. Clifford Minor and daughters of Toronto have returned home after visiting his sister and her husband, Mr. and Mrs. G. B. Porter.

A strawberry festival was held at the Morganston United Church Wednesday evening.

**TELEPHONE PROGRESS**

Canada in 1951 had 1,811,194 dial telephones, and 1,105,898 telephones of the manual switchboard type.

## Women Get Weary Of Monopolies Other Sex Holds

NEW YORK (AP)—The women of the world—some of them anyhow—are getting sick and tired of these masculine monopolies.

They maintain it's high time that women get in there, and start throwing their weight, er. . . influence, around.

If something isn't done to cut out this anti-woman discrimination, they claim, the world is liable to get in worse shape than it's already in, which is pretty bad.

Defenders of the female faith from 19 countries including Canada were here today to champion their cause.

One thing that rankled some of the 300 delegates at the meeting of the International Federation of Business and Professional Women was the way male professional politicians control the naming of candidates.

Women don't like to associate with these stag denizens of the smoke-filled room, said Margaret P. Hundman, a Canadian corporation lawyer, but it's a female duty to get in the candidate-picking act.

Men might botch up the whole democratic process, she said, adding:

"To vote on voting day is not enough. That may only mean taking the lesser of two or three unworthy candidates, and such an election is as useless and as much of a hoax as a Nazi or Communist election."

DOUGLAS—Mr. and Mrs. Douglas (nee Norma Ganti) wish to announce the birth of a son, June 28, 1952, at Civic Hospital.

LANG—Mr. and Mrs. Donald Lang, Fraserville, Ont., wish to announce the birth of a daughter, at Peterborough Civic Hospital, June 26, 1952.

MANZER—Mr. and Mrs. D. G. Manzer wish to announce the birth of a son, David John, on June 28, 1952, at Peterborough Civic Hospital.

MARSHALL — Barbara and Warren Marshall (nee Deyell) are happy to announce the arrival of a son Philip Thomas, at Peterborough Civic Hospital on Saturday, June 28, 1952.

### 2—Engagements

Mr. and Mrs. Daniel Robinson of Madoc wish to announce the engagement of their daughter, Norma Evelyn, to John Allen, son of Mr. and Mrs. Allen Lewis of Campbellford. Wedding to take place July 26, 1952, Rural Route Madoc Union United Church.

Mr. and Mrs. Charles E. Trudeau, of Peterborough, wish to announce the engagement of their daughter, Pauline Therese, to William Harold, son of Mr. and Mrs. Alfred J. Hudson, Lakefield. Wedding to take place quietly Saturday, July 19, 1952.

Mr. and Mrs. Russell Riches wish to announce the engagement of their youngest daughter, Doris June, to Alfred Herbert Curtis, son of Mrs. W. J. Sweeney and the late Arthur Wesley Curtis. The wedding will take place July 26, at 2:30 p.m., St. James' United Church.

### 5—Deaths

DOUPE, Frederic L.—In Dayton, Ohio, Saturday, June 28th, 1952, Frederic L. Doupe, formerly of Peterborough, beloved husband of Frances Brawley. Brother of Mrs. Floyd Curtis (Amy) and Mrs. Gertrude Kavanaugh, both of Peterborough. (Arangements by Frank Lynett Funeral Home, Toronto.)

DURRAN, Violet Jane—Suddenly, on Sunday evening, June 29, 1952, Violet Jane Durran, sister of Dr. James Durran of Galt, Ont. Resting at the family residence, Percy township. Funeral services from residence Tuesday, July 1 at 2:30 p.m. Interment Mount Pleasant Cemetery, Campbellford. Toronto and Galt papers please copy.

### 6—In Memoriam

FORD—In loving memory of Wesley Ford, who passed away July 1, 1942.
Your last parting wish
We would like to have heard,
An breathe in your ear
Our last parting word,
Only those who have lost
Are able to tell
The pain in the heart
At not saying farewell.
—Always remembered by his wife and family.

MATHEWS—In loving memory of our dear mother, Mrs. Herbert Mathews, who passed away June 29, 1941.
The world may change from year to yea
And friends from day to day,
But never will the one I loved
From memory pass away.
—Always remembered by her daughter Florence.

MEIN—In loving memory of Mrs. George Mein, who passed away June 29, 1941.
In our hearts your memory lingers,
Sweetly tender, fond and true.
There is not a day, dear mother,
That we do not think of you.
—Ever remembered by sons and daughters.

RIDDELL—In loving memory of my dear husband, Fred Riddell, who passed away June 30, 1950.
Only a memory of bygone days
And a sigh for a face unseen,
But a constant feeling that God alone,
Knows just what should have been.
—Ever remembered by his wife Ethel.

WOOD—In loving memory of Melville V. Wood, who passed away June 29, 1950.
We often sit and think of him when we are all alone,
For memory is the only friend that grief can call its own.
Like ivy on the withered oak, when all other things decay,
Our love for him will still keep green and never fade away.
—Ever remembered by brothers Maurice, Roy and families.

# Wants National Holidays Kept Differently

HAMILTON (CP)—The tendency to have Canada's national "holy days" turned into mere recreational week-ends was rapped yesterday in a Dominion Day sermon by the Ven. Archdeacon W. F. Wallace, rector of the Church of the Ascension. Canada's national days, of which Dominion Day was one, were mementoes of national faith. He felt they should not be set aside in favor of the present move for Monday holidays as a means of extending the week-end.

The archdeacon said the problem facing Canada today was whether she would continue to follow British traditions and culture, or develop a culture of her own. If the latter, then what pattern should be followed?

He pointed out that the present influences in Canada were the British, French and United States cultures, with additional influences exerted by people of other nations coming here to settle. He declared his personal hope that British culture would remain predominant, despite present attempts to weaken and submerge its influence.

# Wife Declares Claim Ridiculous

OTTAWA (CP)—Mrs. Lillian Davies said today the charges of passport fraud against her husband, Raymond Arthur Davies, are "false and ridiculous."

The Toronto brunette, accompanied by her 5½-year-old son, Robert, appeared in magistrate's court offices to post $1,000 bond for the Montreal writer remanded one week on the charge of making a "false and misleading" statement to obtain a Canadian passport.

Mrs. Davies, in an interview, said she and her husband had lived "quite respectable lives" in Montreal for years. They had an apartment in the Notre Dame de Grace district. A 15-year-old daughter, was in Toronto.

Though Davies, born Rudolf Shohan, is known as a writer of books and magazine articles, Mrs. Davies said he "has not written anything for years."

"He has been making a living exporting newsprint."

She had no knowledge of his association with the Communist party in Canada, though police information here was that he had been affiliated with the Communist youth organization and the Labor-Progressive party for some 15 years.

# Backed Into Car Driver Fined $20

Clayton B. Eason of Water St. N. was today found guilty of careless driving and he was fined $20 and $11 costs by Magistrate W. R. Philp, Q.C.

Evidence indicated that just at dusk on April 26 Eason backed his car up on Ware St. and struck a car that was parked off the travelled portion of the road on a grass boulevard.

Crown Attorney John Bradshaw, Q.C. asked for something more than the ordinary penalty.

Magistrate Philp agreed.

"The degree of negligence was very much beyond the minimum accepted by this court as constituting careless driving," he said.

**FAST CLIP**

Two Crown witnesses—Sherwood Martin of 587 Division St., and Ernest Boles of 52 Ware St.—said that Martin's car was off the travelled portion of the road and that Eason backed into it at a speed estimated at 25 miles an hour. Martin was the owner of the car that was damaged by Eason.

Both men said Eason was unsteady on his feet and Martin swore that Eason was drunk. The accused man admitted he had been drinking, Martin said.

Eason made no comment about the allegations of drunkenness and said he was backing up his car to park in front of a house on Ware St. He said he didn't notice Martin's car on the boulevard.

## Testimonial Dinner

LOS ANGELES (AP)—Actress Judy Garland was acclaimed last night as "Miss Show Business" at a testimonial dinner given in her honor by the Friars Club, actors' fraternal organization.

# Bus Workers Plan Strike At Buffalo

BUFFALO, N. Y. (CP)—Employees of a bus line serving Buffalo, Niagara Falls and suburbs—an area of more than 1,000,000 people—are scheduled to strike at midnight tonight.

Officers of the Niagara Frontier Transit Corporation and the union were due to hold a last-minute conference with Mayor Joseph Murk today but neither side was hopeful the strike would be averted.

If the bus-line employees strike tonight thousands of office and factory workers will be left without transportation tomorrow.

Workers in this industrial area have begun arranging car pools and police are preparing to set up emergency details to handle the heavy downtown traffic which will result from a strike.

There are no city-operated parking lots in downtown Buffalo and private lots normally are jammed with cars of regular customers.

Niagara Falls has no municipal parking lots and is faced with similar problems.

The Amalgamated Association of Street, Electric Railway and Motor Coach Employees (A. F. L.), representing 1,750 drivers and mechanics, has asked an immediate 14-cent hourly wage boost and reduction of the work week from 48 to 44 hours, with provision for a 40-hour week in 1953. Basic pay scale now is $1.58.

The company says it has offered a four-cent increase now, another six cents with a 44-hour week as soon as schedules could be changed and six cents more with the 40-hour week a year from now

# Turk Family Holds Reunion

COLDSPRINGS (ENS) — The reunion of the Turk family was held on Saturday afternoon at the Coldsprings Park. There were 43 present. Supper was served in the basement of the Coldsprings hall after which races were held. Results were as follows:

Four years and under — Gary Lisle, Carol Willis, Wayne Turk.

Boys and girls under eight — Yinda Turk, Leslie Lisle.

Boys under 10—Elwood Lisle, Ray Turk.

Girls 14 and under — Marlene Turk.

Boys 14 and under—Carl Turk, Aylmer Turk.

Young ladies race — Lorene Timlin, Corinne Lisle.

Shoe scramble — Wayne Lisle, Carl Turk.

Three-legged race — Aylmer Turk and Elwood Lisle, Wayne Lisle and Carl Turk.

Married women's race — Mrs. Clifford Timlin, Mrs. Everett Turk.

Married men's race—Reginald Willis, Reginald Turk.

Spot race—Mrs. Bert Turk.

Ladies' nail driving — Mrs. Everett Turk.

Bean guessing — Donna Doidge.

Kim's game — Robert Turk, Wayne Lisle.

Biscuit race—Reg Willis, Clifton Turk.

A prize given to the oldest person present went to Thos. Turk, and to the youngest, Carol Willis.

It was voted to have next year's picnic on the last Saturday in June at Coldpsrings with the same executive in charge.

Those attending were: Mr. and Mrs. Ernest Turk, Lakefield; Mr. Cephas Turk, Mr. and Mrs. Reg Turk, Adele, Carl and Aylmer, Castleton; Mrs. William Eakins, Mrs. Bert Turk, Mr. and Mrs. Frank Birney, Centreton; Mr. and Mrs. Jack Lisle, Joyce, Corinne, Wayne, Elwood, Leslie, Gary and Jim Brown, Brighton; Mr. and Mrs. Willard Turk and Robert, Eddystone; Mr. and Mrs. Roy Doidge and Donna, Mr. and Mrs. Clifton Turk, Cobourg; Mr. Thos. Turk, Mr. and Mrs. Everett Turk, Marlene, Ray, Linda and Warren; Mr. and Mrs. Reg Willis and Carol, Mr. and Mrs. C. Timlin, Lorene and Ewart, Coldsprings.

# Take 35 U.K. Seamen Off Wrecked Freighter

MOGADISCIO, Somaliland,—(Reuters) —An Italian military rescue party Sunday reached 35 men of the wrecked British freighter Mavis Hill on the stormy coast of Italian Somaliland and is bringing them back to Mogadiscio.

The 7,142-ton ship, wrecked in the monsoon three days ago, is reported to be in dancerous position with little hope of salvage.

Reports reaching here say that the master of the Mavis Hill and the radio operator are still on board her.

## Fed Up With Heat

RICHMOND, Va. (AP)—Ernest Carnefix, 50, got so fed up with Richmond's heat wave yesterday that he flung himself out a window of his home. The fall was only from the first floor, but Carnefix was taken to a hospital with a broken knee. His only explanation: "That heat wave just made me so durned mad." The mercury topped 95 degrees here for the eighth straight day.

## New Russ Propaganda

MOSCOW (AP)—Pravda, the Communist party newspaper, today cited American failure to consult in advance with Britain on the bombing of the Yalu River power plants as new evidence of a tendency in U. S. "ruling circles" to ignore their "English partner."

# Plan Military Funeral For Drowning Victim

LONDON, Ont. (CP)—A military funeral is being arranged by Army headquarters here for a Guelph soldier who drowned in the Red River near Winnipeg on June 21.

The body of Pte. F. Gowlette of the Royal Canadian Army Service Corps will arrive at Guelph on July 2 for burial.

Men of the 11th Field Regiment, R.C.A., of Guelph, will form the escort and firing party.

# Canadian Pilot Unhappy Over Publicity

By ALAN HARVEY

LONDON (CP)—Canadian-born W. A. (Bill) Waterton, who risked his life in a crash landing aboard Britain's newest and most powerful jet fighter, basked today in the limelight he detests.

For Sqdn. Ldr. Waterton, a native of Edmonton who grew up in Camrose, Alta., eschews heroics. In a recent, reluctant reply to a letter requesting an interview, Waterton pleaded that his name be kept free of "sensationalism and the extrovert superlatives of some sections of the press."

Waterton is chief test pilot of Britain's supersonic Flying Triangle, the Gloster G.A.5. On a trial spin yesterday, he took the jet up from Moreton Valence airfield, near his home in Gloucester, to try out its new elevators.

**RISKED CRASH**

Something went wrong. But instead of baling out, Waterton nursed the plane down, risked a crash and saved flight details recorded in a camera log. Part of the plane burned out but Waterton was unhurt.

A Gloster official said Waterton did a "wonderful job."

"He could have baled out but he stayed to save the recording instruments," the official said. "Now we have a cine-film record of the flight."

The Gloster G.A.5, known as the Flying Triangle, is the chief hope of Britain's future air defences for these islands. Its twin jets are believed capable of providing a top speed of more than 760 miles an hour. Three weeks ago the Air Ministry gave super-priority to production of the delta-winged craft.

Present British defences are provided largely by Vampire jets. For the first time in history, the R.A.F. finds its forces qualitatively inferior to those of the R.C.A.F., which has a fighter wing at North Luffenham, Rutland, flying the F86 Sabre jet.

**MUST WAIT A WHILE**

It will probably be at least four years before the Glosters are produced in quantity.

Waterton, cautious as ever, says merely that the G.A.5 has a performance "which promises to be markedly beyond the standard of current plank and swept-wing fighters."

# Piano Dedicated At Centenary Church

ROSENEATH (ENS).—The annual decoration service was held at Centenary cemetery on Sunday afternoon with a service in the church and the new piano was dedicated.

Rev. R. C. White was in charge of the service with a mixed choir in charge of the service of song, assisted by a male quartet, Messrs. Louis Dowler, Louis Roberts, Alvin Kelly and Melville Macklin who contributed two numbers: "Leaning On the Everlasting Arms" and "Beautiful Threads of Gold" Mrs. Louis Roberts playing the piano accompaniment for the quartet and Miss Lois Arthur was pianist for the service of song.

The church was filled to capacity with many persons unable to get inside.

Included among those from a distance were: Mr. and Mrs. William May, Belleville; Mr. and Mrs. Larry Cole, Newcastle; Mr. and Mrs. Herb Baxter, Norwood; Mr. and Mrs. Harold Sherwin and family, Mr. and Mrs. Earl Brown and family, Warkworth; Mr. and Mrs. Irvin Greenly, Norham; Mr. and Mrs. Henry Prettie and family, Centreton; Mr. and Mrs. William Arnold, Gores Landing; Mr. and Mrs. Willis Dowler, Wicklow; Mr. and Mrs. Louis Dowler, Port Hope; Mr. and Mrs. Leslie Jibb, Coldsprings; Mr. and Mrs. William Mouncey, Mr. and Mrs. Frank Mouncey and son, Mr. and Mrs. Harry Mouncey, Mr. and Mrs. Ernest Timlin, Mr. and Mrs. Jack Pacey, Cobourg; Mr. and Mrs. Marcus Radley, Campbellford; Mr. and Mrs. Jack Allen, Warkworth; Mr. and Mrs. Keith Halstead, Bewdley; Mrs. Maude Carter, Peterborough; Mr. Elias Sherwin, Mr. and Mrs. Earl Sherwin, Mr. and Mrs. Frank Shearer, Mr. and Mrs. Ephis Linton, Harwood; Mr. and Mrs. George Isaac and family, Harwood; Mr. and Mrs. Lloyd West, Grafton; Mr. and Mrs. Percy Arthur and family, Trenton, as well as many from Fenella and Roseneath.

## More Anti-Semitism

LONDON (Reuters)—Anti-semitism is on the increase today in many of the 90 countries which have Jewish communities, Dr. Noah Barou, European executive chairman of the World Jewish Congress, told the organization's European conference here yesterday. He said it is fostered in these countries by local reactionary forces supported by Nazi and Fascist groups which had found refuge in some of them.

# Won't Force Reporter Testify

MONTREAL (CP)—The Crown has decided not to insist on the appearance in court of a Montreal reporter who declined to testify in a gambling case on the ground that it would violate the freedom of the press.

Marcel Thivierge, reporter for the newspaper Le Devoir, was called as a witness Friday but, on instructions from his superiors, did not appear. Recorder Damase Cote ruled that he must appear to testify "like anyone else."

However, Gerard Filion, director of Le Devoir, said yesterday he has been advised that the Crown will not insist on the appearance of Mr. Thivierge in the case, which involves gambling charges against the Ramsay Club, Inc.

The club was raided by police June 15, one day after the newspaper published an unsigned story concerning the operations of the establishment.

SEA QUEENS MEET IN NEW YORK—The maritime prides of three nations are found docked side by side in New York's North River in this rare airview. The giant vessels are: (front to rear) the Queen Mary, England's largest ship of 1031 feet; the Liberte, France's biggest at 936 feet, and the United States, America's newest and largest at 990 feet.

# Finnish Blonde 'Miss Universe'

LONG BEACH, Calif. (AP)—A golden blonde from Finland, 18-year-old Armi Helena Kuusela, captured the Miss Universe crown yesterday, defeating lovely competitors from 29 other lands.

The poised daughter of a Finnish sausage manufacturer outcharmed the best of east and west in a hectic four-hour contest.

The winner is one of Finland's official greeters for the Olympic Games next month.

Miss Hawaii, Elsa Kanaionapua Edsman, 19, of Honolulu, was placed second by the board of 10 judges.

Canada's entry was Ruth Carrier, 21, a brunette, 117-pound, Toronto model who won the title of Miss Toronto of 1951. She did not place.

The Miss Universe award includes a seven-year motion picture contract, a $3,000 car and a $2,500 wrist watch.

WOULD-BE ASSASSIN—Korean Military Police struggle with a man authorities identified as 62-year-old Ryu Shi Tae, a member of a secret society known as the Corps of Blood Justice, after he attempted to assassinate President Syngman Rhee as he addressed a crowd of 6,000 on the second anniversary of the start of the Korean war. Rhee's life was spared when the would-be assassin's gun failed to fire.

# Flexman Retires As Manager

OTTAWA (CP)—Ernest Flexman is retiring as General Manager of Canadian Arsenals Limited.

The No. 2 man in the government arms and ammunition organization, an artillery man who gained fame during the First World War as head of "Flexman's Forty Thieves," is succeeded by J. H. Berry, wartime armament expert and latterly general superintendent of A. V. Roe Canada Ltd.

The announcement was made last night by Maj.-Gen. J. H MacQueen, president of Canadian Arsenals.

Gunner Flexman headed a group of west-coast artillery men during the First World War. He went overseas as a gunner, was commissioned in the field, rose to the rank of major, won the D.S.O. and was mentioned twice in dispatches.

## Steel Worker Killed

HAMILTON (CP) — Charles Lyons, 26-year-old construction worker, was fatally injured Saturday when he fell 65 feet from a steel girder. A riveter, he was working on an open hearth furnace at the Steel Company of Canada plant.

## Oldest Stamp Found

VIENNA (Reuters) — An 1839 postage stamp with envelope discovered recently in Spittal-am-Drau, Austria, is genuine, and therefore the oldest known stamp in the world, a committee of philatelists announced yesterday.

## Winnipeg Mother, 30 Fatally Stabbed

WINNIPEG (CP)—A 30-year-old Winnipeg mother was fatally stabbed Saturday and her husband died several hours later from a bullet wound in his head.

Mrs. Ruth Schmouttz was found dead in the couple's downtown rooming house.

Her husband, Louis, 38, was found in the basement, a pistol beside him.

Police said the couple's young daughter, Caroline, may have been the only witness to what is believed a murder-suicide.

# Marriage Guidance Council Reduces Divorce In Britain

By ROBERT F. S. JONES

LONDON (AP)—Mary Smith—that isn't her real name—was worried about the way her marriage was panning out.

Her husband seemed to be taking too much notice of that blonde at the office and as far as Mary could see the partnership was heading for the divorce court.

But Mary was a sensible girl. She took her troubles to one of 300 or so voluntary "counsellors" on the panel of Britain's Marriage Guidance Council—the only national organization of its kind in the world. By a series of tactful questions she soon found out why Mary's marriage was going on the rocks: her husband got sulky because Mary spent too much time with her baby and not enough with him.

**ANOTHER SUCCESS**

Mary's marriage is happy now—and the council can chalk up another success in its ten years of work.

"Of course, we don't like to say how many times we've been successful," says Joseph Brayshaw, the council's general secretary. "It's hard to draw a neat red line under a case and say it's definitely closed, but in the last eight years we've helped about 50,000 couples. I'm hoping most of them won't be needing us again."

Last year the council helped 8,000 couples. Out of 4,000 cases analyzed and followed up, 953 were written off as failures.

The council started in 1938 when less than 7,000 couples were getting divorces each year in Britain. After a brief shutdown early in the war, it began in earnest in 1942.

**GOVERNMENT AID**

Now, with the number of divorces at five times the 1938 figure, the council has centres in more than 80 towns. Its work has been officially recognized by the government, which makes an annual grant of 5,000 pounds toward its running expenses.

A sister organization, the Catholic Marriage Advisory Council, formed six years ago to act in a similar capacity for British Catholics, also gets a government grant of 70 per cent of its administrative expenses up to 1,500 pounds a year.

The government helps run a training school for would-be counsellors of both organizations, with a syllabus that looks dry but covers most aspects of married life.

During six weeks at the school, the embryo mender of marriages must learn all about the sociology of marriage, biology and psychology of sex, psychology of family relationships and the ethics of marriage. In addition, he gets a thorough grounding in the ticklish "technique of marriage counselling."

**IDEAL COUNSELLOR**

Both Brayshaw and Richard Hodson, burly, genial secretary of the Catholic council, agree that to be an ideal counsellor a vocation for the job is necessary. They should also be happily married.

"They must have humanity and humility," says Hodson.

"They must be blameless in reputation and integrity, with an ability to inspire confidence and with a deep interest in people," says Brayshaw.

Both secretaries agree there's no yardstick of who make the best counsellors. Both find men—usually professional men like doctors, lawyers, bankers—and women, usually housewives, equally satisfactory. Brayshaw and Hodson also agree on the best age—from 35 to 55.

## New Disease Struck New York In 1950

KINGSTON (CP)—A disease new to the medical profession hit northern New York state during the summer and fall of 1950, Dr. D. Naldrett White of Queen's University here said in a report released last night.

Dr. White completed a study of the epidemic with the assistance of Dr. Robert Burtch of Alexandria Bay, N.Y. The report said the ailment, called Iceland disease, is similar to poliomyelitis but much less severe, with no crippling and no deaths.

The illness appears to involve the muscles rather than the nerves, as in polio. The disease was first discovered by a team of Danish medical men studying a virus ailment which hit Iceland in the fall and winter of 1948.

# Discover White Dwarf Star Report Given Astronomers

VICTORIA (CP) — Astronomers meeting here Saturday heard of the discovery of a white dwarf star that may be the smallest star known.

Dr. W. J. Luyton, University of Minnesota, and Dr. E. L. Carpenter, University of Arizona, told the scientists of the American Astronomical Society and the Astronomical Society of the Pacific of their observations of the dwarf star.

Some 30,000,000 light-years away, the star may be the most highly compacted chunk of matter in the universe, scientists believe. Its density is 50,000,000 times that of water.

In other words, the star is so compacted that the biggest crane on earth could not lift a cubic inch of it.

If a cubic inch of the matter in the dwarf star could be brought to earth, it would weigh about 1,000 tons.

The star is of the 16th magnitude in brightness, situated in the constellation of Monoceros. It has been observed through the 36-inch reflector telescope at Steward Observatory, Tucson, Ariz.

The star's "nearness" is confirmed by its rapid motion across the sky, astronomers say.

Although extremely small as stars go, being between 2,000 and 3,000 miles in diameter—between that of the moon and Mercury—it probably contains as much matter as the sun. It's actual mass has not yet been measured.

BEATING THE HEAT—Jo Mendi, the Detroit Zoo's ingenious chimp, takes the heat wave into his own hands—or rather his feet. Parboiled by record temperatures, Jo enjoys a bucketful of coolness while waiting for his fans to start purring, heat-beating methods very much in vogue these days.

# Glimpse Of Past In Toronto Ruins

TORONTO (CP) — Workmen clearing the ruins of the Toronto wholesale fruit market caught a glimpse of the past.

The two-storey wooden structure was destroyed in a fire May 17. Loss was estimated at $1,300,000.

As wreckers ripped up the flooring of the razed building they found in one corner two railway flat cars standing on tracks. The cars had been floored over when the building was converted from the old Great Western Railway station years ago.

The rusted rolling stock brought back for a moment the days when the station, built in 1856, was termed "one of the finest in America." Blanket-wrapped Indians and bearded trappers crowded the platform waiting for the "Railway Going West."

The station was the first in Toronto where passengers could step off trains under cover. It served as the terminal of lines linking Toronto with Hamilton and Niagara Falls.

First news of the Fenian raiders from the United States, crossing at Buffalo to Fort Erie, was brought to Toronto through the telegraph at the depot.

A Hamilton operator relayed the message that the railway superintendent had ordered all rolling stock moved from the suspension bridge at Niagara Falls because of the crossing.

The first through train from Montreal rumbled into the station the night of Oct. 27, 1856, after a 14-hour journey.

The Great Western was taken over by the Grand Trunk Railway following amalgamation in 1882 and in turn became part of the Canadian National Railways system.

## Oshawa Boy Wins Coaster Classic

MONTREAL (CP)—Bob Jackson, 14, a 10th grade school boy from Oshawa, rode his "soapbox" racer to victory twice Saturday in the Montreal Kinsmen Club's all-Canadian coaster classic.

He was first declared winner when he went down the 1,000-foot track in 23.3 seconds. He was telling reporters and radio men how it felt to win the race when the judges reversed themselves. He went back and won a second time over 13-year-old Richard Powell of Montreal, last year's winner.

Young Powell made what was described as "an amazingly fine gesture" when he asked officials to give the bicycle he won for coming second to Allan Thompson of Lachine, Que., who voluntarily crashed his car, breaking both insteps, in an effort to avoid a heedless youngster who had wandered onto the track. Officials awarded Powell a watch as a special prize.

## Heavy Rain Welcomed

TORONTO (CP)—Heavy thunder showers early yesterday ended a month of drought for southern Ontario. The rain resulted when a low pressure area heading across Michigan changed direction and moved into Ontario. Toronto received six-tenths of an inch, Windsor .42, London .72 and Hamilton .24.

## Sees Improved Trade

TORONTO (CP)—Much can be done to promote trade between Ontario and Florida, Mayor Curtis Hixon of Tampa said Saturday. In a speech he said 75 per cent of the world's soft phosphate is mined in Florida. The mayor, with 14 Tampa business men, is on a goodwill tour here. They went to Niagara Falls on a sightseeing trip yesterday.

## Ex-Lake Skipper Dies

TORONTO (CP) — William J. Madden, of Penetanguishene, a retired Great Lakes boat master, died here Saturday. He became master of his first vessel at the age of 26 and served 20 years with the C. Beck Company. For 21 years he was a skipper for the Victoria Harbor Lumber Company and retired in 1929.

## 2 Hurt In Hull Fire

HULL, Que. (CP)—Two persons were injured when fire broke out early yesterday at the Bank Hotel, in downtown Hull. Injured were Maurice Whelan, 28, of nearby Deschenes, rescued by firefighters scaling ladders in his hotel room window, and fireman Lieut. Aurele Periard, treated for hand burns.

# France Accords Pretenders New Official Friendliness

By GODFREY ANDERSON

PARIS (AP)—The French republic, which once lopped off the head of one of its kings, is showing a new friendliness toward the official claimants to a non-existent throne.

Henri de France, Count of Paris, made his first public appearance before an applauding audience at the Lyons International Trade Fair this spring less than two years since Parliament repealed the law which had long kept him away in exile.

He was invited by 79-year-old Edouard Herriot, who as speaker of the National Assembly is—after President Vincent Auriol—the highest ranking official of the Fourth Republic and was accorded official precedence.

**NO THREAT TO SECURITY**

Even more striking was the formal style of address in which the aged radical-socialist leader greeted the pretender. Publicly referring to the Count's presence, M. Herriot called him not simply "M. Le Comte de Paris" but "Monseigneur," a title only one stage removed from that of "Royal Highness."

This was a tacit acknowledgement of the new place which the state was ready to accord the throne's pretender, who henceforth may be allowed to play an increasing part in public life so long as he does not play open politics in favor of his restoration.

When Parliament repealed the exile law in May 1950, it did so because it considered the country's two pretenders—the Count of Paris and his Bonapartist co-claimant Prince Louis Napoleon—no longer presented any real threat to the republic's security. It not only permitted their return to France, but restored their voting rights and military service obligations.

Prince Louis Napoleon Bonaparte, senior living representative of the Bonaparte dynasty, is the great-great-grandson of Jerome, youngest brother of Napoleon I.

He strictly avoids politics. Since abrogation of the exile law he has returned to France, where he lives a secluded life.

The Count of Paris, 43, spent his exile studying, publishing a newspaper and writing.

A direct descendant of Louis-Philippe, he lived in Paris until his father, the Duke of Guise, became pretender in 1926. He became pretender when his father died in 1940.

Count Henri married Princess Isabelle of Orleans-Braganza, a cousin, at Palermo, Italy, in 1931. They have eleven children.

When war broke out in 1939, he tried to enlist as an army volunteer, then was allowed to join the Foreign Legion.

**SENSED CHANGE**

After the liberation of France the Fourth Republic started looking with more favor on the royal exile.

Sensing the changing atmosphere, he published a declaration on November 15, 1947, in which he promised not to seek to organize the French monarchists.

If he continues to tread his present careful path, some Frenchmen think, the Fourth Republic may yet one day bring the Count of Paris out for some official post.

**TAKES FIVE YEARS**

From the time oyster larvae is deposited on the sea bottom it takes five years to reach a commercial size.

EATON'S

On Canada's 85th Birthday, EATON'S proudly announces:

More than 85% of the goods we sell we buy in Canada!

From time to time in the past we have drawn our customers' attention to the very large proportion of Canadian merchandise we sell at EATON'S. Every year our shopping bag is filled with more and more Canadian goods . . . and today we can state that **more than 85% of the goods we sell are bought from Canadian suppliers!** Although we constantly import the specialties of other countries and our buyers shop all the markets of the world in their search for new and interesting products, nevertheless **the percentage of Canadian-bought merchandise sold in EATON stores is tremendous.**

Here's convincing evidence of the faith that EATON'S (and the people who shop at EATON'S) have in the products of Canadian mills and factories . . . in the resources and resourcefulness of Canadian suppliers.

HAPPY AIR CADETS—Three Peterborough Cadets take time out from their inspection of a Harvard Aircraft, to smile happily for the cameraman. The three cadets were then taken for familiarization flights. Seated in the cockpit is Cadet Bill Payne, 14, while standing, left to right are Cadets Tom Markurck, 15, and Phil Johnson, also 15. Cadet Payne is the son of Mrs. G. R. Payne of 354 McFarlane Ave.; Cadet Markurck is the son of Mr. and Mrs. T. Markurck of 420 Edison Ave.; Cadet Johnson is the son of Mr. and Mrs. L. E. Johnson of 18 Edgwater Blvd.—(National Defence Photo.)

## Alexander Worried About Korea

### Feels More Reserves Needed To Stem Offensive By Chinese

LONDON (Reuters) —A section of Earl Alexander's speech to the Canada Club last night, "hushed" out of newspapers at the defence minister's request, expressed uneasiness over the state of Eighth-Army reserves in Korea, Prime Minister Churchill disclosed today.

Churchill told the House of Commons that Alexander in an "impromptu" address had said:

"I should be very much happier if Gen. (James) Van Fleet had a little more reserve in his own hands.

**CAN HALT REDS**

"I think if the Chinese attempt a full scale offensive they will penetrate the front to a depth of some miles in some places, but I think that owing to the efficiency of the Eighth Army and their fire power they will be able to bring the offensive to a halt."

Defence Minister Alexander prefaced these remarks by saying there were weaknesses in Korea which he had not liked to mention when reporting to the House of Lords on his recent visit there. He said he hadn't told the Lords "because it was a thing I was asked not to mention as a matter of secrecy."

**ILL-CHOSEN WORD**

Churchill said Alexander used the word "secrecy" on the spur of the moment and it was undoubtedly ill-chosen. What he meant was that the remarks might be misconstrued if made in a public speech.

Churchill said Alexander wasn't referring to military security, and said in his opinion security was not affected by what the defence minister had said. Churchill added that Eighth Army reserves now have been "substantially increased."

After Alexander's speech to the club dinner, a private affair attended by 500, reporters were asked not to use his references to the reserves.

No British newspaper quoted him on that section, although two mentioned his request. The matter was raised in the Commons today by Emanuel Shinwell, former Socialist defence minister, who asked for a

## Ask 30-Cent Raise

*OTTAWA (CP)—Contract demands to be served on the railways by their non-operating unions tomorrow will include a call for wage increases of more than 30 cents an hour, it was learned today. The proposed new contracts are for about 125,000 employees in the non-running trades, those who do not work on the trains. Current agreements expire Sept. 1.*

## Red Police Arrest 4 Sightseers

BERLIN (AP)—Gun-brandishing Communist "People's Police" arrested four sightseeing Americans, including a chaplain and a woman, today and whisked them into the Soviet-occupied east zone of Berlin.

West German police reported that the incident occurred at Dueppel, where the American zone residential suburb of Zehlendorf borders the Russian zone.

The police said a Russian officer and east zone police, armed with rifles, rushed the Americans' car when it stopped at the border and the occupants began taking photographs.

**FORCED ACROSS BORDER**

The police said the Communists entered the American car and forced it across the border.

Eye-witnesses reported that the car had U.S. licence plates, showing that it was registered in West Germany, not in Berlin. This indicated that the abducted Americans were visitors to the city and possibly not familiar with the ticklish border question.

The west police said that at the spot where the incident occurred the boundary between the American sector and the surrounding Soviet zone is marked by iron spikes in the road. They said the Americans drove past these right up to the red-and-white barrier pole across the road at the Russian check point.

The Americans were held about 20 minutes at the check point and then taken off to the Soviet military post at nearby Machnow.

U.S. military authorities got in touch with the Russians and asked the return of the four persons.

## Say Accused Set Fire To His House

### Stopped By Constable For Having Liquor In Truck

WHITE RIVER (CP)— Farmer Joseph Laronde, 50, today was charged with attempting to murder Provincial Police Constable Evan Gilmore as the officer was about to arrest him on a charge of having liquor in his truck.

**SEARCHING HOUSE**

Gilmore, in hospital suffering a gunshot wound in the hip, was reported in good condition.

Police said that, after the shooting, Laronde set fire to his house.

Gilmore stopped the Laronde truck early today near this town about 300 miles northwest of Sudbury. After finding liquor he took the man to the Laronde farm to search the house.

It was then that the farmer is alleged to have shot the policeman.

Two men came to the farm when they saw the house burning. Gilmore sent them to get police help.

## Reject PC Demand For New Study Of Seat Changes

OTTAWA (CP)—Citizenship Minister Harris today rejected Progressive Conservative demands for reconsideration of proposed changes in the boundaries of several federal constituencies. Replying in the Commons to questions by George Drew, Progressive Conservative leader, Mr. Harris said the government will not establish an independent commission at this session to redistribute representation in the Commons on the basis of the 1951 census.

The government also would not ask the all-party committee on redistribution to reconsider changes recommended in the boundaries of some constituencies. If members wanted to amend recommendations of the committee, their amendments could be considered by the Commons.

Later, Prime Minister St. Laurent entered the debate to urge his followers in the House to form their own opinions on the constituency boundaries and not be influenced by the views of Cabinet members. The responsibility was that of the House and its members, rather than the government.

He restated Mr. Harris' declaration that a commission will not be set up for this redistribution, but said it "may very well be" that some other system will be devised in the future.

Mr. Harris' statement came in the wake of an implied threat by Mr. Drew to continue the debate on redistribution indefinitely. The debate, already taking on the characteristics of a filibuster, now is in its fourth day. It has delayed adjournment of the session, originally expected to end June 28.

Mr. Drew said last night:

"We are only now at the first clause. It will be a long time before we dispose of subsequent clauses and the schedule in this bill. There will be ample opportunity for the government to reconsider its position.

He recalled that Prime Minister St. Laurent had said political controversy should be avoided in dealing with the Redistribution Bill. The measure would increase Commons membership to 265 from 262 and change the boundaries of 125 constituencies.

Mr. Drew appealed to the government to reconsider the proposed boundaries objected to by his party.

REJECT PC DEMAND

## Sweden Sends Sharp Protest To Russians

STOCKHOLM (AP) —Sweden delivered another sharp protest note to Russia Tuesday and charged the Reds shot down a second Swedish plane over the open Baltic.

Flatly rejecting three earlier Russian notes on Baltic shooting incidents, Sweden declared she will take recourse to international procedures to establish the facts and the legal consequences if Russia continues to insist on her version. Russia has insisted the planes flew over Soviet territorial waters.

The note also maintained Sweden's rights in international waters of the Baltic.

"Soviet military forces cannot, any more than the military forces of any other country, claim the right to exercise sovereignty in such waters over aircraft of another nationality," the note said.

Until Tuesday the Swedes had only charged Soviet fighters with shooting down an unarmed Catalina flying boat carrying seven

## New Operation Saves Woman

TORONTO (CP)—A Toronto paper says today a healthy kidney from a dead man has been grafted into a woman who was about todie—and the woman has lived. A similar operation in Chicago last fall was unsuccessful. The paper's newspage story says a month ago Mrs. Dorothy Pe.ze, 26, was so swollen with Bright's disease as a result of her own kidneys refusing to function that she weighed 185 pounds and was near death from the poisons accumulating in her system. "Today she is down to a normal 120 pounds, feels fine, is living a normal life and within two months will resume her job as a receptionist for a drug and chemical manufacturing company."

The operation was performed by Dr. Gordon Murray of Toronto, who has been experimenting for years on the transplantation of kidneys in animals and who was the first to make a successful mechanical kidney.

Toronto surgeons suggest that transplantation of the liver may soon be possible and many lives may be saved in cases of cirrhosis or hardening of the liver and other diseases of that organ," the paper says.

Mrs. Pezze's own kidneys were not removed. The third one was added.

## Reds Make Zone Of Death Around Berlin, Halt Escape

BERLIN (AP)—The Communists have started making a sinister "zone of death" around Berlin to keep people from leaving, and have instituted a Gestapo-like check on those who enter. The zone—first noticed yesterday opposite suburban Spandau in the British sector—resembles the No Man's Land created between East and West Germany, where Germans setting foot in the area risk death. West Berlin newspapers call it "killing ground."

No shoot-to-kill orders have yet been announced in connection with the cleared area iin the zone, but that presumably will come when the ring of forbidden ground is complete.

The first stretch is near the British airfield at Gatow. Witnesses said trees have been felled and bushes cleared from a strip between 30 and 50 yards wide, making it impossible for people to cross the area unobserved.

Watchtowers fitted with machine-guns overlook the miles-long strip and tough East German police keep an eye on it.

It is believed to be the first portion of a new Red "security ring" around the city. Berlin is almost surrounded by woods, giving excellent cover to people who want to get out of the city without the knowledge of the eastern Communists.

## Dazed By Blow Man Vanishes

POWELL RIVER, B. C. (CP)—A husky millworker, dazed from a blow on the head and bare from the waist up, vanished yesterday into the rain-soaked woods which fringe this coastal community.

An R. C. M. P. search dog has joined hundreds of residents who are hunting for 26-year-old Arthur Offley. He raced from the sulphite plant where he worked after accidentally striking his head.

The only clue was a report from a resident of Wildwood, about two miles from the mill. He told police of seeing a shirtless man carrying a club who shortly after disappeared into a thicket.

Mill foreman Bert Southcott said that about 2 a. m. yesterday he saw the 200-pound Offley rising from the floor where he had apparently fallen with a deep gash in his forehead.

The foreman said he approached Offley, but that the worker winged a punch at him, jumped through an open window and ran to a shed.

After following Offley, and finding him sitting on a roll of paper, holding his head, Southcott said he left to call a doctor.

When he returned, Offley had disappeared into the woods.

## Leader Of Big Mutiny Surrenders Suddenly

RIO DE JANEIRO (Reuters)—The leader of the big mutiny on Brazil's Anchieta prison island gave up without a fight yesterday after security forces had surrounded his hilltop hideout.

The leader, Joao Pereira Lima, had been expected to make a last-ditch stand. Instead, he stood up in plain sight, threw away his weapons and shouted, "Don't shoot, I give up."

Two of his henchmen surrendered with him, leaving an estimated 16 convicts still at large.

Lima and other prisoners, crossing the shark-infested channel in small overloaded boats, escaped to the mainland after 350 convicts mutinied on Anchieta June 20. Split into small groups, most of the convicts now have been recaptured.

## Typhoon Hits Philippines

MANILA (AP)—Full fury of a 115-mile-an-hour typhoon swept into the south central Philippines today.

The northeast Mindanao coast was lashed by heavy winds. Southern Leyte was virtually paralyzed.

The Manila weather bureau in a bulletin at 5 p.m. located the typhoon centre 80 miles southeast of Cebu City, on Cebu. Winds of 55 miles an hour were estimated within a 60-mile radius of the storm centre.

Philippine air lines cancelled all flights from Manila to the Visayan islands and Mindanao. Earlier the Philippine Air Force began evacuating its heavier type craft from Manila to Zamboanga.

## Green Pilots Ignored Raid

TOKYO (AP)—The mystery of why the Chinese Communist air force made no attempt to save the vital Yalu River power plant from destruction may be solved.

It may be that the U.S. Air Force chose June 23 for the smashing raid because it knew the Reds had just brought to Manchuria a batch of green pilots for training.

Pilots who pressed home the great assault on the Suiho plant saw 200 MIG-15 jets parked on the Manchurian base of Antung, only 30 miles away. Not one of these jets challenged the raiders.

Whether the raid was timed to catch the Red forces at a low point is, of course, an Allied secret.

For months the Allied pilots have noted a periodic up-and-down in the fighting ability of their MIG foes. This has been taken to mean the communists are using "MIG Alley" near the Manchurian border as a school.

A particularly poor showing means a new class of MIG pilots has arrived. A good showing means the class is near graduation."

## Sweden Sends Sharp Protest To Russians

STOCKHOLM (AP) —Sweden delivered another sharp protest note to Russia Tuesday and charged the Reds shot down a second Swedish plane over the open Baltic.

Flatly rejecting three earlier Russian notes on Baltic shooting incidents, Sweden declared she will take recourse to international procedures to establish the facts and the legal consequences if Russia continues to insist on her version. Russia has insisted the planes flew over Soviet territorial waters.

The note also maintained Sweden's rights in international waters of the Baltic.

"Soviet military forces cannot, any more than the military forces of any other country, claim the right to exercise sovereignty in such waters over aircraft of another nationality," the note said.

Until Tuesday the Swedes had only charged Soviet fighters with shooting down an unarmed Catalina flying boat carrying seven

## Rhee Stymies Lord Alexander

LONDON (Reuters) — Defence Minister Earl Alexander told the House of Lords last night just what it was like talking politics to President Syngman Rhee of South Korea during his recent trip to the Far East.

"I said: 'Mr. President, I have come 10,000 miles to tell you how the British people feel about your conduct—martial law without any apparent reason, arresting people and not trying them'," Alexander recalled.

Rhee replied he was not understood and the British people were ignorant of the true state of affairs.

Alexander added: "As I got no satisfaction from him I said: 'Can I deliver a message to Mr. Churchill which will be satisfactory?'"

Rhee replied: "Please give Mr. Churchill my best wishes and say I inquired after his health, that everything will come right in the end. All I would ask of him is to have patience."

Alexander added resignedly: "I don't know what one can do about it unless one can take him into protective custody—or is that undemocratic?"

## Outline Boundaries Hastings-Frontenac

OTTAWA (Special).—It was announced here today that the proposed riding of Hastings-Frontenac will include under the redistribution bill now before the House of Commons all the present riding of Hastings-Peterborough, plus all the county of Addington, and all the county of Frontenac except Howe Island, Wolfe Island, the City of Kingston and three townships adjoining the city of Kingston, a large part of which is actually suburban Kingston.

## Love Life Unhappy Clerk, 35, Suicides

HAMILTON (CP)—Malcolm Stewart, a 35-year-old clerk, wrote a letter to the police Monday.

In the letter, addressed to Inspector of Detectives Walter Hagan the clerk said: "My life has been ruined as the result of a shattered love affair.

"I have decided to end it all with an overdose of sleeping tablets. You will find my body at. . ."

Inspector Hagan received the letter at 8:55 a. m. today. By 9:10 a. m. detectives were at the clerk's apartment.

They were too late. A coroner said the man had died as a result of an overdose of pills.

*Need New Policy*

## Declares Canada Must Open Doors To More Immgirants

By BRUCE PHILLIPS
Canadian Press Staff Writer

CALGARY (CP)—A warning that Canada must open its doors to more immigration or "be forced to open them" was made today by John Kidd, executive director of the Canadian Citizenship Council.

In a speech prepared for delivery at the annual convention of the Canadian Federation of Mayors and Municipalities, Mr. Kidd said Canada must remove immigration policy from its "emergency" basis.

A long-term policy must be decided with the necessary administration machinery, housing, employment and educational facilities to support sustained immigration.

"Sooner or later," he said, "the tremendous unbalance of population, standards of living and material resources among the nations is going to create real and perhaps shattering problems for Canada."

The Mackenzie River basin compares favorably in size, climate, resources and soil with Finland. Yet the population of the Mckenzie basin was only 3,500 while Finland supported 3,500,000 people with a fairly high standard of living.

"How long can we, only 14,000,000 people, hope to hold and develop for our own uses so much space, so many resources, in relation to the rest of the world."

Mr. Kidd said during the next 25 years Canada is going to be faced with strong opinion and pressure from other countries to allow in more people.

"Unless we open our doors considerably wider than they now are, sooner or later we will be forced to open them," he predicted.

Immigration had always been handled on an "emergency" basis, and only emergency measures had ever been implemented. What was needed was an intelligent program of orientation and integration for newcomers to the country.

## Right To Object Pearson View

HOUSTON, Tex. (CP)—Hon. L.B. Pearson, Canada's External Affairs Minister, said Monday night Canada's contribution to western defence justifies "an objection once in a while if we don't like the tune that has been called."

He said in an address to a conference of state governors that the western world must apply the principle of free consultation and cooperation to international affairs.

To reconcile legitimate national interest with necessary international action "will require the patience of a Job, the understanding of a Solomon, the resources of a Houdini and the persistence of a Robert the Bruce."

He said that "while we must have confidence in each other's intentions and resolve, as well as understanding of each other's special problems, we should at the same time tell each other what we are doing or not doing in this collective effort to establish and preserve the peace."

## Grand Jury Frees Top French Communist

PARIS (AP)—Jacques Duclos, 56, the former pastry cook who became France's top Communist, left Sante prison last night—set free by a grand jury which ruled that he was not caught in the act of plotting against France's internal security when he was arrested May 28 with a loaded revolver and a blackjack in his car in the midst of a riot.

Duclos is a member of the French National Assembly and enjoys Parliamentary immunity from arrest unless caught red-handed committing a crime.

## UN Raiders Wipe Out Chinese Company

SEOUL, Korea (AP)—A powerful Allied raiding column knifed into Communist territory in western Korea Tuesday and virtually wiped out a Chinese company before pulling back, the Eighth Army announced today.

Of 320 Reds defending a hill northwest of Yonchon, an estimated 257 were killed or wounded in a five-hour battle.

U. N. Headquarters in Tokyo said the raiding force was of battalion strength, 750 to 1,000 men.

The Eighth Army said the Communists suffered 11,316 casualties in June—the heaviest toll in five months.

## Plan Extra Patrols Against Rustlers

ST. THOMAS (CP)—Provincial police have promised the Elgin Beef Cattle Producers' Club extra night patrols to guard against rustlers.

They said the modern rustler uses trucks to slip up to pasture fields at night. Choice steers or heifers, usually only one or two, are selected and butchered on the spot and hides with identifying brands or tattoos buried.

Livestock men in the area say they have noticed an increase in rustling as beef prices climb.

## Canadian Dollar Hits 18-Year Peak

NEW YORK (AP)—The Canadian dollar Tuesday climbed to its highest value in 18 years.

At one time the Canadian currency rose 7/16 of a cent from the previous day to 103.28⅛ cents. It closed ¼ of a cent higher at 103.09⅜ cents.

This was the highest price in terms of the U.S. dollar since the Canadian dollar hit $1.03¾ in 1934, anticipating the advance to $35 an ounce of U.S. gold prices.

No particular news event caused the increase Tuesday. Exchange experts said it was "simply a matter of supply and demand."

## Price Of Freedom To Be High—St. Laurent

NEW YORK (CP)—The price of freedom will continue high so long as organized Communist tyranny dominates some of the world and threatens the rest, Prime Minister St. Laurent of Canada said last night.

Mr. St. Laurent spoke to the United States people by recording in a special Dominion Day program staged by CBS and carried in Canada by the CBC.

*Reject Censure Vote*

## UK Gov't Cleared Of Blame In Yalu Attack

LONDON (CP)—The House of Commons by a majority of 30 votes decided last night that the government was not to blame because it hadn't been told the Americans were going to bomb the Yalu River power plants in North Korea.

The Commons rejected by a vote of 300 to 270 a somewhat mild Labor motion of censure, saying Winston Churchill's Conservative government was at fault in not obtaining U.S. consultation before the bombings.

The Labor party, particularly its left wing, strongly criticized the raids, claiming the attacks imperilled the Korean armistice talks and threatened all-out war with Red China.

Michael Foot, spokesman for the followers of left-winger Aneurin Bevan, said the motion was not strong enough. It should have challenged the very decision to make the raids.

Prime Minister Churchill defended the government in place of Foreign Secretary Anthony Eden who is ailing with jaundice. Churchill warned the Commons that the censure, while technically aimed at his government, "really falls on the United States."

Britain must not antagonize U.S. public opinion in a presidential year. Praising the "monumental patience" of Americans in Korea, the Prime Minister said:

"There might easily come a time, especially during a Presidential election, when a sharp reaction of emotion and even anger might sweep large sections of the American people and any candidate for the Presidency who gave full vent to it might gain considerable advantage."

Churchill said there are many Americans who think China more important than Europe.

**COULD LEAD TO RUIN**

"It would be a very great misfortune if that line of thought were to prevail. It might easily lead to the ruin of the whole European structure of defence which is being built up with so much effort and sacrifice and would expose us all to the mortal danger of war and dustruction. . . .

"We in this country are convinced it would be a great mistake, with Europe in its present position, for the U.N. or the United States as their champion to be involved in a war with the Communist government inside China.

I can only hope the American people will not suppose that the House of Commons is unfriendly to them and that we are simply naggers."

Churchill said he believes Britain should have been informed of plans to bomb the Yalu power plants. But an administrative mix-up in Washington prevented it, he said. State Secretary Dean Acheson of the United States explained the situation in an off-the-record talk with members of Parliament while he was in London last week and Monday the State Department released the text of the conversation.

It quoted Acheson as saying: "We wanted to consult you, we should have, and we recognize the error."

**LAUDS STATEMENT**

The Prime Minister said: "There could not be a more full and generous statement than that. It is a complete answer to the Opposition's vote of censure."

During the debate the government announced that a senior British officer—identity to be revealed soon—had been chosen deputy chief of staff to Gen. Mark Clark, commander of U.N. forces in Korea. This, State Minister Selwyn Lloyd said, would assure the British government of advance knowledge of important new war operations.

# Death Toll Reaches 93 Over Holiday

## Ontario Tops List With 37 Fatalities; Report 32 Drownings

*By THE CANADIAN PRESS*

The Dominion Day holiday death toll stands at 93. Included in the total for the four-day holiday were 34 traffic deaths and 32 drownings.

A Canadian Press survey showed early today that Ontario led the list with 37 fatalities, including 16 highway deaths, 12 drownings an one possibly drowned. Quebec had 18 deaths, Manitoba 11, New Brunswick 10, British Columbia 9, Alberta 5, Nova Scotia 2 and Prince Edward Island 1.

The black record compared with a total of 84 for three days in 1951 when 36 were drowned and 28 died in traffic. Most nearly comparable year was 1947, when 98 died during a four-day Dominion day holiday.

Other years: 70 dead in four days, 1948; 65 in three days, 1949 and 51 in two days in 1950.

**TRAFFIC TOLL HEAVY**

Sixteen persons died in Ontario traffic accidents. They included: David MacKay, 2, struck by a car in Kirkland Lake; Bill Durant, 3, run over by a truck at Markham; John C. Stuart, 41, of Point Edward, collided with a truck on a motorcycle near London; Bonnie Cripps, 2, struck by a car in Toronto; Earl Fuller, 32, whose car crashed off a road near Goderich; Jack Heanserowsky, 2, struck by a car in Toronto and Samuel Kissis, 54, whose truck overturned at Blind River.

Twelve Ontario residents were drowned, including: Hugh Withers, 10, in a creek near Kingston; William Morton, 12, in Lake Ontario near Toronto; David Byer, 23, of Toronto, in Georgian Bay near Waubaushene; John Peter Ignas, 17, of Toronto in the Credit River west of the city; Robert MaGill, 28, and Leo Croft, 28, both of Woodstock, in Lake Erie near St. Williams, and LAC Joseph Couture, 31, in a pond near St. Thomas; unidentified man in the Wahnapetei river near Sudbury.

Other fatal accidents in Ontario: Danny Collins, 8, crushed between telephone cable wire spools in Toronto; unidentified man near level crossing at Thornhill; Fergus McCann, 37, of Stratford, fell 35 feet from a silo; George Nairn, 66, crushed under his overturned tractor on his farm near London; Mrs. Harold Adams, 44, asphyxiated in her burning home at Sudbury; Brian Cress, 13, killed in explosion of souvenir bomb at Sault Ste. Marie; Alfonse Bernard, 27, fell 65 feet from a crane at Sault Ste. Marie.

# Peterborough Hogs, Grain And Produce

**WEDNESDAY, JULY 2**

Hog quotations $25.50 delivered.

## The Weather

**Peterborough Temperatures:**

Today:
Night low..52 Noon...77
Noon barometer.....29.55

Yesterday:
Highest....78 Lowest..51

One Year Ago:
Highest....74 Lowest..50

Official forecasts issued by the Dominion public weather office at 9:30 a.m. today.

**Synopsis:**

The weather today will be much the same throughout the province as on Tuesday—sunny and warm with the high in the 80s, but a disturbance over North Dakota and southern Manitoba will bring thunderstorms to northwestern sections tonight and Thursday. Southern regions of the province will have considerable cloud tonight with slightly higher temperatures and mainly sunny skies on Thursday.

Very hot humid air lies to the southwest of the disturbance but is not expected to reach the province Thursday.

Regional forecasts valid until midnight Thursday:

Eastern Lake Ontario, Haliburton regions:

Sunny with a few cloudy intervals today and Thursday. Slightly warmer Thursday. Winds south 15, becoming light at night. Low tonight and high Thursday at Trenton 60 and 80, Killaloe 55 and 85.

Summary for Thursday — Mainly sunny. Warmer.

## OBITUARIES

**ALFRED DEWAN SR.**

DOWNEYVILLE—(ENS)—Son of early pioneers into the Downeyville district, Alfred Dewan Sr., Emily township, died today in Ross Memorial hospital, Lindsay, after an illness of three months. He was in his 89th year.

Mr. Dewan was the son of Thomas Dewan and Bridget Mahar, among the first people into Downeyville area. His wife, the former Agnes Powers, predeceased him six months ago.

One of the oldest residents of Downeyville, Mr. Dewan lived on the family homestead, two miles south of Downeyville, all his life. He farmed there.

Surviving are three daughters, Mrs. Thomas Morrissey (Addie) of Downeyville, Mrs. Frank Hickey (Mary) of Ennismore, Mrs. Edward Mortimore of Muskoka, and two sons, John of Sask., and Alferd Jr. of Omemee.

The funeral will be held Friday from the Burrows funeral home, Lindsay, to St. Luke's church in Downeyville for requiem mass. Burial will be in St. Luke's cemetery.

**ARCHIBALD WALDIE**

ROSENEATH—(ENS)—A highly respected resident of Roseneath village, Archibald Waldie, died at the home of his daughter, Mrs. Clarence Sherwin, Fenella, on Monday after a brief illness at the age of 73 years.

Mr. Waldie was born near Fenella on the homestead now owned and occupied by his great-nephew Floyd Brown. He was a son of the late Mr. and Mrs. Thomas Waldie. By occupation he was a successful farmer, retiring to live in Roseneath 10 years ago.

His wife, the former Mabel Murphy, predeceased him seven years ago.

He is survived by one daughter, Mrs. Clarence Sherwin (Jessie), Fenella; two sons, George of Cobourg and James of Fenella.

The funeral service will be held on Thursday at 2:30 p.m. at the home of his daughter, Mrs. Clarence Sherwin.

Interment will be in Bethany (Macklin's) cemetery.

**THOMAS AVERY**

Sixty-five years a resident of Peterborough, Thomas Avery, 185 King St., died today in Civic hospital after an illness of a week. He was in his 86th year.

Mr. Avery was born in Kent, England, later moving to Peterborough. He was a laborer all his life, a member of Park St. Baptist Church and the Canadian Order of Foresters.

Surviving are his wife, the former Jane Clark, two sons, Charles and Robert, both at home. A daughter, Mrs. Ruby May Graham, predeceased him.

The Rev. C. G. Boyd, St. Paul's Presbyterian Church, will officiate at the funeral service Friday at 2 p.m. at the Kaye funeral home. Burial will be in Lakefield cemetery.

## Drunk Fined $20

Alfred Reid, 40, of 477 Rubidge St. was today fined $20 and costs after pleading guilty to being drunk Tuesday on Brock St.

Crown Attorney John Bradshaw, Q.C., asked for more than the minimum penalty because Reid is said to have entered a house without the consent of the occupants and he caused a disturbance.

# 2 Men Drown As Fishing Skiff Capsizes

ST. WILLIAMS (CP)—Two Woodstock men were drowned and another scrambled ashore exhausted by a three-hour battle with choppy waters of Long Point Bay yesterday, opening of the bass season.

The dead: Leo Croft, 28, and Robert W. Magill, also 28.

Bruce Shipp, 26, reached shore atop an emergency gasoline tank which he drained. Clad only in a sweater, he scaled a 665-foot cliff to reach the farm of Harold Bulmer.

Shipp told police that the light skiff in which the men set out to fish capsized as they turned toward shore.

Magill, he said, struck out for shore and was last seen as he reached a thickly matted belt of swamp grass.

Croft, he added, went down as the boat overturned. He brought him to the surface. But the man slipped off a second time and he was unable to reach him.

## Reject PC Demand

Continued from Page 1

"There will be ample time for the government to reconsider its position. The amount of time that will be taken will be measured by the extent to which the government will seek to give some reality to the statement made by Mr. St. Laurent."

**MEMBERS 'DIRECTED'**

He said remarks made by Agriculture Minister Gardiner had proved that there was "direction" given members of a redistribution committee in defining boundaries.

This was a reference to a statement by Mr. Gardiner that a Liberal caucus of Saskatchewan members agreed that special consideration should be given constituencies held by M.J. Coldwell, C.C.F. leader, and John Diefenbaker (PC—Lake Centre).

Mr. Gardiner said the Saskatchewan Liberal members were "definitely instructed that there had to be a seat of Rosetown-Biggar. . . and that it had to remain because of the special consideration we had been given."

He said it would have been easy to eliminate Mr. Coldwell's Rosetown-Biggar seat and Mr. Coldwell nodded agreement. Lake Centre was expanded to take in Moose Jaw riding, held by Ross Thatcher of the C.C.F., and some Regina suburbs to which Mr. Diefenbaker objected.

Mr. Gardiner said the constituency thus formed was one that could be won either by Mr. Diefenbaker or Mr. Thatcher.

**LIBERAL SEAT OUT**

The Liberal seat of Swift Current, represented by Harry Whiteside, was eliminated as one of the three seats Saskatchewan was required to lose under the 1951 census.

**'BUTCHERY' CHARGED**

Mr. Drew said Mr. Gardiner's remarks did not deal with the "cynical gerrymandering that has gone on."

No explanation could be given "of the butchery performed in seeking to arrive at a new constituency which retains the name but little relationship to the historic background of Lake Centre."

He said there can be no doubt direction also was given in merging Conservative-held ridings of Brandon and Souris in Manitoba and Hastings-Peterborough and Frontenac-Addington in Ontario.

Gordon Graydon (PC—Peel) also appealed to Mr. St. Laurent and Citizenship Minister Harris, sponsor of the bill, "to see if between them they cannot come to the House and make some concrete suggestions that will wipe out some or most of the difficulties. . ."

During Monday's debate, J. W. Murphy (PC—Lambton West) said the work of the committee on Ontario constituencies was "just plain butchery." Liberal members had not only used the butcher knife, but the cleaver as well.

**PEARSON, McCANN SAFE**

Mr. Murphy said that in Ontario External Affairs Minister Pearson, who represents Algoma East, and Revenue Minister McCann, who holds Renfrew South, were given just enough additional territory so that they could say their populations had been increased.

Leo Gauthier (L—Sudbury) said the committee had not been unfair as far as Northern Ontario was concerned. The area was given an additional seat — Nickle Belt. It was unfair of the Opposition to suggest that Northern Ontario should not have another seat.

George McIlraith (L — Ottawa West), chairman of the Ontario subcommittee, said opposition members were treated no worse than those of other parties, including the party in power.

In Ontario, the six smallest constituencies were combined and the six largest divided in two.

George Hees (PC—Toronto Broadview) said at least three examples of political vindictiveness were contained in the proposed redistribution. The members for Lake Centre, Souris and Brandon did much to call attention to the government's gross negligence in mishandling the foot-and-mouth outbreak in Saskatchewan. They were paid off in redistribution.

Earl Catherwood (PC—Haldimand) whose seat would be joined with Brant, said the whole matter should be referred back to the committee on redistribution for further study. The government would regret the results if it tried to rush through redistribution during the last days of the session.

**'WHY PICK ON ME?'**

L.E. Cardiff (PC—Huron North) whose seat would disappear, said he does not know why the committee "picked on me."

There was no need to push the seat into another constituency outside the boundaries of the county of Huron.

A.Y. McLean (L—Huron-Perth) said the committee had taken greatest possible advantage of geographical factors in altering the Huron seats. An effort was made to disturb municipalities as little as possible.

If votes in the last election meant anything, the Progressive Conservatives would have the edge in the new Huron seat.

"That I suppose is gerrymandering in reverse," said Mr. McLean.

# Cheese, Produce And Livestock

**TORONTO FRUIT**

TORONTO (CP)—Wholesale fruit and vegetable prices here today were: Onions green 60-75; mushrooms $3-3.25; tomatoes hothouse six qt. $4-5; carrots case $4; rhubarb local $5-5.50; cucumbers Leamington 11 quart $3; 27 quart strawberries $5.50-6.75; green bean $1.50-1.75; apricots case $4-4.25; lettuce 36 heads $2.50-3; cauliflower Leamington $2.50-2.75; cabbage case $2-2.50; radishes doz. 35-40.

Potato prices: P. E. I. and New Brunswick carlots to trade $4-5; American new to trade $6.50-7; Ontario new $4.50-4.75; to trade $5-5.25.

**TORONTO PRODUCE**

TORONTO (CP)—Churning cream and butter print prices here today were unchanged.

The egg market opened firm and unchanged. The following quotations are for eggs packed in fibre cases.

Graded eggs cases free, delivered Toronto: Grade A large 48-49; A medium 46-47; A small 34-35; grade B 30; grade C 26-27.

Wholesale to retail; prices quoted for loose eggs with crated eggs selling three cents higher: Grade A large 52-53; A medium 50-51; A small 39-40; grade B 34-35; grade C 30-31.

113 sezyr toronto add produce

Butter solids: First grade 58 tenderable and 56½-56¾ non-tenderable; no price established on second grade; Western 58.

**BUFFALO LIVESTOCK**

BUFFALO, N. Y. (AP)—Cattle 400; supply light, trading slow, limited sales of dairy-type cows and bulls about steady. Good dairy-type cows $20.50-22; cutters $18-20; fat yellow cows $16-19; canners $14-17.50; good fat dairy-type heifers for slaughter $26-27; common $22-25; good sausage bulls $26-27.

Calves 100; demand slow, market weaker and $1 lower than Tuesday's decline. Good to choice calves $32-34; top $34.

Hogs 600; no rail hogs here. Trading slow, market steady with Tuesday's decline. Good to choice hogs $11-22.

Sheep and lambs 350; market not established.

**WINNIPEG GRAIN**

WINNIPEG (CP)—Coarse grain futures prices generally showed a firm trend in early trading today on the Winnipeg Grain Exchange.

Aggressive buying in oats and barley was attributed to shipping and export accounts. Rye brought some American interest.

Upturns on U. S. grain markets during the Dominion Day holiday was reflected on opening prices. Trading turned dull after the opening flurry.

11 a. m. grain prices:

Oats—July 1⅛ higher 79⅛; Oct. 1 higher 81⅛; Dec. 1⅛-1 higher 81.

Barley—July ¾ higher 1.20B; Oct. ⅞ higher 1.22A; Dec. ⅝ higher 1.20⅛.

Rye—July ⅞ higher 1.95½; Oct. 1⅜ higher 1.99½; Dec. 1⅝ higher 1.99½.

Flax—July 1½ higher 3.84B; Oct. 1 higher-1 lower 3.90; Dec. 2 higher 3.88.

**TORONTO LIVESTOCK**

TORONTO (CP)—Cattle prices were about steady in active trading today at the Ontario stockyards. Receipts: Cattle 530; calves 310; hogs 640; sheep and lambs 100. The leftover from Monday was 1,800 cattle.

Choice steers sold at $27.50-28.50 with prime weighty steers selling upward to $29 and good steers bringing $26.50-27.50. Good heifers were $25.50-26. Good cows sold mostly $20.50-21.50 with a few heavy cows selling upward to $23 and common cows downward to $17. Canners sold as low as $12. Good bulls brought $19-20 with a few heavy bulls upward to $22 and common bulls downward to $15.

Calves were steady at $24-26 for good to choice vealers with common to medium from $16-23 and stock calves selling at $24-29.

Hogs were $26 for grade A with sows $16 dressed.

Lambs sold firm at $34-35 for good quality. Common to medium sheep sold from $5-15.

MORE ABOUT—

## Sweden Sends

Continued from Page 1

crew members June 16. All the crew were saved but two were wounded.

Now the Swedes also charge that a Douglas C-47 transport, with eight crew members, for which the Catalina was searching, also was shot down by the Russians. The plane has been missing since June 13.

Annexes accompanying the note contained results of investigations of wind and currents to prove the Russians attacked far outside their territorial waters.

Sweden suggested she would prefer to take the dispute to the International Court of Justice but as a first step was also prepared to have an international commission investigate the facts.

## U.S. Dollar At Discount

MONTREAL (CP)—The American dollar was at a discount of 3⅛ per cent in terms of Canadian funds, the Bank of Canada reported at noon today, EDT. Monday's noon rate was $0.97⅞. The pound sterling was $2.70, against $2.71 Monday.

# Decoration Day Observed Emily Cemetery

OMEMEE (ENS) — Decoration Day was observed in Emily Cemetery Sunday afternoon, when hundreds gathered to honor the memory of their dead. The event was arranged by the Orange lodges of the district and the Omemee Women's Institute.

The "Orange" procession drew up beside the chapel where the open air meeting was held, with District Master Melville Moncrief as chairman.

With the District Master on the platform were the three Omemee ministers: the Rev. C. Richmond, rector of Christ Anglican, the Rev. H. Kaye of St. Andrew's Presbyterian and the Rev. V. E. R. Zufelt of Trinity United.

Mr. Richmond read the scripture from Revelation, chapter 21, and Mr. Kaye led in prayer. The address was delivered by Mr. Zufelt. He spoke of three sources of inspiration received from a visit to a cemetery: the inspiration of the place, the inspiration received from the memory of the dead, and the inspiration of their faith. He quoted "Grey's Elegy Written in a Country Churchyard" stating that the author's reflections were applicable to the present situation.

Great changes had come about in the standards of living and methods of working, he said, but faith remained the same for us as for them. He urged his hearers to hallow the memory of what was best in them and to keep in touch with their faith.

He asked that, while paying tribute to the memory of our blessed dead, we be mindful of those who made the supreme sacrifice, and whose bodies rest in foreign soil.

Norman Harris of Peterborough was pianist for the service and the hymns sung were "Faith of Our Fathers," "Onward Christian Soldiers" and "Fight the Good Fight."

Mrs. Stewart Mitchell of Fowler's Corners sang "Sunrise Tomorrow," and a piano selection by Mr. Harris was also enjoyed.

# Prices Remain Mixed On Toronto Exchange

TORONTO (CP)—Prices remained mixed and trendless today in dull early afternoon stock market dealings.

Industrials, base metals and western oils opened strongly as interlisted issues jumped sharply to catch up with New York's advance yesterday. Support turned mixed during the first hour, however, and advances dwindled.

Trading slowed from a steady opening. Industrial activity spread moderately from leading issues but few golds, metals or oils attracted speculative interest. Volume for the first three hours was 988,000 shares.

Papers, constructions and manufacturing companies posted a scattered list of fractional advances to form industrials' strongest sections. Utilities, steels and refining oils held gains and losses in in balance but liquors, retail stores and miscellaneous issues slipped.

Western oils eased as Anglo-Canadian, Canadian Williston, North Canadian, Pacific Petroleum Peace River and Western Leaseholds turned downward. Britalta was strong.

Base metals were mixed. Falconbridge, International Nickel, Osisko, Quemont and United Keno Hill strengthened while Consolidated Smelters, and Normetal weakened.

Senior golds dipped: Bralorne, Giant Yellowknife, Hollinger and McIntyre posted losses ranging to about 25 cents. Junior producers and prospects were firm. Campbell and Conwest jumped sharply.

The exchange's 1 p. m. indices showed industrials up .25 at 320.00 golds up .04 at 90.20, base metals down .03 at 187.14 and western oils down .75 at 137.56.

MORE ABOUT—

## Alexander

Continued from Page 1

full statement of what Alexander had said.

Churchill and Shinwell clashed frequently during the Prime Minister's statement. Other Labor members jeered when Churchill insisted that Alexander was unaware that reporters were present at last night's dinner.

He said that when Alexander prepared his statement for the Lords, he had referred its principal contents to Gen. Omar Bradley, chief of the U. S. Joint chiefs of staff.

**RECEIVED BY TAS**

Bradley had said he would prefer that no public reference be made to the strength of reserves, but did not dissent from the statement as an expression of opinion, Churchill said.

But Bradley thought that in its original form the statement might be interpreted as implying that there were virtually no reserves, which was too bleak a picture, the Prime Minister added.

Churchill did not reply when Shinwell asked him if he were aware that Alexander's remarks had been received by Tass, the Russian news agency, which has an office in London. (A full report of the speech was carried by the Press Association, British domestic agency, which subsequently carried a note asking that the reference to reserves be withheld.)

## Hold Secret Talks

LONDON (Reuters)—Australian and U. S. air aces from Korea are briefing R. A. F. fighter pilots on Russian-built jet planes at secret talks in Britain, it was learned today.

POWER PLANT HIT.—Following a day-long attack by more than 500 fighter-bombers of the U.S. Air Force, Marine and Navy air elements, this post-strike aerial photo reveals the destruction of the Suiho Reservoir hydro-electric plant on the south shore of the Yalu River in northeast Korea.

# Extend Labor Contract For Smelter Workers

SUDBURY (CP)—At the request of Local 598, International Union of Mine, Mill and Smelter Workers (Ind.), the labor contract between the union and the International Nickel Company has been given an additional extension. It is now in force until midnight of July 16.

The original contract ran until the end of May, but at the request of the union it was extended to July 1.

A conciliation board will sit Friday in Toronto to seek a solution to differences which have prevented the union and Inco from arriving at a new agreement. The board chairman, Judge Harold E. Fuller, of Welland, was appointed June 23.

# North Bay Ball Team $12.50 Ahead Of Police

KIRKLAND LAKE (CP)—Members of a North Bay fastball team are ahead of Teck township police by about $12.50.

The team, North Bay Dairy, won second place in the annual fastball tournament here. The prize was $50.

The same team was picked up by police for speeding. The fine was $7.50.

# Man In Hospital After After Stabbing Affray

PORT COLBORNE (CP)—Colin Scheivert, 38, is in hospital in serious condition and his wife Ethel is in Welland county jail as a result of what police believe was a stabbing affray in their home near here early today.

Police said Scheivert was wounded in the lower chest with a 10-inch butcher knife. His wife was slightly wounded in the left arm. After treatment at the hospital the woman was transferred to jail.

# Request Permission To Have TV Station

WASHINGTON (CP)—The Gazette Publishing Company of Niagara Falls, N.Y., has applied for permission to set up a television station, it was announced today. The application is one of several hundred from all parts of the U.S received by the federal communications commission. The Niagara district currently is served by one TV station in Buffalo, N.Y.

# Police Search Bush For Asst. Postmaster

KINCARDINE (CP)—Police are searching the bush around this Lake Huron summer resort for Gordon A. Gammie, 27, assistant postmaster of Tara, a village 30 miles northeast of here.

Gammie was last seen in Tara Saturday night. Sunday his automobile and wallet were found on the shore of the lake.

# Norwood United YPU Elects 3 Conveners

NORWOOD — (ENS). — The Norwood United Young People's meeting was held in Cottesloe, with the president Dorothy Stinson in charge. In the business of the meeting Gerald Ivy was elected as recreation and culture convener, Tom tSarke as stewardship and training convener, and Doris Brown as pianist through the summer months.

It was decided to invite George Street United of Peterborough to have a baseball game on July 10.

Orland Brown, faith and evangelism convener, had charge of the worship service. Doreen Brown and Dorothy McMillan each played piano solos. Harold Stinson gave a reading and Doris and Barbara Brown sang a duet. The topic, "Saving Time," was taken by Orland Brown.

# See Politics In Truman's New Appeal

## Chevrier Declares Joint Application Very Important Step

OTTAWA (CP)—A surprise move by President Truman on the St. Lawrence Seaway has puzzled official Ottawa. The President's "11th hour" call on Congress yesterday for rapid-fire Seaway legislation did not upset a joint move Monday by his administration and the Canadian government on the project, but it stirred much speculation.

Mr. Truman's action came a day after the U.S. administration, apparently abandoning hope of Congressional sanction, had turned to an alternative course with Canada to start the $700,000,000 job.

On Monday, the U.S. and Canadian governments joined in applying to the International Joint Commission for permission to construct the $400,000,000 power works. The application carried a commitment that the Canadian government would build the $300,000,000 navigation system alone.

**HITS 'SHORT-SIGHTEDNESS'**

In a letter yesterday to Alben Barkley, vice-president, and Sam Rayburn, Speaker of the House of Representatives, Mr. Truman said Congressional refusal to go ahead on the Seaway project is " a glaring example of short-sightedness." The documents of the U.S.-Canadian agreement "serve notice that the 11th hour has struck."

"If Congress acts rapidly, we can still join, as we should, as a full partner in building, managing and controlling this project."

Congressional action on this message would mean that the U.S. administration would be empowered to join Canada fully in a joint project, splitting the cost of both the power and seaway undertakings.

This was regarded here as not having even a forlorn chance, with Congress due to rise during the week.

Informants here said the president's step came as a complete surprise to the Canadian government, which had a delegation in Washington Monday ironing out final details of the joint application the International Commission.

**POLITICAL MOTIE SEEN**

Some officials here expressed the view that the Truman move is one means to clear the Democratic party's political skirts on the seaway. It would demonstrate that the administration took every possible step to leave the seaway in the hands of Congress.

Particularly, it was suggested, the Truman step would make it plain that the Democratic administration—failing legislation by Congress—had no choice but to name the New York State Republican Power Authority as the U.S. "entity" to build the power works.

Transport Minister Chevrier, whose department will handle the federal end of the seaway and who was in Washington Monday for the signing of the Canada-U.S documents, had no comment last night on President Truman's action.

Earlier, he said in an interview that getting the joint application before the Commission was "the most important step and the most difficult we have had to traverse."

Mr. Chevrier said he hopes now it will be possible to make a start on the development some time in 1953.

He spoke shortly after all political parties in the Commons agreed the seaway should be pushed to completion as soon a possible and the House had heard an opinion from Prime Minister St. Laurent that it does not look as though opponents can block it after I.J.C. approval.

All groups in the House endorsed the idea of an international hydro development and an all-Canadian navigation system.

The Prime Minister, tabling documents on the joint application to the International Commission, said it is "unlikely" that the powerful seaway opponents in the U.S. will be able to upset plans for the undertaking on the basis the two governments are seeking before the commission.

He emphasized that the Commission, set up in 1909 under a boundary-waters treaty, has been asked to give the seaway application high priority. The six-man commission, made up equally of Canadian and U.S. representatives, is regarded as sure to hand down a favorable decision after holding hearings. That will probably take several months.

Hopes that both ends of the project will be developed as quickly as possible were expressed by George Drew, Progressive Conservative leader; M. J. Coldwell, C.C.F. leader, and John Blackmore, acting Social Credit leader, after the Prime Minister outlined the current plans.

Mr. Coldwell said he favors the currently-proposed system. He said one country or the other should build the seaway and take the responsibility for operating it.

## False Alarm

KIRKLAND LAKE (CP)—Police answered a call from a woman who reported a dead bear in a ditch. It turned out to be a bear hide that someone had discarded after trying unsuccessfully to tan it.

...SO GOOD WITH FOOD HAVE A Coke

# Fine Acting Whips Farce Into Delightful Souffle

A farce from the sophisticated pen of Benn W. Levy takes the stage at Queen Mary Auditorium this week, and on Monday night a packed house welcomed it with glee. "Clutterbuck" is a theatrical souffle—a delightful trifle rather than nourishing fare; for its success the lightest possible touch and the smartest possible pace are required. The Summer Theatre company provided what was wanted, except in the third act, which limped now and then.

The theme of the play is a simple one. Mr. and Mrs. Pugh and Mr. and Mrs. Pomfret are enjoying a sea voyage, in a world-weary sort of way. But then the ladies discover that there is a man on board—the irresistible Clutterbuck—with whom they have had previous acquaintance. The gentlemen discover that they also have a friend in common, and that she also is on board; indeed, she is Melissa, now Mrs. Clutterbuck. Anyone at all familiar with farce will know the direction matters take after these facts are made plain.

**FINE ACTING**

There is some first-class acting by the Pomfrets and the Pughs—Betty Leighton and Gerry Sarracini, and Barbara Hamilton and Peter Mews. The versatility of a summer company is half its charm and these players switch from the Christmas Eve in the Workhouse atmosphere of last week's play to the modish manner of "Clutterbuck" with skill and conviction. The admirable settings, by Peter Mews, are of great assistance to the play, though we might wish for more convincing lighting. The direction, by Michael Sadlier, is unobtrusive, but sustains the tone of the play very ably. Mention must be made also af a very funny small performance as an Oriental waiter, contributed by Jerry Campbell.

Special mention must be given to Kate Reid's creation of Melissa. Shakespeare assures us that it takes a wit to play the fool; it undoubtedly takes an actress of quality to play a nitwit. The needs of a summer company have forced Miss Reid to play all sorts of parts, including some heavily emotional ones, but this performance makes it clear that her real and very substantial gift is for ingenues Melissa is the best thing we have seen her do, and it is very good indeed.

The focal role of Clutterbuck himself is played by a very well-known local gentleman who wishes to remain anonymous. We understand and respect his reticence; if it were widely known that he possessed such gifts, the professional stage would claim him at once. Suffice it to say that he brings to the role a height of achievement,a breadth of style, and a general immensity — what we may perhaps call an all-round greatness—that is not merely rare, but hitherto utterly unknown, on the Canadian stage. This is, in every respect, a big performance, and it should not be missed. Excellent as the rest of the company is, all are overshadowed by Clutterbuck himself.

O. D. C.

WHO IS CLUTTERBUCK?—The identity of the visiting star of the Summer Theatre's production of Ben Levy's farce is concealed beneath a hat which only Clutterbuck would dare to wear. The Don Juan is seen here with Kate Reid, Betty Leighton and Babara Hamilton, all responding in different degrees to his uncanny charm—(Examiner Staff Photo).

# Police Honor Brighton Chief

COBOURG (ENS). — Chief Constable Edlon "Dido" Simpson, Brighton, who celebrated his 70th birthday over the weekend, was tendered a huge birthday party by the provincial, municipal and R.C.M.P. of the district at which the popular police chief was presented with a television set and a purse of $546. It started out as a small "do" on his behalf by the police but it soon got out of hand when others learned of it and in no time at all the businessmen of Brighton, plus the police of Cobourg, Brighton, Campbellford, Peterborough, Norwood, Havelock, Trenton, Bowmanville and other centres were in on it and they put on a big reception for the veteran police officer. They lured him away from his home to the Legion Hall while the T.V. aerial was installed and then confronted him with the new T.V. set plus the purse. For the first time in his long career, "Dido" was at a loss for words.

# Bomber Cuts Path Through 14 Houses

SALISBURY, Wiltshire, England (CP)—An R. A. F. fighter-bomber cut a flaming path through 14 small houses in a crash on the outskirts of Salisbury today. Only the plane's two occupants were killed.

All but nine persons got out of the houses unharmed and the nine were not seriously injured.

# Offer Face-Saving Armistice Plan

MUNSAN, Korea (AP)—The snarled Korean armistice talks are in recess for 24 hours at Communist request. The Reds gave no reason for asking cancellation of today's session, but the United Nations Command immediately agreed.

The recess came just one day after Maj.-Gen. William K. Harrison, Jr., reviewed the April 28 Allied plan for exchanging war prisoners and suggested that it offers the Communists a face-saving way to end the long stalemate.

The prisoner issue is the main block to an armistice. The Allies refuse to return prisoners who do not want to go home. The Reds want all military captives back.

In effect, the chief U. N. truce negotiator told the Reds the Allies would erase from their prisoner lists about 100,000 captives who say they will resist repatriation.

This would leave 70,000 to 80,000 Reds to be returned when an armistice is signed.

Harrison suggested that the U.N. plan would meet Communist specifications since war prisoners who refuse repatriation would be given some other classification and removed from the official roster.

The Reds then would get back what they have demanded—all of the war prisoners in Allied hands.

# Car Strikes Fence Following Collision

About $325 damage resulted on Monday night when two cars collided on Highway 28, four miles north of Lakefield.

Hugh Blodgett, 28, of 549 Gilchrist St. was driving south on the highway when he collided with the northbound car of Albert E. Mitchell of Fort Rouille St., Toronto. As a result of the collision Mitchell's car went into the west ditch and plowed through a wire fence, receiving about $200 damage. Blodgett's car received $125 damage.

Mitchell was scratched but otherwise uninjured.

O.P.P. Corporal Fred Rawlings and Constable Jack Ricard investigated.

# Regiment Wins Athletic Meet

Peterborough's 50th H.A.A. Regiment's athletes literally ran off with the reserve units' track and field meet last week while at summer camp at Point Petre near Picton.

The reservists totalled 75½ points, well ahead of the second place team from 59th Light A.A. Regiment of Pembroke. The light anti-aircraft unit racked up 49½ points while the 54th Light A.A. Regiment, Kitchener, scored 17½ and 60th L.A.A. Regiment, Brockville, 22 points.

The 50th Regiment's Gnr. D. R. Sisson topped all individual records, totalling 20 points. Other regiment points were by: Gnrs. Larry Forbes, K. I. Bailey, J. Boldeson, I. J. Smith, O. H. Johnston, M. W. Connell; Bdrs. G. W. Gilders. D. W. McVety, T. M. Fisher, V. W. Newton.

The regiment's officers added points, Major H. R. Hammell scoring a point, Major Walter Gilling three points, Major Herbert Cardwell four points and Capt. W. G. Langhorne five points.

In addition, five points were gained by the relay team consisting of Gnrs. Sisson, Bailey, Forbes and McVety.

Our Sincere Thanks

Mr. and Mrs. Foster and Staff take this opportunity to thank the public for the grand turn-out for our open house Friday and Saturday night. Thanks also for the wonderful co-operation received from the various contracting firms who made this opening possible. We are also deeply indebted to our friends who kindly sent us flowers for this occasion.

We are now officially open and offer you full restaurant service, in Peterborough's Most Modern Restaurant.

FOSTER'S Grill and Restaurant

HOURS:—
GRILL—
Daily, 11 a.m. to 8 p.m.
Closed Sunday.

HOURS:—
RESTAURANT—Daily 7.30 a.m. to 1 a.m.
Sunday, 11 a.m. to 8 p.m.
Monday, 7.30 a.m. to 11 a.m.

A National Service—
I·A·C
—A Canadian Company

Industrial Acceptance Corporation Limited, with its 65 branch offices throughout Canada, provides a national credit service enabling the time purchase of such durable consumer goods as motor vehicles, refrigerators, heating equipment, household appliances, and machinery and commercial equipment.

Proceeds of the new issue of Debentures, which we offer as principals, will be used for general corporate purposes in the continued expansion of the Company's operations:

Industrial Acceptance Corporation Limited
5% Sinking Fund Debentures
To mature July 2nd, 1970
Denomination: $1,000
Price: 98.50 and interest, to yield about 5.13%

A prospectus containing information as to the Company's operations and showing the growth of the business during the past fourteen years will be forwarded promptly upon request by mail or telephone.

## Hastings-Peterborough Not Eliminated

A House of Commons committee on redistribution has recommended that the riding of Frontenac-Addington be eliminated and divided between Hastings-Peterborough and Kingston City. If this recommendation is accepted—which is likely — then Hastings-Peterborough will not only continue its existence, instead of being broken up, but will increase in area and population. Last month after studying the 1951 census figures of eastern and central Ontario, we said that either Hastings-Peterborough or Frontenac-Addington should get the axe; we thought that the blow would fall on Hastings-Peterborough. The committee has let it fall on Frontenac-Addington.

* * *

Hastings-Peterborough is the smallest constituency, in population, of the nine in this region, having 26,324 people in 1951. Furthermore, its population is declining. Another argument against the continued existence of that riding is its boundaries. It includes the eastern part of Peterborough county—Havelock and Norwood, and the townships from Asphodel, north to Burleigh and Chandos—whose commercial, agricultural, educational and road focus is Peterborough. Isolating them politically in the thin, scattered riding of Hastings-Peterborough removes them from their natural orbit. If they were put in Peterborough West riding (renaming it simply Peterborough) fewer than 8,000 people would be added to Mr. G. K. Fraser's constituency.

* * *

Thus the county, federal and provincial electoral units would be one and the same. As the boundaries now lie, they cut off many people from their rightful constituency. Even Peterborough's own esteemed Member of Parliament, Mr. Fraser, does not reside in his own constituency. Yet his home is at Burleigh Falls, only a few miles outside the city and in the very centre of the county. Mr. Fraser's representative is Mr. G. S. White of Madoc, the M.P. for Hastings-Peterborough, which is illogically made to include Burleigh.

* * *

To eliminate Hastings-Peterborough instead of Frontenac-Addington and distribute it among Peterborough West and Hastings South would politically restore the geographic, economic and social unity of both Peterborough county and Hastings county to traditional units—the counties. And the Conservative party standing in the House would not be affected differently by eliminating Hastings-Peterborough rather than Frontenac-Addington. Both are represented by Conservatives. The difference would be that Mr. White rather than Mr. W. R. Aylesworth (Frontenac - Addington's member) would have a disappearing seat. What the Committee's recommendation will do is to reinforce the smaller constituency which is becoming even smaller as the years pass; and wipe out one a third larger, which has increased in population during the decade (to 35,221). This does not seem logical.

* * *

There is, however, a basic logic in the parliamentary committee's decision. To increase the size of Hastings South and Peterborough West would be to increase already populous constituencies; the former had 55,640 people when the census was taken last year; the latter (Peterborough West) 55,123. By eliminating Frontenac-Addington and distributing it to Kingston City riding (36,870) and Hastings-Peterborough (26,324) two small constituencies will be augmented—at the expense of large Frontenac-Addington's existence. (Incidentally, the southern tip of Frontenac-Addington is already within the city boundaries of Kingston because of Kingston's recent annexations.) The constitutional purpose of a redistribution is to draw constituency boundaries according to census findings and so to equalize their populations that each person's vote may have the same weight wherever he be. Judged thus, it would be wrong to add to the already populous ridings of Peterborough West and Hastings south.

* * *

We regret that the parliamentary committee's recommendations mean that the economic and social unity of Peterborough county will continue to be wrenched by the federal constituency boundaries. The county should be one riding for the sake of its natural unity. While the redistribution committee should pay attention to the weight of population, there will still be ridings of 25,000, still ridings of 65,000 in Canada. To put East Peterborough into West Peterborough would add fewer than 8,000 people. But no; it seems that those townships and villages are still to be thrown down Number 7 highway to Madoc, where by nature, environment and commercial interests they do not belong. Mr. G. K. Fraser, M.P., a man of Peterborough if ever there was one, will still not be allowed to vote for himself, nor his Burleigh neighbours for him. The constituency boundaries will still exclude him from his own riding.

## Uncommon Visitors To Canada

During the month of July the Royal Ontario Museum will entertain a group of most uncommon visitors to Canada; they are a collection of rare volumes relating to Shakespeare, which have been lent by the Folger Shakespeare Library of Washington, D.C. This library, as all Shakespeare scholars know, contains the private collection of the late William C. Folger, of the Standard Oil Company and is undoubtedly one of the finest collections of its kind in the world.

Among the books to be shown will be a First Folio—the earliest collected edition of Shakespeare's plays, published in 1623. Earlier single plays of Shakespeare will be exhibited, including a First Quarto of *A Midsummer Night's Dream* and another of *The Merry Wives of Windsor*. As well as the First Folio, the Second of 1632, the Third of 1664, and the Fourth of 1685 will be on view. For readers who may not be familiar with the terms, we must explain that a Folio is a big book, in which each sheet of paper is folded once, whereas a Quarto is a book of more modest size, in which each sheet is folded into four.

Undoubtedly great numbers of people will visit the Museum to see these books. There is an attraction, difficult to describe but easy to feel, about the earlier editions of the works of a great writer. To look at those two early quartos, in the form in which Shakespeare himself saw them, is to share an experience with the greatest of all poets.

## Marrying Younger

One effect of prosperity and the steadiness of it on this continent is that people are marrying younger than they did a decade ago. This trend is particularly noticeable in the United States. In 1951 there were 44,500,000 households in the States; in 1940 there were 35,000,000. Twenty-five per cent. more of the American population is married than in 1940. This is far greater than the increase in population over the same period.

Americans have always married young, but they are marrying still younger now. It is common for a college student to marry before he has finished his course, and permit father to continue his support; or for the bride to work and the young husband to earn money out of school hours and during the summer. And while the standard of living in the United States is the highest in the world, it does not seem to be high enough to permit most newly-married couples to establish a home immediately. Both husband and wife will go out to work, even after babies have arrived—although not many do arrive. The average size of the American family is now 3.5, that is, one and a half children to each couple.

The average age at which an American man marries is now 22½, and an American girl 20½. The average age at which Canadian men marry is 27, and Canadian women 24.

## High Pay For The Graduates

Canadian university graduates in the sciences, both pure and applied, continued to be in great demand. The economic and industrial expansion of this country has created more jobs than there are engineers and young scientists to fill them. As a result, companies go out looking for the men and offer starting pay, promises of advancement and other inducements beyond the highest dreams of their fathers a generation ago.

An interesting operation of the law of supply and demand, as applied to today's engineering graduates, is that pay and opportunities in Canada are now as good as they are in the United States. Very few of them are crossing the border to take positions, because the pay is as good at home, and in Canada there is no draft to take them compulsorily into military service. Men holding advanced degrees in the sciences can still get higher starting salaries in the U.S. but the differential even for them is disappearing.

For generations Canada has been bled by the U.S.A. of her university graduates in all fields, because of the higher pay and better prospects. For years writers and speakers have bewailed this migration—a cultural tribute the United States has exacted from Canada ever since this country was formed. Now, in the sciences, the trek has been halted, and not by speakers or patriotic theories or home ties, but by the simple fact that Canada can now afford and does afford to keep these people in Canada. The time may come when this country will offer as good and gainful opportunities to graduates and able, intelligent men in the humanities. This country needs not only its young engineers, but its young thinkers and artists, historians and philosophers, teachers and sociologists.

## Stars, Not Subjects

By IVOR BROWN

THAT the first week of July should happen to be one of the busiest of the year for London first-nighters is a... indication of how little the months matter in the theatre of today. There is no "season" and success in the West End depends far more on the South, East and North En... than on the inhabitants and visitors in ...e centre. Nor does it depend on the suburbs only; the adjacent towns—and some not so close—dictate the fortunes of the popular pieces. If anyone will note the number and sources of the motor-coaches parked on the fringe of the theatre area during the evening, especially towards the end of the week, he will realise that, as far as Show Business is concerned, the incoming parties can be a determining factor and the "bus-vote" all-important.

✧ ✧ ✧

THE MOTOR-COACHES are on a jaunt and are chiefly in search of frothy or startling entertainment. Given a favourite comedian or two, a "musical" with no music to remember and the minimum of style in production may, with their support, last for a year or two. The appeal of a radio favourite may be enormous, but all this is Industry of Entertainment. And the "straight" theatre is only a corner of that world, whatever its merits.

In that corner the author seems to count for less and less. It is the star-performance that draws. Without Alec Guinness, the American satirical "insect play", "Under The Sycamore Tree", at the Aldwych would not, I think, be of very wide appeal. With him the house is packed. Film-names are supposed to be less magnetic in London than outside, but Guinness is more than a name; he is a genius of the stage as well as of the screen, dry, droll, pathetic, or incisive, continually various, continually victorious.

✧ ✧ ✧

THE HABIT of accepting every translation from the French as a marvel of wit or beauty is dying down. America is on top. There is another American success, "Winter Journey", by Clifford Odets at the St. James's, the tale of a drink-ruined actor struggling to rebuild his career. It is not a remarkable play, but it has remarkable performances by Michael Redgrave, Googie Withers, and the American Sam Wanamaker. So it is one of the smash-hits. Terence Rattigan's "The Deep Blue Sea" at the Duchess, also depends enormously on the mastery of pathos that Peggy Ashcroft commands. With her, the piece has been greatly admired. But it might crumble badly with any but superlative performance in the leading role.

✧ ✧ ✧

THEN there is Shakespeare. The "Old Vic" has had an unfortunate season financially; it started well enough when Donald Wolfit was playing the leads and even Marlowe's little-known "Tamburlaine" packed the house. But when Wolfit withdrew there was far less support for plays likely in themselves to be far more popular. "Vic for Vic's sake" used to be a strong sentiment in South London. Now the younger public do not believe that the play or the playhouse is the thing; they want their bright particular star.

It is no exaggeration to say that next autumn's box-office at the 'Vic' will be greatly affected by the reception of the new Charlie Chaplin film. Claire Bloom will be at the 'Vic' in the early productions and she will open as Juliet. She was picked to be Charlie's leading lady. If she is suddenly acclaimed as a notable film-star, the 'Vic' may find its doors most profitably besieged by crowds who do not care twopence about Romeo and his star-crossed love but are passionate to see Miss Bloom in person and so will put up with star-beglamoured Shakespeare. The prolonged run of "Much Ado About Nothing", not usually a long runner, at the Phoenix, shows the sovereignty of John Gielgud in happy partnership with Diana Wynyard.

✧ ✧ ✧

THE Americans are dominating the world of "musicals" to a rather less extent than they have done in recent years. The tuneful version of Mr. Pepys, with Leslie Henson to lead the cast and Vivien Ellis's charming score has held on at the Strand Theatre to win a very large public. But Americans have been contributing increasingly to our "straight" theatre. One must add the historical chronicle, "The Young Elizabeth", now moved to the Criterion, to their credit. An English actress, Mary Morris, has contributed an electrical performance as the sixteenth century English Queen seen amid the bitter challenges of her childhood, but the authorship is American.

✧ ✧ ✧

WHAT of the British contributions? N. C. Hunter's "Waters Of The Moon", at the Haymarket, is always full, because it has a galaxy of stars. A new English author, Frederick Knott, has written one of the best crime and detection plays seen for years. This is "Dial 'M' For Murder" (Westminster) and Peter Ustinov's fantastic collection of delightful charades called "The Love of Four Colonels" has filled Wyndham's for a year, thanks to the richness of his acting as well as the gay invention of his writing. And J. B. Priestley, with Jacquetta Hawkes as his fellow-writer, has contributed in "The Dragon's Mouth" (Winter Garden) the most ingenious and arresting experiment of the year. This reduces theatre to debate with the minimum of mobility and the maximum of intelligent argument. Priestley is a restless, a courageous, and a public-spirited man. He is always ready to put back into the theatre the money he has made there. Having determined to get round the high expenses of production (and having seen the success of Charles Laughton and other film-stars in doing the same) he has relied on good writing and good rendering by a small cast to overcome the limitations of what is a static discussion of life and its problems. He would not argue that the fuller kind of theatre is hereby replaced, but he can fairly claim that he has experimented in a fruitful and a fascinating way.

✧ ✧ ✧

THE CONCLUSION to be drawn from this is plain. British acting, as exemplified in London this summer, has every reason for pride; but British audiences have not. They are too easily pleased with any kind of musical. They are shy of a new writer and of that kind of play that appeals by its matter and not by its cast. The accepted favourite pieces seem to run on forever; those that start with moderate support have a desperate struggle, whatever their merits. As a continual fighter against this substitution of actor-worship for adventurous playgoing Mr. Priestley is admirable — but lonely.

## PATTERN FOR DISASTER

## Letter To The Editor

**PATCHWORK FOR EAST PETERBOROUGH**

Sir: The 'Examiner' of June 27, under the heading "Riding Shift Joins Part of Frontenac to Peterborough" carries the announcement that The Redistribution Committee at Ottawa is planning a new crazy patchwork pattern for the voters of East Peterborough. Coming as it does 'like a bolt from the blue' with no pre-warning from Ottawa or any source whatever this announcement leaves little time or opportunity for this section of the County to do much about it. Briefly, what is proposed is to foist the tax-payers of the villages of Norwood and Havelock and the Townships of Asphodel, Dummer, Belmont and Methuen into a makeshift constituency comprising an area of approximately 10,000 square miles that even a member in a 'jet' plane would scarcely pretend to service.

Now that the riding of Hastings-Peterborough has been opened up for dicussion, what is the alternative? Simply remove East Peterborough from the entanglements to the east with whom we have little or no business or social contacts and unite it with the remainder of Peterborough county to constitute the riding of Peterborough. This has already been done for both Provincial and Municipal purposes. Such an arrangement would link up all the Peterborough municipalities into a compact easily serviced constituency tending to provide, through the medium of a well-read district press, and the individual business and social contacts of its people, with more valuable and highly informed relations between member and constituents.

Prior to 1925 the County of Peterborough was divided into the Federal ridings of East and West Peterborough. As East Peterborough at that time was one of the smallest ridings in Ontario it was only reasonable that the Redistribution Committee of that day should decide that it should cease as a Federal unit. Accepting the inevitable, the sitting member of that time for East Peterborough believing that a member could best serve his people by the now somewhat out-dated practice of consulting his constituents upon all Parliamentary questions of major importance, promptly called a public meeting in the Town Hall, Norwood, to discuss the disposition of Peterborough Federal ridings. At this meeting which was largely attended by representative residents of both city and county it was unanimously resolved "that the Redistribution Committee then sitting at Ottawa be asked to unite the ridings of East and West Peterborough into the Riding of Peterborough by the maintenance of County boundaries". This resolution was approved by the party caucus and duly presented to the Redistribution Committee. The request embodied in the resolution was apparently accepted by the Committee as no alternative plan was suggested until the final meeting. At this meeting when the boundaries of practically all the ridings across Canada had been confirmed a deadlock occurred in the Committee in settling the boundaries of the riding of Fort William, Ontario. The sitting member a prominent member of the Conservative Opposition had been pressing very strongly for certain adjustments in his riding that he hoped would be advantageous to his re-election. At the same time apparently, the Liberal member for West Peterborough was pressing just as strenuously for a split up of West Peterborough whereby Otonabee, Douro and the village of Lakefield would be attached to West Peterborough to make a 'safe' seat for his re-election. A 'saw-off' occurred and notwithstanding the predominating wishes of the people concerned, the two members were granted their made-to-order seats and the balance of East Peterborough was tagged to North Hastings as we have it to-day. It is interesting to note that sometimes an aroused electorate will have the last word. In the ensuing election in West Peterborough the member who was largely instrumental in the 'fixing' of this supposedly 'safe' riding was decisively defeated and the party he represented has not won Federal election in this riding since.

When the selfish ambitions of the individual or his slavish adherence to party supersedes the rights and wishes of his electorate, the member, the party he represents, and the people whom he is pledged to serve, must suffer. With no thought of being unduly critical of the personnel or the efficiency of our Federal Representatives we believe the union of the Peterboroughs under County boundaries as suggested would meet the approval of a high percentage of the Peterborough County voters. Such an arrangement involving the same area and population as that of the Provincial representative would we believe be quite acceptable to the present member for West Peterborough and aside from the personal wrench in severing the many friendly political ties he has made we believe the withdrawal of Peterborough from this proposed three-way set-up could not fail to prove a boon to both member and constituents of Hastings—Frontenac. If yet unpledged, we still believe even at this late date, that a strong aggressive lobby by our two local members at Ottawa, upon the individual members of the Redistribution Committee, in a cause as justifiable as that of the unity of Peterborough, could even yet prove effective. If not accomplished now the voters of East Peterborough can look forward to the grim situation of being linked up for the next ten years to the 10,000 square mile electorate of Hastings—Peterborough-Frontenac.

Sincerely,
G. A. BRETHEN

## How Time Flies

JULY 2

**1922** Captain James Ward is appointed assistant chief of the local fire department.

The death occurs of Michael Tooley, for many years proprietor here of the Queen's Hotel.

The Keene Church congregation presents a purse of gold to the Rev. W. E. Honey.

**1932** Lt.-Col. T. W. H. Rogers, V.D., who was overseas in the last war, dies in Christie St. Hospital.

Dr. J. A. Morgan and Dr. A. Moir sail to attend the British Medical Association convention in London.

Peterborough had 15 weddings in June, compared with 30 in June last year.

**1942** John E. Keyes of Toronto is named manager here of the Bank of Commerce, succeeding D. B. Falkner who is retiring.

Local police lay charges against bicyclists riding without lights at night.

Lt. James Parsons arrives in England with the motor transport section of the R.C.A.S.C.

## Bible Message

(From the Authorized Version)

In the beginning God created the heaven and the earth . . . And God saw every thing that he had made, and, behold, it was very good. (Gen. 1:1, 31.)

✧ ✧ ✧

O Lord God of hosts, who is a strong Lord like unto thee? or to thy faithfulness round about thee? . . . The heavens are thine, the earth also is thine: as for the world and the fulness thereof, thou hast founded them. . . . Thou hast a mighty arm: strong is thy hand, and high is thy right hand. . . . .

Blessed is the people that know the joyful sound: they shall walk, O Lord, in the light of thy countenance. (Ps. 89:8, 11, 13, 15.)

✧ ✧ ✧

Know ye that the Lord he is God: it is he that hath made us, and not we ourselves; we are his people, and the sheep of his pasture. (Ps. 100:3.)

Let Israel rejoice in him that made him: let the children of Zion be joyful in their King. (Ps. 149:2.)

## Slickers Vs. Maids

(From the Windsor Sun)

Down through the years the innocent rural maid has been pictured as the easy prey of the city slicker with his fancy clothes and sophisticated line. That there was some basis for this belief is contained in observations made by Mayor Charlotte Whitton of Ottawa, herself once a small town girl in the Ottawa Valley, when appearing before a Senate committee. She recalled that in her girlhood a town lass would drop her home-town boy at the sight of a new bank clerk, dressed in patent leather shoes and store clothes, newly arrived from the big city. Rural mothers always have warned their daughters against the advances of smooth-talking dudes from the cities. The warnings, of course sometimes weren't effective; indeed, perhaps only served to whet the girls' interest. The danger probably always was over-emphasized. We recall reading of a minister who was asked for advice by a mother of a daughter leaving to accept a job in a city, and of worries lest evil befell the young woman. The wise old pastor retorted the girl wasn't in any greater danger in an apartment in the city than beside a haystack in the country. If some rural girls have been taken in by city slickers, it hasn't always been a one-way street. Plenty of city fellers have fallen for the allures of rustic innocence, and have ended up at the altar with comely brides.

**OR TIME TO GO**

Mr. Staylate: "Do you know, Miss Sharp, that music quite carries me away."

Miss Sharp: "Isn't that lovely? Do let me play to you!"

BIG AMERICAN SHINDIG

"FIRST STEPS" FOR THE CORPORAL—Cpl. Angel Gomez, of Puerto Rico, who lost both legs and his right arm when he was hit by a mortar shell in North Korea, in November of 1950, leaves his wheelchair to take a few steps on his new artificial legs. The triple amputee is a patient at Walter Reed Hospital, Washington.

# Air Raid Work Demonstrated For Visitors

CALGARY (CP)—Air raid sirens moaned in Calgary streets yesterday in a demonstration of civil defence in action under atomic bombing.

The "bombing," arranged for the benefit of delegates to the Canadian Federation of Mayors and Municipalities annual convention, was directed by Maj.-Gen. F. F. Worthington, federal civil defence co-ordinator, with comments by Sir John Hodsoll, director-general of civil defence training in Great Britain.

Bleachers were set up inside the darkened banquet hall of the Palliser Hotel, where delegates saw steel-helmeted wardens direct rescue operations and recording machines created realistic sounds of falling bombs, anti-aircraft fire and the roar of bombers.

A scale map of the city of Ottawa was laid out on the floor in front of bleachers. While civil defence workers showed how they would proceed into a target area, a projector flashed pictures on a screen of Ottawa streets and buildings after bombing. The Parliament Buildings and the central portion of Ottawa were destroyed.

IT HAPPENS EVERY SUMMER—Fred Butler, of Cambridge, Mass., is high and dry atop the cabin of his cruiser, as he chops three inches of molding from each of two houses so that he may move his home-made craft from the back yard. He also had to chop down six trees, tear up a wire fence, and remove some shrubbery, to free the landlocked craft.

# Havelock L.O.L. Attend Church Parade

HAVELOCK (ENS) —Havelock L.O.L. No. 326, Lady McGill, L. O.B.A. No. 471 and Mayflower Juvenile Lodge held their annual church parade to Havelock United Church on Sunday evening, the large attendance of members being augmented with visitors from lodges in the surrounding district. The parade formed at the Orange Hall and marched to the church led by the Havelock Pipe Band under the direction of Pipe Major Harry Anderson.

The Rev. R. G. Newman delivered an impressive sermon taking as his subject "Holding True to Our Faith" based on the text "Watch Ye, stand fast in the faith, quit you like men, be strong," taken from Paul's message to the Corinthians. There were many adversaries of the faith in the time of St. Paul who were seeking to break away from the first principles of Christianity and to these Paul gave the injunction uttered in the words of the text, which Mr. Newman said were just as applicable in our time as in the early days of the faith. He spoke on loyalty, steadfastness, devotion and sacrifice which had preserved the faith down through the ages. Every Christian should realize that there had been committed to him the greatest of all responsibilities and therefore he is called upon to "stand fast in the faith" a faith which calls for our pride and gratitude.

# Lift Censorship Restrictions About Canadian Troops

By BILL BOSS
Canadian Press Staff Writer

WITH THE CANADIANS IN KOREA (CP)—Censorship restrictions, for the last six weeks forbidding mention of Canadian troops in connection with day-to-day activities at the front, were lifted yesterday.

While most action during the news blackout was confined to patrols, raids and ambushes, the Canadians established a record of being the only United Nations formation to carry out its rotation policy by relieving battalions right in the line. Usually the formations are withdrawn, reorganized and then sent back to the front.

While Canada's 25th brigade was technically in reserve for six weeks last winter, the Princess Patricia's Canadian Light Infantry has actually been in the line since it arrived in late October, though not always in the most exposed positions.

**PATROLS VIGOROUS**

Solidly dug in behind formidable positions along their ridge line west of the Imjin River, the Canadians have vigorously patrolled their share of the Samichon River valley.

Brig. Pat Bogert of Toronto, commander of the brigade, said in an interview: "We completely boss this valley—so much so that to engage the enemy and capture prisoners we usually have to go right up to his positions to find him.

"This demands rare single-mindedness of purpose from our soldiers and we are perfecting this technique and its application."

Lt.-Col. Peter Bingham of Petawawa, Ont., commanding officer of the 1st battalion, Royal Canadian Regiment, said that since this unit was sent to the front two months ago it has averaged five patrols a night.

"Every officer and man has from three to five patrols under his belt," Bingham added. "Their tails are high."

Lt.-Col. Louis Trudeau, c.o. of the 1st battalion, Royal 22nd Regiment, reported similar activity by his men.

Maj.-Gen. Jim Cassels, commander of the Commonwealth Division, in a Dominion Day gesture worked out a plan to enable many of the Canadians to observe their national holiday.

**TO VISIT CANADA**

The commanding officers of all units were entertained for lunch at Bogert's headquarters and a sports meet with all outfits competing was in the afternoon.

Gen. Cassels chose Dominion Day to announce he will visit Canada in October when returning to Britain after surrendering his command to Maj.-Gen. M. A. R. West.

Col. Bingham assumed temporary command of the brigade as Brig. Bogert left to inspect Canadian training installations at Kure, Japan. He will return to Korea at the weekend.

# Norwood News

Mr. and Mrs. Jack Roger, Catherine and Ellen of North Bay spent the weekend at the home of the latter's parents, Mr. and Mrs. W. H. Giffen.

Misses Patricia and Mary Lou Atkinson are spending a vacation at Camp Oconto, Sharbot Lake.

Mr. Wilfred Throop has returned home having spent the past two weeks with his daughter and son-in-law Mr. and Mrs. Kenneth Loyst and family of Sudbury.

# Mothers Give Picnic To Marmora Scholars

MARMORA — (ENS) — The whole enrolment of Marmora Public School with the mothers were present at the annual school picnic on the Public School grounds on Friday afternoon. The picnic was sponsored by the Marmora Home and School Association. A program of races concluded with the following winners:

Girls and boys 4 years, Jenny Young, Bobby Bobyk, Gordon Spry.

Girls and boys 5 years, Eddie McGarvey, Joan Lummiss, Shirley Provost.

Girls and boys 6 and 7 years, Sandy Fraser, Jimmy Deline, Mary Neal.

Boys 8 and 9 years, Eddie McMurray, Dale Walker, Norman McFarlane.

Girls under 9, Monetta Pether, Carol Ann Fox, Carol Wannamaker.

Boys three-legged 9 and under, Eddie McMurray and Ronald Smith, Norman McFarlane and Irven Martin, David Reynolds and Jimmy Deline.

Girls three-legged 9 and under, Marie Revoy and Barbara Revoy, Caroline Fox and Betty Johnston, Pearl McCaw and Betty McCaw.

Boys Sack 9 and under, Eddie McMurray, David Reynolds, Ronald Smith.

Girls Needle and Thread, 10-12 years, Barbara McKenzie, Ruth Spry, Jean Provost.

Girls race 10 to 12 years, Marion Wells, Marilyn Eady, Patricia Spry.

Boys race 10 to 12 years, Daniel Bateman, Robert Chrysler, John Nobes.

Girls three-legged 10 to 15 years, Sylvia Derry and Kathleen Stone, Mildred Brown and Barbara McKenzie, Joyce Stone and Marion Wells.

Boys race 12 to 13 years, Ronald Wells, Nicholas Price, James Bateman.

Boys pick-a-back 10 years and under, John Nobes and James Cuddy, David Reynolds and Douglas Nicholson, Irven Martin and William Vansickle.

Girls race 13 to 15 years, Jane Fox, Doris Merchoff, Phyliss Williams.

Wheelbarrow mixed 15 and under, Jane Fox and John Clemenger, Patricia Spry and Douglas Phillips, Deanna McCoy and George Horton.

Boys pick-a-back 11 to 15 years, Robert Spry and Nicholas Spry, George Horton and Robert Prentice, John Clemenger and Donald Wright.

Girls Needle and Thread 11 to 15 years, Jane Fox, Joyce Stone, Sylvia Derry.

Girls one-legged 9 and under, Jean Provost, Gladys Dafoe, Darlene Youmans.

Boys race 13 and over, George Horton, Robert Spry, John Clemenger.

Boot race girls, Jane Fox, Percy McCaw, Linda Bateman.

Special prizes for winning the most events went to Eddie McMurray in the boys' section and to Jane Fox in the girls' section.

The Marmora boys defeated Madoc School 5-2 in a five innings game of softball. Charles Crawford for Madoc and Bob Prentice for Marmora did the pitching with Mr. Rothwell of Madoc public school umpiring.

Orangeade and ice cream were served by the Association to all present. The teachers supervised the handling of refreshments for the scholars of their particular rooms.

# Goalie Wootton Injured In Rough O.L.A. Fray As Hamilton Wins, 12-7

HAMILTON (Special).—Turning in their finest performance of the 1952 season, Hamilton Tigers trounced Peterborough 12-7, in a fast, rough O.L.A. senior fixture here Monday night.

The visitors were seldom in the game after the first quarter as the Tigers controlled 70 per cent of ... When the Petes did gain possession they were checked to a standstill as the Bengals gave their rookie goaltender, Ted Bracuk, great protection. It was the first game of the season for Bracuk who was substituting for holidaying Doug Favell.

Peterborough lost the services of their netminder, Lloyd (Moon) Wootton midway through the final quarter when he was hit on the side of the head by Tom Love's hard drive. He was later removed to the hospital with a slight concussion. Nit O'Hearn donned the pads for the final seven minutes with each club firing two goals in that space of time.

Although only six penalties were handed out by the officials, both teams played it rough and

Peterborough: Goal, Wootton and O'Hearn; defence, Nickle, O'Hearn; rover, Slater; centre, Mason; wings, Powless, Hildebrand; alternates, Vitarelli, Killingbeck, Ashbee, Fitzgerald, Robinson, Wipper.

Hamilton: Goal, Bracuk; defence, Doyle, Gair; rover, Rankin; centre, Guthro; wings, McDonald, Dorney; alternates, McKenzie, Lee, Welch, Masters, Love, McFarlane, Brown.

**First Quarter**

# P-W Club Fails By Three In Keen Match

By C. H. IRESON.

The local cricketers lost by three runs to Toronto Avro "B" team, the score being 110-107. Avro is a condensed term for the A. V. Roe Co. of Malton, well-known airship firm. It was the P-W cricket club's first council loss of the season, the winners taking the score to 81 for six wickets and the total to 110 as six of the batsmen scored double figures. Leading bowlers were F. Dyer three for 34 and K. Illingworth three for 18.

Peterborough started well and it was 44 for one as Booth scored 31, T. Scott with 30 and W. Wright with 11 took it to 80 for five but there was a collapse then. Capt. F. Dyer, who put himself last for batting, made a big effort with 13 but he was finally bowled out.

**SAD AFTERMATH**

The local team previously defeated Grace Church "B", St. Edmunds "B" entry and the Parkdale "B" team in council matches. The Parkdale match on June 21 had a sad aftermath in the sudden death of Frank Roberts, for many years umpire for the local team and father of Bryan Roberts, fine batsman for the Peterborough-Whitaker Club. Mr. Roberts officiated in the match and saw his son score an excellent inning of 71. On his return to the city, he suffered a heart attack and died in hospital next day. He was an impartial and capable official and a fine worker for the club, which expresses its sincere sympathy to his widow and two sons. Following is the scoring summary of the last match:

The score:

**AVRO B**

Batting — E. Maherty 11, C. Clowe 17, Martingall 10, N. Brazier 0, R. Wallace 28, R. Cathcart 9, A. Beedon 0, S. Hill 18, H. Booth 16, E. Dewis 0 not out, J. Leerman 4, extras 7; total 110.

Fall of wickets — 1 for 26, 2 for 30, 3 for 50, 4 for 58, 5 for 58, 6 for 81, 7 for 84, 8 for 106, 9 for 106, 10 for 110.

Bowling — F. Booth 2 for 35, F. Dyer 3 for 34, E. Beardman 2 for 16, K. Illingworth 3 for 18.

**PETERBOROUGH-WHITAKER**

Batting — B. Ward 8, F. Booth 31, B. Smith 7, W. Wright 11, T. Scott 30, W. Freeman 0, K. Illingworth 0, G. Boardman 0, H. Dibben 1, T. Frazer 0 not out, F. Dyer 13, extras 6; total 107.

Fall of wickets— 1 for 44, 2 for 48, 4 for 79, 5 for 80, 6 for 80, 7 for 80, 9 for 107, 10 for 107.

Bowling—Hall 0 for 24, Beedon 0 for 13, Martingall 7 for 33, Cathcart 1 for 18, Brazier 2 for 13.

Next Saturday, July 5, the local team again go to Toronto to play the Avro A team in a district council match.

# U.E.W. Defeated In 8-2 Fray By Seabrooke's

Seabrooke Motors racked up their eighth win in nine starts (one a tie) at the Bowl, before the largest crowd in many moons, as they trimmed their closest rivals U.E.W. 8-2 Tuesday night in the afterpiece of the men's twin softball set.

Lefty Doris took the hill for the East City stormtroopers opposing versatile Howie Dalton, who also twirled a fine game and suffered defeat through no fault of his own. Three costly errors in the seventh paved the way for three unearned runs and spoiled a close, hard-fought ball game most of the way. Doris hurled great ball, however, scattering four hits, two in the first inning, when the Legrow pack scored their only runs. He fanned two and walked four and was accorded perfect support afield by his mates. Dalton fanned four, walked three, and was touched for 11 safe bingles in all, but held the strong Sullivan band in fairly close check till the fatal seventh.

Leading the attack for Seabrooke's were Russ Scriver with three for four, one a double; Bob Wyatt with two for four, one a triple; Speed Curry two for four, and Spencer and Sullivan with one apiece. All drove in a run except Currie.

U.E.W. .... 200 000 000—2 4 3
Seabrooke's 020 200 40x—8 11 0

U.E.W.— Leether ss, Taylor 3b, Legrow c 2b, Dalton p, Giardino cf, Williams 2b, Robson rf, White lf, Conlin 1b, Craig c

Seabrooke's—O'Heron rf, Spencer lf, Sullivan 1b, Curry 2b, Thompson ss, Wyatt 3b, Scriver cf, Byrne c, Doris p.

Umpires—Payne and Smith.

# Lindsay Takes Close One Against Locals

Lindsay Merchants eked out a 4-1 decision over Al Menzies' local junior baseballers in a fine twilight lakeshore fixture at Riverside Park Monday night, before a fair-sized crowd.

Junior West and Jerry Frizzelle engaged in a good pitchers' duel for the full game; though the latter suffered from a sore arm and was not as effective as usual; otherwise the result might have been different. But it was a keen battle all the way against the strong Scugog squad.

**JUST FIVE HITS**

West gave up five hits, struck out seven and walked four, while the local ace yielded 10 hits, struck out five and passed but one. The visitors scored their runs in the first three innings, and thereafter were unable to do much with Frizzelle.

Doug Loucks accounted for his team's first two runs when he banged a single to centre to score Jewell and Copeland who had hit safely. The visitors added singles in the second and third, largely due to Bob Lewis' big bat and some help from Grant Wickett and Grant Green, Al Menzies' boys tallied in the second when Murray Byrne singled, advanced on Cupoli's fielder's choice and came in when Frizzelle rapped a single past third.

Fielding features were supplied by Byrne off Wickett near the dugout in the first, and Jensen off Loucks in the third. Ken Pammett caught a fine game and the fielding of Green and Copeland was a treat. Two double plays by Petes also featured.

| Lindsay | R | H | E |
|---|---|---|---|
| Merchants . 211 000 0—4 | 10 | 1 | |
| Peterborough 010 000 0—1 | 5 | 1 | |

Peterborough — Pammett c, Kearns 2b, Jensen cf, Halliday lf, Foley rf, Byrne 3b, Cupoli 1b, Frizzelle p, Langhorne ss.

Umpires—Henry and H. Dormer.

## Out At The Kawartha

With "Old Sol" doing his best to make things bright and cheery, a goodly number of matches were played over the week end. The match committee breathed one of their periodic sighs of relief now that matches are up to date

**MIXED 2-BALL**

Janet Mayo and J. Pirie won over Irene Inglis and E. Riley, Dorothy McElroy and F. Todd over Jean Menzies and H. Woodcock. Barb Siddall and R. Howarth over Joan Rahmel and B. Grainger, Carm. Gatfield and M. Akers over Emma Sands and E. Gregson, Florence Riley and H. McLean over Grace Lundly and C. Grant.

**KAWARTHA CUP**

R. Bergey over W. Huntley, W. Elmsley over W. Nash, D. Menzies over G. Grose, A. Fowler over E. Foster, P. Pryde over G. Mason, A. Thompson over A. Todd.

**PRESIDENT'S CUP**

B. Mayfield over G. White, T. Cranfield over R. Forgrave, J. Raine over C. Grant, J. Gatfield over J. Legros.

**McRAE CUP (Men's Senior)**

Charlier Orr came out on top over Leo Ackford.

**MEN'S 2-BALL**

R. Welch and H. McLean over J. Raine and F. Gray, A. Thompson and C. Grant over C. Padgett and S. Rogers, W. Bridgeman and M. Vermette over B. Grainger and C. Grainger, T. McCaig and A. Rhodes over M. Coderre and A. Fowler, M. McCullough and J. McIntyre over B. Moulton and D. Praskey, F. Dunfield and R. Reed over D. Landon and B. Waye.

This Saturday, July 5th will see the Midland League at the Kawartha. Indications point to a good turn-out. Members are asked to be on the scene good and early.

The Business Girl's invitation matches with over 100 entries scheduled for Thursday, July 3, looks like a real good show. The schedule is posted on the outside board. All those joining are asked to check up on their starting time. It is most important that matches start up right on time. The first groups tee off sharp at 5.00 p.m.

**TENNIS SECTION**

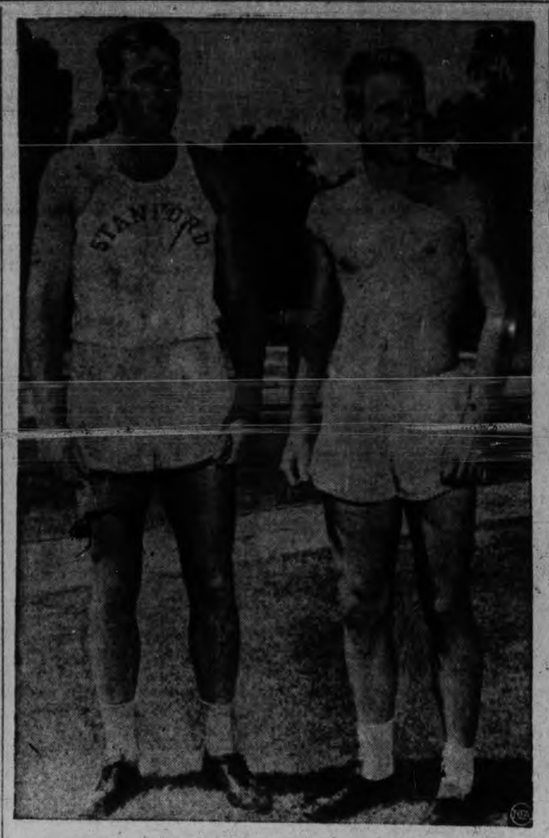
The tennis section has been quiet in these columns so far—partly because they have been busy on the courts, after the initial set-back of two "opening dates" washed out by rain.

A good number of new members have entered for tennis, and a "Beginners' Class" has been in full swing for several weeks. This class is held at 7:30 p.m. on Tuesdays, but when the courts are not playable on Tuesdays, the class is held on Thursday of the same week, at the same hour. There will be no "Beginner's Class" on Tues. July 1, but the class will be held Thurs. July 3 instead. Members who are uncertain of a class, because of bad weather or otherwise, can telephone Ron Lye (24474) or John Fletcher (8969) for information.

The Kawartha tennis team, captained by Ron Lye, has also been busy in the District League, having played 2 home and 3 away matches since June 11. Kawartha lost their first match at home, against Port Hope, and won the next four, playing at Bowmanville, Lindsay and Port Hope, also at home against Cobourg.

The league score-board at the present date is as follows, points score following the club name,

(Continued on Page 19)



IN THE FAMILY—Both Bob Mathias, left, and his 18-year-old brother Jim were to be on hand at Tulane, Calif., for the Olympic Decathlon Trials.

# SPORTS SHOW WINDOW

By CEC. PERDUE, Sports Editor

Kingston Monarchs, currently in second place in the C.O.B.L. will be here tonight to play the Petes at 8:30 in Riverside. If the weather is oke. This is the tilt postponed from Monday night. Seems the K's sent word late in the afternoon Monday that they couldn't make it with a full team, owing to the long holiday weekend and so many guys being out of town. Too late notice to advise the public. That makes it tough for those who trek over the bridge to find no senior game on. However, it's better than Kingston sending up half a team and having a poor contest. This time they'll be at full strength and seeking vengeance on the Petes for beating 'em last time out.

* * * * * * *

**Lindsay intermediate Merchants of the diamond didn't have any soft touch in taking a Lakeshore Loop ball game here Saturday eve, just yanking out a 4-1 verdict over the local juniors. A tidy tilt and Al Menzies' squad—which is coming along good lately—could have won it with a few more timely hits. At that, Junior West—who knows his way around a rink, too—twirled neat five-hit ball and showed a sharp bender and nice control. Jerry Frizzelle was solid, also, on the home mound after the first frame. Doug. Loucks, another Peterborough chap performing on other lakeshore fields, drove in two early runs for the Scugog pack. Local lads play again later this week.**

* * * * * * *

## Femmes End Schedule

Burtol's finished out the Girls' Softball League in a blaze of glory with a double win in loop play at the Bowl Monday night. They also had a stiff exhibition Saturday eve here 'gainst Toronto, so the lasses needed the holiday Tuesday. On account of group semi-final playoffs are on tap tonight in the East City saucer. The Burtol belles beat Ashby's 5-1 in a swell struggle, and had it fairly soft in taking Lindsay 15-1. Got some fine flinging, fielding well and came through with the thumps with ducks on the pond. Joan Dunk and Mabel Gillen led the hitters for the victors in the twin triumph. Ashby's made it a stern battle ere bowing. Tonight, it's Marines vs. Burtol's, and Cobourg vs. Lindsay here.

* * * * * * *

**An interesting regatta at Jack's Lake east of Apsley on the holiday, and a big crowd viewed the motorboat races, swim events and exhibition of water ski-ing. Four or five C. N. E. stars, some of 'em holding Canadian aqua ski titles, did their best at the show as a real workout for the big Toronto exhibition. Carol Anne Duthie—her dad runs sports at the big Ex.—is Canadian open champ for girls and recently returned from capturing a similar crown in Mexico. They do get around, just like the top figure skaters. There's a lot in common between these sports, both being very graceful and requiring oodles of work ere they strut the fruit of these years of toil for a brief minute. Occasionally, they draw a good round of applause.**

* * * * * * *

## Timbermen Are Peeved

Readying up for their Friday night senior lacrosse fixture here, the Petes' Timbermen are madder'n three hatters. (Can't blame hatters for being mad with so many guys going bare-headed now.) They took quite a bruising in Hamilton on Monday eve and lost 12-7 after beating the rugged Tigers here by a somewhat similar score Friday. They didn't like the bumps, they didn't like the refereeing, and they didn't like going down a bit in the loop ladder. Mimico is building up a fair-sized lead in the race lately. The Timbermen could be dislodged shortly from second place, too. Added to that, Moon Wootton was whacked on the head in the final frame and suffered a concussion, though he's pretty well over it now. Nit O'Hearn finished in goal. No wonder the Thorpe crew were burned up after that game!

* * * * * * *

**Seabrooke's softballers downed U.E. by 8-2 last evening at the Bowl in a neat encounter to remain undefeated so far this semester. Lefty Doris threw four-hit ball and had ace backing while Howie Dalton also pitched good ball but his support wobbled a bit at times. A right hefty gallery on deck as the race warms up in this circuit. The other part of the double-header saw Bert Fife allow but three hits for the Revoy team as they trimmed Lakefield in a 10-1 tussle. Boyd Cowie swung a mean mace for four hits in five tries, and his mates all hit freely and fielded okay. Tilts tomorrow: U. E. vs. Lakefield, and East City vs. Revoy's.**

* * * * * * *

## Picking 'Em Off Vine

Latest word today is that Belleville Reds will be at Riverside tonight, instead of Kingston—but, in any case, there'll be a senior game....Several schedule switches have been made recently in the C.O.B.L....East City Braves beat the Cobourg peewees 16-6 here ....Timbermen tied B'nai B'rith in the Civic Loop; they play Kesco, as Bell meets Foresters tonight....Woollens are at Quaker this eve, and Norwood plays Marines at Brinton....Senior lacrossers drill at 7:30 tonight....O.L.A. juniors practise sharp at seven tomorrow eve and all should be present....Local juves are down just four goals in their O.L.A. series with Lopg Branch—going there tomorrow—but games count first and goals second in this four-game sawoff setup....The Midgets practise at 6:30 tonight....Rhys Holman of Cobourg's grid Ghosts has been transferred on his job to Peterborough....Victory Hy was third in a recent race in Quebec....Local cricketers lost a close match to Toronto Avro....The works.

**WILLIE PEP AGAIN**

Hard-punching Tommy Collins of Boston took a boxing lesson from Willie Pep for six rounds at Boston Monday night and then gained a six-round technical knockout over the former featherweight champion. The referee stopped the fight when Collins had Pep at his mercy midway through the sixth. Collins weighed 130½ to Pep's 126¾.

# Revoy's Gain 10-1 Win In Men's Tilt

Behind the three-hit pitching of Bert Fife, Revoy's defeated the Lakefield Merchants 10-1 Tuesday night to strengthen their hold on third place in the men's softball standing.

Revoy's took kindly to the offerings of Dick McCracken on the visiting hill and blasted out a six-run lead in the first frame on five solid hits and a pair of errors. This early lead proved sufficient as the Merchants seemed unable to fathom the slants of Fife.

Fife struck out four and walked but one while his mates gave him good support afield.

Leading the attack for the classy Hawkes' crew were Boyd Cowie with four solid hits in five trips to the plate to drive in two runs and score a pair. Bob Nelson and Doug Whalen each drove in a pair, the former hitting two for four; the latter a double in four trips. Jack Mather hit three for four, and Perc Elmhirst had two for four.

Lakefield.. 000 001 000— 1 3 7
Revoys ... 610 120 00x—10 15 3

Lakefield—Henry 2b, Loyst 1b, C. Wasson c, R. Wasson 3b, Heffernan rf, Cupoli lf, Twist cf, Leckley ss, McCracken p.

Revoys— Wood 3b, Mather 2b, Elmhirst 1b, Mackness cf, Cowie lf, Nelson ss, Whalen rf, Hope c, Fife p, Hayes, Clysdale (alternates).

Umpires—Smith and Payne.

# Burtol Lasses Take Two In League Play

Burtol's took both ends of a twin bill to wind up the Girls' Softball League schedule at the Bowl Monday. They beat Ashby's 5-1 and trimmed Lindsay 15-1.. J. Dunk and D. McFadden held Ashby's to six hits while their side got a dozen, and they fielded a little better. A. Anderson and M. Hawthorne shone afield and the team pulled two double-plays in probably the best game of the season. J. Dunk hit four for five as M. Selkirk clouted a homer. B. Partridge led the losers with two for five, E. Simmonds having a double, as M. Boyce and B. Anderson were strong defensively.

The other joust saw Burtol's collect 16 hits, M. Gillen leading the way with three for four. Marg Selkirk hurled three-hit ball for them but her support was just fair, M. Gillen and B. Morrow going best in the field. D. Britnall and R. Gilson stood out on the defensive for Lindsay, with the latter, M. Manley and P. Graham getting their only bingles. D. Mitchell was hit hard. Teams: tough all the way. Numerous injuries forced players of both sides to retire frequently for repairs, though most of them later got back into the slambang action. The scoring was well spread around.

**FIRST GAME**

Burtol's: G. Dracup, lf; M. Batley, lf; J. Dunk, p, 1b; B. Morrow, ss; M. Hawthorne, 3b; M. Gillen, c; A. Anderson, cf; B. Rumble, rf; D. McFadden, p; D. Jackson, 2b; M. Selkirk, 1b, rf.

Ashby's: B. Partridge, ss; B. Anderson, 1b; E. Simmonds, 3b; D. Smith, c; M. Boyce, lf; D. Thompson, cf; M. Moser, p; B. Callan, 2b; S. Wakeford, rf; A. Merrith, rf.

Burtol's ..... 100 010 111—5 12 2
Ashby's ..... 000 010 000—1 6 3

**SECOND GAME**

Burtol's: G. Dracup, lf; J. Dunk, 1b; B. Morrow, ss; M. Hawthorne, 3b; M. Gillen, c; A. Anderson, cf; B. Rumble, rf; D. Jackson, 2b; E. Dracup, 2b; M. Selkirk, p.

Lindsay: D. Britnall, cf; R. Gilson, lf; D. Wakelin, c; J. Walling, ss; M. Manley, 3b; P. Graham, 1b; D. Mitchell, p; M. Sharpe, 2b; S. Coppins, rf.

Burtol's ..... 402 303 3—15 16 4
Lindsay ..... 000 001 0— 1 3 3

Umpires—Snape and Payne.

# Arnold-Jones Capture Cup

By HERB MARTIN

Playing under ideal conditions and with entries from Cobourg and Port Hope, the local club staged the annual tournament for the Ovaltine Trophy on the holiday.

Mrs. J. Arnold and W. Jones were high with three wins for first place and the trophy. Mrs. L. Yeotes and A. Maunder came second, Mrs. H. R. Martin and R. Gamble third, and Mrs. L. Plummer and V. Highfield the fourth three-game winners.

It was another of the good tournaments sponsored by the club.

**GOOD BOWLING**

The bowling was well above the average, not too many one-sided scores.

We have an idea that the bowlers, especially the ladies, will feel somewhat tired after a strenuous day, the sun and the exercise being responsible.

Tonight at 7.30 o'clock, mixed rinks, draw from the board.

Winners:

Peterborough, 1st and Ovaltine Trophy—Mrs. J. Arnold and W. Jones, sk.

Peterborough, 2nd — Mrs. L. Yeotes and A. Maunder, sk.

Peterborough, 3rd—Mrs. H. R. Martin and R. Gamble, sk.

Port Hope, 4th—Mrs. L. Plummer and V. Highfield, sk.

Peterborough, 5th — Mrs. C. Renaud and R. Dyer, sk.

Peterborough, 6th—Mrs. F. Hall and S. Wildman.

Peterborough, 7th — Mrs. Crocker and E. Pritchard, sk.

Additional Sports On Pages 7, 8, 9

SCRAMBLED LEGS—Ed Stewart of the W... ground, and the Nationals' Floyd Baker were a tangle of arms and legs during a force-out at second base at Comiskey Park. Second Baseman Baker regained his balance in time to complete a double play.

# B'nai B'rith, Timbermen Draw in Civic Loop

B'nai B'rith and Timbermen tied 5-5 in a nifty Civic Softball League encounter, though the Timbermen got but four hits to eight and booted four while the other side kicked just two. Peters and Bloom fanned 11 but the Timbermen cashed in on walks and miscues with the odd timely bingle. They had taken the strong Salvation Army squad two nights before on fine pitching by Rogers (who hurled both jousts) and good fielding in a tight 8-7 game. They tied the joust with B'nai B'rith in the last inning. Teams:

B'nai B'rith—Evans, Pagett, A. Smith, J. Smith, Hewie, Brierly, Tully, Godfrey, Bloom, Peters.

Timbermen — McLeod, Carson, Rogers, B. Dyer, Payne, D. Dyer, Hogan, Murphy, Smith.

## Toronto Canoe Club Winner At Regatta

TORONTO (CP)—Toronto sailing and canoe club yesterday won its first Dominion Day regatta with a total of 47 points.

Second was Toronto Balmy Beach Club with 44 points. Toronto Island Canoe Club was third with 24½ and Sudbury fourth with 19½.

A triple winner was Don Guest, member of a famed rowing family, who won the junior heavy singles high school singles and quarter-mile open dash for Toronto Dons.

A contingent from St. Catharines won the 135-pound fours open, the 135-pound eights open, the high school eights, the senior 135-pound eights and the heavy eights.

## Cleveland Downs Browns 4-3 In 19-Inning Game

*By JOE REICHLER, Associated Press Sports Writer*

Baseball's unsung Minute Men— the relief pitchers—should feel proud of themselves today. Ranging from the superlative 11 and 10-inning chores of Satchel Paige and Lou Brissie, respectively to the two-inning tenure of Ted Wilks, the performances yesterday of no fewer than seven rescue workers were magnificent.

Here is how the reliefers shone as only two of the 16 starters went the distance:

1. Brissie and Paige—hooked up in a spectacular pitching duel from the 10th inning on with Brissie and Cleveland finally defeating St. Louis Browns in a record-tying 19-inning night game, 4-3. Brissie relieved Bob Feller in the 10th and hurled nine scoreless innings before yielding a tally in the top of the 19th. Paige pitched 10 runless frames after replacing Ned Garver in the ninth but weakened in the 19th as the Indians scored twice.

2. Clem Labine—worked four scoreless innings for Brooklyn after relieving Ralph Branca and was credited with the victory when the Dodgers came from behind to nip Philadelphia Phillies 4-3. The victory enabled the Dodgers to retain their 3½-game lead in the National League.

**STOPS BOSTON THREAT**

3. Hoyt Wilhelm—stopped a Boston threat in the fifth and went on to yield two runs in the next four innings as the Giants handed the Braves their sixth straight loss, 6-3, to remain on the heels of the Dodgers.

4. Don Johnson—handcuffed Philadelphia Athletics with two hits and no runs in four innings after Washington had tallied four times in the sixth to preserve the Senators' 6-5 victory. Washington thus moved into second place in the American League, 3½ games behind the Yankees.

5. Wilks—relieved Forrest Main with the bases loaded and none out in the eighth and stopped Chicago Cubs cold for two innings as Pittsburgh emerged with a 3-2 victory.

**STOPS SOX**

6. Fred Hutchinson—stopped a Chicago three-run uprising in the second inning and pitched seven scoreless frames until he tired in the ninth as Detroit rallied to down the White Sox 6-4.

In the two games where the starter went the route, Vic Raschi pitched the Yankees to a 3-2 decision over Boston Red Sox and Wilmer (Vinegar Bend) Mizell hurled St. Louis Cardinals to an 8-3 decision over Cincinnati Reds.

Bobby Brown doubled Mickey Mantle home from first in the eighth to snap a 2-2 tie and hand Boston's Dizzy Trout his seventh defeat.

Enos (Country) Slaughter was the big gun in the Cards' win. The veteran outfielder batted in five runs with a pair of homers to back up rookie Mizell's six-hit pitching. Slaughter became the fourth player among active major leaguers to pass the 1,000 runs-batted-in mark, bettering that total by one.

Paige, who had won six and saved nine of the Browns' 32 victories, came within inches of hurling 11 scoreless relief rounds. The Browns had broken through Brissie's serves in the top of the 19th, taking a 3-2 lead when Dick Kryhoski walked, advanced to second on a sacrifice and scored on Jim Delsing's single.

Bobby Avila, however, opened the last half of the 19th with a single and scored the tying run on Al Rosen's one-out double. After Larry Doby made the second out, pinch-hitter Hank Majeski singled to score Rosen with the payoff run.

## Crowd Of 19,616 Fans See Stock Car Races

TORONTO (CP)—Believed to be the largest crowd ever to watch stock car races in Canada, 19,616 fans last night saw Norm Brioux of Toronto win the 50-lap Summer Classic championship on the Canadian National Exhibition half-mile track.

Ivan Boone, also of Toronto, finished second. Only 11 finished of some 24 starters. The victory gave Brioux the major share of $4,000 prize money.

## Napanee Driver Wins Top Stock Car Honors

BELLEVILLE (CP) — Frank of Napanee, driving his Brinklow special, captured top honors yesterday in the six-mile feature event on Dominion Day stock car auto race card at Shannonville speedway. He defeated eight others.

Rip Hartley of Kingston won the four-mile consolation race handily.

# Truck Driver Russia's Olympic Hope

By TOM WHITNEY

MOSCOW (AP)—The foremost women sports star of Russia is a lanky, angular truck driver named Alexandra Chudina.

Russians are looking to this lean girl to win individual honors in the Olympic Games at Helsinki, starting July 19.

Alexandra—nicknamed "Sasha" holds the Soviet records in both the high jump and broad jump, and her performances are only slightly off the world's best marks.

She runs a formidable 80-metre hurdle race, her best time being 11.4 seconds. She is Russia's fourth-best javelin thrower with a heave of 162 feet. She is a member of Russia's 400-metre women's relay team which established a world's record during the last year.

Sasha holds Russian records in the triathlon for women and in the pentathlon's No. 2 and No. 3. She is the country's outstanding volleyball player.

**THE HARD WAY**

Now in her late 20s, the gifted athlete developed her skills the hard way.

She graduated from high school the day before Germans poured their legions into Russia. She dug bomb shelters in Moscow, then entered a Moscow war factory.

For years she drove a three-ton truck. In 1944 her athletic prowess was recognized and she was put on the "swing shift" so she could work at night and train in the daytime. She became an immediate sensation.

The Russians, however, are expected to do their best in the Olympics in the discus, shot put and javelin throw. Their running remains a question mark.

GUNNING FOR GLORY.—Louise Suggs, of Carrollton, Ga., drives to the seventh hole during the Women's National Open Golf Tourney at Philadelphia. In the final round late Sunday, Miss Suggs drew nearer to her second women's open title and the world's record for women's competitive golf scoring with four-over-par 38 for the out nine. Her 63-hole total was 247 and she needed only a 40 on the par-35 back nine to nip the 288 record held by Mrs. Babe Zaharias.

# Option Luke Easter To Indianapolis

CLEVELAND (AP) — Luke Easter, on whose six-foot-four frame Cleveland Indians had pinned a big chunk of their 1952 pennant hopes, was optioned to Indianapolis last night.

The 235-pound Negro first baseman will be on 24-hour recall.

In 63 of the 69 Cleveland games this season, Luke's batting has averaged only .208, lowest of any Tribe regular. His 11 homers are seventh high in the league, but Luke—slowed by a bad knee—has hit into frequent double plays.

# Torgy Dislikes Being Doormat

BOSTON (AP) — Statistically speaking, the seventh-place Boston Braves are close to being the National League's doormat.

But aggressive Earl Torgeson indicated last night how dangerous it is to try to walk on them.

Torgy enlivened the 6-3 defeat by New York Giants by storming the latters' bench to attack catcher Sal Yvars.

When Torgeson went to bat in the first inning, Yvars complained that Torgeson was hitting him on the shins with the backswing of his bat. Torgeson gruffly suggested that Yvars stop crowding the plate.

Torgeson connected for a single and Yvars then smashed his bat against the plate.

Torgeson had to return to right field as soon as he was stranded as a base-runner. But after the Giants were retired in the second inning, he took off for the Giants' dugout and landed a left hook that sent Yvars crashing against the cement wall. The blow opened a wide gash over Yvar's right eye, which required post-game stitching in hospital.

"Breaking a guy's bat is like slapping him in the face," Torgeson explained as he cooled off in the clubhouse. "We may be in seventh place but we don't have to take that insult."

**Popular Game Bird**

SHELBURNE, N.S. (CP)—First large-scale attempt to establish the Chinese ring-necked pheasant in this area will be made next fall when sportsmen plan to release about 500. The pheasant chicks were bought from Trappist monks at Oka, Que.

# Royals Divide Twin Bill With Orioles

By THE ASSOCIATED PRESS

Ed Roebuck, who will be 21 years old tomorrow, looms as Montreal's top candidate for the International League rookie-of-the-year honor.

The lanky righthander started slowly but of late has been one of the Royals' best pitchers.

Roebuck, who hurled a one-hitter June 20, turned in his fourth straight victory and fifth of the season yesterday as the pace-setting Royals split a Dominion Day doubleheader with Baltimore Orioles. Roebuck allowed only two hits as he breezed to a 10-2 triumph. The Orioles, behind the two-hit tossing of Paul Stuffel, won the second game 3-1.

Roebuck led the Montreal attack, driving in four runs on a pair of doubles and a single. Carm Mauro of the Royals also had three hits including a home run.

The Orioles snapped a 1-1 tie in the fifth inning of the second game, scoring twice on Al Lakeman's second double of the game.

The split enabled the Royals to maintain their two-game lead over Rochester Red Wings who divided a twin bill with Toronto Maple Leafs.

**LEAFS-WINGS SPLIT**

John Hetki turned in his eighth victory for Toronto in the opener, besting Fred Hahn 3-2 on Andy Anderson's seventh-inning homer. Rookie George Condrick blanked the Leafs 2-0. Steve Bilko tripled home the first run and Rip Repulski homered for the other.

The third-place Syracuse Chiefs and Buffalo Bisons also divided a doubleheader. The Chiefs won the opener 5-4 on Bob Drescher's bases-loaded single in the seventh and the Bisons took the nightcap 3-2.

Springfield and Ottawa divided a twin bill, the Cubs winning the second game 5-4 in 10 innings after Ottawa won the opener 6-3.

Mario Fricano breezed to his sixth victory in the opener. Red McQuillen singled home Gene Hooks with Springfield's winning run in the second game.

# Here And There In Sports

By THE CANADIAN PRESS

General Manager John Quinn of Boston Braves yesterday instructed his Braves Field police force to bar Leo Durocher, suspended manager of New York Giants, from press and radio booths atop the grandstand.

Quinn accused Durocher of directing the Giants from the press box during Monday's doubleheader, won by the Giants.

"I can't protest the games because it wouldn't be allowed," Quinn said. "Everybody but the four umpires saw Durocher managing the team from one of the press boxes."

The senior National League umpire, Larry Goetz, admitting he saw Durocher making the signals, said: "The rules say a suspended manager can sit anywhere except near his own dugout. I'm an umpire, not a detective. Until they put a few teeth into that rule I can't do a thing."

Durocher is on the sidelines for four days as the result of a dispute with Umpire Bill Stewart.

**MANY ENTERED**

A field of 116, including five top-flight United States entires, will tee off Thursday at Toronto's suburban Weston Golf Club for the Ontario Open Golf Championships. The 60 lowest scores will qualify for the 36-hole final Friday.

**BOBBY BROWN CALLED**

Bobby Brown, third baseman of New York Yankees, was notified yesterday in New York City that he must report for duty as a doctor with the U.S. Army Medical Corps, July 9. Bobby, a $51,000 bonus beneficiary, has been with the New Yorkers since 1946.

**MANY TO WATCH**

The ticket department of the Olympic Organizing committee last night announced at Helsinki that 30,000 foreign guests are expected each day at the Summer Olympics.

**MOVE INTO SCOTLAND**

The Canadian Lawn Bowlers Association representative team swung into Scotland yesterday, where it will stay for 10 days, playing Scottish clubs.

**LEAFS GET LEHNER**

Toronto Maple Leafs of the International League announced yesterday that they had at long last signed outfielder Paul Lehner. Lehner was acquired last week by Boston Red Sox for the $10,000 waiver and went to the plate only twice during this time.

**HOLDS ON TO CUP**

Bill Mawhinny retained his British Columbia Amateur golf title at Vancouver yesterday by defeating Walt McElroy one up in a 36-hole final. Mawhinny carded a 71-74—145 while McElroy shot for a 74-72—146.

**BREAKS OWN RECORD**

Argyle Strattan yesterday lowered his mile record to 2:07 in the final heat of a Dominion Day harness meet at Strathroy which attracted some 6,000 fans. Owned and driven by Dun Campbell of Ailsa Craig, the bay gelding has lowered its marks in every race this season.

**Historic Robe**

COLONSAY, Sask. (CP)—A 98-year-old christening robe was used when the infant son of Mr. and Mrs. Cliff Leigh was christened here. Little Robert Bruce wore the same robe that was used for the christening of his father, grandfather and great-grandfather.

ATHLETES' MECCA.—The main stadium at Helsinki is prepared for the 1952 Olympic summer games, which begin next month. Athletes from various nations, including Russia and her satellites, will participate. The traditional Olympic Torch is on its way to Helsinki from historic Mount Olympus, Greece.

# Flam, Drobny Staging Duel

WIMBLEDON (AP)—Herb Flam, the lone American survivor, takes his try-and-pass-me game on to Wimbledon's centre court today in a duel with Jaroslav Ddrobny, the cat-footed Czech, for a place in the finals of the all-England lawn tennis championships.

Drobny, 31, will be spotting Flam eight years.

Flam has developed into a tireless retriever. Slam one into a corner and the youngster taps it back over the net. Drop one in the service court and he races forward to lob it safely with the tip of his racket. Try to pass him and he sticks out his racket to send the ball pinging back along the sidelines.

Against such a game, Drobny has the weapons to outlast his opponent—a dangerous serve and a darting left-handed backhand that often scores with cross-court placements.

Two young Australians, 24-year-old Frank Sedgman and 22-year-old Mervyn Rose, meet in the other semi-final. The survivors will clash for the title Friday.

Rose looked good beating defending champion Dick Savitt Monday but he is erratic. Sedgman, the U.S. champion and top-seeded at Wimbledon, has lost only one set in five matches so far.

**DEEP THINKER**

Sir Henry Jones, distinguished British philosopher who died in 1922, worked for a time as a shoemaker.

# Aqua Ski Aces Perform At Jack's Lake

As a preview to a similar performance billed for the C.N.E. later this summer, some top talent in Canadian water skiing gave a fine rehearsal before a big crowd Tuesday at the Jack's Lake Regatta.

It was the third annual regatta staged by the Jack's Lake Cottagers Association. Ideal weather prevailed, with the water just a trifle choppy for the skiers. A dozen motorboat races and several swimming competitions made it a complete aquatic program. H. V. Shipley was chairman of the recreation committee for the events and, as soon as the completed results are released for the competitions, they will be published.

**SKI CHAMPION**

Carol Ann Duthie, of Toronto, Canadian open water ski champion of women—and she holds various other championships, including that of Mexico, from where she recently returned — turned in an excellent performance of grace in motion in various poses. She is the daughter of George Duthie, C.N.E. sports director, and he attended the regatta.

Joan Weale, of Toronto, Canadian women's champion, and her runner-up, Arlene Milburn, of Toronto, also demonstrated their aquatic ski prowess. Charles Blackwell, of Owen Sound, Canadian men's champion, was another outstanding performer, as was Graydon Elliott, of Toronto, Canadian doubles champion on water skis. Their repertoire was extensive and varied, and their class drew applause. They interspersed some clowning in spots, and the elderly Herb Elliott showed considerable class on the boards.

**FANNY WILL BE BACK**

Fanny Blankers-Koen, the fleet-footed Dutch housewife will enter four events at Helsinki—the 100-metre dash, the 200-metre dash, the 80-metre hurdles and the 400-metre relay. However, she has signified her intentions of calling it quits following the Olympic events.

EQUALS RECORD.—Ron Miller of the Toronto Track Club equals the Canadian Olympic standard of 13 feet 3 inches in the pole vault event at the trials at Hamilton. He won a place on the Canadian team to compete at the summer Olympics in Helsinki.

JET HURDLER.—Tiny Shirley Eckel, 20, of Toronto, 97-pound bundle of spring dynamite, broke the Canadian record in the 80-metre hurdles at the Olympic trials at Hamilton and will represent Canada at the summer Olympics in Helsinki. A student at the University of Toronto, her mark of 11.6 seconds was only 4/5 of a second off the world record for the distance. She also will be used in the 100 or 200-metre sprints and possibly will be called on for the 400-metre relay team.

3-Way Shave!

It's medicated...there's the secret!

Whether you shave with a brushless cream or a lather soap, you're in for a grand surprise, first time you try new 3-WAY SHAVE! It's the new "wonder shave" that takes up where other shaves leave off—does more than just soften your beard—it's *medicated*—good for your skin! Here's what it does for you.

1. Prepares whiskers, skin. Softens toughest whiskers. Provides lubricating film for smooth razor glide. Protects tender skin.

2. No more smarting! Has exclusive medicated built-in pain preventive to soothe tender skin. Shave in *real comfort* for the first time!

3. Helps heal invisible razor damage you get with every shave. It's medicated. Grooms skin—helps keep it healthier, younger-looking.

Try a 3-Way Shave for one week. Use it as a brushless—or before and after your regular lather. Then try your *old* shave preparation again. If you don't agree that 3-Way Shave gives you a far better shave in every way, return it to Noxzema, Toronto—your money will be refunded.

Get Noxzema's new 3-Way Shave in tube or jar at all drug, department and syndicate stores.

# Believe Rolfe To Be Fired From Tigers

DETROIT (AP)—It appeared certain today that Red Rolfe is going to be fired as manager of Detroit Tigers. Still undecided was the choice of a new manager for the last-place American League club.

Rolfe, nearly everybody agreed, is going to get the ax Saturday. And he appeared resigned to his fate.

Walter (Spike) Briggs, president of the Detroit club, has called a meeting of his board of directors for 5 p.m. Saturday. Briggs said last night he will recommend a change in managers for the rest of the 1952 season.

Rumors have been current for some time that Rolfe was on his way out as the Tigers became mired deeper in the cellar.

Rolfe appeared ready to yield to the inevitable.

"All I know is that I am sick and tired of all these rumors," said Rolfe, whose leadership of the Tigers won him the honor of manager-of-the-year two years ago when the Tigers were pennant contenders.

"If they're going to fire me why don't they do it and get it over with?"

**OARFISH LONG**

BLASTING OUT—Jim Turnesa, paired with Ted Kroll in the semi-finals of the P.G.A. tournament in Louisville, Ky., blasts out of a sand trap. Turnesa and Kroll wound up in a tie in their morning round, necessitating a 36-hole, tightly contested playoff. Turnesa was the final winner in the tournament.

# Bethany Boys Beat Millbrook

BETHANY (ENS) — Bethany defeated Millbrook here on Monday night in the score of 7-4, Edmunds hurling good ball all the way, Art Stewart receiving and the team going good afield. Ginn, Edmunds and R. Stewart were the heavy batters.

Bob Ryley, the new junior on the team, got a big hand from the fans as he played errorless ball picking three high fly balls with the ease of a veteran.

Breckenbridge and McGill shared the mound for Millbrook, Edmunds and McGill receiving. Lunn had a triple. Score:

| | | | |
|---|---|---|---|
| Millbrook | 110 | 010 | 1 |
| Bethany | 231 | 010 | 0 |

Millbrook — Brackenbridge p, McGill c, Kerr 1b, Armstrong 2b, Edmunds 3b, Lord ss, Wright lf, Lunn cf, Smith rf.

Bethany—Edmunds p, A. Stewart c, Rowan and Sisson 1b, R. Stewart 2b, Ryley 3b, Ginn ss, W. Rowan lf, Smith cf, H. Rowan and B. Ryley rf.

Umpires, Borland of Peterborough at plate; Harkness of Millbrook on bases.

## Remember When—

By THE CANADIAN PRESS

C. Ross (Sandy) Somerville of London, Ont., won his first Canadian amateur golf title 26 years ago today with a four and three victory over Harry Fraser of Montreal Kanawaki. Somerville won the crown again in 1928, 1930, 1931, 1935 and 1937. He captured the U.S. amateur in 1932.

# Stengel Names All-Star A-League Squad

CHICAGO (AP)—Seven Cleveland Indians and six New York Yankees bulwarked the 25-player American League squad designated Monday by Manager Casey Stengel for the July 8 all-star game at Philadelphia

Yankee pilot Stengel, as boss of the American All-Stars, named six pitchers and 11 replacements for the eight starters [illegible] country-wide poll of fans which ended last week-end.

Chicago White Sox and Philadelphia A's each placed three players, Boston Red Sox and Washington Senators two apiece, and Detroit Tigers and St. Louis Browns one each.

Stengel's pitching staff includes lefty Bob Shantz of Philadelphia, St. Louis' ageless reliefer, Satchel Paige, Vic Raschi and Allie Reynolds of Yanks and Mike Garcia and Bob Lemon of Indians.

The Nationals won 8-3 last year at Detroit. Shantz is the logical choice as starter this year in Philadelphia.

Stengel backed up his starting outfield of Cleveland's Dale Mitchell in left, Boston's Dom DiMaggio in centre and New York's Hank Bauer in right with Chicago's Minnie Minoso, Cleveland's Larry Doby and Detroit's Vic Wertz, all No. 2 ballot picks.

Stengel's catchers are the Yankee terror Yogie Berra and Cleveland's Jim Hegan.

Stengel will back up first sacker Eddie Robinson of Chicago with Philadelphia's Ferris Fain and second sacker Bobby Avila of Cleveland with Chicago's Nellie Fox.

# First Canadian Wins Nickel Cup

GANANOQUE (CP) — Gerard Patry, booming "My Own" around the three-lap course yesterday at Gananoque's fifth international Nickel Cup regatta, became the first Canadian to win the 1,000 Nickel Cup.

The Montreal driver was second in the first heat of the 266 class hydroplane race, following Bernard Daoust, Lachine, Que., to the finish line. In the second heat, however, Patry got his craft off to a well-timed flying start and led all the way.

Daoust, driving "Canada Boy", was never able to catch him, and Patry's combined heat times of 9:33 2-5 beat Daoust by five seconds.

Resulted included:

135 Restricted: George Reynolds, Brockville, "Hornet II," Bill Belfie, Gananoque, "Static," Dr. E. E. Foye, Toronto, "Docs Toy."

225 Division II: Ted Schroeder, North Tonawanda, N.Y., "My Ambition II"; Johnny Haineault, Cornwall, "Kingcot II".

Canadian one design: George Carnegie, Toronto, "Saphire"; Harry Stone, Toronto, "Cobalt Silverstreak; P. Buddell, Kitchener, "Miss Waterloo V", 14:51 2-5.

135 Open: George Reynolds, Brockville, "Hornet II"; Bill Belfie, Gananoque, "Static."

GROUND STROKES—Fausto Gardini slipped to turf during a sizzling volley with Brazil's Eugene Saller in Wimbledon Tennis Championships. The Italian regained his footing in time to win the point and go on to capture the match, 7-5, 7-5, 6-3.

# Two Owner-Trainers Suspended 50 Days

HAMILTON (CP)—Harold Peak and Vince Stott, owner-trainers, were suspended yesterday for 50 racing days by the Ontario Racing Commission.

The ruling followed the claiming of the thoroughbred La Patica from Stanley Crawford of Toronto during the Thorncliffe meet. The stewards found collusion between Peak and Stott, then trainer of the thoroughbred, which was claimed by Peak for $1,250.

# Truman Takes Fight Into Arkansas

ABOARD TRUMAN TRAIN IN ARKANSAS (AP)—President Truman today carried his fight for support of his public power and other "fair deal" programs deep into the heart of the southern United States.

In whistle-stop fashion, reminiscent of his 1948 give-'em-hell campaign, he rolled by train through central Arkansas toward the border of his native Missouri to dedicate two big hydro-electric power dams—Bull Shoals and Norfolk—as samples of what his administration has done for the south.

Truman flew into Little Rock last night in an air force Constellation for one of his rare appearances in the south where bitter opposition to his civil rights proposals split the Democratic party in 1948 and cost him four states in this normally-solidly Democratic territory. Arkansas was not one of those states.

The two dams he dedicates, administration officials say, "will together generate 230,000 kilowatts of power."

Truman has said he will neither seek nor accept the Democratic nomination for the presidency but that he could guarantee his entire "fair deal" objectives including a fair employment practices act and other measures aimed at stopping discrimination against Negro and other minority groups will be a part of the 1952 party platform.

With the Democratic national convention less than three weeks away, dedication of the two dams offered him an opportunity to play on that note in his address. The private power interests have been among his favorite whipping boys since his campaign for reelection in 1948.

# East City Victors

East City Braves handed Cobourg a 16-6 defeat at Riverside Park Tuesday afternoon in a good pee-wee baseball exhibition.

Bill Meagher twirled three innings for Jackie Bacon's local boys (managed by Rube Brady) and Joe McCarthy finished up the game, called after five innings by agreement. Each boy fanned five Cobourg batters while the visitors got their only safe hit in the first when Woo singled past second. The locals bunched hits in the second and fourth to score 13 runs and rack up a one-sided victory. Norm Tetlock hit a homer in the fourth and Joe McCarthy a triple in the same heat, the former driving in two runs. All the boys gave their best.

After the game, the locals entertained their guests in the Ashburnham hall and served lunch provided by the parents. The Recreation Commission generously gave the boys the use of the hall for th occasion.

# Yesterday's Stars

By THE ASSOCIATED PRESS

**Batting:** Enos Slaughter, Cards—drove in five runs with a pair of homers to lead Cardinals to 8-3 victory over Cincinnati.

**Pitching:** Lou Brissie, Indians, and Satchel Paige, Browns—Brissie pitched nine scoreless relief innings and gave up one run in 10 as the Indians tallied twice to defeat the Browns 4-3 in 19 innings. Paige, the loser, pitched 10 runless innings before allowing the tying and winning runs in the 19th.

# Hard To Tire Paige Out

CLEVELAND (AP)—When St. Louis Browns send Satchel Paige to the mound in relief, the Elder Statesman of baseball just goes on pitching inning after inning. He did it again here early today, pitching until 1:11 a.m. EDT, before losing 4-3 in the 19th inning to Cleveland.

Satch pitched 11 innings in relief, holding the Tribe scoreless until the 19th. He gave up seven hits and two runs.

The game tied the major league record for length, but it wasn't anything new for Satch, named this week to the American League All-Star team.

He previously had gone 10 innings against Washington Senators in relief, giving up five hits in a game that ended in a 5-5 deadlock after 18 innings. That was June 20. Added to a 5 2-3-inning relief bit in which he allowed Washington four hits in a 17-inning 3-2 St. Louis victory June 4, it gave Paige a total of 15 2-3 consecutive shutout innings against the Senators.

For the year, Paige has pitched in 24 games, all relief appearances, working 63 2-3 innings for a 6-3 record. He has allowed 45 hits, fanned 41 and walked 31 while allowing just 16 earned runs.

The long haul against Cleveland was Paige's first defeat in more than a week. Last week he pitched four times, winning two games himself and saving two others.

# Believe Brazil Soon Be Over Balance Trouble

By FORBES RHUDE
Canadian Press Business Editor

Brazil's balance-of-payments difficulties, although acute, need not be of long duration, says the International Bank for Reconstruction and Development.

The bank, more commonly known as the World Bank, makes its comments in announcing loans to Brazil of $27,500,000, [illegible].

"The present exchange situation was caused in the main by heavy imports in 1951. In August, 1951, when it was realized that the rate of imports was exceeding that of exchange earnings, the authorities re-imposed severe import restrictions.

"These now have resulted in a reduction of actual imports and, together with seasonal coffee receipts, which are customarily higher in the latter part of the year, should improve the exchange situation towards the end of 1952. . ."

Brazil's major public utility is Brazilian Traction, Light and Power Co., Ltd., a Canadian company.

**OIL SURGE**

Greenshields and Company, Montreal investment firm, in its current letter, makes the following comment on the Canadian oil scene:

"Activity in the first half of 1952 has been remarkable, surpassing all previous records in exploration, production, refinery and transport.

"With some 170 geo-physical crews at work and with more than 100 rotary rigs engaged in wildcat drilling, the search for new fields is going on at an unprecedented pace from the Pacific coast to western Manitoba. . .

"Several Canadian oil companies have acquired substantial acreages in the United States, and have started exploratory work in the Montana and North Dakota portion of the Williston Basin, which is believed to be one of the great oil reservoirs of the continent.

"The number of wells drilled since the start of the year has averaged more than four per day, and it has been forecast that the total number drilled in 1952 will reach about 2,000, against 1,400 in 1951. . .It is estimated that around $250,000,000 will be spent in Canada this year for oil exploration and development, an increase of 10 per cent over 1951."

# $250,000 Damage Caused In Guelph Fire

GUELPH (CP) — Damage estimated at $250,000 was caused Monday by a fire which startcd in a truck under repair at the Wellington Motors Limited garage.

One man was slightly burned in the blaze which destroyed the big brick and steel building at the corner of Gordon and Wellington Streets. Lost were 12 vehicles including a bus, tires valued at $20,000, parts worth $30,000 and $20,000 in tools.

# Cleophan Rodregue

Funeral for the late Cleophas Rodregue, 68, of Harcourt, who died in hospital Thursday following a prolonged illness, was held on Saturday from the Anglesey funeral home to St. Peter's Cathedral.

Requiem mass was said by the Rev. J. F. Coughlin and pallbearers were Fred Pepe, Allan Warren, Ralph Goodfellow, Rolly Johnson, Stewart Foster and Percy Killingbeck. Father Coughlin said the graveside prayers and burial was at St. Peter's cemetery.

# Hastings News

Dr. Janet Campbell who has been spending a brief vacation with her parents, Dr. and Mrs. W. N. Campbell, has returned to Montreal to joint the intern staff of the Children's Memorial Hospital for post graduate studies in the diseases of children.

Mrs. Lois Meyers, Mr. and Mrs. Bob West and sons Michael and Terry of Tonawanda, N.Y., are at their cottage for a brief vacation.

# Youth Stole Letter Given Six Months

COBOURG (ENS). — Pleading guilty to a charge of theft of a letter addressed to the rural hydro of Bowmanville, William H. Jackson, 19, Bowmanville, was sentenced to six months definite and six indefinite in the reformatory when he appeared before Magistrate R. B. Baxter. The magistrate said, that in view of the good family from which the accused came and the fact that it was a first offence, he had hoped to allow suspended sentence but this was not possible.

"You are not really a bad boy and I hope you have learned a lesson. I am going to sentence you to the reformatory and will recommend that you be sent to Brampton where you will learn a trade," said the magistrate.

Products of Canada's mining industries reached a record value of $1,228,000,000 in 1951.

## Gene Autry Has Last Laugh Over TV Move

By BOB THOMAS.

HOLLYWOOD — (AP)—Gene Autry, who made a fortune as a crooning cowpoke, is having a loud last laugh at the people who yowled when he went into television films.

Autry drew protests from the theatre men when he decided to follow Hopalong Cassidy into the TV market. His critics predicted he would ruin himself with the film houses.

But the cowboy's popularity in the theatres does not seem to have diminished. He is currently filming "Winning the West," one of six features he plans to make this year. He figures his audience has greatly increased because of TV.

Autry admits that movie westerns are in a slump.

"There have been too many big-budget westerns with stars like Clark Gable, Gregory Peck, John Wayne, and Kirk Douglas," he observed. "Naturally, this cuts into the playing time of the program westerns.

"But the program western field is better now, because it has thinned out. Roy Rogers isn't making pictures now, nor are Tim Holt or Charlie Starrett. Now there are only four regular series—myself at Columbia, Rex Allen and Rocky Lane at Republic, and Johnny Mack Brown at Monogram....

"But it has happened this way before. Westerns go in cycles. One thing is always certain: Their popularity will always return."

At present, the moneyed cowboy is making six features a year, 26 half-hour TV shows, a weekly radio show, four other TV series, and managing his extensive financial holdings.

## Kicking Waste Of Time Gardiner Tells House

OTTAWA (CP) — Agriculture Minister Gardiner, recalling experiences during 38 years in politics, Tuesday advised members of the Commons that they would get nowhere kicking at what had been done to the boundaries of their constituencies.

The 68-year-old former premier of Saskatchewan spoke during continued debate on a bill reshaping the boundaries of federal constituencies in line with population shifts recorded in the 1951 census.

The bill increases membership in the Commons to 265 from 262 and changes the boundaries of 125 constituencies.

Dropping his ordinarily strong voice to conversational level, Mr. Gardiner said June 25 marked the 38th anniversary of his entry into politics.

In all that time "I have never once complained about how my constituency was drawn up, no matter who drew it up." He had won despite opposition.

"I say that in order to give a little advice to young members of the House," said Mr. Gardiner. "I don't think you get anywhere kicking about the seat you've got."

Mr. Gardiner made it clear that many of his remarks were directed at John Diefenbaker (PC, Lake Centre), whose constituency is being extended to take in Liberal and C.C.F. territory.

Mr. Diefenbaker complained that the redistribution committee, made up of a majority of Liberal members, had removed Conservative voters from his riding and replaced them with Liberal and C.C.F. supporters.

A caucus of Liberal members from Saskatchewan had agreed that special consideration should be given the constituencies held by M. J. Coldwell and Mr. Diefenbaker.

It would have been easy, said Mr. Gardiner, to eliminate Mr. Coldwell's constituency of Rosetown-Biggar. Mr. Coldwell nodded agreement.

It would have been easy to put Liberals in a position to win both Rosetown-Biggar and Lake Centre. That had not been done.

Mr. Coldwell's seat was left as an entity. Mr. Diefenbaker's seat was expanded to take in the constituency of Moose Jaw, held by Ross Thatcher of the C.C.F., and some of the area around Regina.

The Lake Centre-Moose Jaw constituency was such that it could be won by either Mr. Diefenbaker or Mr. Thatcher.

The Liberal seat of Swift Current, held by Harry Whiteside, had been eliminated.

Mr. Gardiner said Mr. Diefenbaker wanted "all the Tories" taken into Lake Centre so that he could be sure of being elected.

IN AIR RACE—Brigid Westenra, 23-year-old daughter of Lord Rossmore, will be co-pilot this year for Margaret Carson of Ottawa, in the International air race July 4 from St. Augustine, Fla., to Welland. Miss Carson won the race last year. Miss Westenra accompanied her father from Britain last December and decided to stay. She began flying lessons in January.

**SETTLED 1651**

The island of Orleans in the St. Lawrence near Quebec was settled by the French shortly after 1651.

## Municipal Officials Around Exeter Area Battle It Out With Eggs Dominion Day

EXETER (CP) — Municipal officials of communities in this district battled it out with eggs during Dominion Day celebrations here but no serious casualties were reported.

As egg tossers, the competitors admitted, they lacked the finesse of champions. Dozens of eggs were thrown but only three hits scored.

The title of "Champion Municipal Official Egg Thrower" was conferred on Reeve Earl Campbell, Hay township, who got two hits. Runner-up was Reeve Fred Dobbs, Biddulph township.

Out of the money was Exeter Mayor W. G. Cochrane, who started the whole thing by challenging the reeves of neighboring municipalities to compete in the contest.

Contest rules called for each entrant to put his head through a hole in a special barricade. His fellows then threw eggs at him.

### 103 On Dominion Day

WALLACEBURG (CP)—Canada and Mrs. Susan Smith yesterday celebrated their birthdays but Mrs. Smith is 18 years older than her country. Born at Madoc 103 years ago, Mrs. Smith moved to this southwestern Ontario town, 20 miles northwest of Chatham, in her teens. Married twice, most of her family is dead.

## Justice Doffs Wig In Heat Wave

LONDON (Reuters) — Perspiring London lawyers Monday doffed their wigs, shipping was brought to a standstill, ice cream salesmen worked all night, thousands slept in the parks and first aid posts were crammed in a London heat wave.

Women nevertheless fought for fur coats, heavy tweed suits and winter clothing of all sorts as stores opened their summer sales.

The thermometer registered 82 degrees. But the high humidity made it seem more. A fog that was thick, hot and woolly, blanketed the Channel, forcing 40 inbound vessels onto radar as the sea lanes blacked out.

In London's Court of Queen's Bench, Justice Slade removed his heavy wig — thankful lawyers whipped off theirs.

It was the same in Western Europe where weather reports said: "Further outlook: continuing hot". Temperatures reached the 90's in Germany, and extra trains stood by in Paris to cope with an expected seaward rush as temperatures approached 95.

It was 94 degrees in Basle, Switzerland's hottest spot. But the Netherlands was a little better, relieved by a cool breeze that kept the thermometer reading in the 80's.

Because They're Finest!

CHEVROLET
first in demand in value in sales
A GENERAL MOTORS VALUE

MORE PEOPLE BUY CHEVROLET TRUCKS THAN ANY OTHER MAKE

Stack up what you get for what you pay... and join the nation's largest group of truck buyers by choosing Chevrolet

*Maybe you didn't know* that by far the biggest number of truck users in Canada today are buying Chevrolet Trucks.

They are... and for good hard-headed reasons. Because what they're after in a truck can be set down about like this:

*1) It's got to be low in cost.* No use paying a lot of extra money for a truck that the truck will have to earn back. Chevrolet trucks give you more for your money.

*2) Upkeep and operating costs must be low.* A truck is money-making equipment. It can't be a money-waster. *Chevrolet trucks work for rock-bottom "wages" on fuel and maintenance.*

*3) How well the truck does the job is all-important.* It's got to have the capacity, power and rugged construction to get work done — efficiently and economically. *Chevrolet trucks are engineered and built for your loads.*

*4) The truck must be rugged, long lasting.* That's an important part of over-all economy. *Chevrolet trucks traditionally bring more at trade-in, for what they cost, than any other truck.*

If these considerations make sense to you, *take a good long look at facts 1, 2, 3 and 4 below.* Then come in and let's see how a Chevrolet truck can save you money in your business.

ON THE ROAD WITH THE GREATEST PAYLOAD

Fact No. 1

**More truck for your money**

Stack up a Chevrolet truck against any other truck, capable of handling the same payloads, and you'll see that Chevrolet gives you far more for your money. Chevrolet, for all its low price, brings you ruggedness, stamina, and exclusive truck features you won't find in many trucks costing a lot more.

Fact No. 2

**Rock-bottom operating costs**

Many thousands of truck users have proved to their own satisfaction that Chevrolet costs the least of all to own and maintain. Valve-in-Head economy, in the four great Chevrolet engines, saves on gas. Chevrolet's special 4-way engine lubrication system reduces friction and wear, keeps oil costs low.

Fact No. 3

**Engineered and built for your loads**

Chevrolet trucks are engineered to your payload requirements. You don't waste money by buying "too much truck" — you don't risk work interruption or slowdowns by buying "too little truck." Frame, axles, springs, body, brakes, and power are part of a well-balanced team that does the job at lowest cost.

Fact No. 4

**Lower, slower depreciation**

Records show that Chevrolet trucks traditionally bring more money at resale or trade-in than any other make. Chevrolet's market value stays up because the value stays in. Here is further evidence that Chevrolet is the best truck buy.

# Bob Maybee New Rotary Head

S. J. Black, 1951-52 president of the Peterborough Rotary club turned over the gavel, symbol of office, to the incoming president, Bob Maybee, at the Rotary luncheon meeting Monday.

Mayor Hugh Waddell, past president of the club presented Mr. Black with his past president's pen and expressed the gratitude of the club for the splendid servce Mr. Black had given during his year of office.

P. J. LaBranche, secretary, and John McColl, treasurer, also turned over their jobs to a new officer, George Roper, the new secretary-treasurer who is combining both jobs in one.

In his year-end remarks Mr. Black expressed his appreciation to the club members for their co-operation during his year of office and outlined the activities of the various committees in the past year.

A new member, Dr. R. W. Ford, was introduced by Tom Lillica.

# Brockington Asks Renaissance In Canada

CALGARY (CP) — Leonard Brockington yesterday called for a renaissance in Canada.

Addressing the annual convention of the Canadian Federation of Mayors and Municipalities. Mr. Brockington said Canada must retain the character conceived in its early days if it wants to continue as a great nation.

# Lift 66-Year Ban On Oleo In New York

ALBANY, N.Y. (AP)—A 66-year-old ban on the sale of colored margarine in New York state ended yesterday when a law permitting its use went into effect. Upwards of 5,000,000 pounds of yellow margarine poured into the state.

Hundreds of trucks that had lined up in borderin[illegible]tes wheeled toward New Y[illegible]markets.

One New [illegible]k city distributor highballed 30 trucks through the Holland Tunnel from Jersey City under a police escort. Each vehicle was loaded with 20 tons of margarine.

# House Decides To Change Hours

OTTAWA (CP)—The Commons agreed yesterday to adopt new sitting hours for the next session, opening Nov. 20.

The members will meet from 2:30 p.m. to 6 p.m. and from 8 p.m. to 10 p.m. Monday, Tuesday, Thursday and Friday. Wednesday they will meet from 2:30 p.m. to 6 p.m.

Except in pre-adjournment drives the Commons now meets from 3 p.m. to 6 p.m. and from 8 p.m. to 11 p.m., Monday, Tuesday, Thursday and Friday. It meets from 3 p.m. to 6 p.m. Wednesday.

## Champlain Honored

QUEBEC (CP)—More than 3,000 persons yesterday took part in a parade and other demonstrations in honor of Samuel de Champlain, founder of Quebec. The celebrations eclipsed those for Dominion Day.

NO TIME TO STRIKE A MATCH—Capt. Clifford Bailey, above, of Minneapolis, is nearly buried under the mound of fireworks already confiscated by the city's crime prevention bureau. Bailey job is to see to it that the citizens have a safe and silent July 4th holiday, in accordance with state law.

# 3,000 Indians Observe Centennial Date

WIKWEMIKING (CP) — Some 3,000 Indians yesterday gathered in this village on the eastern tip of Manitoulin Island to celebrate the centennial of Holy Cross Church.

The stone building with walls three feet thick is topped with a towering cross visible for 15 miles across Georgian Bay.

Three native brass bands welcomed Bishop Ralph Dignan, North Bay, and Citizenship Minister Harris, guests at the two-day celebration.

A pageant in the village arena last night depicted the history of the Ojibway and Ottawa Indians on the island.

# 85th Birthday Great Success

By THE CANADIAN PRESS

Canada's 85th birthday was celebrated Tuesday with generally perfect holiday weather—sunny and cool—across the country.

Pageants, parades and games featured the day. Many citizens enjoyed a long week-end, given Monday off work to relax in summer cottages or just at home.

But in Newfoundland it was a day of mourning, the anniversary of the battle of Beaumont-Hamel, when the Newfoundland regiment was all but wiped out in the First World War. Before Newfoundland joined Canada in 1949 the day had been observed as Memorial Day.

## Mayor By Acclamation

WALLACEBURG (CP)—William J. Collins was elected mayor of this southwestern Ontario town by acclamation Monday night. Mr. Collins, an accountant, will complete the term of W. J. Picard who resigned recently to take a position in Ottawa.

# Mayors Reject Lottery Changes

CALGARY (CP)—Amid protests from Quebec delegates, the Canadian Federation of Mayors and Municipalities yesterday voted against a resolution recommending relaxation of laws governing lotteries.

The Quebec delegates, led by councilman Marcel Lefaille of Montreal, wanted lottery laws shifted from federal to provincial control.

Mayor Edward Sargent of Owen Sound said millions of dollars are being paid in sweepstakes tickets for overseas hospitals. That money, he said, should stay in Canada.

An opposing voice was raised by Mayor Allan J. Rush of London, Ont., a former police officer.

"Almost everybody buys sweepstakes tickets," he said, "but I have to think what suckers we are. The chances are 50-50 the tickets are either counterfeit or for races run the year before.

"Our country was not built on gambling. It was built on hard work."

## Boy Crushed By Spools

TORONTO (CP)—Danny Collins, 8, was crushed to death Monday between two huge spools of telephone cable wire. Police said boys were rolling the spools back and forth when he was trapped between two.

# Baltimore Squabble Ended By Agreement

BALTIMORE (AP) — The big Baltimore Transit Company and its A.F.L. union ended their haberdashery squabble last night.

It was touch and go for a while. Bus and trolley service was slashed 80 per cent yesterday because the company insisted its drivers wear grey shirts while most of the operators favored white.

Then the Public Service Commission issued an order to the company to quit worrying about what color shirts the drivers wear and get service back to normal.

The public's reaction as summed up by a local newspaper man: "A plague on both your blouses."

Kellogg's taste Better 'cause they're the Bigger Crisper Bran Flakes!

A most delicious wheat cereal with extra bran—as a gentle aid to regularity!

# Selwyn School Holds Picnic

SELWYN (ENS)—The children of S.S. No. 9 Smith, along with their teacher, Mr. Beatty, held their annual picnic on Wednesday at Raddon's shore.

Quite a number of adults joined with the pupils for the picnic dinner. At the conclusion of their meal, Marybeth Wilson read a short address to Mr. Wilson and Patsy Hennessy presented him with a pen and pencil set and a cigarette holder. Mr. Beatty is leaving this school and Miss Irwin of Lakehurst will replace him in September.

The afternoon was pleasantly spent in swimming, races and playing ball.

# Springville News

In the United Church Y.P.U. Softball League of this district, Springville and Bethany had tied for first place. The two groups met each other at Bethany on Friday evening for the tie-breaker game. Bethany were the winners.

Miss Doreen Stevens has gone to Canadian Keswick Camp at Lake Rousseau for July and August. She will be pianist for the meetings there.

Miss Myrna Seymour left on Saturday for Haliburton to spend the next two months. Mr. and Mrs. Carman Seymour, Lila, Jim and Joy accompanied her.

Miss Esme Johnston and Mrs. Frank Porter of Hamilton were weekend guests of their parents, Mr. and Mrs. M. H. Johnston.

Miss Eleanor Bowles, teacher at S.S. No. 3 N. Monaghan, and her school held a joint picnic with Brealey's School and Lily Lake School at Riverside Park on Thursday afternoon. Prizes for spelling and health, donated by Miss Bowles were both won by Mary Laing. In the weekly spelling dictation, Mary Laing just once missed having a perfect mark. This school also entered the Peterborough W.C.T.U. poster contest and Kenneth McFadden won 3rd prize in Grade IV, and Linda Northey, third prize in Grade V.

Miss Marilyn Bowles, who graduated recently at Civic Hospital, is spending a holiday with her parents, Mr. and Mrs. Walter Bowles.

Douglas Ball and Jack Sargent have returned after a holiday at Young's Point.

Bruce Elliott is a patient in hospital in Peterborough.

Mrs. Perry Neals is convalescing at her home. Her daughter, Mrs. Claire Sisson of Lakefield, is with her.

Next Sunday will mark the beginning of joint services of the Springville and Fairmount congregations. Next Sunday, the service will be at Springville at 11.15 a.m. and will be a Communion service. The following Sunday, July 13, both congregations will worship at Fairmount at 11.15 a.m.

Mr. and Mrs. Bernard Preston and daughter, Mrs. Duncan Seymour visited Carl Preston at Riverdale Isolation Hospital, Toronto, on Sunday. It is expected that he will be home in the very near future.

Mr. and Mrs. J. Duncan Seymour of Cobourg were Sunday evening guests at the home of Mr. and Mrs. C. W. Seymour.

## To Withdraw From Koje

WITH THE CANADIANS IN KOREA (CP) — Canadian troops will be withdrawn from Koje Island in mid-July, the Commonwealth division announced Monday. "B" company of the Royal Canadian Regiment, commanded by Maj. E. L. Cohen of Pembroke has been on guard duty at the big United Nations prisoner-of-war camp since June 4.

## U.S. Operates In Red

WASHINGTON (AP)—The treasury announced yesterday the U.S. government ran up a budget deficit of $4,016,640,378 in the fiscal year ended June 30. Spending totalled $66,145,246,957, highest ever for a year without an all-out war. Tax income came to $62,128,606,579, nearly $20,000,000,000 above the Second World War peak.

## Allergic To Hubby

BUENOS AIRES (AP)—A Buenos Aires wife seeks legal separation from her husband, claiming she is allergic to him. The wife submitted to a court medical certificates to the effect that when she is in the presence of her husband she breaks out in a painful rash. Divorces are not granted in Argentina, and names of parties seeking separation are not made public.

# Patrol Nearly Gets Objective Foiled By Chinese Machine-Guns

By BILL BOSS

WITH THE CANADIANS IN KOREA (CP)—The patrol was within an ace of gaining its objective—a ridgetop 500 map-yards ahead of the Korean front positions held by the 1st battalion, Royal Canadian Regiment.

Its objective was a prisoner. Earlier attempts by smaller Canadian groups had been ineffective, so the night of June 21 the R.C.R. was out in company strength, under Maj. Don Holmes of Petawawa.

Every man knew his role. The approach had gone like clockwork.

Pte. Tom Dewell of Penetanguishene, Ont., and Lionel Halfkenny of Dorchester, N.B., were in Communist bunkers at the top.

The momentum of the rest of the assault platoon was being maintained by the weight of the rest of the company, plodding up the steep slopes of the narrow valley approach.

**HEAVY BARRAGE**

Three field regiments had laid down a tremendous barrage in support.

Just as success was within Holmes' grasp two Chinese machine-guns and a burp gun opened up. Other Communists in bunkers and trenches at the top hurled grenades.

A man was killed by a grenade. Two section leaders were wounded and so was the wireless operator.

Loss of the platoon's section leaders and the disrupting of its communications was like the loss of a watch main spring.

Said Holmes later: "All it needed was one man to get mad, to say 'to hell with this—let's go' and we'd have pushed over."

The Chinese further confounded the picture by detonating three large mysterious explosions. The concussion was tremendous but few were hurt.

**CROSSFIRE HEAVY**

Meanwhile the company was being engaged by crossfire from two nearby hills.

On the way back, carrying their wounded with them, the men fell under more mortar and machine-gun fire—"we played footsie with it all the way back" said Holmes—incurring more casualties, some for the second and third time.

The company's 27 wounded, some of whom were taken from the front by helicopter, were speedily treated in the efficient assembly-line-type regimental aid post operated by Maj. David Jeffey of Brockville, whose staff was swelled by volunteers.

The wounding of three key men at the crucial point of success, where so much depends on the junior leader, is considered the prime factor which cheated the company of victory.

ROCKY MOUNTAIN DIESELS—A new era of mountain railroading in Canada is being unfolded as modern streamlined diesels, the first to go into service in the Rocky Mountains, replace steam locomotives, longtime conquerors of the steep slopes and rugged mountain wilderness. Pictured are two of 48 new diesel units which the C.P.R. has acquired since last fall to dieselize train operations in the Rockies and Alberta foothills between Revelstoke, B.C., and Calgary, Alta., as they pull a passenger train past towering peaks near Lake Louise. Passenger and freight trains on this run, one of the toughest in the world, are being given diesel power as part of a five year dieselization program.

# UK Marchioness Marries Priest's Daughter

LONDON (Reuters)—Miss Bapsy Pavry, 49, daughter of an Indian Parsee high priest, becomes Britain's premier marchioness today when she marries the 89-year-old Marquess of Winchester.

The nobleman heads Britain's marquesses by virtue of the fact his title, created in 1539, has been in existence longer than any other marquess' title.

The marquess—16th successor to the title—has survived two wives, both of them widows when they married him. He has known Miss Pavry many years but only proposed in the last few days.

"I'm nearly 90 you know," he said last night. "When you get to my age it's too late to waste time. You have to act quickly."

Miss Pavry is the sister of the Dasturdzada, religious head of the Liberal Zoroastrian church in India and Iran, and daughter of the late parsee high priest of Bombay, who died in 1947.

The marquess has spent little time in England since 1930 when he became bankrupt following the crash of the Clarence Hatry financial empire.

THEIR NAMES ARE FAMILIAR—Dwight Eisenhower, 9, left, of Darby, Pa., and Robert Taft, 12, of Brooklyn, N.Y., have a brisk discussion concerning the chances of their namesakes to win the nomination at the forthcoming Republican National Convention. The boys, who met recently in New York, claim distant relationships to General Eisenhower and Senator Taft.

# Reject Red Demand On Germ War Debate

UNITED NATIONS, N.Y. (AP)—The Security Council yesterday rejected 10 to 1 Russia's demand to invite Communist China and North Korea into debate here on a United States resolution for an impartial investigation of Red germ-warfare charges. The Soviet Union promptly declared it will not take part in the discussion and will veto the U.S. proposal.

U.S. delegate Ernest A. Gross accused Soviet delegate Jakob A. Malik of pulling a "sit-down strike."

## Cadi Dismisses Charge

WINDSOR (CP). — Magistrate John Grudett Monday dismissed a charge against Carol LeClair, 28-year-old dancer arrested June 21 at a reunion dinner of Windsor's Essex Scottish Regiment, of appearing in an indecent performance. He said there is no basis in Canadian law for the laying of the charge against the Detroit "exotic dancer."

# 5-Year Term For Burglary

CARSON CITY, Nev. (AP)—The French-Canadian woman who engineered the fabulous Redfield burglary at Reno last Feb. 29 was sentenced Monday to five years in prison.

Judge Roger Foley imposed that sentence on Mrs. Jeanne d'Arc Michaud, 36, a native of Ste. Agathe, Que., who contended during her trial that she made a bedroom bargain with millionaire Lafere Redfield, 54, to steal his bulging safe.

Estimates of the value of the cash, jewels and securities stolen with the safe have ranged from a minimum of $500,000 to a maximum of $2,400,000. Redfield says there still is about $150,000 in cash missing.

# Rustling Near London Brings Investigation

LONDON, Ont. (CP)—Continuing loss of cattle on Middlesex and Elgin farms since the first indication of rustling in February has become so serious that the criminal investigations branch of the Ontario Provincial Police is heading a probe, it was announced Monday.

At least 18 head of cattle have been rustled from Middlesex and Elgin farms since February, it is estimated.

THE BELL TELEPHONE COMPANY OF CANADA

# Duke Of Edinburgh Made RN Commander

LONDON (Reuters)—The Duke of Edinburgh Monday was promoted to commander in the Royal Navy. At 31, the Duke is the youngest of 44 lieutenant commanders to be promoted.

The Duke, who made the navy his career, was a lieutenant when he married the Queen, then Princess Elizabeth, in November, 1947.

His last active appointment was as commander of the 1,430-ton frigate Magpie in the Mediterranean. He completed his service with the Mediterranean fleet last July.

## Fire Sweeps Mill

STRATFORD (CP)—Fire, causing an estimated $25,000, swept the Newton Woollen Mill, 20 miles north of Stratford, Monday. The owner, John From of Hespeler, alone in the plant at the time, said the fire was caused by sparks leaping from a picking machine.

## Elderly Man Drowns

SUDBURY (CP)—An unidentified elderly man was drowned in the Wahnapetei River yesterday, 10 miles east of Sudbury.

**HEARTBURN?**

When indigestion, heartburn or over-acidity of the stomach spoil your pleasure in meals—take a *Digestif Rennie Tablet*. Fast-acting RENNIES dissolve pleasantly in your mouth—quickly relieve indigestion. Always keep a few individually-wrapped RENNIES in purse or pocket for quick relief after eating. 25c. 2

# 11 Casualties On Latest List

OTTAWA (CP)—The army issued its 120th casualty list of the Korean War Monday, reporting four men killed in action, one dead of wounds one missing, believed killed, and five men wounded.

The list brought to 906 the number of casualties so far suffered by Canadian troops in Korean action —160 dead, 674 wounded, 63 injured, eight missing and one captured.

The list included:

**Killed in Action**

Presley, Wycliffe Lesly, Acting Cpl.; 1st Battalion, R.C.R.; Ottawa; Mrs. Florence Ellen Presley (wife), Box 34, 10 Moreuil Wood Blvd., Camp Petawawa, Ontario.

**Wounded in Action**

Fournier, Leonard John, Pte.; 1st Battalion, R.C.R.; Mrs. Yvonne Fournier (mother), New Liskeard, Ont.

Rozon, Antoine, Pte.; 1st Battalion, Royal 22nd Regiment; Mrs. Aurore Rozon (mother), Timiskaming, Que.

# Parliament Unlikely To Adjourn At Once

OTTAWA (CP)—Senator A. K. Hugessen, acting government leader in the Senate, said last night it doesn't appear that Parliament will adjourn for a day or two.

Noting that the Commons has been debating redistribution of seats for three days, he said: "For the time being the minds of the members of the Commons appear to be centred in their seats."

# Selwyn News

Mr. and Mrs. D. Raddon and family accompanied by Mr. and Mrs. Melville Elliott and family, motored to Toronto on Sunday.

Mr. and Mrs. Art. Northcott of Peterborough, spent the week-end with Mrs. Northcott's parents Mr. and Mrs. Bruce Fitzgerald.

Miss Ruth Wilson left on Saturday to begin working for the summer months at McCracken's Landing, Stony Lake.

Miss Ann Wilson is employed for the summer at Young's Point.

Samuel Woods of Buckhorn was the guest speaker on Sunday night at the Selwyn United Church. He was there on behalf of the Ontario Temperance Federation. Next Sunday the Rev. D. P. Morris has planned a special service in commemoration of Dominion Day.

Summer colours — Blush and Sunbreeze. A regular 1.65 Stocking.

Pair **1.39**

WALKER STORES LIMITED

# PETERBOROUGH EXAMINER

VOL. CV. No. 1 — WEDNESDAY, JULY 2, 1952 — PRICE FIVE CENTS

## MAIN STREET TOPICS

**FINGER IN LAWNMOWER**

Robert Murray, 3, of 619 Gilmour St. was treated in Civic Hospital Tuesday when he caught his left hand in a lawnmower. He cut the middle finger on his left hand.

**CUSTOMS RECEIPTS**

Money collected both in customs and excise for June this year was greater than a year ago and May of this year. The figure for June, 1952, was $989,508.93 and for the same month last year, $705,916.93. In May, 1952, the office collected $796,445.41.

**TREES REFOLIATE**

Following the recent caterpillar plague in the cottage colony lakes of Peterborough county trees that were stripped bare of their leaves have come out again with a second growth. In some places, aside from thin shade, it is difficult to tell where the bush has been ravaged.

**RESCUES CANOEIST**

Clayton Grills of Lindsay saved a Toronto canoeist Sunday afternoon when his canoe capsized in the old channel off Snug Harbor. Mr. Grills reported that he was sitting on the shore when he heard shouts for help. He went to the rescue in his high-powered outboard boat.

**PERFECT CRIB HAND**

Ray Gansby, Harvey St., playing cribbage Tuesday with his father-in-law, Clayton George Pringle, of Lakefield, at Mr. Pringle's home was dealt the Jack of clubs and three fives. He then cut the five clubs to complete a perfect hand. This is his first perfect hand after playing about 11 years. Mr. Pringle, who has been playing about eight years, had a perfect hand two years ago.

## Boys To Have Busy Time In City Camp

Visits to factories, hikes throughout the city, over-night hikes outside the city, craft courses, swims and fishing contests are in store for boys attending the Y.M.C.A.'s day camp, Camp Pow-Wow, this summer.

Fraser Wade, physical director at the "Y" and Pow Wow's director, said today that the camp, for boys unable to get out of city this summer for various reasons, will open in a week's time. This year the stay-at-home camp will run for three weeks.

Last year more than 111 boys registered in the camp and more than 75 were turned down due to over-crowding. This year so far 42 boys have applied. Mr. Wade said that there will be a rush for applications this week.

The camp will begin daily at the Y.M.C.A., opening with devotional services, followed by a singsong and games. The camp will then be divided into three groups, one a non-swimmers group, a second in outside games and a third in handicraf twork. These groups will rotate during the morning.

The crafts this year will include square knotting, making bows and arrows, model boats, kites, doing leathercraft work and paper mache faces and dolls.

**BRING LUNCHES**

The boys will bring lunches to eat during the dinner hour, held at the Y. After dinner they will go for a swim in the pool.

The swim after dinner, said Mr. Wade, is contrary to old swimming rules but according to new Red Cross and Y.M.C.A. investigations is perfectly safe. The worst time for a swim after a meal, according to new beliefs, is two hours later.

Highlights of the camp will be a fishing contest, industrial visits, over-night camps for older boys (10 to 12), and nature lore hikes.

The fishing contest will be held in conjunction with the Peterborough Fish and Game Association. The boys will be competing to see who can catch the largest fish. They will also be taught bait-casting and fly-tying.

The over-night hikes will be held for the older boys to the Boy Scout camp at Nassau. There the boys will prepare meals, sleep out, play nature and camp games.

### 1837 Stamp

*A stamp dated 1837 was reported today by Mrs. Phoebe Coons, 243 Euclid Ave. Mrs. Coons said she received the stamp on a postcard a few years ago from a friend. The postcard had never been used and was sent to Mrs. Coons in a letter as a matter of interest. The 115-year-old stamp shows two views of Queen Victoria, a profile and a full face portrait.*

## Badlands Farmer Lacks Interest In Conservation

Lack of interest in conservation measures by land owners in the area is hampering the efforts of the Ganaraska River Authority to control the river and prevent erosion.

"Bad land use can best be cured by education but the progress is slow," it is stated in a report of the authority's operations prepared by zone forester M. D. Kirk, of the department of lands and forests, Lindsay.

Since it was established in 1946 in answer to public demand for action to prevent flood damage and halt erosion at the headwaters of the river, the authority has achieved one third of its tree planting objective. The proposed Ganaraska Forest includes 20,000 acres, which are classed as sub marginal. Five thousand acres have been purchased for reforestation and 2,200,000 trees have been planted in the last five years.

This spring, 321,000 trees were planted, which is less than the 416,000 planted in 1951.

**DETERIORATION**

In the latest report of the authority's operations, Mr. Kirk comments, "In areas not yet acquired by the authority bad land use is still widespread, and deterioration of land is continuing. Furrows are still ploughed downhill, producing annual rill and gully erosion. Only one farmer in the watershed has started to practise the new soil techniques of strip cropping, contour ploughing and grassed waterways. The remaining woodlots have been seriously depleted since lumber has commanded a high price, but a by-law restricting diameters on trees cut, to ten inches and up, has reduced wholesale cutting."

Woodlots are still declining, because 75 per cent are still being pastured extensively, and "the headwater area is now at its lowest ebb, having neither farm nor forest to contribute to the nation's economy," the report states.

**NO SENSE OF UNITY**

"Many rural people have not acquired a sense of unity, a collective outlook with regard to the welfare of the land. At present many owners will not sell their land to the authority while still extracting some value from it, either through wood or pasture. Expropriation powers exist in the authority's constitution, but these have never been used. The long established rights of private ownership are respected, even to the detriment of the community at large."

In 1943, the Ontario government made a report on the Ganaraska River which drains 105 square miles, and 67,000 acres, and empties into Lake Ontario.

The report recommended a conservation program including the purchase and reforestation of the headwaters, stream improvement, flood control, through check and storage dams and an educational program for the remaining farmers in the area, to acquaint them with soil techniques and woodlot management.

Cavan, Hope and Manvers townships and the town of Port Hope in Durham county and Hamilton township in Northumberland county formed the authority which was the first such valley authority organized in Canada.

The authority's main achievement to date has been to purchase sub marginal land at the headwaters. The authority supplies 50 per cent of the purchase price (about $5,000) annually, which is obtained from taxation by the participating municipalities. The Department of Lands and Forests provides the balance of the money for purchasing land plus the entire cost of purchasing standing timber. The province pays the cost of administration in connection with the authority. This agreement is to remain in force until 2,000 A.D., when either the authority or the province can buy the other out, or they may decide to continue the present arrangement.

382 WATER ST.

CANADA'S 85th BIRTHDAY was play day in the Kawarthas for everyone who could reach there and most of them did. The first regatta of the season attracted the largest crowd at Jack's Lake, east of Apsley, (top photo). Fishing was generally poor but Al Revoy (right in centre left photo) took a ten-pound 'lunge off Inverlea swimming beach in the city; he shows the fish to Garry Dafoe. Whole families like those at Perry's Creek (centre right photo) tried their luck with little success. Kiddies picked daisies on the flower-covered hills (lower left photo) while parents sweated with gasoline stoves and portable tables (lower right photo) preparing a family picnic supper at Haultain tourist park. —Examiner Staff Photos

## 2 Muskies On Opening Day Taken Within City Limits

Fishing in the Kawarthas on Dominion Day, the first day of the muskie and bass season was not good. Experts who tried all the lures in their boxes couldn't give any explanation other than, "They just weren't biting." In the city Al Revoy took a ten-pounder off the Inverlea swimming beach on Tuesday and another lunge of similar size was reported caught in Little Lake. Jack Morgan of Hall's Glen boated a pair off the Church-on-the-Rock, Stony Lake, ten and six pound, respectively. The largest 'lunge caught, 17¼ pounds, was taken by P.O. Elliott Fleming R.C.A.F., London, Ont., in Lovesick Lake.

Pickerel were in greatest quantities and many fishermen at least caught enough to enjoy shore dinners.

Black bass were not biting while the warm water urged the green bass to snatch at a few baits.

Those who didn't fish enjoyed themselves in various ways. There was a large regatta at Jack's Lake, their second, that featured outboard racing, swimming and exhibition water skiing. Roadside picnic tables were crowded with family parties and resorts about three-quarters filled with guests. Very few places reported being filled to capacity but all operators are worrying about filling accommodations for Americans this coming U.S. holiday weekend.

## Donald Doherty Union Secretary

Donald Doherty has been elected secretary of the Canadian Council of the International Chemical Workers' Union, A.F.L.-T.L.C.

The election took place at a conference at Club White Sands on Lake Catchacoma north of Bobcaygeon. Mr. Doherty defeated Joseph Barry, who resigned recently as an organizer in protest against a directive prohibiting staff members from making public statements on controversial issues without permission of the international.

## New Officer Named For Salvation Army

Major Horace Robertson, who will succeed Major Douglas Sharp at the Peterborough Salvation Army Temple will arrive in Peterborough Saturday.

Major Robertson, who has been stationed in St. John's Newfoundland, for approximately four ears, was formerly stationed in Oshawa and Orillia.

Major and Mrs. Robertson have one daughter, who is an accomplished musician.

Welcome services will be held for the new officer-in-charge and his family at the Temple, Sunday.

## Tenders Called To Erect Federal Building

Tenders are being called today, for the Peterborough federal public building, to be erected on the federal government's property on Charlotte St., north of the Colonial Coach Lines Terminal.

The tenders will be received at the office of Robert Fourtier, acting secretary of the Department of Public Works until 3 p.m. July 30.

Each tender is to be accompanied by an accepted cheque for $100,000 on a chartered bank, payable to the Minister of Public Works, or bearer bonds as specified in the form of tender.

A deposit of $200 is required for any firm interested in tendering on the building to obtain blue prints and specifications. They can be obtained from the office of the district architect, department of public works, 36 Adelaide St., E., Toronto, or through the chief architect's office in Ottawa.

The two-storey reinforced concrete structure will house the post office and also provide accommodation for training postal employees and office space for the various government departments with branches in the city.

## Fishing Holiday Is Cut Short

A fishing holiday for one American party, staying near Buckhorn, was cut short Tuesday when Provincial Police radio brought news that the wife of one of the fishermen had been killed in an explosion.

Police in Columbiana, Ohio, radioed Ontario Provincial Police that Mrs. Jesse Howell was killed Tuesday in an explosion while at work. Her husband was with the fishing party at Buckhorn.

Mr. Howell left for Ohio by private plane, landing at Toronto and then Cleveland.

It is believed Mrs. Howell worked in an egg-grading factory and an explosion involving the refrigerator unit caused her death.

## Police Arrest Man Facing Death Sentence

MONTREAL (CP)—Police announced today the arrest of a 51-year-old Frenchman who they said is under sentence of death by French authorities for the fatal poisoning of his wife in France 14 years ago.

They identified him as Louis Leonard Wattebled, also known as Louis Lebrun and Francois Lebrun, and said he has eluded authorities since he entered this country illegally in 1938.

He left France before the case was solved by French authorities and the trial proceeded with Wattebled, as the accused, missing. He was convicted and the French police, after a 13-year search, established some months ago that he was in Canada.

## Urge Spraying Used Against Caterpillars

TORONTO (CP)—Spraying is better than burning to combat tent caterpillars, officials of the Ontario Department of Lands and Forests said today.

The department told the many persons suggesting fire control that such is "extremely dangerous." The flames will damage trees and, with the current dry weather, is likely to spread.

### Speaker At Picnic

LONDON, Ont. (CP)—Hugh MacKenzie, M. P. for Lambton-Kent, will be one of the speakers at the Ontario Sugar Beet Growers' Association picnic Thursday, July 10 at Canatara Park, Sarnia. Details of a recent American growers' convention in Salt Lake City will be given by Cameron McTaggart of Glencoe.

# 2 Tourists Die On Holiday Of Heart Attacks, Fishing, Fighting Fire

### Toronto Man Has Fatal Attack At Jack Lake
### American Visitor At McCracken's
### Dies In Boat While Fishing Alone

Two men died of heart attacks Tuesday in the Peterborough district. One was a Toronto resident and the other lived in Ohio. Inquests have not been ordered. Leonard Potter, 64, of 953 Dovercourt Rd., Toronto, suffered a fatal attack after fighting a fire in his garage at Jack Lake, 27 miles northeast of Peterborough. The excitement of putting out the fire is blamed for bringing on the heart attack. Potter was pronounced dead by Dr. Lloyd Bailey of Lakefield. He was taken to the Hendren funeral home, Lakefield. Funeral arrangements are being made in Toronto.

**FISHING ALONE**

While fishing alone on North Stony Lake, Harley Garner, 56, Stillwater, Ohio, suffered a heart attack and died early Tuesday afternoon. He was staying for a summer holiday at McCracken's Landing.

Garner, alone in the small boat, is believed to have suffered the attack while fishing about noon Tuesday. He collapsed in the boat and died. The boat drifted for a half-hour before another American fishing party found him.

Mr. and Mrs. Robert Grodin, Shaker Heights, Ohio, holidaying at the Park Hotel, Burleigh Falls, found Garner in the boat. Presuming that he was dead, the couple took the boat and body to a nearby island; then called the provincial police.

When police arrived, Garner was taken to the government wharf near Viamede Hotel.

No inquest will be held. Dr. Herbert Young, coroner, released the body which will be sent to Stillwater today.

## King Swears In New Cabinet

ALEXANDRIA, Egypt (CP) — The new non-party Egyptian Cabinet headed by Hussein Sirry Pasha, former premier, was sworn in today by King Farouk.

Sirry, an independent, and his 13 ministers took the oath at Montazan Palace.

His government succeeds the government of Naguib Hilaly Pasha who resigned last Saturday after four months in office.

## Hold Man's Wife On Homicide Charge

DETROIT (CP)—Mrs. Carol Simpier, 43, was under arrest today for investigation of homicide on the suspicion she may have conspired with Charles Roseberry, 23, to murder her husband.

The body of Loran Simpier, 45, was found Thursday stuffed into a closet in his home. Roseberry, a roomer in the Simpier home, was arrested in Pikeville, Ky., and returned here Monday. He admitted he killed Simpier, police said, because he loved the man's wife.

Mrs. Simpier was arrested yesterday after her husband's funeral. She will face lie-detector tests.

## Believes Ike's Defeat Victory For Stalin

BLOOMFIELD, Conn. (CP)—Mrs. Clare Boothe Luce said last night that the defeat of Gen. Dwight D. Eisenhower for the Republican nomination would be a "real political victory" for Stalin.

Mrs. Luce, a former U.S. congresswoman and an Eisenhower supporter, spoke at a campaign dinner.

"The defeat of Eisenhower at Chicago would be taken by European Communists as the signal that America was going home."

**SMALL BUSH FIRE**

About four acres of bushland were burned over during the weekend in Bruton township, north of Harcourt. Haliburton County bushrangers put the fire out before it gained headway. A lightning bolt is believed to have started the blaze.

**KILLED ON WAY**

On her way to visit her sister in Belleville, Mrs. W. L. Borsch, of Los Angeles, Calif., was instantly killed in a car accident at Wichita Falls, Kansas. Mrs. Borsch's daughter, Mrs. Andy Barnhouse, and granddaughter Genelle, were hurt in the crash. Mrs. Borsch's sister is Mrs. David McKee, of Belleville.

## Expert Penmen Gave Evidence In Famous Trials

H. J. Walter, of Chicago, who was called in as a writing expert on the Lindbergh-Haupman case and for the trial of Al Capone, the world's most notorious criminal, is among the penmen attending the Third Annual Convention of the International Association of Master Penmen and Teachers of Handwriting being held at Gil-Mar Lodge, Dunsford, this week.

Approximately 25 teachers of writing, handwriting experts and engrossers from Canada and the United States are attending the convention.

Mr. Walter is the foremost expert on forgery in the United States and has given unofficial training to members of the R.C.M.P.

The penmen are coming to Peterborough Thursday night to present a demonstration at the Peterborough Business College. Exhibits of penmanship will also be on display and the aims and objects of the penmanship will be explained.

President of the association Fred Richardson, of Ottawa, said today that there will be a broadcast tonight on CHEX at 7 p.m. also explaining the aims and objects of the club.

**SHOULD STRESS WRITING**

At present the association is trying to influence educators to put more stress on penmanship and handwriting in schools.

Other celebrities attending the convention are: Paul Bloser, president of the Zanerian College of Penmanship in Columbus, Ohio, which is the only college of its type in the world, and who is also mayor of Upper Arlington, Ohio; Major F. O. Anderson, of the Salvation Army, who publishes a penmanship news letter which has world-wide circulation; Rufus J. Stikney, of Boston, former president of the Eastern Business Teachers' Association; J. J. Bailey, well-known penman and author from Toronto.

## 7,000 People Attend Show In Waterloo

KITCHENER (CP)—Officials of the Waterloo county centennial show said today more than 7,000 people have attended the two-hour show in the last two nights.

With a cast of 600 local performers, the show traces the history of the county from 1800 when the Mennonites first arrived from Pennsylvania. Music, songs and dance routines illustrate the arrival of Scottish, English, German and other settler groups. Also on display is the Conestoga wagon, which completed its journey from Pennsylvania to Waterloo Monday night.

The final performance is scheduled for Saturday.

## Six People Flee Burning Building

PENETANGUISHENE (CP)—Six persons escaped early today when fire broke out in the 100-year-old Canada House in this Georgian Bay town 30 miles northwest of Barrie.

Damage was estimated at thousands of dollars. Cause of the blaze was not immediately known.

# Scientists Hard Put To Find Work For Electronic Brains

By CLARKE BEACH

WASHINGTON (AP)—So many electronic brains are being created that scientists now are trying to figure out ways to make the best use of them.

About 47 of the giant-sized computers will be in existence within a year. It was in 1946 that the first one, called ENIAC, was created at the University of Pennsylvania.

Scientists foresee the time when the job will be to figure out what tasks the "brains" should perform in order to work in the most useful fields and not overlap one another.

**FILL LARGE ROOM**

The machines, whose tubes, wires and operating consoles fill a large room, do such a staggering amount of mathematical work that scientists are now able to make many computations that formerly were so laborious no one had time to work them.

Many commercial concerns and universities, as well as the Bureau of Standards, now are producing the machines. The costs range from a $500,000 to $1,000,000 each.

The first super-computing machine was produced at Harvard University just before the Second World War. Called the Mark I, it could do prodigious feats, but it was mechanical, not electronic. ENIAC, the first all-electronic computer, could work 100 times faster than mechanical machines.

**NEED LARGE STAFF**

A typical electronic computer, for instance, can multiply 21,832,119,574 by 93,106,911,225 in three one-thousandths of a second.

The computers won't put any scientists or technicians out of work. To operate one of them on a two-shift basis and do miscellaneous problems, not the same type of problem over and over, according to the Bureau of Standards scientists, you need a staff of 57 to 70 persons.

Five or six mathematical physycists are required to work out the method of doing the problem; 10 or 12 mathematicians to break down the method adopted into its various arithmetical operations; 30 to 40 college-educated "coders" to set up the problems for the machine, and about 12 engineers to maintain the infinitely-complex mechanism.

# Police Recover Body From St. Lawrence

OGDENSBURG, N.Y. (AP)—Police yesterday recovered from the St. Lawrence River the body of Emerson Stone, 17, of Brockville, drowned June 21.

Police Chief Leo Lebau said the crew of the Brockville-Aggensburg ferryboat saw the body in the water and notified police.

Stone disappeared while swimming at Table Rock, a mile east of Brockville.

## Still Useful

COUTTS, Alta. (CP)—J. Furuset of Moorehead, Minn., passed through this border port recently with a real relic for his antique collection. He was taking back a 52-year-old horse-drawn fire engine, equipped with steam pump, which he found near Cranbrook, B.C.

DARK VICTORY.—Peggy Perry, 19, of Columbus, O., and Paul Neukom, 30, of Fort Wayne, Indiana, leave First Baptist Church in Fort Wayne, after they were married. Bride and groom, both blind, are led by their seeing-eye dogs, Rickey and Tex.

# Urges Canadians Guard Character

OTTAWA (CP)—Canadians must guard their national character in order to play their full part in "this new Elizabethan age," Rt. Hon. Vincent Massey, Governor-General, said last night.

The quality of Canadian life must be considered as well as its economic strength, Mr. Massey said in a Dominion Day message broadcast over the Trans-Canada and French-language networks of the CBC.

"If there are many things in our life, as there are, that give us our own character, let us realize these things and let us guard them. If we are to keep Canada Canadian, that is a task for each of us.

"Dominion Day is, therefore, a time not only for celebration but for reflection too. Indeed, every day might well be for us, in some sense, a Dominion Day."

# Staff Members Honor Chief Phone Operator

HASTINGS (ENS).—The staff of the local Bell Telephone office gathered at the home of Mrs. Don Leach Thursday night to honor Mrs. Leach who has resigned.

Miss Phyllis Johnston read the farewell address and Mrs. Jack Brinklow presented an electric heating pad in recognition of her five years as chief operator. Miss Andree Crate presented Mrs. Leach with a bouquet of flowers. Mrs. Leach thanked the girls for their kindness and co-operation and wished them success with their new chief, Miss Scott.

Ice cream and cookies were served by the girls.

Those present were Mrs. Fred Morrow, Mrs. Jack Brinklow, Mrs. John McMillan, Misses Phyllis Johnston, Shirley Siessor and Andree Crate.

## Lakefield News

Dr. Vincent Killoran, Sandusky, Ohio, is visiting with Mr. and Mrs. Walter Killoran.

Mrs. J. W. Sharman and Mrs. Robert Chittick have returned from Lincoln Park, Michigan, where they were guests of Mrs. Doris Prete, who accompanied them home and will remain with them for a visit.

Miss Elsie Hopkins, Toronto, is a guest this week with Miss Joyce Hutt and will leave in the near future for India where she will serve as a missionary.

The Rev. G. F. Kelly and Mrs. Kelly, Newtonbrook, were in the village on Friday for the funeral of Mrs. G. H. Spence.

Miss June Galway has left for Kingston where she will attend summer school at Queen's University.

Mr. and Mrs. F. L. Erskine, Carolyn Ann, Frances and Lynn, Burlington, spent the weekend at their cottage on Clear Lake.

Mrs. P. T. Coultas, Toronto, was a guest this week with Mr. and Mrs. J. O. Huddart.

Dr. P. M. Young, Mrs. Young and daughter Heather, Sturgeon Falls were weekend guests with Mrs. Young's parents, Mr. and Mrs. George G. Hendren.

Mrs. and Mrs. Thomas Hope and children, Hillsboro were weekend guests with Mr. and Mrs. William O'Brien.

Guests with Mr. and Mrs. F. L. Erskine at their cottage, Clear Lake on Saturday, included Mr. and Mrs. Kenneth Lichty, Lynne, Janet and Kim Lichty, Agnes Fraser and Miss Ann Samis.

Miss O. M. Perry, Miss Frances Mackenzie and Miss Mary Mackenzie have gone on a motor trip to Gaspe.

Mr. R. R. Oliver, Barry's Bay was in the village during the week renewing old acquaintances.

Mr. and Mrs. S. A. Grylls have gone to their cottage on Clear Lake for the summer.

Gilbert Hunter, Jon Pue and Gordon Blake left today for Edmonton where they will spend the summer.

John A. Arnott of the staff, Cobourg Collegiate is home for the summer holidays.

Mr. and Mrs. T. D. Underwood, Toronto are spending a few days with relatives and friends in the village and vicinity.

Mr. and Mrs. J. Cleland, Sudbury are week-end guests with Mr. and Mrs. Kenneth Lichty.

# 34 Rioting Convicts Give Themselves Up

CONCORD, Mass. (AP)—All 34 rioting prisoners at Concord State Reformatory gave themselves up without a struggle late Tuesday. State police reported the prisoners, surrendered quietly.

They had locked themselves in two rooms with guards and instructors as hostages.

First reports said the disturbance broke out in the kitchen and that the prisoners grabbed three or four guards and forced them to go along to a near-by storeroom.

State police headquarters said that 30 troopers were rushed to the reformatory. The riot broke out at about 3:30 p.m., EDT.

# A. M. Fulton New Principal At Brighton

WARKWORTH — (ENS).— A. M. Fulton, who has been principal of the Warkworth High School since 1935 with the exception of the three years from 1939 to 1942 when he taught in Marmora High School, has tendered his resignation to the Board of Trustees, and has accepted the position of principal of the Brighton High School and will be leaving Warkworh during the summer vacation months.

Mr. Fulton was born in Guysboro, in the eastern part of Nova Scotia, but he has been in other sections of the country, moving to this village from Stratford in 1935.

Mr. and Mrs. Fulton have one son Donald and three daughters, Joan, Elizabeth and Heather, the three older ones being High School students, while Heather is in th Public School.

On Thursday the students and teacing staff presented him with gifts as farewell tokens of appreciation.

Marvin McComb, a Grade 12 student, and president of the student body, read an address to Mr. Fulton, expressing the regret of the students in learning of his leaving, and Allan Birney, also a Grade 12 student, made the presentation on behalf of the school of a leather brief case with his initials in gold letters, and a pen and pencil set.

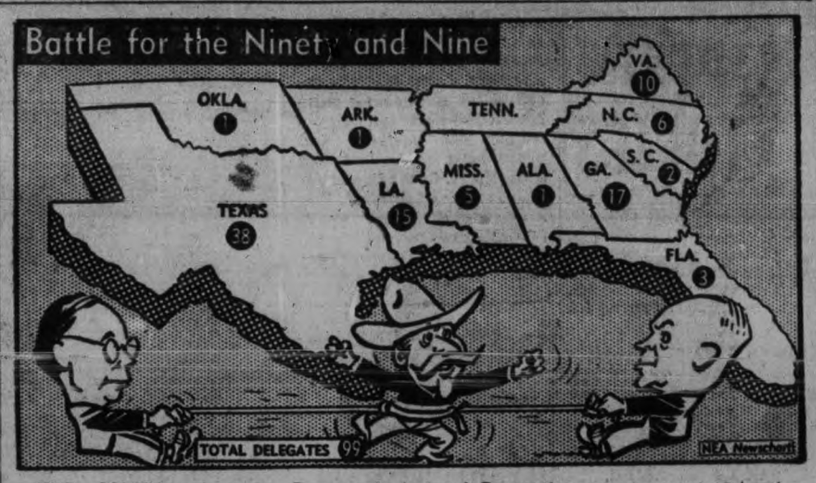
Mr. W. F. Buckley then made the presentation on behalf of the teachers of the staff of a leather wallet and a leather key case, each inscribed with his initials.

Mr. Fulton, though taken by complete surprise, thanked the students and the teachers for their kindly thoughtfulness and expressed his appreciation for the lovely gifts, and wished them all continued success in their school work, under direction of their new principal, W. F. Buckley, who has been promoted to that office.

All the former teachers have been retained and Mrs. Tanner (nee Miss Claire Curtis of this locality) added. The staff of teachers will now include W. F. Buckley, principal, J. C. McKague, Mrs. Page, Mrs. Swirzon, and Mrs. Tanner.

## Optimistic Motto

KINGSTON (CP)—Among carved symbols over the entrance to Adelaide Hall, new girls' residence at Queen's University, are a group of musical notes. The music is from "The Mikado," and a passing musician noted that the corresponding words would be: "Brightly dawns our wedding day."



THE SOUTH, always a Democratic stronghold, this year is destined to play a decisive role in choosing the Republican presidential candidate. The race between Sen. Robert A. Taft and Gen. Dwight Eisenhower is so close that the votes of the Southern delegates to the Republican National Convention may turn out to be the determining factor in the contest. Above Newschart shows the states and the number of delegates that each candidate will be wooing. Without the votes of these delegates, neither one of the major GOP contenders has amassed enough strength to insure victory on the first ballot.

# Youth Has Driving Troubles

NEW YORK (AP)—Glasses on or off, 19-year-old Herbert Feldman made something of a spectacle of himself.

First, Feldman crashed his car into Detective John J. Fleming's car Sunday. Fleming noted that Feldman's driver's licence bore the notation: "Void if not wearing glasses."

Feldman was not wearing glasses. Fleming took him to a station house and gave him a summons.

This time, with glasses on, Feldman got in his car to drive away. Greatly agitated, he drove the vehicle into another and caromed off it into—Detective Fleming's car.

Feldman then sat on the station house steps until a friend came to drive him home.

# Personals and Social

Mrs. Shirley Rae of Lakefield visited friends in London, Detroit and Woodstock last week.

✧ ✧ ✧

Mr. and Mrs. D. Johnson of Lambeth were guests last week of Mr. and Mrs. J. R. Healey, Aylmer St. N.

✧ ✧ ✧

Friends of Mr. George Walton of 187 Stewart St., will be sorry to know that he is a patient in the Western Hospital, Toronto.

✧ ✧ ✧

Mr. and Mrs. D. T. Henderson, Division St., spent the long week-end visiting in Toronto and Niagara Falls.

✧ ✧ ✧

Mr. Kenneth Hutchinson of Montreal spent the holiday week-end with his parents, Mr. and Mrs. Bruce Hutchinson, Aymer St.

✧ ✧ ✧

Mr. H. O. White, M.P. and Mrs. White of London were the week-end guests of Mr. and Mrs. J. R. Healey, Aylmer St. N.

✧ ✧ ✧

Mr. and Mrs. Oscar Smith and family of Regina, Sask., were the holiday guests of Dr. and Mrs. J. N. Perry, Murray St.

✧ ✧ ✧

Mr. and Mrs. George Baker and Dennie, Marjorie and Doris of 15 Hillier Street, spent the holiday weekend at North Bay, Kirkland Lake and Timmins.

✧ ✧ ✧

Mrs. D. J. Cameron, 318 Frederick Ave., has returned from Toronto where she was attending the funeral of her brother, Dr. C. Stewart Wright.

✧ ✧ ✧

Miss Alice Nevins and her father, Mr. Henry Nevins, from Forest Hills, New York, are visiting with Mr. and Mrs. Harry Florence at their summer home on Lake Chemong.

✧ ✧ ✧

Mr. and Mrs. Joseph Henderson and Miss Ann Davis, Boswell Ave. spent the long weekend on a motor trip through Muskoka and Algonquin Park, staying overnight at Glen Manor, Dwight.

✧ ✧ ✧

Miss Lottie O'Boyle of Ottawa, who has been attending the Canadian Authors' Association meeting in London, Ont., was the weekend guest of Miss Margaret McCabe, Burnham St.

✧ ✧ ✧

A shower honoring Mr. and Mrs. Glen Sloan was given before their marriage last Thursday by Mr. and Mrs. Harold Sloan who live in the CHEX transmitter house, Otonabee.

✧ ✧ ✧

Showers in honor of Miss Jeanette Windsor, bride of last Saturday at Reaboro, were given by Mrs. George Lindsay, Bonaccord St., Miss Lillian Taylor, Mrs Stanley Boyle and Mrs. Delbert Hickson.

✧ ✧ ✧

Mr. and Mrs. Robert Patterson of 127 Maude St., left this morning by motor for Saskatoon, Sask. for an extended visit with their son and daughter-in-law and grandson, Mr. and Mrs. John Patterson and Brian. They will visit several points in the west before returning.

✧ ✧ ✧

Those who entertained prenuptially for Miss Marley Jobbitt, who became the bride of Mr. Zoltan Temesy on June 30, were Mrs. James English, Miss Gwynth Reed, Miss Jean Hills, Mrs. Jack Daly of Toronto, Mrs. W. G. Ovens and Mrs. J. B. McGall of Kingston. The staff of the Bank of Commerce presented her with a table lamp.

## Cavan News

Mr. and Mrs. Harry Cole, Toronto, spent the weekend with Mr. and Mrs. Thomas Douglas. Mrs. Douglas returned with them to the city on Monday for a week's vacation.

Mrs. William Hiscock was the guest of Mrs. Robert McCamus Friday night and Mrs. McCamus and Miss Jean Lough accompanied her to her home in Gananoque for a few days' vacation.

Herman McLean, Toronto, spent the weekend visiting Mr. and Mrs. Lloyd Sutton.

Mr. and Mrs. Fred Hanna, Beverly, Mass., and Mrs. Carl Smith, Port Hope, were recent visitors of Mrs. Ada Armstrong. While they were here Mr. and Mrs. Fred Smith, Port Hope, held a reunion for them and entertained at afternoon tea.

Dr. M. J. Kennedy, King George St., has now returned home after two weeks' hospitalization following an accident. He expects to be able to resume professional duties on Thursday.

✧ ✧ ✧

The many friends of Mrs. F. N. Biddle, Rogers St., will be glad to know she is convalescing nicely in St. Joseph's Hospital after an operation which she underwent last Thursday.

✧ ✧ ✧

Miss Yudell Blizzard, daughter of Mr. and Mrs. Stewart Blizzard, Bolivar Street, left Sunday for Bangor, Maine, to visit her grandmother, Mrs. Fred McLaughlin, and other relatives.

✧ ✧ ✧

Miscellaneous showers were given for Miss Margaret McMillan before her marriage last Friday by Miss Marilyn Chambo and by Mrs. Winnie Barker and Miss Alma Leach at the latter's home. Canadian Sealright Company presented cheques to Miss McMillan and the groom, Mr. John Nahrgang, and employees gave the couple a table lamp.

✧ ✧ ✧

Miss Mary Carey, Aylmer St. N., entertained at the tea hour last Saturday the attendants at the wedding of her niece, Miss Isabel Carey and Dr. Thomas J. Kane and a number of out-of-town guests here for the wedding. She was assisted by her cousin, Mrs. A. Lawrence of Toronto who was her house guest while in the city as well as bridal attendants, Miss Catherine Arbour and Miss Ann Hart, also of Toronto.

✧ ✧ ✧

Mr. Gordon Graham and Miss Gloria Graham of Bolivar St. returned Tuesday night from Detroit where they attended the Saturday wedding of Mrs. Graham's niece, Miss Connie Murray to Mr. Edward Garbus of Michigan State College. On Sunday, they were entertained at a Murray family reunion dinner at the home of Mr. and Mrs. P. Joseph Murray. Here Mrs. Graham joined eight of her immediate family from Milwaukee, Wis., Columbus, Ohio, Buffalo, N.Y., Galt and Detroit. More than 20 nieces and nephews also were guests at the dinner. Among them were Mr. and Mrs. Michael Murray of Braidwood Ave., who are still vacationing in Detroit.

## Ex-Servicewomen To Donate Trophy

Miss Grace Simpson was hostess Monday night at her home on River Road to the ex-servicewomen of Branch 452, Canadian Legion. This last meeting until the fall season was conducted informaly on the lawn.

Resolution to donate a trophy for competition in the 1953 Kiwanis Music Festival with a special prize to be donated to the Bach class was passed. There was much discussion about the class the trophy will be donated to and the final decision was left with Mrs. Pat Vaisey who is also a member of the Music Festival committee.

A tray presented by the Branch at the 1952 Festival was won by Miss Faye Rich of Little Britain.

All members brought gifts for a parcel to be packed by Miss Simpson and forwarded to the Air Force personnel in the Aleutian Islands.

A report on the District F meeting of the Canadian Legion held in Cobourg June 1st was given by Miss B. Waters and Miss Simpson. They advised that the 1953 meeting of this district will be held in Peterborough.

Mrs. Enid Wood was chosen as a second representative of the Branch on the Film Council. Mrs. Dorothy Grady reported distribution of mite boxes to the members with the request that they save pennies during the summer to help finance the annual Christmas projects for orphans at home and overseas.

A most enjoyable social time and a weiner roast followed the business. The evening concluded with a highlight, the presentation of a huge birthday cake aglow with many candles to the hostess' mother, Mrs. K. Simpson, who celebrated her 80th birthday recently. Miss Esther Might was at the piano for a happy sing song which was indicative of the comradeship enjoyed by this group.

## Lindsay-Windsor Nuptials In Reaboro Church

In the Reaboro Baptist Church at four o'clock last Saturday afternoon, Jeanette Kathleen, daughter of Mr. and Mrs. W. J. A. Windsor of Omemee, became the bride of Frederick Marshall John Lindsay, son of Mr. and Mrs. Ross Lindsay of Lindsay.

The ceremony was performed in a setting of summer flowers and ferns by the Rev. W. Leaton, and wedding music was played by Miss M. McDonald.

Given in marriage by her father the bride wore a gown of white nylon net with French lace over the bodice and forming a long peplum in the back. Her fingertip veil of French tulle was caught with a pearl encrusted crown and she carried a bouquet of American beauty roses.

Maid of honor was Miss Geraldine Dewdney of Peterborough, frocked in orchid net over satin. Bridesmaids Miss Yvonne Mason and Miss Mabel Taylor were dressed alike in periwinkle blue taffeta ankle-length frocks with white accessories. Each wore a headdress of feathers and flowers to match her gown and they carried bouquets of yellow daisies, white stephanotis, sweet peas and pink roses.

Groomsman was Mr. Jack Storey and the ushers were A. Coppins and Walter Windsor.

The reception was in the Reaboro Community Hall. The bride's mother received in a gown of dusky rose lace over taffeta with a hat of the same lace and she wore a bouquet of roses and stephanotis. The groom's mother was gowned in orchid nylon sheer and wore a white straw hat and a mauve orchid on her shoulder.

Mr. and Mrs. Lindsay later left on a motor trip, the bride wearing a yellow nylon dress with white accessories and a corsage of deep purple pansies.

They will live at 45 Victory Street, Lindsay, on return.

## Elva Kinsman Becomes Bride Of Orval T. Horner

At Bethel Grove Unitel Church on Saturday, Elva Elizabeth, daughter of Mr. and Mrs. Raynor Kinsman of R.R. 2, Campbellcroft, became the bride of Orval Thomas Horner, son of Mr. and Mrs. William Horner, Campbellcroft. The Rev. P. C. Brown officiated.

The church was decorated with pink and white peonies and the wedding music was played by Mrs Georgia Carruthers, aunt of the bride. Marian and Margaret McKinley sang "I'll Walk Beside You" during the signing of the register.

A gown of white nylon lace and net over slipper satin was the bride's choice. Her fingertip veil of nylon net was caught to a beaded crown and she carried a cascade of Bettertime roses and stephanotis. She was given in marriage by her father.

Miss Lorna Macklin was bridesmaid for her cousin in a frock of pink nylon net with matching cap to which her shoulder veil of matching net was caught with a band of lily of the valley and pink carnation petals. She carried a cascade of pink Sweetheart roses.

Joan Horner, niece of the groom, was the flower girl. She wore a gown of blue nylon net and matching hat and shoulder veil caught with a similar floral band and she carried a dainty lace basket filled with Sweetheart roses, forget-me-nots and sweet peas.

The groomsman was Earl Kinsman, brother of the bride, and the ushers were Marvin Kinsman and Allan Horner, brothers of the bride and groom.

The reception was held at the Kinsman parental home where the bride's mother received in a gown of sapphire blue lace with which she wore white accessories and a corsage of buff Pinnocchio roses. The groom's mother was wearing navy sheer and matching accessories and had a corsage of red roses.

Leaving on a trip east the bride wore a powder blue suit with matching shorties coat and white accessories and she had a corsage of pink Sweetheart roses.

Mr. and Mrs. Horner wil live at Woodville farm, near Campbellcroft.

MARY (PENNY) RIDGWAY: "I'll have to wear low-heeled shoes."

## Wife Of Gen. Ridgway Has No Time For Protocol

MARNES - LA - COQUETTE, France (NEA). — Dark-haired, black-eyed Mary (Penny) Ridgway, wife of Gen. Matthew B. Ridgway, successor to General Eisenhower as European defence chief, is too busy organizing her new home at SHAPE headquarters to allow much time for social activity right now.

For the time being—except for the general's inspection trips — she's staying close to the NATO commander's "compound" at Marnes-la-Coquette, near Paris. But like any other American in France, Penny has a lot of plans.

"I'm looking forward to the day when I can visit all the museums" she says. "Guess I'll have to wear my low-heeled shoes."

* * *

She'd like to attend classes in one of the famous Parisian art schools, too. Penny has always been interested in painting, although she never had much time to study it until recently. Her friends say she has real talent for landscapes and still life; Penny says she "adores" French impressionism.

She'd like to master the art of French cooking.

And, come Fall, she'd like to go shopping for some real Parisian clothes. On one of her rare visits to Paris so far, she had a peek inside one "maison de couture," but her summer wardrobe was made for her in Tokyo when her husband was Supreme Commander in the Pacific.

Tokyo was not Penny Ridgway's first taste of Army high level protocol. She was an Army widow working as a secretary to the Inter-American Defence Board in Washington when she first met the general in 1946. He had just come back from the Meditarranean to be senior U.S. delegate on the board.

* * *

Ridgway, whose first two marriages ended in divorce, married Penny Anthony Long in 1947, and since then she has been in the midst of military command life, first in the Caribbean area, then at Fort Myer, Va., while the general was Deputy Chief of Staff at the Pentagon, and after that in Japan.

At 33, however, Penny is still able to disregard protocol with a simplicity her friends find endearing.

Soon after they arrived in France, Penny teetered down Normandy lanes on high heels in the pouring rain while her husband retraced his steps as airborne commander for the Allied invasion. Later, a French illustrated weekly featured a picture of the Supreme Commander's wife signing an autograph on his back while he himself was bending over signing the golden book at Ste. Mere-Eglise.

The daughter of a prosperous Richmond, Va., farmer, Penny grew up in Silver Spring, Md., in semi-military atmosphere. Her older sister, with whom she lived, works with the National Guard Bureau.

* * *

Regarded at the Pentagon when she worked there as a "very efficient" secretary, Penny is also a highly competent housewife. She washes and sets her own hair, is her own best manicurist, and is doing as much as she can to transform the house at Marnes-la-Coquette into her own idea of a home for her husband and their three-year-old son, Matt. Jr.

Former guest rooms have been changed into a nursery and room for little Matt's Nisei nurse, Betty Watanabe, who came with them from Tokyo. Another room will become a study. The general has ordered there will be no changes in drapes and furnishings.

The household also includes a cook, butler, houseboy and the general's orderly. Later, Penny hopes to get a Frenchwoman as personal maid to do the sewing—and talk French with her and young Matt.

Penny is a good badminton player, and plays a game or two in the evening with the general when he gets back from headquarters. Washington friends remember she was very interested in ice skating, too, but it doesn't look like there'll be much chance for that at the moment.

## Welfare Worker Dies In Toronto

TORONTO (CP) — Mrs. Dora Heath, for many years active in welfare work, died Monday.

Born in Teeterville, she moved to Arden, Frontenac County, after he marriage to J. L. Heath, where for more than 15 years she helped organize camps and schools for the blind and deaf.

She leaves five daughters including Mrs. J. W. McCallum, Kingston, and Mrs. R. Broun, Colborne.

## What's Right

You want to mark your place in a borrowed book.

WRONG: Turn down a corner of the page.

RIGHT: Put a slip of paper between the pages to mark your place.

✧ ✧ ✧

On the club car of a train you sit down beside a person who is engrossed in a book or magazine.

WRONG: Try to strike up a conversation.

RIGHT: Respect the other passenger's desire to concentrate on what he is reading.

✧ ✧ ✧

A man who has chatted with a woman on a train wants to pay her check in the diner when the two have been seated at the same table.

WRONG: She lets him.

RIGHT: She thanks him, but insists on paying her own check.

## Marley Jobbitt In Ice Blue Bride Of Zoltan Temesy

Miss Marley Elizabeth Jobbitt was a lovely bride in her gown of ice blue Swiss eyelet embroidery as she and Mr. Zoltan Temesy pledged their marriage vows Monday afternoon at the altar of Trinity United Church. The ceremony was performed by the Rev. Henry Cotton of St. And[illegible]'s Church, assisted by the Rev. Dr. Bruce Gordon, minister of Trinity Church.

The bride is the daughter of Mr. and Mrs. Frenk H. Jobbitt of Peterborough and she was given in marriage by her father. Her attendants were Miss Eleanor Jobbitt, Miss Jean Hills and Mrs. James English, all of Peterborough.

The bridal gown was fashioned on princess lines with a very full skirt extendiing in a slight train and the bodice finished with a wing collar and short sleeves. It was made over white taffeta. Her veil was of ice blue nylon tulle illusion, finger length, and it was caught to a halo of the Swiss eyelet embroidery. Her cascade bouquet was all white of gardenias and sweet peas.

Attendants were frocked alike in ballerina length dresses of coral organza. The style was square neckline and short sleeves and billowy skirts with sashes of ruby red velvet falling to the hemline. They wore small poke shaped hats of the same material as their dresses and they carried small cascades of gladioli and sweet peas.

The groom, who is on the staff of the Peterborough Collegiate and Vocational School, is a son of Mr. and Mrs. Stephen Temesy of River Canard, Ontario. He was attended by his eldest brother, Mr. Stephen Temesy of London.

Ushers were Mr. William Temesy of Amherstburg, Mr. James Gardiner of Ottawa, Mr. Douglas Tanney and Mr. James English of Peterborough.

Tall standards of orange blossoms and blue delphinium and tall candelabra with lighted candles were decorating the church. The wedding music was played by Mrs. Hugh Redmond and during the signing of the register Mrs. H. A. Mitchell sang "Love's Coronation".

The reception following was at the Peterborough Golf and Country Club. The bride's mother was receiving in a gown of bouquet blue French crepe and she wore a hat of matching blue petals and a corsage of pink rosebuds.

The groom's mother was gowned in grey sheer and her corsage was a gardenia.

Guests were present from Toronto, Hamilton, Niagara Falls, London, Amherstburg, Ottawa, Montreal, Bradford, Pa., Detroit and Cleveland.

When leaving later on a wedding trip to northern Ontario the bride wore a turquoise suit of sharkskin, matching linen shoes and white accessories and had a corsage of white gardenias.

Mr. and Mrs. Temesy will live at 292 Stewart St., Peterborough.

## FUNNY BUSINESS -- By Hershberger

"I got tired of having my corns stepped on!"

MARY MOORE SAYS:

# Suggest Jellied Chicken As Special-Purpose Menu

(I hope Mrs. A. M. of Brooks sees this—since she asked for jellied chicken salad. This is a rare recipe—so if you fancy it you should clip it now.)

Chilled Tomato and Lemon Juice
Potato Chips Spread with
Cottage Cheese
Jellied Chicken
Homemade Tea Buns
Waldorf Salad
Lattice Cherry Pie
Iced or Hot Coffee

Directions: It is Barb's birthday today but since yesterday was the holiday we celebrated it last night at our house and this was the meal we had. She said she preferred a fresh cherry pie to a birthday cake.

Jellied Chicken:— One 3-lb. chicken (dressed weight), 2½ teaspoons salt, 2 tablespoons gelatin,1 chopped onion, 2 bay leaves, 3 cloves, ½ teaspoon whole peppers, ⅛ teaspoon nutmeg, 3 hard-cooked eggs, 6 sliced stoned olives, ½ cup sliced canned mushrooms, 1 tablespoon each chopped parsley and celery or new cooked peas. Wash and singe dressed chicken and put in kettle and half cover with boiling water. Cover and simmer until tender—2 or 3 hours depending on age of bird. Add 1½ teaspoons salt when half-cooked. Lift chicken from liquor and reserve liquor. Drain and cool chicken. Remove all meat from bones and cut into 1-inch squares. Put skin and bones with 1 quart of cooking liquor and add onion, bay leaves, 1 teaspoon salt, cloves, peppers and nutmeg. Simmer until reduced to 1 pint. Soak the gelatin in ½ cup cold water or cold leftover broth for 5 minutes. Stir it into the hot liquid. Strain. Put layer of chicken meat into greased mould, cover with layer of sliced eggs, mushrooms and olives. Alternate layers until all ingredients are used, sprinkling each layer with parsley or celery or peas. Pour reduced strained stock over all. Chill several hours until firm. Unmould and garnish attractively. Pass mayonnaise.

Note: If Mrs. A.M. of Brooks would like to add mayonnaise she may add ½ cup to broth but it must be cool before it is added, and gelatin will have to be increased by ½ tablespoon.

Waldorf Salad:— Soak 2 cups seedless white raisins in orange juice to cover in covered jar and soak overnight. Ten or fifteen minutes before serving time make the salad by adding drained raisins to 4 cups diced inner celery, 6 cups diced dessert apples—leave some red skin on—and 2 cups fresh walnut meats. Put some dressing on apples as soon as they are cut. This takes a pint of mayonnaise to moisten it. It is a large salad and I had a large crowd. Cut it in half or down to one-third for six. This is very elegant and popular.

Filling for Cherry Pie is 4 cups pitted sour cherries, 1 or 1¼ cups sugar mixed with 5 tablespoons flour, ¼ teaspoon cinnamon and 4 drops almond extract.

Question: Please give recipe for Maraschino Cherries.—Mrs. E.A.

Answer:— Home-Canned Maraschino Cherries: Three lbs. sweet cherries, preferably Royal Ann, weighed after stemming and pitting, 3 lbs. sugar, 1 oz. liquid colouring, 1 oz. almond flavoring, 1 cup water. Soak cherries in cold water 2 hours, then pit them, keeping them as whole as possible. Weigh. Put sugar and water in kettle and stir until sugar is dissolved. Add coloring and cherries and cook slowly until cherries are Red and syrup is fairly thick. Do not scorch. Remove from heat, cool a little, add flavoring, let stand to cool, then pour into sterile jars and seal. Store in cool place.

Note: (The commercial method of preparing maraschinos involves bleaching the cherries and this is too complicated and risky with home equipment for me to describe in this column.)

Wonderful! New!

DOROTHY DIX

# If You Want For Friends Let Your Neighbors Know

DEAR MISS DIX: My husband, two children and I recently moved to a strange city. Our neighbors are very nice people, who live quite close to us. However, they seem so unfriendly and I want so much to have friends. I have always been shy and self-conscious, but in this new environment I hoped to find people who would understand me. Sometimes when I come face to face with my neighbors, I get so tongue-tied that I pretend not to see them. Later, of course, I feel sorry for being so foolish. How can I show folks that I want to be friendly, and I want them to like me?

VIRGINIA L.

✧ ✧ ✧

ANSWER: By following a few simple rules, which may be hard at first, I can promise that you will have firm friends, and be well liked by all around you.

You already have the first and chief requisite for making friends—you like people and you want them to like you. Your present conduct, of course, is the surest way to achieve the opposite reaction. By ignoring people, and pretending you don't even see them when they are quite well aware that they are recognized, will build up an impression that your are a misanthrope, anxious to avoid speaking to others, and intent on keeping entirely to yourself.

**FORCE YOURSELF**

You must overcome this tendency to withdraw within yourself, no matter how difficult it is. The first few times you must make conversation with comparative strangers will be hard, but once you establish the habit, you'll be surprised how easy it is!

Make up your mind now that the next time you see one of your neighbors you'll talk to her, even though you must cross the street to attract attention. The easiest gambit to use as an opening would be children. Probably your two youngsters are not as introspective as you, and have made friends among the children of the neighborhood. When you see the mothers of these children, make a friendly observation on how happy you are that your girls have such nice playmates. That you will get a friendly, warm reaction is certain.

So hurdle number one has been jumped. When you have met and talked to three or four women, ask them to your house for tea some afternoon—although they probably will invite you first when they see that you are responsive. Of course, it is the duty of old residents to call upon newcomers, but, since these old-time customs are not always upheld, don't remain aloof waiting for the others to make overtures. Don't be afraid to make some yourself. Have the ladies for tea, inquire what activities are current in town with which you can become associated — and from there on the path is clear.

The principal point for you is to overcome the initial shyness, speak to people even though you must be the one to open the conversation, and don't be afraid. No one will bite you, or criticize you, or penalize you for indicating a desire to make friends. But you really cannot expect others to be cordial to you when they are convinced a rebuff is forthcoming. Force yourself to look at people when you meet them—even though the butterflies are fluttering in your interior.

Best of luck, don't be discouraged, and keep at the business of being a friend if you want to have one!

✧ ✧ ✧

DEAR MISS DIX: I am 21 and a senior in college. I have a great interest in the career I planned, which is teaching, and want to accept a position after graduation. However, my fiance is greatly opposed to my working after marriage. We have no other differences but this. I feel I must put my education to some use, but he believes a woman's place is in the home.

E. M.

✧ ✧ ✧

ANSWER: Both of you are right! A woman's first place is at home, caring for her family, but there are many reasons why it is also desirable for her to have a career. While it is greatly to be hoped that your married life will be without trial or tribulation, the possibilities of the future are impossible to foresee. Financial reverses, serious illnesses, accidents, are among the occasions which would make a career in the family a wonderful thing. Teaching, especially, is a fine field for a woman to hold in reserve.

Perhaps you can convince your fiance to accept your working for a year, or until you have a permanent license. Then continue with the minimum amount of work to keep the license valid, which certainly could be accomplished without discomfort to your family.

**Bedtime Snack solves laxative problem**

"Constipation made me sullen all day. What a change since I started to use ALL-BRAN regularly! Even my wife notices it!" writes man from Ville Montmorency, Que. If you suffer from irregularity due to lack of bulk, try a bowlful of this toast cereal every night before bed. It may bring back the youthful regularity you thought long lost. ALL-BRAN is the only type ready-to-eat cereal that supplies all the bulk you may need. It's high in protein and iron. Not habit-forming. Kellogg's is so sure you'll like ALL-BRAN that if you're not *completely satisfied* after 10 days, send empty carton to Kellogg's, London, Ont., and get DOUBLE YOUR MONEY BACK!

KINGDON—Mr. and Mrs. Don Kingdon are happy to announce the birth of a son, Edward Stanley, a brother for Danny, at Peterborough Civic Hospital, on Monday, June 30, 1952.

MANLEY—Mr. and Mrs. Derwyn Manley, Romaine Street, are happy to announce the birth of their son, David Derwyn, June 23rd, 1952. A brother for Frank and Philip.

WITHERS—To Caroline Ann, wife of James P. Withers, a daughter, on June 29, 1952, at St. Joseph's Hospital, Peterborough, Ontario.

### 2—Engagements

Mrs. E. Houghton of Peterborough wishes to announce the engagement of her daughter, Hilda, to Mr. George Birkett Foster, son of Mr. and Mrs. J. J. Foster of Fleetwood, England. Wedding to take place at St. George's Church, July 21.

Mr. and Mrs. Wilbert H. Chambo wish to announce the engagement of their eldest daughter, Olive Loretta Gertrude to Jackson Harold Lloyd, son of Mrs. William Lloyd Boate and the late Mr. Boate. The wedding to take place Saturday, July 26, 1952, in All Saints' Anglican Church at 2 p.m.

Mr. and Mrs. W. E. Boon wish to announce the engagement of their elder daughter, Nancy Maude, to William Arthur Kenneth McCarrell, son of Mr. and Mrs. B. J. McCarrell, Peterborough. Wedding to take place 26th day of July at 2 p.m. in St. James' United Church.

### 5—Deaths

AVERY, Thomas—At Civic Hospital, Wednesday, July 2, 1952, Thomas Avery of 185 King Street, in his 86th year. Beloved husband of Jane Clark and dear father of Charles and Robert of Peterborough and Ruby May Graham (deceased). Resting at the Kaye Funeral Home, 539 George Street, for service on Friday, July 4th, at 2 p.m. Rev. C. G. Boyd of St. Paul Presbyterian Church officiating. Interment Lakefield Cemetery.

HARRAN, Mrs. Margaret—At St. Josephs Hospital, Tuesday, July 1, 1952, Margaret Higgins, widow of the late Walter Harran, of 84 Hunter Street West. Dear mother of John T. Harran of Peterborough. Funeral from the Duffus Funeral Home, 845 a.m. Thursday, July 3rd, to St. Peter's Cathedral for reiem mass at 9 o'clock. Interment St. Peter's Cemetery.

MILLAR, David Bruce—At St. Joseph's Hospital, Peterborough, Monday, June 30, 1952, David Bruce Millar, in his 64th year, of Regent St., Lakefield, beloved husband of Ida Victoria Graham, and dear father of Jean at home. Dear brother of Hilliard of Toronto, Zack, Jessie, Annie and Ethel all of Smith township. Resting at the Anderson Funeral Home, Lakefield, for funeral service on Wednesday, July 2, at 2 p.m. Rev. W. H Tonge officiating. Interment Lakefield Cemetery.

ROBERTSON, Joseph Alexander—At Civic Hospital, on Wednesday, July 2, 1952, Joseph Alexander Robertson, 694 George St., N., beloved husband of Laura Morrison, dear father of Mrs. Charles R. Rawson (Lillian) of Montreal; brother of William and Thomas Robertson, Mrs. J. Kirby, Miss Eliza Robertson, all of Bolton. Resting at the Kaye Funeral Home, 539 George St. Funeral arrangements later.

### 6—In Memoriam

HUDGINS—In loving memory of a dear father and mother, William Hudgins who passed away July 2, 1936, Mrs. William Hudgins, Jan. 4, 1931.
Father in Thy gracious keeping,
Leave we now our loved ones sleeping.
—Daughter and son-in-law, Iva and Cliff Deck and grandchildren.

MARTIN—In loving memory of a dear father, George Martin, who passed away July 1, 1951.
Upright and just in all his ways,
Faithful and true to the end of his days.
In silence he suffered, in patience he bore,
Till God called him home to suffer no more.
—Sadly missed by son Edwin, daughter-in-law Betty and grandson Randy.

MARTIN—In loving memory of a dear father, George L. Martin, who passed away July 1, 1951.
Happy and smiling, always content,
Loved and respected wherever he went,
Always thoughtful, willing and kind,
These are the memories he left behind.
—Sadly missed by son Robert and daughter-in-law Cecilia.

MARTIN—In loving memory of George L. Martin, who passed away July 1, 1951.
While you, dear George, rest and sleep,
Your memory I'll always keep.
—Ever remembered by his wife.

WOOD—In loving memory of Melville (Jerry) Wood, who passed away June 29, 1950.
Nothing can ever take away
The love a heart holds dear,
Fond memories linger day by day
Remembrance keeps him near.
—Ever remembered by Vera, Bill and family.

### 7—Card of Thanks

I wish to thank the nurses and doctors and all kind friends and neighbors for their kindness to me during my recent illness and for lovely flowers, cards and fruit.—Mrs. Agnes Rowe.

Mrs. Muriel Krogh wishes to thank attending doctor and the nurses and staff of Civic Hospital; Rev. Fred Parlee and members of the Pentecostal Church, the Setting Dept. and Employees Club of Brinton Carpet Co.; also kind friends who sent cards, flowers, fruit and gifts.

Mr. Kenneth Moncrief would like to take this opportunity of thanking all those who donated blood, sent messages and flowers. Also thanks to attending doctors and staff of Civic Hospital for kind attention during his recent illness.

We wish to thank Mr. and Mrs. McGillis, Mr. Leo Barry and staff of McGillis Hotel for their donation and kindness during Mr. Billingham's recent accident.—Mr. and Mrs. A. Billingham.

THE ONTARIO MUNICIPAL BOARD

IN THE MATTER of Sections 66 and 67 of "The Ontario Municipal Board Act" (R.S.O. 1950, c. 262), and

IN THE MATTER of an Application by the Corporation of the City of Peterborough for Authority to Dispense with a Vote of the Ratepayers in respect of a capital expenditure of $395,000.00 for the Remainder of the Cost of the New City Hall in the City of Peterborough.

APPOINTMENT FOR HEARING

AND ONTARIO MUNICIPAL BOARD hereby Appoints THURSDAY, THE TENTH DAY OF JULY, A.D. 1952, at the Hour of Fifteen Minutes Past Ten o'clock in the Forenoon (D.S.T.), at the Council Chambers, in the City of Peterborough for the Hearing of all Parties interested in Support of or Opposing this Application.
DATED at Toronto, this 23rd Day of June, A.D. 1952.
(Seal)
M. B. SANDERSON,
Secretary.

SEALED TENDERS, addressed to the undersigned and endorsed "TENDER FOR FEDERAL PUBLIC BUILDING, PETERBOROUGH, ONTARIO," will be received in the Office of the Secretary until 3:00 P.M. (E.D.S.T.), WEDNESDAY, JULY 30, 1952.
Plans and Specification can be seen and Forms of Tender obtained at the Offices of the Chief Architect, Department of Public Works, Ottawa, Ontario, the District Architect, 36 Adelaide Street East, Toronto Ontario, and at the Public Building, Peterborough, Ontario.
Tenders will not be considered unless made on these Forms and in accordance with the conditions set forth therein.
Each Tender must accompanied by an accepted cheque on a chartered bank in Canada made payable to the order of the Minister of Public Works for the sum of $100,000.00 (One Hundred Thousand Dollars), or Bearer Bonds as specified in the Form of Tender.
The Department, through the Chief Architect's Office and the Office of the District Architect, 36 Adelaide Street East, Toronto Ontario, will supply Blue-prints and Specification of the work on deposit of a sum of $200.00, in the form of a certified bank cheque payable to the order of the Minister of Public Works. The deposit will be released on return of the Blue-prints and Specification within a month from the date of reception of Tenders. If not returned within that period the deposit will be forfeited.
ROBERT FORTIER,
Acting Secretary.
Department of Public Works,
Ottawa, June 25, 1952.

# Bears Ruin Tent Of Fishermen

ROSENEATH (ENS). — Carl Holz and Tony Kostika, Cleveland, Ohio, two American fishermen who have been coming to the Roseneath-Rice Lake district for the past 14 years, came again last week. As the trolling season had not opened here, they motored on to Lac La Roche, Quebec, and pitched their tent. Each night campers reported bears prowling around.

On Saturday morning Messrs. Holz and Kostika went out fishing early, returning at 7:30 p.m. They found the front of the tent all torn, presumably by bears, groceries scattered all over the place and their knapsack carried away. The two men packed up the remainder of their belongings and returned to Rice Lake in time for the trolling season to open. They are staying at the home of their Indian guide, Irvine Smoke, Alderville, as their tent has to have a major repair job done on it.

# Replace Lung When Diseased?

WASHINGTON (AP)—Some day it may be possible to replace a diseased lung with a healthy spare, two researchers said today.

Describing pioneering experiments with lung transplants in dogs, Doctors Wilford B. Neptune and Charles P. Bailey reported that these tests offer grounds for encouragement. They said future research may lead to perfection of a technique for human application.

They implied they had in mind healthy lungs that might be taken from people soon after death and preserved for later use as transplants.

Eyes and blood vessels taken from the dead, with proper permission, have been used for some time in transplanting surgery.

# Wait Clearing Weather To Resume Search

EDMONTON (CP)—Thirty-two aircraft today awaited a lifting of the weather to resume the search for a Mitchell bomber missing in the Yukon with four men aboard.

Air force headquarters in Edmonton reported the plane disappeared Monday between Whitehorse and Mayo in the Yukon, some 1,000 miles north of Edmonton, while on a summer training exercise for reserve units.

Aboard were FO. J. A. Mortwedt and FO. B. J. Pasichniak, both of Edmonton, PO. P. A. Davidson, Westhill, Ont., and FO. M. W. Hooper, Cobble Hill, B.C.

# Out Ai Kawartha

(Continued from Page 6)

with number of matches played in brackets: Kawartha 22 (5), Quaker 14 (3), Port Hope 14 (4), Lindsay 9 (3), Bowmanville 11 (4), Cobourg 7 (3). This list in not official, but is believed to be correct, according to information received. The Bowmanville team will play at kayartha Club on Wed July 2, and the Kawartha team will travel to Cobourg on Sun. July 6, weather permitting.

## 36th Anniversary

DENVER, Colo. (AP)—The Eisenhowers—Dwight and Mamie—took time off from the political merry-go-round yesterday to celebrate their 36th wedding anniversary. A dinner at the home of Mrs. Eisenhower's mother highlighted the celebration.

# Adjutant Amy Wood

The funeral for Adjutant Amy Wood, of the Salvation Army, 582 Bolivar St., who died Friday, was held Monday at the Salvation Army Temple.

Major Harry Everitt conducted the service.

Pallbearers were Wilfred Boorman, Alexander Cumming, Deputy Chief John Naples, Sergeant Percy Sexsmith, Sergeant Leo Murphy, Patrol Sergeant Harold Mesley. Burial was in Little Lake cemetery.

# Guild Orders Radio Strike

NEW YORK (AP)—The independent Radio Writers Guild called a strike today against three major networks. The Guild said the walkout would disrupt broadcast coverage of the Republican and Democratic conventions in Chicago.

However, all three networks—NBC, CBS and ABC—said their news programs would not be interrupted.

The union said television news also would be affected by TV writers refusing to cross their radio colleagues' picket lines. The contract dispute does not directly involve TV news.

The dispute here involves directly 67 staff newswriters. But the Guild, which belongs to the Authors' League of America, said the walkout would be backed by all its 1,200 members in the country. They include continuity, dramatic and free-lance writers as well as the staff newspaper men.

Chief stumbling block in the dispute is a Guild demand for extra commercial fees for staff newswriters on sponsored newscasts. The Guild also is seeking weekly pay increases in instalments, some retroactive to last Oct. 1, totalling $30 by next Oct. 1. A Guild spokesman said the companies offered $20. Present top minimum pay is $130 a week.

# Touch Of Scotland At Rendall Funeral

The funeral for Robert Beddie Rendall, 764 Aylmer St., who was Peterborough's first water fatality of the season, was held Monday from the Kaye funeral home.

Mr. Rendall, who came to Canada from Scotland a year ago, died in St. Joseph's Hospital Friday morning six hours after he was pulled from the raceway of the city waterworks dam. The fatal accident was the tragic end of a fishing trip on which Mr. Rendall was accompanied by Oliver Sugden, 739 Aylmer St. Mr. Rendall fell into the water when he attempted to step into a boat tied up to the cement pier at the waterworks.

Numerous floral tributes and a large attendance showed the deep sympathy felt for Mrs. Rendall and her three-year-old son. The Canadian Scottish Club, Peterborough Branch attended the funeral in a body and a great many of Mr. Rendall's fellow employees from the C.G.E. also were present.

Three pipers and a drummer, all members of the C.G.E. Pipe Band, played the Mallorca Lament as the casket was carried out of the funeral home. The Flowers of the Forest, another lament, was played at Little Lake cemetery.

The casket was draped with a St. Andrew's flag.

The service was conducted by the Rev. C. G. Boyd of St. Paul's Presbyterian Church.

Pallbearers were John Donaldson, Lewis Gerrard, Peter Dobbins, Jack Hallihan, Frederick Rendall and Sandy McNabb of Detroit, Michigan.

On Saturday evening a Masonic service was held at the Kaye Funeral Home.

# Milk Control Ban Delayed Till July 15

TORONTO (CP)—The Ontario Milk Control Board ban on the sale of vitamized milk, originally scheduled to become effective yesterday, has been deferred until July 15.

The action followed a request from the Ontario Milk Distributors' Association which said many dairies have large stocks of labelled milk bottle caps on hand and would lose money if they could not use them.

# Present $1,000 Bill To Stock Car Racer

NIAGARA FALLS, Ont. (CP)—A $1,000 bill was presented today to stock car racer Buddy Schumann of Charlotte, N.C., for his victory in the 100-mile Stamford special Dominion Day.

Schumann took and held the lead after 70 of the 200 laps.

Leo Bertrand of Victoriaville, Que., rolled his car twice during the trials and could not make the race.

Seventeen cars started in the event, watched by 4,000 fans.

## Dies Following Crash

TIMMINS (CP).—Girard Vanier, 27, of Kirkland Lake, injured when a truck in which he was riding overturned Saturday after striking a soft shoulder, died in hospital yesterday.

Elumium Chaumont, 27, of Timmins, was charged with dangerous driving.

## Police Seek Husband

SUDBURY (CP)—Provincial Police still are attempting to find Harold Adams of nearby Minnow Lake to inform him his wife died Monday after a fire which gutted half the Adams' home. He is thought to be on a business trip in the Hearst area.

# Ask Red Dean Prove Germ Charge

LONDON (AP)—A Conservative member of Parliament today challenged Dr. Hewlett Johnson, the "Red Dean" of Canterbury, to prove his assertion that United Nations forces are waging germ warfare in Korea.

The self-styled "Red Dean," who has just finished a tour of Communist China, was quoted yesterday by the Red Chinese news agency as saying "no longer can Christians reject the germ warfare stories as propaganda."

Today Conservative member John Profumo gave notice he will ask Prime Minister Winston Churchill in the House of Commons tomorrow if he will "take steps to procure from the Dean of Canterbury the evidence of the use of germ warfare which is in his possession."

Dr. Johnson was quoted by the Chinese agency as saying "none who has seen, as I have, the very spots attacked, and talked with eyewitnesses, has any doubt" about germ warfare. He was quoted as saying Chinese Christian leaders were "convinced of the reality of germ warfare."

The Canterbury dean has frequently been under fire from church and political leaders in Britain for his support of Communism.

# Youth Arrested In Minor Thefts

With the arrest of 16-year-old Robert Bolton, of 198 Edinburgh St., police believe they have ended a series of breaking and enterings at the Peterborough Tool and Machine Co., 138 Dalhousie St.

Within the last month, the company has been entered three times and about $8 stolen.

In police court today, Bolton was arraigned on three charges of breaking and entering and theft and one charge of breaking and entering with intent. Bail was set at $1,000 and he was remanded to Thursday.

Bolton was caught early Tuesday by Constable Dennis Smith who was on patrol at the time. The youth was reported to be leaning inside an opened window at the plant directing a 13-year-old boy who was inside.

On three separate occasions in June amounts of $6, $1.50, and 50 cents were reportedly stolen. The building has been under police surveillence since.

# Bombed Plants Aiding Reds

TOKYO (AP)—The United States Air Force said today hydro-electric plants in Communist North Korea were bombed because "they were supplying electricity" to Red war plants producing weapons being used against United Nations troops.

The power plants had remained untouched by the Allies for two years of war. Much of the power they produced went to Manchuria.

Photographs released today showed widespread damage to 13 plants. The air force said the photographs established that the plants were knocked out.

More than 500 air force, marine and navy planes hit the installations June 23. The attacks continued three more days.

Other large Communist users of the power were listed as maintenance and repair shops, both rail and vehicular; widely-dispersed small factories and repair shops supporting the Red war effort, and the Communist radar warning systems.

# Truck Assembly Plant To Close At Oshawa

OSHAWA (CP)—General Motors of Canada Limited announced today that their truck assembly department will be closed Friday because of a parts shortage due to the United States steel strike. Some 900 men will be affected.

# Child Dies Of Burns From Blazing Dress

TIMMINS (CP)—Rollande Gagnon, four, who suffered burns Monday when her dress caught fire while she was playing with matches, died in hospital yesterday.

About one third of the child's body was burned before her mother Mrs. Gerard Gagnon, managed to beat the flames out. Mrs. Gagnon suffered burns to her hands.

## Killed In Clash

BELGRADE (Reuters)—A high official of the Yugoslav state security service, Lt.-Col. Pane Djukic, was killed Monday night in a clash "with a group of terrorists who had been smuggled from Bulgaria into Yugoslavia," it was announced today.

## Stabbed By Gambler

NEW YORK (AP)—The father-in-law of Harry Gross, jailed bookmaking mogul, was stabbed and critically injured yesterday while breaking up a dice game. The victim, Harry Oransky, 54, was jabbed in the left temple by one of a crowd of 'teen-age gamblers, who was picked up later.

# Taft-Eisenhower Continue Hot Battle

By ED CREAGH

CHICAGO (AP)—The Taft-Eisenhower fight for the Republican Presidential nomination tore into the bare-knuckles stage today.

Though it could be different next week, when the Republican national convention gets down to the business of actually naming a Presidential candidate, Senator Robert A. Taft appeared to have the political muscle to forge ahead on points in the pre-convention struggle.

Currently he led Gen. Dwight D. Eisenhower, his principal rival, 474 to 410 in the Associated Press tabulation. That count is based on delegates pledged, instructed or willing to express a preference, as well as on candidate concessions. It takes 604 votes to win the nomination.

In today's round the Republican National Committee called its members into session with Georgia on its mind.

It is up to the 106-member committee to decide between the claims of two delegations who wanted to vote on behalf of Georgia Republicans at the convention.

**SOLID FOR TAFT**

One is solid—would cast all of Georgia's 17 votes for Taft.

The other numbers 14 supporters of Eisenhower, two of Taft, one uncommitted to either.

As of last night Taft forces called the tune.

An 18-member Florida delegation almost solid for Taft was recognized by the National Committee in an unanimous vote.

The National Committee overrode objections from Governor Thomas E. Dewey of New York and other Eisenhower supporters in voting 60 to 40 to bar radio microphones and cameras from its deliberations.

**MOVE DOWNSTAIRS**

The whole committee moved one flight downstairs in the Conrad Hilton hotel—to the Boulevard Room, a fancy night club sort of place. There they sat, around drinkless linen-covered tables, while spotlights cast a purplish glow on the speakers' faces.

Dewey telegraphed his views from Houston, Tex., where he has been attending the national governors conference. He said if he had influence with the committee, he wanted full television coverage so the voters could get all the details of what he called "the scandalous way" Taft delegates were chosen in Texas and elsewhere.

Eisenhower forces were furious.

The General's campaign manager, Senator Henry Cabot Lodge, Jr., of Massachusetts, called the action "a major political blunder" and said it would "embarrass everyone in our party who believes in free discussion and has nothing to hide or to frame."

**SMALL BEGINNINGS**

Total railway mileage in Canada in 1860 was only 2,065 miles, mostly in separate divisions.

**LOGY, LISTLESS, OUT OF LOVE WITH LIFE?**

Then wake up your liver bile . . . jump out of bed rarin' to go

Life not worth living? It may be the liver! It's a fact! If your liver bile is not flowing freely your food may not digest . . . gas bloats up your stomach . . . you feel constipated and all the fun and sparkle go out of life. That's when you need mild, gentle Carters Little Liver Pills. You see Carters help stimulate your liver bile till once again it is pouring out at a rate of up to two pints a day into your digestive tract. This should fix you right up, make you feel that happy days are here again. So don't stay sunk, get Carters Little Liver Pills. Always have them on hand. Only 35c from any druggist.

# OBITUARIES

**DAVID ANDREW OWEN**

CAMPBELLFORY (ENS) — A resident of Campbellford practically all his life, David Andrew Owen died at his home here on Monday. Mr. Owen was born in Baldwinsville, N. Y., and moved to Campbellford with his parents, Charles Lewis Owen and Mary Bain, at the age of three years. Mr. Owen's father was postmaster at Campbellford for a number of years, superintendent of the Trent Valley Woollen Mills here and also a member of parliament for this riding.

His parents predeceased him many years ago. Mr. Owen had been in failing health for the past two years and had been seriously ill for the past week. He retired from the hardware business about a decade ago and has since worked at the Campbellford Cloth Company plant. He was a member of St. John's United Church.

Besides his wife, the former Constance Soar, he is survived by four sisters: Mrs. F. J. Smith (Mate), Campbellford; Mrs. T. E. Bell (Phoebe), Bradford; Mrs. Glenholme Ellis (Edith), Brantford, and Mrs. J. C. Birmingham (Jennie Mabel), Campbellford.

Funeral services were conducted from Bennett's funeral home on Frank street today with the Rev. Dr. D. M. Smith of St. John's United Church officiating. Interment was in Mount Pleasant cemetery.

Pallbearers were Messrs. Hilton Beatty, William McComb, Vernon Haig, Ted Atkinson, William Nicholas and Arthur F. Collette. Bearers of the many beautiful floral tributes were: N. Alex MacColl, James Archer, Charles O'Connor, Jack Linton, James Gay and Edward Bates.

**MRS. WALTER HARRAN**

Mrs. Walter Harran, the former Margaret Higgins, 71, 84½ Hunter St. W., died Tuesday in St. Joseph's hospital following a lengthy illness.

Mrs. Harran was born in Hamilton, the daughter of the late Mr. and Mrs. John Higgins, and has lived in Peterborough for the past 50 years, coming here from Hamilton.

She was a member of St. Peter's Cathedral.

She leaves one son, John T. Harron, Peterborough. Her husband, Walter Harran, predeceased her in 1939.

The funeral will be held Thursday from the Duffus funeral home to St. Peter's Cathedral for requiem mass at 9 a.m. Burial will be in St. Peter's cemetery.

# Stray Bullet Explodes 45,000 Lbs. Dynamite

FLIN FLON, Man. (CP)—Two men were killed 80 miles northeast of here Sunday when 45,000 pounds of dynamite—900 cases—exploded when struck by a stray rifle bullet.

Killed in the explosion were Wilfred Goodman, 24, of Selkirk, Man., and Philip Sequin, 30, of Pine Wood, Man. Three other men were injured. One is still in hospital.

The men were employed in construction of the Sherridan-Lynn Lake railway in northern Manitoba.

Officials said one of the dead men is believed to have fired at a bear. His bullet plowed into the dynamite, stored 200 yards from five camp buildings. The blast destroyed the buildings which housed 30 men.

# Coal Production Up

LONDON (Reuters)—British miners produced 114,400,000 tons of coal in the first half of this year —1,500,000 tons more than in the corresponding period of 1951—provisional statistics issued by the Fuel Ministry indicated today.

# Norwood Whips Marmora In Trent Opener

MARMORA (ENS) — Deloro Recreational Association held its annual Dominion Day celebration on Monday. In the morning the ball field was the centre of field races which attracted the juvenile population and occasioned keen competition.

Results:

Girls and boys, 4 years, 1, Donna Nicholson, 2, Gerald Campion, 3, Joan Lajoie.

Girls and boys, 5 years, Glen Soderberg, Teddy Pordham, Mary Stubbs.

Girls and boys 6 and 7 years, Helen Walsh, Barry Mantle, Linda Quinn.

Girls, 9 years and under, Jean Lajoie, Betty Lajoie, Helen Walsh.

Sack race, girls 9 years and under, Betty Lajoie, Linda Quinn, Helen Walsh.

Girls' three-legged 9 and under, Helen Walsh and Linda Quinn, Jean and Betty Lajoie, Beverley Burnett and Gloria Townson.

Girls egg and spoon, 7 to 10 years, Jean Lajoie, Gloria Townson, Betty Lajoie.

Men's running broad jump, Howard Blair.

In the afternoon Marmora and Norwood opened the Trent Valley Baseball League. Norwood won 18-3. Aldred pitched throughout for the winners while Marmora used four pitchers in their endeavour to keep the scoring down.

Score by innings—

Norwood .. 660 102 111 18 10 3
Marmora .. 000 300 000 3 2 4

Umpires—A. Aldred at plate, T. Cousins and F. Leal on bases.

Teams: Norwood—Payne lf, Wilson 3b, D. Ferguson 2b, C. Ferguson ss, Fennell 1b, Kelly c, Aldred p, Crompton cf, Althouse lf, Rae lf.

Marmora—Borland c, Darrah p, lf, Drummond 1b, p, Killian 2b, Brown ss, Brooks 3b, p, Mantle lf, p, Jones cf, Dikun rf, Dooher 3b.

In the evening the day's program wound up with a fireworks display.

GOP CARNIVAL TIME—Mrs. Robert A. Taft, still confined to a wheelchair after suffering a stroke, is escorted to a Taft Carnival at Al-Marah Farm, Montgomery County, Md., by "Mr. Republican." The carnival, which attracted a large crowd, was held to raise funds for the Taft presidential nomination campaign.

# Calls Revenue Minister Stupid, In House Uproar

OTTAWA (CP)—An uproar developed in the Commons yesterday when Donald Fleming (PC—Toronto Eglinton) said Revenue Minister McCann was "stupid."

The exchange occurred during debate on a bill redistributing seats in the Commons on the basis of the 1951 census.

Mr. Fleming referred to an earlier point he had made and said Dr. McCann was "too stupid to take it in; that was all."

Dr. McCann: "Mr. Chairman, I demand that the word 'stupid' as applied to me be withdrawn."

George Hees (PC — Toronto Broadview): "Oh, don't be a stuffed shirt as well as being stupid."

Dr. McCann: "The honorable member can't buck me down. He is a big man but he is not big enough for that."

After other cross-floor exchange, Mr. Fleming said:

"Mr. Chairman, I always like to make a contribution to peace and harmony in the House of Commons; and if it will assuage the injured feelings of the Minister of National Revenue, for what I said I will substitute the statement that the Minister made a very stupid remark."

Dr. McCann: "I demand a withdrawal of the word which the honorable member admits that he used with reference to me."

The Chairman: "As I apprehend the situation, the honorable member for Eglinton has withdrawn the word 'stupid' as applied directly to the Minister of National Reveneu. He has amended that and said that they were largely stupid remarks. I think the withdrawal was complete in so far as any personal reference to the Minister was concerned."

# WITH THE BOY SCOUTS

By G. E. GROOMBRIDGE

**2nd PETERBOROUGH ST. LUKE'S PACK**

**Pack**

The Pack held its annual camp over the weekend at the Scout grounds near Nassau. Thirty-one Cubs under Akela Bill King who was assisted by three assistants and two Scout helpers. The theme of the camp was craft work, each six making models depicting some scene in the jungle life also getting instruction on leather-craft making purses and key cases. Sunday morning a cub's own service was held in the chapel in the woods.

A great big thank you goes to the Mothers' Auxiliary who attended the camp and cooked the meals for the boys, also to them any visitors who visited the camp on Sunday.

**BEEN CAMPING**

If you have, and have some tents you have used, do not take it for granted that they are dry. Hang them up in a large shed, off the ground, or lay them spread out in the attic for at least one week before folding them up for the winter. A lot of good money is easily lost folding your tentage up before it is thoroughly dry. And, when you store tentage away, put it up in the attic not down in the cellar.

**GOING CAMPING**

St. Lukes' Troop will be leaving this Thursday for their annual two weeks camp at Sandy lake.

**CAMP NEWS**

We know that there has been several more camps held during the last month but did receive the news reports of events. Trinity held one weekend at Nassau. St. Albansheld a field day. All Saints' and Murray Street have been out.

# Holding Liquor, Beer For Family Reunion

COBOURG (ENS)—Judgment was reserved by Magistrate R. B. Baxter in connection with a charge of keeping for sale, laid against Homer Mockler of Grafton, proprietor of a hotel there. Provincial police raided the premises on May 23 and found several cases of beer and a number of bottles of liquor. Mockler said that he had laid in a supply of liquor and beer for a family reunion.

# Blame Russia For Slaying 15,000 Officers

WASHINGTON (AP)—A congressional report today officially charged Russia with killing 15,000 Polish officers 12 years ago on a pattern duplicated by the Reds in Korea.

This, said Representative Alvin O'Konski (Rep. Wis.), was the unanimous verdict of a special House of Representatives committee which heard 150 witnesses in the United States and Europe while investigating the 1940 Polish massacre in Katyn forest, near Smolensk, Russia.

The report was prepared for presentation to the House today or tomorrow. It may include specific recommendations considered by the committee for "appropriate action" against the Russians by the United Nations Assembly and the World Court and for international investigation of any other Soviet atrocities.

**DUPLICATED IN KOREA**

O'Konski, a committee member, told a reporter the report said that, in at least two respects, Communist methods in Korea are in exact duplicate of practices uncovered in in the Katyn massacre.

He said one was the method of killing the victims. The second, he said, was the "run-around" at the Panmunjom truce negotiations over the whereabouts of missing U. N. troops.

The Polish officers disappeared in 1940 from Russian prison camps. Three years later German authorities discovered crude graves at Katyn forest from which 4,258 bodies were exhumed.

The Nazis claimed the Russians were responsible. Moscow replied that the Germans had killed the Poles after capturing the Smolensk area.

O'Konski said all of the committee's evidence confirmed Russian guilt. Witnesses included a former Polish soldier who appeared in a mask, to hide his identity, and who testified he saw some of the shootings.

**HANDS TIED**

The Polish officers had their hands tied in a distinctive manner behind their backs and most of them were shot in the head.

O'Konski said the committee fixed the time of the Katyn massacre as the spring of 1940. For months after that, however, Moscow officials were telling Polish authorities the prisoners all had been released to join a Polish Army then being raised against the Germans.

O'Konski said the committee's evidence showed the Katyn incident was part of a definite program of genocide—mass extermination of races.

The committee concluded that Katyn's crude graves contained only part of the slaughtered Poles, O'Konski said. Another 5,000 or 6,000 are buried near Charkov, Russia, and the remainder of the bodies are in the White Sea, he added.

Soviet officials have declined two invitations to testify before the committee.

# Council Member D. B. Millar Dies In Hospital

The funeral for David Bruce Millar, 63, Regent St., Lakefield, and member of the Lakefield council for six years, who died Monday in St. Joseph's Hospital, Peterborough, was held today from the Anderson funeral home.

Mr. Millar was born in Smith township, son of the late David Millar and Janet Tucker, and has lived in Lakefield for the past 42 years. Formerly he resided in Guelph and Peterborough.

He was a barber in Lakefield for the past 38 years and had one of the three oldest business establishments in the village. He served as a councillor in 1938, 1939, 1941, 1942, 1943 and 1952.

He was an adherent of Lakefield United Church.

Besides his wife, the former Ida Victoria Graham, he leaves one daughter, Helen Jean, at home; three sisters, Jessie, Annie and Ethel Millar, all of Smith township; two brothers, Zack, Smith township, and Hilliard, Toronto. One son, Donald Roger, predeceased him in 1926.

The Rev. W. H. Tonge, of Lakefield United Church, conducted the funeral service.

Pallbearers were Judson Hull; Reeve Elwood Northey, N. A. Moore, Earl Edwards, Lawrence McQuade, Omemee; George Weller, Warsaw.

Flower bearers were B. Q. Dench, Glen Wannamaker, Fred Remnant, Fred Lawrence, Russell Puffer, Robert Anderson, Havelock. Burial was in Ray's cemetery, Lakefield.

# Complete Conversion To Teletypesetter

TORONTO (CP)—The Canadian Press today completed conversion of its Ontario wire to teletypesetter operation. The wire serves 25 Ontario daily newspapers.

Teletypesetter is an automatic type-setting device. Through code punches in a tape, an operator in one central location actually operates the typesetting machines in distant newspaper offices.

Twenty of the 25 newspapers plan to use teletypesetter to set type. The others will set manually from copy produced in upper and lower case. Previously copy was delivered in capital letters.

The Ontario wire is the first in Canada to be converted to teletypesetter. This new-type transmission starts July 20 to newspapers in Manitoba and Saskatchewan.

# Tornado Lifts House

WING, N. D. (AP)—A farmer was killed last night when a tornado lifted his house from the foundation and dropped it 200 feet away, upside down and a mass of splintered wreckage. The twister flattened buildings on a score of farms and tore out power and telephone lines. The storm cut a five-mile wide swath for an estimated 40 miles.

# 4 Sentenced To Death

BELGRADE (AP)—A district tribunal yesterday sentenced four men to death on charges of plundering state property. Eleven other defendants drew prison terms ranging from 10 months to 18 years. The group was accused of stealing and selling more than 30 tons of copper wire.

# Steel Union Keeps Trying To Corral Small Firms

PITTSBURGH (AP)—The United Steelworkers Union (C.I.O.) continued to try and bring smaller companies into the contract fold today despite a statement by a top industry executive that the big companies can't give in to the demand for a union shop.

A Steelworkers' spokesman, pointing to the more than 50,000 steelworkers who have been covered by new pacts since 650,000 workers went on strike a month ago, said:

"We think more of the smaller companies will be in line this week."

The statement came in the wake of a prediction by Charles H. White, head of Republic Steel, that there will be a "long drawn out fight" between the steel producers and the union headed by Philip Murray.

**SENDS TELLEGRAM**

White sent a telegram to presidential assistant John R. Steelman saying:

"We have fully explored the possibility of reconciling the union shop issue with the C.I.O. and we see no possible area of compromise."

The steel executive told Steelman that a parallel strike in the great iron ore mines of Minnesota is becoming "disastrous."

White said if the iron ore strike continues there will be no possible chance of the resulting ore shortage being made up by all-rail shipments. Much of the ore is shipped over navigable waters in the summer months.

"If we are in the midst of a shooting war next winter, this ore loss would be hazardous," White added.

**34 COMPANIES SIGN**

Thirty-four small companies have signed new contracts based on recommendations made by the Wage Stabilization Board.

The W.S.B. recommendations call for an hourly 26-cent wage and fringe package and a union shop—which would require all workers to join the union.

Most of the small company contracts provide a modified union shop, requiring new workers to join the union but permitting them to drop out anytime between the 20th and 30th day of employment.

Unemployment figures across the United States have soared to the 1,000,000 mark as a result of the steel strike. This includes 600,000 steelworkers and another 400,000 idle workers in allied industries.

# Radio Operator Pleads Innocent

LONDON (AP)—William Martin Marshall, 24-year-old Foreign Office radio operator, pleaded innocent today to charges of slipping state secrets to a Russian diplomat. His trial was set for July 9.

The tall, sallow-faced youth entered his plea at a brief hearing in the central criminal court—London's famous Old Bailey. It was there in March, 1950, that atomic scientist Klaus Fuchs was sentenced to 14 years' imprisonment for betraying U. S. and British bomb secrets to the Russians.

Marshall was accused on five counts. Three charged him with giving information "useful to an enemy" about the British diplomatic wireless service to Paval Kuznetsov, second secretary of the Soviet Embassy in London.

The fourth count accused him of obtaining such information and the fifth of recording similar state secrets.

Marshall was in the dock only four minutes.

# Newsboy 8, Shot

KENSINGTON, Md. (AP)—An eight-year-old newsboy was shot to death near his home here last night while delivering his papers. Police held a 13-year-old playmate who they said told them the newsboy, Virgil D. Bryan, Jr., was shot in the right temple while looking down the barrel of a revolver. The playmate had taken the gun from his grandfather's home.

# Union Cancels Buffalo Strike

BUFFALO, N.Y. (AP)—The Bus Drivers and Mechanics Union (A.F.L.) early yesterday called off its threatened strike against the Niagara Frontier Transit Corporation.

Union officials agreed to terms offered by the company at a last-minute meeting.

The contract, a one-year agreement, provided a 13-cent hourly pay raise for drivers in two stages —four cents immediately and another nine cents when schedules are revised to allow a 44-hour week. All of the system must be on the new schedule by Nov. 2.

Working hours will automatically be reduced to 40 June 30, 1953, with wages to be renegotiated then.

Mechanics go on a 40-hour week Aug. 3, with a percentage increase comparable to that for the drivers.

## One Fatally Injured As Truck Overturns

BLIND RIVER (CP)—Samuel Kissis, 54, was fatally injured last night when the truck in which he was riding overturned near here. John Kissis, his brother, was severely injured.

Police said David Stoneypoint, 44, was the driver.

Blind River is 75 miles east of Sault Ste. Marie.

ON THE DOTTED LINE goes the signature of Avery C. Adams, left, President of Pittsburgh Steel Company, following an interim agreement which will send 10,500 U.S. steelworkers back to work with a 12½-cent hourly wage hike. The agreement, negotiated by Philip Murray, right, President of the United Steelworkers Union (CIO), closely follows recommendations made weeks ago by the Wage Stabilization Board in an effort to avoid a strike which now is in its 26th day.

## Three Schools Picnic At Riverside Park

LILY LAKE — (ENS). — A very enjoyable picnic was held at Riverside Park, Peterborough, on Thursday afternoon when three schools joined for their annual outing. They were the Elmvale School of which Miss Eleanor Bowles is teacher, Brailey's School of which Mrs. Henry Batten is teacher, and Lily Lake School, where Mr. Bill Anderson is teacher. Dinner was served at long tables in the park, after which races were held and swimming enjoyed in the Lions Pool.

Winners of races were:

Boys under school age—Donald Edgerton, Bobby Whittington, John Douglas. Girls under school age—Ann Sage, Ann McColl, Nan Cardwell.

Boys 6 to 8—Keith Johnston, Ross Whittington, Kenneth McColl. Girls 6 to 8—Barbara McColl, Pauline Dunlop, Gwenyth Hancock.

Boys 8 to 10—Gilles Chretien, Donald Middleton, Bruce Middleton. Girls 8 to 10—Karen Dunford, Ann Eastwood, Margaret Sheppard.

Married women's race—Mrs. Everett Tully, Mrs. Sage, Mrs. D. Church.

Single women's race — Beverley Tully, Claudette Chretien, Carolyn Whitfield.

Boys 11 to 12—Wilbert Dew, Donald Middleton, George Middleton. Girls 11 to 12— Claudette Chretien, Margaret Steinkrauss, Monica Lanciault.

Boys 12 and over—Henry Guyatt, Gerald Chretien, Douglas Patton. Girls 12 and over—Claudette Chretien, Beverley Tully, Shirley Tully.

Shoe scramble — Henry Guyatt, Claudette Chretien, Carolyn Whitfield.

Wheelbarrow race—Donald Middleton, Larry Brown, Lucy Patton, Bertie Patton, Myles Parrington, Gilles Chretien.

Partner race — Donald Middleton, Larry Brown, Bruce Middleton, Wilbert Dew, Darcy Dunlop, Douglas Patton.

## Ont., New Brunswick Have Best Choirs

NELSON, B.C. (CP)—An Ontario junior choir and a New Brunswick adult choir topped Canadian festival choirs this year, Reg. Hugo, president, announced at the annual meeting of the Federation of Canadian Music Festivals which opened here yesterday.

Pensionnat Notre Dame de Bon Conseil of Sudbury won the George Simpson Mathieson trophy, awarded for the first time this year in memory of the late G.S. Mathieson of Winnipeg and presented by the Men's Musical Club and associates of Winnipeg.

The Lincoln trophy for best adult choir went to college Notre Dame d'Acadie, Moncton, N.B., which competed in the New Brunswick Festival at Saint John.

## Richard Jack Artist Dies

MONTREAL (CP) — Richard Jack, 86, R.A., R.C.A., Canada's first official war artist and well-known Canadian painter, died here Monday.

Born in England, he came to Canada in 1920. He had won himself a high reputation for his portraits and interiors in his native land and had been elected an associate member of the Royal Academy in 1913.

His best known European portraits were those of the late King George V, and of King Albert of the Belgians. His interior of Buckingham Palace was regarded as one of his leading works.

Commissioned in 1916 as Canada's first official war artist with the rank of major, he went into the field to record Canada's part in the First World War. Two of those scenes—"Canadians at the Second Battle of Ypres" and "Vimy Ridge"—now hang in the National Archives in Ottawa.

## Hawaiian Music Presented At Recital

CAVAN — (ENS).—A program of interest was sponsored by the Fellowship group of St. John's Church, Ida, on Friday night in the Parish Hall. Pupils of Mrs. Ethel Cochrane, Peterborough, were heard in Hawaiian music, which opened with the Hawaiian national anthem. The other numbers were: A duet by Bonnie Strain and Jeanette Lillico; instrumental number by the junior orchestra; solo by Lloyd Hill; guitar duet by Kenneth and Patricia Wagar; guitar solo by Harry Sherry; piano solo by Nona Sanders; guitar solo by Patricia Wagar; guitar solo by Adele Cochrane; instrumental by the Hawaiianaires; sool by Richard Staples; tap solo by Jeffrey Parker, and guitar duet by E. Cochrane and Annie McConkie. Mrs. Earl Argue, Bethany, was heard in several readings.

At the conclusion of the program refreshments were served to the entertainers.

## Adrift 17 Hours

PENETANGUISHENE (C P)—Two teen-agers drifted 17 hours on Georgian Bay Monday after their 14-foot outboard motor boat was blown into open water. Wanda McKee, 17, of Brampton, and Robert Cherry, 17, of Woodbridge told police they spent Sunday night and most of Monday drifting when their motor broke down. Cherry managed to repair the motor and they reached shore at 3 p.m. Monday.

## Westwood School Picnics At Birdsalls

WESTWOOD (ENS) — The annual picnic of Westwood Public School was held at Birdsall's Grove. At noon, a pot luck dinner was enjoyed by all. Following the delightful meal games and races were sponsored by the teacher, Miss Marjorie Huffman. The following were prize winners: Senior boys' 100 yard dash, Paul Humphries, Malcolm Pacey; senior girls, 100 yard dash, Frances Lynch, Barbara Whitred. Intermediate boys 75 yard dash, Carl Breckenridge, Norman Hie. Intermediate girls 75 yard dash, Anne Whitred, Grayce Lake. Wheelbarrow race, Paul Humphries and Roy McMillan, Barbara Whitred and Isobel Wilson. Junior Boy's 50 yard dash, Walter Wilson, Freddie Pulfer. Junior rabbit hop, Betty Patterson. Karen Humphries, Wayne Pacey, Gary Cardwell. Girls rabbit race, Anne Whitred, Isobel Wilson, Boy's rolling race, Peter Needham. Junior rooster race, G. Cardwell, Wayne Pacey. Senior Boy's sack race, Peter Needham. Senior Girl's sack race, Anne Whitred. Junior boy's sack race, Norman Hie, Billy Whitred.

Senior boy's softball throw, Roy McMillan, Paul Humphries, Ladies shoe kicking, Mrs. Jack Warner.

## Redistribution Bill Approved After Long Debate

OTTAWA (CP) —The Commons today gave third and final reading to the controversial bill to redistribute representation in the House after defeating a last-ditch Progressive Conservative attempt to hold it up until fall. The House voted 90 to 27 against a motion by George Drew, Progressive Conservative leader, to give the measure a six-bonths' hoist, a device for deferring action. All but one of the C.C.F. members in the Chamber voted with the Progressive Conservatives. Clarie Gillis C.C.F.—Cape Breton South joined the Liberals and Social Credit members in opposing the hoist.

Right after the defeat of the motion, the House gave final reading to the bill "on division"—without a recorded vote. It now goes to the Senate.

**FINAL SESSION**

Mr. Drew brought in his hoist motion as the Commons started off what was expected to be the final day of the current session. It was the fifth day of debate on the measure.

While the hoist is often used to kill a bill, Mr. Drew said his motion was meant to give the government an opportunity to reconsider his earlier suggestion that an independent commission handle redistribution.

Before members adjourn until Thursday Nov. 20 they still must pass estimates for a few departments. Adjournment originally was scheduled for June 28 last, but the debate on redistribution prolonged proceedings.

The decennial battle over the redistribution of seats in the Commons on the basis of census figures produced one of the most prolonged and, at times, most bitter debates of the session.

Progressive Conservative members charged that a committee, composed of a majority of Liberals, had redrawn the boundaries of constituencies in such a way as to make it difficult for some Opposition members to be re-elected.

They fought unsuccessfully against changes in the constituencies of two prominent Progressive Conservatives—John Diefenbaker of Lake Centre in Saskatchewan and George Nowlan of Annapolis-Kings in Nova Scotia. Mr. Diefenbaker is a veteran member of the party and Mr. Nowlan is president of the Progressive Conservative Association of Canada.

**NO COMMISSION**

Early in the debate, members defeated a Progressive Conservative motion to turn the work of redistribution over to an independent commission.

Citizenship Minister Harris, chairman of the redistribution committee, said the government will consider whether an independent commission should be established to handle the next reallocation of seats, due in 1962.

REDISTRIBUTION BILL

(Continued on Page 2)

## Truman Says U.N. Helping To Stop Russians

WASHINGTON (AP)—President Truman told Congress today the United Nations made it possible to stop Russia. He said "go it alone" advocates in the United States would invite a third world war.

The Kremlin policy of conquest might have been irresistible, he said, "if it had not been clearly and decisively brought to the bar of world opinion in the U. N."

"We can win peace, but we cannot win it alone," the president said. "And above all, we cannot win it by force alone. We can win the peace only by continuing to work for international justice and morality through the United Nations."

**PARTISAN ATTACKS**

Submitting an annual report which detailed United States relations with the international organization, Truman said in an accompanying letter that although these relations have been carried on mostly on a non-partisan basis, there have been partisan attacks.

"Some of these attacks are made in a spirit of impatience that can only lead to the holocaust of world-wide war," Truman said. "Most of those who urge us to 'go it alone' are blind to the fact that such a course would destroy the solid progress toward world peace which the United Nations has made in the past seven years. I am confident that the American people will reject these voices of despair."

He did not identify any of the "go it alone" advocates. Gen. Douglas MacArthur used the phrase in his address to Congress last year after Truman relieved him as Far East commander.

The President's letter bristled with blame of Russia for dimming post-war hopes of peace.

"The Soviet leaders have been dominated by their doctrines of Communism, by the concept of the use of force, unchecked by ethical considerations," he said. "This concept has led the Kremlin into a course of international conduct which threatens the peace of the world. By stirring up class warfare, subverting free governments, and employing lies, intimidation, and conquest, the Soviet Union has pursued a policy of extending its control without regard to the sovereignty of other nations or respect for their rights.

## Robs Paymaster Jailed 2 Years

By BILL BOSS

KURE, Japan (CP)—Convicted of stealing 1,000,000 yen ($2,752) of the Canadian Army's money, Pte. J. E. M. Charrette of Montreal has been sentenced here to imprisonment for two years less a day.

The verdict and sentence are subject to review.

The Commons defence committee was told about Charrette May 8 when a tabulation of losses was placed before it by the army.

A member of the Royal 22nd Regiment company at the 25th Canadian reinforcement group depot, Charrette was court martialed on charges of theft and absence without leave.

He pleaded innocent of theft and guilty of absence without leave.

Evidence was that last April 24, while Lieut. W. G. Nash of Ottawa and Toronto was exchanging military scrip currency for yen at a company pay parade, a soldier was seen to leave the tent in which the parade was being held. A large bundle of Japanese currency caused his blouse to sag.

The trail led through a series of Japanese public houses to Charrette's arrest five days later.

## Storms Cause Damage In Western Ontario

TORONTO (CP)—Thunderstorms in scattered western Ontario areas last night brought rain and caused considerable damage when lightning struck a house near Galt, the public weather office at nearby Malton reported today.

The home of Keith Maybee, two miles south of Galt, was gutted by fire during a violent electrical storm.

At Stratford almost two inches of rain fell.

The weather office said rain during June in the southern part of the province was about 1.3 inches half the normal fall. Northern Ontario's rainfall for the period was above average.

## Ontario People Hurt On Bus

WINNIPEG (CP)—Three persons from Ontario were among the 20 bus passengers injured in today's bus-truck collision south of Winnipeg:

(This list was compiled from hospital reports. Identification and addresses may not be positive in all cases.)

In hospital:

Mrs. Louise Yaeger, 64, Toronto, undetermined injuries; Walter Blindick, Toronto, eye and forehead lacerations, multiple lacerations to leg; Mrs. Tom Terry, 48, Ottawa, leg, forehead and skull lacerations; Bob Rapelje, 17, St. Thomas, released following back treatment.

## Earl Alexander Under Fire For Revealing Secret Facts

LONDON (CP)—Earl Alexander, Britain's defence minister, today was the centre of considerable critical comment in most British newspapers.

Editorial writers, even on papers which seldom take party sides, used words like "gaffe" and "indiscretion" in referring to Lord Alexander's Tuesday night speech to the Canada Club.

In the speech, Alexander discussed United Nations reserves in Korea, but asked that this reference be treated as a matter of secrecy. Yesterday, in an excited House of Commons debate, Prime Minister Churchill defended the man he recalled from Canada to be his defence minister, but admitted Lord Alexander's statement had been "undoubtedly unfortunate."

The main theme of press comment today is that Alexander erred in giving off-the-record information at a dinner after passing up an earlier opportunity to disclose it in Parliament.

"What will astonish people most about Lord Alexander's gaffe," says the Liberal News Chronicle, "is that it was made by a man with a lifelong reputation for discretion.

"During the war, Lord Alexander was regarded as a model of wise reticence. . . Afterwards, he served with distinction as Governor-General of Canada, a nation whose politics are full of pitfalls for the unwary."

The Independent Liberal Manchester Guardian said the speech was "an embarrassment to his hosts, to Canada House and to Mr. Churchill."

The right-wing Daily Mail, normally vociferous in support of the Conservative government, said in a column-length, front-page editorial that Lord Alexander had made an "unfortunate indiscretion."

"It was a mistake to disclose to an outside gathering information about the reserves in Korea which he had kept from the Lords," said the Daily Mail. "He certainly asked that the matter should be treated as confidential. It was a further mistake, however, to imagine that this could be done in such a large company."

(About 500 persons, including some of the most prominent in British public life, attended the dinner at the Savoy hotel.)

## Rail Unions Ask Raise Of 80 Million

### Want Union Shop And Checkoff Instituted Also

MONTREAL (CP)—Non-operating railway unions, representing 125,000 workers, today place before the railways wage demands that would total more than $80,000,000 annually.

The submissions come as the unions open negotiations for a new contract to replace one expiring Sept. 1, and brought about by a federal arbitrator under the government's back-to-work legislation that ended the general rail strike of August, 1950.

Authoritative union informants, representing 18 unions, said these are the main points of the new submissions:

1. A general wage increase of more than 30 cents an hour.
2. The "union shop," under which employees in certain jobs must become union members.
3. The checkoff, whereby the companies would collect dues of union members.

In the August, 1950, settlement, the majority of employees got wage increases of 26 cents an hour generally, made up of a straight seven-cent-an-hour increase and a shortened work week that averaged another 19 cents.

**1-YEAR CONTRACT**

It is understood that the unions seek a one-year contract, compared with previous two-year terms. Reason for this, union officials said, is that under the longer contract, wages have fallen behind living costs by some 20 cents an hour.

Based on figures used by the railways in the 1950 dispute, the requested boost would cost the carriers about $125,000,000 as such increases are generally also given all 165,000 employees.

The total payroll of the two railways now is about $565,000,000—$350,000,000 for the Canadian National Railways and $215,000,000 for the Canadian Pacific Railway.

## Smaller Firms Join Big Six

PITTSBURGH (AP)—A source close to one of the major steel producers says several smaller concerns have joined the industry's "Big Six" in the battle against the C. I. O. United Steelworkers' demand for a strike-ending contract providing compulsory union membership.

The source declares "several" comparatively smaller companies joined the "Big Six" in a secret meeting at Cleveland Tuesday and decided to maintain a solid front against the union. He added the companies decided, "they can not and must not back down in their insistence that workers be allowed to work whether they are members of the union or not."

The "Big Six" steel companies are made up of U. S. Steel, Bethlehem, Republic, Jones and Laughlin, Youngstown Sheet and Tube and Inland.

COOL, CRISP CABBAGE SALAD is a popular meal-time dish with housewives these hot days and Karen Kitney (Above) finds two choice heads from the truck farm of Charles Kitney and Sons quite an armful. Irrigation has kept the Kitney's cabbage crop thriving in spite of the dry weather and the bulk of the early crop has already been cut.

## Begin Second Count Of B.C. Ballots

VANCOUVER (CP)—Count of alternative choices marked on ballots cast in British Columbia's June 12 general election was to start today. It will decide the result in 44 of the 48 seats.

The count will probably take several days. Some returning officers said the results in all ridings may not be known until as late as July 31.

Before the second count could start today, the absentee ballots had to be added to the previous totals to make complete first counts in all ridings.

**DEFER NEW COUNTS**

In big ridings, this may take several days. Returning officers in Vancouver constituencies said they do not expect to be able to start new counts until next week. Others said they will count first choices all over again before they start on new counts. For instance, Alan MacFarlane, returning officer for Victoria, said he will not be able to begin the second count until Saturday.

The new counts are made necessary by the province's use for the first time of the controversial alternative voting system.

First-count returns, completed only Monday, showed only four seats had been definitely decided. They went to three Social Creditters and C. C. F. leader Harold Winch.

Of the remaining 44, the C. C. F. was leading in 20, Social Credit in 11, Liberals in nine, Progressive Conservatives in three and Labor in one.

## Russians Free Three Priests

BERLIN (AP)—The Russians late today released three Chicago priests held 30 hours in captivity after they had been seized by sentries on the Berlin-Soviet zone frontier.

The Soviets handed the Roman Catholic clergymen over to American officers in Karlshorst, East Berlin.

The priests came to Berlin yesterday by train for a one-day sightseeing trip. In a borrowed automobile and with a German secretary-interpreter, they halted on the frontier between the American sector and Russian zone to take some pictures. Eastern Communist police and a Russian guard forced them to drive into the zone and took them to a Soviet command post.

The secretary, Mrs. Katherine Wintzler, was released at the same time, Mrs. Wintzler, mother of two children, is an employee of the National Catholic Welfare Conference here.

## Believe Cost-Of-Living Soon Increasing Again

OTTAWA (CP)—The drop in the cost-of-living index may be just about over. Higher seasonal prices for some foodstuffs plus a stiffening in the cost of rent may push the prices barometer to higher ground for the first time since last December.

The latest survey, showing price changes during May, likely will be published by the Bureau of Statistics tomorrow. It may show among other things:

1. A seasonal increase in the price of potatoes and other vegetables which usually are scarce during May.

2. Higher rents showing in a survey made every three months.

The index, based on 1935-39 prices equalling 100, has dropped every month for four months, dropping two points during April to 186.7 from 188.7 during March.

It was the biggest monthly point drop in 20 years and, together with previous monthly declines, made for a total four-month drop of 4.8 points—the biggest since 1931—reducing the index from its peak of 191.5 last December.

**TUMBLED QUICKLY**

During April, the consumer price level was shoved back to where it was during May and June a year ago when the index ranged between 184.1 and 187.6. In the first four months of 1952, prices tumbled more than twice as quickly as they had increased in the previous seven months.

The main factor in recent living-cost reductions was the outbreak of foot-and-mouth disease in Western Canada which pushed meat prices down. The meat price structure now has become more stable, following federal action to buy up and dispose of surpluses in the United Kingdon.

## Senior Staff Officer Deserts To West

BERLIN (AP)—A senior staff officer of the East German Communist People's Police and nine other Red policemen have deserted to the West within the last 24 hours, West Berlin officials announced today.

The officer, Inspector Ernst Bollow—whose rank is equivalent to major—was in charge of the department concerned with Soviet sector borders in Berlin.

The biggest fish yet to wriggle out of the Russian net in East Germany, Bollow told Western police he was convinced the East German Volkspolizei (People's Police) force was being turned into an instrument of civil war.

## P.C.V.S. Results

June promotion examination results of Grade XII academic of the Peterborough Collegiate and Vocational School will be found today on page 16.

## 4 Small Girls Wade To Death

MEMPHIS, Tenn. (AP)—Four sets of footprints leading to a pond—and none returning—were mute evidence that four small girls waded to their deaths near here yesterday.

The tracks in the soft mud, going to the water hole from four neat piles of clothing, were found by two worried mothers who feared the worst—and were right.

Bodies of the girls were pulled from the 12-foot-deep pond by divers.

## Charge Brothers Set Cafe Ablaze, Then Fled

SUTTON.—Two brothers, Gordon and Alvin Foster, were arrested by police Wednesday and charged with arson after investigation into a restaurant fire discovered Tuesday night during a Canadian Legion street dance.

The fire was set by two men who escaped in a motorboat up Black Creek, said Police Chief Clifford Mosher.

Mrs. Ethel Malone, co-owner of the restaurant, discovered the fire in a storeroom about 1:30 a.m. Sutton volnuteer firemen under Chief Albert Snooks brought the blaze under control before it could threaten other frame buildings on Main St. The fire caused $3,000 damage.

The arrest was made after Inspector Raymond Simmons of the Ontario Fire Marshal's Office and Chief Mosher carried out an investigation.

## U.S. Has New Jet Fighter That Finds Targets, Fights

WASHINGTON (AP)—Development of a jet fighter without guns—but bristling with rockets—was announced yesterday by the U.S. Air Force.

The new plane, the Lockheed F-94C Starfire, has been made so nearly automatic through the use of radar and mechanical brains that it spots the enemy miles away, locks onto the target, tracks, closes, aims and opens fire—all by itself.

The pilot and radar operator do little more than take the plane off, bring it to the general target area and then switch on the "electronic crew." The pilot also must land the plane, but electronics do the rest.

Lockheed Aircraft Corp. calls it the most powerful single-engine airplane in production today.

The Starfire has 24 2.75-inch rockets in a ring of firing tubes around the nose, and can carry more rockets in new-type armament pods on the wings.

It has a top speed of more than 600 miles an hour and climbs easily to bomber invasion lanes

Its combat radius is more than 500 miles.

The Starfire is described as the first fighter plane equipped with a tail parachute, for quick braking on short airstrips.

## One Side Crumpled, Bus Ripped Open South Of Winnipeg

WINNIPEG (CP) —A Greyhound bus hurtled into a parked truck near here early today, killing eight persons and injuring about 20 others. R.C.M.P. early today were still working at the morgue to identify the dead. All were passengers in the bus. Six of the injured were released from hospital. Killed were five women and three men. Following is a list of victims identified by Dr. I. O. Fryer, provincial coroner, as among the dead: Bert Miller of Winnipeg; Mrs. Dorothy Bundy and her daughter, Zena, 12, Scotland; Louis Nathan Roseman, Minneapolis.

The coroner said he was confident the four other victims could be identified through papers and other possessions.

The Northland Greyhound bus, bound from Minneapolis to Winnipeg, smashed into the rear of a huge semi-trailer truck at St. Norbert, Man., 13 miles south of Winnipeg, shortly before 1 a. m. CDT.

**RIPPED BUS OPEN**

The force ripped the bus open like a giant sardine can. The nose was shredded, the roof pried up and half one side crumpled.

The truck, owned by Royal Transportation Company of Winnipeg, was badly damaged. Apparently no one was in it at the time.

The driver of the bus, Robert Stavos of Crockston, Minn., escaped with a broken arm.

Exact number of the passengers on the bus is not known. Reports indicate it was not completely filled.

Ten members of the Regina Rifles were among the passengers. At least two were taken to hospital.

**MEN ASLEEP**

L. Cpl. Allan Rissette of Regina said "all our men were asleep and all of a sudden there was a terrific crash and we were thrown around. None of us actually saw how the accident happened."

Bob Rapelje, 17, of St. Thomas, Ont., quoted the driver as saying he was blinded by the headlights of an oncoming vehicle at the time of the accident.

Passengers in the first half-dozen rows of seats took the brunt of the impact. Several were thrown out on the highway.

"I was asleep," Walter Blendick 23, of Toronto said. "I heard a noise, then the next thing I knew I was lying in the middle of the pavement."

Blendick was seated just behind the driver. Next to him sat a little girl who was killed.

He said the little girl was a Scottish immigrant, coming to Winnipeg with her mother and sister. Their conditions and names were not known.

**TRAPPED BETWEEN BODIES**

Last man to leave the shattered bus alive was Rifleman George Doyle of the Winnipeg Rifles. He was pried from the wreckage after being trapped two hours beneath a seat.

Doyle said he was trapped between two bodies on the demolished right side of the bus. Workers cut him free with acetylene torches.

He did not appear to be seriously injured. He was on his way home from Valcartier, Que., and was going on leave to Campion, Alta.

## Boy 13 Confesses Shooting Mother

MILWAUKEE (AP)—A 34-year-old housewife was killed last night by four shots from a rifle which police said her 13-year-old son admitted firing at her.

The body of Mrs. Sylvia Habersteger, was found early today in the kitchen of her home, in the town of Franklin.

Police said her son, Herbert, told them he "lost his head" last night after his mother scolded him, got the rifle and shot her.

## Bitter Feud May Split Republicans

WASHINGTON, —(AP) — The Republicans are building up an intra-party feud and fury which won't reach a peak till next week. After that it remains to be seen whether the party is too badly split to win the presidential election, no matter who heads the ticket.

Senator Robert A. Taft's forces now are in almost complete control of the Republican National Committee which for two days has been hearing disputes involving 72 delegate seats claimed by rival Taft and Eisenhower factions.

With one exception, the committee so far has voted overwhelmingly in favor of seating pro-Taft delegates.

That won't be the last word. The Eisenhower people can still appeal to the convention's credentials committee and failing there, they can appeal to the whole convention to which the non-disputed delegates are now streaming from everywhere.

As they buy newspapers and listen to the radio along the way, they are getting an eyeful and an earful of the bitterness in store for them when the convention opens next Monday.

The Republicans, who have been trying to capitalize on charges of corruption in the Truman administration, weeks ago began making the charge against themselves, particularly in Texas where the Eisenhower followers and the General himself accused the Taftites of "stealing" delegates.

Feeling between the Taft and Eisenhower factions already is so intense that Republicans in general face this question: Now, no matter which man gets the nomination, will the loser and his supporters work for the winner's election in November? Unless they can work together, the party will go into the elections under what may be an insurmountable handicap.

## Reds Offering New Truce Plan

MUNSAN, Korea, (AP)—Communist negotiators today offered a new plan for breaking the Korean truce talks deadlock, but an Allied spokeman said the proposal contains a "lot of gimmicks and potential gimmicks."

Maj.-Gen. William K. Harrison, Jr., said the Red plan "may be an important one and it may not."

The Reds indicated they would ease their demand for return of all military prisoners in United Nations stockades, provided the 20,000 Chinese captives are returned. They asked for secret sessions to discuss the proposal.

Harrison, the senior Allied negotiator, immediately called for adjournment until Friday (10 p.m. E.D.T. Thursday) to study it. He did not reply to the Communist demand for secret sessions.

"The exact meaning and the full significance (of Red proposal) is not immediately apparent to the United Nations command," said Brig.- Gen. William P. Nuckols, U.N. spokesman.

## Hands Off Policy On Canadian Dollar

OTTAWA (CP)—The Canadian government has adopted a "hands-off" policy on the Canadian dollar, Finance Minister Abbott said yesterday.

The dollar, he said in an interview, is freely convertible and the government intends that it remain that way.

Government controls were lifted in September, 1950, and since then the dollar has been climbing steadily to a point where it is being quoted on world markets well above par.

# Give Boundaries For New Hastings Seat

OTTAWA (CP) — Many new names will appear in the list of federal constituencies at the next election.

Provisions for additions and changes are contained in a bill redistributing seats in the Commons on the basis of the 1951 census.

In Hamilton, a new seat will be known as Hamilton South. Originally it was planned to call the constituency Hamilton Southeast.

In eastern Ontario the three constituencies of Frontenac-Addington, Hastings-Peterborough and Kingston City are being combined into two. One of the new seats will be known as Kingston and the other as Hastings-Frontenac. The existing constituency of Peterborough West will become simply Peterborough.

**WELLINGTON-HURON**

Wellington North will become Wellington-Huron because it will take in part of the existing constituency of Huron North, which will be eliminated.

Three seats are being added in the York area around Toronto. They will be York Centre, York Humber and York Scarborough.

In Northern Ontario there will be the new constituency of Nickel Belt.

# Jury Hears Heroic Story

PORT STANLEY (CP)—A coroner's jury yesterday heard a previously undisclosed story of the heroic but futile 40-minute effort of Capt. John Howell and his crew to save their Federal Works Department dredge from sinking here May 29.

The captain stayed with his 570-ton craft to the last and died at its control station, disregarding warnings to save himself.

Peter Solomon, assistant engineer, testified that he beckoned the skipper to hurry to safety in the remaining few seconds before the dredge heeled over and sank.

Deckhand Harold Brisseau said he shouted: "Come on, Cap," but at that instant a wave struck the captain and swept him from the controls.

Witnesses testified a gaping hole was torn in the five-inch wooden bottom of the dredge, which was being towed by the tug Hercules, by the violent swing of a large turn-buckle and lug which gave away.

The coroner's jury, inquiring into the captain's death, returned a verdict of accidental drowning.

## The Weather

**Peterborough Temperatures:**

Today:
Night low 62 Noon 79
Noon barometer..... 29.4

Yesterday:
Highest...81 Lowest 52

One Year Ago:
Highest....68 Lowest 58

Official forecasts issued by the Dominion public weather office at 9:30 a.m. today.

Synopsis:

Warmer and more humid air moved into southwestern Ontario over night and is pushing steadily across the province. The scattered showers and thundershowers associated with this warm weather will be felt in many localities tonight. Following these showers slightly cooler and less humid air will flow across the province on Friday.

Regional forecasts valid until midnight Friday:

Lake Ontario and Niagara regions; Toronto, Hamilton:

Cloudy with a few sunny intervals today. Cloudy with showers or thundershowers tonight and Friday morning, clearing Friday afternoon. Continuing warm. Winds south 15, shifting to west 15 Friday afternoon. Low tonight and high Friday at Toronto, Hamilton and St. Catharines 70 and 85, Trenton 65 and 85.

Summary for Friday — Morning showers, then clearing.

Haliburton and southern Kirkland Lake regions:

Sunny today and Friday. Cloudy with scattered showers or thundershowers tonight. A little cooler Friday. Winds south 15 today, west 20 Friday. Low tonight and high Friday at Muskoka, Killaloe, Sudbury and North Bay 65 and 80, Earlton 60 and 75.

Summary for Friday—Mostly sunny.

MORE ABOUT—

# Redistribution Bill

Continued from Page 1

As a result of the 1951 census, this is how membership in the Commons will be divided in the next Parliament, with the existing division in brackets:

Newfoundland 7 (7); Prince Edward Island 4 (4); Nova Scotia 12 (13); New Brunswick 10 (10); Quebec 75 (73); Ontario 85 (83); Manitoba 14 (16); Saskatchewan 17 (20); Alberta 17 (17); British Columbia 22 (18); Yukon-Mackenzie River 2 (1); total 265 (262).

**DREW LED FIGHT**

George Drew, Progressive Conservative leader, led his party's fight against the redistribution legislation. He said no government could claim any virtue for the way in which it has handled the redrafting of boundaries of constituencies. The party in power always sought to gain political advantage through redistribution.

For that reason, he said, an independent commission should be appointed to do the work.

Mr. Drew said it was not mere coincidence that led to the lumping together of Conservative constituencies in Ontario and in Manitoba.

**6 SEATS CREATED**

Ontario gained two seats as a result of population increases, but a total of six new constituencies were created through merger of several seats.

Frontenac-Addington, Hastings-Peterborough and Kingston City were amalgamated into two constituencies. Two members will be elected in place of the existing three. Frontenac-Addington and Hastings-Peterborough are held by Progressive Conservatives.

Huron North and Haldimand, also Progressive Conservative ridings, are being amalgamated with neighboring constituencies—one a Liberal and one Conservative.

Glengarry and Prescott, both held by Liberals, are being made into one constituency.

Three seats are being added to the York area around Toronto and one to Northern Ontario. The Liberal riding of Welland will be split into two constituencies.

**AMENDMENTS REJECTED**

Members rejected a series of amendments which would have left the Progressive Conservative constituencies in Ontario practically unchanged.

Mr. Drew protested strenuously against changes in the constituency of Mr. Diefenbaker.

Because Saskatchewan is losing three seats, Mr. Diefenbaker's constituency was extended to take in some Liberal territory as well as the constituency of Moose Jaw, now held by Ross Thatcher of the C.C.F.

**NO MARITIME CHANGES**

No changes were made in Newfoundland, Prince Edward Island or New Brunswick.

Two seats were added in Quebec, one in Montreal and the other on the outskirts of the city.

Manitoba will lose two seats—Souris, held by a Progressive Conservative, and Selkirk, represented by the C.C.F. Souris will be merged with Brandon, also a Progressive Conservative riding. Selkirk will be split seven ways and added to different constituencies.

In Saskatchewan, Melfort, held by the C.C.F., and Swift Current, represented by the Liberals, will disappear. In addition there will be the change to Mr. Diefenbaker's riding.

In Alberta, four rural constituencies will be united into three. A new seat will be established in Edmonton. Calgary seats, which now take in rural territory, will be made into strictly urban ridings.

**4 B.V. SEATS**

British Columbia will have four new seats—one in Vancouver, one on Vancouver Island, one in the Okanagan Valley and the other on the outskirts of New Westminster.

**When the schedule of the Redistribution Bill was reached, members began dealing first with the boundaries of constituencies in Ontario.**

**First seat without objection was Algoma East, represented by External Affairs Minister Pearson. Not far behind was Brantford, represented by Speaker Ross Macdonald.**

The first objections came on a proposal to unite Brant constituency with Haldimand constituency. Brant is represented by John Charlton, Progressive Conservative, and Haldimand by Earl Catherwood, also a Progressive Conservative.

**MURPHY DEFEATED**

J. W. Murphy (PC—Lambton West) moved that the existing constituency of Brant be left practically unchanged. His motion was defeated on a standing vote of 63 to 2. It was a straight Liberal-Progressive Conservative division; C.C.F. and Social Credit members abstained.

Progressive Conservative members then asked that Haldimand be retained as a constituency by giving it some of the territory now in Lincoln riding, represented by Harry Cavers, a Liberal.

They suggested that the townships of North Grimsby, South Grimsby, Caistor, Gainsboro and Clinton and the towns of Beamsville and Grimsby be taken from Lincoln and added to Haldimand. The move would reduce the population of Lincoln to 70,000 from 90,000.

Members rejected the proposal by a vote of 59 to 19.

**LOSE OTHER ISSUES**

Progressive Conservatives also tried unsuccessfully to keep the constituencies of Frontenac-Addington, Hastings - Peterborough and Kingston City left practically unchanged.

Members voted 59 to 17 against a proposal to make no change in by W. R. Aylesworth, Progres- Frontenac-Addington, represented sive Conservative. They voted 61 to 19 against no change in Hastings-Peterborough, held by G. S. White, Progressive Conservative.

# Banana Peelings Chocolate Bars As Bookmarks

EDMONTON (CP) — Psychologists could perform some interesting analytical work with the bookmarks found in volumes returned to public libraries.

A recent survey by the Edmonton public library showed that the most common markers were pieces of paper, personal letters, newspaper clippings and pamphlets. There are self-explanatory.

But orange and banana peelings and chocolate bars are frequent items. They might indicate the types who like to curl up on the easy chair and indulge in some solid food as well as their favorite literary tastes.

Other common "bookmarks" are street-car tickets and transfers, and less frequently coins, dollar bills, cheques, unpaid bills, railway tickets and driving licences. Even liquor permits have been discovered.

The children's department shares in the literary flotsam that turns up. One librarian said school report cards are found in returned books. Other items are breakfast food premiums, school art work and homework assignments.

# Allied Raiders Blast Reds Near Panmunjom

SEOUL (AP) — Allied raiders blasted and burned Communist troops from hillside bunkers Wednesday near the Panmunjon truce site in Western Korea.

The infantry used flame throwers and threw explosive charges in the assault north of Korangpo, less than 10 miles northeast of Panmunjom. Red resistance was described as feeble.

Communist mortars opened up with a heavy barrage and the raiders withdrew after 30 minutes.

Further tot he east; Communist artillery heavily shelled newly won Allied outposts on T-Bone and Baldy hills, scenes of heavy fighting last week.

# Just Press Button Learn Reservations

NEW YORK (AP)—A $500,000 electronic brain to keep track of thousands of reservations at push-button speed is now operating at Laguardia Airport, American Airlines said today.

You push a button on a gadget that looks like a small adding machine and learn immediately what reservations are available.

Previously, the 300 clerks had to consult a giant blackboard where thousands of flight entries were posted.

The new "magnetronic reservoir" keeps records of seats sold on all flights for 10 days ahead.

# Peterborough Hogs, Grain And Produce

**THURSDAY, JULY 3**

Hog quotations $25.55 delivered.
Sow quotations $15.60 delivered.

Delivered price for ungraded eggs: A large 43c; medium 41c; pullets 28c; B 22c; C 20c; cracks 21c.

Quaker Oats Company of Canada quotes Ontario winter wheat No. 1, $2.00; No. 2, $2.00; No. 3, $1.97; feed oats, 80c; buckwheat, $1.60; feed barley, $1.20; Ontario yellow corn basis 15.5% moisture, $1.90.

Bulk truckload shipment will now be accepted.

# Stock Market Prices Make Little Headway

TORONTO (CP)—Stock market prices made little headway today in dull early afternoon trading.

Activity dwindled from a slow opening. Volume for the first three hours was 893,000 shares.

Agricultures, foods, manufacturing companies and miscellaneous issues posted a scattered list of fractional advances. Refining oils and banks balanced gains and losses but papers and steel slipped.

Western oil leaders were mixed but lower-priced issues posted a majority of moderate losses. Calvan Consolidated, Canadian Williston and Okalta climbed but Federated Petroleum, Husky, Pan-Western and Security Free dipped.

Base metal leaders were firm. Barvue, Consolidated Smelters, Falconbridge, Hudson Bay, and Mindamar traded higher. Dominion Asbestos and Mackeno eased.

Senior golds edged upward as Hollinger, Kerr Addison, Lake Shore and Lamaque strengthened. Junior producers and prospects were mixed.

The exchange's 1 p. m. indices showed industrials down .29 at 319.94, golds up .51 at 91.50, base metals up .46 at 187.31 and western oils down .13 at 137.40.

# Cheese, Produce And Livestock

**TORONTO FRUIT**

TORONTO (CP)—Wholesale fruit and vegetable prices here today were unchanged.

Potato prices also were unchanged.

**TORONTO PRODUCE**

TORONTO (CP)—Churning cream and butter print prices here today were unchanged.

Opening receipts were light and prices generally unchanged at the egg market. The following quotations are for eggs packed in fibre cases.

Graded eggs cases free, delivered Toronto: Grade A large 49-50; A medium 47-48; A small 35-36; grade B 30-31; grade C 26-27.

Wholesale to retail; prices quoted for loose eggs with crated eggs selling three cents higher: Grade A large 52-54; A medium 51-52; A small 40-41; grade B 35-36; grade C 31-32.

Butter solids: First grade 58 tenderable and 56½-57 non-tenderable; no price established on second grade; western 58 (asked).

**WINNIPEG GRAIN**

WINNIPEG (CP)—Coarse grain futures prices moved narrowly today in early trading on the Winnipeg Grain Exchange.

Oats and barley brought modest shipping demand, including some American purchases in oats. Industrial accounts took flax.

Trading was quiet.

11 a. m. grain prices:

Oats—July ⅜ lower 78⅝; Oct. ¼ lower 80½B; Dec. and May not open.

Barley—July ⅛ higher 1.20A; Oct unchanged 1.21⅛; Dec. unchanged 1.20½; May unchanged 1.21¾B.

Rye—July ⅞ lower 1.93½B; Oct. 1⅜ lower 1.97¼B; Dec. 1⅛ lower 1.97¼; May not open.

Flax—July ¼ higher 3.85; Oct. unchanged-¼ lower 3.90; Dec. ½ lower 3.87¾A; May not open.

**TORONTO LIVESTOCK**

TORONTO (CP)—Cattle trade was dull and the few scattered sales reported were steady today at the Ontario Stockyards. Receipts: cattle 40; calves 30; hogs 220; sheep and lambs 70. The leftover from Wednesday was 300 cattle.

One load of prime steers sold at $29 with common to medium steers selling at $23-$26.25. Good cows sold at $20-$21 with a few heavy cows bringing $22.50. Plain and medium stockers were from $22-26.

Calves sold at $24-26 for good to choice vealers with common to medium $2-3 lower at $15-23.

Hogs were $26 for grade A with sows $16 dressed.

Good quality lambs brought $35. Common to medium sheep sold from $6-15.

**BUFFALO LIVESTOCK**

BUFFALO, N. Y. (AP)—Cattle 350; pre-holiday demand and supply light. Market steady; salable receipts include three loads of steers and heifers, Good dairy-type cows $20.50-22; canners $14-17.50; good dairy-type heifers for slaughter $26-27; good sausage bulls $26-28.

Calves 100; supply light, demand good, market firm. Good to choice calves $32-34; common and culls $22-27.

Hogs 650; no rail hogs here. Demand active, market stronger and 50 cents higher for handies. Butchers and sows fully steady. Good to choice $18-22.50; good to choice sows $15-17.

Sheep and lambs: Salable receipts too few to establish a trend. Quotations nominally steady. eligible to $23; choice handyweight slaughter ewes $12-14; common and culls $3-4.

# Archbishop Suggests Ban On Weapons

YORK, England (Reuters)—The Archbishop of York, Dr. Cyril Garbett, said today the Church should call for international prohibition of nuclear weapons, the napalm bomb, obliteration bombing and bacteriological warfare.

Fresh international agreements should be made, he told the York diocesan conference.

The archbishop said he does not believe there is a "vestige of truth" in the accusation that the Allies have been engaging in microbe warfare.

"The printed evidence sent to me would not convince an intelligent child," he declared.

## Seize Cigarettes

SHERBROOKE, Que. (CP)—R.C.M.P. arrested two men and seized 660,000 smuggled United States cigarets in a raid in East Sherbrooke last night. The cigarets were found in and about a hen house. The men will be arraigned later on smuggling charges.

# Canada Not Too Happy About US Cheese Changes

OTTAWA (CP)—Canadian trade officials are none too happy about the latest modifications to United States cheese import controls, but there will likely be no more protests, not before the Presidential elections anyway. The latest changes are contained in the U.S. controls legislation extended for 10 months last Monday. It continues the old quota restrictions but allows the U.S. Secretary of Agriculture to ease them by a maximum of 15 per cent if they are found to injure U.S. relations with foreign governments.

Officials here said yesterday the modifications make the restrictions a "little less onerous," but the fact that "quantitative restrictions" were not removed was "very disappointing."

The original quotas were fixed on the basis of shipments to the U.S. market during the three-year period, 1948-50 inclusive.

Canada exported only tiny amounts of cheese to the U.S. during that period and a result the quota was less than £2,000,000 a year, far short of the amount available for shipment.

Canada, along with other dairy-exporting countries, protested against the curbs which they stated were breaches of the multi-lateral general agreement on tariffs and trade.

However, officials said that with a Presidential election coming up they could see little advantage in making any further protests until the political air clears.

# Both Drivers Not Guilty Of Charges

Charges of driving a car while impaired by alcohol and careless driving, laid against John Heddon, 33, of 727 Stormont St., were dismissed today in city police court.

A charge of careless driving, laid against Paul Clysdale, R.R. 4 Lakefield, the other driver in a two-car collision on June 13, was also dismissed.

The accident occurred about 1 a.m. at Aylmer and Brock Sts. Evidence was that Clysdale was travelling south on Aylmer and started to make a left turn into Brock St. Heddon was unable to stop in time and the two cars collided in the intersection.

Neither driver saw the other until it was too late to avoid an accident.

**SLIGHTLY HURT**

As a result both vehicles were heavily damaged and 17-year-old James Millar of Young's Point received a cut over the eye and both of his knees were bruised.

Clysdale swore that he hadn't been drinking but Heddon admitted to being out at a party that night and consuming three rum and cokes. He denied that he was impaired and said his subsequent behaviour probably resulted from a blow he received on the nose when the cars collided; he was also upset at being detained in the cells.

Constable Harold Andrew said that Heddon smelled strongly of alcohol; he was unsteady on his feet, and his eyes were blurred.

"The longer he hung around the worse he seemed to get," was Constable Andrew's observation.

Robert Carley, counsel for Heddon said his client had freely admitted having a few drinks but he was not impaired; nor was there anything about his driving to indicate that alcohol was responsible for the accident.

W. J. Arthur Fair, Q.C., was counsel for Clysdale on the careless driving charge.

# Pearson Sees More Tension

WINNIPEG (CP). — External Affairs Minister Pearson said Wednesday the free world must be prepared for an increase in tension in Europe.

The possibility of accidentally slipping into a third world war will increase in the next two or three months until German ratification is decided one way or the other, said Mr. Pearson. The Russians would do anything short of going to war to stop the West German integration with West Europe's defense program.

Mr. Pearson, here on his way to Calgary to address the annual convention of Canadian mayors, said in an interview strategic and political implications of the Yalu bombing raids by U.S. forces in Korea still are uncertain. Although destruction of the power plants was tactically sound, Canada did not yet know if the military advantages would outweigh political disadvantages, if any.

"But after all, the plants are inside Korea and have been left unharmed for two years," he said. "I think that is evidence of considerable restraint on the part of the unified command. It would be difficult for the Communists to object on that basis."

# Motor Car Production Slumps Sharply

DETROIT (AP)—Motor-vehicle production slumped sharply this week under the growing impact of the steel tie-up and the industry-wide July 4 holiday.

Ward's Automotive Reports said today that next week is expected to find upwards of 70 per cent of the industry's car and truck output in the U. S. halted.

The trade paper Automotive News predicted a "three or four-week famine in vehicle shipments to dealers."

Ward's estimated this week's output in the United States at 64,400 cars and 16,150 trucks against 92,379 cars and 23,889 trucks last week. In the like 1951 week 71,597 cars and 20,252 trucks were built.

In Canada, Ward's said 4,444 cars and 2,058 trucks will be built this week against 5,488 cars and 2,581 trucks last week. In the comparable 1951 week 4,480 cars and 1,758 trucks were built in the Dominion.

FIELD MARSHAL Sir William Slim, (right), slated to retire soon as chief of the British Imperial General Staff, talks with General Sir John Harding during a recent conference of army commanders called by General Slim at the School of artillery, Larkhill, Wiltshire, England. General Harding is slated to succeed General Slim.

# Communists Scout Carefully For Prospective Workers

By WILLIAM L. RYAN
Associated Press News Analyst

NEW YORK (AP)—What accounts for the startling success of the Stalinist Fifth Column? How are its recruits, often highly intelligent and educated persons, persuaded to join an underground conspiracy against their own countries?

The recruitment of the Fifth Column often requires money, but money is secondary. Few of the cases of convicted Communist spies involved the payment of any large amount of money.

One of the most important methods of recruiting for Stalin's secret army is the Communist cell.

**CAREFUL SCOUTING**

Communists scout carefully for their prospects—persons whose way of thinking indicates the possibility of persuasion.

Prospects are lured into "study groups" or "discussion groups," which in reality are operated by cells of the Communist party.

The recruiting agents concentrate on scientific workers, teachers, students and persons engaged in intellectual pursuits—in particular likely prospects who either work for the government or have a chance of doing so.

Persons with grievances—who consider themselves or their race or their creed to be persecuted—are singled out for special attention and often become easy victims.

"I considered myself a second-class Canadian, not a first-class Canadian," testified one agent in the Canadian spy case. "That is not a laughing matter, Mr. Commissioner. It is serious."

In the study groups, the "student" must be imbued with the idea that in working for Moscow he is working for humanity.

Once the cells have completed the basic program of "development," the second stage is reached. That brings a transfer of loyalty to the Soviet Union, blind obedience to the party, devotion to the "cause."

**WORKS FOR MANKIND**

The prospect still believes he is working for mankind, but now the good of mankind and the Soviet Union are becoming synonymous.

Thus Klaus Fuchs, the brilliant atomic scientist, said in his confession in Britain:

"I used my Marxian philosophy to conceal my thoughts, which had to be separated into two compartments. One side was the man I wanted to be. I could be free and easy and happy with other people without fear of disclosing myself, because I knew the other compartment would step in if I reached a danger point. It appeared to me at the time that I had become a free man because I had succeeded in the other compartment of my mind in establishing myself completely independent of the surrounding forces of society."

Thus Dr. Alan Nunn May, caught up in the Soviet spy network in Canada, pleaded in court in Britain: "I did it for the good of mankind."

For Fuchs and May, it was a matter of persuading themselves that they were working for the good of humanity under a system of life which had made fanatics of them. Money was secondary.

## Moths Delay Traffic

*KENORA (CP)—Swarming moths held up traffic and left a layer of white on streets and buildings here early Wednesday. Millions of the insects died on the streets. Even the inside of the railway station was littered.*

## Big Stockpile

PRETORIA, South Africa (CP)—Automatic telephone equipment valued at nearly 1,000,000 pounds is waiting here for buildings in which it can be installed. Postal authorities had built up a big supply of telephone material but the program of official buildings has lagged. New post office buildings may not be ready for months yet.

# Russia Vetoes Impartial Germ Inquiry

UNITED NATIONS, N. Y. (AP)—Soviet Russia today vetoed an American proposal for an impartial inquiry into Communist germ warfare charges.

The Security Council vote was 10 to 1 for an investigation in Red China and North Korea by the International Red Cross.

Soviet delegate Jakob Malik had warned in advance that he would veto the U. S. proposal because the council refused to invite the Chinese and Korean Communists to take part in the debate.

U. S. delegate Ernest A. Gross said Malik's action in killing the inquiry definitely proved the falsity of the Communist charges.

It was the 49th veto cast by Russia since the council first met in 1946.

Immediately after the vote, Gross submitted a resolution calling on the council to declare the germ charges false and to condemn "the practice of disseminating such false charges."

The resolution noted that the Chinese Communists, North Koreans and Russians had previously rejected offers of the Red Cross to look into the charges. It noted that despite the American denials, the Communists had persisted in spreading the charges.

He did not ask for a vote today on his new proposal, saying Russia should have a few days to study it.

# Argentina Asks 2 Cobalt Bombs

OTTAWA (CP)—Argentina is negotiating for two of Canada's cobalt-60 "bombs" which have proved successful in treating certain types of cancer, officials said today.

Widespread publicity was given some months ago to unsubstantiated reports that the wife of Argentina's dictator Juan Peron had come to London, Ont., to be treated by one of the two radioactive "bombs" now in use in Canada.

However, an official said today he considers it doubtful that the Argentine would be looking for a "bomb" specifically to treat Mrs. Peron because he understands that her type of cancer is not a type the "bombs" can help cure.

It is true, though, that two approaches have been made by that country among international bids for Canada's atomic products which include the U.S., Britain, various western European and South American countries, Australia and New Zealand—and communist-dominated Czechslovakia.

# Manslaughter Charge Now Being Considered

TIMMINS (CP)—Decision on a possible charge of motor manslaughter against Elumium Chaumont, 27, of Timmins, in the traffic death of Girard Vanier, 27, of Chelmsford, has now been placed in the hands of Crown Attorney S. A. Caldbick. Chaumont is on bail on a charge of dangerous driving laid Saturday following the accident on Highway 101 in which Vanier was fatally injured.

Mr. Caldbick said today he is awaiting a complete report on the accident before deciding on the charge. In all likelihood, he said, he would reach his decision late tomorrow morning.

# Ask Investigation In Son's Drowning

DETROIT (CP)—Walter Kowalski, whose 10-year-old son was drowned in a Macomb county pond, said today he will ask police to investigate the possibility of foul play in the drowning.

The son, Paul, was drowned last night in a pond on this city's northern outskirts. The body, clad in swimming trunks and with the face bruised and swollen, was recovered in four feet of water at a point where there is no drop-off.

The boy's brother, Richard, 14, said Paul fought three youths about 14 for possession of an automobile tire shortly before he died.

# Admits Stole Oranges

Russell N. Harris, 17, pleaded guilty today in police court to breaking a seal on a C.P.R. box car and taking half a dozen oranges. On a second charge, that of vagrancy, Crown Attorney John A. Bradshaw, Q.C., offered no evidence. He was remanded to July 9.

Harris gave police an Alberta address as his home but it was learned that he had been employed by a district farmer.

The seal was noticed missing early in the morning of June 30. Harris, who was discharged from the Canadian Army for being under age, reportedly took half a dozen oranges. Some other youths took some more.

# Tokyo Papers Campaign Against Troops

TOKYO (Reuters)—The influential newspaper Asahi today joined a stepped-up campaign against British Commonwealth troops in Japan, charging that men stationed at the former Japanese naval base of Kure were guilty of an increasing number of crimes against civilians.

Asahi, which has a circulation of 4,000,000, called on all foreigners in Japan to "act more like gentlemen," but singled out Canadian, British and Australian troops for particular criticism.

In an article entitled "Terror Reigns over Kure," the paper claimed "British Commonwealth troops are committing an increasing number of offences, and, what is still more serious, many of these offences are the raping of Japanese women."

It quoted Mayor Jutsu Suzuki of Kure as saying that between April 28-June 25 Commonwealth troops in the Kure area committed 88 crimes. He said Canadians were responsible for 58 of them.

The press campaign against Commonwealth troops is linked with Japanese efforts to whittle down their position in Japan now that occupation has been ended by the peace treaty.

Commonwealth spokesmen have denied the excesses attributed to their men by Japanese papers, and claim that the crime rate is far lower than alleged by Mayor Suzuki.

## Checking Defences In Pacific Islands

WELLINGTON, N. Z. (AP)—Britain and the island dominion of New Zealand are planning an urgent check of defences in their vital chain of South Pacific islands.

A mission representing the New Zealand Army, Navy and Air Force is leaving Wellington next Wednesday to inspect Commonwealth-administered Tarawa, Fiji, Funafuti, Tonga, Western Samoa and Rarotonga.

As all of the islands except Western Samoa and Rarotonga are under British administration, a Commonwealth liaison staff will accompany the mission.

## Canadian Oarsmen Eliminated In Henley

HENLEY-ON-THAMES, England (CP)—Canada's Olympic oarsmen, J. Derek Riley and R. H. Williams, were eliminated today in the opening heat of the double sculls event of the Royal Henley regatta.

The Canadians, representing the Winnipeg Rowing Club, were defeated by the crack Australian pair, John Rodgers and M. Eiley in seven minutes, 50 seconds. The winners breezed past the post with a margin of about a length to spare over the Canadians who were manning a borrowed shell.

## OBITUARIES

**RANDALL MARK DAFOE**

Randall Mark Dafoe, one-week-old son of Warden Dafoe and the former Marion Kastrukoff, R. R. 9, Peterborough, died Wednesday in Civic hospital following illness since birth.

Surviving besides the parents are three brothers, James 6; Ronald 3; Ivan 1; and grandparents, Mr. and Mrs. A. Dafoe, Peterborough and Mr. and Mrs. N. Kastrukoff, Swan River, Manitoba.

The funeral will be held on Friday at 2 p.m. from the Anderson funeral home, Lakefield. Archdeacon C. W. Balfour of All Saints' Anglican Church will conduct the service. Burial will be in Maple Grove Cemetery, Havelock.

**MRS. WESLEY FINLAY**

Mrs. Wesley Finlay of 457 Edison Ave., died today at her residence following a short illness. She was born in Peterborough, Henrietta, daughter of the late Joseph Buller and Elizabeth Day, and has lived a lifetime in the city.

She leaves her husband and one daughter, Miss Etta Finlay, both at home. Three are two sisters, Mrs. Richard Parnell (Bertha) and Mrs. Mayson Lasher and two brothers John and Wilfred Buller, all of Peterborough. Mrs. Finlay was a member of the Pentecostal Church.

A private funeral service will be held on Saturday at the Belleghem Funeral Home at 2 p.m. The Rev. F. H. Parlee will officiate and burial will be at Little Lake Cemetery.

**JOSEPH ALEXANDER ROBERTSON**

Retired from the Dominion Woollens and Worsteds Ltd. since October, Joseph Alexander Robertson, 694 George St., died on Wednesday in Civic hospital after a short illness. He was born in Bolton, the son of the late James Robertson and Mary Ann Arthurs.

Mr. Robertson came to Peterborough 31 years ago, working mostly with the Dominion Woollens and Worsteds Company as a machine operator. He lived previously in Toronto and Bolton.

While in Peterborough, he was a member of George St. United church and the Canadian Order of Foresters.

Surviving are his wife, the former Laura Morrison, a daughter, Mrs. Charles R. Rawson (Lillian) of Montreal; brothers, William and Thomas, sisters, Mrs. J. Kirby and Miss Eliza Robertson, all of Bolton.

The Rev. C. G. Boyd, St. Paul's Presbyterian church, will officiate at the service Saturday at 11 a.m. at the Kaye funeral home. Burial will be in Laurel Hill cemetery, Bolton, about 3 p.m.

A NICE GREEN BASS, weighing 4½ pounds, was taken by Don Massey (left) in the Otonabee River on Wednesday evening between the Auburn and Pumping House dams. He is extolling the virtues of a jointed plug lure to shopkeeper Morris Mandell.—Examiner Staff Photo.

## Fear Of Crashes Brings Demand Remove Airport

By BRUCE PHILLIPS

EDMONTON (CP). — Fear of accidents has brought demands for the removal of Edmonton's municipal airport from the city. The airport is located in the growing northside residential district.

Six aviation accidents here in the last two years and recent disasters in the New York area where aircraft plowed into homes and apartments have made the public crash-conscious.

From this airport pilots like W. R. Wop May flew north to open up the vast territories and usher in the age of the bush pilot.

**ON POST'S ROUTE**

Wiley Post stopped at Edmonton airport on his history-making, round-the-world flights in 1931 and 1933.

From a primitive cow pasture in the early 1930s it has grown to a 750-acre field with more than three miles of runways. Today it represents an investment of $12,000,000, employing 1,400 persons.

Much of this expansion was provided by the impetus of wartime flying, when the R.C.A.F. took over the airport. It also was used extensively by U.S. military aircraft during the construction of the Alaska Highway.

The oil boom of 1947 brought an onrush of commercial flying. Military aircraft returned to the field with Canada's expanding defence program.

Together they made Edmonton's airport one of the busiest in Canada. Last year there were almost 90,000 landings and takeoffs.

**CHANGE OF HEART**

The city's change of heart toward the airport began Jan. 13, 1950. On that day an Air Force observation aircraft crashed in a street near the field, killing two crew members. Last March, a U.S. military transport jumped a fence at the end of a runway and stopped only 75 feet from a row of houses.

## Fail In Order To Lower Dam

WASHINGTON (AP)—A federal judge has dismissed a suit by Lake Ontario property owners to compel the removal or lowering of Gut Dam in the St. Lawrence river with a view to easing high lake levels.

Judge David Pine yesterday threw out the district court action brought against Defence Secretary Robert Lovett.

The dam was built by Canada. The property owners contend that at the time the dam was built, a U. S.-Canadian agreement stipulated that the U. S. Secretary of War could order a change in the dam if it were found that it was affecting American property adversely.

The owners said that the dam had helped to raise Lake Ontario levels to a point where extensive damage was being done to shore properties.

## Body Of Man Found Beside C.N.R. Tracks

LONDON, Ont. (CP)—Body of a man believed to be Charles W. Arrand, of High street, was found on the C. N. R. tracks a mile west of Wharncliffe road at 7:30 a. m. today. City and C. N. R. police started an immediate investigation after the body was spotted by the crew of an eastbound train. Coroner Dr. A. R. Routledge ordered the body removed for more complete examination. Only apparent injuries were back bruises.

## Iran Rejects Charge Of Treaty Violation

TEHRAN, Iran (AP)—Iran has formally rejected Russian charges that Premier Mohammed Mossadegh's government violated the 1921 Iran-Soviet friendship treaty by accepting renewed United States military aid.

That treaty permits the Soviet Union to send troops into Iran if Iranian soil is used by foreign military forces hostile to Russia.

A government announcement today said Iran in a reply to Russia said the Soviet complaint was without "basis or foundation."

## Van Fleet Agrees With Earl Alexander

TOKYO (Reuters)—Gen. James Van Fleet, Eighth Army commander in Korea, said today he fully agreed with British Defence Minister Earl Alexander's statement in London that greater military reserves are needed in Korea.

Van Fleet, in a telephone interview with Reuters, said: "There is no commander in the world who would not like to have more troops. I fully concur with Earl Alexander's remarks."

The Eighth Army commander added, however, that he thought he had enough manpower to hold off a Communist attack.

He was referring to Alexander's statement to a Canada Club dinner in London Tuesday night. The defence minister said:

"I should be very much happier if General Van Fleet had a little more reserves in his own hands. I think if the Chinese attempt a full-scale offensive they will penetrate the front to a depth of some miles in some places."

## Eleven Women In Air Race

ST. AUGUSTINE, Fla. (AP)—Eleven women pilots with their co-pilots are scheduled to take off from here at sunrise Friday, headed for Welland, Ont., in the fourth annual all-woman international air race.

First prize is $600. Another $1,400 will be divided among the next four finishers.

The planes are 300-horsepower models handicapped according to cruising speed. The race course is 1,195 miles.

Entries include 1951 winner Margaret Carson of Ottawa; 1950 winner Betty Haas of Scarsdale, N.Y.; and Peggy Lennox of St. Petersburg, Fla., winner in 1949.

**PRESENT FOR MAYOR**

Another entry, Elaine Mogelvang of Lockhart, Fla., said she will carry six live alligators, about three years old and up to 2½ feet long, to present to the mayor of Welland.

The race—sponsored by the Florida chapter of Ninety-Nines, Inc., an international women's pilot group, is sanctioned by the National Aeronautics Association.

The Ninety-Nines group was founded in the 1920s by Amelia Earhart, and took its name from the 99 charter members.

In addition to the other prize money, Mrs. Arlene Davis of Cleveland, O., "Miss Aviation of America," will present a trophy and $100 to the winner.

Other pilots include Mrs. Dorothy Rungelling of Welland; Mrs. Doris Seagler of Palatka, Fla.; Evelyn Greenblatt of Atlanta; Brigid Westerna of Ireland; Ellen Gilmore of Miami; Mrs. Virginia Griffin of Orlando, Fla., and Marjorie Miller of Columbus, O.

## 23 Persons Dead In Tropical Typhoon

MANILA (AP)—A vicious tropical typhoon roared northwestward through the China Sea today after ripping a path of destruction across six central Philippine islands and touching two others.

At least 23 persons are dead, 42 missing and thousands homeless. Property damage runs into the millions of dollars. Transportation and communications are paralyzed. Vast tracts of rich farmland are under water.

The big blow hit the Philippines last night with winds up to 115 miles an hour and drenching rains. The storm last was reported 170 miles southwest of Manila, its fury gradually diminishing.

## Three Members Resign Health Unit Staff

COBOURG (ENS) — Three members of the Northumberland and Durham Health Unit staff will be resigning shortly to take up new appointments this year. Miss Mona Sharpe, public health nurse, who has been at the Port Hope office, is going to the Etobicoke Department of Health. Miss Mildred Jarvis, who has been in the Campbellford office, goes to Owen Sound as nursing supervisor of the health unit there. Dr. D. F. Damude, veterinarian with the health unit goes to Halton County Health Unit with headquarters at Milton.

## Maritimes Chide Quebec Over Champlain

HALIFAX (CP)—Nova Scotia and New Brunswick are needling Quebec in a mild sort of way over a point of historical accuracy.

None other than Samuel de Champlain, dead these many centuries, is the subject of the polite exchange among the provinces.

It all started when Quebec's Societe Nationale Samuel de Champlain announced it would celebrate July 1 the founding of Canada "at Quebec" by Champlain in 1608.

Mayor George E. Howard of Saint John dropped a note to the society, drawing its attention to Champlain's part in the founding of Port Royal (now Annapolis Royal, N.S.) in 1604. That was the same year Champlain discovered and named the St. John River, New Brunswick's pride.

George Herman of the Nova Scotia Information Department then stepped into the picture with a refined dig at the society. Herman advised Edouard Marcotte, society president, that "we are taking the liberty of conferring on you life membership in the Order of Good Cheer," founded at Port Royal in 1606.

A reply came promptly from Mayor Lucien Bourne of Quebec City, who was equal to the situation. Terming the letter of "great interest," he invited Mayor Howard to the Quebec ceremonies.

## Release Woman To Stand Trial

WINNIPEG (CP)—Mrs. Lillian McCullough of Winnipeg will be released from Selkirk mental hospital to stand trial for the bludgeon slaying of her seven-year-old foster daughter, Martha Louise.

Detective Inspector George Blow said the 52-year-old woman will appear Monday for preliminary hearing.

Mrs. McCullough was charged jointly with her husband, Gavin, after the child's bludgeoned and strangled body was found in their suburban Elmwood home Jan. 25. Her husband, 51-year-old former office manager for the Winnipeg Chamber of Commerce, was acquitted May 22 on the murder charge.

Defence counsel successfully pleaded he was insane at the time and under the influence of his wife. He was ordered held in jail "until the pleasure of the lieutenant-governor is known," a sentence equal to an indefinite term.

## St. Laurent Says Endicott Guilty

OTTAWA (CP)—Prime Minister St. Laurent said today in the commons he personally thinks Dr. James Endicott of Toronto has broken the law of Canada. But he indicated some uncertainty that there is evidence available to get a conviction in court.

Mr. St. Laurent spoke after George Drew, Progressive Conservative leader, had urged that the Justice Department prosecute the head of the left-wing Canadian Peace Congress for statements on germ warfare in Korea if he has broken Canadian law.

Mr. Drew noted that on June 25 Justice Minister Garson—without giving a legal opinion—had announced no prosecution is planned now, largely because the government does not want to lend an air of martyrdom to Dr. Endicott.

## British Jet Airliner Takes Off For Tokyo

LONDON (AP)—Britain's jet airliner took off for Tokyo today to pave the way for a full passenger service to the Japanese capital scheduled to start next year.

Actual flying time of the British Overseas Airways Corporation Comet is expected to be only 17 hours, not including refueling stops along the route.

Britain already operates a regular jet plane passenger service between London and Johannesburg, South Africa.

## Mrs. N. McLean Keeps House Gardens At 93

SUNDERLAND— (ENS)— Mrs. Neil McLean, 93, of Sunderland does her own housekeeping and plants and cultivates her own garden.

Born in Argyle, Sunderland's grand old lady was the former Sarah Campbell and is of Scottish descent. She married Neil McLean and settled on a farm three miles west of Manilla. About 50 years ago the McLeans established a lumber sawing business just west of Sunderland.

Mr. McLean sawed the logs for the pioneers of the district, the Dobles, the Shiers and the Bagshaws. His wife served as a cook for the men in the camp. In the summer they both worked at the Long Branch Fresh Air Camp for women and children.

At 65 Mr. McLean retired and the couple moved to the house where Mrs. McLean still lives in Sunderland.

Mr. McLean died in 1942 after the couple celebrated their 55th wedding anniversary.

Mrs. McLean lives alone except for a roomer. She has a remarkable memory, loves to entertain, and hopes to enjoy many more years.

She believes her longevity is due to contentment with her state, financial security established by hard work and thrift and a very happy marriage.

**AIRFIELD FARMS**

OSLO (CP)—Norwegian officials have worked out detailed plans for farm cultivation of all airfields between runways and buildings. At the new airfield at Rygge 900 feet of the total 1,200-foot width will be brought under the plow. All new airfields are being built with an eye to increasing grain production.

## Man Worn Shorts For Past 17 Years

CHESAPEAKE, O. (AP)—Norman Parker figures he has as much right to show his legs as women have. So he's been wearing shorts —day in and day out—since 1935.

The shorts are a protest, says the 45-year-old Parker, against "those darn infernal women who show their legs."

The tall, raw-boned non-conformist lives in the hills back of this Ohio River village in a weather-beaten frame house.

A cold "spell" finds him donning an overcoat, gloves and a hat. But underneath it all, just the shorts.

Parker says he may give up wearing shorts when the women do, but—"Don't look like they're going to, so I ain't either."

## The Responsibility of Union Power

The award of $9,208 damages to the Canadian General Electric Company against the United Electrical Workers (U.E.) provided a precedent long needed in industrial relations. The Board of Arbitration found for the Company in its claim that the union breached its contract and thereby caused the company financial loss. More important than the money involved was the arbiters' assessment of union responsibility. The company's agreement with the Union had a clause preventing a strike. The Union did not actively inspire the work stoppage at the Davenport Works in 1949 but it did nothing to disown the strikers and took no firm steps to end the walkout. The Union was tacitly responsible for the 'wild-cat' strike, the Board of Arbitration found.

* * *

A bargain is of no use unless both parties to it accept responsibility for living up to the bargain. An agreement is two-sided; both parties must not only agree but must also have the ability to keep to the agreement. When management contracts with a union, the union expects that the company will support management in that agreement. Similarly, the company and management must expect the Union members to support their leaders who negotiate contracts for them. As management is held responsible under law for keeping to the terms, so must union leaders be held responsible. Otherwise contracts are farces.

* * *

U.E. has a closed shop in the C.G.E. It is presumed to act for all the production workers, and negotiates with management on that basis. It has legal power to act for the workers; it therefore must have legal responsibility for their actions. If some of the workers act irresponsibly (and stage an unauthorized strike) the Union must either discipline them or disown them. If it disowns them, then they must be fired, since the C.G.E. is a closed shop. In the 2½-day stoppage at the Davenport Works the Union neither brought the wild-cat strikers to heel nor disowned them. It did not accept its responsibility, or showed that it did not have the power to exercise the responsibility it claimed when it made the contract with the company.

* * *

The tribunal's award, though weakening the coffers of U.E. by $9,200, in fact strengthens its hands. The decision is a lesson to the workers that they must follow the leaders whom they have accepted in the union which they themselves have voted to act for them. If they do not like the leadership or the union, they can vote differently the next time certification of the union is questioned by ballot. But meanwhile they must knuckle down or quit their jobs. That is what a closed shop means. That is what union responsibility means. It was an expensive lesson for the union and for all the production workers in the plant who automatically pay dues to the union, whether or not they are members. But it was a lesson sorely needed. Unions now have vast powers. They must accept the responsibilities of power.

## French Logic On The Reds

France has proposed to U.N. a compromise plan on disarmament, combining a ban on bacteriological, chemical and atomic weapons with a systematic timetable for inspecting and limiting conventional weapons. It is not yet a formal proposal, although the principle has been approved by the French government. That it is France which has made the proposal is itself interesting, apart from the merits of the unformed plan.

The French people are not overwhelmed by the Communist ogre as the Americans are. Even at this stage of East-West relations and when the fire of war in Korea is rekindling, and even though the gap between Russia and the West is very wide and all talk of disarmament had long since ceased, the French can propose a disarmament plan. Their logic may be stronger than their sense of reality, although if peace is the aim of nations they cannot get it by warring.

There is a great difference between the attitudes of the French and the American people. In the United States the Government has to curb Red-scarers and quiet inflamed notions about the Communist menace. As a result the Truman administration has been accused by Americans of appeasement, of being "Red" and—worst of all— un-American". In France the people are lethargic about any danger from Communism and there the Government has to rouse them from their placid attitude and to face charges of foisting "thought-control" and of being "unFrench" when it moves to restrict Communist activities.

Danger looms largest on the horizon, not in the foreground. That is why, perhaps, the Americans are creating a giant bogey of Communism, and the French see it too small and familiarly.

## A Shocking Cartoon

Political cartoonists are rare fellows because the skills and capacities a cartoonist needs for his craft are rarely found in one head and hand. Many who pretend to be cartoonists are not; their work is stale, flat and uninspired, a fact we commented on recently when complaining about American cartoons which come to our desk. A newspaper cartoonist must be an artist and draughtsman, a wit and a satirist, knowledgeable in things political, critical and amused in things social. So they are few Lows and Giles.

A cartoon may be a rapier thrust or a bludgeon blow, but it must hit in the solar plexus, to make us laugh or weep, to rouse our wrath or drive the wind out of us. The reason that an Argentinian cartoon in the bulletin of the Argentine Confederation of Labour is a good cartoon is that it is well drawn, the caricature is obvious, and the punch is damnably strong. The cartoon shows president Truman as a Statute of Liberty become a gallows, with a Nego victim of lynch law swinging from the outstretched hairy arm below the hand which holds the torch of liberty. It is malicious and unfair, a wicked thing which leaves a bad taste on the tongue; but so clever and sharp that is a good cartoon. If the United States had even one newspaper cartoonist with the capacity of this Argentinian called Casho, one Low or one Giles, it would be better served than it now is by hundreds of hacks, and better able to deal with Argentinian smearing.

## Candidates' New Slogan?

The Act to provide pensions of $3,000 a year for Members of Parliament who have been elected to the House of Commons three times may provide some new campaign slogans. Instead of "Re-Elect X; He has served you twice; He's tried and true", will we hear this sort of thing? "Vote for X; He's tired but wants the pension; He has served you twice. Elect him for the third term." Will the party hacks go knocking on doors: "Vote for good old X; if he's elected this time he'll qualify for the pension." Whether this sort of electioneering will appeal to voters' sympathies we cannot say. Perhaps equally effective would be this: "Don't vote for old Y again; he's had three terms and can get the pension. Give somebody else a chance".

To reassure campaign managers and the party faithful we point out that a member need not start from scratch, that is, from this year and the passing of the pension bill for parliamentarians (it is politely called "An Act to provide Retiring Allowances, on a contributory basis, to persons who have served as Members of the House of Commons of Canada".) Any sitting member may add up past sessions, and by paying the "contribution" (four per cent. of the sessional indemnity, i.e. $240 a year), qualify for the pension. In other words, a sitting member who has already been elected three times can qualify for the pension right away. And if, at the next election, somebody is returned to the House who has been out of it for a parliament or two, he can count his preceding membership towards the pension time. In other words, interrupted service is not fatal to the pension.

Come to think of it, "Vote to Pension X" may not be as good an electioneering slogan as it first seemed. If good old X fails of election next time, he can try the time after that, and if he wins, may count his previous parliamentary service as pensionable time.

Will the three-thousand-dollar-a-year pension after three terms discourage members from seeking election a fourth time? Why go to Ottawa and sit through wearisome sessions for only $4,000, when he can sit at home and get $3,000? Ah! but the halls of parliament are habit-forming. A person who has sat through three parliaments becomes so inured to his fate that he would not feel at home sitting at home with his $3,000. Like a Pavlov-trained creature, his conditioned reflexes would put him back on the hustings, eager to have a fourth, a fifth or even a sixth term, until death does him part from Parliament, or the Senate or Bench takes him.

## NOTES AND COMMENT

A medical columnist writes "if your child does not thrive on fresh milk, boil it". We don't want to seem chicken-hearted, but couldn't we try it on yoghourt first?

---

The National Geographic Society has reported that winds reach a velocity of a thousand miles an hour a hundred miles above the earth. A scientific proof of getting the wind up.

---

A man of 104 in Calgary tells the press that he does not know of any reason for his longevity. The *Examiner's* special award for self-denial goes to this gentleman, who has passed up a classic opportunity for windy philosophising.

## Will Stalin Seek Deal With West?

By EDWARD CRANKSHAW

IT IS now fairly generally agreed that the appointment of Andre Gromyko, Chief Deputy Foreign Minister of Soviet Russia as Soviet Ambassador to London is far from being a routine appointment, signifying nothing. The Kremlin cannot afford to lock up its most high powered diplomat in the sort of sterile isolation ward which the Soviet embassy here has become since the regretted departure of M. Maisky. It is clear enough that the Kremlin means something quite out of the ordinary by making this appointment. But to guess that meaning is quite another matter.

While the chief function of a diplomat is to negotiate, during past years the importance of ambassadors has been diminished generally by the transfer of international disputes to the public arenas of the United Nations Assembly and the Security Council. The Soviet Government has made full use of these remarkable institutions, but chiefly as a sounding-board for propaganda. When Stalin has wanted to say anything in particular he has gone straight to the Press of Great Britain and the United States; but when he has wanted to negotiate anything he has short-circuited the open forum and instructed M. Malik, Soviet permanent delegate to the United Nations, or whoever, to make a private approach.

✧ ✧ ✧

THE Kremlin has no liking for public debating societies. The whole secretive and autocratic tradition of the Russians turns from them in revulsion. If at any time Stalin seriously wished to start negotiations, as distinct from offering negotiations for propaganda purposes; knowing that they would be refused, he would resort to normal diplomatic channels. The appointment of Mr. Gromyko to London is as clear and unequivocal an intimation as it is possible for the Kremlin to give that Stalin wishes to make a closer contact with the British Government than has been made for many years.

The question remains: what sort of contact, and to what end?

The Americans have immediately leapt to the conclusion that Gromyko's main task will be to work as hard and subtly as possible to exploit differences of view between America, on the one hand, and Britain and France on the other, with an eye to producing a serious breach between us. Obviously there is nothing that would please Stalin better. Soviet policy for several years has been concentrating on precisely this end, and it will continue to do so, with or without assistance from Mr. Gromyko in London, with or without a lessening of the tension. But it is very much to be doubted whether this is the whole story behind Gromyko's appointment. And, in any case, whatever it may hope to achieve in the way of inflaming British and European opinion against America by propaganda, on a diplomatic and Governmental level, not even the Kremlin can hope to break up the Western Alliance without making concessions, which would have to be important, calculated to appeal to London and Paris but not to Washington.

✧ ✧ ✧

IT may be that this is what Stalin has in mind. If this is so his hope is more forlorn than usual. We shall see. But he may equally well, and perhaps more probably, have something quite different in mind. He may see in Mr. Gromyko not the architect of NATO's ruin, but the emissary of conciliation, working through London rather than through Washington, not because he wants to do a separate deal with London, but simply because the British Foreign Office offers an easier and less public place for preliminary conversations than Washington, especially Washington in the throes of a presidential election.

If this is so, as seems not unlikely, we next have to ask what Mr. Gromyko wants to talk about. It is interesting in this connection to note that while Mr. Gromyko comes to London, Mr. Panyushkin, the Kremlin's chief Far Eastern expert, leaves Washington for Peking. There are 101 reasons why Stalin, at this moment might require the services of his best man on the spot in Peking.

There is little doubt that the Chinese are finding the Korean war a strain, and an unrewarding strain at that. There is little doubt that there are differences between Moscow and Peking on the terms of trade between them. Moscow also has to think about her promise to hand over Port Arthur in Manchuria to China in the autumn. But these matters can be settled between friends and allies without the ostentatious transfer of an ambasssador from Washington to Peking. Panyushkin's appointment, like Mr. Gromyko's, is intended to mean something and to tell us something. The two, taken together, may very well be intended to mean that the Kremlin had decided to work for some kind of an agreement with the West, however provisional, through Mr. Gromyko, while sending Mr. Panyushkin to explain developments to Mao Tse Tung.

✧ ✧ ✧

THE fact the Soviet anti-American propaganda is now as virulent as anything employed against Hitler, the fact that the leaders of the West are being constantly denounced as war-mongers, the fact that Mr. Malik has just returned to the charge of bacteriological warfare, the fact that the Russians in East Germany and Berlin are showing themselves both menancing and provocative—all these things and others should not blind us to another fact. This is that the Soviet Union is finding the cold war a very great strain, is having very serious trouble with her satellites, and is genuinely alarmed by the success of the American intervention in Europe, and, above all, by the rearmament of Germany.

Without in the least suggesting that we are face to face with a radical turn in Soviet foreign policy, we have to bear in mind that the present state of tension cannot remain static: it must increase or diminish. And while we should expect nothing from Mr. Gromyko, we shall at least be quick to recognise and exploit in the interests of the West the first clear sign, should it come, that Stalin has decided, under pressure of Western rearmament, that it is time for the tension to grow less.

"IT'S YOURS—IF YOU CAN LIFT IT"

## The Censor And The Almanac

IAN MACKAY IN THE LONDON NEWS CHRONICLE

EVER since Milton hurled the Areopagitica at the dunderhead of authority it has been generally agreed among enlightened people that the censorship of reading and writing is a sure sign of the moral and intellectual degeneracy of a nation.

If, as I believe, that is true, Ireland would seem to be in a bad way at the moment.

For many years the Irish Censorship Board has been banning books and magazines because, in the opinion of its members, they are "indecent or obscene" or contain advertisements for birth control.

This Board, apparently, is not obliged to give reasons for is Draconian decrees and the public have never been told what qualifications these gentlemen possess which entitle them to dictate to free men and women what they can and cannot read.

✧ ✧ ✧

IN FACT, the public have no voice in the matter at all. Like their heroic countrymen at Balaclava theirs is not to reason why, but to obey. When the Board has made its decision about a book, the public are not allowed to take it or leave it. They must take the decision and leave the book.

Usually the books which are banned are trashy and lubricous novelettes about prodigiously amorous libertines and their perfumed paramours, and nobody is any the worse for not being able to read them.

They should be banned not because they are immoral, which is a matter of opinion, but because they are illiterate, which is a matter of fact. I doubt if any book of that sort would ever do any damage to an Irishman's soul. But I am sure it would play hell with his style, as Oscar Wilde said when he had to write his will in legal jargon.

It is when these anonymous obscurantists decide that great writers like Joyce, Steinbeck and the Powys brothers should be banned, and the fascinating historical romances of writers like Philip Lindsay and Mika Waltari the Finn stopped at Holyhead or Dublin Airport, that one must protest in the name of decency as well as of freedom.

I have been reading the 1952 list of banned books recently issued by this Board of nameless busybodies. There are 89 books on the index which are verboten in Eire from now on.

Nobody will shed any tears to hear that poor Bridget will now be unable to read Latin Lovelies, French Night Life, The Corpse Wore Nylons, or the Cheery, Suave and Brash Bedtime Stories.

She will probably survive the lack of such masterpieces as The Scarlet Nun and The Demon of Desire. She may even be able to carry on in Clonmel and Clonakilty without knowing what happened to Suzanne de Paris.

And it is not an intolerable deprivation to the Rose of Tralee to be forbidden to read Torment for Trixy, by Hank Janson; Don't Fall, Sucker, by Rex Richards, and Eastern Men — Chicago Women, by "Griff."

But why in the name of St. Michael and all the Angels is Ireland not to be permitted to read the official report of the trial of Neville Heath or The Blue Negro, by Robert Payne?

Who are these anonymous bigots to tell people like Oliver St. John Gogarty and Sean O'Faolain that they must not read Andre Gide or John Steinbeck?

And why are Irish men and women who oppose the Soviet way of life forbidden to read Russian Child and Russian Wife, by Tanya Matthews, which tells them more about Russia than they will find in all the romantic recantations of ex-Communist Catholic converts?

Most ridiculous of all is the ban on Old Moore's Almanack, which is proscribed because it advertises birth control. I have searched my copy of Old Moore from New Year to Hogmanay and found nothing remotely connected with birth control.

It is true it calls Bevin Bevan and has Mary Queen of Scots beheaded on two occasions. But that I should have thought is the very opposite of birth control.

There are many editions of Old Moore, however, and there may be "offensive" advertisements in some of them. But this preposterous praesidium in Dublin declares with Herodian impartiality that all copies of Old Moore will be banned "whether they contain these advertisements or not."

Why they picked on Old Moore I can't understand. For he predicts that this month the position in Russia will be "very ambiguous," whereas in Eire there will be "greater prosperity and marked expansion."

It's a great pity, as the original Old Moore, who started up in the necromacy business in 1697, was as Irish as a masculine cow.

But then, the Irish didn't like Shaw or Wilde, either. They hate themselves, in fact, almost as much as we love ourselves in Scotland.

## How Time Flies

JULY 3

**1922** Premier E. C. Drury is speaker at the opening of the new community hall at Warkworth.

The city council passes a motion keeping the civic bathing beaches open on Sundays.

Ald. Robert Morrison is named city representative on the Suburban Road Commission.

**1932** Wm. J. Conners is killed in a traffic accident at Lansdowne St. and the highway 28 intersection.

H. H. Bradburn, formerly of Peterborough, is elected a director of the McColl Frontenac Co.

Normal School alumni purchase land east of the present property and present it to the school.

**1942** A record turnout for picnics here has 12,000 employees and families of the C.G.E. Co. at the Oval.

Edward F. Borbridge, former local lawyer, dies while holidaying in Alberta.

A number of Peterborough district men have left to work on the Alaska highway.

## Bible Message

(From the Authorized Version)

By faith Moses, when he was born, was hid three months of his parents, because they saw he was a proper child; and they were not afraid of the king's commandment.

By faith Moses, when he was come to years, refused to be called the son of Pharaoh's daughter; choosing rather to suffer affliction with the people of God, than to enjoy the pleasures of sin for a season . . .

By faith he forsook Egypt, not fearing the wrath of the king: for he endured, as seeing him who is invisible . . .

By faith they passed through the Red sea as by dry land: which the Egyptians assaying to do were drowned. (Heb. 11: 23-25, 27, 29.)

✧ ✧ ✧

O give thanks unto the Lord; call upon his name: make known his deeds among the people . . .

He spread a cloud for a covering; and fire to give light in the night . . . And he brought forth his people with joy, and his chosen with gladness. (Ps. 105: 1, 39, 43.)

## Letter To The Editor

DR. WORTON WILL BE MISSED BY YOUTH ON FARMS

Sir: We wish to congratulate you on your editorial regarding our beloved friend, Dr. Worton. You have expressed our feelings, to the letter, in regard to this very fine gentleman.

May we, through your paper, add our congratulations to Dr. Worton. The youth, particularly living on farms, admire and respect him and will miss his cheery smile and encouraging words at our Spring and Fall Fairs. He never missed an opportunity to boost our efforts with our horses or cattle. We will indeed miss him in many ways in the future.

We wish to congratulate Dr. Worton on his new appointment and to wish for him, his wife and family health, happiness and prosperity in the years to come.

Yours truly,
THE SARGENT BROS.
(Jack, Carl and Don)
R.R. No 1, Ida, Ontario

## Unconsidered Trifles

Feeling in rather a lively mood one evening during the festive season, the men in D Hut gathered round a really raw-looking recruit and started pulling his leg.

But the "rookie" remained quite calm and collected.

"Cripes man!" burst out "Nobby" Clarke at last. "Can't you hear what we're saying?"

"Sure, I can," was the reply, "but in Civvy Street I'm an attendant in a lunatic asylum."

✧ ✧ ✧

"Do you wish to learn to play golf, madame?" asked a golf professional employed to give lessons in the sport department of a store.

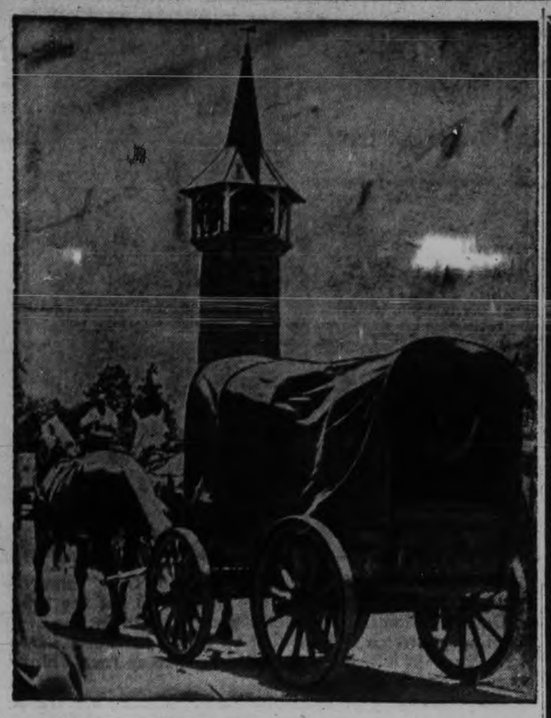
"Oh, no," replied the woman. "It's my friend who wants to learn this time. I learned yesterday."

✧ ✧ ✧

Counsel (to police witness)—But just because a man's on his hands and knees in the middle of the road doesn't prove he's drunk.

Police witness—No, sir. But he was trying to fold up the white line.

PHOTOGRAPHY IN TRAFALGAR SQUARE



COVERED WAGON TREK—This Conestoga wagon ends a 500-mile trek from Pennsylvania to Kitchener, tracing the route of the original Mennonite settlers to the Ontario city in 1797. Receptions for the wagon were held at towns and cities along the historic route. Drawn by two Percherons the ancient vehicle is manned by three fourth-generation descendants of the pioneers, Loren Weber, Amzie Martin and Elias Brubaker.

## Young Princess Opens Model City

THE HAGUE (Reuters)—Crown Princess Beatrix, 14, performed her first public duty alone yesterday when she opened the miniature four-acre model city of Madurodam.

The model has been built as a memorial to a young college-boy hero, George Maduro, who died in the Nazis' Buchenwald concentration camp.

The Princess was installed as first burgomaster of the tiny but complete municipality which has its own airport and harbors, street-car and bus services and a 1¼-mile electric-railway system.

A miniature pine forest has been planted as the gift of Mrs. J. E. Read, wife of the Canadian judge on the International Court at The Hague. It is a memorial to their son, killed in the battle of the Falaise Gap in 1944 and to all Canadians killed in Holland in the Second World War.

## Hastings News

Recent visitors in Hastings were: Mrs. Libbie Chandler of Detroit, Mr. and Mrs. Orne Cruickshanks and Joan of Peterborough, Mrs. Ida Wilcox and Mrs. Fred English of Peterborough, Mr. and Mrs. Alex Greenley, Mr. and Mrs. Gordon Beavis of Colborne and Mr. and Mrs. C. P. Doughty of Ottawa.

Mr. and Mrs. L. Scott of Hamilton are visiting the Misses Kate and Flo German.

Mr. and Mrs. F. S. Crate and Bobbie were in Peterborough on Saturday attending the Armstrong-Warner wedding.

Mr. and Mrs. Gordon Fairman of Whitby, and Miss Bettina Beavis of Lakefield, were recent visitors with their aunt, Mrs. Ethel German.

Mr. and Mrs. L. W. Humphries, Maurine and Darwin and Mrs. Arthur Waters were Sunday visitors at Trenton.

Mr. and Mrs. Vernon McMillan are the parents of a baby boy born in the Civic Hospital, Peterborough.

Mrs. Milford Rymerson underwent an operation in St. Joseph's Hospital, Peterborough.

Mr. and Mrs. Donald Warner of Warkworth and Mr. and Mrs. Herbert Weese of Bath, and the Rev. and Mrs. J. M. Ritchie were in Peterborough on Saturday attending the Armstrong-Warner wedding.

Douglas Thurston, principal of the Public School has left for his summer vacation.

Bobbie and Billie Jones, Peter Crate, Eddie Lynch, and Bob Fairman are at Camp Quin-Mo-Lac, on Lake Moira for ten days.

Miss Francis Garland who for the past year has been teacher of the intermediate room at the Hastings Public School, has resigned. Miss Garland has left for her home in Toronto. She and her parents are leaving on July 7 for a trip to England.

Mr. and Mrs. F. S. Crate, Mary Ellen and Bobbie spent Sunday in Port Hope with the latter's mother, Mrs. C. Cornthwaite, who is celebrating her 81st birthday.

Mr. and Mrs. Earl Hahn and son Ronnie of Kitchener are visiting the latter's brother, Lynn Hill.

Boyce Orr is a patient in the Civic Hospital, Peterborough.

Miss Helen Scott of Pickering has taken over her duties as chief operator at the local telephone office, following the resignation of Mrs. Don Leach.

Mr. and Mrs. Fred English and son Olan of Norwood and Mr. and Mrs. J. Sullivan and daughter Ann Marie of Peterborough were Sunday visitors with Mr. and Mrs. J. A. Sullivan.

## Man Shot To Death

COLLINGWOOD (CP)—Douglas Young, 50, was found in the cellar of his home yesterday, shot to death. Police said they were unable to decide whether he fired the .22-calibre bullet that killed him into his own chest. The rifle was found in the collar. An autopsy will be performed. Young, a railway employee, was the father of two girls.

## Harwood News

The Rev. T. F. Summerhayes and his sister, Miss Violet Summerhayes, were in Harwood this week on a business trip. They had just returned from 5½ days' cruise up Georgian Bay, and are now going on, with relatives to Winnipeg and Lake of the Woods for three weeks' vacation.

William Blastorah, Harwood, is listed as having $25.73 over ten years ago, in the Dominion Bank of Canada. Mr. Blastorah was also named as having forgotten dollars in the Bank of Nova Scotia.

Harwood Girls' softball team played Roseneath team on Wednesday evening at Roseneath. Harwood won.

Mrs. Morris, junior teacher, returned to her home in Prescott on Friday.

Ronald Crews, principal of Harwood School, returned to his home in Trenton on Friday. Mr. Crews is going on to Queen's University on Monday for the summer course.

Fred Young is home from Cooksville on vacation.

Miss Lettice E. Drope, B.A., has returned home from Woodville.

Baltimore Public School held a picnic on Thursday afternoon at Memorial Park, Harwood, with Harwood Public School. A splendid afternoon of sports was held with their teachers in charge of the games.

The following senior students of Harwood Public School will be going on to Cobourg Collegiate in September: Names and percentage as follows: Jerry Corkery, 78%.. Eddie Stephens, 75; Pauline Drope, 72; Mary Atkins, 71; Allan Harvey, 69; and Jack Minifie, 63.

Ray Cunningham had a serious accident on Friday evening, south of Hastings, when the car in which he was riding with two other boys met in collision with another car. The other occupants of the car, Ivan Johnson and Robert Harris were not hurt. Ray was cut above the left eye, and was rushed to Cobourg General Hospital, and from here early Saturday morning to Toronto, for an operation. He is progressing favorably in the Private Patients' pavilion, East General Hospital, Toronto.

Harold Drope spent the week-end in Orono visiting Mr. and Mrs. Joseph Walker and family.

Mr. and Mrs. J. B. Dynes and family of Hamilton, visited Mr. and Mrs. Edgar Cunningham over the weekend.

Guests over the weekend of Mr and Mrs. John Moore were Mr. and Mrs. Jack Moore and Jan Elizabeth of Batawa; Mr. and Mrs. Calder of Fort Francis; Mr. and Mrs. Gordon Moore and Linda of Hamilton, and Miss Jean Stevenson of Gore's Landing.

George Smith of Toronto is spending the summer with Mr. and Mrs. G. Willcock and George.

Miss Gail Moffatt of Toronto is visiting her cousins, Mr. and Mrs. G. Isaac.

## Roseneath News

Mr. and Mrs. John H. Beatty were Sunday guests of Mr. and Mrs. Frank Haynes, Colborne.

Mr. and Mrs. Eric Seeney, Toronto are holidaying with Mr. and Mrs. Archie McCracken.

Mr. and Mrs. Arnold Elder, sons Charles and Allan, have returned home from a holiday with Mr. and Mrs. Lloyd Elder, Verona.

Mrs. Edward Noonan, daughters Sharron and Rosemary and Mrs. David McGrath are holidaying with Mr. and Mrs. Emmett McGrath, Port Elgin.

Guests on Monday of Mr. and Mrs. John H. Beatty were: Mrs. Jane Beatty, Mr. and Mrs. Arthur Stains, daughter Bernice, sons Edward and Archie, Niagara Falls.

Mr. and Mrs. L. R. Lockhart, Cobourg were guests on Sunday of Mr. and Mrs. Richard Surerus.

Miss Betty McMillan is a patient in Cobourg General Hospital.

Miss Nelda Brown was a guest on Monday of her sister, Mrs. Raymond Richardson, Dartford.

Miss Helen Anne Clarke, Baltimore, is holidaying with Mr. and Mrs. Elden George.

Mr. and Mrs. Elden George were guests on Monday of Mr. and Mrs. Herbert Bray, Baltimore.

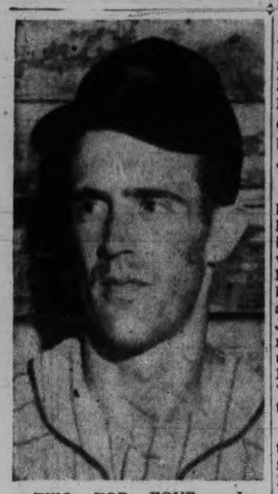
# Kingston Monarchs Take A 6-2 Ball Victory Over Petes In Loop Play

Kingston Monarchs handed the Petes a 6-2 C.O.B.L. setback here last night, racking up an early lead and hanging onto it grimly to the finish. Bill Edger was nicked for three markers in the first frame on four hits—one a two-run homer—and two miscues. Phil Clancy twirled the last eight innings and allowed but six hits and two earned runs. Their support was not good as the Petes had an off night in the field. Billy Richards went the route neatly for the K's with but seven hits off him, and he was given perfect backing by his mates.



TWO FOR FOUR — Joe Lowrey of the Petes hit two for four here last night—as did Al Menzies—and roped in five flies in centre field, but Kingston grabbed off the C.O.B.L. tilt by a 6-2 score. They meet again here Saturday.

**THREE FOR FOUR**

Stan Scrutton led the victors at bat with three in four tries, and he had 17 putouts without a bobble at first. The 35-year-old veteran also pilfered a sack and helped his side to a run when he beat out a rundown between first and second in the initial inning. Jack White hit a homer into the river and a single in four times up, while Harv Milne and Jerry North each had two hits for five. White pulled a neat pickup at third.

Joe Lowery and Al Menzies led the Whitehill club with two for four each, while catches by Bill Huntley and Phil Clancy were defensive features. The homesters were shy a couple of players and had to shift the lineup about some. They expect a full team with reserves for the 7 p.m. Saturday fixture here with Kingston.

**HOW IT WENT**

With two out in the first, the visitors scored three runs on singles by Levandoski, Scrutton, and H. Milne, with White's homer accounting for two. There were also two errors in there, one figuring in a run. They made it 4-0 next time to bat with a run. North hit but was forced by Rank, who took second on an error and tallied on a hard single by Scrutton. Their last pair came in the fifth. Scrutton walked and stole to tally on White's single, the latter then racing home from first on a sharp double to deep centre. Lowery got a hand on it going back, but could not hold the ball.

The Petes' first run counted in the sixth when Lowery beat out an infield hit and galloped to third on Menzies' safe blow, later scoring on a fly to left by Garvey. A belated bid in the ninth brought in but one more. Menzies singled and, with one out, Huntley hit to move Al up a base. Stewart forced Huntley, Menzies making third, and he tore in on a hit by Young before the last man fanned.

Time of game 1:55.

Umpires—Burrell and Calladine.

# Giant Estonian Olympic Threat

By TOM WHITNEY

MOSCOW (AP) — Perhaps the most formidable Russian athlete to compete in the Olympic Games at Helsinki is Heino Lipp, a 224-pound giant Estonian from the shale mines.

He is six feet, three inches tall. Incredibly long arms dangle close to his knees. Undoubtedly he is one of the most talented track and field stars in the world.

He is Europe's best shot putter and holds the record of 55 feet, 7½ inches. Jim Fuchs of the United States holds the world mark of 58 feet, 10½ inches.

**STARS IN DECATHLON**

Lipp also is a star decathlon performer. He has the Soviet record in this all-around specialty with a score of 7,780 made in 1948. This is among the best half-a-dozen showings of all time but is below the world record of the U.S.' Bob Mathias—8,012 points.

Lipp is 28 and didn't enter athletics until after the war That was when his brother, Endel Lipp, brought him to a professional trainer, Fred Kudu of Tartu University.

The trainer gave Lipp special training, emphasizing the shot and discus, and before the end of 1945 the Estonian giant was tossing the shot more than 53 feet. It also became evident that Lipp, despite his size, was an excellent runner and jumper.

Kudu became convinced that Lipp was potentially the world's outstanding decathlon man.

# Marines Victors

Marine trimmed Norwood 9-3 in their fastball league fixture at Brinton Field last evening. They started off strong with four in the first inning, adding one each in the next two heats and in the sixth, with two tallying in the fourth. Corrigan clouted a homer and triple. Norwood was limited to a run each in the first, fourth and sixth as Halliday pitched well and had neat support. Teams:

Norwood: W. Garden, 1b; Ferguson, lf; B. Payne, ss; W. Payne, 3b; Wilford, cf; Martin, 2b; Morrison, c; R. Garden, c; Althouse, rf; Evans, p; Rae, p.

Marines: Gordonier, 1b; Downer, 3b; Corrigan, cf; Haliday, p; Montgomery, lf; Broadhurst, ss; Morgan, 2b; Gaskell, rf; Mongraw, c.

Umpires—Phillips and Woodcock.

# Waggoner, Shinn With Hamilton

HAMILTON (CP)—Coach Carl Voyles announced yesterday that halfback Hal Waggoner and outside wing Joe Shinn, with Hamilton Tiger-Cats in the Big Four football union last year, have been signed for the 1952 season.

Voyles told a press conference that the two American imports from Tulane College have been exempted from the army draft in the United States until December. Last season both players believed they would be drafted during the league schedule, leading Shinn to return to Tulane after playing with Tiger-Cats for part of the season. For the last two weeks Waggoner commuted by plane between New Orleans, La., and Hamilton.

# Cobourg Gets 4-3 Win Over Lindsay

Cobourg edged Lindsay 4-3 in the first of their best-of-five Girls Softball League city intermediate playoffs last evening in the Bowl. It was a swell game, a pitchers' battle between M. Owen of the Scugog squad and S. Slater of the lakeshore lasses. Cobourg got but seven hits as four fanned, while Lindsay were held to five blows as nine whiffed. However, there were a number of walks on both sides. Cobourg fielded better.

H. Graham led Lindsay at bat with three in five tries, while Reedy and Fisher stood out defensively for Cobourg, with McGuire top hitter. She clouted a triple and two singles in five. Cobourg got all four runs in the sixth, Lindsay getting one in the second and two more in the sixth. Teams:

Cobourg: McGuire, lf; Hart, ss; Reedy, c; Hills, cf; Throop, 1b; Cockburn, 2b; Fisher, 3b; Boyle, rf; Slater, p.

Lindsay: Wakelin, c; Britnell, cf; Owen, p; Manley, 3b; Coppins, 3b; Walling, ss; Graham, 1b; Gilson, 2b; Mitchell, lf; MacDonald, lf; Anderson, rf; Montgomery, rf.

# Local Horses Win At Kingston

KINGSTON— Lord Brookville, owned by the Smith Brothers of Ottawa and driven by Stead Craig, was awarded the Hiram Walker trophy by vote of the judges following his achievement in winning one heat and finishing second in the other Tuesday afternoon at the Fair Grounds. The stake was run in two divisions and Lord Brookville took top honors in performance while also posting the fastest time in either division.

In addition to the trophy, which will remain in possession of the Kingston Driving Club, a valuable tray was presented to the Smith Brothers, Claire and J. O. The race attracted 13 entries.

Lord Brookville finished second to Millie Grattan in a slow first heat but exhibited speed in the next when he beat Jimmy Forbes, the time being 2:13 4/5.

# Long Branch Takes First Juvenile Fray

Long Branch defeated Peterborough 12-8 here to open their four-game O.L.A. juvenile playdown series. If games do not settle the series, total points will decide the winner, the teams playing tonight in Long Branch. Play was quite even at Miller Bowl with Long Branch leading 2-1 the first frame, 3-2 at the half and 8-5 going into the fourth. The visitors drew 10 of the 17 penalties, one player getting two misconducts for swearing at a referee.

Curtis and J. Hobart scored two each for Curly Mason's locals, with Allan shining to lead with three tallies and two assists. B. Hobart got the other goal, as Curtis and Orde had an assist each. Coleman led the winners with four, the rest being well spread around among his mates. Teams:

Long Branch—Russell, Rawson, Bonar, Coleman, Smith, Thomchisen, Neave, Rennie, Courtemache, Rose, Kapasky, Millson, Grainger, LeTourneau.

Peterborough — Simmons, Scriver, Chapman, Orde, Braniff, Sutherland, Foote, Allan, Holbrook, Drury, B. Hobart, Hunt, Curtis, J. Hobart, Ferran.

Referees—B. Hill and R. Creighton.

**SEAT FOR THE REF**

Boxing referees in New Jersey will be sitting pretty from now on. A. J. Greene, the state's athletic commissioner, yesterday ordered all promoters to have a large-sized stool available in a neutral corner for use of refs during long bouts or hot weather.

BEAUTY ON WATER SKIS.—These three beautiful and capable water ski performers thrilled a large crowd at the Jack's Lake regatta on the July 1 holiday. Holding various Canadian aquatic championships, they are Carol Ann Duthie, Joan Weale and Arlene Milburn of Toronto. Their show at Jack's Lake was a rehearsal for a similar performance at the C.N.E. this year.—(Examiner Staff Photo).

# SPORTS SHOW WINDOW

By CEC. PERDUE, Sports Editor

An item from Toronto deals with an off-season sport. Bunny Morganson writes: "With Stouffville Clippers, O.H.A. senior 'B' champions, along with Scarboro, East York and Leaside interested in formation of a Greater Toronto senior 'B' hockey league, other centres are asked to contact this department. There'll be a meeting for all concerned within a few weeks." Local puck officials last spring expressed interest in adding Stouffville to o ru ugoreps, ally as Kingston want to go into a St. Lawrence loop. It would be fine for all clubs in the central area if Oshawa would ice a squad in this category. Or if Lindsay would strengthen and step up.

* * * * * * *

**You might think it's awfully early to talk of hockey, but a game that is going in the autumn should be organized in the summer. Max Jackson of Kingston recently told us: "Whether we return to this group or go down east, we've got to find out shortly. No more of this business of waiting till the last minute to form a group and then arguing over this entry and dropping that one. We want to know this summer what our steup will be.". Well, that's not known yet in Kingston, Belleville or Peterborough. But it should be soon. Gives clubs lots of time then to build. There's no definite word here on whether Petes and Eagles will both ice squads again or if they'll amalgamate, or what.**

* * * * * * *

## Yorks Crowding Petes

Petes' Timbermen have to pull up their sox—and socks—from here in as the race become torrid for top spot in the senior O.L.A. grouping. Mimico Mounties are out in front and there's a bitter battle on now for second place, Petes and Toronto Yorks scrapping for that slot. As they clash here tomorrow night, the result will be of much interest and importance. Like the locals last year, the Yorks this season are pretty well packed with talent from various centres, and they promise to hurdle the Timbermen and go after the top-place Mounties. Well, the Petes may have dropped a few lately but the 1951 Mann Cup champs are certainly not pushovers for any of 'em. And they rarely drop a decision at Miller Bowl.

* * * * * * *

**After a shaky start here last p.m., the Petes made it a real ball game but dropped a C.O.B.L. decision 6-2 to Kingston Monarchs. It was the tilt postponed from Monday, and the same clubs clash her on Saturday at seven p.m. Bill Edger had tough luck in the first frame with two away, and they got to him for three runs, two of 'em earned. A two-run homer by Gabby White hurt. Phil Clancy went okay the rest of the way for but two earned runs, his mates being loose afield. Bill Richards tossed a steady game for the K's and his backing was airtight. Not a bobble. Stan Scrutton led them at bat with three in four, as Joe Lowrey and Al Menzies topped the locals with two for four each. Game was run off in less than two hours.**

* * * * * * *

## Damsels Into Playoffs

Burtol Belles beat Marines 8-1 at the Bowl last gloaming to open their best-of-three senior loop semi-finals, and we hear that Ashby's won in Belleville. These four teams are listed as league seniors, but the eventual winner will hit into P.W.S.U. intermediate "A" playdowns. They clash again Monday, Burtol vs. Marines, and Belleville vs. Ashby's here. The other local tussle last night saw Cobourg edge Lindsay 4-3 in a dandy duel, this being the opener of a best-of-five set for the city itermediate cup. The winner of this series then has a chance at the loser of the senior sawoffs, or so we understand it at present. The next game is Friday betwixt Lindsay and Cobourg.

* * * * * * *

**From the lacrosse grab-bag: O.L.A. juniors drill at seven tonight and go to Brampton on Saturday for a stiff test. Local juves are off for Long Branch tonight and the second of their playdown series. In the P.M.L.A., Neill's and American bantams play this eve at 6.30, with Legion bantams meeting Quakers an hour later. The juves met at five in the Bowl tonight for their trip. Friday has peewees working out at nine a.m., the tadpoles at 10.30, the bantams at two p.m. and an open workout at 3.30. Owen Sound seniors come here next Wednesday. Toronto took 'em last night to move into a second-place tie with the Petes at 18 points each, though Yorks have lost two more. Mimico beat St. Kitts to lengthen their lead atop to 24 points, Hamilton has 10, Fergus and the Sound eight each, and St. Kitts six.**

* * * * * * *

## Hither and Yawning

Men's Bowl games tonight: U.E.W. vs. Lakefield, and Seabrooke's vs. Revoy's....Foresters beat Bell and Kesco took Timbermen in the Civic; tonight has S. Army vs. Foresters in Ashburnham, with Kesco vs. B'nai B'rith at Turner....Marine fastballers defeated Norwood; Rays face Marines tonight at Brinton....Petes ballsters go to Belleville tonight; Quinte crew recently nosed out Kingston 4-3....Bowmanville trounced Port Hope and Lindsay lately as Cobourg won from Colborne in the Lakeshore League....A meeting at 7.30 tonight at city hall of managers and coaches of the peewee and bantam ball teams with Alex Sinclair to draw up schedules....Tom Parsons pitched Omemee Combines to a 9-8 win o'er Lindsay softballers....Frank Stukus is reported to be grid coach for Oshawa Raiders....Milt Dunnell apparently hit it on the head when he said Argos are for sale and baseball mogul Jack Cooke of Toronto is interested ...N.H.L. shelved Cleveland's application for a year....D. A. McGillis entertains the Eagles' puckists at a 7.30 dinner tonight at the Peterborough Golf Club....U.E. soccer team goes to Kingston on Saturday for the first Dominion Cup round....Juvenile lacrosse account is in this e'en....Getting so absent-mined lately in this warm weather that we don't recognize ourself in the mirror.

**ROBINSON MUST REST**

Middleweight champion Ray Robinson was ordered yesterday by his physician to take a complete six-week rest. It means Robinson's proposed trip to Israel, where he was to fight in two exhibition bouts, has been cancelled.

**UNANIMOUS DECISION**

Glen Flanagan of St. Paul earned a unanimous decision from Gene Smith in Washington last night, the defeat being Smith's first in 32 pro fights. Flanagan's triumph was revenge for a split decision he lost to Smith in the fall.

# Burtol's Take First One Over Marines

Burtol's defeated Marines 8-1 at the Bowl last night to open their best-of-three Girls' Softball League semi-final playoffs. They got but eight hits to Marines' nine, but the latter booted four to one. Doris McFadden pitched steady ball and had neat support, as L. Derry went well on the other slab but did not have the backing. Two walks and an error gave Marines their lone run in the sixth, Burtol's breaking through for a run each in the third, seventh and eighth, with two in the fourth and three in the sixth. Walks and errors figured in some of them.

M. Gillen had three hits for four, one a triple in the snappy tilt, lasting but 1.05. B. Morrow fielded smartly for the winners. H. White led her side with three in four trips in a game closer than the score indicates. M. Behan and V. Paige shone afield. Teams:

Marines: M. Behan ss, B. McMahon 1b, V. Paige 3b, J. Hart c, R. Naylor rf, H. White lf, J. McIlwain cf, D. Dunk 2b, L. Derry p.

Burtol's: M. Batley lf, J. Dunk 1b, B. Morrow ss, M. Hawthorne 3b, M. Gillen c, A. Anderson cf, B. Rumball rf, D. Jackson 2b, D. McFadden p.

| | | | |
|---|---|---|---|
| Marines | 000 | 001 | 000—1 9 4 |
| Burtol's | 001 | 203 | 11x—8 8 1 |

Umpires: Mowry and Borland.

# Drobny Ousts Herbie Flam

WIMBLEDON, England (AP)—Herbie Flam, America's last colorbearer, fell in heart-breaking defeat before Jaroslav Drobny yesterday in a sensational five-set semi-final match that ended a five-year United States domination of the men's singles in the All-England Lawn Tennis Championships.

A packed house of 13,000 fans gave Flam the greatest ovation an American has received on the famed Wimbledon centre court since Ted Schroeder won the tournament in 1949, cheering for fully 15 minutes as Flam and the veteran, self-exiled Czech walked slowly back to their dressing rooms.

After losing the first two sets to the 31-year-old Drobny, the youngster from Beverly Hills, Calif., fought back in a stirring rally to square the match at 2-2. But Drobny outlasted his 23-year-old rival to win 6-2, 6-4, 0-6, 8-10, 6-4.

The victory put the bounding Czech into tomorrow's final for the second time in 10 years of trying. He will meet Frank Sedgman who ousted Mervyn Rose, 6-4, 6-4, 7-5, in a drab all-Australian match that suffered badly in comparison with the dramatics of the Drobny-Flam battle.

Flam's defeat meant that the United States, which has held the title since Jack Kramer won in 1947, won't have a man in the final.

# Secretive About Age Plays 27th Season

HARLINGEN, Tex. (AP)—Earl Caldwell, as secretive about his age as an old maid but one of the oldest active players in professional baseball, is having another big season.

This is at least his 27th year in the game. It isn't likely to be his last either.

At the halfway mark of the Class B Gulf Coast League season, Caldwell has won 13 games pitching for Harlingen's Capitols Last season he won 22 games.

OLYMPIC RUNNER — Rich Ferguson's time of 15:18.8 in the 5,000-metre event at the Olympic trials at Hamilton broke the former record of 15:23.6 set by Cliff Salmond of Vancouver and ensured him a place on the Canadian team at the summer Olympics. Ferguson, Toronto runner from Iowa University, rallied to win after an earlier lapse from the heat.

STRETCHING IT — It was close, but the Cubs' Johnny Pramesa, blocking the plate, was in time to put the tag on Davey Williams. The Giants' second baseman was attempting to stretch it from first on a pop fly dropped by Hank Sauer in left, but was nailed on a relay from Third Baseman Randy Jackson.

# N.H.L. Turns Down Barons Over Loan

TORONTO (CP)—Borrowed money won't buy a franchise into the six-team National Hockey League. That was evident yesterday when the big-league owners considered Cleveland Barons' bid for a berth under the big tent—for the third time—and politely turned thumbs down on the idea. They termed Cleveland's financial set-up unsound and, in effect, told Baron officials to try again. The Barons haven't a hope of advancing into the N.H.L. for the 1952-53 season but the gate has been left open for them to make another try and, in all probability, crash the select six in the 1953-54 campaign.

**LOANS BLOCK DEAL**

The stumbling block to the whole thing was an interpreation of what is considered working capital.

The Barons, told May 14 at a meeting here that they could advance into the N.H.L. if they raised $418,000, an arbitrary figure set by N.H.L. owners, raised the necessary money by loans from stockholders, repayable in two years. At yesterday's five-hour closed meeting the Barons were told the financing was unsound.

"If they said in the first place that we couldn't borrow the money we wouldn't have done so," said General Manager Jim Hendy of the Cleveland Arena. "They knew we were borrowing it and now they say they don't believe it's the best way. Yet, no place in the original motion—presented at the May meeting when the N.H.L. issued terms of admittance—did it say how the money was to be raised."

Conditions of entry, as laid down at the May meeting, called on Cleveland for a $50,000 franchise fee, $57,500 for the league reserve fund and working capital of $318,000 to be earmarked for hockey and not to be used for any other purpose.

Cleveland raised the necessary amount and was all set to make the N.H.L. circuit a seven-team league next season but the major leaguers voted otherwise.

"There was a uniform declaration by every club in the league that they wanted Cleveland in as a partner, but on a workable basis," N.H.L. President Clarence Campbell told reporters after the meeting.

**OWNERS 'TECHNICAL'**

"We are not in because the owners were very technical," Hendy said.

"If we were in the N.H.L. and only took in as much money as we did last year, plus funds from advertisers, we could meet all our payments. We know the cost of operating a team."

Hendy said he didn't know whether the Barons would take advantage of the offer to make another application or whether they would operate in the American Hockey League next season. He said it now is up to the shareholders to decide.

A meeting of shareholders is scheduled for next week in Cleveland.

# 11 U.S. Fixers Hear Sentences

NEW YORK (AP)—With a blistering blast at college sports, Judge Saul S. Streit yesterday sentenced 11 fixers as a climax to the U.S. basketball scandal.

They drew prison terms ranging from six months to as high as four to seven years.

Judge Streit urged jail penalties for college alumni, boosters or officials who subsidize players.

"When the next scandal breaks," said the judge, "it may destroy intercollegiate sports."

Then, turning to the game fixers, the judge lashed out at "creeping mice. . .grown bold like. . . vicious, cunning brown rats. . .and all this for a sure-thing dollar."

The stiffest prison sentence—four to seven years—went to Joseph Benintende, 43-year-old ex-convict, described as the leader of his own betting ring.

# Denies Argos To Be Sold During 1952

TORONTO (CP) — Bob Moran, president of the Toronto Argonaut Football Club, yesterday denied that the Big Four club would be sold in 1952.

"The Argonauts will not be sold this season," he insisted at a party given by the press and radio to publicize the Argo-Hamilton Tiger-Cat exhibition game in Buffalo, Aug. 24. "We have not even received a bona fide offer for the club."

Milt Dunnell, sports editor of the Toronto Star, said in his sports-page column yesterday that at a secret meeting in recent weeks, the Argos had decided to sell their Big-Four franchise at the end of the 1952 season.

Dunnell suggested Jack Kent Cooke, owner of the International League Toronto Maple Leafs, as the most likely buyer.

**ASKED PRICE**

Moran admitted Cooke was interested in buying the Argos and had asked him the purchase price. Moran told him he would have to bring the matter before the club executive.

Cooke, who purchased the Toronto Baseball Club only last summer, refused to comment.

During the gathering, Coach Frank Clair announced the signing of Bob Stratton, a backfielder from the University of Cincinnati. He also said the team had lost Bob Cooper to Detroit Lions who outbid them for the ex-Nevada University end.

## Remember When—

**By THE CANADIAN PRESS**

Helen Wills Moody won her last Wimbledon women's singles tennis title 14 years ago today with a 6-4 6-0 victory over her arch rival, Helen Jacobs. Miss Jacobs pulled a tendon in the ninth game of the first set. Helen Wills won the American title seven times before Miss Jacobs won it in 1932, first of four straight championships.

## Yesterday's Stars

**By THE ASSOCIATED PRESS**

**Batting:** Bill Nicholson, Phillies—hit a pinch-hit home run with a man on base in the eighth inning to give the Phils a 2-1 nightcap win and a sweep of a doubleheader with Dodgers.

**Pitching:** Harry Brecheen, Cardinals—hurled a three-hit shutout as Cards defeated Cincinnati 3-0.

## They'll Do It Every Time

By Jimmy Hatlo

# Phils Sweep Doubleheader In Cleanup On Brooklyn

*By JOE REICHLER, Associated Press Sports Writer*

Fatherly Steve O'Neill has discarded Eddie Sawyer's austerity program and replaced it with a more popular plan that appears to be putting new life into Philadelphia's awakening Whiz Kids. Under his guidance, the Phillies have been taking the curse off their early-season reputation as the biggest disappointment of the year.

Since the 61-year-old O'Neill took over as Philadelphia manager last Saturday, the Phils have won four of six from Brooklyn and New York, the top two clubs in the National League. That's .667 baseball. Under Sawyer, the Phils won 28 and lost 35 for a .444 percentage.

Steve refuses to take the credit, but in his first meeting with his new team he told the players all of Sawyer's austerity program except the curfew was out. There was to be a midnight and 2 a.m. deadline for day and night games but the players could have cars, cards, wives, golf clubs and swim suits with them.

**BRILLIANT PITCHING**

Brilliant pitching by Robin Roberts and Russ Meyer plus timely hitting by outfielders Bill Nicholson and Mel Clark yesterday gave the Phils a sweep of their doubleheader with Brooklyn, 5-3 and 2-1 and three wins in the four-game series.

The double defeat cut the Dodgers' first-place margin to three games over the Giants who lost a grand opportunity to pick up more ground by dropping a 2-1 decision to Boston Braves.

Cleveland Indians picked up a full game on the front-running New York Yankees in the American League, taking their second straight overtime tilt from the Browns 3-2 while Boston Red Sox were beating the champions 5-4. Chicago White Sox nipped Detroit 3-2 and Philadelphia's Athletic dropped Washington into fifth place with a 4-1 victory over the Senators.

**LEADERS BUNCHED**

Four games separate the first five clubs in the American League. The second-place Indians are three games off the pace, a half-game in front of Boston and Chicago and a game ahead of Washington.

Chicago Cubs solidified their hold on third place in the National, pasting a pair of defeats upon Pittsburgh, 8-3 and 3-0.

Harry Brecheen pitched St. Louis Cardinals to a 3-0 victory over Cincinnati Reds for their 12th victory in the last 16 games. Enos Slaughter continued his batting rampage, driving in all St. Louis runs in the eighth with a bases-loaded double off loser Herman Wehmeier.

A home run by pinch-hitter Nicholson following a walk to Connie Ryan in the eighth gave the Phils the nightcap win after Roberts had registered his 11th victory with a six-hitter in the opener. Clark collected three of the Phils' 12 hits in the opener and scored what proved to be the winning run after a leadoff sixth-inning triple.

**BRAVES EDGE N.Y.**

A home run in the eighth inning by rookie Jack Dittmer, the kid infielder's first major league four-bagger, gave Warren Spahn his victory over the Giants.

Hank Sauer blasted his 21st homer as Warren Hacker pitched a two-hit shutout for the Cubs after three hits by catcher Toby Atwell and a bases-loaded triple by pinch-hitter Bill Serena won the opener.

Perfect relief pitching by 41-year-old Alton Benton helped the Red Sox grab the rubber of the three-game set with the Yankees in New York. The heavyweight hurler stemmed a threat in the seventh and retired seven Yankees in a row.

Bobby Shantz chalked up his 14th victory against two defeats for the Athletics, limiting the Senators to four hits.

## Cincinnati Reds Sell Pitcher Phil Haugstad

CINCINNATI (AP) — Cincinnati Reds yesterday sold pitcher Phil Haugstad to Toronto of the International League.

The big righthander, who was obtained from Brooklyn May 29, pitched 12 innings in nine games, for Cincinnati. He neither won nor lost a game.

# Royals Edge Orioles In 9-8 Triumph

**By THE ASSOCIATED PRESS**

Rookie Frank Marchio is the big reason why Montreal Royals today are three games out in front of the slumping Rochester Red Wings in the International League pennant race.

Not only did Marchio, the Royal left fielder, bat in a pair of runs with three hits as Montreal downed Baltimore Orioles 9-8 last night, but he came up with a diving catch that nipped an Oriole rally in the final frame.

In other night games the Red Wings couldn't cope with the big bat of Andy Anderson and fell 10-4 before Toronto Maple Leafs while Buffalo Bisons moved into sixth place with a 10-4 victory over Syracuse Chiefs.

Montreal had a 9-1 lead via 13 hits, two of them doubles by Marchio, going into the top of the eighth when Baltimore put across five runs to chase winner Jim Romano (3-3). In the ninth, the Orioles scored two more runs with one out and had the tying run on first when Marchio made a tumbling shoestring catch of Buddy Kerr's sharp line drive to end the game. Ken Peterson (0-3) was the loser.

Anderson droye in five runs with a pair of doubles and a single to give Duke Markell (8-6) a shaky victory over the Red Wings who picked up nine hits. Fred Martin (7-6) took the loss. The win was Toronto's third in the four-game series.

Buffalo chased Syracuse starter and loser Art Hartley (1-7) with a seven-run fifth inning as Wayne McLeland (4-2) lifted the Bisons a notch in the standings past Baltimore.

# Find Records Of 2 Girls Show Up Well

TORONTO (CP(—Lloyd Percival, Toronto track and field coach, said last night he has received a cable from Britain containing information that indicates the records set by Mary Lawrence and Jo Brennan compare favorably with those set by the best women European athletes in the discus and shot put events.

A furore has been raised by the Canadian Olympic Association's action in leaving the two girls off Canada's Olympic team. Miss Lawrence, a Toronto girl, and Miss Brennan, who comes from Hamilton, broke Olympic standards and Canadian records in the shot put and discus, respectively, at the Olympic trials in Hamilton last week-end.

The Olympic selection committee said they were left off the team because it was believed they would be outclassed against international competition.

Percival, who coaches both girls, said the cable he received from Jack Crump, secretary of the Amateur Athletic Association in Britain, lists distances achieved by the 12 finalists in the shot put and discus in the 1948 Olympics and also the best marks achieved this year by the 10 top European women in each event.

**COULD REACH FINALS**

Percival said the information shows that "both girls are of international standing, and would certainly reach the final in their events."

At the trials in Hamilton Miss Lawrence set a women's shot put record of 40 feet 3¼ inches and Miss Brennan a new women's discus mark of 123 feet six inches.

In the 1948 Olympics the winning shot putter had a toss of 45 feet 1½ inches, the sixth-placer a mark of 41 feet and the seventh-place finisher 40 feet three inches. That would put Miss Lawrence in seventh position.

According to Crump's best-10 list the seventh best woman shot putter now throws 40 feet, which would out Miss Lawrence right behind the sixth-best's 42 feet 1½ inches.

## Famed Doctor Dies

VANCOUVER (CP) — Funeral services were held here yesterday for Dr. Fanny G. Halpern, 52, internationally-known psychiatrist who gained fame for her work in China. She died in hospital Saturday. Dr. Halpern came to Vancouver three months ago from Shanghai to visit a brother.

**NO FENCES**

Fields in the Shetland Islands are divided into fenceless strips to give each family a share of the different types of land.

SETS SAIL—Skidoo makes a pretty picture as her spinnaker bellies in the wind during a test run off San Pedro, Calif. The American representative in the Olympic Games International Dragon Class is skippered by Bill Horton, staff commodore of the Los Angeles Yacht Club.

SCATTERED SOX—Boston Red Sox catcher Sammy White (left) and first baseman Billy Goodman tumble to the grass after colliding at top speed while chasing a pop foul hit by Yankee backstop Yogi Berra at the Yankee Stadium. Goodman, who caught the ball for the out and managed to hold on to it, was knocked unconscious and had to leave the game. White remained in the game, although he was shaken up considerably.

## Here and There In Sport

By The Canadian Press

Two United States eights scored easy victories at Henley-upon-Thames yesterday in the first heats for the Royal Henley Regatta Challenge Cup.

Tabor Academy of Massachusetts rowed the mile 550-yard course in 7:15 to down Cambridge University by 2½ lengths, while the University of Pennsylvania took 16 seconds longer to make it, but at the same time took a 2½-length win from Britain's Bedford Rowing Club.

The largest crowd of many years turned out.

**FLO OFF AGAIN**

Florence Chadwick will be wearing six pounds of grease and shark repellent tonight when she steps into the Pacific on the famed Santa Catalina Island channel swim. The 32-year-old San Diego mermaid will be spotlighted by radio and TV.

**BOMBERS IN EARLY**

Thirty-five players checked in at the Winnipeg Blue Bomber training camp yesterday. Coach George Trafton said the camp was two weeks ahead of last year's with the club holding nine practices a week.

**HIGH DAILY DOUBLE**

The daily double of $1,966.20 yesterday was the largest of the Chicago racing season. It was recorded at Arlington Park before a crowd of 15,000. The winning tickets were held by only 33 persons.

**DRAWS FINE**

Boston Braves' righthander Earl Torgeson drew a fine of $100 yesterday for his clash in Tuesday night's game with New York Giant catcher Sal Yvars. The latter was fined $25. Both fines were levied by National League president Warren C. Giles.

## 40 Non-Swimmers Register At Omemee

OMEMEE (ENS) — The Home and School swimming project got off to a good start Wednesday afternoon with Mrs. Pansy Forbes, of Peterborough, instructing and Marilyn Hart and Jean Hyland assisting.

Forty non - swimmers were registered from tots to those who were familiar with the water but hadn't mastered the art.

Boy and girl captains were chosen, each of whom were to take on four youngsters to teach to swim. Venna Zufelt, Mary Ann Martin, Loraine Hyland and Yvonne Parker are captains for the girls; and boy captains are Bruce Lennox, Roger Lennox, Homer Brooks, Burtram Middleton and Bob Young.

There will be trophies for the captain doing the best work, for the individual making the most progress during the season, and for regularity at classes. Credits will also be given for special accomplishments.

Classes will be held on Tuesdays and Thursdays until the course is completed.

## Bridgenorth Wins

SELWYN (ENS).—The married women of Selwyn and Bridgenorth provided a laugh for the spectators on Monday evening, when they played a game of softball on the local field.

With very little practice beforehand, they came through with an eight-inning game which ended in a 27-23 win for Bridgenorth.

Mrs. Ray Harding and Mrs. Alice Doughty did the pitching for Bridgenorth, and Mrs. Earl Blewett, the catching. For Selwyn, the pitchers were Mrs. Barbara McConkey and Mrs. Betty McConkey, and Mrs. Jean McIlmoyl did most of the receiving, Mrs. Daisy Fitzgerald relieving her for the fifth inning.

The only homer of the game was struck by Avice Doughty in the eighth inning. She was the outstanding batter of the game.

Selwyn is going to Bridgenorth next Monday night for a return game.

Bridgenorth: M. Blewett c, O. Harding p, A. Doughty cf, E. Jopling lf, A. Payne rf, E. Ray 3b, M. Smith 2b, W. Roberts ss, Jopling 1b, M. Woods sub.

Selwyn: J. McIlmoyl c, B. McConkey p, E. McIlmoyl 1b, J. Miles 2b, D. Fitzgerald 3b, L. McConkey ss, M. Morin cf, B. McConkey rf, S. McIlmoyl lf, A. Elliott and A. Tully, subs.

Umpires: Wm. Elliott and Ralph Jopling.

## Legion Sponsors In Havelock Sports Program

HAVELOCK (ENS). — The Havelock-Belmont Branch No. 389 Canadian Legion held a Dominion Day celebration on the holiday which included a program of sports in the town park in the afternoon, and a bingo and street dance in the evening on the section of George St. between Quebec and Oak Sts.

The Rev. R. D. [illegible], Legion padre, was in charge of the sport program when the prizes were awarded as follows:

Decorated bicycle—First, Gail Sanderson; second, Reginald Scott; third, Donna Johnson, Carol Ellis, Linda Youmans, and Sharon Logan, tied.

Girls' races—seven and eight years—1 Claudette Duggan, 2 Marilyn Brewer, 3 Linda Youmans.

Nine and 10 years—1 Carol Rutherford, 2 Evelyn Stevenson, 3 Norma Dafoe.

Eleven and 12 years—1 Doris Newman, 2 Margaret Stevenson, 3 Brenda Miller.

Thirteen and 14 years—1 Wanda Wood, 3 Frances Duggan, 3 Gail Sanderson.

Boys' Races: Seven to eight years—1 Morley McArthur, 2 Clare Miles, 3 Douglas Davis.

Nine to 10 years — 1 Harry Davis, 2 Dale Houghton, 3 Dwaine Sawyer.

Eleven to 12 years—1 Billy Watson, 2 Reginald Scott, 3 Keith Scott.

Can walks: girls seven to 10 years—First pair, Margaret Duncanson, Carol Rutherford; second pair, Claudette Duggan, Norma Dafoe.

Girls 11 to 14 years — 1 Wanda Woods, Gail Sanderson; 2, Glenna Ellis, Joan Haley.

Boys and girls 11 to 14 years—1 Doris Newman, Betty Ann Steenburgh 2 Frances Duggan, Barbara Dafoe.

Boys seven to 10 years—1 Bob Haley, Dwaine Sawyer; 2 Wayne Ellis, Reginald Hill.

Boys' open can race—1 Robert McKenzie and Reg. Scott.

Bowling contest — 1 Frances Duggan and Lois Bullock, tied.

**HAVELOCK GIRLS WIN**

A girls' softball game between Havelock and Nephton was one of the main attractions and was won by the local girls by a score of 30 to 9. The line-ups were:

Havelock—Lou Hie c, Virginia Ellis p, Helen Oliver 1b, Shirley Miller and Eleanor Forsyth 2b, Barbara Brooks 3b, Rhoda McArthur ss, Dorothy Holdcroft rf, Jean Mack cf, Jean Waldon lf.

Nephton—Kay Lowry c, Ethel Credicott and Doris Davis p, Vivian Howe 1b, Mel Duggan 2b, Laverne Duggan 3b, Doris Davis rf, Doris Bedore cf, Muriel Lowry rf, Mavis Kelly ss.

The following were in charge of the bingo: Ross Hart, J. Cosgrove, Percy Hill, W. Bengal.

The prize for the largest muskie caught during the day went to Derwood Scott for a catch weighing 9½ pounds.

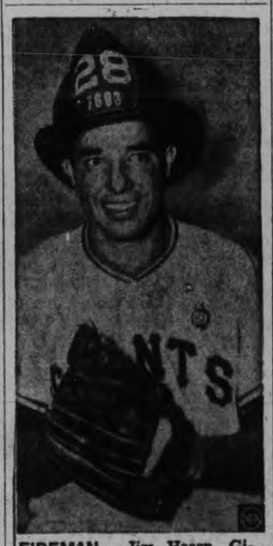
The Ladies' Auxiliary to the Legion operated booths at the park and at the street dance with the following members in charge: Mesdames W. Cartwright, H. Gerow, H. Revoy, H. Pollock, Roy Davies, Earl Greenley, J. Cosgrove, G. Walker, G. Emery, G. Brooks, C. Chard, L. Hornsby, Mrs. A. Scott (Norwood).

## Foresters Win

Foresters kept atop the Civic Softball League last night with a 6-4 victory over Bell Telephone in a fine fixture. Each side had 11 safe blows but the losers had three errors to just one for the Foresters. The latter scored two runs in the third and four next time to bat, five of them going down on strikes. Bell got two runs in the first and one each in the fourth and fifth, as six struck out. Both sides had several walks. Bullied, Greatrix and Gillespie got two hits each for Bell, Doughty leading the winners with three.

Bell: Gillespie, 1b; Tushingham, ss; Greatrix, cf; K. Harrison, 3b; Guerin, p; Conway, c; Gordon, lf; Shortt, cf; Harrison, cf; Bullied, rf.

Foresters: Walling, rf; Doughty, c; Tyndall, ss; Quigley, 3b; Maloney, p; Parnell, cf; Murray, 1b; Kidd, 2b; Hobson, lf.



FIREMAN — Jim Hearn, Giants' pitcher from Atlanta, tries on his new hat after being sworn in as an honorary Georgia fire marshal. Manager Leo Durocher expects the righthander to exercise his new title against opposing batters.

SAD HOMECOMING — Phillies catcher Smokey Burgess puts the tag on Brooklyn Dodger outfielder George Shuba as Shuba came barrelling into home plate in the second inning of their game at Ebbetts Field. Shuba tried to score on Duke Snider's hit to left field, but Del Ennis's peg reached the plate before him. Umpire is Augie Guglielmo. Brooks won, 4-3.

BACKSTOP — When Matt Batts was removed to the disabled list with an ulcerated colon, Cliff Mapes was brought in from center field to ease Detroit's catching shortage. The former Yankee and St. Louis Browns' hand once caught in semi-pro ball.

## Kesco Takes Win

Kesco blanked Timbermen 5-0 in a tidy Civic Softball League encounter last night, scoring twice in the first heat and once each in the second, third and sixth. Several walks and timely hitting gave them their markers. Timbermen were held to four blows by Conroy and both sides fielded well in the snappy struggle.

Teams:

Timbermen: Carson, ss; D. Dyer, c; McLeod, 1b; Hogan, cf; Murphy, 2b; Rogers, p; Smith, lf; Payne, 3b; Montgomery, rf.

Kesco: Chenier, 3b; Goodfellow, 1b; Little, lf; Harris, cf; Galley, rf; Conroy, p; Harrison, 2b; Alberico, ss; Montgomery, c.

## Mathias Wins Olympic Berth

TULARE, Calif. (AP)—Decathlon champion Bob Mathias set a world record of 7,825 points last night and with 18-year-old Milt Campbell and veteran Floyd Simmons, won berths on the United States Olympic decathlon team.

Mathias climaxed his greatest scoring spree with a tremendous javelin throw of 193 feet, 10⅜ inches that set the record after nine events, and added to it in the 1,500-metre run which would up his two-night, 10-event grind.

The javelin throw netted 713 points for 7,531 points and the 1,500 metres added 294 to erase the 7,444 world mark now on the books.

Campbell, high school star from Plainfield, N.J., finished second with 7,055, and Simmons, who finished third to Mathias in the 1948 Olympic Games, was third with 6,804.

Mathias won the Olympic decathlon with 7,139 points under a scoring system since downgraded. Ir 1950 Mathias recorded 8,042 but this total was scaled down to 7,444.

## Omemee Triumphs

OMEMEE—(ENS)— Whitmore-Weir Combines clinched first place in the Lindsay Softball League by edging Carruthers of Lindsay 9-8 in the village last night. The game was loosely played in the early stages, but both teams improved towards the final frames.

Tom Parsons on the mound for O's helped his cause by getting three hits. Roy Crawford, G. Bryans, Craig and Jamieson each had two safeties, the latter getting a triple and a double.

Woody Ritchie went the distance for the losers, but allowed 13 hits and walked two. Going into the sixth, Carruthers were trailing Omemee 6-1, but a hit by Richie put them back in the game. Parsons walked Bolderstone intentionally to fill the bases, then Richie doubled, scoring three. He completed his circuit on Jones' single. Martin led at bat for the losers with three safeties.

Tom Payne in Omemee's left field made the catch of the night in the eighth to end the game.

Omemee—Dracup 3b, G. Bryans 2 b, Parsons p, O. Crawford cf, R. Crawford ss, Craig c, K. Bryans 1b, Hickson rf, Jamieson lf, Pogue batted for O. Crawford in the seventh.

Lindsay— Martin 3b, Hickson 2b, Foshay lf, Daynes ss, Bolderstone cf, Richie p, Jones c, Eakins 1b, Eberts rf.

Umpires—W. Bryans, plate; R. Henry, bases.

## Yorkers Clip Crescents In 11-7 Tilt

TORONTO (CP)—Toronto Yorkers moved into second place in the senior Ontario Lacrosse Association last night by defeating Owen Sound Crescents 11-7.

In another game here Mimico Mountaineers stretched their first-place lead to six points as they 12-10.

The Yorkers now share the runner-up spot with Peterborough Timbermen.

Playing coach Don McPhail led the Yorkers to their win with two goals and four assists. Wimpy Timpson, Frank Facto and Nick Ferri were other two-goal scorers for the Yorkers while Bob Hilson, Frank King and Leo Teatero each got one. Bunhite counted two goals for the Crescents and was the only Owen Sound player to get more than one.

In the Mimico-St. Catharines game, league-leading scorer Ken Dixon counted three goals and two assists for the Mountaineers and teammate Denny Peterson got three assists Derry Davies potted two of the other Mimico goals. Jimmy McMahon and Ted Howe were the top St. Catharines snipers with two goals each.

**FIRST STREET CAR**

The first street-car line built in Toronto was on Yonge Street and opened for traffic Sept. 11, 1861.

TOAST OF TRACK — Fay Taylour relaxes between races on the Boreham big-car circuit at Chelmsford, England, and sips a cup of tea. The Irish-born dirt-track driver wears pajamas under racing togs in case she winds up in the hospital.

"MISS UNIVERSE".—Screen actress Piper Laurie places a crown that belonged to Russia's Catherine the Great on the head of Armi Kuusela, "Miss Finland," who won the "Miss Universe" beauty pageant at Long Beach, Calif. The 18-year-old Finnish beauty triumphed over lovelies from all over the world.

## Single Indian Band Denies White Man's Ownership

ROCKY MOUNTAIN HOUSE, Alta. (CP)—A promise made to an Indian chief now long dead brought disappointment again this year to Indian Affairs men on the treaty money-paying trip into the reserve west of Rocky Mountain House.

Rumors that had gone the rounds promised that a large group of John o'Chiese Indians would at last make their peace with the government and join treaty.

But at the treaty-paying ceremony at the Sunchild Cree school, only one member of the tribe came forward to take the $12 offered at first signing.

The other 200-odd members of the o'Chiese band, Chippewas by origin, refuse money or aid from the Canadian government.

A few have come into treaty but the majority still exist the way they have for generations.

The o'Chiese Indians have no vote, no legal trapping lines such as other Indians; they refuse to accept the 35,000-acre reserve set aside for them by the Indian Affairs Department and they won't take family allowances.

BEGAN IN 1832

They refuse to join treaty—with all its benefits—because of a promise made to the originator of the band as it now exists. It began in 1832.

One night the dreaded enemies of the Chippewas, the Blackfoot Indians, attacked the Chippewas. During the night flight of the latter, seven-year-old Jim o'Chiese was lost.

Several months later, the story goes, his elder brother had a dream in which he saw Jim. He recognized this as a sign that his brother was still alive. The Chippewas returned to their original camp and found the youngster. Jim o'Chiese later became the leader of the tribe.

Before his death at 107 years in 1932, Jim o'Chiese made his people swear that they would not sign treaty with the white man who had come and thrown the Indians from their homes, made them live in specified areas, and restricted their hunting.

Peter o'Chiese said this spring that his grandfather had said it was not right to give up lands given the Chippewas by God.

In the minds of the o'Chiese Indians, the land is theirs and the white man is the trespasser.

## Firemen Find Child's Body

BRANTFORD (CP) — Firemen last night recovered the body of John Guesy, a seven-year-old drowning victim, and continued their search for a second, whose identity was unknown.

John, son of Mr. and Mrs. Harry Guest, lost his life in an offshoot of the Grand River—the hydraulic canal in the Holmedale section of the city. Playmates said the boy had been swinging on a rope suspended from a tree.

Police believe the second victim was seven-year-old Kenneth Wheatley, son of Mr. and Mrs. Kenneth Wheatley.

His father told police that his son had not come home from swimming at the civic pool. Mrs. Wheatley identified a towel left at the pool as one taken by the youngster.

## Australia May Boost Canadian Purchases

OTTAWA (CP)—Australia may boost purchases of Canadian goods through funds provided by the International Bank, it was learned yesterday.

The Australian government has applied for a loan from the 41-country bank located in Washington and it is believed here that part of that loan may be granted in Canadian dollars for spending in Canada.

Canada recently made $41,000,000 in Canadian funds available to the bank for lending purposes. Part of this may be turned over to Australia for purchase of strategic Canadian goods to further Australia's defence effort.

## How It Was In '42

MONTREAL (CP) — The "red light" district in Montreal's north-central area was so wide open around 1942 that one bawdy house operated a loud speaker inviting patrons in from the street, Dave Rochon, City Councillor, testified yesterday before Montreal's vice inquiry. The inquiry is into alleged non-enforcement by the police of anti-vice laws for a period of years prior to 1945.

## Dies Of Stabbing

NEW YORK (AP)—The father-in-law of convicted bookmaker Harry Gross died yesterday, victim of a stabbing by a youthful gambler. Harry Oransky, 54, was stabbed with a screw driver while trying to break up a teen-age dice game in front of his tavern on Eighth Avenue.

## Recover Second Body In Drowning Mishap

ST. WILLIAMS (CP)—The body of Robert Magill, Woodstock, drowned Tuesday in an attempt to swim to shore after a small skiff capsized in Lake Erie, was found last night after a 12-hour search.

The body was located by Ross Leedham, St. Williams, floating offshore near the spot where the body of Magill's fishing companion, Leo Croft, who also lost his life when the boat upset, was recovered Tuesday.

## Customs Receipts For Ontario Points

By THE CANADIAN PRESS

Customs and excise receipts at Ontario points of entry for June were generally above those for the same month last year with five exceptions. St. Catharines, Guelph, Brantford, Oshawa and Niagara Falls all reported a decrease.

The following were reports received (figures for June, 1951, in brackets):

St. Catharines 336,151 ($371,485); Guelph $388,572 ($484,208); Brantford $419,093 ($546,810); Oshawa $6,073,762 ($8,632,133); Niagara Falls $1,213,015 ($1,357,341); Belleville $587,714 ($705,916); Toronto $25,416,114 ($25,025,494); Owen Sound $93,285 ($90,600).

RECORD SWIMMER— Irene Strong, a 1948 Olympic contender, will represent Canada on the team of nine swimmers at the summer Olympics in Helsinki. Miss Strong, who broke two records at the trials in Toronto, will compete in breast-stroke events.

# GRAFTON & CO., LTD.

# Church Honors Louis H. Winslow Warden 13 Years

MILLBROOK (ENS) — A fellowship hour to honor Louis H. Winslow was held in the parish hall following the Sunday evening service of St. Thomas' Anglican Church.

Mr. Winslow served for 13 years as warden of St. Thomas' before he retired last December.

Prior to moving to Millbrook, he was warden of St. John's, Ida, for many years. He is at the present time a member of the advisory council and delegate to the synod.

The Rev. A. A. Chote, rector, paid tribute to Mr. Winslow as a real man of God, interested in God's work and in his church. He recalled that the parish of Cavan had had a most successful year; all three churches of the parish had been completely redecorated, an inter-church mission for the churches of all denominations of the community had been sponsored and the school in rural sociology for Anglican theological students had been held here.

To all church projects, Mr. Winslow had given his unfailing loyalty, leadership and support. The hope that God would continue to bless him in his undertakings was expressed.

The testimonial was signed by Mr. Chote, by the people's warden, G. A. Spicer, and the rector's warden, D. R. Fowler. The presentation of the testimonial and of a wrist watch had been planned for some time.

When Mr. Winslow was taken suddenly ill last Tuesday, it was decided to go on with the plan although he was unable to be present. The testimonial was received by his son, Clare Winslow, of Ida, and Mr. Chote will present the watch privately in a day or two.

Following the presentation, colored slides of the school for theological students in rural sociology were shown. The pictures showed the students as they arrived in Millbrook, as they attended lectures, visited a rural public school, conducted a church service. They were also shown with some of the families with whom they were billeted, learning a little of farm work, enjoying a game of softball with the local high school team, enjoying also the meals supplied by women in all three of the parish churches they visited.

The Rev. A. A. Chote prepared the script to accompany the pictures which will be shown all across Canada.

About 100 churches have already asked to have the films to use. Many other dioceses are interested in what the school accomplished and are anxious to carry out a similar project.

The lectures given at the school by the Rev. Alan Read, of Mono Mills, have been compiled in book form under the title, "Shepherds in Green Pastures."

Mr. Chote called on Percy Hamilton, Sunday school superintendent, to present awards to the following honor students in examinations held recently: Gloria Raper, Gail Gibbs, Wayne Raper, Bobby Hamilton, Douglas Sheppard, Marilyn Sanders, John Stinson, Larry Gibbs and Brad Medd.

G. A. Spicer was chairman for the program which included a vocal solo, "The Prayer Perfect," by Mrs. Spicer, a mixed quartet comprising Yvonne Richards, Anne Dawson, Fraser Carr and Donald Spicer singing "Take Time To Be Holy," and two readings, Bliss Carman's "Vestigia" and "The Two Prayers," by Andrew Gillies, given by Mrs. Bruce Ingham.

Percy Hamilton moved a vote of thanks to Mr. Chote for arranging and showing the pictures, and for writing the commentary. The pictures were taken by Homer Ouellette.

The ladies of the congregation served refreshments at the close of the evening.

SPEEDY SWIMMER — Kay McNamee of Vancouver, who represented Canada in the 1948 Olympics, is one of four women chosen for the 1952 team in the Helsinki competitions. Miss McNamee made two record-breaking times in the trials at Toronto. Her brother, Gerry, smashed three records in the trials, and also goes to the Olympics. Miss McNamee competed in the 100, 200, and 400-yard free-style competitions.

## Hastings News

Dr. and Mrs. Virgil McEldowney of Newell, West Virginia, are at their cottage for the month of July.

Mr. and Mrs. Frank McKelvey, Mr. and Mrs. Wm. McKelvy and sons Franklin and Charles, Campbellford, Mr. and Mrs. Ted Loranger and daughter Lynn, Hamilton, were Sunday visitors with Mrs. Bernice Humpheries.

Mr. and Mrs. Alex Wilson and family of Toronto were weekend visitors with the former's parents, Mr. and Mrs. H. B. Wilson.

Sunday visitors at the home of Mrs. Ethel German were Mr. and Mrs. Alton Beavis, Kingston, Mr. and Mrs. Frank O'Brien and daughter Susan, Detroit, Mrs. W. H. Beavis, Sarnia, Mr. and Mrs. E. J. Fairmane, Campbellford and Miss Bertina Beavis, Lakefield.

Mr. and Mrs. Alton Thompson, Brenda and Johnnie and Mr. Lynn Hill are at their cottage for the summer.

Miss Pauline Humpheries, R.N. of Hamilton, spent the weekend with her mother, Mrs. Bernice Humpheries.

Holiday visitors at the home of Mr. and Mrs. J. R. Jones were Mr. and Mrs. John Nameth and children Drew and Johnette, Hamilton, Mr. and Mrs. Vic Simmons and daughter Vicky, Whitby, Mr. and Mrs. M. Ruyter and son Bill of Burlington.

Remember
NESCAFÉ
for the COTTAGE or CAMPING TRIP

Quick, easy to make right in the cup!

Think of the convenience — perfect coffee every time, *anytime*, in just seconds. No messy grounds, no dirty coffee pots ... and Nescafé requires very little room to pack.

It's so easy to make Nescafé in a cup, coffee-server, or your Thermos bottle for the fishing trip. One teaspoonful of *Nescafé for each cup desired, and add boiling hot water. That's all there is to it — delicious, iced or steaming hot. The 4 oz. jar saves you up to 40¢ a pound. The 12 oz. economy jar saves even more.

The finest cup of coffee you ever tasted

*Nescafé (pronounced NES-CAFAY) is the exclusive registered trade mark of Nestlé's Milk Products (Canada) Limited to designate its Soluble Coffee Product. It is composed of equal parts of pure soluble coffee and added carbohydrates (dextrins, maltose and dextrose) added solely to protect the flavour.

# Cut FOOD Costs at DOMINION

PETERBOROUGH'S MOST MODERN MARKET
246 GEORGE ST. NORTH

*FREE Customer Parking*

Completely Remodelled!

MANY NEW FEATURES FOR YOUR SHOPPING PLEASURE!

DOMINION

MANY NEW LOW PRICES

TO HELP YOU CUT FOOD COSTS!

## Now! New Shopping Convenience . . .

Many sections at Your Dominion Market have been redesigned for more shopping efficiency and better service. There is a wonderful new refrigerated display stand for the garden produce, where you will find the finest fruit and vegetables.

### NEW ELECTRIC SIGNS

So you can identify your requirements at a glance, a new fluorescent lighting system has been installed to point up directional signs at the frozen foods, self-serve meats, baby foods, and toiletries etc.

Toiletries have been moved to a new wall shelf fixture near the front of the market—and all the beauty and health aids of this section are displayed on easy-to-reach shelves.

### Enlarged Frozen Food Section

The frozen food section has been enlarged to make room for a greater variety of items — and so give you a much wider choice of these delicious products. Enjoy shopping for meats at our enlarged self-serve meat section.....Greater variety for your personal selection.

These improvements are not "frills" just for show—but necessary for the added convenience of shoppers. Be sure to note this new modern "face-lifting" next time you shop. You'll be thrilled by how much easier and faster your shopping is from now on.

EIGHT-ALARM BLAZE RIPS BROOKLYN—Firemen (lower right) scurry for safety as the wall of an abandoned trolley barn collapses during an eight-alarm fire in Brooklyn, N.Y. The blaze spread to seven other buildings, causing 500 persons to be evacuated. Fighting it were more than 300 firemen, using 55 pieces of equipment, including a fire-fighting tug boat brought up a creek to within a block of the scene. It was the city's first eight-alarmer in more than a decade.

# Taft Supporters Prepare To Crush General

CHICAGO (AP)—Senator Robert A. Taft's Chicago juggernaut rolled on to flatten more Eisenhower supporters today.

But backers of Gen. Dwight D. Eisenhower, mad as blazes, vowed the Republican party's Presidential nomination wasn't going to be picked by the juggernaut—otherwise known as the Ohio Senator's highly-effective majority on the Republican National Committee.

They predicted Eisenhower strength would flow into Chicago once large numbers of rank-and-file delegates start arriving.

Eisenhower himself set the pitch of his camp's determination to stop the Taft drive.

**DEMANDS CLEAN CONDUCT**

Before leaving Denver on a speech-making train trip to this convention city—he's due Saturday—the General said he would "roar out clear across the country" for clean and decent conduct of next week's convention.

Taft and his backers denied any chicanery.

Whatever the opposition might charge or whatever might happen to change the situation next week, they were in charge of the pre-convention manoeuvrings today.

The 106-member National Committee was called into session to iron out the latest—but not the last—Taft vs. Eisenhower fight to come before it. That was the sizzling fight for votes in the 15-member Louisiana delegation.

Votes are what it takes—604 to be exact—to win the nomination.

And the latest Associated Press checkup, based on avowed and conceded delegates and those seated by the National Committee, gave Taft a 493-to-412 edge over Eisenhower at the end of yesterday's tug-of-war.

**'FRAUD' CHARGED**

The Eisenhower camp cried "fraud" and "smokescreen." But it glumly admitted that at this stage the Taft people had the National Committee votes to grab all the Louisiana delegates if it wanted to—and a number of others to be decided upon later. Two of Louisiana's 15 votes are not in dispute. They are solidly in the Taft column.

Governor Thomas E. Dewey of New York, here to help the Eisenhower forces, saw a marked movement toward the General. He stood by his own prediction of what will happen—40 delegates from various parts of the country will switch from Taft to Eisenhower after the first ballot.

Moreover, Dewey said even some of the governors supporting Taft were among the 23 governors who signed a statement at Houston, Tex., yesterday backing Eisenhower's views on the conduct of next week's convention.

WORLD CYCLIST — Jeffrey Walter Winkley, of Broadview, Australia, pauses in Frankfurt, Germany, on his 'round-the-world cycling tour. Winkley has toured England and Europe since April, 1951, and hopes to pedal through Scandinavia and South America before returning home in 1954.

## Machines Too Modern

UNITED NATIONS, N. Y. (AP)—Pakistan's delegate to the U. N. Economic and Social Council found a flaw today in western machinery sent to his underdeveloped country—it's too modern. The delegate, Said Hasan, asserted mechanics should be sent along to simplify machinery so the people in countries like his could use it better.

**PIONEER ROAD**

The first main road between Quebec and Montreal was built in sections and opened to through traffic in 1735.

# Legion Sponsors Sports Day At Millbrook

MILLBROOK (ENS).—Branch 402 of the Canadian Legion held a successful sports day in Millbrook fair grounds on July 1. As well as a program of ball games, there were attractions for the youngsters.

Chris Peterson supplied ponies for a pony ride and Robert and Fred Ridge operated a garden tractor with a line of small cars behind for rides for the kiddies. There were foot races for them also.

The first hard ball game was between Millbrook and Bethany, the winner to play Bailieboro for the cup donated by Tip Top Tailors, to be presented later. The game appeared to be assured for Millbrook almost from the start. At the close of the second inning the score was 3-1 in favor of the home team, by the end of the fourth it had crept up to 8-1 and the final score was Millbrook 10, Bethany 2.

Millbrook: Wright lf, Brackenridge 2b, M. Lord ss, R. Magill p, Kerr 1b, G. Lord c, Edmunds 3b, Lunn cf, Smith rf.

Bethany: Ginn c, H. Ryley 3b, W. Rowan lf, Edmunds 2b, Jackson 1b, C. Rowan p, B. Ryley ss, C. Finney rf, H. Magill cf.

Summary: Bethany, two runs, four hits, five errors. Millbrook, 10 runs, 11 hits, six errors.

The game between Bailieboro and Millbrook was close all the way. By the end of the fourth inning it was a two-all tie. At the end of the first half of the seventh and final inning it was four to two in Bailieboro's favor. Ross Magill, Millbrook's ace twirler, had taken over in the fifth to squelch the threatening Bailieboro rally. In the last half of the seventh Edmunds connected with three teammates on board, Wright, Brackenridge and Magill, to annex the Tip Top Trophy for Millbrook. Kerr, in his first appearance for Millbrook this year, turned in a solid performance both at bat and in the field.

Bailieboro: Hogg ss, Handley 1b, McGraw 3b, High p, Modsey 2b, Jackson lf, Walling cf, Atchison c, Eagleson rf.

Millbrook: Wright lf, Brackenridge rf, Lunn cf, Magill c, later p; Edmunds 3b, Dawson p, Kerr 1b, M. Lord ss, G. Lord 2b and c. G. Smith later replaced B. Lunn.

Millbrook—five runs, six hits, five errors.

Bailieboro: four runs, five hits, one error.

The girls' softball game which was played between the two hard ball ones ended in a 12 to 3 score for Yelverton.

Yelverton: Helen Nesbitt p, Eileen Malcolm ss, Grace Kerr c, Eileen McCullough 3b, Ruth Malcolm 1b, Madge Kerr 2b, Phyllis Mitchell lf, Marjorie Stinson cf, Helen Neals rf.

Millbrook: Lena-Marie Lowery lf, Dorothy Hutchison ss, Mary McDowell c, Ruth Richards 3b, Margaret Guthrie 1b, Frances Dawson rf, Nancy Richards 2b and later p, Marlene Richards cf, Eileen Powell p and 2b.

Ten dollars went to the winning team.

**CHILDREN'S RACES**

Winners in children's races were:

Boys nine to 12—Glen Forsyth, John Paquet, Doug. Sheppard.

Boys under nine—Alan Fowler, Barry Woods, Wayne Hogg.

Girls' race—Nancy Nattress, Sharon Bremner, Gail Olan, Gloria Raper, Karen Peterson.

Only five girls ran and each received a prize.

Fred Lowery and Hugh Blair were on the gate committee; George Harkness and Arnold Armstrong were in charge of games; C. K. Blair headed the works committee and in charge of the booth were J. H. Raper, Art. Foottit and Elmer Rowe.

Members of the Ladies' Auxiliary to the Legion served meals in the waiting-room down town and assisted in the booth on the fair grounds.

Secretary-treasurer D. R. Fowler reported the crowd to be about the same as last year, and that the Legion was well satisfied. In the evening a dance was held in the town hall.

QUEEN ELIZABETH admires sculptured figure of a duck during her visit to the Royal Scottish Academy in Edinburgh, Scotland.

# Rev. R. C. White Leaves Charge At Roseneath

ROSENEATH (ENS)—The Rev. R. C. White this week accepted a call to Bobcaygeon United Church.

Mr. White has been pastor of Roseneath United Church for the past eight years coming here from Bermuda.

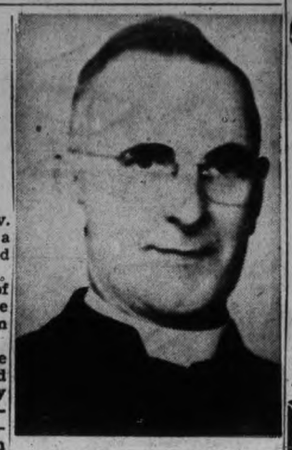
The Roseneath charge has three churches, Roseneath, Fenella and Centenary and he had previously been extended a unanimous invitation from the three congregations to remain another year with a substantial increase in salary.

During the eight years of service that Mr. and Mrs. White have given to this charge, every branch of the churches has flourished. All the Churches have been re-decorated; hydro has been installed in Fenella and Centenary Churches. New pianos have been purchased for Roseneath and Centenary churches and a new organ donated for Fenella church. New baptismal fonts were placed in the churches. New windows were also put in Roseneath church. There was a large increase in church membership, an increase in the W.M.S. allocation, increased membership in the W.A., the Sunday School, the Y.P.U. and Mission Band.

During the eight years the parsonage has been redecorated and a furnace, bathroom and a large sun porch added, new furniture has been purchased including a new refrigerator this year.

As well as being efficient as a pastor and a true friend of the community as a whole, Mr. White was also Secretary of the Cobourg Presbytery. This concludes his twentieth year as secretary, the other areas served included: Twillingate District, Newfoundland; Cumberland Presbytery in the Maritime Conference and now Cobourg.

Mrs. White has given freely of her time and talents in every phase of the work of the charge and in the Presbyterial.



THE REV. R. C. WHITE

## Chest X-Ray Survey In United Counties

COBOURG — Chest X-ray survey of industrial groups is called for July 15 and 16 in Northumberland and Durham Counties, it is announced by the counties health unit. The survey will be carried out by the division of tuberculosis prevention of the Ontario Department of Health, and one of the mobile X-ray units will be used.

The general population is given a mass X-ray survey every four years and the industrial section every two years. The survey this month will cover the entire counties except Cobourg, which was given a mass X-ray a few weeks earlier. The mobile equipment will also be used at the Alderville Indian reserve.

**ESTABLISHED IN 1886**

The central experimental farm at Ottawa and four branch farms in other parts of Canada were established in 1886.

## Millbrook News

Mr. and Mrs. Walter Williams of Engleburn Ave., Peterborough, were among the guests who called on Mrs. Mary Jane Stewart on her 97th birthday, Tuesday.

Weekend guests with Mr. and Mrs. G. F. Harrington included her cousins, Mr. and Mrs. Ed McClung of Hillsdale and their daughter, Mrs. Douglas Kettle and Mr. Kettle of Barrie.

## Fast Fighter

STOCKHOLM (CP) — A new Swedish jet fighter, the J29 or "Flying Barrel," made its first public appearance recently at a special exhibition. The craft is said to be capable of speed more than 650 miles an hour.

## Warm Wiring

LONDON (CP)—Soil-warming by electricity is being adopted increasingly in Britain, especially for production of tomatoes in greenhouses. The wires buried in the soil are usually charged with between five and 10 watts a square foot.

# N.S. Female Izaak Walton Spending Season In Bed

HALIFAX (CP)—Mrs. Florence Whittaker, Nova Scotia's female Izaak Walton, is spending the angling season in bed this year, an unwilling patient in hospital here.

While recovering from an operation, she can only dream of the bubbling streams and placid lakes where she fished along with the best of them during the last 30 years. It will be some months before she can hike again over the rugged terrain near her home at Sherbrooke.

It was more than 30 years ago that her grandfather, himself an avid fisherman, first interested her in the sport. Since then she has fished all the rivers in mainland Nova Scotia, mostly for salmon.

Her first honor was a silver award from the Halifax County Fish and Game Association for catching the largest Atlantic salmon—a 22-inch beauty. She was one of that association's first female members and later became the first woman member of the Sherbrooke Rod and Gun Association.

Then she became a registered guide—"so that I could take part in their competitions, was the real reason," she says. In her first year at the Nova Scotia Guides Association meet, 1938, she made a cast of more than 98 feet with a salmon rod.

FESTIVAL QUEEN— Norine Logan, 21, of Perth and Gananoque, was chosen "Queen of the Thousand Islands," at the International Festival at Gananoque.

# Dentists Appoint Advisory Committee

COBOURG (ENS)—Dentists in Northumberland and Durham have appointed an advisory committee which can be consulted by the medical officer of the counties health unit in regard to problems of preventative dentistry in these two counties. The most effective methods of preventing cavities and deformities in the teeth of children have been reviewed and discussed by the advisory committee and the officials of the health unit.

SHARK NETTED—This 30-foot shark destroyed a salmon net when fouled in its meshes at Horse Cove, Nfld. A young villager looks at the deep sea menace, the three-ton monster's gaping mouth held ajar by a piece of driftwood.

# Need Smart Decor Plans To Dress Up New Homes

A beautiful house deserves the complement of a charming and gracious interior. Our new houses are so inspiring that there should be no timidity of approach in closely relating the architectural backgrounds with the interior decoration.

They should join together to complete a design for living—a whole, composed of parts wherein nothing can be added or taken away without detriment. In the interior of the home, with unlimited possibilities for a wide variety of arrangements, the home planner has ample opportunity for achieving this harmonious design.

**Floors**

Many new homes have no basement, and the finished floor construction is a smooth concrete slab. This is made possible through radiant heating, and the floor actually becomes the source of the heat. The concrete may be colored and waxed, if economy is a deciding factor, or one may lay an asphalt tile, rubber tile, linoleum, or wood floor over the concrete. Carpeting may be laid on a pad directly over the concrete. This wide range of materials also gives an interesting range of colors and textures to study. Many delightful effects can be obtained in the treatment of the walls and ceilings to blend with the flooring material needed.

**Walls**

Today, wall surfaces are designed to be more than mere partitions enclosing a room, and they may be of other material than plaster. Dramatic effects have been introduced in the use of glass walls and picture windows. Some walls, with built-in devices, are a part of the storage scheme of convenient living. In the planning of combined areas, there are many instances where fabric partitions are used, and with these and other textures and colors with which to work, a masterful planning job can achieve a harmonious combination.

**Ceilings**

One of the best places to use acoustical materials is in the ceiling and either composition tiles or acoustical plaster will give the desired result. This holds true even though the ceiling may vary in height, as is the case in many of the new homes. While it is still quite general practice to use neutral tones on the ceiling, many rooms have been given new life by the use of usual color treatments there. Rooms in which the color of the ceiling is complementary to the color of the walls, instead of matching it exactly, are becoming increasingly familiar. Here, again, the originality and good taste of the home-planner are the deciding factors.

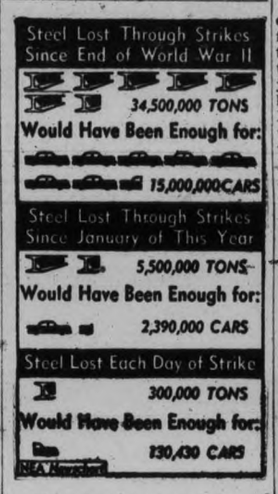
**Fabrics**

In the new home, emphasis should be placed on the use of drape fabrics for large glass areas, for separation of rooms, for absorbing sound or for providing large solid surfaces of plain colors.

Washable plastic fabrics for drapes and furnishings may be available in the very near future, and should be considered by the potential builder as an economical and practical medium of color and decoration. The designing of rooms for dual-use especially lends itself to the use of fabrics with interesting textures and colors. In the home where there was once a doorway or wall, the modern designer may use a fabric partition which can be pulled back when desired.

**Details, Furnishings, Etc.**

While there are many practical ideas for built-in furniture and appointments in some rooms, such as the work centre, bedrooms, living room and activities room, and a very great need (and desirability, too) for concealed storage units, there still exists the need for proper movable units. The only desirable movable units are those which actually serve a purpose, and the only real purpose is serving you. Don't clutter up your house with useless furniture, and when you do move in pieces, make sure they are in the right proportion for your room. Pictures, lamps, occasional tables, chairs . . . all should serve a practical purpose, either for design or for some functional use. Correct appointments and good taste in the use of color add much charm to any home. Plan to enable your family to enjoy beauty and comforts as well as convenient living.



STEEL STRIKE LOSSES — How many passenger cars the finished steel lost through major strikes would have provided hard metal for is shown by newschart above, based on American Iron and Steel Institute statistics. Largest annual steel loss—13,500,000 tons—took place in 1946. Second was 1949 with a loss of 9,200,000 tons.

# Truth Shall Make You Free

By WILLIAM E. GILROY, D.D.

Over the main entrance of the college where I spent some happy years, and where especially I learned to read and understand the Bible with a new intelligence and insight, was carved, deep in the stone, the words of Jesus, from John 8:32: THE TRUTH SHALL MAKE YOU FREE.

It was a noble, inviting, and inspiring motto for the students who entered that portal; and Victoria College, now a part of the University of Toronto, lived up to its motto, in the open-minded earnestness of its teachers.

But what was the truth, the knowledge of which, Jesus said, would set men free? And what is the freedom that the knowledge of the truth bestows?

We are wont to give far too little regard to the Judaistic backgrounds of Christianity, the spiritual realities, that Jesus said He had come not to destroy, but to fulfill.

Deep in these spiritual realities was the conviction concerning God and righteousness. This touched with glory Israel's great prophets, saints, and poets; but it was an ideal faith and experience which was betrayed by those whose religion was a matter of formalism and pretense, who "trusted in themselves and they were righteous, and despised others."

Yet, as a keen observer had noted, many of these hypocritical and wicked had been "in great power and spreading himself like a green bay tree," while the history of Israel was blood-red with the sufferings and persecutions of the devout, the faithful, and the saintly.

The Psalmist of Psalm 37 had something more to say, to get the record straight, but the discrepancy between the apparent prosperity of the wicked and the suffering of the saints emphasizes the age-old, and still present, mystery of truth and freedom.

The cynical Pilate asked Jesus, "What is truth?" and as a cynic he might well asked it, for he couldn't understand. The cynic of today might similarly ask, "What is freedom?" for the answer is not simple, and the freedom that is most real and deep the cynic might not consider freedom at all.

I think I have found a striking illustration of that sort of freedom. Thomas Cranmer was a leader in the Protestant Reformation in England. A career marked by much that was fine was marked also by much that was questionable and dishonorable, and reached its lowest depth, when he recanted from its former beliefs, faced with death in the persecutions of "Bloody Mary." But when, publicly, he renounced his recantation, accepted death at the stake, and thrust first into the flames the hand that had signed the recantation, he found a freedom in his dying hour, and a touch of glory in his life that nothing could tarnish.

# Mayors' Parley To Be Held In Montreal

By BRUCE PHILLIPS

CALGARY (CP)—An international conference of Canadian, American and overseas mayors may be held next year at Montreal.

George Mooney of Montreal, executive director of the Canadian Federation of Mayors and Municipalities, said yesterday the idea may be adopted before the Federation winds up its annual convention here tonight.

Mr. Mooney said the Federation hopes to hold an international conference in 1953 which will be attended by the United States president, the Canadian Prime Minister and the premiers of France and Great Britain.

The international meeting would be held in two parts. The Canadian delegates would meet alone to consider Canadian problems, and the representatives of all countries would meet to consider problems common to all.

**BUSY LAST DAY**

The final day of the conference is crowded with last-minute business. There is a discussion on ways to meet the problems of municipal growth, a speech by Mr. Justice Sir Brian Dunfield of the Newfoundland Supreme Court, decision on several resolutions and election of officers.

Yesterday, External Affairs Minister Pearson told the delegates the Allies should soon reach the point where they need not rely on the atom bomb to deal with Russia. But he warned that their biggest mistake would be in yielding to the temptation to cut down on the defence program.

"The danger remains great and pressing," he said.

On recent events in Korea, Mr. Pearson told reporters Canada had not been consulted on the bombing of power installations on the Yalu River, but "a strong case for argument exists for the opinion that it was strictly a military decision."

He said the Chinese Reds might retaliate for the Yalu River air attacks by bombing South Korean ports from Mamchurian bases.

He declined to say whether he agreed Manchuria should then be attacked, commenting: "We can't expect the air force to sit back and do nothing."

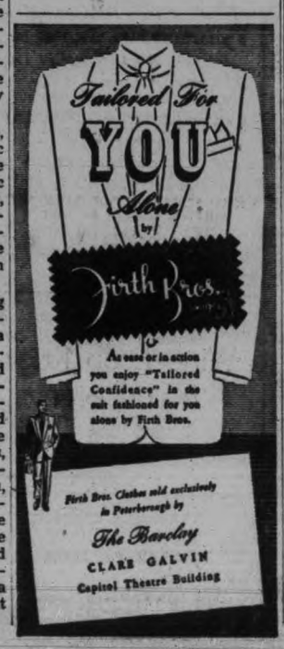
## Cordon Off Airport

COPENHAGEN, Denmark (Reuters)—Police cordoned off Copenhagen airport and lined the approach to it when North Atlantic Treaty Organization commander Gen. Matthew Ridgway flew in today on a visit. During the night police arrested about a dozen Communists painting slogans on walls such as "Ridgway go home" and "Ridgway the plague general."

## Bolt For U.N. Lines

TOKYO (AP)—Two North Korean soldiers last week made a bolt for Allied lines and surrendered to U. N. sentries, just outside the truce conference site at Panmunjom. The Communists were flabbergasted—for a time. Today the Peiping radio claimed both men were "spies" and accused the United Nations Command of using Panmunjom to "facilitate espionage activities."

STOPPER—In his first 19 appearances this season, Frank Smith, 24-year-old Cincinnati relief pitcher, turned in shutout ball in 17, allowed only 19 runs in 53⅔ innings. The Dodgers scored 15.



...is of the best years in the harbor's history is presently being unfolded along Montreal's lengthy w...nt. Officials say a record may be established in the movement of grain if the prevailing trend continues. Picture shows the many ships lined up alongside the harbor's three main piers.

## Swallows Watch

TARENTUM, Pa. (AP)—What makes a little boy tick? Bruce Hemphill, 2, had the answer today—a woman's wristwatch. The boy swallowed the watch—without a band—yesterday while playing at his home. A doctor prescribed a diet of mashed potatoes and roughage. Nature is expected to do the rest.

More than 87 per cent of all Canadian homes had electric lighting by 1951.

# Alberta Plans Election For August 5

EDMONTON (CP)—Alberta will vote in a general election Tuesday, Aug. 5. The Social Credit party, which first swept to power 17 years ago under William Aberhart's leadership, will seek its fifth consecutive term of office.

Premier Ernest C. Manning, 43-year-old successor of the party founder who died in 1943, announced the election date Saturday. Nomination day is July 22.

It will be the fourth provincial election this year. Saskatchewan voted June 11 and British Columbia the next day. Quebec will have a general election July 16.

The election announcement was coupled with the surprise disclosure of the impending retirement from public life of Mines Minister N. E. Tanner, who has administered Alberta's oil resources since the first big strike at Leduc in 1947 transformed the fortunes of the province.

**TO LEAVE POLITICS**

Mr. Tanner, 54, member of the Legislature for Cardston since 1935 and Minister of Mines for 15 years, will leave politics to take an important position in industry.

Shortly before Premier Manning announced the election date, Alberta's 11th legislature was dissolved. The party standing at dissolution was: Social Credit 49; Liberals, 3; C.C.F., 2; Independent Social Credit, 3.

The new legislature will have 61 seats, four more than the old.

RUSSIA'S AIM: BALTIC SEA INTO SOVIET LAKE?—The recent shooting down of two Swedish planes by Russian jet fighters underlines the long-reported efforts of Russia to turn the Baltic Sea into a private Russian lake. Latest of these reports comes from a Hamburg, Germany, newspaper, which says the Russians are constructing a tremendous "Stalin Wall" (dark-shaded area) of military and naval bases along the coast east of Germany. In this heavily fortified zone are submarine, radar, rocket and aircraft installations. The Russians have also declared that Soviet territorial waters extend for 12 miles, in contrast to the internationally accepted three-mile limit.

# Canadian Author John M. Gibbon Dies In Montreal

MONTREAL (CP)—John Murray Gibbon, 77, distinguished in Canadian literature and the founder and first president of the Canadian Authors' Association, died yesterday.

Mr. Gibbon, born in Udewelle, Ceylon, in 1875, was also interested in music and art. He won the Governor-General's medal in 1939 for his Canadian Mosaic, adapted from a series of 10 radio plays. In them, he attempted to illustrate the music of nationalities making up Canada's population. He studied painting in Paris and was honored by membership in groups open only to artists.

He was the author of five novels —"Hearts and Faces," "Drums of Fire," "The Conquering Hero," "Pagan Love" and "Eyes of a Gypsy." He was also author of many non-fiction works dealing with Canada and its history. The "Romance of the Canoe," published last year, analyzed the part the canoe played in the building of Canada, Mr. Gibbon's adopted homeland.

Mr. Gibbon came to Canada in 1913 as general publicity agent in Montreal for the Canadian Pacific Railway Company. He retired in 1945. He first became associated with the C.P.R. in London in 1907, as supervisor of publicity for Europe.

DELEGATE "HATTED"—The invitation to "Go Western" met with warm approval from this Montreal delegate to the annual convention of the Canadian Federation of Mayors and Municipalities at Calgary. Dr. E. G. D. Murray of the Montreal city council and professor of bacteriology at McGill University accepts the traditional white hat of welcome a pretty Calgary miss.

## Lonely Shark

BRIGHTON, England (CP)—A thresher shark hanging around the Sussex coast is believed the mate of a captive female shark here.

## Apsley News

Mr. and Mrs. Jas. Cassan, Brandon, Man., were guests of Mr. and Mrs. Dawson Whitmore and other relatives and friends here. Other guests at the Whitmore home are Mr. and Mrs. Ralph Riddel and baby Doreen, Oshawa.

Mr. J. W. McLean, Barrie, is visiting Mr. and Mrs. W. Lean. Mr. Lean was at one time a school teacher in this district and is now a retired public school inspector from Red Deer, Alberta.

Mr. Fred Webdale spent the weekend with his daughter, Mrs. A. Blakely, Mr. Blakely and children.

Mr. and Mrs. Bill Houle are visiting relatives in Deseronto.

Mr. and Mrs. Bert Smith, Miss Iris Smith and Lewis Smith, Peterborough, are spending the holiday weekend with their parents Mr. and Mrs. Chas. Smith at Jack's Lake and attended the regatta there.

Mr. and Mrs. H. C. Chate and little granddaughter, Nancy Chate, Peterborough, spent a pleasant holiday with Mrs. Chate's sister, Mrs. O. Montgamery.

Mrs. Norman Reddick and baby son have returned from St. Joseph's Hospital in Peterborough.

Congratulations to Mr. and Mrs. Dan Whitmore who on Thursday celebrated the 45 anniversary of their marriage with a family dinner party.

# Hospital Cuts Number Of Patients

CHATHAM (CP)—The number of patients being treated at the Chatham General Hospital is to be reduced.

The hospital trustees have ordered the 50 beds set up in corridors to cope with demands for hospital care be removed as quickly as patients vacate them in order to eliminate serious and dangerous overcrowding.

The board's order will reduce the number of patients from approximately 200 to 150. Further restrictions may be necessary should the provincial Department of Health order the hospital to close a 60-year-old section which was condemned 10 years ago.

The trustees, meeting Monday for the first time since Chatham ratepayers rejected a $600,000 request for the hospital's $2,225,000 expansion program, also decided the expansion would depend on the amount of money collected. Only $234,000 of the expansion fund's objective was raised.

# Dr. T. Galbraith Dies In Napanee

NAPANEE (CP)—Dr. Thomas M. Galbraith, 81, honorary life member of the Ontario Medical Association, died yesterday. Dr. Galbraith, practising physician here for more than 30 years, was chairman of the board of the Napanee public library. He served as jail surgeon and county coroner for many years.

Born in Thornbury, he received his early education at Midland, later graduating in arts from Queen's University, Kingston. After teaching school in Gananoque and Port Hope he returned to Queen's where he graduated in medicine.

Dr. Galbraith served his internship at Kingston General Hospital and the Ontario Mental Hospital at Kingston.

He moved to Napanee in 1918 and while here delivered more than 1,200 babies.

# Pearson Suggests New Patron Saint

CALGARY (CP)—External Affairs Minister Pearson last night suggested a patron saint for this jittery age: St. Vitus.

St. Vitus dance is the common name for a disease involving nervous twitches. Mr. Pearson nominated the saint, speaking to the Canadian Federation of Mayors and Municipalities, because of the "tense and impatient" nature of the times.

He also proposed a variation on grace before meals, for those interested in social-welfare benefits:

"For what we are about to receive, make us truly conscious of the fact that we will have to pay for it."

## Alderville News

Mr. and Mrs. Edgar Marsden, Brantford, were holiday guests of Mr. and Mrs. Thomas Marsden.

Mr. and Mrs. Lawson Chase, Toronto, spent the first of the week in the village.

Mr. Roger Crowe, Akron, Ohio, is holidaying with his parents, Mr. and Mrs. Borden Crowe.

Mr. and Mrs. Alton Bigwin, Welland, were Sunday guests of Mrs. James Bigwin, Jr.

A presentation and dance will be held in Roseneath L.O.L. Hall, Friday evening for Mr. and Mrs. Bob Heafield, nee Lois Bigwin. A Keene Orchestra will furnish music for dancing.

Mrs. Arthur Whetung and grand-daughter Miss Isabel Whetung, Omemee, are holidaying with Mrs. Everett Simpson and family.

Week-end and holiday guests of Mr. and Mrs. Norman Marsden were: Misses Elgie and Marion Marsden, Mr. and Mrs. W. Gibson, Wayne and Gary Gibson, Mr. and Mrs. Robert Marsden, Jr., Mr. and Mrs. Verne Marsden and family, Toronto.

Mr. Raymond Daley, Liverpool, Ohio, is holidaying with friends in the village.

Mrs. John Chase is a patient in Cobourg General Hospital.

Mr. John D. Loukes is holidaying in Toronto.

Miss Marie Charles, Cobourg, is holidaying with Mr. and Mrs. Claybourne Beaver.

Mr. and Mrs. Harold Cain, Toronto, are holidaying with Mr. John Smoke.

Mr. Elmer Beaver returned to Toronto after a holiday with his mother, Mrs. Sam Beaver.

Misses Doris and Vivian Beaver, Toronto were holiday guests of their mother, Mrs. Ross Beaver.

## Electe[d] President

Mr. and Mrs. James Slattery, Seaforth, spent the weekend with the latter's parents, Mr. and Mrs. S. Bertrand.

Rev. Sister M. Blandina, Camrose, Alta., is visiting her sisters, Misses Clara and Lena Sullivan.

Mr. Allen Driscoll spent a few days this week with relatives at Brinston.

Mr. Desmond Gehan, Fort William, is visiting his father, Mr. James E. Gehan, and Miss Gladys Gehan.

Miss Anne Gaffney, Toronto, spent the weekend with her mother, Mrs. B. Gaffney and other relatives here.

Mr. and Mrs. A. M. Jones and Kathy are occupying Mr. C. W. Gladney's cottage at Crowe Lake.

Mr. and Mrs. Fred Wells are occupying their cottage at Crowe Lake.

Mr. and Mrs. Steve Pociluyko and Mr. and Mrs. Paul Pociluyko spent the weekend with relatives at Port Anne.

# Children Swamp Polio Scientists

HOUSTON, Tex. (AP)—Children by the hundreds yesterday swamped medical scientists who believe they can prevent paralysis from polio with gamma globulin, a blood fraction containing disease-fighting anti-bodies.

Parents in polio-plagued Houston voluntarily brought their children to eight clinics for a 50-50 chance at receiving the injection.

In the controlled experiment by researchers of the University of Pittsburgh, half of 35,000 children in one-to six age bracket will receive, the gamma blobulin. The othrs get a non-effective substitute —a harmless gelatin.

A team of experts will remain here through the polio season in the fall to check on children inoculated.

The final results of the test probably won't be known until early in 1953.

# U.K. Doctors' Increase Will Be Expensive

LONDON (Reuters)—A pay increase for the 20,000 doctors in Britain's state-run health service will cost taxpayers 35,456,000 pounds between now and next March, supplementary estimates disclosed yesterday.

The increase, retroactive to the start of the socialized medical service in 1948, represents an average payment to each doctor of nearly 1,800 pounds. The service is already costing Britons nearly 10 pounds a person annually.

# Winners Announced Of Four Fellowships

TORONTO (CP)—The 1952 winners of the four Imperial Oil fellowships for advanced research were announced yesterday.

They are: Ronald Allan Burwash and David MacIndoo Fawcett, both of Edmonton, Peter McCaul Cornell of Fort William and Robert Krotkov of Kingston. All expect to work for the degree of Doctor of Philosophy in their various fields —geology, biochemistry, economics and physics, respectively.

Tenable for three years, each fellowship is valued at $1,250.

## Easily Spotted

LLANDARCY, Wales (CP)—Major W. S. Bryan picked out of a crowd of 500 persons the guest he was expecting from Switzerland. He said he knew his man by the ornate brown and white shoes he was wearing. Bryan claims he can tell Americans by their ties, Danes by their suits and Germans by their suitcases.

# 'Wild Spending' Provokes Row

ST. JOHN'S (CP)—Charges that "wild government spending" had brought Newfoundland to a shaky financial position were hurled at the Liberal administration yesterday by Progressive Conservative leader Peter J. Cashin.

The charges were denied by Premier Smallwood as the stormy Throne Speech debate continued in the second day of a special session of the Legislature, called to authorize a $10,000,000 provincial bond issue.

Mr. Cashin started a sharp flurry with a claim that the government had "made away with" nearly $40,000,000 since coming into power.

"We loaned quite a bit," said Premier Smallwood. "That's not gone. We invested quite a bit, and that's not gone either."

# House Of Commons Finally Gets Picture

LONDON (CP)—A picture painted for the House of Commons in the 19th century has finally made it to its original destination.

The painting, showing a famous debate of 1644, was done by the late J.R. Herbert, R.A., for presentation to the Commons. But Herbert quarrelled with William Ewart Gladstone, then British Prime Minister, and the painting was obtained by the late Duke of Manchester.

Recently it came into the possession of Charles Stambois, art connoisseur and cognac shipper. Stambois decided it should finally go to the Commons and presented it to the speaker, W.S. Morrison.

## Norwood News

Mr. and Mrs. George Bitten were weekend guests of Mr. and Mrs. William Parker at their cottage at Mississauga River.

Vernon Loyst of Sudbury is spending a month's vacation with his grandfather, Wilfred Throop.

Mr. and Mrs. Delmer Rodgers of Peterborough were weekend guests of the former's parents, Mr. and Mrs. Walter Rodgers.

Miss Joan Oitment of Apsley is visiting her grandparents, Mr. and Mrs. George Oitment, Sr.

Mrs. James Baskin and Betty Ann of Toronto are holidaying at their home here.

Mr. and Mrs. Gerald Baker, Mrs. William Baker, spent Sunday in Toronto, the guests of Mr. and Mrs. Ted Treleaven.

Mr. and Mrs. George Bitten are holidaying at White Lake, the guests of Mr. and Mrs. Clifford Dainard.

Bay Webb and Donald Andrews of Peterborough were weekend guests with relatives and friends.

Mr. and Mrs. Jack Stewart, Ross and John are holidaying at their cottage on the Trent River, near Hastings.

Mrs. H. G. Buck and Miss Grace Reynolds are spending the summer at their cottage at Stony Lake.

Miss Bessie Breckenridge and Jack Breckenridge of Toronto are spending their vacation with their sister, Miss Margaret Breckenridge.

Mr. and Mrs. Kenneth Pakenham and family are holidaying at their cottage at Stony Lake.

## NOW—She Laughs at age

Springtime in her heart again! New-found gaiety, peppy energy. A new, alive woman—sparkling eyes, better color, fresh, calm youthfulness — has replaced the worn, tired look. No wonder life has taken on new interests. Yes, thousands of once faded women, weary from blood-iron poverty, have bloomed anew with the help of Dr. Williams Pink Pills. Try Dr. Williams Pink Pills yourself for 30 days! Enjoy new health, pep and energy. Start today! Get back "in the pink" with

PETERBOROUGH EXAMINER

VOL. CV. No. 2 THURSDAY, JULY 3, 1952

# MAIN STREET TOPICS

**BREAKS ANKLE BONE**

Freddy McMillan, of Cobourg, outfielder of Baltimore Millers softball team, broke a bone in his ankle Wednesday while sliding into home during course of a game in Oshawa with C.G.E. He was taken to Cobourg General Hospital and brought home today. But he will be laid up six to eight weeks. McMillan was also a star hockey player.

**WAR NURSE DIES**

Margaret Isabel Thirsk, 72, awarded the Oak Leaf for bravery during the First World War, died Wednesday in Sunnybrook veterans' hospital. Born in Mount Albert, Miss Thirsk trained as a nurse at Cobourg and later served at hospitals in St. Catharines, Chatham and Walkerton. She retired in 1925.

**BARBERS CONVENTION**

Plans were laid at a recent meeting by the executive of the Peterborough branch of the Ontario Barbers' Association with provincial secretary E. V. Warke, Toronto, to hold the association's annual convention in Peterborough, at the Empress hotel Oct. 21 and 22. Don Moore, president of the local branch of 55 barbers, said about 250 barbers are expected from all over the province.

## 7-Year-Old Girl First Polio Case In Peterborough

Peterborough's first case of polio of the season was reported today by Dr. R. A. Kelly, medical officer of health.

The patient is a 7-year-old girl and is being treated in Peterborough Civic hospital.

Dr. Kelly said that the case was not a severe one and no paralysis have been reported as yet.

## Questions Need For 2 Hydrants

"What do they fear with the existing arrangement," Utilities Commissioner Dr. G. R. Langley asked at a meeting of the Utilities Commission Wednesday when a letter from the Civic Hospital Board of Governors requesting two more fire hydrants was read.

After a safety engineer of Improved Risk Mutuals, the underwriters who hold the bulk of the Civic's fire insurance risk, inspected the hospital some time ago, the firm recommended that two more hydrants be installed in addition to the two existing ones, and also the completion of a ring water main around the hospital. Both these proposals were contained in the original plans of the hospital.

General manager Ross Dobbin told the commission it would cost $6,000 to complete the main and install the two hydrants.

**AGREED TO SPEND $50,000**

Commissioner Fred Hills and chairman G. S. Matthews pointed out that the commission had originally agreed to spend $50,000 on providing water and sewer facilities to the hospital and had now spent about twice this amount.

Mr. Matthews expressed the opinion that the commission might do the work if the hospital paid the costs. No definite action was taken on the request, but on the suggestion of Dr. Langley, a letter is being sent to the hospital board, asking for more detailed information and the reason for the request being made.

Since the building is fireproof and there is no sprinkler system installed, Dr. Langley said he could see no reason why the present two hydrants did not offer sufficient protection.

## Here We Go Again

*Are we in for another spell of hot, sticky weather that saps energy and discourages work? Wednesday the day was warm, but humidity was low and Peterborough citizens managed to get along with little difficulty. Today the humidity was reported in Toronto as 95 per cent and felt about the same here. It seemed just like last week when the city wilted. Thunderstorms are predicted, but we had thunderstorms last week too.*

## Police Suspect Murder In Man's Death

COLLINGWOOD (CP)—Police Chief Lewis Elliott said today he is investigating the possibility of murder in the death of railway employee Douglas Young, 50, found dead on a couch in his basement Wednesday.

Young's body was removed to a funeral home where a bullet wound was found in the chest.

Later his widow, 38, said Young committed suicide and she hid the .22-calibre rifle.

She said she was sitting on the front veranda reading a novel—Marriage in Paradise—when her husband called her. She said she didn't go to him because she didn't want to get into an argument.

She discovered him dead later after she finished her book and went to the basement to get water.

Dr. D. A. Harvey said he did not make a close examination of the body and presumed Young suffered heart trouble.

Chief Elliott said there were no powder burns on the body. Dr. Harvey said Young had been dead about a half hour when he examined him.

## Believe Truman After Senatorship

KANSAS CITY, Mo. (AP)—The possibility that President Truman may be on the Democratic ballot in November appeared to be increasing today.

In this case, however, the evidence indicated that Truman would be listed as a candidate for the United States Senate—not for re-election as president.

Influential Missouri office holders believe it is entirely possible that Truman's name may be substituted for that of J. E. Taylor, attorney-general of Missouri on the November ticket for the Senate if Taylor wins the nomination.

Although Taylor's friends deny any such deal, critics of the President say they expect such an exchange to be arranged if the Democratic presidential nominee at Chicago is satisfactory to Truman.

## Leg Mangled By Hay Mower

COBOURG (ENS)—Lee Woods, 11, son of Mr. and Mrs. Ed Woods, Hamilton Twp. had his right leg badly mangled yesterday when he stepped in front of a hay mower being operated by the hired man. The machine was stopped within a foot of the point of contact or otherwise the boy might have lost a leg. He was taken to Cobourg General Hospital where doctors worked three hours sewing up severed muscles, ligaments and stitching up the leg.

## Pope Decides Fox Better Off In Zoo

VATICAN CITY (AP)—Pope Pius lets a pet goldfinch fly freely about his Vatican apartment but he has decided an eagle and a fox aren't exactly household pets.

Shepherds in southern Italy presented the eagle and the fox to the Pontiff as symbols of the difficulties of their work and the danger to their flocks from rapacious animals.

The Pontiff expressed thanks and sent the pair to the Rome zoo.

## To Be Consecrated

RIMOUSKI, Que. (CP)—Msgr. Louis Levesque, former vicar-general of Rimouski recently appointed bishop-elect of Hearst, Ont., in succession to Most. Rev. Georges Landry, who resigned, will be consecrated here Aug. 15, Msgr. C. E. Parent, archbishop of Rimouski, announced last night.

## May Change Routes For Traffic

### Seek Way To Ease Congestion At Noon, 5 P.M.

Re-routing of some of the motor cars which stream out of industries at five o'clock, clogging main thoroughfares and causing traffic tie-ups is being considered as a possible solution to rush hour traffic congestion.

Union and management representatives of C.G.E., Quaker Oats and Outboard Marine attended a special meeting of the Traffic Committee today to discuss the problem and investigate the possibilities of finding some satisfactory solution to it.

The employee and company representatives of the three major industries attending the meeting approved a suggestion that a survey be made in their plants, to find out where bottlenecks exist and to determine if alternative routes could be used.

It was decided to hold in abeyance for the present, the proposal that working hours be staggered to reduce the number of cars which immediately pour into streets around the city's industrial plants as soon as the five o'clock whistles blow.

**SUGGESTED BY FRED ASH**

The idea of the survey, first suggested by Quaker Oats general operating manager Fred Ash, is to circulate a questionnaire among employees, asking them which routes they travel to and from their homes and then, once the results are known, it is hoped that it may be possible to get some employees who drive their cars to work to use alternative routes.

George Wallace, one of the C.G.E. Local 524 U.E. representatives attending, suggested that if Romaine Street were paved, more C.G.E. and Outboard Marine employees would probably use it as an east-west route instead of going north to Charlotte Street or south to Lansdowne Sreet.

City Clerk E. A. Outram, chairman of the Traffic Committee and city engineer A. E. Chalmers said that the city had realized the need for paving Romaine Street, and had wanted to do it for three years now.

**STILL OPPOSED**

However, there is still opposition by some ratepayers who do not want to have their taxes raised by the cost of paying for the paving. The Municipal Board will hold a hearing at the City Hall July 10 on the paving of Romaine Street, and Monaghan Road, and it was suggested that it would be a good idea for those interested in having the street paved to attend the hearing and explain why it should be paved, as representatives of the minority opposed to it will no doubt be putting their case strongly to the board.

Mr. Outram said that regardless of how desirable it might be to have Romaine Street paved at once, it would be a dangerous precedent to go ahead with it in the face of opposition and abandon the policy of paying for the paving of streets by taxes on street frontage as a local improvement project.

Other factors contributing to traffic tie-ups, aside from hundreds of cars pouring into streets within a few minutes, are the maze of railway tracks which criss-cross most of the main streets, and the fact that the pattern of streets in the city do not lend themselves to one way streets, which are being used successfully in other centres to solve traffic congestion.

**STOP LEFT TURNS**

Mr. Chalmers pointed out that "It is important that people park in such a manner that they do not have to make left hand turns and cause a jam up of cars."

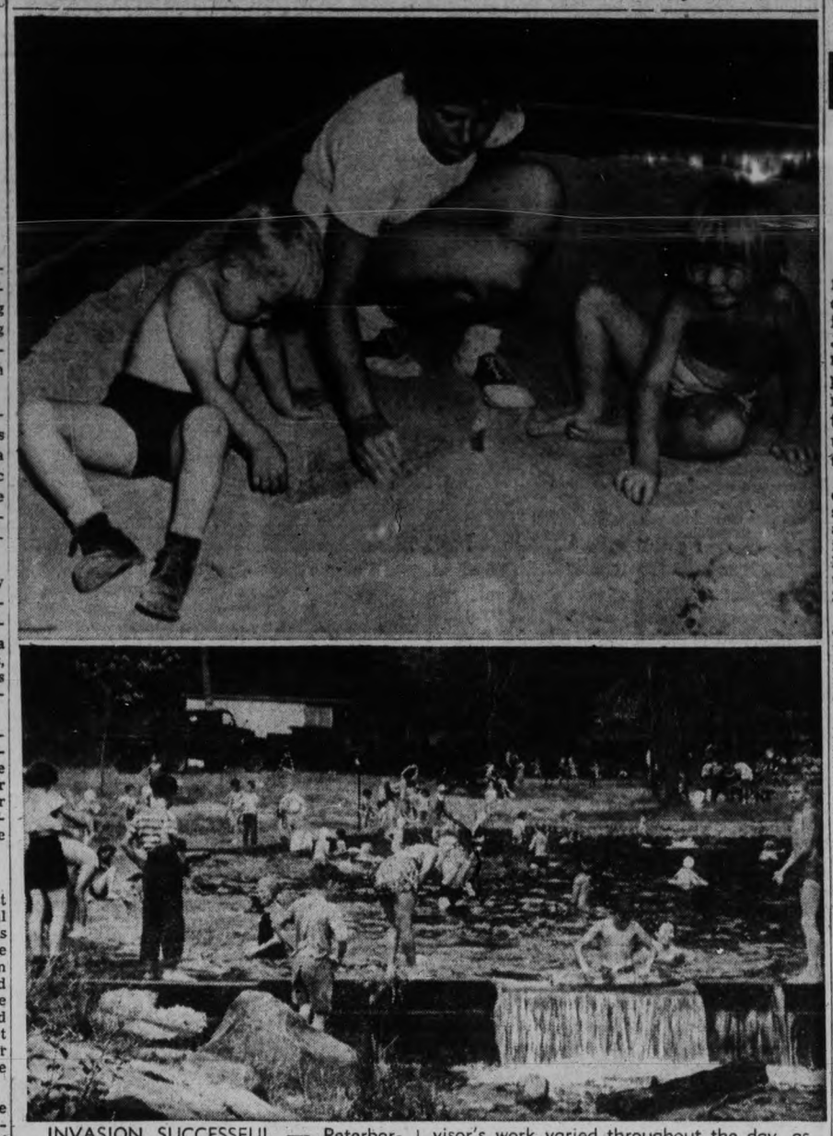
"Quaker Oats and Westclox could be helped by straight through traffic," commented Police Chief John Thompson and he added that "a slight difference in quitting time at Westclox, Quaker Oats, and the other two big industries, C.G.E. and Outboard Marine", might help solve the problem.

J. H. Vernor, General Manager of Westclox has already informed the Traffic Committee that his company's manufacturing methods do not lend themselves to staggered hours and that he does not consider the problem to be very serious.

Consequently, any change of hours to reduce the amount of traffic using Hunter St., would have to be on the part of Quaker Oats.

R. M. Hardie, C.G.E. personnel manager said that there are six shifts operating at C.G.E. and any change in working hours for one shift might interfere with other shifts as well.

Two other suggestions for helping to minimize the problem of speeding the flow of rush hour traffic were to forbid parking on both sides of all main thoroughfares and to erect a stop light at Monaghan Rd., and Lansdowne St., which would give north and southbound traffic a longer advantage over east-westbound traffic on Lansdowne St.



INVASION SUCCESSFUL — Peterborough children flocked to city playgrounds by the hundreds Wednesday, the opening day for the summer program. Today the invasion continued with the same force; busiest places were playgrounds at Hamilton and Inverlea parks where there are also swimming facilities. A playground supervisor's work varied throughout the day, as at Hamilton park where Phyllis Peryer (top, centre) entertained children playing in the sand. At the same time the small natural pool was jammed with kiddies, the swings were filled and the teeter-totters balancing back and forth. In the midst a softball game was played. — (Examiner Staff Photos).

## Judge J. N. Kennedy Sworn In

Judge de Navarre Kennedy, O.B.E., Q.C., Wednesday afternoon was sworn in as the judge of the county court of the County of Peterborough. He succeeds the late Judge S. L. Smoke who died suddenly Dec. 10 after being on the Peterborough bench for 17 years. Judge Kennedy was a member of the Toronto law firm of Manning, Mortimer and Kennedy. He is the eighth judge to preside over the Peterborough courts. Three judges were present for the ceremony, held in the courthouse. As senior judge of the judicial district, Judge J. A. McGibbon of Lindsay presided. Flanking him were Judge F. J. MacRae of Whitby and Judge M. A. Miller of Cobourg.

Thirty members of the Peterborough County Bar Association and other members of the legal profession in this judicial district assembled in their courtroom gowns to welcome the new judge.

After the induction ceremony, a formal reception was held at the Peterborough Golf and Country Club, River Rd. N., for Judge Kennedy and Mrs. Kennedy and their daughter, Miss Anne Kennedy.

**TAKES OATH**

Judge Kennedy was escorted to the judge's bench, while court officials and spectators stood, by Sheriff John Harstone. And the administration of the oaths of office and allegiance were by John A. Bradshaw, Q.C., in his capacity as clerk of the peace.

Addresses of welcome were made by Warden Dick Stewart, of Peterborough County; Mayor Hugh Waddell of the City of Peterborough; F. D. Kerr, Q.C., senior member of the Peterborough bar; Mrs. Bradshaw as president of the Peterborough Law Association; and by two personal friends of Judge Kennedy—Terence Sheard, Q.C., and H. E. Manning, Q.C., both of Toronto.

Speakers, in their addresses of welcome, emphasized Judge Kennedy's versatility.

**MANY ACTIVITIES**

Mr. Sheard described him as a "sport" who likes tennis and badminton. His hobbies include painting, writing and sailing. He is a member of the Arts and Letters Club, the Badminton and Racquet Club, the Toronto Lawn Tennis Club, and the Royal Canadian Yacht Club.

Judge Kennedy is also a member of the Canadian Society of Painters in Water Colors, the Ontario Society of Artists, the Canadian National Exhibition and the National Gallery of Canada.

His books include "In the Shadow of the Cheka," "Crime in Reverse," "The Rain of Death," and "The History of the Department of Munitions and Supply."

Mr. Manning paid tribute to the new judge as a man who "hates stuff shirtism . . . altogether a man of many capabilities, a judge with an all-round personality."

Judge Kennedy thanked everybody who had any connection with the induction ceremony or the reception later. He said it was a pleasure for himself, his wife and his daughter to be back in the Kawarthas. For many years the Kennedy family summered at Kirkfield.

He philosophized that "it is pleasant to live with the illusion of importance; but it is well that the illusion should not last too long."

The Bible used in administering the oath of office was presented to Judge Kennedy on behalf of the Bar Association.

**FORMER JUDGE**

In the opening address, Judge McGibbon praised the work of the late Judge Smoke whom he knew for 17 years. He described Judge Smoke as a quiet man who was conscientious in the discharge of his duties.

With a professional eye, Judge McGibbon looked around the newly-renovated courtroom and pronounced it to his liking. "It's not like the color scheme in my courtroom," said the judge tersely.

At the same time Judge McGibbon was of the opinion there should be an improvement in the judge's quarters.

"They should be surrounded with the dignity that goes with the office," he said.

Judge Kennedy was born in London, England, in 1888. He was educated in Westminster schools and at Cambridge University where he received his B.A. degree in 1909.

Five years later he married the former Elsie Pinks. They have one daughter, Anne.

He was called to the Bar in 1918 in British Columbia and in 1921 he graduated from Osgoode Hall, Toronto.

During the Second World War he was director of the Department of Munitions and Supply.

## Building Permits Lag Behind 1951

Value of building permits issued by the city engineer's office until the end of June this year, total $1,700,532 as compared with $1,942,382 for the same period in 1951.

During June, 127 permits were issued and the total value of the buildings to be erected is $425,100, slightly below the value of $471,329 of the 125 permits issued in June, 1951.

There were 17 garage permits approved, having a total value of $4,850; 21 houses, valued at $178,100 and 89 miscellaneous buildings valued at $262,150.

In May of this year, 137 permits were issued for buildings having a total estimated value of $323,784.

## Car Rolls Over 2 Slightly Hurt

Two people were slightly injured Wednesday night when the car in which they were passengers was in collision with a second car and rolled over on the 9th line of Dummer township.

Nettie Miles, 65, of Otonabee township, was one of the two who were badly shaken up; and Beatrice Chrysler, 13, of R.R. 2 Indian River received a cut on her right hand.

Beatrice's father, 46-year-old Arthur Chrysler, who was driving their car, escaped unhurt. So did the other driver, Arthur Gilders, who lives on the Chemong Road.

**AT CROSSROADS**

The accident occurred at a crossroads on the 9th line of Dummer township, one and a half miles porth of Norwood.

Gilders was driving south on the 9th line when he came into collision with the eastbound Chrysler car. The Chrysler car rolled over in the ditch as a result of the impact.

O.P.P. Constable Wallace Mohns investigated.

## Skeletons Found By Diggers

Workers of the Tom Doughty Construction Company unearthed two skeletons on Monday on the farm of Fred Stenson, south of Highway 28 and the Watering Trough Hill.

Some people who saw them claimed they were sheep bones but the majority who were asked said that they were definitely human remains. As soon as the bones were exposed to the air they crumbled into several pieces. The workmen came on the relics so unexpectedly that they were unable to tell in which position they lay. Had they been Indian remains they would probably have been found in an upright sitting position, it was learned.

Their identity is therefore a mystery but everyone agreed who viewed them that the bones had lain in the burial plot for an extremely long time.

## Number Unemployed Twice Year Ago, But Show Decreases Since March

### William Mellis Unable To Predict When Total Without Jobs Will Drop

### Unemployment Last Year Hit Record Low

Short time work in Peterborough factories, laying off in a few companies and unsteady employment in the Peterborough district caused 1,359 unemployed to seek unemployment insurance in June. This is more than double the total for June, 1951 when 591 were drawing funds. William Mellis, manager of the National Employment office, said in announcing the monthly figures that "I don't know" when the unemployment will ease but that "we would like to know."

Actually unemployment in the district declined for the fourth straight month. In May 1,474 men and women were drawing money, in April 1,611 and in March 1,962. February and January were peak unemployment months, over the 2,000 mark.

A year ago unemployment dropped to a record low since the war, only 516 on claim. But so far this year there is no indication that the unemployed load will drop that far this month.

In June there were 1,034 city people obtaining insurance money as compared with 485 a year ago. Mr. Mellis said that the large increase was due to short time work in the Western Clock Company, the Brinton-Peterborough Carpet Company, the Dominion Woollens and Worsteds Co. and the C.G.E. Orders relieved some tension this week at the carpet company.

**DISTRICT TRIPLED**

Unemployed in this district in June were triple June's total of 106 a year ago. This increase is largely due to poor conditions in Campbellford mills and the lumber camps to the north.

Summer resorts absorbed the large number of P.C.V.S. and St. Peter's High students seeking work for summer months. The employment office placed 201 girls and 26 boys in resorts.

The office received 258 jobs from the resorts for girls and only 30 for boys as compared with 227 applications from girls for jobs and 62 from boys. This year the average wage is $45 a month with board, other wages varying from $30 to $60 with board.

People looking for work in the city increased to 1,149 from 861 of last year during June. Meanwhile the available jobs, in most cases requiring skilled workers, decreased to 62 from 205.

## Fire Breaks Out For Inspection

OMEMEE—(ENS)—The Omemee volunteer fire brigade put out a grass fire Wednesday under the observation of a representative of the Ontario Fire Marshall's department.

Herbert Mallory of this department was visiting Omemee in connection with the government project to standardize the size of fire hose couplings in the province, when the alarm came in.

The grass fire was on the farm of Stanley Lowes in the Frank Hill district, 10 miles northeast of Omemee and was quickly brought under control.

The cause of the fire is not definitely known. But it is believed that it may have started from smouldering sparks which may have been left from burning rubbish in the vicinity a month before.

The fire was brought under control before reaching a large freshly sawn pile of wood.

Mr. Mallory commended the members of the brigade on their efficiency and speed in which they mobilized.

Accompanying Mr. Mallory was G. Johnson of the Empire Brass Co., and Thomas Madill of the Lindsay Fire Department.

## Workers Sign Agreement With Utilities

A new agreement has been signed between the Peterborough Utilities Commission and the Independent Peterborough Utilities Commission Employees Union.

The union is recognized as the sole collective bargaining agent for all commission employees, except office staff, confidential workers, foremen and supervisors above the rank of foremen.

While the agreement remains in force, the commission has agreed that there will be no lockouts and the union has agreed that there will be no slow downs, strikes or work stoppage of any form.

**DEDUCT UNION DUES**

The commission has agreed to deduct union dues when an employee makes the request in writing, and working hours for each class of employment are laid down, except that department supervisors are authorized to "adjust the working schedule of employees entering consumer premises, in order that efficient and convenient service to consumers will be maintained."

The operating staff will work from 7.30 a.m. to 5 p.m. with an hour for lunch Monday to Thursday, and will get off at 4.30 Friday afternoon. They will also have Saturday afternoon off, but each employee is required to work every sixth Saturday on a duty roster which includes all hourly-rated employees.

Shift workers will work a 44-hour week and employees detailed for stand-by duties on week-ends will receive a minimum eight hours' pay at regular rates.

**PAYING FOR OVERTIME**

Overtime will be at the rate of time and one-half for any time worked above the regular hours, with double time for Sundays. Eight statutory holidays are included in the agreement and workers who work on these holidays will receive overtime rates in addition to the regular pay all workers receive for these holidays.

After one year continuous service, employees will be granted one week vacation with pay, those with three years' service with the commission will receive two week vacations with pay, and after 20 years' service, three weeks.

The agreement sets up a grievance procedure for settling difficulties which may arise between the union and the commission and provides for the submission of grievances to an arbitration board if the grievance procedure fails to provide a solution that is satisfactory to either party.

There will be a one-cent adjustment for each 1.3 points change in the cost of living index.

At a meeting Wednesday, the commission approved the action of a committee appointed at the last meeting, to determine the normal progression and form of rating sheet and instructed general manager Ross Dobbin to complete the rating of all employees as rapidly as possible.

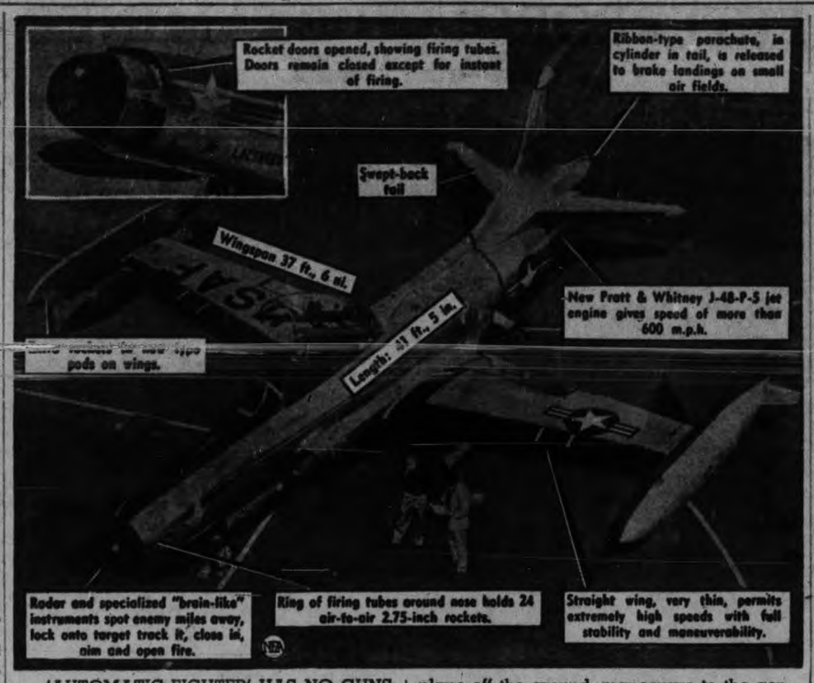
Wright, Wilma — Eng 1, Mod Hist 1, Geog 1, Alg 1, Chem 1, French 3, P Ed and Health 1.

The following students were granted aegrotat standing in the subjects listed:

Clarke, Margaret — Mod Hist 3, Alg 3, Geom C, Chem C, P Ed and Health 1.

Ratz, Eleanor — Eng 3, Mod Hist C, Alg 1, Chem C, Latin 3, P Ed and Health 2.

Wilkinson, Betty — Eng 3, Mod Hist 1, Alg 1, Chem 2, Latin 3, French C, P Ed and Health 2.



'AUTOMATIC FIGHTER' HAS NO GUNS —Picto-diagram above shows outstanding features of the radically new Lockheed F-94C Starfire, now in production at Burbank, Calif., and being delivered to the Air Force. The Starfire carries no guns, relying on rockets. It is so nearly automatic that the pilot and radar operator have little else to do but take the plane off the ground, manoeuvre to the general target area guided by ground radar, switch on the "electronic crew," monitor operation of the piloting and rocket-control apparatus during the attack and then land. The all-weather interceptor is designed for air defense of the United States, with the specific mission of knocking out invading enemy bombers.

# Belleville Held To Five Hits

CAMPBELLFORD (ENS)—The Campbellford ball club defeated the Belleville Checker Cab team on Monday night by the score of 12 to 3 in a well attended game on the local high school diamond.

The local team played their best game of the season, with Baker on the mound having complete control of the game. He allowed five hits, walked three men and struck out seven batters. Archer, on the Belleville mound, was replaced in the third inning by Sherry who in turn was replaced by Casey. All told, Belleville hurlers gave up ten hits, eleven walks, in six innings of play.

Belleville opened the scoring on the first when they scored one run and added a single tally in each of the fifth and sixth innings. Campbellford came back strong, however, scored two in the first, seven in the third and two in the fourth, following these up with a single counter in the fifth.

# U.S. Paper Readers Paying Higher Price

NEW YORK (AP)—Many newspaper readers in cities across the United States are paying a few cents more each week for their papers since the announcement in May that the price of Canadian newsprint was going up to a record high.

An Associated Press survey today showed prices for single copies, home deliveries or mail subscriptions have been boosted by newspapers in more than 40 cities.

Most newspapers cited the newsprint price boost as a major factor in their decisions, at the same time pointing to continuing advances in other costs of production.

# Work Proceeding On New Water Main

Work is proceeding on the laying of a 12-inch water main from Maria and Mark Sts., to the corner of Hunter St., and Armour Rd., via Mark and Sophia Sts., utilities commission general manager Ross Dobbin told a meeting of the commission Wednesday.

The larger main will provide increased capacity for servicing the Westclox plant.

Earlier this year, the first section of the 12-inch main was laid from Burnham Point to the corner of Mark and Maria Sts.

# 100 People Lose Lives Over 4-Day Holiday

By THE CANADIAN PRESS

One hundred persons lost their lives in accidents during the four-day celebration of Dominion Day.

Traffic accidents accounted for 35 and 34 were drowned during the holiday from Friday midnight to midnight Tuesday. Ontario recorded 43 deaths, Quebec 19, Manitoba 11, New Brunswick 10, British Columbia nine, Alberta five, Nova Scotia two and Prince Edward Island one.

# Decide Tara Man Died Of Drowning

KINCARDINE (CP) — Gordon Gammie, 26, of Tara, whose body was found in Lake Huron yesterday about seven miles south of here, died of drowning, an autopsy disclosed. It was at first thought he might have been the victim of foul play.

Gammie had been missing since Saturday. His car was found Monday seven miles south of here with the licence plates removed.

# Urge Provinces Aid Housing

CALGARY (CP)—More provincial aid for low-cost housing is asked by the Canadian Federation of Mayors and Municipalities.

At the annual convention yesterday, delegates passed a resolution asking all provincial governments to use the federal offer to pay 75 per cent of land and construction costs for low-rent housing.

Some provinces are making use of the federal government's offer, but the federation wants it accepted by all the provinces.

Another resolution was passed requesting federal and provincial governments to assume definite responsibility for flood damage, and prevention of flood damage to municipalities.

## Boy Feared Drowned

WASAGA BEACH (CP)—Freddie Pavelin, 12, was believed to have been drowned in the Nottawasaga River here yesterday after going for a noon-hour swim. He was reported missing about 3 p.m. and searchers found his clothing piled by the edge of the river.

NOVELTY CHARMS IN EVERY PACKAGE

Boys and Girls! Save and trade these dandy gold and silver colored charms. Make them into tricky pins or bracelets. One inside every package of Rice Flakes between the carton and the inside wrapper.

COLLECT ALL 12!

# Police Recover Two Bodies

WASAGA BEACH (CP)—Police today recovered the bodies of Freddie Pavelin, 12, and Wilfred Melron, 13, while dragging Nattawasaga River for the former who was reported missing yesterday. It was not known Melron had drowned until his body was recovered.

Search for Pavelin started several hours after he left for a noon-hour swim. Melron was not reported missing until early today and at that time it was not known that he had been with the other boy.

Apparently no one witnessed the tragedy but police said they believe one of the boys tried to rescue the other.

Their bodies were discovered close together about 10 yards from shore.

Pavelin's clothes were found on the edge of the river.

Melron, a resident of nearby Collingwood, was working here at a bowling alley for the summer.

Wasaga Beach, on Georgian Bay, is about 65 miles northwest of Toronto.

# Month-Long Strike Settled At Elora

GUELPH (CP)—A strike that started a month ago at Elora Industries over a new contract has been settled. Some of the striking members of Local 4586 of the United Steelworkers of America (C.I.O.-C.C.L.) returned to the plant today and started to prepare it for a return to work July 7.

This was the result of a conference [illegible] the plant Wednesday between the management and representatives of the union.

It is planned to start negotiations next Tuesday for a new contract to replace the one which expired the end of June.

# Aircraft Crashes In Field, None Hurt

AMOS, Que. (CP)—An airplane of the Gold Belt Air Services Ltd., crashed in a hay field six miles north of here yesterday. The airplane was considered a total loss, but neither the pilot, Louis Lone, nor his passenger, Slim Damy, were injured.

The crash was believed caused by engine failure.

# Bailieboro News

Mrs. Jean Leveille, Toronto, spent the weekend with Mrs. Charles Barnard.

Mrs. Esther Robinson, Harwood, spent the weekend with Mrs. George Nurse.

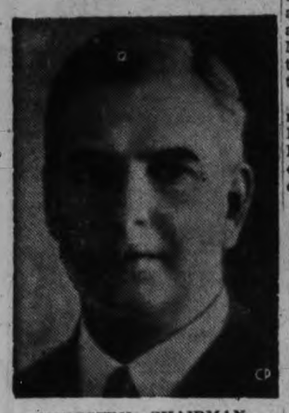
Mr. and Mrs. Reginald Atcheson were visitors to Niagara Falls on Saturday and also Tuesday where they attended the funeral of the late Bert Franks, husband of Gertrude Holden Franks.

Mrs. Peterson of the Y.W.C.A. Peterborough, was a weekend guest of Mr. and Mrs. W. C. Dawson.

Mr. and Mrs. Alvin Tate, Toronto, spent the weekend with Mr. and Mrs. Harold Tate.

The pupils, parents and teacher, Mrs. Ada Montgomery of School No. 2, spent an enjoyable closing afternoon at the Schadwick Camp on Rice Lake. All enjoyed bathing and picnic lunch. During the afternoon the presentation of a tray was made to the teacher as a parting gift. In September Mrs. Montgomery will be on the teaching staff of Port Hope Central School.

Guests of Mr. and Mrs. C. Barnard, Bailieboro on Tuesday were Mrs. Ray Barnard, Barbara and Robert, and Miss Jean McNeill of Sudbury and Mrs. Chislett of Port Hope.



FORESTRY CHAIRMAN — Sir Roy Lister Robinson will head the delegation from Britain to the sixth British Commonwealth Forestry conference to be held in Ottawa from August 11 to September 13. Lord Robinson is chairman of Britain's Forestry Commission.

Clean Your REFRIGERATOR for ½ cent a week!

Baking soda banishes food odors and smears by emulsifying the greasy film that holds them. Keeps interior and ice cube trays sweet and fresh too. Just sprinkle a little baking soda on a damp cloth and wipe all inside surfaces every week.

COW BRAND BAKING SODA

PRICES EFFECTIVE UNTIL SAT., JULY 5th, 1952
